HER MAJESTY'S GOVERNMENT

MEMBERS OF THE CABINET

(Formed by the Rt. Hon. Gordon Brown, MP, June 2007)

Prime Minister, First Lord of the Treasury and Minister for the Civil Service—The Rt. Hon. Gordon Brown, MP

Leader of the House of Commons, Lord Privy Seal and Minister for Women and Equality—The Rt. Hon. Harriet Harman, QC, MP

First Secretary of State, Secretary of State for Business, Innovation and Skills and Lord President of the Council—The Rt. Hon. The Lord Mandelson

Chancellor of the Exchequer—The Rt. Hon. Alistair Darling, MP

Secretary of State for Foreign and Commonwealth Affairs—The Rt. Hon. David Miliband, MP

Secretary of State for Justice and Lord Chancellor—The Rt. Hon. Jack Straw, MP

Secretary of State for the Home Department—The Rt. Hon. Alan Johnson, MP

Secretary of State for Environment, Food and Rural Affairs—The Rt. Hon. Hilary Benn, MP

Secretary of State for International Development—The Rt. Hon. Douglas Alexander, MP

Secretary of State for Communities and Local Government—The Rt. Hon. John Denham, MP

Secretary of State for Children, Schools and Families—The Rt. Hon. Ed Balls, MP

Secretary of State for Energy and Climate Change—The Rt. Hon. Edward Miliband, MP

Secretary of State for Health—The Rt. Hon. Andy Burnham, MP

Secretary of State for Northern Ireland—The Rt. Hon. Shaun Woodward, MP

Leader of the House of Lords and Chancellor of the Duchy of Lancaster —The Rt. Hon. The Baroness Royall of Blaisdon

Minister for the Cabinet Office and for the Olympics, and Paymaster General—The Rt. Hon. Tessa Jowell, MP (Minister for London)*

Secretary of State for Scotland—The Rt. Hon. Jim Murphy, MP

Secretary of State for Work and Pensions—The Rt. Hon. Yvette Cooper, MP

Chief Secretary to the Treasury—The Rt. Hon. Liam Byrne, MP

Secretary of State for Wales—The Rt. Hon. Peter Hain, MP

Secretary of State for Defence—The Rt. Hon. Bob Ainsworth, MP

Secretary of State for Transport—The Rt. Hon The Lord Adonis

Secretary of State for Culture, Media and Sport—The Rt. Hon. Ben Bradshaw, MP

DEPARTMENTS OF STATE AND MINISTERS

Business, Innovation and Skills—

Secretary of State—The Rt. Hon. The Lord Mandelson §

Ministers of State—
Minister for Business, Innovation and Skills—The Rt. Hon. Pat McFadden, MP
Minister for Science and Innovation—The Rt. Hon. The Lord Drayson §
Minister for Regional Economic Development and Co-ordination—The Rt. Hon. Rosie Winterton, MP (Minister for Yorkshire and the Humber)* §
Minister for Trade and Investment—The Lord Davies of Abersoch, CBE §
Minister for Higher Education and Intellectual Property—The Rt. Hon. David Lammy, MP
Minister for Further Education, Skills, Apprenticeships and Consumer Affairs—Kevin Brennan, MP §

Parliamentary Under-Secretaries of State—
The Rt. Hon. The Baroness Vadera §
The Lord Carter of Barnes, CBE §
The Lord Young of Norwood Green
Ian Lucas, MP

Cabinet Office—

Minister for the Cabinet Office and for the Olympics, and Paymaster General —The Rt. Hon. Tessa Jowell, MP (Minister for London)*

Minister of State—The Rt. Hon. Angela E Smith, MP

Parliamentary Secretary—
The Rt. Hon. The Baroness Vadera §

Children, Schools and Families—

Secretary of State—The Rt. Hon. Ed Balls, MP

Ministers of State—
Minister for Children, Young People and Families—The Rt. Hon. Dawn Primarolo, MP
Minister for Schools and Learners—Vernon Coaker, MP
Kevin Brennan, MP §

Parliamentary Under-Secretaries of State—
Iain Wright, MP
The Baroness Morgan of Drefelin
Diana R Johnson, MP

Communities and Local Government—

SECRETARY OF STATE—The Rt. Hon. John Denham, MP

MINISTERS OF STATE—
Minister for Regional Economic Development and Co-ordination—The Rt. Hon. Rosie Winterton, MP (Minister for Yorkshire and the Humber)* §
Minister for Housing—The Rt. Hon. John Healey, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Shahid Malik, MP
Ian Austin, MP (Minister for the West Midlands)*
The Lord McKenzie of Luton §

Culture, Media and Sport—

SECRETARY OF STATE—The Rt. Hon. Ben Bradshaw, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Barbara Follett, MP (Minister for the East of England)*
Gerry Sutcliffe, MP
The Lord Carter of Barnes, CBE §
Siôn Simon, MP

Defence—

SECRETARY OF STATE—The Rt. Hon. Bob Ainsworth, MP

MINISTERS OF STATE—
Minister for the Armed Forces—Bill Rammell, MP
The Rt. Hon. The Lord Drayson §

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
The Rt. Hon. The Baroness Taylor of Bolton §
Quentin Davies, MP
Kevan Jones, MP

Duchy of Lancaster—

CHANCELLOR OF THE DUCHY OF LANCASTER AND LEADER OF THE HOUSE OF LORDS—The Rt. Hon. The Baroness Royall of Blaisdon

Energy and Climate Change—

SECRETARY OF STATE—The Rt. Hon. Edward Miliband, MP

MINISTERS OF STATE—
The Rt. Hon. The Lord Hunt of Kings Heath, OBE
Joan Ruddock, MP

PARLIAMENTARY UNDER-SECRETARY OF STATE—
David Kidney, MP

Environment, Food and Rural Affairs—

SECRETARY OF STATE—The Rt. Hon. Hilary Benn, MP

MINISTER OF STATE—
Jim Fitzpatrick, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Huw Irranca-Davies, MP
Dan Norris, MP
The Rt. Hon. The Lord Davies of Oldham

Foreign and Commonwealth Affairs—

SECRETARY OF STATE—The Rt. Hon. David Miliband, MP

MINISTERS OF STATE—
Minister for Africa, Asia and the UN—The Rt. Hon. The Lord Malloch-Brown, KCMG
Minister for Europe—The Baroness Kinnock of Holyhead
Minister for Trade and Investment—The Lord Davies of Abersoch, CBE §
Ivan Lewis, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Chris Bryant, MP
The Rt. Hon. The Baroness Taylor of Bolton §

Government Equalities Office—

MINISTER FOR WOMEN AND EQUALITY—The Rt. Hon. Harriet Harman, QC, MP §

MINISTER OF STATE—Maria Eagle, MP §

PARLIAMENTARY SECRETARY—Michael Jabez Foster, MP *(Hastings and Rye)*

Health—

SECRETARY OF STATE—The Rt. Hon. Andy Burnham, MP

MINISTERS OF STATE—
The Rt. Hon. Mike O'Brien, QC, MP
Phil Hope, MP (Minister for the East Midlands)*
Gillian Merron, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
The Rt. Hon. The Lord Darzi of Denham, KBE
Ann Keen, MP

Home Office—
SECRETARY OF STATE—The Rt. Hon. Alan Johnson, MP
MINISTERS OF STATE—
Minister for Borders and Immigration—Phil Woolas, MP (Minister for the North West)* §
Minister for Policing, Crime and Counter-Terrorism—The Rt. Hon. David Hanson, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Admiral The Lord West of Spithead, GCB DSC
Meg Hillier, MP
Alan Campbell, MP

International Development—
SECRETARY OF STATE—The Rt. Hon. Douglas Alexander, MP
MINISTER OF STATE—Gareth Thomas, MP
PARLIAMENTARY UNDER-SECRETARY OF STATE—
Michael Foster, MP *(Worcester)*

Justice—
SECRETARY OF STATE—The Rt. Hon. Jack Straw, MP
MINISTERS OF STATE—
The Rt. Hon. Michael Wills, MP
Maria Eagle, MP §
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Bridget Prentice, MP
The Lord Bach
Claire Ward, MP

Law Officers' Department—
ATTORNEY-GENERAL—The Rt. Hon. The Baroness Scotland of Asthal, QC
SOLICITOR-GENERAL—Vera Baird, QC, MP
ADVOCATE-GENERAL FOR SCOTLAND—The Lord Davidson of Glen Clova, QC

Leader of the House of Commons—
LEADER OF THE HOUSE OF COMMONS, LORD PRIVY SEAL AND MINISTER FOR WOMEN AND EQUALITY—The Rt. Hon. Harriet Harman, QC, MP §
PARLIAMENTARY SECRETARY, OFFICE OF THE LEADER OF THE HOUSE OF COMMONS—
Barbara Keeley, MP

Northern Ireland—
SECRETARY OF STATE—The Rt. Hon. Shaun Woodward, MP
MINISTER OF STATE—
The Rt. Hon. Paul Goggins, MP

Privy Council Office—
LORD PRESIDENT OF THE COUNCIL, FIRST SECRETARY OF STATE AND SECRETARY OF STATE FOR BUSINESS, INNOVATION AND SKILLS—The Rt. Hon. The Lord Mandelson §

Scotland Office—
SECRETARY OF STATE—The Rt. Hon. Jim Murphy, MP
PARLIAMENTARY UNDER-SECRETARY OF STATE—
Ann McKechin, MP

Transport—
SECRETARY OF STATE—The Rt. Hon. The Lord Adonis
MINISTER OF STATE—The Rt. Hon. Sadiq Khan, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Paul Clark, MP
Chris Mole, MP

Treasury—
PRIME MINISTER, FIRST LORD OF THE TREASURY AND MINISTER FOR THE CIVIL SERVICE—The Rt. Hon. Gordon Brown, MP
CHANCELLOR OF THE EXCHEQUER—The Rt. Hon. Alistair Darling, MP
CHIEF SECRETARY—The Rt. Hon. Liam Byrne, MP
FINANCIAL SECRETARY—The Rt. Hon. Stephen Timms, MP
MINISTER OF STATE—Phil Woolas, MP (Minister for the North West)* §
ECONOMIC SECRETARY—Ian Pearson, MP
EXCHEQUER SECRETARY—Sarah McCarthy-Fry, MP
PARLIAMENTARY SECRETARY—The Rt. Hon. Nicholas Brown, MP (Minister for the North East)*
FINANCIAL SERVICES SECRETARY—The Lord Myners, CBE

LORDS COMMISSIONERS—
Frank Roy, MP
Steve McCabe, MP
Dave Watts, MP
Tony Cunningham, MP
Bob Blizzard, MP

ASSISTANT WHIPS—
Mark Tami, MP
Dawn Butler, MP
George Mudie, MP
John Heppell, MP
Lyn Brown, MP
Mary Creagh, MP
Sharon Hodgson, MP
Kerry McCarthy, MP
David Wright, MP

Wales Office—

SECRETARY OF STATE—The Rt. Hon. Peter Hain, MP

PARLIAMENTARY UNDER-SECRETARY OF STATE—
Wayne David, MP

Work and Pensions—

SECRETARY OF STATE—The Rt. Hon. Yvette Cooper, MP

MINISTERS OF STATE—
Minister for Employment and Welfare Reform—The Rt. Hon. Jim Knight, MP (Minister for the South West)*
Minister for Pensions and the Ageing Society—Angela Eagle, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Jonathan Shaw, MP (Minister for the South East)*
Helen Goodman, MP
The Lord McKenzie of Luton §

Her Majesty's Household—

LORD CHAMBERLAIN—The Rt. Hon. The Earl Peel, GCVO, DL

LORD STEWARD—The Duke of Abercorn, KG

MASTER OF THE HORSE—The Rt. Hon. The Lord Vestey, KCVO

TREASURER—The Rt. Hon. Thomas McAvoy, MP

COMPTROLLER—The Rt. Hon. John Spellar, MP

VICE-CHAMBERLAIN— Helen Jones, MP

CAPTAIN OF THE HONOURABLE CORPS OF GENTLEMEN-AT-ARMS—The Lord Bassam of Brighton

CAPTAIN OF THE QUEEN'S BODYGUARD OF THE YEOMEN OF THE GUARD—The Rt. Hon. The Lord Davies of Oldham

LORDS IN WAITING—The Lord Tunnicliffe, The Lord Young of Norwood Green, The Lord Brett, The Lord Faulkner of Worcester

BARONESSES IN WAITING—The Baroness Farrington of Ribbleton, The Baroness Thornton, The Baroness Crawley

§ *Ministers with responsibilities in more than one Department*

* *Regional Ministers (in addition to other ministerial responsibilities)*

Full list:

Ministers for the English Regions—
Ian Austin, MP (Minister for the West Midlands)
The Rt. Hon. Nicholas Brown, MP (Minister for the North East)
Barbara Follett, MP (Minister for the East of England)
Phil Hope, MP (Minister for the East Midlands)
The Rt. Hon. Tessa Jowell, MP (Minister for London)
The Rt. Hon. Jim Knight, MP (Minister for the South West)
Jonathan Shaw, MP (Minister for the South East)
The Rt. Hon. Rosie Winterton, MP (Minister for Yorkshire and the Humber)
Phil Woolas, MP (Minister for the North West)

SECOND CHURCH ESTATES COMMISSIONER, REPRESENTING CHURCH COMMISSIONERS—Sir Stuart Bell, MP

HOUSE OF COMMONS

THE SPEAKER— The Rt. Hon. John Bercow, MP

CHAIRMAN OF WAYS AND MEANS—The Rt. Hon. Sir Alan Haselhurst, MP

FIRST DEPUTY CHAIRMAN OF WAYS AND MEANS—Sylvia Heal, MP

SECOND DEPUTY CHAIRMAN OF WAYS AND MEANS—Sir Michael Lord, MP

CHAIRMEN'S PANEL

Mr. David Amess, MP, Janet Anderson, MP, Mr. Peter Atkinson, MP, Hugh Bayley, MP, Miss Anne Begg, MP, Mr. Joe Benton, MP, Mr. Clive Betts, MP, Sir John Butterfill, MP, Mr. Martin Caton, MP, Mr. Christopher Chope, MP, Frank Cook, MP, John Cummings, MP, Mrs. Janet Dean, MP, Christopher Fraser, MP, Mr. Roger Gale, MP, Mr. Mike Hancock, MP, Mr. Jim Hood, MP, Mrs. Joan Humble, MP, Mr. Eric Illsley, MP, Mr. Martyn Jones, MP, Robert Key, MP, Dr. William McCrea, MP, Mr. Eric Martlew, MP, Mr. Edward O'Hara, MP, Mr. Bill Olner, MP, Mr. Greg Pope, MP, Bob Russell, MP, Jim Sheridan, MP, Mr. Gary Streeter, MP, David Taylor, MP, Joan Walley, MP, Mr. Mike Weir, MP, Hywel Williams, MP, Mr. David Wilshire, MP, Ann Winterton, MP, Sir Nicholas Winterton, MP

HOUSE OF COMMONS COMMISSION

The Rt. Hon. The Speaker (Chairman), Sir Stuart Bell, MP, Alan Duncan, MP, The Rt. Hon. Harriet Harman, QC, MP, Nick Harvey, MP, The Rt. Hon. David Maclean, MP,

SECRETARY OF THE COMMISSION—Dorian Gerhold

ASSISTANT SECRETARY—Robert Cope

ADMINISTRATION ESTIMATE AUDIT COMMITTEE

Alan Duncan, MP (Chairman), Clive Betts, MP, Nick Harvey, MP, Mark Clarke, Alex Jablonowski, David Taylor, FCA

SECRETARY OF THE AUDIT COMMITTEE—Hannah Weston, PhD

MANAGEMENT BOARD

Malcolm Jack, PhD (Chief Executive), Douglas Millar, CB (Director General, Chamber and Committee Services), John Pullinger (Director General, Information Services), Andrew Walker (Director General, Resources), John Borley, CB (Director General, Facilities), Joan Miller (Director of Parliamentary ICT) (External Member), Alex Jablonowski (External Member)

SECRETARY OF THE MANAGEMENT BOARD—Philippa Helme

SPEAKER'S SECRETARY—Angus Sinclair

SPEAKER'S COUNSEL—Michael Carpenter

SPEAKER'S CHAPLAIN—Rev. Canon Robert Wright

MEDICAL ADVISER TO THE SPEAKER—Dr. Ron Zeegen, OBE, FRCP, MRCS, DObst, RCOG

PARLIAMENTARY COMMISSIONER FOR STANDARDS—John Lyon, CB

PARLIAMENTARY SECURITY CO-ORDINATOR—Peter Mason

Written Ministerial Statements

Monday 13 July 2009

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Environment Council (25 June)

The Secretary of State for Environment, Food and Rural Affairs (Hilary Benn): The Minister of State, Department of Energy and Climate Change, my hon. Friend the Member for Lewisham, Deptford (Joan Ruddock) and I, represented the UK at the Environment Council in Luxembourg on 25 June.

Member states agreed the Council conclusions on biodiversity and invasive alien species. The conclusions highlighted the urgent need to make further progress on protecting biodiversity and stressed the need for an EU framework to tackle invasive alien species. The UK welcomed the conclusions and stressed the need for any biodiversity targets post 2010 to be achievable and measurable. Furthermore, the UK agreed that a comprehensive approach to invasive alien species was needed but this should explore all options to ensure that targeted measures were taken at whatever levels would be most effective. The Commission said that it would submit a proposal on invasive alien species in 2010.

Ministers reached political agreement on the recast industrial emissions directive, which incorporates several pieces of existing EU legislation on industrial emissions, notably the integrated pollution prevention and control directive. The UK successfully made the case for further flexibility in the large combustion plant provisions in order to ensure increased protection of the environment without compromising moves to low carbon generation and security of supply. In addition, the UK successfully secured a higher threshold for anaerobic digesters to come within scope of the directive.

The presidency provided an update on progress on the soil framework directive. The Commission underlined the urgent need for an EU legislative framework for the protection of soil, as soil degradation did have significant cross border impacts and could affect the internal market. The UK stated that it still had significant concerns regarding the cost and complexity of implementing the proposed directive and called for a different approach which recognised the differences between member states.

Over lunch member states discussed international climate change, where the UK set out its priorities in the run-up to Copenhagen. The UK stated that the EU needed to maintain engagement bilaterally and multilaterally with key partners at the same time as continuing internal discussions on development of an EU negotiating position ahead of Copenhagen.

Ministers adopted conclusions on the management of bio-waste. The conclusions stressed the importance of bio-waste management and urged the Commission to complete its impact assessment with a view to preparing an EU legislative proposal if appropriate.

Under "any other business" Ministers discussed a suggestion from Austria that authorisations for cultivation of genetically-modified crops should be taken at member state level; the UK stressed the need for early agreement on the proposal to address illegal timber entering the EU market; and finally, the UK welcomed the Commission communication on carbon capture and geological storage (CCS) in emerging and developing countries.

HOME DEPARTMENT

Serious Organised Crime Strategy

The Parliamentary Under-Secretary of State for the Home Department (Mr. Alan Campbell): I am laying before parliament the Government's new Serious Organised Crime Strategy—"Extending Our Reach: A Comprehensive Approach to Tackling Serious Organised Crime". Copies will be available in the Vote Office.

Serious organised crime is a large and growing problem. Trafficking in drugs and people, fraud and financial crime cost the UK Exchequer in the region of £30 billion a year. However, the impact of organised crime is not remote: its victims range from those whose lives are ruined by drug addiction to women who are trafficked for sexual exploitation. If it is allowed to take root, organised crime can create a vicious downward spiral of fear, intimidation and economic decline, which tends to harm the most vulnerable members of society in some of our most deprived communities. So as well as being a question of national security, organised crime is also a question of social justice.

Since publication of the 2004 White Paper "One Step Ahead" the police, the Serious Organised Crime Agency and other law enforcement agencies have made significant progress in the fight against organised crime. It is no exaggeration to say that the UK is a world leader in this area. However five years on, serious organised crime continues to evolve. We are facing new high-tech crimes that did not exist five years ago and organised criminals are increasingly basing themselves in weak and failing states to avoid detection and traffic their drugs.

This means that now is the right time to update and strengthen our response. Today's strategy sets out the reforms we will make to ensure that Government, law enforcement, businesses and citizens are equipped with the necessary tools to reduce the harm caused by organised crime. We will go further than ever before in taking the fight to organised criminals through four key approaches.

First, we will ensure that all organised criminals are within our reach. Using new techniques to create a radically improved intelligence picture, we will take action against all organised criminals, making the principle of "lifetime management" a reality—from the traditionally "hard to touch" at the top end, through to the long tail operating at the lower end of the organised crime spectrum.

Secondly, we will consider all approaches to tackling organised crime. We will use whatever tools work best to have maximum impact. Whenever we can we will prosecute. But we will also go further in using non-criminal proceedings—administrative, immigration, regulatory or tax powers—to disrupt the activities of those involved in serious organised crime and do even more to recover their finances and assets.

Thirdly, we will ensure that the whole of Government play their part in the fight against organised crime. We will strengthen the criminal justice system approach (from prevention through to imprisonment) and also bring to bear the powers of agencies working outside of law enforcement—like local authorities or bodies such as the DVLA, the Health and Safety Executive, or local housing offices—to combat organised crime together.

Finally, we will maximise collective efforts overseas—from capacity building in states at risk from organised crime through to strengthening multilateral institutions. Similarly, we will work closer with the private sector, for example, in preventing e-crime, and with the public to engage their help in the response.

Serious organised crime threatens our safety, damages our communities and subverts our economy. The magnitude, scope and sophistication of serious organised crime in the 21st century demands an equally sophisticated and ambitious response from Government to tackle it.

Both Government Departments and law enforcement agencies will have a key role to play in implementing this strategy. That is why I am also pleased to announce the appointment of Sir Ian Andrews as the new chairman of the Serious Organised Crime Agency. I believe that Sir Ian has the necessary skills and experience to help guide SOCA through the coming years, so that they can play a full part in delivering this strategy.

JUSTICE

Corporate Manslaughter and Corporate Homicide (Custody Provisions)

The Parliamentary Under-Secretary of State for Justice (Claire Ward): The Corporate Manslaughter and Corporate Homicide Act 2007 received Royal Assent on 26 July 2007.

An organisation is guilty of the new offence if the way in which its activities are managed or organised causes a death and this amounts to a gross breach of a relevant duty of care to the deceased. A substantial part of the breach must have been in the way activities were managed by senior management.

The majority of the Act was implemented on 6 April 2008, with the exception of section 2(1)(d) which makes the duty of care a custody provider owes to a person who is detained a relevant duty of care, and section 10 on publicity orders where we await guidelines to be issued by the Sentencing Guidelines Council.

Procedures for caring for some of society's most vulnerable or volatile people are highly complex. When the legislation was passed we explained that a period of three to five years would be needed for custody providers to prepare for implementation of section 2(l)(d).

We are publishing a second annual report today which should be read in conjunction with the 2008 report. Our second annual report discusses the progress made by the various custody providers since this time last year and what remains to be done. While implementing the Act provides a useful catalyst and driver, reducing deaths in custody is a core part of long-term work by the Government together with custody providers and this long-term agenda is reflected in the report.

We have made significant progress in the last 12 months and we remain on course to commence the implementation of section 2(1)(d) by April 2011 as previously announced.

The report includes developments in Northern Ireland for which my right hon. Friend the Secretary of State for Northern Ireland, has responsibility under the Act.

Copies of the report can be found in the Libraries of both Houses. The report is also available in the Vote Office and the Printed Paper office and on the Ministry of Justice's website at: www.justice.gov.uk

David Blakey Report

The Minister of State, Ministry of Justice (Maria Eagle): I am making this statement to update the House of the progress we have made in implementing the Blakey report: "Disrupting the Supply of Illicit Drugs into Prisons", which was published in July 2008.

David Blakey CBE QPM DL, a former inspector of constabulary and chief constable of West Mercia, was commissioned to conduct a review into the effectiveness of the Prison Service's measures for disrupting the supply of drugs into prisons, and to make recommendations for improvements. The Blakey report made 10 recommendations, all of which were accepted by the Government.

Over the past 12 months we have made significant progress in implementing all the recommendations.

- We have equipped all prisons with a body orifice security scanner (BOSS chair) to detect internally concealed items such as mobile phones. The roll-out was completed in May and the chairs are now in use across the estate;
- We have also equipped all prisons with portable high-sensitivity metal-detecting wands. These were also rolled out in May;
- We are seeking to make full use of the Offender Management Act to prosecute those caught attempting to bring drugs and mobile phones into prisons, which carries a sentence of up to 10 years imprisonment;
- Every prison now has a nominated senior manager in post who is responsible for delivering its local drug strategy;
- We have published a new good practice guide to assist prisons in tackling drug supply routes, including advice on working with others. We will shortly be publishing a mobile phones good practice guide to focus on minimising, finding and disrupting mobile phones that are smuggled into prisons.

In addition, work continues to strengthen prison intelligence gathering, and to trial and roll-out mobile phone blockers, in line with David Blakey's recommendations.

Tackling the supply of drugs and mobile phones into prisons requires a multi-agency response, and we are working closely with the police and other key partners. I would also like to pay tribute to the continuing hard work of staff to reduce the supply and impact of drugs and phones.

WORK AND PENSIONS

"Building a Society for All Ages"

The Minister of State, Department for Work and Pensions (Angela Eagle): I am pleased to announce that we are today publishing "Building a Society for All Ages": a strategy setting out a programme of action to respond to the challenges and opportunities presented as our society grows older.

As a country, we are living through an enormous demographic shift with more of us living for longer than ever before. While this is not a new phenomenon, the UK has just passed a tipping point. In 2007, the number of adults below state pension age compared to those over it began to decline for the first time in 25 years. This is a result both of greater individual longevity and also of the baby boomer generations born after the second world war starting to reach state pension age.

Across society, we will all need to act to make the most of these opportunities. We need to ban unjustifiable age discrimination and end outdated attitudes which too often drive our expectations and treatment of older people. Achieving this will enable individuals to lead the later life that they want and allow society to harness the skills and experience of our older population to the benefit of all our communities and our economy.

"Building a Society for All Ages" sets out a programme of action to support change by individuals, in families, in the workplace and the economy and in public services and communities. It includes measures to support people to look forward and plan earlier and to encourage them to remain active and participate fully in society in their later lives. We also set out plans to improve the provision of information, help and support for those who need it.

Copies of the report are available in the Vote Office and the Printed Paper Office.

Written Ministerial Statements

Tuesday 14 July 2009

TREASURY

2009-10 Tax and Benefit Reference Manual

The Financial Secretary to the Treasury (Mr. Stephen Timms): Copies of the 2009-10 edition of the "Tax Benefit Reference Manual" (TBRM) are today being deposited in the House of Commons Library.

HM Treasury publishes the TBRM annually. It is a technical manual detailing the tax and benefit system, describing both the current and historic regimes.

BUSINESS, INNOVATION AND SKILLS

Intellectual Property Office (Performance Targets)

The Minister for Higher Education and Intellectual Property (Mr. David Lammy): I have tasked the Intellectual Property Office with managing and shaping an Intellectual Property system which encourages innovation and creativity, balances the needs of rights holders and the public, provides support to businesses on managing and exploiting their Intellectual Property, and stimulates economic growth.

I have set the Intellectual Property Office a broad range of targets for 2009-10 based on a balanced scorecard approach. These targets are:

Customers and Stakeholders

A substantive response to an allowable request for accelerated patent examination to be issued within two months of receipt in 90 per cent. of searched applications.

Give good customer service in processing patent applications in 95 per cent. of quality assured cases.

Issue 80 per cent. of patent searches within four months of request.

The correct decision on registration will be made on at least 98.5 per cent. of trade mark applications.

90 per cent. of trade mark applications (to which no substantive objections have been raised or oppositions filed) to be registered within seven months.

95 per cent. of correctly filed design applications to be registered within two months.

Develop a cross-Government international IP strategy which has been agreed by Whitehall ministerial or senior official group by February 2010.

The IPO Intelligence Hub will be seen by industry and enforcement agencies as the lead player in co-ordination and dissemination of IP crime-related intelligence.

Industry and law enforcement agencies will give positive feedback on awareness raising and training activities.

To increase the understanding of British business and society about how to make the best use of the IP system, a third venue for the Science Museum exhibition will have been identified and agreement for an exhibition be in place by December 2009.

Evaluation of the Science Museum exhibition will demonstrate positive impact and value for money and provide information for future outreach work.

Extend our outreach to business through use of our online IP Health Check, and over 66 per cent. of respondents will report it as useful.

To demonstrate we deliver high quality services to our customers we will receive "good" or "satisfactory" ratings in at least 80 per cent. of responses to customer surveys.

Finance and Resources

We will demonstrate we are able to maintain a sustainable trading fund by delivering a 4 per cent. return on capital employed.

Deliver a 5 per cent. cost efficiency with reference to 2008-09 cost outturn (excluding VER/VES scheme and Science Museum IP exhibition sponsorship one-off costs)

Internal Processes

Complete 95 per cent. of staff performance reviews (to ensure everyone understands how their work contributed to the 2008-09 corporate plan and how they will be expected to perform to enable delivery of the four pillars in 2009-10) signed off and returned to HR by 31 May 2009.

To reduce our impact on the environment, increase proportion of waste recycled to 60 per cent.

To reduce our impact on the environment reduce carbon emissions by 10 per cent. compared to 2008-09 figures.

Promote a healthy environment and reduce numbers of sick absence days per person to 7.0 days.

To enable business effectiveness through reliable IT systems, achieve 99 per cent. of the agreed monthly service levels for key IT systems.

Change and Development

Positive feedback from participants of international forum on the economic value of IP.

A plan will be agreed by SABIP and IPO for commissioning items of research.

Two of these SABIP research projects to be completed and reports received.

Contracts to be awarded on a further two of these SABIP research projects.

Introduce new trade mark fees and services in October 2009 to maintain registration in the UK as an attractive option vis-à-vis registration at OHIM.

National and international stakeholders will report increased awareness of our work on copyright strategy.

Ensure that the IPO has developed a coordinated strategy on mutual recognition and promote that strategy with key international partners. Gain agreement on mutual recognition with Japan by March 2010.

Memorandums of understanding on work sharing signed with Korea and China in 2009.

Policy skills audit will be carried out and a targeted training and development programme devised by autumn 2009.

COMMUNITIES AND LOCAL GOVERNMENT

Planning

The Minister for Housing (John Healey): The Government will publish the UK Low Carbon Transition Plan shortly. This will set out the UK's approach to becoming a sustainable-advanced low-carbon country, which means cutting our emissions, securing our energy supplies, maximising economic opportunities and protecting the most vulnerable. The new development consent regime for Nationally Significant Infrastructure Projects (NSIPs) provided for by the Planning Act 2008 is central to delivering the development needed to meet these objectives. Today I can confirm that the new regime will be put in place starting from 1 October with the establishment of the Infrastructure Planning Commission (IPC).

Earlier this year we made a commitment to listen to the views of promoters and others on the best way to implement the new regime and to provide further detail on both implementation of the regime and production of national policy statements (NPSs). The consistent message that has emerged from this is the need for certainty and predictability. People want clarity about when the new regime will consider applications from each sector and an adequate lead-in period between setting up the IPC and commencing the regime.

Therefore, I am today announcing more detail on how we propose to implement the new regime.

First, I can confirm that we will establish the IPC from 1 October, from which date it will begin providing advice and guidance on preparing applications, and on how the new regime will work. I can also confirm that the IPC will start accepting applications for development consent and examining these applications from 1 March 2010, when we intend to commence the new regime for NSIPs from the energy and transport sectors. Our intention is to then bring waste water and hazardous waste sectors on line in April 2011, and the water supply sector in April 2012. Setting firm implementation dates now will ensure that promoters and other stakeholders will be able to engage with the IPC with confidence.

Secondly, I am proposing to appoint Dr. Pauleen Lane CBE and Robert Upton CBE as deputy chairs of the IPC. These appointments, which are subject to pre-appointment scrutiny by the Communities and Local Government Select Committee, will enable the IPC to be ready to open for business on 1 October. I will also be appointing three commissioners to the IPC later this month.

Finally, I am publishing the third and final package of secondary legislation needed to establish the IPC. This sets out the detailed procedures and rules which we intend to put in place to govern the IPC examination of applications. We will make these regulations in good time to come into force by 1 March 2010.

Once NPSs are designated the IPC will decide applications for development consent in accordance with them. However, the IPC will be able to start receiving applications from the energy and transport sectors from 1 March 2010, irrespective of whether the relevant NPS has been designated. If for any reason the relevant NPS has not been designated when a particular application reaches the decision stage, the IPC would make a recommendation to the relevant Secretary of State, who would then take the decision. In this situation, the Planning Act allows the Secretary of State a maximum of three months to make the decision, unless exceptional circumstances apply. Our intention is to keep any recommending period to a minimum. Where a relevant NPS has been published in draft it would be a consideration for the IPC when making its report and recommendation to Ministers.

I can also update the House on our latest intentions for publishing draft NPSs. The UK Low Carbon Transition Plan, which we are publishing shortly, brings together a range of important policy developments including the renewable energy strategy and proposals for regulating new coal power stations, and has significant implications for energy and transport policy which it is vital the NPSs fully reflect. Because of this, our intention is now to publish NPSs covering the following types of infrastructure in the autumn: nuclear power; renewable energy; electricity networks; fossil fuel generation; oil and gas infrastructure; ports; and road and rail networks. Subject to the outcome of public consultation and parliamentary scrutiny, we expect these NPSs to be designated over the course of next year.

The remaining four NPSs are being produced on a longer timeframe. We expect to consult on the Waste Water NPSs in spring 2010 and the Hazardous Waste NPS in summer 2010, with the aim of designating them in 2011. We intend to consult on the Airports NPS by 2011 with a view to designating it later that year. Finally we hope to consult on the Water Supply NPS in late 2010—once the final Water Resource Management Plans are published, which are needed to inform the NPS—with the aim of designating that NPS by early 2012.

In parallel with making this statement, I am publishing a revised version of the IPC Implementation "Route Map" which sets out our plans in more detail, as well as providing an update on progress to date. I am placing copies of this in the Library of the House.

The new regime which we are establishing will enable decisions about nationally significant infrastructure to be taken in a way that is fairer and faster. This is vital to our economic, environmental and social wellbeing, including meeting the challenge of climate change, strengthening the voice of communities and individuals, and creating the conditions for future economic success.

DEFENCE

NATO Planning Questionnaire (Group Response)

The Secretary of State for Defence (Mr. Bob Ainsworth): Today I have released to the EU the UK's response to the NATO 2008 defence planning questionnaire. This questionnaire contains information on our forces and capabilities which we, and all other NATO partners, send to NATO on a biannual basis as part of their force planning process. NATO uses this information to understand what capabilities allies would in principle make available for NATO operations and to inform the planning process.

NATO and the EU operate separate force planning and capability development processes and until now the UK has made different offers of capability to the EU and to NATO. For NATO we offer a large scale force package while we offer a medium scale force package to the EU, which reflects the lower level of strategic ambition within the European security and Defence policy framework. However, following the precedent set by a number of other NATO partners we have decided to submit our NATO defence planning questionnaire responses as the single source of UK information for both the NATO and EU capability planning processes. Respecting the autonomous decision-making processes of both organisations and noting that our single set of capabilities is available for the UN, EU as well as NATO and potentially other multilateral coalition operations, we judge it to be more efficient to maintain one set of information on our forces and capabilities and to provide it in the same format to NATO and the EU. Using the same set of information on nation's capabilities will, in concurrency terms, assist both organisations in identifying and understanding the shortfalls that exist across both organisations and in taking remedial action to address those shortfalls without duplication of effort. Sending the UK defence planning questionnaire

to the EU will also provide momentum to the drive for greater harmonisation between the NATO and EU planning processes, a longstanding UK aspiration which other nations support. We further hope that by taking this step it will encourage other European allies to follow suit.

It remains the case that, in respect of any multinational operation, our forces are made available on a case-by-case basis following a national decision. Releasing the UK defence planning questionnaire to the EU does not therefore mean that we are increasing our level of commitment to any current or future EU operation.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Animal Health Annual Report

The Minister of State, Department for Environment, Food and Rural Affairs (Jim Fitzpatrick): The "2008-09 Annual Report and Accounts for Animal Health" will be laid before Parliament today.

HOME DEPARTMENT

Newspapers (Surveillance Methods/Update)

The Minister for Policing, Crime and Counter-Terrorism (Mr. David Hanson): In response to the urgent question on 9 July 2009, *Official Report*, column 1131 by the hon. Member for Oxford West and Abingdon (Dr Harris), I undertook to report back to the House at an appropriate time.

Since that urgent question was answered, Assistant Commissioner John Yates has made a public statement on 9 July about the original inquiry by the Metropolitan Police Service into the alleged unlawful tapping of mobile phones by Mr. Clive Goodman and Mr. Glen Mulcaire. I am placing the text of Assistant Commissioner Yate's statement in the Library of the House.

He has concluded that as no additional evidence has come to light in respect of the Goodman/Mulcaire case and as the Metropolitan Police Service has not formally received allegations in relation to the activities of any other journalists there is no need for a further investigation.

The Metropolitan Police has also confirmed that it does not consider that there is anything else substantive in relation to additional evidence or information that would justify it re-opening the original investigation. Neither has The Guardian approached the MPS with any new additional evidence.

As mentioned in his statement on 9 July, Assistant Commissioner John Yates is ensuring that the Metropolitan Police Service has been diligent, reasonable and sensible, and taken all proper steps to ensure that where it has evidence that people have been the subject of any form of phone tapping (by Mr. Clive Goodman or Mr. Glen Mulcaire) or that there is any suspicion that they might have been; that they have been informed. The decision to inform individuals that they have been targeted for illegal interception of their phone communications is an operational matter for the police.

Following his statement, and in view of comments that he had made in both Houses following last week's newspaper articles, the director general of the Crime and Policing Group in the Home Office wrote seeking clarification on some issues to Assistant Commissioner John Yates on 10 July who responded the same day. I am placing copies of that correspondence in the Library of the House.

The Director of Public Prosecutions announced on 9 July an urgent examination of the material supplied by the police three years ago to satisfy himself and assure the public that the appropriate actions were taken in relation to that material. That review continues.

The Information Commissioner's Office will consider what action to take if evidence emerges of breaches of the Data Protection Act 1998.

The Independent Police Complaints Commission has received a complaint from the hon. Member for Eastleigh (Chris Huhne) about police action in this case and are currently considering whether there are any issues raised which might fall within its remit.

Any new evidence should be referred to the police or to the Information Commissioner if it relates to a data protection breach.

The Government will report back to the House when there are any substantive developments.

INTERNATIONAL DEVELOPMENT

Humanitarian Situation (Sri Lanka)

The Minister of State, Department for International Development (Mr. Gareth Thomas): It is almost two months since the conflict ended in Sri Lanka. I would like to update the House on the humanitarian situation on the ground and to reiterate that meeting the humanitarian needs of the internally displaced people (IDPs) remains our immediate priority.

The IDPs are now all held in camps in Vavuniya, Jaffna, Trincomalee and Mannar. This population numbers almost 284,000 people. The humanitarian situation is now stabilising. Conditions in the IDP camps remain basic but continue to improve as the priority needs of shelter, food, water, medicine and immediate access to surgical treatment are gradually met. However, we remain concerned about high levels of malnutrition in the IDP population, particularly among young children, overcrowding and inadequate sanitation facilities.

We are also increasingly concerned about the lack of freedom of movement for this IDP population and the restrictions put on protection activities, including ensuring the safety of the IDPs, reuniting unaccompanied children with their families and registration of the population as a whole. We encourage the Government of Sri Lanka to do everything possible to ensure the civilian nature of the camps and allow humanitarian agencies to operate effectively on the ground through facilitating the timely provision of visas and lifting the practical restrictions that are still being imposed on entry.

We continue to engage fully with international and multilateral partners. The Prime Minister raised humanitarian access with President Rajapakse on 18 May. The Foreign Secretary also discussed the issue with the Sri Lankan Foreign Minister when they met on 5 June, as did Lord Malloch-Brown with the Sri Lankan Minister for Trade and External Development when they met on 19 June. Our High Commissioner to Sri Lanka regularly raises our concerns with senior Members of the Sri Lankan Government. We urge the Government of Sri Lanka to

make every effort to co-operate with international agencies, including continuing a dialogue with the ICRC on issues of humanitarian concern and to provide every opportunity for the ICRC to implement its mandate as Sri Lanka takes its first steps towards recovery.

DFID continues to support the relief effort to Sri Lanka as the situation on the ground allows. Since September 2008, we have committed £12.5 million. This month we approved £0.4 million to the United Nations Children's Fund (UNICEF) for an emergency measles and polio vaccination campaign covering all the IDP camps in Vavuniya and for the provision of nutritional supplements. I would again like to reassure the House that all DFID funding is provided directly to neutral and impartial international agencies and we will continue to support the international agencies in their life saving work.

Looking forward, we urge the Government of Sri Lanka to do everything they can to facilitate the return of the IDPs from the camps to their homes as soon as possible, including interim options of staying with host families, and to allow freedom of movement as a priority. We welcome the Government's public commitment to return the bulk of IDPs to their homes within 180 days. In addition, after 26 years of intermittent conflict, there remain an additional 360,000 long term displaced people to consider who may now also wish to return to their communities of origin. We stand ready to support this work through funding international agencies that:

(1) provide humanitarian demining activities;

(2) enable returns through the provision of transport, shelter and access to basic services; and

(3) provide livelihood recovery activities, for example through cash grants, providing seeds and tools and vocational training.

JUSTICE

Crown Court Means-testing (Consultation)

The Parliamentary Under-Secretary of State for Justice (Bridget Prentice): My noble Friend, the Parliamentary Under-Secretary of State (Lord Bach) has made the following written ministerial statement:

The Government published their response to "Consultation and Impact Assessment on Crown Court Means-testing" on 8 June 2009. The response sets out the Government's intention in respect of the introduction of the new scheme, to begin in January 2010.

Today, I am announcing a consultation process on the draft regulations designed to support the introduction of Crown Court Means-testing. The consultation period will last from 14 July 2009 until 5 October 2009.

Copies of the draft regulations have been placed in the Libraries of both Houses, and they are also available at: www.justice.gov.uk. The Ministry's website also gives details of how to respond to the consultation exercise.

TRANSPORT

Quality Contracts Schemes

The Minister of State, Department for Transport (Mr. Sadiq Khan): The Local Transport Act 2008 includes provisions aimed at making bus quality contracts schemes a more realistic option for local transport authorities outside London.

The Department for Transport is today publishing a consultation on draft regulations and guidance to support the implementation of those provisions. Copies of the consultation materials will be made available on the Department's website (www.dft.gov.uk/localtransportact), and are being placed in the Libraries of the House.

First Great Western Franchise

The Minister of State, Department for Transport (Mr. Sadiq Khan): My right hon. and noble Friend the Secretary of State for Transport (Lord Adonis) has made the following ministerial statement.

On 26 February 2008, the then Secretary of State for Transport, my right hon. Friend the Member for Bolton West (Ruth Kelly), made a statement about the performance of the First Great Western franchise, in which she informed Parliament that First Great Western had breached its franchise agreement by exceeding the limits on cancellations, and also by misreporting those cancellations.

My right hon. Friend the Member for Bolton West issued First Great Western with a remedial plan notice for exceeding the threshold on cancellations which had resulted in a breach of its franchise agreement. In response to this notice, First Great Western submitted a remedial plan addressing that level of cancellations.

On 17 March 2008 an agreement with First Great Western was signed, which required First Great Western to implement the remedial plan and to comply with a forward trajectory for reducing cancellations. The remedial period started on 1 April 2008 and would end when the criteria in the agreement were met.

The criteria in the agreement for the end of the remedial period were met by First Great Western in relation to the four-week rail reporting period ending on 27 June 2009. Cancellations figures for this four-week period have been finalised. I am therefore now able to confirm that First Great Western has met the criteria and that the remedial period is therefore now at an end. Department for Transport officials have checked the manner in which the cancellations figures were calculated and I am satisfied that the criteria have been met.

In her statement on 26 February 2008, my predecessor also announced that, in addition to the remedial plan, First Great Western had offered a package of passenger benefits amounting to £29 million. Delivery of this obligation is not affected by the ending of the remedial period and I have been assured that First Great Western is confident that they will meet the commitments it made on time.

WALES

National Assembly for Wales (Legislative Competence Order)

The Secretary of State for Wales (Mr. Peter Hain): I am pleased to inform the House that the proposed National Assembly for Wales (Legislative Competence) (Local Government) Order 2009 has been laid today, as Command Paper (Cm 7680).

Copies of this Command Paper can be found in the Vote Office and will be placed in the Library of the House from 12 noon. I have written to the Welsh Affairs Committee and to the House of Lords Constitutional Committee to request they undertake pre-legislative scrutiny.

Written Ministerial Statements

Wednesday 15 July 2009

BUSINESS, INNOVATION AND SKILLS

UK Low Carbon Industrial Strategy

The Minister for Business, Innovation and Skills (Mr. Pat McFadden): The Department for Business, Innovation and Skills, together with the Department for Energy and Climate Change, is today publishing the "The UK Low Carbon Industrial Strategy".

In parallel to this document, the Government are also publishing "The UK Low Carbon Transition Plan", "The UK Renewable Energy Strategy" and "The Carbon Reduction Strategy for Transport".

Together these set out the policies which will help drive the transition to decarbonising our economy, and reflect how Departments across Government are working together to deliver the transition to a low carbon future.

The core objective of "The UK Low Carbon Industrial Strategy" is to ensure that British businesses and workers are equipped to maximise the economic opportunities and minimise the costs of the transition to a low carbon economy.

Building on the framework for supporting British business set out in "Building Britain's Future: New Industry, New Jobs", its ambition is to ensure that the transition to low carbon is a source of quality jobs and business savings in Britain from our rapidly developing civil nuclear industry and renewable energy sector, to energy saving in our smallest SMEs.

British firms will benefit from the low carbon transition both by catering to growing British and global markets for low carbon goods and services, and also by using energy and other resources more efficiently to reduce costs.

At the heart of the strategy are three basic principles for a positive environment for low carbon business:

First, a long term strategic approach from Government—like the clear commitment we have made to nuclear and renewable energy, which will allow businesses to invest in greater confidence;

Secondly, a pragmatic recognition that intervention from Government may be required in some areas to accelerate and enable the transition to low carbon—in the case of the low carbon industrial strategy this means support for the research and development that will produce new low carbon technologies;

Finally, a recognition that Government have a responsibility to ensure that British-based companies and people are equipped to compete for the new demand created by Government climate change policies. This has implications for our skills policy, and the way we support the development of supply chains in this country, both issues addressed in this strategy.

The strategy identifies a range of low carbon sectors in which the Government believe that the UK has potential for job creation and business savings. Where barriers to market or other obstacles are blocking the development of Britain's full potential in these areas, it sets out the Government's strategy for removing them.

This includes the first investments from the £405 million for low carbon industries and advanced green manufacturing announced at Budget 2009. Key announcements include:

Up to £120 million to support the development of a British based offshore wind industry.

Up to £60 million to capitalise on Britain's wave and tidal sector strengths, including investment in wave hub—the development of a significant demonstration and testing facility off the Cornish coast—and other funding to make the south west Britain's first low carbon economic area.

The Government will provide capital investment in order to establish a nuclear advanced manufacturing research centre consisting of a consortium of manufacturers from the UK nuclear supply chain and universities.

Up to £10 million for the accelerated deployment of electric vehicle charging infrastructure.

A £4 million expansion of the manufacturing advisory service, to provide more specialist advice to manufacturers on competing for low carbon opportunities, including support for suppliers for the civil nuclear industry.

The strategy recognises that we need to build on local and regional strengths in order to make the most of the future economic benefits for Britain. For this reason, the strategy introduces the concept of low carbon economic areas, and announces the development of the first of these, located in the south-west of England, focusing on the development of marine energy demonstration, servicing and manufacture.

It also announces the creation of the cross-Whitehall office for low emission vehicles (OLEV) to create a single body charged solely with making a success of the Government's strategy for low emission vehicles.

Finally, the low carbon industrial strategy recognises that this transition raises significant challenges for our industrial work force and their families. As with previous structural changes to the economy, the move to a low carbon economy will affect each business, worker and family differently. Previous economic structural shifts have had huge social impacts, with some workers and communities being left behind as industries are restructured by change. The Government are committed to doing all they can to ensure this is a just transition.

For this reason, the Government will create a forum for considering these issues and advising Government. The new forum for a just transition will include representatives from central Government, national, local and regional bodies, trade unions, business organisations, and third sector bodies.

I am placing a copy of the strategy in the Libraries of both Houses.

CABINET OFFICE

Social Investment Wholesale bank Consultation

The Minister of State, Cabinet Office (Angela E. Smith): The Office of the Third Sector has today published a Social Investment Wholesale Bank Consultation which sets out the vision and the economic case, and consults

on proposals for the design and functions of a potential bank. This consultation was announced in Budget 2009 and will inform substantive proposals to be developed by the Office of the Third Sector.

Government recognise the important role played by the third sector including social enterprises—as sustainable businesses with a social or environmental mission they contribute significantly to stronger local economies and a fairer society. Yet access to appropriate funding and finance is often the biggest concern facing organisations driven by social or environmental purpose. A Social Investment Wholesale Bank could enable third sector organisations to access the finance they need to grow and become more sustainable.

More broadly, the bank could help increase investment in society, the environment and the economy at the same time, delivering against a "triple bottom line" of more effective interaction between greater economic growth, social cohesion and sustainable development.

The Social Investment Wholesale Bank Consultation document can be downloaded from the Office of the Third Sector (OTS) website at: http://www.cabinetoffice.gov.uk/third_sector.aspx. Copies have also been placed in the Libraries of both Houses.

TREASURY

Life Assurance Company Taxation

The Exchequer Secretary to the Treasury (Sarah McCarthy-Fry): Life assurance companies are in general taxed on profits as they are recognised and made available to shareholders. The tax system recognises that, for with-profits business, profits on income and gains sometimes have to be held back to achieve the smoothing of returns that is an integral part of the business. This treatment can also apply where a company writes business in a non-profit fund.

When profits are held back in this way there is an Exchequer cost, but this is largely a matter of timing, in that tax should be paid when the deferred profits are recognised and made available to shareholders.

Recently however HMRC has seen an example of manipulation of this tax treatment in relation to a non-profit fund. The manipulation is to change the mix of the non-profit business for tax purposes so that when the previously unrecognised profits of the non-profit fund are recognised they escape tax altogether. Many hundreds of millions of pounds of tax have been avoided in this way.

The Government will introduce legislation to prevent such manipulation in future. Companies will not be able to change the mix of business in their non-profit funds in order to reduce the incidence of tax on their profits that have not yet been recognised. The Government also propose that in the future profits of non-profit business will be taxed as they arise.

In order to ensure the new legislation is appropriately targeted HMRC will consult with the life assurance industry. The precise nature of the new legislation will emerge from that consultation, but the intention is that the potential tax due on unrecognised profits in a non-profit fund will be determined by reference to the appropriate mix of business in 2009. The tax will become due and will be collected as and when profits are recognised and made available to shareholders. After 2009, profits of non-profit business will be taxed as they arise.

The objective of the consultation is to allow the new legislation to be properly targeted. If companies attempt to manipulate their business mix in advance of the new legislation being finalised, for the purposes of avoiding tax, the Government will consider whether it is necessary to introduce retrospective legislation to remove the benefit of that manipulation.

UK's Asset Freezing Regime (April to June 2009)

The Exchequer Secretary to the Treasury (Sarah McCarthy-Fry): In a written ministerial statement on 10 October 2006, the then Economic Secretary, my right hon. Friend the Member for Normanton (Ed Balls), undertook to report to Parliament on a quarterly basis on the operation of the UK's counter-terrorism asset-freezing regime. This is the 11th of these reports and covers the period April to June 2009[1].

Terrorism (United Nations Measures) Order 2009

The Treasury has amended the Terrorism (United Measures) Order and a new Order in Council is being laid before Parliament today. I have made a separate written ministerial statement about the new order.

Asset-freezing designations

In the quarter April to June 2009, the Treasury gave no directions under the Al-Qaida and Taliban (United Nations Measures) Order 2006.

The Treasury gave no new directions under the Terrorism (United Nations Measures) Order 2006. The Treasury revoked one direction given under this order during this period.

There were no financial sanctions designations made at the UN, or at the EU, in relation to terrorism, or Al-Qaida and the Taliban of persons with links to the UK.

As of 30 June 2009, a total of 237 accounts containing just over £607,661[2] of suspected terrorist funds were frozen in the UK.

Reviews

The Treasury keeps domestic asset-freezing cases under review and completed three formal reviews in this quarter.

Licensing

In accordance with UN Security Council Resolution 1452 (2002), the Treasury operates a licensing system whereby designated persons and others are able to apply to make or receive payments under specific and, if necessary, monitored conditions. In this quarter, the following licences were issued to listed persons:

Four listed persons were granted basic expenses licences (including licences for benefits payments);

one listed person was granted a licence allowing them to receive compensation payment into a frozen account following an European Court of Human Rights judgement;

no persons were granted legal expenses licences;

no licences were granted for extraordinary expenses.

In this quarter two households of listed persons were granted benefits licences.

[1] The detail that can be provided to the House on a quarterly basis is subject to the need to avoid the identification, directly or indirectly, of personal or operationally sensitive information.

[2] This figure reflects account balances at time of freezing and includes approximately $58,000 of suspected terrorist funds frozen in the UK. This has been converted using exchange rates as of 08-07-09. Future fluctuations in the exchange rate may impact on the contribution this sum makes to future totals of suspected terrorist funds frozen.

Terrorism (United Nations Measures) Order 2009

The Exchequer Secretary to the Treasury (Sarah McCarthy-Fry): The Government are strongly committed to tackling terrorist finance. Just as there should be no hiding place for those who perpetrate terrorism, so there should be no hiding place for those who finance terrorism.

Global measures to freeze the assets of those suspected of involvement in terrorism are an important tool in suppressing terrorist finance. The global framework for freezing terrorist assets was established by United Nations Security Council Resolution 1373, adopted unanimously on 28 September 2001. It is also set out in Special Recommendation III of the Financial Action Task Force the international standard setting body for anti-money laundering and counter terrorist finance.

The United Kingdom gives effect to its international obligations to freeze terrorist assets through Orders in Council under the United Nations Act 1946. The Government report quarterly to Parliament on the operation of the UK's terrorist asset freezing regime.

Consistent with our international obligations, the Government have put in place a robust and effective terrorist asset freezing regime. As set out in today's quarterly report to Parliament, as of the end of June 2009, a total of 237 accounts containing £607,661 of suspected terrorist funds were frozen in the UK. As our quarterly reports set out, the UK has an active approach to reviewing cases and to granting exemptions licences to ensure that the asset freezing regime operates in a fair and proportionate way that is consistent with human rights.

The Financial Action Task Force reviewed the UK's terrorist asset freezing regime in 2007 and concluded that the UK was fully compliant with international standards, the first country to be awarded the fully compliant rating.

The Government keep the asset freezing regime under review to ensure that it remains operationally effective, fair and proportionate. Today the Treasury is laying before Parliament the Terrorism (United Nations Measures) Order 2009. This Order in Council updates the UK's domestic framework for freezing the assets of suspected terrorists.

The overall objective of the changes is to tailor asset freezing restrictions to ensure that the prohibitions are focused more closely on areas of genuine operational concern, in particular the access to, control and use of funds by designated persons; and to strengthen and make more explicit safeguards in how the regime is operated where this can be done without compromising its effectiveness.

The main changes set out in the new Order in Council are:

Formally reflecting the Court of Appeal judgment in October last year which struck out the grounds for the Treasury to designate a person when the Treasury has reasonable grounds to suspect that they may be (as opposed to are) involved in terrorism.

The introduction of a further safeguard that designations must be necessary for public protection.

Setting a renewable 12-month time limit on designations.

Modifying the prohibitions on making funds, economic resources and financial services available for the benefit of a designation person so that they only apply if the designated person obtains, or is able to obtain, a significant financial benefit. The prohibitions on making funds, economic resources and financial services available directly to a designated person remain unchanged and are a blanket prohibition.

Modifying the prohibition on making economic resources available to a designated person by providing a defence for a person if they did not know and had no reasonable cause to suspect that economic resources which they provided to a designated person would be likely to be exchanged or used in exchange for funds, goods or services.

Modifying reporting provisions to bring obligations on money service businesses into line with other financial institutions.

Clarifying and expanding information gathering powers to ensure that the Treasury is able to request information from designated persons in all cases where this is necessary to ensure effective implementation of and compliance with the asset freeze.

Overall, these changes will improve the operation of the asset freezing regime, ensure that it remains fair and proportionate and help facilitate effective compliance by ensuring that prohibitions are more tailored and clearer in how they apply. The Terrorism (United Nations Measures) Order will come into effect on 10 August 2009.

CHILDREN, SCHOOLS AND FAMILIES

Schools Capital

The Minister for Schools and Learners (Mr. Vernon Coaker): It has become apparent in recent months that some local authorities are facing sudden and sharp increases in demand for primary pupil places. I am today announcing that £200 million of capital funding will be made available in the next financial year to authorities with exceptional need to assist them in building additional permanent primary school places by September 2011.

Detailed guidance on applying for this funding will shortly be made available by my Department. Local authorities will have four weeks to apply and I aim to announce allocations in September.

This funding is in addition to the £1.75 billion of additional investment being made available through the Primary Capital Programme over the next two years, which is supported by significant additional investment committed by local authorities. It is also in addition to the £939 million of capital investment which has been brought forward from 2010-11 to 2009-10 to accelerate thousands of school modernisation projects across England and support jobs and local businesses.

I am also announcing today that the following six local authorities will enter the Building Schools for the Future (BSF) programme this month: Barnet, Bolton, Hampshire, Peterborough, Sunderland and Wigan. Five of these authorities are new to BSF in line with our aim of getting all authorities into the programme as soon as is practicable.

These six authorities have now demonstrated satisfactorily to Partnership for Schools (PfS) that they are fully ready to start the full development of their projects. Another six local authority projects will join the programme in three months time, with a further six three months after that. This rate of starts will maintain the current rate of delivery of BSF.

This is a prudent and affordable rate of progress for our major strategic programme to renew our schools infrastructure, and which brings benefits for the wider community as well as children.

COMMUNITIES AND LOCAL GOVERNMENT

Fire and Resilience

The Parliamentary Under-Secretary of State for Communities and Local Government (Mr. Shahid Malik): I would like to inform the House about progress on the FiReControl project—part of our major programme of work to ensure that the fire and rescue service is fully equipped to meet the challenges and demands of the modern world.

Recent events, in both Camberwell and Edinburgh, have reinforced the very real significance of doing all we can to ensure the safety of the public and firefighters. FiReControl will provide the public and firefighters with very substantial safety benefits by establishing, for the first time, a linked national network of nine regional fire control centres across England. These will replace the current 46 stand-alone control rooms, operated in each fire and rescue authority (FRA) area.

On a day-to-day basis, the new system will improve firefighter safety, the management of incidents and both the efficiency and responsiveness of the service. Firefighters will have access to safety information and incident details through mobile data terminals, and satellite navigation and automatic tracking of fire appliances will enable more efficient use of resources. Emergency calls from the public will be automatically located and managed using spatial data right down to property level. Control rooms will share calls across the network to manage even the highest call volumes and thereby be more resilient in emergencies. The new network will also improve the country's ability to respond to terrorism, large-scale industrial accidents and natural disasters such as flooding.

FiReControl is a complex and demanding project that involves significant change to operating practices in the Fire and Rescue Service (FRS) as well as the development and installation of a major new national IT system. In November 2008 my predecessor informed the House that the project was being rescheduled due to slower than expected progress with development of the new IT, and that we would continue to monitor progress carefully as there could only be certainty on final timings once we had made progress through the earlier stages.

Good progress is being made on the building of the nine regional centres and the setting up of the local authority controlled companies that will manage the centres. The delivery and installation of equipment in local fire stations is also on track. However, in recent months it has become clear that technical problems with developing the IT system in a way which will meet all our and FRS requirements mean that further time is needed to complete the project.

I am proposing therefore to extend the delivery schedule by 10 months. This means that the first FRSs will switch over to the regional control centres in spring 2011 and the last will switch over by the end of 2012. We have discussed this in detail with the representatives of FRSs and local government, and we believe that this is a realistic timetable. Key Olympic authorities will switch over in time to prepare for the games, and the network will provide robust fall-back arrangements for all FRSs over the Olympic period. I am today publishing a full revised schedule for switch over of all FRSs in all regions and copies will be placed in the Library of the House.

To ensure consistent progress on this revised timescale, we have agreed with EADS, our main supplier, and with key stakeholders, a new approach to delivery to give greater assurance on short-term milestones and closer engagement with FRSs.

We remain committed to meeting all the upfront costs associated with the project and to the principle that no FRA will bear any additional cost as a result of FiReControl implementation. Once the new network is established, many FRAs are expected to make savings. These can be reinvested in local priorities and frontline services. We will be updating the cost figures contained in the FiReControl business case in due course to reflect today's rescheduling.

FiReControl continues to form an important part of the fire and resilience programme, which has already delivered very substantial benefits for the FRS. The new dimensions project has given the FRS new vehicles, equipment, and training to respond to terrorism and natural disasters. The Firelink project is delivering new digital communications technology, which is giving the FRS access to a world class communications system. FiReControl will build on this successful delivery.

DEFENCE

Afghanistan Troop Levels (Autumn 2009 Roulement)

The Secretary of State for Defence (Mr. Bob Ainsworth): My right hon. Friend the Member for Barrow and Furness (Mr. Hutton), announced in his statement to the House on 29 April 2009, that Headquarters, 6 (UK) Division would command the International Security Assistance Force's Regional Command (South) from November 2009 to November 2010, *Official Report*, column 46WS.

The next routine roulement of UK forces in Afghanistan will take place in October 2009. The force package that we plan to deploy will see the current lead brigade, 19 Light Brigade, replaced by 11 Light Brigade which will be committed to Afghanistan until April 2010.

The forces deploying include:

Headquarters, 6 (UK) Division
11 Light Brigade Headquarters and Signal Squadron (261)
Headquarters, 8 Force Engineer Brigade
Headquarters, 101 Logistic Brigade
Elements of 845 Naval Air Squadron
Elements of 846 Naval Air Squadron
Elements of 857 Naval Air Squadron
Elements of Fleet Diving Unit III
The Household Cavalry Regiment
1st Regiment Royal Horse Artillery
28 Engineer Regiment
1st Battalion The Grenadier Guards
2nd Battalion The Yorkshire Regiment
1st Battalion The Royal Welsh
3rd Battalion The Rifles
10 Queen's Own Ghurkha Logistic Regiment, The Royal Logistic Corps
33 Field Hospital
104 Force Support Battalion Royal Electrical and Mechanical Engineers
160 Provost Company Royal Military Police
Elements of 1 st Royal Tank Regiment
Elements of 2nd Royal Tank Regiment
Elements of 5th Regiment Royal Artillery
Elements of 12th Regiment Royal Artillery
Elements of 16th Regiment Royal Artillery
Elements of 19th Regiment Royal Artillery
Elements of 32nd Regiment Royal Artillery
Elements of 39th Regiment Royal Artillery
Elements of 33 Engineer Regiment (Explosive Ordnance Disposal)
Elements of 39 Engineer Regiment (Air Support)
Elements of 42 Engineer Regiment (Geographic)
Elements of 101 Engineer Regiment (Explosive Ordnance Disposal) (Volunteers)
Elements of 170 (Infrastructure Support) Engineer Group
Elements of 2 (National Communications) Signal Brigade
Elements of 1st (United Kingdom) Armoured Division Headquarters & Signal Regiment
Elements of 7th Signal Regiment
Elements of 10th Signal Regiment
Elements of 14th Signals Regiment (Electronic Warfare)
Elements of 21st Signal Regiment (Air Support)
Elements of 1st Battalion The Coldstream Guards
Elements of The Royal Scots Borderers, 1st Battalion The Royal Regiment of Scotland
Elements of 4th Battalion The Lancashire Regiment
Elements of 4th Battalion The Yorkshire Regiment
Elements of 2nd Battalion The Royal Welsh
Elements of 3rd Battalion The Royal Welsh
Elements of 3rd Battalion The Royal Anglian Regiment
Elements of 4th Battalion The Rifles
Elements of 1 Regiment, Army Air Corps
Elements of 3 Regiment, Army Air Corps
Elements of 4 Regiment, Army Air Corps
Elements of 9 Regiment, Army Air Corps
Elements of 9 Regiment, The Royal Logistic Corps
Elements of 11 Explosive Ordnance Disposal Regiment, The Royal Logistic Corps
Elements of 24 Postal Courier and Movement Regiment, The Royal Logistic Corps
Elements of 27 Regiment, The Royal Logistic Corps
Elements of 29 Postal Courier and Movement Regiment, The Royal Logistic Corps
Elements of Headquarters Allied Rapid Reaction Corps Support Battalion
Elements of 6 Close Support Battalion Royal Electrical and Mechanical Engineers
Elements of 7 Air Assault Battalion Royal Electrical Mechanical Engineers
Elements of 102 Military Working Dog Support Unit
Elements of 1 Military Intelligence Brigade
Elements of the Joint Civil Military Co-operation Group (CIMIC)
Elements of 148 Expeditionary Force Institute Squadron (Volunteers), The Royal Logistic Corps
Elements of Joint Medical Command
Elements of 253 Medical Regiment (Volunteers)
Elements of 254 Medical Regiment (Volunteers)
Elements of 205 Field Hospital (Volunteers)
Elements of 256 Field Hospital (Volunteers)
Number 1 Royal Air Force, Force Protection Wing Headquarters
Number 2 Royal Air Force, Force Protection Wing Headquarters
Number 3 Royal Air Force, Force Protection Wing Headquarters
Number 8 Royal Air Force, Force Protection Wing Headquarters
Elements of Number 3 Royal Air Force Police Wing
2 Squadron, Royal Air Force Regiment
27 Squadron, Royal Air Force Regiment
Elements of 3 Squadron, Royal Air Force Regiment
Elements of 34 Squadron, Royal Air Force Regiment
9 Squadron, Royal Air Force
31 Squadron, Royal Air Force
Elements of 5 (Army Co-Operation) Squadron, Royal Air Force
Elements of 12 Squadron, Royal Air Force
Elements of 14 Squadron, Royal Air Force
Elements of 18 Squadron, Royal Air Force
Elements of 24 Squadron, Royal Air Force
Elements of 27 Squadron, Royal Air Force
Elements of 28 Squadron, Royal Air Force
Elements of 30 Squadron, Royal Air Force
Elements of 78 Squadron, Royal Air Force
Elements of 617 Squadron, Royal Air Force
Elements of the Tactical Supply Wing, Royal Air Force
Elements of 1 Air Mobility Wing, Royal Air Force
Elements of 1 Air Control Centre, Royal Air Force
Elements of 90 Signals Unit, Royal Air Force
Elements of 2 (Mechanical Transport) Squadron, Royal Air Force
Elements of 5001 Squadron, Royal Air Force
Elements of 3 Mobile Catering Squadron
Elements of Tactical Medical Wing
Elements of 93 (Expeditionary Armaments) Squadron
Elements of Tactical Imagery Wing

Volunteer and regular members of the reserve forces will continue to deploy to Afghanistan as part of our integrated force package, and we expect to issue around 710 call-out notices to fill some 650 posts. On completion of their mobilisation procedures, the reservists will undertake a period of training and, where applicable, integration with their respective receiving units. The majority will serve on operations for six or so months. As part of this commitment, we expect up to 21 members of the sponsored reserves to be in theatre at any one time.

I shall make a further statement on the units we expect to commit under 11 Light Brigade's planned replacement formation, 4 Mechanized Brigade, nearer the time of their deployment.

Military Low Flying

The Parliamentary Under-Secretary of State for Defence (Mr. Kevan Jones): The amount of low flying training carried out in the UK Low Flying System (UKLFS) during the training year 1 April 2008 to 31 March 2009 was the minimum required for aircrew to reach and maintain their ability to fly at low level. The number of low flying training hours conducted was 51,888 hours, a reduction of 1,263 hours on the previous training year. This level of activity has been relatively constant over the last three years. The amount of operational low flying (between 250 feet and 100 feet) by fixed wing aircraft has further reduced by 34 per cent. from the previous training year, and there has now been a reduction of 64 per cent. over the last three years.

I have today placed in the Library of the House a report giving a detailed account of the low flying training that has taken place in the UK Low Flying System for the training year 1 April 2008 to 31 March 2009.

This year some changes have been made to the way in which the information in the report is presented; the most significant of these is that the data on the amount of low flying for dedicated user areas, principally used for helicopter training, are now being presented on the same basis as that for the rest of the low flying system.

Additional copies of "The Pattern of Military Low Flying Across the UK 2008-09" are available on request from the following address:

Alternatively it can be viewed on the MOD's website: www.mod.uk/aboutdefence/whatwedo/airsafetyandaviation/lowflying

Judicial Review Appeal

The Secretary of State for Defence (Mr. Bob Ainsworth): This important case arose from the tragic death of Private Jason Smith from heatstroke in Iraq in 2003 and was brought by Private Smith's mother. The Court of Appeal gave its judgment for the respondent on 18 May this year, while granting the Secretary of State permission to appeal to the House of Lords.

There is no longer any dispute over the question which initiated the case. The MOD has previously accepted that there are limited circumstances when armed forces personnel come within the UK's jurisdiction for the purposes of the European convention on human rights when they are deployed overseas. These include the circumstances of Private Jason Smith's death, where Private Smith was at all times within a British Army camp and British Army hospital and no third party nationals were involved in his death. It has already been agreed that a new inquest should be held into the cause of Private Smith's death which will be fully compliant with article 2 of the European convention on human rights. Jason Smith's death remains the source of great regret, and the MOD will continue to offer its wholehearted support to the coronial process, and every possible sympathy and attention to Mrs. Smith.

But the case as it has developed has raised issues of potentially very wide legal significance. These concern the extent to which actions under the Human Rights Act 1998 (which gave further effect to rights drawn from the European convention on human rights) can be brought in cases involving military personnel deployed on operations outside the United Kingdom. Given the importance of the issues raised by the Court of Appeal's judgment to how we plan and conduct military operations and to the men and women of the armed forces, I have decided that the right course would be to appeal to the House of Lords in order to obtain as much clarity as possible on the legal framework applying to operations overseas. As at all stages of the case, the Government will bear the costs of both sides in the litigation, whatever the outcome.

HEALTH

Child and Adolescent Mental Health Services

The Minister of State, Department of Health (Phil Hope): The Government have made two commitments in recent years on the treatment of children and young people aged under 18 years on adult psychiatric wards. I wish to report to the House on the progress made on these commitments.

The first commitment, made in November 2006, was that within two years no child under the age of 16 would be treated on an adult psychiatric ward.

The second commitment is to commence section 31(3) of the Mental Health Act 2007 in England by April 2010. This provision, which applies to voluntary (informal) patients as well as formal (detained under mental health legislation) patients, places a duty on hospital managers to ensure that patients aged under 18 are treated in an environment in hospital which is suitable having regard to their age (subject to their needs). The hospital manager has to consult a person who appears to them to have knowledge or experience of cases involving patients who have not attained the age of 18.

In its 12th Biennial Report the Mental Health Act Commission welcomed these commitments and commented that

"the ending of admissions of children and adolescents to unsuitable adult facilities is an ambitious undertaking".

In order to prepare for these two commitments £31 million capital was made available in 2007-08 to 17 projects specifically designed to eliminate the inappropriate use of adult psychiatric wards by children and young people. I can report that five projects have been completed with further projects, which will provide

31 new beds, 35 refurbished beds, and 13 beds relocated to purpose-designed facilities, in various states of completion.

In addition, the Department commissioned the National Mental Health Development Unit (NMHDU) to work on children and young people's issues within the Mental Health Act 2007 implementation programme. One of the main objectives of this work has been to support local areas to prepare for section 31(3) of the Mental Health Act 2007.

A number of products have been produced including:

The Legal Aspects of the Care and Treatment of children and Young People with Mental Disorder : A Guide for Professionals

A guide that describes the interaction between mental health legislation, the Mental Capacity Act, and children's legislation and which, for example, will assist adult mental health services clinicians to understand the issues they should take into account when working with under 18s.

The Safe and Appropriate Care Standards for Young People on Adult Wards

Standards prepared by the Royal College of Psychiatrists Research and Training Unit, in conjunction with young service users, parents, Adult and Child and Adolescent Service providers and commissioners, which provides guidance to trusts on how to assess the safety, environment and treatment offered to young people on adult wards.

In Our Words DVD

A training aid which includes contributions from young people, their parents, mental health advocates and health professionals on the treatment of young people with mental health problems.

Working Together to Provide Age Appropriate Environments for Mental Health Patients Aged under 18

Briefing to support adult mental health services (AHMS) and child and adolescent mental health services (CAMHS) commissioners to work together to develop more effective services to maintain young people in the community when it is safe to do so, and appropriate inpatient resources to meet their needs in a crisis or for medium to long-term treatment.

The Age Appropriate Environment System Dynamic Planning Tool

A model aimed at CAMHS and AMHS commissioners, providers, planners and analysts to enable them to devise and test plans to improve services to meet the needs of under 18s with severe mental health problems is available to download for free.

The Mental Health Act— essential information for Parents and Carers

NMHDU commissioned a leaflet for parents and carers from Rethink which has been distributed to CAMHS and AMHS and which is available to download for free.

Headspace Toolkit

The widely praised Advocacy in Somerset self advocacy toolkit has been updated, distributed to all CAMHS in-patient services and is available to download for free.

Additionally a series of training workshops aimed at CAMHS staff have been provided across England.

Year-on-year figures of bed days for under 18s show that consistent progress is being made. The number of bed days for under 16s and 16-17-year-olds on adult psychiatric wards has significantly reduced. In 2006-07, 12.2 per cent. of bed days for under 18s were on adult psychiatric wards whereas the figure for 2008-09 was 8.1 per cent. I would like to congratulate strategic health authorities, commissioners, and providers on the progress made.

The bed day figures for under 16s on adult psychiatric wards dropped to zero in Q3 2008-09 meeting the Government's commitment. However, the latest quarterly figures (January-March 2009) for bed days for under 18-year-olds receiving mental health treatment in England show three instances of under 16-year-olds having been treated on adult psychiatric wards, each for one day only.

It is not acceptable for young people to be put in this situation and those few areas where these latest cases have arisen must take action to prevent this happening again. In all these cases action has been taken to investigate the circumstances leading to an under 16-year-old being placed on an adult psychiatric ward and to press those responsible to put arrangements in place to ensure that in future similar situations are dealt with in line with the Government's commitment. The appropriate place for vulnerable young children is in an environment which is designed for children and young people. In the case of under 16s our view is that the appropriate place is a CAMHS ward.

To conclude, over the past five years the Government have been committed to improving access for children and young people with mental health problems in universal and specialist settings. What these incidents highlight are the need for continued efforts to improve access to emergency and specialist age appropriate inpatient services for under 18s which are close to young people's homes, and services to maintain young people in the community when it is safe to do so, following the example in adult services of outreach and crisis teams. The Government remain committed to developing mental health services further.

Bed days for under 18 year olds receiving mental health treatment in England within the NHS.

	Quarter	*Under 18- year-old on NHS CAMHS ward*	*16 to 17-year-old on NHS Adult Psychiatric Ward*	*Under 16-year- old on NHS Adult Psychiatric Ward*
2006-07	1	34,609	4,697	75
	2	28,171	4,780	25
	3	34,430	4,679	38
	4	39,409	4,511	53
2007-08	1	38,359	3,954	81
	2	37,935	3,893	112
	3	41,184	4,255	49
	4	40,072	4,926	133
2008-09	1	37,003	4,019	16
	2	36,973	3,713	4
	3	39,534	2,854	0
	4	42,065	3,101	3*

Note:
The figures shown above include the latest revisions to past quarterly returns and therefore differ from those previously published.
*This figure does not include a case which has come to the Department's attention in a whole life eating disorder unit and which was not reported to the Department by formal channels. Action is being taken to ensure that eating disorder units abide by the Government's commitment.

HOME DEPARTMENT

Criminal Records Bureau (Annual Report)

The Minister for Policing, Crime and Counter-Terrorism (Mr. David Hanson): I announce that copies of the 2008-09 annual report and accounts for the Criminal Records Bureau have been laid before the House today. Arrangements are now in hand for publication.

JUSTICE

Lasting Powers of Attorney, Enduring Powers of Attorney and Public Guardian (Amendment) Regulations

The Parliamentary Under-Secretary of State for Justice (Bridget Prentice): I have today laid before Parliament the Lasting Powers of Attorney, Enduring Powers of Attorney and Public Guardian (Amendment) Regulations 2009.

Lasting Powers of Attorney, Enduring Powers of Attorney and Public Guardian Regulations 2007 (2007 Regulations), set out the prescribed instruments that must be used to create a lasting power of attorney (LPA) for property and affairs or for personal welfare.

A consultation "Reviewing the Mental Capacity Act 2005: forms, supervision and fees" ran from 23 October 2008 until 15 January 2009. The consultation included draft LPA forms and invited comments on the revisions.

The forms underwent further revision to take on board comments received through consultation and further user testing has been undertaken with stakeholders and members of the public who had no prior knowledge of the forms.

The amendments to the 2007 regulations replace existing prescribed forms for instruments intended to create a property and affairs LPA or a personal welfare LPA with new prescribed forms. The tiles of the new forms detour slightly from the terms used in the Mental Capacity Act 2005 and are purely for presentational purposes. Property and affairs becomes property and financial affairs while personal welfare becomes health and welfare. Respondents to the consultation were in favour of the changes as they felt that they are a better description of the two types of LPA's.

It is intended that the new prescribed forms will be in place from 1 October 2009.

The Lasting Powers of Attorney, Enduring Powers of Attorney and Public Guardian (Amendment) Regulations 2009 provide transitional arrangements for the use of the prescribed forms in the 2007 regulations provided the form is executed before 1 April 2011.

The Lasting Powers of Attorney, Enduring Powers of Attorney and Public Guardian (Amendment) Regulations 2009 also make two minor changes to the 2007 regulations to correct errors.

Legal Aid and Prisoners

The Parliamentary Under-Secretary of State for Justice (Bridget Prentice): My noble Friend the Parliamentary Under-Secretary of State (Lord Bach) has made the following written ministerial statement.

The Legal Services Commission (LSC) will publish today a response to its consultation, published in February 2009, on prison law funding. The consultation focused on proposals to control the volume and cost of prison law cases and place funding on a sustainable basis for the future. Legal aid expenditure on prison law—which includes advice to prisoners on their treatment, discipline and sentence, and legal representation for parole hearings—has increased from £1 million in 2001-02 to nearly £22 million in 2008-09.

Following consultation, the LSC intends to implement a range of measures from July 2010 to control any further increase in prison law costs. The proposals, which will bring prison law funding arrangements in line with many other areas of legal aid, are:

A new fee scheme based on fixed and standard fees (amended in response to feedback from legal aid providers);

A strengthened eligibility test, coupled with more clarity on the cases the LSC will and will not expect to fund in future; and

A new quality requirement, based on 350 hours work annually, to ensure providers have sufficient experience and expertise in prison law.

In the light of consultation responses, the LSC has decided to assess the impact of these steps before introducing additional controls on the volume of cases or piloting alternative means of delivering prison law services, such as telephone advice.

Copies of "Prison Law Funding: A Consultation Response" have been placed in the Libraries of both Houses. The document can be downloaded from the consultation section of the LSC's website at www.legalservices.gov.uk.

Inquests (Service Personnel)

The Parliamentary Under-Secretary of State for Justice (Bridget Prentice): My hon. Friend the Minister for the Armed Forces and I wish to make the latest in the series of quarterly statements to the House about the inquests of service personnel and others who have died overseas. Our deepest condolences go, as ever, to the families of the service personnel who have lost their lives in the service of their country, and in particular to the 31 who have died since our last statement.

All the families whose loved ones have made the ultimate sacrifice for their country, or who have otherwise lost their lives in connection with the operations in Iraq and Afghanistan, remain very much in our thoughts.

Today, we are announcing the progress that has been made since the written ministerial statement on 5 May 2009, *Official Report*, column 7WS, with information about the conduct of inquests by the Wiltshire and Swindon and other coroners. This statement gives the position at 6 July.

The tables which accompany this statement again include information about those cases which involve a board of inquiry or a service inquiry.

Progress with inquests

At the time of the last statement, we reported that up to 27 April 230 inquests had been held since June 2006: 216 into the overseas deaths of service personnel and 14 into the deaths of civilians in Iraq whose bodies were repatriated via RAF Brize Norton or RAF Lyneham.

Since 27 April a further 11 inquests have been held into the deaths of service personnel who died in operations in Iraq or Afghanistan. This makes a total of 241 inquests held since June 2006.

Since operations commenced in 2001 there have been a total of 265 inquests into the deaths of service personnel who lost their lives in Iraq and Afghanistan, including five service personnel who died in the UK of their injuries. In two further cases, no formal inquest was held, but the deaths were taken into consideration during inquest proceedings for those who died in the same incident.

We remain deeply grateful for the efforts of all the coroners who are involved in conducting these inquests, and totally committed in our support for the independent coronial system.

Our Departments continue to work closely together, and with the coroners, to review the way in which the system is working and to look for opportunities, prior to the implementation of the coroners' legislation which is currently before Parliament in the Coroners and Justice Bill, to make improvements for the benefit of the bereaved families.

Open inquests

i Pre-31 March 2007 Fatalities

The statement in May reported that there was one remaining inquest to be held into a death where the body was repatriated via RAF Brize Norton prior to 31 March 2007, into the death of Marine Wigley. That inquest has since been concluded and there are no outstanding pre-March 31 2007 inquests in the Oxfordshire coroner's district

ii Post-1 April 2007 Fatalities

Since October 2007, additional resources have been provided by the Government to ensure that a backlog of inquests does not build up in the Wiltshire and Swindon district (since 1 April 2007 fatalities have been repatriated via RAF Lyneham). The coroner transfers inquests for service personnel to a coroner closer to the bereaved family, where possible. We are pleased that the district continues to benefit from the experience and expertise of David Masters, who retired as coroner on 31 March, following his appointment as an assistant deputy coroner by his successor, David Ridley.

There are 76 open inquests to be concluded into the deaths of service personnel who died in Iraq and Afghanistan whose bodies were repatriated after 1 April 2007 (36 involving deaths in the last six months). Of these, Mr. Ridley has retained 41 inquests, while 35 inquests are being conducted by coroners closer to the next of kin. At 6 July, two fatalities had been repatriated but inquests were yet to be opened, and four recent fatalities awaited repatriation. Hearing dates have been set in 22 of these cases.

iii. Inquests into the deaths of service personnel who returned home injured

There remain six inquests to be held of service personnel who returned home injured and subsequently died of their injuries.

We shall continue to keep the House informed about progress with the remaining inquests. I have placed tables in the Library of the House which outline the status of all cases and the date of death in each case. Copies are also available in the Vote Office and the Printed Paper Office.

Office of the Public Guardian (Annual Report and Accounts)

The Parliamentary Under-Secretary of State for Justice (Bridget Prentice): The "Office of the Public Guardian's Annual Report and Accounts for 2008-09" has been laid before Parliament today. This document gives full details of the agency's performance and expenditure for the 12 months from 1 April 2008, and includes the Public Guardian's annual report to the Lord Chancellor about the discharge of his functions pursuant to section 60 of the Mental Capacity Act 2005.

A revised version of the "Public Guardian Framework Document" has also been placed in the Libraries of both Houses to reflect recent changes to the governance structure of the Office of the Public Guardian (OPG). References to the OPG's responsibility for the Court of Protection's administrative functions have been removed, reflecting the move of the Court of Protection from the Office of the Public Guardian to Her Majesty's Court Service on the 1 April 2009. The document now also reflects the OPG's new clearer governance arrangements. This now consists of two boards—the statutory Public Guardian Board and the OPG's Executive Board—following the removal of the OPG Agency Board as a third board in the previous structure.

Copies of the "Office of the Public Guardian Framework Document" will also be available in the Vote Office and the Printed Paper Office and from the website of the OPG: www.publicguardian.gov.uk.

United Kingdom Supreme Court

The Secretary of State for Justice and Lord Chancellor (Mr. Jack Straw): On 2 April 2009 I announced that the Middlesex Guildhall had been handed over to the Ministry of Justice. I am pleased to be able to report further significant progress on the Supreme Court Implementation Programme—the programme remains on time and within budget.

First, I have received a written assurance from the noble and learned Lord Phillips of Worth Matravers that the Law Lords are satisfied that the refurbished Middlesex Guildhall will meet the needs of the new Supreme Court. The refurbishment has been completed to the highest standards, respecting the heritage of this unique building. This is consistent with both the status of the court and the needs of the Supreme Court Justices, court users and the public for modern accessible facilities. On this basis I have now signed the commencement

order that will enable the court to come into being on 1 October 2009, as I am satisfied the court will be fully operational by that date.

Lord Phillips has made the rules that will underpin the workings of the court and these have been laid before Parliament. In making the rules, Lord Phillips has taken into account his statutory duty to ensure that the rules are both simple and simply expressed and that they have a view to ensuring the court is accessible, fair and efficient. The rules have been widely supported on consultation.

In addition the responses to public consultation on the fees payable in the court have been analysed. A summary of the responses to consultation and the Government's proposed way forward have now been published. Consultees were in general agreement with the course proposed, with the exception of fees for devolution cases. While consultees agreed that the fees for devolution cases should be brought into line with civil fees generally, they were concerned that to make this change in one step represented too steep an increase—we have therefore decided to implement this change in stages.

The Fees Order for the court will be laid on this basis.

I previously announced that the anticipated running costs for the UK Supreme Court would be £12.3 million. At present Her Majesty's Court Service pays £1.2 million pension and national insurance contributions with respect to the Law Lords. For transparency this will be transferred to the UK Supreme Court from 1 October. This does not represent any additional cost to the public purse. For the first year we have provided an additional £300,000 to cover transitional set-up costs, this is being met from within existing resources. The costs of some aspects of the court's operation, including security, remain to be finalised and so the anticipated running costs will continue to be refined and reviewed on an ongoing basis.

NORTHERN IRELAND

Police Ombudsman (Annual Report and Accounts)

The Secretary of State for Northern Ireland (Mr. Shaun Woodward): The Police Ombudsman for Northern Ireland's annual report and accounts for the year ended 31 March 2009 has been laid before the House today.

TRANSPORT

Maritime and Coastguard Agency (Correction)

The Parliamentary Under-Secretary of State for Transport (Paul Clark): I regret to inform the House that the answer I gave on 8 July to a parliamentary question, *Official Report*, column 802W, about the breakdown of staff employed at the Maritime and Coastguard Agency (MCA) was incorrect.

The MCA has checked the figures and the answer should read:

The number of staff employed by the Maritime and Coastguard Agency (MCA), broken down into the categories asked, since 2002 is shown in the table. The MCA's systems only hold records back to 2002:

	2002	*2003*	*2004*	*2005*	*2006*	*2007*	*2008*
Surveyors	173	177	188	194	190	192	181
Coastguard Control Centre	537	515	531	545	534	532	501
Administrative	386	411	423	473	467	472	422
Human Resources	47	55	50	57	58	58	54

Administrative staff includes, for example, Senior Managers and Policy Leads as well as Administrators.

Low Carbon Transport: A Greener Future-Strategy

The Minister of State, Department for Transport (Mr. Sadiq Khan): My right hon. and noble Friend the Secretary of State for the Department for Transport, Lord Adonis, has made the following ministerial statement.

I am announcing today the publication of "Low Carbon Transport: A Greener Future" (Cm 7682)—a carbon reduction strategy for transport. A key component of the "UK Low Carbon Transition Plan", also published later today, this document sets out the actions we are taking to deliver reductions in transport emissions in line with our obligations under the UK's carbon budgets to 2022.

It puts us on a path towards a low carbon transport system, giving people and business more low carbon choices about when, where and how to travel or to transport goods.

We have already begun—and will continue—a strong programme of activity to tackle the climate change impact of transport.

In December 2008, we agreed a demanding framework with our European partners for reducing CO_2 emissions from new cars. This alone is expected to save 7 million tonnes of CO_2 in the UK in 2020. In January 2009, alongside our statement on Britain's transport infrastructure, we set a pioneering target to reduce CO_2 emissions from UK aviation to below 2005 levels by 2050, in so doing, posing a challenge to the aviation industry to innovate and adopt better fuel efficiency. We have also made securing international agreement to reducing CO_2 emissions from aviation and shipping a key priority for the UN talks in Copenhagen at the end of this year.

In April, we made clear our intent to create a flourishing market for ultra-low emissions vehicles in the UK for both consumers and industry. This will be achieved through a combination of support for research and development, and a £250 million fund for consumer incentives and electric vehicle charging infrastructure. In May we announced that up to £29 million was available for large urban areas across England to bid to become the country's first sustainable travel city.

In June and July, we announced a range of measures to promote new, greener technology on our roads. Up to 150 low emission and all-electric vans will be introduced to public sector fleets; over 340 ultra-low emissions cars are to be demonstrated around the UK through a £25 million programme delivered by the Technology Strategy Board; and we launched a £30 million scheme to encourage uptake of low emission buses. And on top of our existing commitment of £140 million to support cycling, to improve the integration of greener travel modes, we also announced plans to radically improve station cycle storage at up to 10 major railway stations nationwide.

Alongside today's document, we confirm our commitment to working with our European partners to develop an ambitious and realistic mechanism to reduce CO_2 emissions from new vans. With the freight and logistics industry, we have also launched a working group to develop a consistent carbon measurement and reporting method and standard for the logistics transport supply chain.

Our efforts will not stop here. In the coming weeks we will emphasise the importance of addressing CO_2 from transport in the guidance we give to our local and regional partners as

they begin to develop new local transport plans and longer-term transport solutions. Finally, we are shortly to announce our plans for further electrification of the rail network.

The measures set out in strategy will save an additional 85 million tonnes of CO_2 over the third carbon budget period from 2018-22. This strategy is a signal of our determination to build a low carbon future.

Renewable Fuels Agency (Annual Report and Accounts)

The Minister of State, Department for Transport (Mr. Sadiq Khan): The Renewable Fuels Agency's annual report and accounts for 2008-09 (HC 877) has been laid before Parliament today, in accordance with paragraph 14 of the schedule to the Renewable Transport Fuel Obligations Order 2007. The annual report and accounts include the report of the Comptroller and Auditor General. Copies of the report will be placed in the Libraries of both Houses.

Article 14 of the Renewable Transport Fuel Obligations Order requires a further annual report to be published by the end of January 2010, detailing the operation of the Renewable Transport Fuel Obligations scheme in the 2008-09 obligation period. That annual report will also be laid before Parliament after publication, as provided in the order.

Written Ministerial Statements

Thursday 16 July 2009

BUSINESS, INNOVATION AND SKILLS

Informal Meeting of Employment and Social Policy Ministers

The Minister for Pensions and the Ageing Society (Angela Eagle): My noble Friend, The Minister for Employment Relations and Postal Affairs, Lord Young of Norwood Green, at the Department for Business, Innovation and Skills has made the following statement.

"The informal meeting of Employment and Social Policy Ministers took place on 8 to 9 July 2009 in Jonkoping, Sweden. I represented the UK.

The theme of this informal meeting was labour market inclusion looking ahead to post-2010. The informal looked at maintaining employment and promoting mobility, upgrading skills and matching with labour market needs and increasing access to employment. Working time was also discussed over a Ministers-only lunch which I attended.

In the opening session, member states agreed on the importance of active social security and labour market policies. They stressed the importance of ensuring help for those moving between jobs and those already outside the labour market. While the crisis tested member states' resolve to conduct further reforms, now was the time to prepare Europe for the economy of the future.

Following on from the opening session, the meeting was split into three workshops, each devoted to a specific challenge: Workshop 1—Managing the impact of the financial crisis by increasing access to employment, Workshop 2—Facilitating access to employment by efficient reforms in the labour market and Workshop 3—Increasing employment through an active social security policy. I participated in Workshop 3 to present the UK approach to the reform of incapacity benefit and said that reform was ongoing. Others member states warned against repeating the mistakes of the past that caused long-term structural damage to economies.

The presidency concluded that it saw these discussions as feeding into its work on the post-2010 strategy. The commission concurred. While the current Lisbon strategy remained the right framework for action, its forthcoming revision would need to take better account of the social dimension. The commission would set out initial views in its forthcoming consultation document.

The meeting concluded with a private Ministers-only lunch discussion on the working time directive. Following the failure of negotiations on the directive, some member states insisted that any new proposal would need to deal with the opt-out. The UK along with Germany, Poland and others disagreed. A few member states urged caution and saw no point in proceeding if failure was clear from the outset. The Commission underlined the need to respect European Union law. Preliminary discussions would be needed with the European Parliament before deciding how to proceed. The presidency concluded that the majority of member states use the opt-out but that a way forward would need to be found."

TREASURY

ECOFIN

The Chancellor of the Exchequer (Mr. Alistair Darling): The Economic and Financial Affairs Council was held in Brussels on 7 July 2009. The following items were discussed:

Presentation of the presidency work programme

The Council took note of the presentation by the Swedish presidency of the ECOFIN work programme for the second half of 2009.

Follow up to the 18-19 June European Council

a) Financial supervisory framework—The Council took stock of the presidency's strategy for taking forward work on European financial supervision and regulation following the agreement reached at the June ECOFIN and European Council. The UK is supportive of the timetable presented, with legislative proposals expected on 23 September, and will engage fully in the upcoming negotiations to ensure that the legislation is in line with the agreement reached by leaders at the European Council, and in particular that any new powers granted to existing or proposed bodies would not impinge in any way on member states' fiscal responsibilities.

b) Climate change financing—Ministers also took note of conclusions agreed by heads at the June European Council on the financing of climate change. The presidency expects an agreement to be reached on a negotiating mandate at a meeting of the European Council in October, when ECOFIN will also revisit this issue. The Government believe that work should continue to ensure the EU reaches agreement on the key issues in advance of the Copenhagen conference in December.

Preparation for the G20 meetings

The UK updated the Council on the outcome of a G20 deputies meeting on 27 and 28 June. The presidency informed Ministers of its intentions of the handling of the preparation for further G20 meetings in September, including London meetings of G20 deputies on 3-4 September and G20 Finance Ministers and central bank governors on 4-5 September. There will be a lunch of EU Finance Ministers to prepare for these on 2 September. The Government will look forward to working closely with the presidency to ensure co-ordination of work taken forward at G20 and EU levels.

Pro-cyclicality

Following a report by the Economic and Financial Committee, ECOFIN adopted Council conclusions on pro-cyclical effects on financial markets. The conclusions assess work underway to reduce possible pro-cyclical effects of financial regulation, including on the issue of impaired assets. The UK is content with the conclusions, which represent a positive step forward on this issue, and looks forward to further discussion of the issue in the autumn.

Implementation of the Stability and Growth Pact

a) Adoption of legal acts in the excessive deficit procedure—ECOFIN adopted Council decisions for Latvia, Lithuania, Malta, Poland and Romania, formally entering these countries into the excessive deficit procedure, and issued recommendations on corrective action to be taken. It also issued a revised recommendation to Hungary on measures to be taken in order to correct its excessive deficit.

b) Adoption of Council opinions on updated stability and convergence programmes—The Council adopted opinions on the updated stability and convergence programmes of Slovenia, Slovakia, Austria, Belgium and Romania.

Any Other Business

Medium-Term Budgetary Objectives (MTOs) and Implicit Liabilities

The Council took note of issues raised by the Slovenian Minister regarding the methodology to be used by member states from this autumn when they set medium-term objectives for their national budgets.

The Economic Secretary to the Treasury (Ian Pearson): On 10 July 2009, I represented the UK at the budget Economic and Financial Affairs Council (ECOFIN).

The Council conducted its first reading of the EC budget for 2010, and agreed a draft budget that was supported by all member states.

The Council meeting was followed by a conciliation meeting between the Council and the European Parliament to discuss the EC budget for 2010.

Provisional Outturn for Public Expenditure (2008-09)

The Chief Secretary to the Treasury (Mr. Liam Byrne): The Treasury is today publishing the "Public Expenditure 2008-09 Provisional Outturn" White Paper.

The White Paper is an annual report to Parliament on the provisional outturn for public expenditure. It focuses on spending within departmental expenditure limits (DEL) and annually managed expenditure (AME), and includes information on individual supply estimates, and administration costs and near-cash limits.

The outturn figures are described as provisional because, in some cases, they will be revised when Departments publish their final accounts.

A copy of the White Paper will be available in the Libraries of both Houses and will be accessible on the Treasury website.

Tax Law Rewrite

The Financial Secretary to the Treasury (Mr. Stephen Timms): As the tax law rewrite project will soon complete the work of rewriting mainstream direct tax legislation, it is necessary to consider whether it should rewrite other parts of the direct tax code.

Since it was set up, the project has played a key role in modernising tax legislation and making it far more accessible and easier to apply. Its work has rightly been widely praised, and has provided considerable benefits for users. However the benefits of rewriting other parts of the direct tax code are less clear and there is less support for extending the work of the project into these areas. I am satisfied that when the project's next two Bills are enacted, the time will be right to bring this work to an end.

The achievements of the project would not have been possible without the dedication of everyone involved. Many tax professionals in the private sector have given their time and expertise in reviewing and improving the new provisions during their development, in a productive partnership with HM Revenue and Customs. Their input, and the guidance of the project's steering and consultative committees, have been vital in achieving the excellent quality of the rewritten legislation.

With the completion of the project's work, legislation for the mainstream direct taxes will be much easier for users to navigate and understand.

Gaming Machines

The Exchequer Secretary to the Treasury (Sarah McCarthy-Fry): I am today publishing a consultation on the future of gaming machines tax policy, copies of which have been placed in the House Library.

Following reforms to gambling taxation over the last decade, five of the seven gambling tax regimes are now calculated on a gross profits basis. Gaming machines face a combination of amusement machine licence duty (AMLD), a licence fee paid before a gaming machine may be made available to play, and VAT at the standard rate on their takings.

Taxing on the basis of gross profits has been a success for other gambling regimes. The Government are considering whether to place the taxation of gaming machines on to the same basis, and wishes to hear from interested stakeholders.

The consultation period will run until 23 October to ensure stakeholders are given additional time to make representations. The consultation document is also available from the HM Treasury website.

Walker Review

The Exchequer Secretary to the Treasury (Sarah McCarthy-Fry): The Government strongly welcome the publication today of the consultation document of Sir David Walker's independent review of the corporate governance of UK banks and other financial institutions.

Corporate governance failures were a major contributor to the financial crisis and the weaknesses in board practice, risk management, control of remuneration and exercise of ownership rights identified must be addressed.

Sir David's proposals are detailed and comprehensive, setting a new benchmark for best practice both nationally and internationally.

The Government will carefully consider his proposals, including their wider and international implications, and in conjunction with the views arising from the consultation, make sure that robust measures are put in place.

Copies of the consultation have been deposited in the Libraries of both Houses.

CABINET OFFICE

Annual Report and Accounts

The Minister for the Cabinet Office and for the Olympics, and Paymaster General (Tessa Jowell): Today, the Cabinet Office's "Annual Report and Accounts 2008-09" (HC 442) has been laid before Parliament

The annual report and accounts reports a loss and a contingent asset following the termination of phase 2 of the SCOPE programme in July 2008.

The SCOPE programme was an information technology programme working with 10 partners across Government. It aimed to extend the benefits of communication and collaborative working afforded by current information technology by improving the way sensitive information was shared between and used by the security and intelligence agencies and Government Departments.

The first phase of the programme was delivered on time and within budget in 2007. It has delivered extremely valuable benefits to the intelligence community in Government and has ensured that all its constituent members are now connected electronically.

Phase 2 was about providing additional functionality, for example, to allow for greater collaborative working between the security and intelligence agencies and Departments.

Phase 2 of the programme was cancelled following the failure of the main commercial supplier to the programme to meet key contractual milestones. As a consequence of termination, it was necessary to write off and report as a loss in the annual report and accounts that part of the value of the asset under construction which had no prospect of becoming viable.

The Treasury has approved a write-off of £24.4 million which has been managed within the Department's net resource requirement and budget and constitutes a charge against non-cash programme expenditure in the resource departmental expenditure limit.

My Department is now working with the contractor to resolve issues arising from the termination of the programme, including consideration of the legal avenues available. The aim of the work is to ensure that Her Majesty's Government and, ultimately, the taxpayer recover the appropriate value from the supplier which relates to those undelivered parts of the programme. This is noted as a contingent asset in the annual report and accounts. The details of the discussions with the supplier are commercially confidential and are likely to remain so.

COMMUNITIES AND LOCAL GOVERNMENT

Gypsies and Travellers

The Parliamentary Under-Secretary of State for Communities and Local Government (Mr. Shahid Malik): The Government have today published their first annual report on Gypsy and Traveller policies, as set out in its response to the Task Group on Site Provision and Enforcement for Gypsies and Travellers.

Copies of the report have been placed in the Library of the House.

The Government are committed to a fairer, stronger society, in which disadvantage faced by all members of society is tackled. Fairness means ensuring that those Gypsies and Travellers who have no authorised place to stay have the same opportunities as others to a place they can call home, together with the same access to educational, health and other services. It means also that residents in local communities should not have to cope with the unauthorised developments and encampments that can be the consequence of a shortfall in authorised sites.

The report confirms that the framework put in place by the Government provides the tools to enable local authorities to tackle both the shortfall in site provision, and instances of unauthorised developments and encampments where they occur. The Government have published clear guidance to enable local authorities and other agencies to make effective use of the wide range of enforcement powers available to them. They now look to local authorities to be proactive in taking the lead in addressing the shortfall by identifying, in consultation with local communities, appropriate locations for sites which will have the twin benefits of creating homes for Gypsies and Travellers, and reducing the number of unauthorised developments which can be the cause of local community tensions.

The identification of authorised sites will also enable local authorities to reduce the costs of enforcement action related to unauthorised encampments, as well as providing access to even stronger enforcement powers when there are available pitches to which unauthorised campers can be moved. The savings from the reduction in enforcement action can then be deployed to other services to the benefit of the broader community, or reduced levels of council tax.

Thames Gateway Annual Report

The Parliamentary Under-Secretary of State for Communities and Local Government (Mr. Shahid Malik): The Government have today published the "Thames Gateway Annual Report 2008-09".

Copies have been placed in the Library of the House and can be accessed via the Communities and Local Government website at: http://www.communities.gov.uk/publications/thamesgateway/annualreport200809

Eco-towns and Zero Carbon Homes

The Minister for Housing (John Healey): Yesterday, the Government published their "Low Carbon Transition Plan". To respond to the challenge of climate change, we need to become a low-carbon country, achieving an 80 per cent. reduction in greenhouse gas emissions by 2050.

We must also meet the challenge to build more homes, so that everyone has a decent secure and affordable home.

To deliver both we need to change the way that we plan, design and build homes for the future. More than a quarter of Britain's carbon emissions come from our homes. We will need to reduce emissions from existing homes. The Government announced important measures

to do so yesterday and we will set out more later this year. But, one in three of Britain's homes in 2050 will be built between now and then. We need to make sure that our homes in future are cleaner, greener and cheaper to run from the out set.

Today I am reconfirming the Government's policy that all new homes will be zero-carbon from 2016 and announcing further details on the definition and standards we will legislate for.

New buildings are only part of the answer for a low carbon and sustainable future. A differently planned and more sustainable built environment can encourage more sustainable ways of living.

Today I am publishing the "Planning Policy Statement" which sets out the highest ever standards for green living, announcing the first four pioneering locations for Eco-towns in England and offering Government support to work with a further six second wave areas.

By radically rethinking how we design, plan and build we can create zero-carbon developments which combine affordable housing with green infrastructure, greater energy efficiency and a higher quality of life.

To support the Low Carbon Transition Plan and its route map to carbon reduction, today I am also announcing that we will review and combine the Climate Change and Renewable Energy Policy Planning Statements (PPS) consulting in detail on proposals before the end of the year.

Zero Carbon Homes

In July 2007, we announced that all homes would be zero-carbon from 2016. In December 2008, we published a consultation on the definitions of zero-carbon. I am announcing today details of the definition that will apply.

A zero-carbon home is one whose net carbon dioxide emissions, taking account of emissions associated with all energy use in the home, is equal to zero or negative across the year. Our definition of "energy use" will cover both energy uses currently regulated by the Building Regulations and other energy used in the home. Homes meeting the new requirements will be cheaper to run because of high energy efficiency requirements, and occupants will be less vulnerable to rising gas and electricity prices. These homes will have better controls, including smart meters, so that people can more easily manage and reduce energy use. Technology for people to generate their own low carbon heat and electricity, with payments for surpluses will be designed and built into new zero-carbon homes or developments as a matter of course.

Zero carbon homes will be designed and built to be highly energy efficient. Our consultation quoted two standards to illustrate our ambitions in this area. Respondents welcomed the proposition that energy efficiency should be the first priority, although many argued that the standards quoted were not suitable as a minimum regulatory standard to apply to every new home in England and that we do not have an appropriate established energy efficiency standard for the purpose of zero-carbon homes. I accept this.

I am therefore setting up a specialist task group, reporting to me in the autumn to examine the energy efficiency metrics and standards which will realise our ambition of the highest practical energy efficiency level realisable in all dwelling types. Following the task group's report, I intend to announce decisions on a clear new standard by the end of this year.

The net emissions of the home, taking account of its energy efficiency and on site energy supply (including, where relevant, connections to heat networks) will meet a minimum "carbon compliance" standard—in effect a regulatory level of carbon reduction to be achieved on-site compared to today's regulations.

I have decided to set that level to be as ambitious as possible for on-site carbon mitigation, while being technically achievable. This will therefore be 70 per cent. of regulated energy use, based on the assumptions laid out in our consultation document. We will consider updating this as necessary in the light of technical changes, such as developments to the standard assessment procedure energy assessment tool, to maintain this overall level of ambition and provide continued certainty to industry.

I can also confirm that new support for small scale renewable heat and electricity generation through the Renewable Heat Incentive and Clean Energy Cash Back, will be available for on-site renewables in zero-carbon homes, making these homes more attractive to occupants and potentially reducing the net costs faced by developers.

Any carbon not mitigated on site will be dealt with through a range of good quality "allowable solutions". The allowable solutions will cover carbon emitted from the home for 30 years after build. Responses to the consultation took different views about some of the solutions suggested. I have decided to indicate now those approaches that commanded broad support. We will consider with stakeholders the practical arrangements that would be required to permit them to be put in place and to ensure that standards are achieved in practice. I will announce decisions by the end of this year. Those that received broad support are:

Further carbon reductions on site beyond the regulatory standard;

Energy efficient appliances meeting a high standard which are installed as fittings within the home;

Advanced forms of building control system which reduce the level of energy use in the home;

Exports of low carbon or renewable heat from the development to other developments;

Investments in low and zero-carbon community heat infrastructure.

Other allowable solutions remain under consideration.

The wider policies supporting distributed energy will continue to develop over the coming years. Our consultation suggested setting a guideline maximum price we expect industry to bear in implementing allowable solutions. In the light of responses, I intend to do so following further work on costs. For the purposes of the impact assessment published today, I have included costs of allowable solutions up to the central option in our consultation of £100 per tonne of carbon dioxide, reflecting the cost of off-site renewable electricity.

Government will support industry as it responds to this challenge. Budget 2009 announced that the Government will report at the 2009 pre-Budget report on progress and set out its strategy to support a timely and effective housing supply response through the recovery, in order to maximise delivery of high quality, energy efficient homes, supporting our long term housing supply and environmental objectives. As part of this, the Government will identify, working with industry and other partners,

the best regulatory and policy framework to support the Government's long-term housing objectives. In making the announcement today, I am making clear the priority the Government attach to tackling climate change over other potential demands on land values. We will examine the cumulative impact and costs of our existing regulatory policies and proposals that potentially affect land value including current implementation plans in the round in the context of the PBR work, taking the zero-carbon policy into account.

Industry will need to develop innovative design and building technologies and techniques, and to support these efforts Government will work closely with the industry:

The Technology Strategy Board is working with partners to enable it to harness the market for environmentally sustainable buildings, since 2004 investing £46 million in this area. Under its Low Impact Buildings Innovation Platform a further total of £50 million is now earmarked for allocation to research relevant to new build by 2011. This includes over £30 million of capability building work to be awarded over the next two years and up to £8.5 million in new build demonstration programmes;

The Homes and Communities Agency (HCA) has a carbon challenge programme which aims to accelerate the home building industry's response to climate change by building homes that reach level 6 of the code for sustainable homes. Four new communities are planned which will together provide around 1,700 zero-carbon, highly sustainable demonstration homes;

I am today announcing with the HCA support for the first schemes under the £21 million Low Carbon Community Heating Initiative fund, launched in Budget 2009. Schemes will be supported in Exeter, Nottingham, Milton Keynes, Southampton, Birmingham and Newcastle.

Eco-towns

Eco-towns respond to the demand to build more homes and to live in a more sustainable way. By radically rethinking how we design, plan and build our homes, we can create zero-carbon developments which combine affordable housing, environmental sensitivity, and outstanding quality. Eco-towns will pioneer genuinely sustainable living setting standards that will need to be followed more widely to deal with the challenge of climate change.

The new Eco-town Planning Policy Statement (PPS) that I am publishing today sets out the highest ever standards for green living, and linked to it I can announce the first four pioneer locations for England's Eco-towns. These are: Whitehill-Bordon, St. Austell (Clay Country), Rackheath (Norwich) and NW Bicester, all led or strongly supported by their local authorities who can see both the potential for their new eco town and the benefit for existing communities in regeneration, higher quality jobs and new green infrastructure. Each of these four locations has the capacity to link well into existing development—as well as the scale to function as a new settlement. None are self contained developments in the middle of the countryside.

These locations will receive continuing Government support including a share of a special £60 million growth fund to support local infrastructure.

Alongside the new Eco-towns PPS I am publishing a series of documents which demonstrate the detailed work and assessment on which my decisions today are based. These are:

an update of the Sustainability Appraisal;

a Sustainability Statement;

an Impact Assessment;

Summary of responses to the consultation on the draft PPS;

a Location Decision Statement.

I am placing copies in the Library of the House.

However the PPS is a statement about potential. The decision on whether or not the eco-town schemes go ahead is for the local planning authority. Schemes can be considered in local plans and will be the subject of individual planning applications, and local consultation, which will be decided on their merits by the local authority.

In addition to the first four pioneering locations in the PPS we have said we want to see up to ten Eco-towns by 2020, so I am making the offer to work with and help fund a further six more local authorities in developing proposals through regional and local plans. We have offered additional support to two authorities where proposals were not sufficiently advanced to be included in the PPS—Uttlesford and Doncaster to enable them to take forward these locations through their local plans if this is the preferred option they choose to pursue. I have set aside £5 million to support these and other areas to carry out further assessment and technical work including potential future locations to come through plans in other regions.

The eco-towns concept—more sustainable living in new communities—has attracted real interest. When a whole community is planned at this scale (5,000 homes is broadly the size necessary to support a secondary school) there is an opportunity to completely rethink how transport, employment, retail and other services are provided as well as designing housing to exemplary standards. In practice this means features such as smart homes with remote control of heating and ventilation, real time information on available transport, state of the art provision for home-working, including high quality broadband.

The PPS I am publishing today sets out for the highest standards for green living ever set. Eco-town developments must be able to demonstrate essential features to achieve the highest levels of sustainability. Examples of the PPS standards include ensuring:

zero-carbon status across all the town's buildings, including commercial and public buildings as well as homes—a significantly tougher threshold than any existing or agreed targets;

40 per cent. of the area within the town to be green space, at least half of which should be open to the public as parks or recreation areas;

a minimum of one job per house can be reached by walking, cycling or public transport to reduce dependence on the car;

all homes are located within ten minutes walk of frequent public transport and everyday neighbourhood services;

smart, efficient, affordable homes taking their energy from the sun, wind and earth.

Eco-towns offer great potential to test a wide range of innovative and emerging technologies because of the scale of the projects. To ensure we make the most of these opportunities, and to support business innovation, the Technology Strategy Board will work with the selected eco-towns to capture this potential. The Technology Strategy Board will look to co-ordinate and align with the work on eco-towns a range of activities drawing on current investments worth over £200m through Innovation Platforms in the areas of Low Impact Buildings, Intelligent Transport Systems and Services and Low Carbon Vehicles and its programmes in the area of Energy Generation and Supply and Advanced Materials.

Eco-towns can play a leading role in the development of electric cars through building in infrastructure such as charging points as a standard provision in all major public and services buildings. We will work with all the eco-town locations to develop their potential for supporting this technology and in piloting the next generation of electric and hybrid cars.

Eco-towns will be major building projects which could employ large numbers of local people, many new to the sector and who will require training in the industry. They offer an opportunity to ensure that existing skills are upgraded to deliver the low carbon built environment and equip the construction workers of the future with the skills in sustainable design and building. Where public funds are committed, public sector agencies will look to use clauses in delivery contracts to ensure a proportion of apprenticeships are offered and these are "green skills" apprenticeships.

Eco-towns can pilot and test new ways of delivering public services, as well as making them more sustainable and responsive to climate change, such as new and innovative schools to meet the needs of new and existing residents. Department of Children, Schools and Families (DCSF) will support eco-towns to ensure the design of schools, including travel to them, and the delivery of play and youth services and facilities are both innovative and sustainable. We will work closely with the promoters of eco-towns and the relevant local authorities to look at how best to meet those needs with the aim of ensuring that each of the eco-towns has a zero-carbon school in place by 2013.

We want schools to be sustainable socially as well as environmentally. By 2010 all schools should be providing access to extended services for children and families. Eco-towns in particular should explore opportunities for co-locating children's and other support services alongside schools for example through Sure Start Children's Centres which bring together childcare, early education, health and family support services.

Eco-towns will be designed as healthy and sustainable environments encouraging healthy living for all through active design principles, community involvement and encouraging healthy behaviours. The Department of Health will work with other Government Departments and associated research bodies in seeking to achieve a zero-carbon standard for health and social care facilities in the eco towns.

Eco-towns also need to be sustainable travel towns, demonstrating how using "smarter choices" can secure significant increases in cycling, walking and public transport. All the homes in the demonstration projects should have secure cycle storage designed in from the outset.

Good transport links are essential to the success of any new community. Three of the four eco-town locations I am announcing today are well located for rail transport. For the fourth, Bordon, I am announcing funding support for the next stage of feasibility work, working with Hampshire county council, to establish if restoration of a rail link can be achieved sustainably and subject to a sound business case.

We want nature to be at the very heart of eco-towns and the development process will be used to restore wildlife habitats and weave the living landscape back together. We expect the eco-towns to become working demonstrations of the ways that biodiversity can contribute to safe, healthy and prosperous communities. Biodiversity projects are being developed at all four locations, and include the potential to work with the Eden project team.

Eco-towns are large developments which will require all parts of the public sector to work together, and close working relations between local and central Government. I therefore propose to invite each of the eco-town local authorities to look at how their LAA could provide a suitable framework for planning future service provision and delivery in and around the eco-town area, for example through a stronger focus on a lower tier local authority within the LAA arrangement or sub area locality agreement.

I propose to establish a formal relationship between local and central Government, in an arrangement based on the model of multi-area agreements (MAA), to negotiate the freedoms and flexibilities eco-town areas will need to realise their aspirations. I wish also to offer certainty that central Government are willing to work closely with the local authority and local communities to make the most of their new eco town opportunities.

In addition I am asking the Homes and Communities Agency to provide support, expertise and advice to local partners and I expect the HCA's first step to be inclusion of the four eco-town locations in the first wave of single conversations between the agency and local authorities, with the agency assessing the detailed proposals as they come forward from the promoters in each location, and advising each location on funding, including growth funding. Providing there are proposals which represent good quality and value for money and are deliverable within a mixed community context, provision of affordable housing support in these locations will be presented by HCA as a regional priority in the allocation of resources from the National Affordable Housing Programme.

The eco-town locations I am announcing today all have existing communities close by or within the area and I want them to benefit from their new eco-towns. We will, therefore, be inviting existing communities in the first eco-town locations to participate in the "Green villages, towns and cities" challenge for communities announced in the DECC Low Carbon Transition Plan published yesterday. In total, 15 communities will be selected to participate as "test-hubs", with local residents, businesses, and the public sector playing a leading role.

The need to develop thriving and sustainable communities able to take a strong role in shaping their community is at the heart of the eco-town concept. To support community anchor organisations in taking a leading role in shaping the eco-town proposals, and subject to local proposals, Government will invite eco-town pilot projects to apply for support within the £70 million community builders fund for community organisations, including for the purchase of community assets.

We have been well served by the Eco-towns challenge panel of independent experts and we want to maintain the creative contribution that independent professionals can make through the CABE design review process, CABE design support at local level, and the continuation of an independent advisory panel as the eco-town schemes are developed.

Despite the difficult current market conditions caused by the recession, I expect 10,000 homes built by 2016 of which 30 per cent. will be affordable. To start this

process we will support early demonstrator buildings to test and develop from the new technologies needed, and so that local communities can help shape their further development. For the next two years I am providing £60 million start up funding from the growth fund for this work for the four locations identified today. This is additional to mainstream funding for services. We expect that the bulk of investment in these schemes will be from the private sector, but eco-towns will also benefit from similar levels of public investment to any comparable large housing scheme and this will include continued growth funding over the period of major development.

Planning

With the new PPS, eco-towns set the gold standard in development planning, but low carbon living means planning for all new development to cut carbon emissions.

Our climate change "Planning Policy Statement" (PPS) published in December 2007 has put climate change at the heart of what is expected from good planning and complemented our earlier PPS on renewable energy. Neither now fully reflects the scale of the challenge we face. But neither fully reflects the scale of the challenge we now face in supporting the UK's transition to a low carbon country. We will therefore review and combine them, consulting in detail on proposals later this year.

DEFENCE

Borona Programme

The Minister of State, Ministry of Defence (Bill Rammell): On 15 May 2008, *Official Report*, column 66WS, my predecessor announced that Headquarters Allied Rapid Reaction Corps (HQ ARRC) and its intimate supporting elements would move to Innsworth in Gloucestershire in the summer of 2010. At that time Cosford in Shropshire was our preferred site for 1 Signal Brigade (1 Sig Bde) and 102 Logistic Brigade (102 Log Bde) and our aim was to close Rhine Garrison and Munster Station by 2015. This would leave three enduring garrisons in Germany: Gutersloh, Paderborn and Hohne.

Continuing work on the Defence Training Rationalisation Programme means that Cosford will not be available to achieve this aim. The programme team responsible for the moves from Germany to the UK has therefore examined alternative site solutions and today I am announcing that the preferred site for 1 Sig Bde is now Stafford. This decision will need to be confirmed following scrutiny of the detailed plans for the move and the programme team will now focus on drawing up these plans, which will include a competition for the infrastructure and construction requirements at Stafford, with a view to occupation from 2013. The team will continue to consult all interested parties including the local county and borough councils, health and education providers and the trade unions.

I believe this is a positive defence initiative for the area and complements Stafford's growth point status which will enable a joint approach between the Government and the local authorities to support the defence community. Stafford is already the home of 22 Signal Regiment (22 Sig Regt) and moving other elements of 1 Sig Bde (7 and 16 Sig Regts) there provides a synergy that will be important to the Department and should also be beneficial to the local community.

Cosford remains our preferred site for 102 Logistic Brigade once the Defence College of Aeronautical Engineering (DCAE) moves to St. Athan as presently planned in 2014-15, and on current assumptions we envisage the Logistic Brigade moving in 2016. Cosford is a well found site that has enduring military utility and is designated as a MOD Core Site. We will continue to consider the other opportunities that Cosford affords us as the need arises.

These changes enable us to keep the closure of Rhine Garrison on track and this is currently envisaged as being in 2014. We would expect Munster Station to close in 2016-17 assuming 102 Log Bde moves to Cosford in 2016.

Defence Estate Development Plan 2009

The Parliamentary Under-Secretary of State for Defence (Mr. Kevan Jones): Today the Department has published the Defence Estate Development Plan (DEDP) 2009—the first annual update of this vital internal planning document. The updated plan is evolutionary in nature and reflects the Department's consistent estate priorities. DEDP 09 sets out the authoritative framework, looking forward to 2030, for the coherent development of the estate to meet the future needs of defence, and the priorities for investment and rationalisation arising from it. It also informs our programme of engagement with the regions, which underpins the successful delivery of many of our estate programmes.

The key changes are evolutionary in nature and include, amongst others, cross-Government support to the armed forces as set out in "The Nation's Commitment", and revised targets for improving living accommodation for our people. Other changes reflect specific investment and basing decisions that support the generation of sustainable military capability.

I have placed a copy of the plan in the House of Commons Library. The document will also be widely circulated to external stakeholders and will be published on the internet.

Science Advisory Committee on the Medical Implications of Less Lethal Weapons

The Parliamentary Under-Secretary of State for Defence (Mr. Kevan Jones): I am pleased to inform the House that a new non-departmental public body (NDPB) has been set up, entitled the "Science Advisory Committee on the Medical Implications of Less Lethal Weapons" (SACMILL).

Previously SACMILL was a sub-committee of the Defence Science Advisory Council (DSAC), known as DOMILL (DSAC sub-committee on the Medical Implications of Less Lethal Weapons). DOMILL had become recognised as a valuable and authoritative group on the medical implications of the use of less lethal weapons, providing cross-Government advice.

A review by MOD's director general management and organisation (DGMO) has recommended that DOMILL should become a cross-Government NDPB in its own right, sponsored by the Surgeon General. This has placed the group on a permanent footing,

allowing it to work with other Departments directly rather than through MOD. I will retain oversight on behalf of MOD and will remain informed of the committee's activities.

Service Personnel Green Paper

The Parliamentary Under-Secretary of State for Defence (Mr. Kevan Jones): I have today published a Green Paper "The Nation's Commitment to the Armed Forces Community: Consistent and Enduring Support".

Last summer's publication of the Command Paper, "The Nation's Commitment: Cross-Government Support to our Armed Forces, their Families and Veterans", was well received by the services, by veterans groups and by the public at large. We shall be publishing the first annual report in the autumn charting the progress that has been made. This work has already delivered significant improvements in a number of areas:

Doubling compensation for the most serious injuries;

Free further education for service leavers; and

Help for forces leavers to get on the housing ladder.

We said last year that we would not allow this strategy of support to our armed forces community to fade. Today's Green Paper sets out the next step in this process. We would like to see an enduring shift in the way in which public bodies think about the armed forces community, so that their special circumstances are taken into account at all stages, from policy formation to service delivery. The Command Paper was an important step forward; we must now make permanent the approach which it embodied.

This Green Paper sets out a range of ideas, including through possible legislation, for how we can achieve this. It focuses on two strands: making the principles enshrined within the Command Paper consistent and enduring, and providing a new route for recourse.

The ideas are intentionally broad and wide ranging. There is no single favoured option at this stage. We want to explore these ideas through a public consultation, where everyone can have their say about the best way forward. The responses received will allow us to make informed, collective decisions on how best to take this work forward and deliver real and lasting effect for the armed forces community.

Where the options relate to devolved matters in Northern Ireland, Scotland or Wales we will work with the devolved Administrations who are responsible for a number of areas such as health, housing, education, skills and transport in determining how best to take forward the principles of achieving equal or similar levels of support for the armed forces community. In these areas the Devolved Administrations will wish to consider the responses to this consultation in respect of devolved matters and determine a way forward that is appropriate for them, in consultation with their strategic partners. The UK Government will work with them to deliver a solution which supports the armed forces community across the UK.

Those who serve on our behalf place all that they have on the line for this country. In return, the nation has a commitment to make sure that they have the support they need and deserve, when they need it. The consultation period will complete on 31 October 2009.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

National Park and Broads Authorities

The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Huw Irranca-Davies): In July last year DEFRA launched an open consultation to seek the views of a range of stakeholders on the principle of whether some members of National Park and Broads Authorities should be directly elected.

The majority of the national park authorities' membership comprises local authority and parish councillors selected by their respective councils, with the remainder being appointed by the Secretary of State in recognition of the national interest. The Broads Authority has a different membership structure under its own primary legislation to reflect the broads' navigational interest.

During the passage of the Broads Authority Private Bill the question arose of whether there should be parish members on the Broads Authority. As a result this issue was included in the co[illegible] on direct elections.

A total of 490 responses were re[illegible]d to the consultation. The strongest support for the principle of direct elections came from respondents within the Broads Authority and New Forest national parks for reasons of local democracy and local representation in relation to planning decisions, but there was very little support for larger authorities to accommodate directly elected members.

Most stakeholders considered that direct elections would not lead to any improved effectiveness or efficiency of national park authorities, including the authorities themselves. Many national park authorities, local authorities and parish councils expressed concern that direct elections in place of their members would have the effect of disenfranchising the local authorities and parish councils which the park authorities work with leading to the effect of serious repercussions in relation to their influence with other bodies, particularly at regional and national level.

There appeared to be no consensus on which category of members to replace to accommodate directly elected members. All categories of members have provided a significant contribution to the effective working of the Authorities. However, many individuals who live in the parks and MPs have raised the issue of democratic accountability and local representation for local communities in the parks.

I have been impressed with the range of community engagement that already occurs, and having carefully considered the responses I have decided not to make any changes to the current membership arrangements. I am proposing ways of improving the accountability of the national park authorities and to apply more consistently some of the examples of best practice across all parks.

The park authorities will be required to apply the 'Duty to Involve' measures contained in the Local Government and Public Health Act 2007, which will assist local authorities and others in understanding what the park authorities are, their functions and how people can get involved.

Although there are a range of accountability measures already in place, including the holding of authority meetings in public, local area agreements, formal

performance assessments and annual inspections by the Audit Commission, I have also asked the park authorities to examine other ways of engaging the public and local residents in the decision making process, for example;

- Making the reporting of progress and performance more open and transparent including information on progress in delivering the objectives set out in the national park management plans.
- Considering whether existing forums provide sufficient opportunities for public involvement in priority setting and improving the engagement of parish councils.
- Undertaking regular resident and visitor surveys to obtain feedback on the services provided by the authorities, openly publish analysis of these, and demonstrate how they are shaping the delivery of services provided by the authority.

Given the ability of parish members to provide local knowledge, I will also consider more closely the role they play in existing national park authorities, and ways of enhancing the parish member appointment processes to ensure they are made more consistent and include opportunities for wider public involvement.

I have asked for a report back to my Department in 12 months time on how the park authorities are building on their existing arrangements for engaging the public and local residents.

On the issue of appointing parish members to the Broads Authority, while there was some support for these appointments this should not be at the expense of a reduction in the existing categories of membership. Although I am not in favour of adding parish council members to the Broads Authority at this time, I am prepared to reconsider the matter if local government restructuring meant that there was a need in any case to revise the Broads Authority's membership.

FOOTNOTE:

Examples of existing and proposed accountability measures in addition to those mentioned above:

Existing mechanisms

Methods by which national park authorities are currently accountable for their activities and decisions are numerous and include:

- NPA meetings being held in public, with the papers made available, including on websites.
- Formal NPA performance assessments being undertaken which includes peer and stakeholder review and rigorous independent scrutiny.
- A commitment to public participation which goes beyond statutory public consultation on the preparation of the national park management plan and subsequent publication and monitoring of delivery.
- Publication of NPA corporate plans and other strategies.
- Undertaking resident and visitor surveys to test opinion and receive feedback on services and priorities.
- Publication of newsletters to both residents and to visitors from beyond the National Park boundary, and customer satisfaction surveys designed in order to improve performance and to ensure services meet customers' needs.
- Hosting consultative forums that bring town and parish councils, amenity groups and other local associations together to discuss shared priorities, and run community and stakeholder forums to gather views.

Some possible new measures under consideration

- NPAs sharing good practice in the area of public involvement and early experience of implementing the 'Duty to Involve' requirements.
- NPAs could consider if cost effective improvements can be made to the publishing of forthcoming meetings.
- NPAs could explore whether they can enhance the support given to capacity building of parish councils. This might entail, as an example, running a joint event for parish councils on the planning system to help build their capacity to engage with policy development and respond to planning applications, and offering annual planning liaison meetings with each parish council to improve understanding of the process.

Rural Payments Agency

The Secretary of State for Environment, Food and Rural Affairs (Hilary Benn): I have set the Rural Payments Agency (RPA) the following performance targets for 2009-10.

Service delivery quality

To administer common agricultural policy and other schemes to meet the following requirements:

- To have paid 75 per cent. by value of valid single payment scheme 2009 claims by 31 January 2010 and 90 per cent. by value of valid 2009 claims by 31 March 2010.
- To process and pay at least 90 per cent. of valid claims by volume for non-single payment scheme schemes within ministerial guidelines and 99 per cent. within the set European Commission deadlines or in their absence within 60 days of receipt of the claim.
- To record 98 per cent. of notifications of births deaths and movements of cattle on the cattle tracing system within 14 days of their receipt.
- To make 98 per cent. of rural development programme for England payments for Natural England and regional development agencies in accordance with agreed service level agreements.

To demonstrate a continued commitment to customers by achieving a minimum annual average customer satisfaction score of 7.0 out of 10.0, as measured through surveys of external customers, and by reducing the number of complaints received compared with 2008-09.

Value for public money

- To demonstrate clear progress towards achieving the Treasury disallowance target of 2 per cent. or less of fund value, for all CAP schemes administered by the RPA.
- To demonstrate a 9 per cent. reduction from the 2008-09 year in the cost of administering the agency without compromising service delivery.

Capacity and capability

- To demonstrate improved capacity and capability to meet targets and implement change.

Further details are given in the RPA business plan for 2009-10, copies of which will be placed in the Libraries of both Houses.

Royal Botanic Gardens, Kew

The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Huw Irranca-Davies): I wish to update the House on recent developments related to the Royal Botanic Gardens, Kew (RBG, Kew).

I am pleased to announce that on 1 August 2009 Sir Neil Chalmers, Warden of Wadham College, Oxford and a former Director of the Natural History Museum, will commence an independent review of RBG, Kew. Sir Neil will be supported by a small team of independent consultants. The last review was carried out in 2001, although there was a separate independent audit of Kew's scientific activities in 2006.

Non-departmental public bodies such as RBG, Kew benefit significantly from regular and objective reviews, which examine their role, performance and priorities. To carry out such a review now gives us a timely and valuable opportunity to examine how RBG, Kew can continue to deliver its statutory functions effectively and maintain the quality and value of its scientific contribution in critical areas such as the conservation of global biodiversity.

The following terms of reference have been drawn up to guide the review:

to conduct an evaluation of the performance of the Royal Botanic Gardens, (RBG) Kew in fulfilling its statutory obligations since the last review in 2001;

as part of the evaluation, to pay particular attention to resourcing and the effectiveness of income generation, infrastructure and heritage management and support; to consider how the scientific and other activities of RBG, Kew support the objectives of the Department for Environment, Food and Rural Affairs (DEFRA) and other Government Departments; and to review the existing DEFRA sponsorship arrangements;

to consider in the light of this evaluation and the views of other customers and stakeholders whether the services, activities, and organisational arrangements at RBG, Kew remain the most effective means of achieving its own, DEFRA's, as well as Government-wide objectives, such as those relating to climate change, conservation and biodiversity, overall science policy, and the operational efficiency agenda;

to assess what changes, if any, are needed in the light of the findings of the review to improve the quality, effectiveness and value for money of RBG, Kew services, and to set out the rationale and to recommend appropriate options to Ministers. These should address how best to ensure a sustainable financial future for RBG, Kew and its world class science.

The review will be carried out openly and transparently and users, customers and stakeholders of RBG, Kew will be consulted. Sir Neil's recommendations will be published along with the Government's response.

I will update the House as necessary.

Animal Products (Imports)

The Minister of State, Department for Environment, Food and Rural Affairs (Jim Fitzpatrick): As required under the Animal Health Act 1981 (as amended by the Animal Health Act 2002) the Government will publish today a review of controls on the import of animal products for the financial year 2008-09. I welcome the opportunity to review and report on efforts during the past year to reduce the risk of disease entering the country via imports of animal products.

The control of imports of animal products remains a major concern for the Government as we fully appreciate the devastating effect that disease outbreaks can have on our farming of livestock and crops and on the environment and, in trying to protect animal health, we know how important it is to take a variety of measures at the border and inland. It has once again been a challenging year in monitoring the constantly changing disease situation around the world and evaluating and responding to threats. We continue to ensure that veterinary checks are carried out on legally imported animal products from non-European Union (EU) countries and work closely with Her Majesty's Revenue and Customs (HMRC)/ United Kingdom Border Agency (UKBA) and other relevant Government Departments to combat the risk of major diseases entering the country through illegal imports from outside the EU.

UKBA continues to deliver an enforcement strategy that targets anti-smuggling activity on the highest risk traffic to combat illegal imports of animal products into Great Britain (GB) and to review deployment of resources and react flexibly in response to changes in the pattern of risk.

There continues to be a joined-up approach across Government Departments on an overall communications strategy to raise awareness among international travellers of the personal import rules for food, with a great deal of publicity continuing to be undertaken inland within GB, at the border and also overseas.

These are some of the highlights of our working during the year:

EU veterinary week in November highlighted the programme of already ongoing work in respect of our cross-Government personal imports campaign at border control points, including a stand at Heathrow airport, terminal 3 during the week which had over 5,000 visitors and was covered by BBC Breakfast news;

new TV filler "Don't bring me back", produced to support our overall personal imports campaign, has achieved some excellent airtime across a variety of channels with most of the transmissions going out in peak evening viewing time. It has built in value to be one of the top ten fillers of 2008-09. It has also received out of home play in locations such as surgeries and gyms;

food and veterinary office (FVO) visit in November 2008—inspectors indicated that the UK has a functioning import control system and recognised further improvements made by the UK.

We will continue to monitor and assess the changing threats from around the world, and work with HMRC/ UKBA and other enforcement partners to make sure that our enforcement activity at UK borders is targeted at the current risks.

Copies of the Review are available on the DEFRA 'personal food imports' website: www.defra.gov.uk/ animalh/illeqali, and will be sent to stakeholders for information seeking their feedback. Hard copies will also be available on request.

Single Payment Scheme

The Secretary of State for Environment, Food and Rural Affairs (Hilary Benn): As at 30 June, the end of the regulatory payment window for the 2008 single payment scheme, a total of £1.625 billion, representing some 99.69 per cent. of the estimated total fund had been paid in full payments to 104,199 claimants.

These figures confirm that the agency has helped to ensure that the UK as a whole has met the EU requirement that 96.154 per cent. of 2008 scheme payments be made by 30 June. This follows earlier confirmation that the agency had met its formal performance targets for this scheme year.

Reaching these targets continues to demonstrate improvements in RPA's performance and levels of service to its customers and provide another important step forward for the agency.

Of the outstanding 2008 claims on which processing is not complete, approximately 400 are expected to result in a payment in due course. Work continues to complete the necessary validation of those claims as soon as possible. Interest will be paid to claimants on sums paid after 30 June on the same basis as for previous scheme years. The agency will continue to address any cases of individual hardship as sympathetically as possible.

Alongside that work, RPA has already begun processing the 107,000 or so claims that have been submitted under the 2009 SPS. Formal payment targets will be announced separately, but I know the agency Chief Executive is expecting to at least match RPA performance under the 2008 scheme when nearly £1 billion was paid out by the end of December.

HOME DEPARTMENT

Deputy Commissioner of the Metropolitan Police

The Secretary of State for the Home Department (Alan Johnson): I am pleased to announce Her Majesty the Queen's appointment of Timothy Godwin OBE, QPM as the next Deputy Commissioner of Police of the Metropolis.

I made my recommendation to Her Majesty following an open competition for the selection of a new Deputy Commissioner and having regard to the recommendations made to me by the Metropolitan police authority and representations from the Commissioner of Police of the Metropolis.

I am confident that Timothy Godwin will be an excellent Deputy Commissioner and will help the Commissioner to lead the Metropolitan police service in delivering for the public both in London and nationally.

Consultation (Charges)

The Minister for Borders and Immigration (Mr. Phil Woolas): The biggest shake-up to our border protection and immigration system for over 45 years is well underway. The Borders, Citizenship and Immigration Bill, which will fundamentally overhaul the laws regarding obtaining British citizenship is currently progressing through Parliament. We will also look to simplify our immigration laws further through legislation to be published later this year in Parliament.

The UK Border Agency was established in April 2008 to create a strong new force at the border by bringing together immigration, customs and visa checks to strengthen the UK border. We want the UK to stay open and attractive for both business and visitors, but at the same time we are determined to deliver a system of border control which is among the strongest in the world.

Inward investment and tourism benefit Britain greatly. The Government are committed to boosting Britain's economy by bringing the right skills from around the world and ensuring that it is easy to visit legally. We want to continue to welcome the holidaymakers, visitors, business people and genuine students who come here, recognising the valuable contribution they make to economic growth and the way they enrich our society through cultural exchange.

For the immigration system to command public support, both among the British public and legitimate migrants, we need an immigration system that is fair and effective. The integrity of the immigration system depends on robust borders, with effective security overseas and in the UK ensuring and enforcing compliance with our immigration laws. To help achieve this, those who benefit directly from our immigration system (migrants, employers and educational institutions) should contribute to the costs of the system and enable us to meet our strategic objectives.

Later this summer the Government will publish a consultation document on charging for certain services we provide. To maintain our world class immigration system currently costs over £2.2 billion per annum. UK Border Agency currently recovers approximately 30 per cent. of this spend through fees for applications and services we offer. We believe it is right that users of that system make an appropriate contribution to meeting those costs, to help manage the burden on the UK taxpayer. The purpose of consulting is to ensure that we are getting that balance right in the broader interests of the UK.

The consultation document will set out some options on how we can charge for our services. We want a genuine debate on the most appropriate way to charge. We will be engaging with stakeholders throughout the consultation period in order to get the views and ideas from as many people as possible. Copies of the consultation paper will be placed in the Libraries of both Houses and will be available for downloading from the UK Border Agency website:

http://www.ukba.homeoffice.gov.uk/aboutus/consultations/current/

Identity and Passport Service Annual Report and Accounts

The Minister for Borders and Immigration (Mr. Phil Woolas): The Identity and Passport Service Annual Report and Accounts 2008-09 have been laid before the House today and copies placed in the Vote Office. Publication will take place shortly.

Independent Police Complaints Commission Annual Report

The Minister for Policing, Crime and Counter-Terrorism (Mr. David Hanson): I am pleased to announce that today my right hon. Friend the Financial Secretary to the Treasury and I are laying before Parliament the Annual Report of the Independent Police Complaints Commission (IPCC), which will be published today.

This is the fifth annual report from the IPCC. The report covers the work of the IPCC during 2008-09 and includes a discrete chapter on the discharge of their responsibilities in respect of Her Majesty's Revenue and Customs. The report also includes a chapter on

deaths during or following police contact, which shows continued year-on-year decreases in the number of deaths.

During this year the IPCC has continued to make significant improvements in their performance having set some ambitious targets. The IPCC has a key role in increasing confidence in the police complaints system which will, in turn, impact positively on public confidence in the police. In a recent survey conducted by the British Market Research Bureau, 88 per cent. of those surveyed said they thought the IPCC would treat a complaint against the police fairly. I am satisfied that the IPCC is ready to meet the challenges. We will continue to work with the IPCC to ensure it continues to meet its statutory remit.

Intercept as Evidence

The Secretary of State for the Home Department (Alan Johnson): In her written ministerial statement to the House on 12 February, *Official Report*, columns 87-88WS, the then Home Secretary, the right hon. Member for Redditch (Jacqui Smith), provided a progress report on the work being undertaken following the publication of the Privy Council review of intercept as evidence in January 2008.

I am pleased to be able to provide a further update, and to explain why I have concluded it is right to provide the House with a full report after the summer recess.

Since February, detailed work has focused on testing the practical impact and effect of the model developed. This work has been undertaken in concert with experienced independent legal practitioners. The programme is now complete, and work is now in hand to draw the emerging conclusions and test their validity. The Advisory Group of Privy Counsellors, the right hon. Sir John Chilcot, my noble Friend the right hon. Lord Archer of Sandwell, the right hon. Member for Berwick-upon-Tweed (Sir Alan Beith) and the right hon. and learned Member for Folkestone and Hythe (Michael Howard) is following this closely. Indeed they also see merit in seeking further advice on key points for, as they noted in their interim report in February, the issues are complex. I know they share my determination to get this right. I should like to thank them for their continuing commitment and invaluable contribution.

I look forward to discussing with them the final conclusions of the programme. I shall then provide a formal report to Parliament on the full findings of the work programme, and the Government's decision in the light of them, soon after the return following the summer recess.

Independent Safeguarding Authority Annual Report and Accounts

The Minister for Policing, Crime and Counter-Terrorism (Mr. David Hanson): I am pleased to announce that the annual report 2008-09 and accounts of the Independent Safeguarding Authority (ISA) will be laid before Parliament today.

Copies of the report will be available in the Vote Office.

INTERNATIONAL DEVELOPMENT

Annual Reports and Resource Accounts (2008-09)

The Secretary of State for International Development (Mr. Douglas Alexander): I have today published, and laid before Parliament, the Department for International Development Annual Report and Resource Accounts for 2008-09 (HC 867-I and HC 867-II).

The report sets out the good progress we have made this year in meeting our aim of alleviating poverty in the poorer countries of the world. It provides the first full year reporting of progress against our 2007 public service agreement and our departmental strategic objectives, and reports against targets set in previous spending reviews that are still current. The report also includes our full set of accounts for 2008-09 and the progress we have made on the International Development (Reporting and Transparency) Act 2006, further underlining our commitment to transparent and accessible reporting of UK development policies and programmes.

JUSTICE

Housing: Proportionate Dispute Resolution

The Parliamentary Under-Secretary of State for Justice (Bridget Prentice): I am today announcing the Government's response to the Law Commission's report on Housing: Proportionate Dispute Resolution.

The Law Commission published its report on 13 May 2008. This follows a major programme of work on the reform of housing law. Unlike most other Law Commission reports, this report does not focus solely on reform of substantive law but rather looks at the broader social issues of how housing problems arise and how they might be better addressed.

The report makes recommendations in three broad areas: (i) better advice and assistance (ii) non-formal (that is, not involving a court or tribunal) dispute resolution and (iii) formal dispute resolution.

The Government broadly accept all of the Commission's recommendations on the provision of better advice and assistance. Substantial progress has already been made in improving advice provision and encouraging early engagement, for example, by promoting and signposting court users to the community legal advice helpline and the community legal advice website.

The report recommends that promotion of mediation and alternative dispute resolution is an important component of non-formal dispute resolution. The Government are committed to promoting mediation and using alternative dispute resolution as a tool to ensure court action is a last resort.

The Law Commission also recommends the transfer of jurisdiction for a number of different types of cases, including stand-alone disrepair cases, from county courts to tribunals. The Government have already, separately, confirmed that they will transfer dispute resolution and other proceedings arising out of the provisions of the

Mobile Homes Act 1983 to residential property tribunals. However, it is not satisfied that a case has been made out for any other transfers.

The Government also reject the Law Commission's recommendation that the county court should have powers to grant interim relief pending the outcome of a local authority internal review in homelessness cases. It is usual for parties to have to exhaust all alternative remedies before coming to court. This is a key feature of our policy of encouraging early resolution of disputes/problems, with the court only being used in the last resort. Local authorities are empowered to take decisions on homelessness applications and there are statutory procedures that are in place to ensure that this is done fairly. The Government consider that there is a significant risk that any changes in this area would be exploited to circumvent these procedures to the detriment of those who are genuinely homeless and in priority need.

A copy of the response will be placed in the Libraries of both Houses.

Tribunals Courts and Enforcement Act 2007

The Parliamentary Under-Secretary of State for Justice (Bridget Prentice): The tribunals service was created in April 2006, bringing together the administrative support for over 23 tribunals from across government into a single organisation so that tribunals were visibly independent of original decision makers, and to bring improved quality and efficiency in the provision of administrative and management support.

The provisions of the Tribunals, Courts and Enforcement Act 2007—TCE Act— followed these administrative changes and created a new judicial and legal framework, bringing together a range of formerly separate tribunals into a new unified two-tier tribunal structure—the first-tier and upper tribunal—under a senior president, Lord Justice Carnwath. The first-tier and the upper tribunal were established under the TCE Act on 3 November 2008, with the first-tier tribunal being the first-instance tribunal for most jurisdictions. The upper tribunal mainly, but not exclusively, reviews and decides appeals from the first-tier tribunal. It also has the power to deal with judicial review work delegated from the High Courts of England and Wales and Northern Ireland and from the Court of Session.

The TCE Act has provided a cohesive statutory framework for a unified tribunal system dealing with nearly 600,000 cases a year which is committed to improvement and innovation for the benefit of the public.

The TCE Act also contains provisions for the jurisdictions of most existing tribunals administered by the tribunals service to transfer into the new two-tier structure. The main exception to this is the system of employment tribunals, which will remain as a distinct pillar within the tribunals system. The structure is designed to be flexible so that, in the future, when Parliament decides to create a new appeal right or jurisdiction, it will not be necessary to create a new tribunal to administer it.

Both the first-tier and upper tribunal are divided into chambers that group together jurisdictions, and their judiciary, dealing with like subjects or where individual panels need the same types of members. The following chambers have been established in the first-tier tribunal:

Social Entitlement (3 Nov 2008)

War Pensions and Armed Forces Compensation (3 Nov 2008)

Health, Education and Social Care (3 Nov 2008)

Tax (1 April 2009)

In the upper tribunal the following chambers have been established:

Administrative Appeals (3 November 2008)

Tax and Finance (1 April 2009), and

Lands (1 June 2009)

Further chambers dealing with general regulatory matters and immigration and asylum appeals are to be established in 2009 and early 2010.

Everyone who holds a judicial office within the tribunals service, including those who have or will be transferred into one of the new chambers, have been asked to take the oath of allegiance. So far 2,622 judges have taken the oath.

The new judicial structure allows for the flexible deployment of judges, known as "cross ticketing", within and across the new chambers. This will mean that suitably qualified judiciary can hear cases in jurisdictions other than the one to which they were first appointed without the need for a further Judicial Appointments Commission competition. This will reduce the costs of training and support. It will also enable the flexible deployment of judiciary to meet fluctuations in workloads between jurisdictions; it will encourage greater consistency of standards and approach across previously disparate jurisdictions; it will assist where there are difficulties in finding judges for particular locations and where there are recruitment difficulties in smaller jurisdictions. Working with the judiciary, the tribunals service has identified £6 million of efficiency savings relating to judicial activity in 2009-10 in areas such as reducing adjournments and more effective deployment of judges. A further £10 million in 2010-11 is now being sought.

The judges within this new structure are currently subject to widely differing rates of remuneration inherited from the tribunals from which they have transferred or will transfer and which have or will be abolished. Under the existing arrangements, therefore, many office holders will find themselves doing effectively the same job as each other for what would be unequal pay. This would hamper effective operation of the system and the delivery of efficiencies as well as leave pay inequalities in place. To address these issues, in March 2007 the Government commissioned the Senior Salaries Review Body to propose a pay structure for the tribunals judiciary following implementation of the TCE Act. The SSRB delivered its report No.66, Review of Tribunals' Judiciary Remuneration, in November 2008. The report includes 18 recommendations and proposes a single salary structure for tribunals judiciary linked to that already in operation for the courts judiciary and some tribunal judges. The report and the Government's response to each of the 18 recommendations have been placed in the Libraries of both Houses, the Vote Office and the Printed Paper Office.

The Government broadly accept those SSRB recommendations in relation to legally-qualified salaried and fee-paid tribunals judiciary, as an important step in

supporting the tribunals service and the new judicial structure. Addressing the issues identified by the SSRB enables the tribunals system to operate as effectively and efficiently as possible.

While the Government recognise and support the important role played by non-legally qualified members, it has decided not to implement those recommendations that apply to non-legal members. In taking this decision, account was taken of the level of increases being recommended by the SSRB and the lack of market-based justification in the current economic and public expenditure climate. The Government will be prepared to review any specific recruitment and retention issues, which might arise, with any targeted salary or fee supplements being paid at the discretion of the Lord Chancellor. The Government will keep under review the arguments for drawing a link between the pay of fee-paid and salaried judiciary and that of non-legal members in the light of recruitment and retention data and the overall economic climate.

The impact of this new pay structure will see no change for over 92 per cent. of the salaried judiciary and 37 per cent. of legally qualified fee-paid members. Non-legally qualified members pay will be unaffected by these changes. Pay costs are expected to be no more than £160,000 in the current year and £400,000 incrementally in the remaining four transitional years.

The creation of the tribunals service and the implementation of the TCE Act have been major steps in delivering improved services to tribunal users and a more effective and efficient system. Rationalisation of the judicial structure and, as a consequence, judicial pay is a key part of that.

Legal Aid Reform (Priority Cases)

The Parliamentary Under-Secretary of State for Justice (Bridget Prentice): My noble Friend, the Under-Secretary of State, Lord Bach, has made the following written ministerial statement:

The Ministry of Justice has today published proposals to refocus limited civil and criminal legal aid resources on priority cases.

Proposals in the first part of the paper are the product of joint working between the Legal Services Commission and the Ministry of Justice, and suggest a range of changes to the funding rules to ensure that legal aid funds are being directed to meritorious cases. Proposals include:

- reforming the way that the public interest is considered in deciding whether to grant legal aid by establishing a new committee to include non-lawyers, and creating a ring-fenced budget for these cases;
- removing certain low-priority cases, such as low-value damages claims, from scope for civil funding, where issues can be resolved instead through complaints procedures or ombudsman schemes;
- tightening the existing rules for granting legal aid for judicial review, following a significant decline in the number of successful permission applications; and
- notifying the other side when civil legal aid is applied for to discourage fraudulent applications from those outside the financial eligibility limits.

Proposals in the second part of the paper have been developed by the Ministry of Justice and are also aimed at focusing resources on priority cases. The first proposal concerns the removal of advice and assistance on prisoner treatment issues from the scope of the Criminal Defence Service. Funding will be available to prisoners with serious concerns about their treatment under the civil scheme, subject to passing the relevant civil funding code criteria. This includes the need to exhaust the prison internal complaints procedure in most cases in advance of seeking legal advice. This proposal builds on the reforms to Prison Law funding which were published by the Legal Services Commission yesterday.

The second proposal concerns the removal of the delegated powers for solicitors to self-grant legal aid in judicial review cases. This follows the rise in failed judicial review applications, many of which are funded through legal aid. With the exception of housing judicial review, civil and criminal legal aid providers will no longer be able to self-grant emergency representation in judicial review and will need to seek approval in advance from the Legal Services Commission.

The third proposal concerns restricting routine access to the civil legal aid scheme in England and Wales for those who are not residents in the UK. Funding for serious matters such as mental health detention, childcare or child abduction proceedings, domestic violence protection or emergency housing matters would remain available. Funding would also continue for overseas British citizens, European citizens involved in cross border disputes, and those whose country is a party to a bilateral agreement providing access to legal aid in the UK.

The consultation paper, "Legal Aid: Refocusing on Priority Cases", is available on the Ministry of Justice website at: www.justice.gov.uk. Responses are invited by 8 October 2009.

Penalty Notices for Disorder

The Secretary of State for Justice and Lord Chancellor (Mr. Jack Straw): Revised operational guidance to police forces on the issue of penalty notices for disorder for retail theft and criminal damage has been published today. Copies will be placed in the Libraries of both Houses.

Under the PND scheme, established under the Criminal Justice and Police Act 2001 (sections 1-11), the police can issue fixed penalty notices of £80 for minor retail theft, criminal damage and cannabis possession. Recipients have 21 days in which either to pay the penalty or elect to have their case heard in court. If no action is taken, a fine of one and a half times the penalty amount is registered against the offender by the magistrates court.

Under section 6 of the Criminal Justice and Police Act 2001, the Secretary of State has the power to issue guidance to the police on the issuing of penalty notices. The latest version of the guidance was issued in March 2005. In view of concerns raised over the inappropriate use of PNDs, we have now issued strengthened revised guidance on retail theft. This restricts use of the disposal to first-time offenders who are not substance mis-users where the value of goods stolen is less than £100 or where damage caused is less than £300. The definition of retail theft has also been tightened to ensure that the disposal can be considered only for cases of shoplifting where normally the goods recovered are fit for re-sale.

I am very grateful to those hon. Members who have made representations to me about this issue, especially the hon. Member for the Vale of York (Miss McIntosh).

Freedom of Information Act (Records Management)

The Minister of State, Ministry of Justice (Mr. Michael Wills): I have today laid before each House a revised copy of the Lord Chancellor's Code of Practice on the

management of records, issued under section 46 of the Freedom of Information Act 2000. I have also published a copy of the Government's response to the public consultation entitled "The Freedom of Information Act 2000: The designation of additional public authorities". Copies of this document are available in the Libraries of both Houses and also in the Vote Office and the Printed Paper Office.

These publications support the Government's plans to increase the accessibility of public information and promote the culture of openness and transparency in public life. On 10 June the Prime Minister committed to a reduction of the 30-year rule to 20-years in response to the 30 year rule review. The Government are considering carefully the practical details of implementing a new rule and aim to publish their full response in late summer.

Responses to the consultation entitled "The Freedom of Information Act 2000: The designation of additional public authorities" show considerable support for the principle of extending the coverage of the Act to additional organisations through a series of section 5 orders.

The response proposes an initial, focused section 5 order to be accompanied by action outside the Act to promote proactive publication—by voluntary adoption of the ICO's model publication scheme—and openness—by reminding public authorities and contractors of the existing guidance on access to information, which should inform contracting practices and responses to requests for information. The current list of bodies proposed for inclusion in this first section 5 order are:

Academy schools

Association of Chief Police Officers (ACPO)

Financial Ombudsman Service

UCAS

These bodies will be consulted directly, and the Government aim to bring forward a section 5 order early in the 2009-10 session. The response also makes clear the Government's intention to engage with Network Rail and utility companies to consider whether section 5 or primary legislation might be appropriate means of including those bodies within the FOIA regime too.

FOI depends on good records and information management. This is recognised in the FOI Act by provision at section 46 for guidance to be issued in the form of a code of practice. The first code of practice was issued in November 2002, nearly seven years ago. Much has changed since then, not least the increased use of information technology to create, store, share and publish records and other information. These changes have made it necessary to update the guidance and today the Lord Chancellor is issuing a revised code of practice.

As well as addressing some of the challenges of digital records management, the revised code takes account of new ways of collaborative working. It also emphasises the business benefits of good records and information management and its relevance to data protection and other information legislation, as well as to freedom of information.

LEADER OF THE HOUSE

State Opening

The Leader of the House of Commons (Ms Harriet Harman): Her Majesty the Queen will open the new Session of this Parliament on Wednesday 18 November 2009.

NORTHERN IRELAND

Northern Ireland Prison Service

The Minister of State, Northern Ireland Office (Paul Goggins): I am pleased to announce that I am today publishing the Northern Ireland Prison Service annual report and accounts 2008-09. They combine the agency's annual performance report and agency resource accounts in a single document that provides a comprehensive overview of the prison service's financial and non-financial performance for the year. A copy has been placed in the Library of the House. It is also available online from the agency's website at: www.niprisonservice.gov.uk.

PRIME MINISTER

Ministerial Gifts

The Prime Minister (Mr. Gordon Brown): I have today published a list of gifts received and given by Ministers valued at more than £140 for the period 1 April 2008 to 31 March 2009. Copies of the lists have been placed in the Libraries of both Houses.

Ministerial Travel

The Prime Minister (Mr. Gordon Brown): I have today published a list of all overseas visits undertaken by Ministers costing £500 or more during the period 1 April 2008 to 31 March 2009. The list provides details of the date, destination and purpose of all such visits and the cost of Ministers' travel and accommodation where appropriate. Total expenditure on Ministerial overseas visits for 2008-09 is £9.4 million. Copies of the list have been placed in the Libraries of both Houses.

Official and Charity Receptions: 10 Downing Street

The Prime Minister (Mr. Gordon Brown): I have today published a list of official and charity receptions held at 10 Downing Street for the financial year 2008-09.

The total cost of official receptions held at 10 Downing Street and Chequers for the financial year 2008-09 was £136,000. The costs of the charity receptions are funded by the charities involved.

Chancellor of the Exchequer[1]	Sam White Catherine McCleod
Chief Secretary	Tony Danker David Mills Graham Dale
Secretary of State for Wales	Andrew Bold Dan Lodge
Secretary of State for Work and Pensions	Will McDonald Eleanor Wilcox

[1] In addition, the Chancellor of the Exchequer has appointed Torsten Henricson-Bell and Geoffrey Spence to the Council of Economic Advisers.

Pay bands for 2009-10

The pay bands and pay ranges for special advisers for 2009-10 are as follows:

Scheme Ceiling	£142,668
Pay Band 4	£88,966-£106,864
Pay Band 3 and Premium	£66,512 -£103,263
Pay Band 2	£52,215-£69,266
Pay Band 1	£40,352-£54,121

Advisers by Pay Band

At 16 July 2009, there were 74 Special Advisers in post. The number of special advisers in each pay band by department is as follows:

Department	*Pay band*[1] *1*	*2*	*3*	*4*
No. 10[2]	4	5	14	
Cabinet Office		1		
Chief Whips' Offices (Commons and Lords)	2		2	
Business, Innovation and Skills	1	1	1	
Children, Schools and Families		2		
Communities and Local Government		1	1	
Culture, Media and Sport			1	
Defence		2		
Energy and Climate Change			2	
Environment, Food and Rural Affairs	1	1		
Foreign and Commonwealth Office[3]			1	
Health		1		
Home Office		2		
Leader of the House of Commons, Lord Privy Seal and Minister for Women and Equality		1	1	
Leader of the House of Lords and Chancellor of the Duchy of Lancaster	1			1
International Development	1	1		
Justice (Lord Chancellor)			1	
Northern Ireland Office			1	
Scotland Office		1	1	
Transport		1	1	
HM Treasury[4]	1	3	3	
Wales Office		1		
Work and Pensions	1	1		
Total	12	26	30	1

Paybill costs

The paybill for special advisers in 2008-2009 was £5.9m[5].

[1]Plus three special advisers whose pay bands have yet to be agreed.

[2]Plus two special advisers who are paid beyond Pay Band 4 but within the scheme ceiling.

[3]Job share

[4]Includes the two members of the Council of Economic Advisers who are employed on special adviser terms.

[5]This figure includes salary, severance pay and estimate of pension costs.

UK Visits 2008-09

The Prime Minister (Mr. Gordon Brown): I have today published a list of the UK visits I made during the financial year 2008-09.

9 March	Belfast

Date	Official visit to:
10 March	London
10 March	London
12 March	Manchester
31 March	London

Advisory Committee on Business Appointments

The Prime Minister (Mr. Gordon Brown): I have today published the 10th report of the independent Advisory Committee on Business Appointments. The report provides an account of the work of the committee in giving advice about appointments that Ministers and senior Crown servants wish to take up after leaving office. The report covers the period 1 April 2008 to 31 March 2009. Copies of the report have been placed in the Libraries of both Houses.

I am grateful to Lord Wilson of Tillyorn KT GCMG PRSE, who will stand down from the committee at the end of this month, having served as a member, and more recently the interim chair, and to the other members of the committee for their contribution over this period. All have been most generous in giving their time and expertise to the committee's work.

The Government are in the process of refreshing the membership of the committee. Dame Juliet Wheldon QC and the right hon. Lord Lang of Monkton joined the Committee from 1 April; the right hon. Lord Macdonald of Tradeston CBE joined from 1 May; and Lord Dholakia OBE DL joined from 1 June. I am grateful to Sir John Blelloch KBE, the right hon. Lord Maclennan of Rogart and the right hon. Lord Morris of Aberavon KG QC, who have retired from the committee in recent months having given it long and loyal service.

Work on the refreshment of the committee will be completed over the summer, and a further announcement will be made in due course.

Chief Surveillance Commissioner, Interception of Communications Commissioner and Intelligence Service

The Prime Minister (Mr. Gordon Brown): I can announce to the House that I have arranged for the annual reports of the Chief Surveillance Commissioner, the right hon. Sir Christopher Rose, HC 704, the Interception of Communications Commissioner, the right hon. Sir Paul Kennedy, HC 901, and the Intelligence Services Commissioner, the right hon. Sir Peter Gibson, HC 902, to be laid before both Houses on Tuesday 21 July 2009.

The Regulation of Investigatory Powers Act 2000 (RIPA) established, for the first time in the UK, a comprehensive regulatory system to govern the use of a range of investigatory techniques, some of which had been used without any statutory regulations or safeguards for decades. RIPA set out clear parameters within which these techniques could be used, and established an independent oversight regime and an independent complaints tribunal.

The Home Office is now in the process of reviewing the statutory codes of practice on covert surveillance and property interference, and on covert human intelligence sources. It has recently completed a public consultation exercise on the revised codes of practice, and on all public authorities able to use certain techniques regulated in RIPA, the ranks at which those techniques can be authorised, and the purposes for which they can be used. The Government will shortly table statutory instruments giving Parliament the opportunity to debate a range of proposed revisions to the RIPA framework, following this consultation exercise.

I am grateful to Sir Christopher, Sir Paul and Sir Peter, and to their support staff, for their work on these reports.

The Road to 2010: Addressing the Nuclear Question in the 21st Century

The Prime Minister (Mr. Gordon Brown): I am today laying before the House the Government's "Road to 2010" plan (Cm 7675). This is a strategy that will lead us into the 2010 Nuclear Non-Proliferation Treaty (NPT) review conference and beyond. The "Road to 2010" covers every dimension of the nuclear issues that are facing us today and sets out how the UK will play a leading role in tackling them. Next year's conference provides an opportunity to renew and re-invigorate the bargain at the heart of the NPT which grants states access to civil nuclear power in return for a commitment not to proliferate nuclear weapons, and places a responsibility on nuclear weapons states to show leadership on the question of disarmament.

The UK remains committed to the reduction and eventual elimination of nuclear weapons, and to ensuring that nations have access to nuclear technology for peaceful purposes. All states, including Iran and North Korea, have a right to such access—and we are ready to help, so long as these states reject the development of nuclear weapons. To promote the development of cost-effective civil nuclear technology which cannot be diverted for use in weapons programmes, we are launching a nuclear science centre of excellence. This centre will enhance collaborations between academia, industry and Government, both domestically and internationally, to focus on this important and difficult task. The Government are committing £20 million over the first five years to this centre.

All nuclear material must be held securely, to prevent it falling into the hands of terrorist groups or hostile states. The UK believes that nuclear security must become the fourth pillar of the global nuclear framework, alongside civil power, non-proliferation and disarmament. Momentum for greater nuclear security is growing, with President Obama announcing a nuclear security summit in the spring of next year, which the UK will take a full part in. In order to help reduce the risk that material will be lost or stolen, the UK is making an offer to assist any nation with security improvements should they request our help. This assistance could be in the form of using our expertise to strengthen security, for example through improving facilities or through training personnel. To improve our defensive measures, the Government are also providing an additional £3 million to maintain our world-leading forensics and detection capability at the Atomic Weapons Establishment (AWE).

The Government recognise that urgent action is required to address proliferation of nuclear weapons. The "Road to 2010" plan sets out a phased approach which will

enable progress on non-proliferation and multilateral disarmament. In the first instance, steps must be taken to improve transparency of current weapons capabilities, as we seek greater control to prevent expansion of those capabilities. The second stage is verifiable multilateral reductions in arsenals. Finally, we must work globally both to establish the security conditions that will enable a world free from nuclear weapons and to overcome the technical and policy challenges associated with the complete abolition of nuclear weapons. For our part, as soon as it becomes useful for our arsenal to be included in a broader negotiation, Britain stands ready to participate and to act.

There is growing momentum across the globe to tackle these strategic challenges. The UK has been a civil and military nuclear power for many decades and so we have a great deal of expertise to offer. As we head towards next year's NPT review conference, I am committed to making the UK a leading nation in the drive to develop credible answers to the nuclear questions that face us today. It is vital that we make progress—I believe this strategy sets out what the UK can do alone and in partnership with other countries in the period up to the conference and beyond to bring us the security and prosperity we seek in the decades to come.

TRANSPORT

Cost of Ministerial Cars for 2008-09

The Parliamentary Under-Secretary of State for Transport (Paul Clark): My right hon. and noble Friend the Secretary of State for Transport has made the following ministerial statement:

I am publishing today details of the number of and cost to Departments of the provision of allocated cars and drivers by the Government Car and Despatch Agency to Ministers during 2008-09.

The figures are:

Department	*No of Cars*	*Contracted Cost*	*Notes*
Department for Business, Enterprise and Regulatory Reform	6	274,000	1&2
Cabinet Office	7	426,200	3
Leader of the House of Commons, the Government's Equalities Office and the Leader of the House of Lords	3	223,100	
Department for Communities and Local Government	6	418,300	
Department for Culture, Media and Sport	3	243,400	
Department for Children, Schools and Families	5	360,900	
Department of Energy and Climate Change	3	99,000	
Department for Environment, Food and Rural Affairs	4	262,400	
Department for International Development	4	272,000	
Department for Transport	4	289,800	
Department for Innovation, Universities and Skills	5	301,400	
Department for Work and Pensions	6	428,800	
Foreign and Commonwealth Office	5	367,700	
Department of Health	6	409,000	
HM Treasury	6	350,900	
Home Office	6	483,300	
Law Officers' Department	2	148,200	
Ministry of Defence	1	85,100	
Ministry of Justice	5	310,600	
Northern Ireland Office	2	286,200	
Scotland Office	2	103,900	
Wales Office	2	137,000	

Notes:

1. The Minister of State for Trade, Investment and Foreign Affairs was a post held jointly between the Foreign and Commonwealth Office (FCO) and the Department for Business, Enterprise and Regulatory Reform (BERR). The Government cars (GC) service costs were met by BERR.

2. The Parliamentary Under-Secretary of State for Trade and Consumer Affairs was a post held jointly between the Department for International Development (DFID) and BERR. The GC costs were met by DFID.

3. Cabinet Office figures include cars for Ministers in the Cabinet Office, the Prime Minister's Office and the Minister for the Olympics.

Crossrail

The Minister of State, Department for Transport (Mr. Sadiq Khan): On 14 July last year, my hon. Friend the Member for Glasgow, South (Mr. Harris), made a statement offering assurance to Parliament that a statement will be published at least every 12 months until the completion of the construction of Crossrail, setting out information about the project's funding and finances. This assurance was placed on the Crossrail Register of Undertakings and Assurances.

Government are committed to ensuring that there is a high level of transparency as to the progress and cost of the Crossrail project. Our intention in this area was set out in the Heads of Terms which were signed in November 2007. The Heads of Terms have now been superseded by the Crossrail Core Agreements, binding legal documents which set out the funding, governance and delivery arrangements for the Crossrail project. These were signed by the Secretary of State for Transport,

Transport for London, and Cross London Rail Links Ltd on 3 December last year, and were published in the House Library, with an accompanying statement to the House. Since the assurance was given, Cross London Rail Links Ltd has also changed its name to Crossrail Ltd.

In line with my hon. Friend's assurance to the House I am therefore publishing this statement within 12 months of the Crossrail Act 2008 coming into force on 22 July 2008, and set out below the information outlined in that assurance:

Total funding amounts provided to Crossrail Ltd by the Department for Transport and TfL in relation to the construction of Crossrail in the period 22 July 2008 to 30 May 2009.	£200.922 million
Expenditure incurred by Crossrail Ltd in relation to the construction of Crossrail in the period 22 July 2008 to 30 May 2009 (excluding recoverable VAT on land and property purchases).	£196.803 million
Total expenditure incurred by Crossrail Ltd in relation to the construction of Crossrail to the end of the period 22 July 2008 to 30 May 2009 (excluding recoverable VAT on land and property purchases).	£196.803 million
The amounts realised by the disposal of any land or property for the purposes of the construction of Crossrail by the Secretary of State, TfL or Crossrail Ltd in the period covered by the statement.	Nil

The numbers above have been provided by Crossrail Ltd and are drawn from their accounts for the relevant periods.

I can also confirm that the costs of the construction of Crossrail are likely to fall within the agreed budget, based on best current estimates of costs provided by Crossrail Ltd.

The Government remain fully committed to Crossrail. This is a long-term major infrastructure project helping, and responding to, London and the South-East's transport needs for the next half century and more.

We remain confident that Crossrail will be delivered on time and on budget and that the project can be funded as planned.

Annual Report and Resource Accounts

The Minister of State, Department for Transport (Mr. Sadiq Khan): My right hon. and noble Friend the Secretary of State for Transport has made the following ministerial statement.

I have today published the Department's Annual Report and Resource Accounts for 2008-09 (HC 454). Copies have been laid before Parliament and placed in the Libraries of both Houses.

The report sets out the Department's activities and achievements over the last year. It also describes the Department's future expenditure plans for the period of the spending review 2007-10.

Highways Agency

The Parliamentary Under-Secretary of State for Transport (Chris Mole): My right hon. and noble Friend the Secretary of State for Transport has made the following ministerial statement.

A new framework document which sets out the relationship and the revised governance and sponsorship arrangements between the Department for Transport and the Highways Agency has been published.

Copies of the document have been placed in the Libraries of both Houses. Copies will also be available on the Department's website: www.dft.gov.uk and the Highways Agency website: www.highways.gov.uk.

Local Transport Act 2008 (Passenger Focus)

The Minister of State, Department for Transport (Mr. Sadiq Khan): The Local Transport Act 2008 includes powers for the Secretary of State to confer additional functions on Passenger Focus (formally known as the Rail Passengers' Council—the statutory rail passenger watchdog) so it can represent bus, coach and tram passengers. The Act also enables secondary legislation to be made requiring certain persons to display certain information relating to public transport.

The Department for Transport is today publishing a consultation on a draft order to extend Passenger Focus' remit and draft regulations requiring bus and coach operators to display information on their vehicles about who passengers should contact if they want to make a complaint. Copies of the consultation materials will be made available on the Department's website: www.dft.gov.uk/consultations, and are being placed in the Libraries of both Houses.

Local Transport Act 2008 (Designated Bodies)

The Minister of State, Department for Transport (Mr. Sadiq Khan): Under section 19 of the Transport Act 1985, the Secretary of State has the power to designate bodies who may issue permits under that section to eligible community transport operators. These section 19 permits allow the holder to operate transport services for hire or reward, subject to certain conditions, without the need for a full public service vehicle operator's licence.

While developing the policy proposals now contained in the Local Transport Act 2008, the Government signalled their intention to review the current list of designated bodies. The Department for Transport will shortly be publishing a consultation on how it intends to advance this review. Copies of the consultation materials will be made available on the Department's website—www.dft.gov.uk/consultations—and will be placed in the Libraries of the House.

ATOL Protection Contribution

The Parliamentary Under-Secretary of State for Transport (Paul Clark): The air travel organiser's licence (ATOL) system provides financial protection to those taking flight-inclusive package holidays overseas. It ensures that in the event of a tour operator becoming insolvent,

consumers already abroad can complete their holidays and be returned to the UK and those who have paid for their holidays but have not yet departed will receive a full refund. It is operated by the Civil Aviation Authority (CAA).

The failure of XL leisure group in September 2008 and the effects of the recession have caused serious financial difficulties for the air travel trust fund (ATTF), which meets the insolvency protection costs of the ATOL scheme. To help address this, between April and June this year, the CAA consulted on possible increases to the ATOL protection contribution (APC) paid by travel companies to the ATTF. The consultation looked at a range of possible increases to the current charge of £1 per passenger to between £2.50 and £3.50 per passenger.

Following the consultation, the CAA provided advice to the Secretary of State recommending the APC be increased from £1 to £2.50 per passenger with effect from 1st October 2009. After careful consideration, I have decided to approve the recommended increase. I am aware of the extra burden this will place on travel companies and consumers at difficult times, which is why I have agreed to an increase at the bottom of the range consulted on by the CAA. I believe this strikes the right balance between ensuring the future financial stability of the ATTF while keeping additional burdens on travel companies and consumers as low as practicable. I believe that £2.50 for the protection that ATOL provides represents a good deal for consumers—it is cheaper than stand-alone airline failure insurance and represents less than 0.5 per cent. of the average ATOL holiday price. The CAA intends to review the rate of the APC before the ATTF moves into surplus, projected to be by the spring of 2012.

The increased APC will allow the ATTF access to additional commercial credit facilities which will benefit from an increased and extended Government guarantee that the Government have agreed to in principle. The Government also intend to consult on reforms to the ATOL system in the autumn to make it fairer and more understandable for consumers. A copy of the CAA's advice to the Secretary of State and a summary of consultation responses will be placed in the House Library.

WORK AND PENSIONS

Annual Social Fund Reports

The Parliamentary Under-Secretary of State for Work and Pensions (Helen Goodman): I am pleased to announce publication of the annual report by the Secretary of State for Work and Pensions on the Social Fund 2008-09 and the Social Fund Commissioner's annual report 2008-09.

The Secretary of State's Annual Report on the Social Fund for 2008-09 (Cm 7677) has been laid before Parliament and will be published later today. Copies are available in the Vote Office and the Printed Paper Office.

The report records that total gross expenditure in 2008-09, excluding winter fuel payments, was over £1.1 billion. This included over 252,000 non-repayable community care grants and over 3 million interest free loans together worth over £761 million, funeral and cold weather payments totalling over £258 million and almost 263,000 Sure Start maternity grants worth almost £133 million. In addition an estimated 9 million households benefited from a winter fuel payment at an estimated cost of around £2.7 billion.

The Social Fund Commissioner's report will be published later today and copies have been placed in the Libraries of both Houses.

ICL Inquiry Report

The Secretary of State for Work and Pensions (Yvette Cooper): On 11 May 2004, a tragic factory explosion occurred at the ICL Plastics premises in Glasgow. Nine people were killed and 33 were seriously injured. Proceedings were subsequently taken against ICL Tech Ltd and ICL Plastics Ltd under the Health and Safety at Work,etc. Act 1974 and in August 2007 the companies pled guilty to the charges. I would like to express my sympathy to the bereaved families and to the injured survivors.

In October 2007, the Government and the Lord Advocate of Scotland announced a joint investigation into the explosion. Lord Gill, Lord Justice Clerk, was appointed chair of the joint independent inquiry in December 2007. Today, I am pleased to announce the publication of Lord Gill's report.

I would like to thank Lord Gill and his team for the way in which they handled the inquiry and for fulfilling the terms of reference so efficiently.

The key message from this report is that this was an avoidable disaster and that its causes are clear. While the inquiry has established that the primary responsibility for safety lay with the site user, it has identified that there were failings across the system.

In the case of the site user, the report sets out serious failings in risk assessment, inspection and maintenance, among others. It refers to both certain inadequacies in the liquid petroleum gas (LPG) safety regime in which it operated in the mid 1970s and late 1980s and the urgency of HSE's response since the explosion.

The Government welcome the report and we fully accept Lord Gill's recommendation that a 'sharper, clearer safety regime' is needed for LPG bulk installations.

Lord Gill's report proposes that this should be achieved through a four phase action plan:

The replacement of metallic pipework and steel risers on a systematic and prioritised basis; and early inspection of all buildings that have a liquefied petroleum gas (LPG) supply to identify any hazardous features from the design or layout;

the establishment of a permanent and uniform safety regime to govern the installation, maintenance, monitoring and replacement of all LPG systems, including clear guidance on responsibilities of supplier and user;

the development of a continuing and planned safety regime, particularly in relation to the use of polyethylene pipes; and

the improvement of communications between suppliers, users and HSE and also within HSE.

In responding to Lord Gill's report the immediate priority is the replacement of buried LPG pipework.

The HSE has already announced a joint programme of work with UKLPG for the systematic replacement of buried LPG metallic pipework. This will be a prioritised programme starting in October.

The Government also agree that further improvements are needed to the safety regime in this area, and we expect to provide a full response to Lord Gill's report in January next year. I have therefore today asked the chair of HSE and its board to consider the report's findings and to report back to me on progress by the end of September, addressing both Lord Gill's criticisms of its actions since the explosion and how the report's recommendations can be taken forward. I have asked HSE to explore with the LPG suppliers and users and with trade unions how improvements to the LPG safety regime can be made.

I will report back to Parliament in the autumn on the progress that has been made and I will ensure that hon. Members have the opportunity to feed in their views before the Government's full response to Lord Gill's report is issued.

Copies of the report are available in the Vote Office and the Printed Paper Office.

Rent Service and Child Maintenance and Enforcement Commission

The Secretary of State for Work and Pensions (Yvette Cooper): I am pleased to announce that the Department for Work and Pensions has today laid in the House the 2008-09 annual reports and accounts for the Rent Service (HC652) and the Child Maintenance and Enforcement Commission (HC841). The annual reports and accounts for Jobcentre Plus, the Pension, Disability and Carers Service, and the Child Maintenance and Enforcement Commission's separate report on its client fund account will be laid as soon as possible.

Written Ministerial Statements

Monday 20 July 2009

BUSINESS, INNOVATION AND SKILLS

Higher Education

The Minister for Higher Education and Intellectual Property (Mr. David Lammy): My noble Friend, the Secretary of State for Business, Innovation and Skills (Lord Mandelson) has made the following statement:

This Government are committed to expanding higher education.

There are currently record numbers of students in higher education with 300,000 additional students in the system since 1997. Government spending on higher education is over 25 per cent. higher in real terms than in 1997. By contrast, funding fell by 36 per cent. under the previous Government.

Our expansion of higher education is more important now than ever before, as we continue to invest in developing a highly skilled work force that is well placed to win the jobs the future economy will offer.

Demand for places this year is unprecedented, demonstrating that people continue to see higher education as a good investment and a valuable route to a good job and rewarding career.

We want to support all those with the aspiration and ability to succeed in higher education. Work with the sector indicates there are institutions able to recruit more students to meet the increased demand without compromising the quality of their offer.

Therefore an extra 10,000 higher education places will be made available to universities this year to support more students in going to higher education this year.

The Government will pay the student support costs for extra places in courses related to the new industry, new jobs agenda such as science, technology, engineering and maths—areas which will equip young people with the skills they need for the jobs of the future.

The package will fund the financial support for these students, which includes, for full-time students the fee loans to cover the cost of the tuition fees charged by institutions.

Institutions wishing to take additional students will be able to charge students on full-time courses in England up to £3,225 in tuition fees in 2009-10, the same as for other students. A tuition fee loan is available to eligible students to cover the full cost of the fee.

No additional teaching grant from HEFCE will accompany these additional students. It is for universities to manage their own admissions and we are confident that many will want to offer high quality places to students on this basis.

This is a fiscally neutral change—the costs of supporting the extra students will be met through reprioritising existing budgets and reducing the optional five year holiday on repayment of student loans to two years.

The repayment holiday on student loans was announced in July 2007. All students starting a higher education course in 2008-09 or later, taking out their first student loan and having a repayment start date of April 2012 or later are entitled to a repayment holiday. The intention is to help borrowers to manage their finances if there are other changes in their lives. Qualifying borrowers will now be offered the choice of putting their student loan repayments on hold for up to two years as opposed to up to five years as announced in July 2007.

The expansion described here is a proposition affordable to Government and viable for universities in order to meet an important need: helping thousands more people achieve their ambitions.

It is up to individual institutions whether or not or how many places they want to offer on this basis and we will ask HEFCE to oversee the process.

This funding for student support, which will be reprioritised from within existing BIS budgets, is in addition to the extra funding for additional student numbers provided in this year's HEFCE grant letter. That funding was expected to result in an additional 3,000 full time entrants in 2009-10 as well as growth in part time entrants.

As a result of this announcement, we expect that there will be 50,000 more accepted applicants this year than just three years ago.

Icelandic Water Trawlermen Scheme

The Minister for Further Education, Skills, Apprenticeships and Consumer Affairs (Kevin Brennan): My noble Friend the Minister for Postal Affairs and Employment Relations, Lord Young of Norwood Green, has made the following statement.

I am pleased to announce that the Government will shortly be launching the new compensation scheme for former trawlermen who fished in Icelandic waters.

Under this scheme, we will calculate the aggregate time served by each trawlerman during the last 20 years of their career on vessels that fished in Icelandic waters, and make additional payments whenever the payment due under this calculation exceeds the total already paid to them under the two previous compensation schemes. Claimants will only be eligible for payments where they can meet a qualifying test which requires two years' aggregate service on vessels that fished in Icelandic waters during the four years of the cod wars, or the last four years of a trawlerman's career if he left the industry before 31 December 1976.

This approach will direct additional payments to those people who were disadvantaged under the previous scheme, because they had long Icelandic careers, but received reduced payments or no payments at all as a consequence of the brenks rule, which the parliamentary ombudsman criticised in her 2007 report.

We will consider claims from anyone that applied under the previous schemes, or from anyone that has not applied previously where they can submit good and reliable documentary evidence supporting their claim. We have agreed to add an extra vessel to the original list of Icelandic vessels and will consider the case for adding further vessels, assessing any evidence submitted against criteria based on that used under the previous scheme.

We plan to formally launch the scheme on 31 July. At launch, we will announce the scheme through local newspapers in each of the ports concerned; establish a helpline to deal with queries and issue copies of the application forms and scheme rules; and place this information on the BIS website: www.bis.gov.uk. We will also write to everyone that replied to the recent consultation paper. We will allow nine months from launch for people to submit claims. However, no payments will be made until the vessels list has been finalised.

We believe this scheme represents a fair and equitable way forward. It has been designed to meet the concerns raised by the parliamentary ombudsman in connection with the previous scheme, and will enable an estimated 1,000 former trawlermen to receive additional payments totalling around £5 million to £10 million.

Statement of Insolvency Practice 16

The Parliamentary Under-Secretary of State for Business, Innovation and Skills (Ian Lucas): The Insolvency Service is today publishing its first report on the operation of Statement of Insolvency Practice 16 (SIP 16).

SIP 16 sets out required practice for insolvency practitioners who carry out pre-packaged administrations. The Insolvency Service's report examines practitioners' compliance with the SIP in its first six months of operation, and the conduct of directors who have engaged in pre-packs. A further report will be issued in early 2010.

Copies have been placed in the Libraries of both Houses.

The report is available at:

http://www.insolvency.gov.uk/insolvencyprofession andlegislation/policychange/sip16-final.pdf

TREASURY

EC Budget White Paper

The Economic Secretary to the Treasury (Ian Pearson): I am today laying before Parliament the annual European Community Finances White Paper "Statement on the 2009 EC budget and measures to combat fraud and financial mismanagement" (Cm 7640). This White Paper is the 29th in the series. It gives details of revenue and expenditure in the 2009 EC budget and covers recent developments in EC financial management and measures to counter fraud against the EC budget. It also includes updated details on the own resources decision, the UK consolidated statement on the use of EU funds in the UK, and new text on the European economic recovery plan.

Tax Credits

The Financial Secretary to the Treasury (Mr. Stephen Timms): Tax credits are delivering guaranteed minimum incomes for working families and families with children, reducing child poverty, and improving work incentives. In these tough economic times they provide support to 20 million people including around 6 million families and 10 million children. Take-up is now higher than for any previous system of income-related financial support for in-work families.

Against this backdrop HM Revenue and Customs has today published its estimate of error and fraud in tax credits for 2007-08. The collection, analysis and publication of this data help inform efforts to strengthen the administration of the programme.

The analysis—based on a sample of 4,100 cases—estimates error and fraud at 8.6 per cent. of finalised tax credit entitlements for 2007-08. This comprises error favouring the claimant at 7.8 per cent. of finalised entitlements, and fraud at 0.7 per cent. This compares with the 2006-07 central estimate of error and fraud at 7.8 per cent.

The Government are determined to reduce the incidence of error and fraud in tax credits. In July of last year, the Government set HM Revenue and Customs a target to reduce the combined levels of error and fraud in tax credits to no more than 5 per cent. of finalised entitlement by the end of March 2011. HMRC is committed to delivering to achieve this target.

At the same time HMRC also published a new strategy for reducing error and fraud. By using the Department's improved understanding of risks, and of customer needs, it has already introduced additional checks and interventions tailored to help prevent error entering the system while ensuring those who abuse the system are caught. HMRC has also been embedding this deeper understanding of customer behaviour into its entire compliance programme, deploying resources to areas of greatest risk.

By helping customers to get their claim right from the outset, and to keep their award on track, HMRC is reducing the risk of loss and improving customer service. Through the tax credits transformation programme it is now offering better support to customers—for example, HMRC is helping new customers to make their claim accurately, tailoring the level of extra support to their particular needs. The Department is also contacting large numbers of customers to check that their tax credits award remains up-to-date throughout the year and continues to reflect their current circumstances. Additional assistance is also being provided to some vulnerable customers when they renew their claims. Overall HMRC is contacting over 500,000 customers this year offering additional help.

HMRC has also introduced additional checks of many new claims, making better use of information it already holds to prevent financial loss from some of the most frequent mistakes. It is also contacting certain customers who have not reported changes of circumstances for some time to offer assistance to make sure their award is up to date and correct. HMRC is also expanding its outreach work through children's centres by providing advice and support to customers.

On fraud, the Department has implemented a range of measures designed to restrict the opportunity for abuse of the system. These include tighter control on the issue of claim forms, fraud awareness training for staff, and deploying compliance officers in tax credit call centres. Efforts to target organised fraud have successfully reduced the level of identified losses due to organised fraud from the levels in 2005-06. HMRC prevented incorrect tax credits payments due to organised fraud of £66 million in 2007-08.

HMRC is also getting tougher on individuals who commit fraud. It is increasing its use of data matching, using information from a wide variety of sources, within Government and beyond, to identify those who attempt to abuse the system. It is also sharing intelligence with other Government agencies and investigating cases jointly with the Department of Work and Pensions. Those who are caught face being charged a penalty and interest in addition to repaying the amount they defrauded, and in the most serious cases, the Department can and does prosecute. This approach is consistent with HMRC's vision about being passionate in helping those who need it and being relentless in pursuing those who bend or break the rules.

HMRC will use the analysis published today to refine its strategy further.

A copy of these statistics has been deposited in the Libraries of both Houses and is available on the HMRC website.

CABINET OFFICE

Government and Voluntary Sector Compact

The Minister of State, Cabinet Office (Angela E. Smith): I am today placing in the Libraries of both Houses copies of the report of the annual meeting held on 2 December 2008 and the action plan 2009-10.

The independent Commissioner for the Compact, Sir Bert Massie spoke about the state of the relationship between Government and the sector and the findings from the debate on the future of the Compact:

To keep a values based and voluntary Compact;

To update the Compact as a single document that takes account of changes over the ten years since the Compact was first signed;

To look at changes to the structure of the Commission for the Compact and options to put it on a statutory footing.

We now have the opportunity to renew the Compact for the 21st century, to ensure it is stronger and capable of delivering for both the public and third sectors in a changing economic environment. Simon Blake, the Chair of Compact Voice, and I, as representatives of the two signatories to the Compact, have asked Sir Bert to begin work engaging both sectors on updating the Compact documents, and in making changes to the Commission. This will build on work the Commission has already achieved to ensure the Compact is better understood and accepted.

The refresh of the Compact is a major piece of work to be done as part of our joint action plan for the next year. The action plan has been developed by the Commission, Compact Voice, Office of the Third Sector and the Local Government Association—taking account of the discussion at the annual review. Along with the report of the annual review meeting I am also placing copies of the Joint Compact Action Plan 2009-10 in both Houses. The action plan is grouped around four themes:

Raising the profile of the Compact

Building our knowledge

Embedding in structures, processes and policy

Maintaining the relevance of the Compact.

At the annual review meeting my predecessor also announced the baseline for annual reporting on the commitment to three-year funding for the Third Sector by Government Departments. The percentage of the value of all Government grants that have been reported to OTS that are for three years or more is 85.4 per cent. A baseline will also be set in 2009-10 for performance on contracts and performance by NDPBs and agencies.

COMMUNITIES AND LOCAL GOVERNMENT

East of England Regional Spatial Strategy

The Parliamentary Under-Secretary of State for Communities and Local Government (Mr. Shahid Malik): My right. hon. Friend the Secretary of State for Communities and Local Government is today publishing the revision to the east of England plan—the revision to the East of England regional spatial strategy—concerning accommodation for Gypsies and Travellers and travelling showpeople, together with the accompanying supporting document, which includes a summary of consultation responses and a sustainability statement. This final, single issue revision to the east of England plan reflects consideration of responses to the consultation on the Secretary of State's proposed changes, which were made in the light of the recommendations of the independent panel who conducted an examination in public into the draft policy.

This is the completion of an important single issue revision to the east of England plan, which was published in May 2008. It builds on the foundations of the draft policy, which was prepared by the east of England regional assembly and the findings of the independent panel who conducted an examination in public.

The policies that are published today become part of the East of England plan and provide a framework for local planning authorities to prepare relevant policies in their development plan documents, which must be in general conformity with the East of England plan.

The strategy reflected in the final policies aims to guide development of additional accommodation for Gypsies and Travellers and travelling showpeople in the East of England most immediately to 2011, and in the longer term to 2021.

The policies adopt the independent panel's conclusion that the number of pitches in the region should be slightly increased from the total proposed in the draft policy, in recognition of the pressing need for additional accommodation in the East of England. They also reflect the panel's conclusions that the revision should make provision for additional transit sites for temporary use by Gypsies and Travellers and more permanent plots for seasonal use by travelling showpeople. The spatial strategy reflected in the policies provides for meeting the most pressing accommodation needs where they arise coupled with an equitable distribution of additional pitch and plot requirements across the region's local authority areas.

The policies were subject to assessment under the habitats regulations. The sustainability statement concludes that the policies are in accordance with the principles of sustainable development and that they do not give rise to adverse environmental impacts.

The culmination of this single issue review of the East of England plan represents an important milestone in putting in place a strategic framework for addressing the pressing accommodation needs of the Gypsy and Traveller and travelling showpeople communities. The essential task now is to ensure that the policies are implemented quickly and effectively. We look forward to working with the local authorities and other key partners on their delivery.

The policies resulting from the review, together with the supporting document have been placed in the Library of the House and have been provided for all of the region's MPs, MEPs and local authorities.

Planning

The Minister for Housing (John Healey): On 2 April 2009 the Government informed Parliament about the review into the extent and impact of housing development on garden land. This explained that the review would be carried out in two stages.

I can today confirm that we received 127 detailed responses from local planning authorities to stage 1 of the review, and that stage 2 is being carried out by Kingston University, London. I have asked them to consider the following:

whether there has been any increase or decrease in development in gardens from 1 April 2003 to 31 March 2008, and the reasons for any change;

the impact of the brownfield definition and brownfield target in planning policy statement 3 on any increase or decrease in development in gardens;

whether development on garden land is widespread, or confined to a handful of authorities or certain areas of the country;

the contribution that this type of development makes towards local housing delivery objectives and the impact that any restrictions on development on garden land would have;

the role of the planning inspectorate in determining appeals for development on garden land—typified by accusations that they force the hand of local authorities by routinely overturning decisions on garden development;

whether local authorities are developing local policies in line with advice from Government and the policy in planning policy statement 3, and in particular whether local policies on brownfield development and trajectories are being developed; and

whether local policies developed in accordance with PPS3 are effective in supporting local authorities' decisions on garden development at appeal, and to establish the common reasons for local objections to development on garden land.

Our aim is to conclude the review and make a further announcement and publish summary findings and evidence to Parliament after the summer recess.

The purpose of the review is to establish whether there is a clear and genuine problem with the extent of housing development on gardens. And, as we have previously confirmed, the Government are committed to considering action if the evidence confirms a problem, provided that any changes should not have the effect of undermining our objectives on housing.

Planning Policy Statement (Coastal Erosion)

The Minister for Housing (John Healey): I am today publishing a consultation on proposals for new Planning Policy on Development and Coastal Change, and I am placing copies of the consultation in the Library of the House.

Coastal communities have historically adapted to the changing coastline as sea levels have risen steadily since the end of the last ice age. However, on the basis of the latest projections provided by UKCP09[1], climate change is likely to exacerbate erosion and coastal flooding with rising sea levels and a potential increase in the intensity, severity and frequency of coastal storms over the next 100 years.

Government are committed to managing the impact of coastal erosion and flooding in a sustainable manner, and this includes ensuring that our spatial planning policies support communities that are resilient to the risks presented by climate change.

Strong planning policy to manage coastal flooding is already in place through planning policy statement 25. However, currently planning decisions in relation to coastal erosion risks are made with reference to planning policy guidance note 20, which adopts a strongly precautionary approach, restricting any development in areas at risk of coastal erosion. This means that even appropriate development that would support the economic and social viability of a coastal town or village is unable to go ahead.

To deal with this, the proposed development and coastal change policy aims to strike a better balance between economic prosperity and the need for further defence of the coastline, alongside reducing the consequences of coastal change on communities.

The draft policy promotes a strategic risk-based approach to managing future physical changes to the coastline, so that long-term adaptation of communities can be planned while allowing necessary development that is appropriate and safe. It will also introduce a more co-ordinated approach to planning and investment at the coast, ensuring that spatial strategies to deliver regeneration and sustainable economic development take proper account of the impact of physical processes affecting the coastline and decisions regarding the planning and management of coastal defences.

This consultation forms part of a wider package of actions being taken forward to deliver the Government's sustainable flood and coastal risk management approach set out in the "Making Space for Water" strategy. The "Coastal Change Policy" framework, which my right hon. Friend the Secretary of State for Environment, Food and Rural Affairs announced for consultation on 15 June, provides a package of policy measures to help coastal communities and local authorities manage and adapt to the increasing risk of coastal flooding and erosion.

The proposed changes I am setting out today will play a part in assisting coastal communities in adapting to the impacts of climate change and facilitating economic activity in coastal areas. The consultation closes on 12 October 2009.

[1]The "UK Climate Projections 2009", published 18 June 2009

DEFENCE

Haslar Hospital Site

The Parliamentary Under-Secretary of State for Defence (Mr. Kevan Jones): The Royal Hospital Haslar is an important historical site. It opened to patients in 1754 and formally ceased to be a military hospital in 2007, although it continued treating NHS patients until July this year when clinical facilities and Defence Medical Services personnel were transferred to the Queen Alexandra Hospital, Cosham, and elsewhere.

The future use of this site, which extends to some 23 hectares and comprises around 75,000 square metres of buildings, 13 of which are Grade II listed, is clearly an important issue locally and nationally. Accordingly, in 2008, the Ministry of Defence commissioned an Enquiry by Design led by the Princes Regeneration Trust and the Princes Foundation for the Built Environment. The enquiry concluded that alternative uses should include new enabling development and that every effort should be made to retain some medical and health care presence on the site.

An expressions of interest campaign was undertaken earlier this year and a number of bids were received by the closing date. I am announcing today that Our Enterprise, a community interest company that brokers and delivers bespoke commercial partnerships between charities, social investors, commercial operators and the public sector to deliver large-scale integrated regeneration projects, has been chosen as our preferred bidder for the site. Our Enterprise has been chosen as our preferred bidder for the site in accordance with Government policy on the disposal of historic buildings. We expect to exchange contracts with the purchaser and complete the transfer by the autumn, if not earlier.

Our Enterprise has a vision of promoting the quality of life for both individuals residing on the site and for Gosport as a whole and will continue social and health care on the site by providing a "Veterans Village", student accommodation, community health care and a commercial centre as well as residential uses. I believe that the choice of preferred bidder for Haslar is good news for the local community, and will preserve the heritage and visual aspects of this important site.

ENERGY AND CLIMATE CHANGE

UK Strategy for Radioactive Discharges

The Parliamentary Under-Secretary of State for Energy and Climate Change (Mr. David Kidney): My noble Friend the Minister of State for Energy and Climate Change today made the following statement.

The OSPAR Radioactive Substances Strategy was agreed by Ministers of all contracting parties in 1998. The objective of the strategy is to prevent pollution of the maritime area covered by the OSPAR convention (convention for the protection of the marine environment of the north-east Atlantic) from ionising radiation through progressive and substantial reductions in radioactive discharges.

It was agreed that contracting parties should report to the OSPAR Commission on progress in achieving the aims of the 1998 strategy.

Today, an updated Strategy for Radioactive Discharges (the first having been published in 2002) was published by the Department for Energy and Climate Change. The UK Discharges Strategy forms our national report on progress and will be presented at the next OSPAR ministerial meeting in 2010.

The UK Strategy is available via the DECC website: www.decc.gov.uk.

HEALTH

Regulation of Social Care

The Secretary of State for Health (Andy Burnham): The General Social Care Council (GSCC) is the professional regulatory body for social workers in England and has statutory responsibility for investigating complaints against social workers. In June, the Department of Health became aware that a backlog of conduct referrals had developed at the GSCC and liaised with GSCC to determine the scope and nature of the problem.

On 2 July, Ministers were alerted as the GSCC had identified a backlog in the management of 203 complaints against social workers registered with it. Ministers were very concerned about any risk to the public and met the Chair and Chief Executive of the GSCC on 6 July to seek reassurances from them. The Council reported that there were 21 cases where the allegations, though unproven, suggested that there could have been an ongoing risk of harm to members of the public.

Ministers asked the Council to ensure that urgent action was taken to address any potential threat to public safety that could arise if these individuals were continuing to work as social workers, by establishing their whereabouts, to ensure that any who were still in employment were being safely and appropriately managed while the allegations were investigated. GSCC has been working to ensure that any employers of these individuals are aware of the allegations made and to ensure that the individuals concerned have not sought employment elsewhere.

On Friday 17 July, the Department received information from the GSCC regarding all 21 cases. The GSCC confirmed that either the individuals concerned are employed as social workers by known employers who are aware of the allegations that have been made and are managing any risks or, as far as the Council can ascertain, they are not currently employed as social workers.

In the light of Ministers' concerns around public safety, my officials facilitated a team to work with GSCC to ensure that all cases in the backlog were reviewed to determine if any were high risk. Following this review, a small number of other cases have been identified which are being investigated. Ministers are seeking urgent further assurances that every possible step has now been taken to ensure that none of these individuals present a current risk.

In all cases where the GSCC has assessed that there may be a potential ongoing risk, panels are scheduled to have met by Friday 24 July to consider the imposition of an interim suspension order on the individual in question pending the outcome of the GSCC's investigations.

The fact that a backlog of conduct referrals, some of which had not been adequately risk assessed, has built up is a matter of extreme concern. We understand that GSCC has therefore suspended its Chief Executive while it looks into how the issue arose.

As an interim measure, Paul Philip, currently Deputy Chief Executive at the General Medical Council, is joining GSCC as acting chief executive.

The Department of Health is today commissioning the Council for Healthcare Regulatory Excellence to carry out a wide-ranging review of the governance and performance of the GSCC. The purpose of the review is to establish what further action is needed to ensure that Ministers, Parliament and the public can have confidence that the GSCC is effectively carrying out its statutory duties to promote high standards of conduct and practice in order to protect the public. The GSCC supports the review, which will report to Ministers by the end of September.

NHS Access (Foreign Nationals)

The Parliamentary Under-Secretary of State for Health (Ann Keen): Since the publication of the cross-government immigration enforcement strategy "Enforcing the rules: a strategy to ensure and enforce compliance with our

immigration laws" the Department of Health and the Home Office have been working together to review the rules on charging non-UK residents for access to National Health Service services in England.

The House will wish to know that the joint review has concluded and the Government are today able to outline its conclusions.

The National Health Service was founded over 60 years ago. Sixty years on, this Government remain committed to their founding principles; a national health service for the benefit of the people of the United Kingdom, free at the point of delivery and funded by general taxation.

However, it is neither feasible to operate the NHS without proper controls over access, nor fair, in an age of mass global travel and movement, to ask the taxpayer to fund unrestricted access to non-UK/EEA nationals. It is the Government's responsibility to protect NHS resources from exploitation or inappropriate use.

That is why, in concluding the review, the Government are today announcing measures to support a clearer and fairer system of access to NHS services—a transparent system that will maintain the confidence of the public by preventing inappropriate access.

The Government have decided to maintain the current system of charging non-residents for most secondary care (hospital) services. Treatment in an accident and emergency department, and treatment for specified infectious diseases that could create a public health risk, will remain free to all. The Government also propose limited extensions to the current range of exemptions from charges for hospital treatment for certain non-residents.

Persons seeking refuge or asylum are already exempted from charges for the duration of their application including the full appeal process. The Government have not been persuaded that this full exemption should be extended to all of those whose application has failed but have not yet left the country. It has however recognised the case for those whose claim has been refused but who are being supported by the UK Border Agency because they would otherwise be destitute, have children and/ or because it is impossible to return them home through no fault of their own. It is therefore proposed that an exemption from charges is extended to this group.

The Government also propose to exempt from charges all unaccompanied minors, including those in local authority care, while clarifying the principle that the accompanying parent or guardian of a non-resident minor is responsible for the cost of their NHS treatment. Together with the exemption for victims of human trafficking that was introduced from April this year, these changes reinforce the protection and rights to health care of the most vulnerable groups, regardless of their residential status.

While maintaining the principle that other visitors or irregular migrants who are not specifically exempted should be charged for their treatment, and that, in non-urgent circumstances, treatment will be withheld if the costs are not paid, the Government remain firmly committed to the requirement that immediately necessary and other urgent treatment should never be denied or delayed from those who require it. We are currently engaging with key stakeholders to ensure that guidance to the NHS in this respect is clear and comprehensive.

The principles of providing immediately necessary treatment must always be applied to any maternity care, to ensure that the health of the mother or baby is not put at any risk. Maternity treatment therefore must never be delayed or denied. However, the Government have not been persuaded that charges should be abolished in relation to non-exempt patients for maternity treatment. There is clear case evidence that a small number of visitors enter the United Kingdom specifically to use NHS maternity services.

In relation to HIV treatment, the Government recognise that clinical evidence on treatment, including their role in prevention, is developing constantly. Moreover, HIV is a major global problem, the control of which creates significant financial as well as human costs. We will therefore undertake further analysis of the latest medical and public health evidence together with consideration of how the current policy on treatment aligns with the Government's wider international aid strategy for HIV. This analysis will inform a future decision on whether the current treatment policy (that only initial diagnosis and counselling is offered free of charge to non-UK residents or individuals who are not otherwise exempt) should be revised.

The Government also propose that the period of absence for current residents that can be disregarded for the purpose of determining continued eligibility for free NHS hospital treatment in England is extended from three to up to six months. This proposed change reflects the increasing tendency towards longer periods of travel overseas for some people, and will protect the rights of British citizens who travel abroad while still residing substantively in the United Kingdom.

The Government acknowledge that general practitioners are well placed to take account of the health care needs of their local communities. GPs also play a pivotal role in the provision of public health services (in which they are currently at the forefront of our response to the threat of pandemic swine flu). Since the inception of the NHS GPs have had the responsibility of determining whether a particular individual should become a patient of their practice. This applies to all patients and while the discretion we give to GPs is limited, for example, decisions must not be discriminatory, we do not believe that any specific changes are required in respect of foreign nationals. Where an individual is refused registration, a GP is able to offer routine treatment on a private fee paying basis, but must provide any immediately necessary treatment free of charge.

A small minority of visitors deliberately seek to enter the UK, legally or illegally, in order to access NHS services without payment, some returning on a number of occasions for additional treatment while their previous debt remains unpaid. We therefore believe that there is a strong justification for practical working level co-operation between the NHS and UK Border Agency to apply immigration sanctions to those seeking leave to enter or remain when they have substantial uncleared debts to the NHS. It is only fair that these individuals are prevented from returning to the United Kingdom, or extending their stay here, until they have cleared their

debt. The Government therefore propose to amend the immigration rules to provide that non-EEA nationals will normally be refused permission to enter or remain in the United Kingdom if they have significant debts to the NHS.

The Government are also attracted to the principle of visitors (who are not covered by EEA or other reciprocal health agreements), being required to have personal health insurance provision, as is already the case in some other countries. We intend initially to seek views on the merits and feasibility of such a scheme that will inform further work to evaluate possible options.

The proposals apply to England only. The Government will however consult with devolved Administrations, particularly with regard to the proposals on health tourism and health insurance where they may be benefits in a United Kingdom wide approach.

The proposed policy changes in this statement will be put to public consultation in the autumn and full supporting information will be provided at that time. Subject to a positive consultation outcome, revised regulations will then be laid as required to enable changes to take effect.

HOME DEPARTMENT

Counter-terrorism

The Secretary of State for the Home Department (Alan Johnson): Today, 20 July, the Joint Terrorism Analysis Centre (JTAC) changed the UK threat level from international terrorism from *severe* to *substantial*. This means that a terrorist attack is a strong possibility.

The change in the threat level to *substantial* does not mean the overall threat has gone away—there remains a real and serious threat against the United Kingdom and I would ask the public remain vigilant.

The decision to change the threat level is taken by JTAC independently of Ministers and is based on the very latest intelligence, considering factors such as capability, intent and timescale. *Substantial* continues to indicate a high level of threat; and that an attack might well occur without further warning. The threat level is kept under constant review.

Forced Marriage Case Handling Guide

The Parliamentary Under-Secretary of State for the Home Department (Mr. Alan Campbell): Today the Forced Marriage Unit (a joint Home Office/Foreign and Commonwealth Office unit) launches its Forced Marriage Case Handling Guide for MPs and Constituency Offices.

The guide aims to help Members of Parliament and their staff when they are faced with issues related to forced marriage. It offers background on the issue and gives suggestions of best practice for supporting victims and dealing with their families. It gives details of the Forced Marriage Unit and of non-Government organisations who can offer help and advice and also gives contact details of UK embassies/ High Commissions overseas.

The new guide is available from the House Library. The guide can also be accessed on the Forced Marriage Unit's website at: www.fco.gov.uk/forcedmarriage, and further hard copies can be obtained directly from the unit at the following address:

Forced Marriage Unit
Foreign and Commonwealth Office
Room G58
Old Admiralty Building
London SW1A 2PA

Proceeds of Crime

The Parliamentary Under-Secretary of State for the Home Department (Mr. Alan Campbell): I am pleased to be able to provide a schedule of costs, which has been prepared exceptionally for 2008-09, following the merger of the Serious Organised Crime Agency (SOCA) and the Assets Recovery Agency (ARA) on 1 April 2008.

The figures in the schedule show the sum of assets recovered by SOCA in 2008-09 to be in the region of £3.9 million more than the cost of their recovery activities using the powers inherited from ARA. SOCA is tasked with reducing the harm caused to the UK by organised crime, and numbers alone do not tell the full story, but in the first year of SOCA's use of these new powers it exceeded the Government's target for civil recovery on its own. The Government believe that SOCA's performance in this area of activity fully vindicates its decision to merge both agencies.

The figures provide, as far as it is possible to do, an assessment of the costs incurred by the Serious Organised Crime Agency in recovering assets using powers inherited from ARA during the first year following the merger. Assessing the costs associated to a single work stream within SOCA has proved challenging and significantly more complex than the calculations that could be made for ARA, which was focused on a single area of activity. Given that former ARA work is now only part of a larger organisation with much wider aims and objectives and significantly larger and more varied overhead costs, a like-for-like comparison is difficult.

SOCA's remit is to reduce the harm caused to the UK by serious organised crime. To achieve this SOCA deploys a range of tools. These include: criminal justice interventions (arrests and prosecutions); action to deny criminals access to assets through the use of proceeds of crime legislation and other measures; the disruption of criminal markets and organisations; and the use of ancillary orders such as Serious Crime Prevention Orders. The use of these tools is mainstreamed into the operational activity of the agency. Most operations deploy a number of these tools. It is not possible to identify, in a manner which could be audited, the costs associated with the use of specific tools within any given operation. The identification of costs for powers inherited from ARA is less problematic as civil recovery operations were run as a discrete area of the business in 2008-09.

The receipts from SOCA's asset recovery work are not intended to cover the operating costs of SOCA as a whole.

Summary Analysis of ARA/SOCA Expenditure on Asset Recovery (2003-04 to 2008-09)

	2003-04	*2004-05*	*2005-06*	*2006-07*	*2007-08*	*2008-09*
	ARA	*ARA*	*ARA*	*ARA*	*ARA*	
	Actual	*Actual*	*Actual*	*Actual*	*Actual*	*Actuals*
	£'000	*£'000*	*£'000*	*£'000*	*£'000*	
1. Total Reported ARA Expenditure	10,889	14,085	23,617	24,927	24,598	
2. Less						
i) Centre of Excellence Direct Costs	-759	-1,231	-1,625	-1,731	-2,034	
ii) Overheads on C of E Costs(2)	-637	-1,033	-1,363	-1,379	-1,779	
3. SOCA Costs						
i) Direct Costs						
- Staff						6,374
-Other Including Receivership Fees						5,910
ii) Overhead Recharges (Notes 3 & 4)						4,885
4. = Cost of Asset Recovery Activities	*9,493*	*11,821*	*20,629*	*21,817*	*20,785*	*17,169*
5. Adj for Change of VAT Status (Note 5)						-853
6. Comparable Annual Cost Levels	*9,493*	*11,821*	*20,629*	*21,817*	*20,785*	*16,316*
7. Cash Value of Assets Recovered	-2	-4,384	-4,119	-15,912	-9,225	-20,175
8. Net Cost (Surplus) In Year	*9,491*	*7,437*	*16,510*	*5,905*	*11,560*	*-3,859*
9. Cumulative Cost (Surplus)	*9,491*	*16,929*	*33,439*	*39,344*	*50,904*	*47,044*

Notes

1. *Overview*—This statement compares costs in SOCA of taking forward proceeds of crime activities previously undertaken by ARA. It includes an accumulated cost at the request of NAO as the original remit for ARA was that this work would in the longer-term be self-funding. The 2008-09 outturn shows a surplus for the first time, mainly because overhead costs in SOCA are much lower than those in ARA.
2. *Centre of Excellence Overheads* for 2003-04 to 2005-06 are calculated at 84 per cent. of direct costs based on the average of the 2006-07 and 2007-08 actual costs reported by ARA.
3. *Overhead costs in SOCA* are c 40 per cent.based on full recovery of all SOCA's infrastructure costs (that is, accommodation; security; IT systems etc) across operational activity areas including former ARA services.
4. *The overhead savings are represented in practice* by the fact that SOCA has been able to reduce accommodation costs in London and also by the ability to release c 50 FTE staff into other SOCA operational activities following the merger.
5. *SOCA costs include VAT* which ARA was able to recover—VAT is cost neutral in total public purse terms and deducted from SOCA costs to facilitate direct comparison with ARA costs. Even without this adjustment, a surplus would be shown in 2008-09.

INTERNATIONAL DEVELOPMENT

United Nations System-wide Fund

The Minister of State, Department for International Development (Mr. Gareth Thomas): The new White Paper "Eliminating World Poverty: Building our Common Future" sets out the Government's vision of a more focused and effective UN that plans, manages and delivers 'as one' for the world's most vulnerable people. The Government's intention is to put more of our funding through system-wide mechanisms that encourage a joined up, efficient and effective UN effort.

Today I am confirming a pledge I made at the 2008 MDG High-level Event to provide £40 million (over 2009 to 2011) through the new UN MDG "Delivering as One" fund. This new facility, developed jointly with Spain, Norway and the Netherlands, will fund UN-led development work in countries where UN agencies have agreed one programme, one budget, shared back-office services and one strong leader. Experience over recent years indicates that this approach leads to a stronger, more effective and efficient UN at country level, better able to support developing countries' national programmes to meet the MDGs. So far 12 developing countries have adopted this 'one UN' approach and others are expected to follow. UK funding will be closely linked to performance to ensure that the new fund contributes to improved efficiency and effectiveness in the UN's work.

JUSTICE

Access to Justice

The Parliamentary Under-Secretary of State for Justice (Bridget Prentice): Today we are announcing the Government's response to the Civil Justice Council's report on "Collective Actions: Improving Access to Justice through Collective Actions".

The Civil Justice Council published its report on collective actions on 12 December 2008. The report proposed that a general legal right for representative bodies to bring collective actions should be created, and that this should be possible either in respect of an identified group of claimants or on behalf of an entire class, that is, for both named and unnamed claimants. Whether to allow a particular collective action to proceed, and whether on an identified group or class basis, would be a matter left to judicial discretion.

The Council's recommendation included:

Increasing the types of representative bodies that can bring claims.

Making the judiciary the gatekeeper of the procedure.

Permitting claims to be brought on an opt-out basis where it is in the best interests of justice.

Changing the law to permit the award of aggregate damages.

The Government are grateful to the Civil Justice Council for carrying out this review, and welcome the report and its analysis, identifying where further work

or reforms are needed and setting out the case for change. The report has been carefully considered and the Government have concluded that collective actions would be best taken forward on a sector by sector basis. We do not believe that the creation of a generic right to collective action would be appropriate.

There are a number of reasons why we have reached these conclusions. A generic right would introduce the possibility of collective actions for any and all types of civil claim in every sector of society and the economy. It would be very difficult to assess impacts across the entire economy and if the overall benefit was positive that might fail to highlight individual areas where the impact might be adverse.

In addition there may be substantive law issues relating to damages. The potential for a shortfall or surplus cuts across the compensatory principle underpinning (most) civil damages and the appropriate approach may vary according to the type of claim involved and in particular the type of representative body bringing the action.

Nevertheless, collective actions are potentially a useful way to manage mass legal claims in a number of areas where a large number of people are likely to have related grievances. However, there may be strong arguments both for and against the introduction of collective action in any particular sector and the Government do not think it would make sense to impose a one size fits all policy across the whole economy.

Each sector will be responsible for deciding whether to introduce a right of action and for developing the required legislation, where there is evidence of need and following an assessment of economic and other impacts. For example, if the consumer sector, having considered alternative approaches and taken account of stakeholder views and economic impacts into account, decided that collective court actions offered a way forward then they would be able to ask Parliament to give representative bodies the right to bring actions on behalf of consumers.

The Government will work to develop a framework document which will in essence consist of a "toolkit" for legislators. It will identify the key features that legislation granting new rights of action will need to contain. In conjunction with this the Ministry of Justice will develop rules of court. These will be designed to interface with new rights of action and will be sufficiently flexible to deal with any different approaches taken by sectors in respect of such issues as authorisation of bodies, allocation of damages and whether claims are to be brought on an opt-in or an opt-out basis.

Subject to any sector-specific exceptions, the rules will also include provisions for mandatory use of alternative dispute procedures, certification, security for costs, case management and fairness hearings.

Copies of the Government response have been placed in the Libraries of both Houses and it is available on the Ministry of Justice website at: www.justice.gov.uk. The Civil Justice Council's report is available on the Civil Justice Council website at: www.civiljusticecouncil.gov.uk.

Constitutional Reform and Governance Bill

The Secretary of State for Justice and Lord Chancellor (Mr. Jack Straw): The Government have today published the Constitutional Reform and Governance Bill. The Bill includes the following reforms, to:

The Civil Service

Place the Civil Service and Civil Service Commissioners on a statutory footing, and enshrine the Civil Service's core values in statute.

Treaties

Enshrine in statute the procedure for pre-ratification scrutiny of treaties by Parliament, and give legal effect to a vote against ratification.

House of Lords

Phase out the hereditary principle in the House of Lords, by ending by-elections for hereditary peers; provide for the disqualification from the House of Lords of peers convicted of a serious crime or subject to a bankruptcy restrictions order; enable the House of Lords to expel or suspend its Members in certain circumstances; and provide for peers to resign and disclaim their peerages.

Demonstrations around Parliament

Repeal sections 132 to 138 of the Serious Organised Crime and Police Act 2005, removing the requirement to give notice of demonstrations around Parliament, as well as the offence of holding a demonstration without the authorisation of the Metropolitan Police Commissioner. The Bill will instead enable the police to be given proportionate, alternative powers to maintain access to Parliament.

Human Rights—"Somerville"

Reconcile the time limit for human rights claims under the Northern Ireland Act 1988 and the Government of Wales Act 2006 with that in the Human Rights Act 1998. Due to the interface between this Bill and parallel provision for Scotland in an Act of the Scottish Parliament which has yet to receive Royal Assent, the same provision for Scotland will be introduced by amendment at the appropriate time.

Judicial Appointments

Remove the Prime Minister from the process of making appointments to the new Supreme Court (this complements non-legislative measures ending his involvement in the appointment of other Members of the senior judiciary of England and Wales); and remove the provision enabling the Judicial Appointments Commission to assume responsibility for magistrates' appointments.

National Audit Office

Provide a modern governance arrangement for the National Audit Office, and change the tenure of the Comptroller and Auditor General.

Transparency in accounting for NDPBs

Align the spending mechanisms of non-departmental public bodies with the existing budgetary treatment.

The Bill follows the proposals in the Governance of Britain Green Paper of July 2007 (CM 7170) and the publication of a draft Bill (published in March 2008, Cm 7342-11).

The issues covered in the draft Bill were the subject of examination by three Select Committees:

The Joint Committee on the Draft Constitutional Renewal Bill (report of 31 July 2008, HL Paper 166-1, HC Paper 551-1);

The Justice Committee (report on the Draft Constitutional Renewal Bill (provisions relating to the Attorney General), HC 698); and

The Public Administration Select Committee (report on Constitutional Renewal: Draft Bill and White Paper, HC 499).

The Government are very grateful indeed for the work of these Committees, and are publishing, today, their response to these reports.

On 3 July 2007, my right hon. Friend the Prime Minister made a major statement on the case for constitutional reform. Alongside this, more detail was given in the governance of Britain Green Paper. A number of subsequent separate consultation papers were published, including on the role of the Attorney-General (CM 7192), judicial appointments (CM 7210), war powers and treaties (CM7239) and protest around Parliament (CM 7235). The draft Constitutional Renewal Bill was published on 25 March 2008 (CM 73423-2) and a Joint Committee of both Houses set up to consider the draft Bill.

The Government have taken full account of the responses to the consultation and the reports of the Select Committees in finalising the proposals in the Bill.

A fundamental aim of the governance of Britain agenda has been to reduce the power of the executive, including by ending the use of relevant royal prerogative powers, and to enhance the role of Parliament. The provisions in respect of the civil service and treaties mark a major move in that direction. The Government have already announced that it would ensure that the Commons will have a pivotal position in determining whether the United Kingdom goes to war, by means of a war powers resolution. Drafts of this have already been published and will go before Parliament in the autumn.

House of Lords

Detailed work on the reform of the Lords had been undertaken in parallel with the governance of Britain agenda. A White Paper was published last July (2008, CM) building on the decisions of the Commons in February 2007 in favour of an 80 per cent. or 100 per cent. elected House of Lords. No proposals in respect of the Lords were therefore included in the draft Constitutional Renewal Bill.

However, in view of recent events and increased interest in the Lords' reform agenda, the Government have decided to include in the Bill reforms to:

a) end the hereditary peers by-elections, thus phasing out the hereditary principle, and

b) provide for the resignation of peers and powers for their expulsion, suspension and disqualification in certain circumstances.

The Government are fully committed to comprehensive reform of the Lords, based on four principles, all of which were endorsed by the cross-party group (see White Paper, An Elected Second Chamber, July 2008, Cm 7438):

The primacy of the House of Commons, enshrined in the Parliament Acts, and in rules and convention;

Independence of Members, supported by their serving a single, non-renewable term of three normal-length Parliaments, and, as set out originally in the 2007 White Paper (The House of Lords: Reform, Cm 7027), by a system of election which prevents a single party gaining an overall majority;

Direct election, such that the second chamber has a democratic mandate underpinning its revising role, but one that is never as a whole more up to date than that of the Commons; and

Sensible transitional arrangements in respect of existing peers.

There remain outstanding questions, which the Government will seek to answer in final proposals after the summer, with draft legislation for pre-legislative scrutiny as soon as possible. The two key issues are the electoral system and the size of the elected element (80 per cent. or 100 per cent.). The Government are giving careful and active consideration to resolving these questions in such a way as to make best use of a transitional period.

Attorney-General

The Draft Constitutional Renewal Bill contained provisions in respect of the office of Attorney-General, following the governance of Britain Green Paper, which set out the Government's commitment to enhancing public confidence and trust in the office, and the Government said that they would listen to the views of all those with an interest. A consultation paper was subsequently published on 25 July 2007. Of all the matters covered in the draft Bill, this has been the subject of most extensive comment, with bespoke reports from the Justice Committee and the Select Committee on the Constitution and extensive treatment—including minority views, with support from across all three main political parties—from the Joint Committee on the draft Bill.

Those reports disclosed a wide range of views on the direction that reform of the office might take. For example, the Justice Committee favoured separating the Attorney's legal and political functions; a majority of the Joint Committee disagreed; and the House of Lords Select Committee on the Constitution noted that 'there are a number of different ways in which the post of Attorney might evolve', providing an overview of the different options and arguments.

In the event, the significant, necessary reforms to the role of Attorney-General are being achieved without the need for legislation. For example, the Attorney has reached a new settlement with the Directors of Public Prosecutions, the Serious Fraud Office and Revenue and Customs Prosecutions to improve relationships, guarantee prosecutorial independence while ensuring an appropriate degree of accountability and to improve transparency about the relationship, as reflected in the new protocol setting out the respective responsibilities of the Attorney and the Directors. This builds on the Prime Minister's statement in July 2007, that the Attorney-General has herself decided, except if the law or national security requires it, not to make key prosecution decisions in individual criminal cases. Furthermore, the new protocol makes it clear that the Attorney General will not be consulted in any case which concerns an MP or peer or where there is a personal or professional conflict of interest, other than where her decision is required by law. This protocol will be published by the Attorney very shortly. Furthermore, the Attorney-General now only attends Cabinet when matters affecting her responsibilities are on the agenda.

Given that it has been possible to make these reforms to the office of Attorney-General without legislation, the Government have concluded that it is not necessary to include legislative changes in respect of the Attorney-General.

Parole Board

The Parliamentary Under-Secretary of State for Justice (Bridget Prentice): Since its creation in 1968, the role of the Parole Board has changed significantly, from an advisory body to a court-like decision-making body.

It has evolved in light of legislative changes, court judgments and changing caseloads, but its functions, status and resources have not been systematically considered in light of these changes.

I am today therefore announcing a consultation on options for the future of the Parole Board. The consultation period will last from 20 July 2009 until 20 November 2009.

Copies of the consultation paper have been placed in the Libraries of both Houses, the Vote Office and the Printed Paper Office. They are also available at: www.justice.gov.uk. The Ministry's website also gives details of how to respond to the consultation exercise.

Family Legal Aid

The Parliamentary Under-Secretary of State for Justice (Bridget Prentice): My noble Friend the Parliamentary Under-Secretary of State, Lord Bach, has made the following written ministerial statement:

The Government are committed to funding legal aid for family cases, and currently dedicate £582 million each year to family legal aid. In real terms, in the last seven years expenditure on family representation has increased by 25 per cent. while the number of people helped has dropped by 11 per cent. For this reason, we have been working to re-design the system to get the best value for the tax payer and to ensure that our priority of protecting and helping vulnerable children is met.

On 17 December 2008, *Official Report*, column 120WS, I announced a consultation paper, "Family Legal Aid Funding from 2010", published by the Ministry of Justice (MoJ) and the Legal Services Commission (LSC) which set out proposals for legal aid payments for family work to apply from 2010. The consultation closed on 3 April 2009, following an extension of the original closing date of 18 March, which was granted following requests from representative bodies.

The consultation paper focused on two new payment schemes:

The Private Law Representation Scheme, which will bring all private family work (excluding advocacy) within a standard fee regime.

The Family Advocacy scheme, which creates a single graduated fee scheme covering payments to both solicitor advocates and barristers for public and private family law cases.

There is a significant overlap between what solicitors and barristers do, and this consultation proposed that barrister and solicitor advocates would receive the same fees for the same advocacy work and most respondents agreed with this principle.

I remain convinced that it is right to proceed with a harmonised family advocacy scheme and intend to do so.

Since the formal consultation ended, the Legal Services Commission has had a substantial amount of constructive engagement with stakeholders. They have provided a considerable amount of detailed advice on how to improve the structure of both the advocacy and representation schemes—primarily to recognise complexity in cases.

Our original proposals have been substantially revised to reflect many of their suggestions. This has required a considerable amount of reworking of the assumptions that underpin the modelling of the fee schemes. I have concluded that in order to ensure that those models are as accurate as possible, further analysis is required before we publish the final fee schemes.

My officials and the Legal Service Commission will be working on the fee schemes over the summer. They will be finalised and announced in time for the September bid round for new civil contracts in April 2010.

Legal Aid Reform

The Parliamentary Under-Secretary of State for Justice (Bridget Prentice): My noble Friend the Parliamentary Under-Secretary of State for Justice, Lord Bach, has made the following written ministerial statement:

The Legal Services Commission (LSC) is publishing today a response to its consultation, published in March 2009, on best value tendering (BVT) of criminal defence services. The consultation set out plans to pilot BVT in Greater Manchester and Avon and Somerset and, subject to the outcome of the pilot tender process, to roll-out BVT more widely during 2010-12.

The consultation was clear that the introduction of BVT would bring significant change to the way in which criminal defence services in the police station and magistrates' court are currently funded. However, BVT offers the potential to secure the long-term sustainability of criminal defence work by enabling legal aid providers to offer their services at a sustainable price that reflects the costs of provision in their local area. The proposals have been designed to secure best value for taxpayers' money and provide opportunities for practitioners to undertake more work where they have the capacity to do so.

The LSC intends to go ahead with the BVT pilot as planned, with the tender process beginning in October 2009. However, the LSC has listened carefully to concerns raised by those responding to the consultation and has been persuaded that there is a strong case for delaying the wider implementation of BVT until at least 2013 to enable a full evaluation of the impact in the two pilot areas.

The consultation response also details the final BVT model to be implemented in the pilot areas including the adjustments that have been made as a result of the consultation. In particular, the LSC intends to implement a more flexible, localised approach to maximum market share in response to concerns raised by respondents. It also intends to allow firms to undertake a small amount of police station work outside the area in which they have won a contract so that they can continue relationships with established clients.

Copies of "Best Value Tendering for CDS Contracts 2010: A Response to Consultation" will be placed in the Libraries of both Houses, the Vote Office and the Printed Paper Office. The document can be downloaded from the consultation section of the LSC's website at: www.legalservices.gov.uk.

NORTHERN IRELAND

Boundary Commission for Northern Ireland

The Secretary of State for Northern Ireland (Mr. Shaun Woodward): I have today placed a copy of the Boundary Commission's annual report for the period 2008-2009 in the Libraries of both Houses. Copies are also available on the Boundary Commission website at: www.boundarycommission.org.uk.

OLYMPICS

Government Olympic Executive Quarterly Economic Report

The Minister for the Olympics, (Tessa Jowell): I am publishing today the Government Olympic Executive's quarterly economic report, "London 2012 Olympic and

Paralympic Games Quarterly Economic Report July 2009". This report explains the latest budget position as at 30 June 2009, and outlines some of the many wider economic benefits to the UK.

The Olympic project remains on time and within budget. The overall £9.325 billion public sector funding package for the London 2012 games remains unchanged and the anticipated final cost of the Olympic Delivery Authority's (ODA) programme is the same as it was at the end of March 2009 at £7.234 billion.

On the eve of our three years to go celebrations, the ODA continue to make good progress on the Olympic park, recently announcing that they had hit all of their ten milestones. Good progress is being made on all of the principal venues and on 16 July the ODA announced that the outer shell roof structure of the Olympic stadium had been completed just 14 months after construction started.

The report also confirms that the London 2012 games are providing business and employment opportunities around the UK in challenging times. There are now over 4,000 workers on site. Of these, 10 per cent. were previously unemployed. To date £3.5 billion worth of contracts have been directly awarded by the ODA, 98 per cent. of these to UK companies.

I would like to commend this report to the members of both Houses and thank them for their continued interest and support of the London 2012 games.

Copies of the quarterly economic report July 2009 are available at www.culture.gov.uk and will be deposited in the Libraries of both Houses.

WORK AND PENSIONS

Workers Memorial Day (Consultation)

The Secretary of State for Work and Pensions (Yvette Cooper): On 27 July my Department will publish a Command Paper on workers memorial day.

Discretionary Social Fund

The Parliamentary Under-Secretary of State for Work and Pensions (Helen Goodman): The Secretary of State's changes to the discretionary social fund, which took effect in the south-west region from 27 April 2009 and the east midlands region from 8 June 2009, will be partially extended to Glasgow from 27 July 2009.

The changes introduce a requirement for most customers to be interviewed at a local Jobcentre Plus office when they make a third or subsequent application for a crisis loan to cover living expenses.

During such an interview customers will be provided with a leaflet that contains details of local and national organisations that can provide money management advice. The leaflet has been placed in the Libraries of both Houses of Parliament and copies are also available in the Vote Office.

Written Ministerial Statements

Tuesday 21 July 2009

BUSINESS, INNOVATION AND SKILLS

Learning and Skills Council for England

The Minister for Further Education, Skills, Apprenticeships and Consumer Affairs (Kevin Brennan): I would inform the House that the Learning and Skills Council for England has today published its annual report and accounts for the period to 31 March 2009. Copies will be placed in the Libraries of both Houses.

TREASURY

Banking Act 2009

The Exchequer Secretary to the Treasury (Sarah McCarthy-Fry): The Government are today publishing two consultation documents on implementation of aspects of the Banking Act 2009, as part of their programme to protect depositors and maintain financial stability.

The Banking Act established a permanent special resolution regime (SRR) to provide the authorities with the tools to deal with banks and building societies that fail. Many of the detailed provisions are set out in statutory instruments, and the Government have committed to consulting on a number of these. The consultation documents that have been published today are:

Consultation on the Building Societies (Insolvency and Special Administration) Order 2009 and related insolvency rules, and on financial assistance to building societies; and

Consultation on the FSMA 2000 (Contribution to Costs of Special Resolution Regime) Regulations 2009.

Some of the secondary legislation included in these two documents has already been made on an urgent basis to enable the effective resolution of the Dunfermline Building Society. For these statutory instruments, the Government will consider whether to bring forward amending instruments in the light of consultation responses. The other instruments will be revised as appropriate in the light of consultation responses before being made.

The first document, "Consultation on the Building Societies (Insolvency and Special Administration) Order 2009 and related insolvency rules, and on financial assistance to building societies", sets out detailed proposals for supporting building societies and protecting their customers in the event of failure.

The first part of the consultation concerns applying the bank insolvency procedure and the bank administration procedure to building societies UK-wide. The bank insolvency procedure is designed to ensure that in the event of a bank failure depositors eligible for compensation under the Financial Services Compensation Scheme (FSCS) receive their payments quickly, or have their accounts transferred to another institution, and that the affairs of the failed institution are wound up in the interests of creditors as a whole. The bank administration procedure is designed to support a partial transfer, which is an important tool available to the authorities under the SRR to enable them to split up a failing bank by transferring part of its property to a commercial purchaser or a Bank of England-controlled bridge bank. Applying these procedures to building societies will ensure that building societies, their members and creditors are treated in the appropriate way corresponding to the treatment of banks, their depositors and other creditors in the event of insolvency or administration.

The second aspect of the consultation deals with the provision of financial assistance to building societies. Section 9B of the Building Societies Act prohibits building societies from creating floating charges on the whole or part of their undertaking or property. This may make it difficult for societies to offer appropriate security to the Bank of England, or any other provider of necessary financial assistance. An interim measure, made under the Banking (Special Provisions) Act 2008, enables societies to grant floating charges to the Bank of England in connection with the provision of financial assistance. The Government are now consulting on legislation to replace this interim measure and on a further measure that would make it easier for building societies to convert financial assistance given in the form of Treasury bills or other securities into cash.

The second document is entitled "Consultation on the FSMA 2000 (Contribution to Costs of Special Resolution Regime) Regulations 2009". A principle of the SRR is that the FSCS should contribute to the costs of the operation of the SRR. This contribution is capped at the amount of compensation the FSCS would have paid, less the recoveries it would have made if the institution were in default and the FSCS were engaged in the normal way under FSMA. The regulations were made on 29 March 2009 in order to enable the Treasury to require the FSCS to make payments in connection with the resolution of the Dunfermline Building Society. The consultation document seeks views on the regulations.

Debt Relief (Poor Countries)

The Economic Secretary to the Treasury (Ian Pearson): The Government remain determined to lead global efforts to tackle poverty in the world's poorest countries. As part of that, they are fully committed to delivering on their international debt relief commitments to ensure the poorest countries are not faced with an unsustainable debt burden.

To support these efforts, I am today publishing a consultation on legislation designed to tackle creditor non-participation in the "Heavily Indebted Poor Countries Initiative". By opting out of international debt relief efforts, and pursuing the full value of claims through the courts, this minority of private creditors can negate the benefits of debt relief. This is at the expense of poor countries and British taxpayers. The proposed legislation would limit the scope for creditors to recover their debts above a set level, unless the courts consider it just and equitable for them to do otherwise.

Copies of the consultation have been deposited in the Libraries of both Houses.

Anti-Avoidance: Capital Allowances

The Financial Secretary to the Treasury (Mr. Stephen Timms): The Government are taking action today to counter tax avoidance schemes involving capital allowances on plant or machinery. Legislation will be introduced in the 2010 Finance Bill, to prevent tax avoidance through the transfer of an entitlement to benefit from capital allowances on plant or machinery, used for the purpose of a trade, where the tax written down value of the plant or machinery exceeds its balance sheet value ("latent capital allowances").

The proposed legislation will apply where there is a change of ownership of a company as part of arrangements, one of the main purposes of which, is to transfer to the purchasing group an entitlement to benefit from the latent capital allowances available to the company which is purchased.

The proposed legislation will also apply where there is a change in ownership or profit-shares of a consortium company, or partnership involving companies, as part of arrangements where one of the main purposes is to transfer the entitlement to benefit from the latent capital allowances. Draft legislation, which will take effect from today, 21 July 2009, will be published as soon as practicable.

A technical note explaining the material that will be contained in Finance Bill 2010 will be published on HMRC's website today.

Copies of today's HMRC technical note have been deposited in the Libraries of both Houses and are accessible on the HMRC website at: http://www.hmrc.gov.uk.

Equitable Life

The Chief Secretary to the Treasury (Mr. Liam Byrne): I can today provide an update to the House on the continuing progress of Sir John Chadwick's work in relation to Equitable Life.

On 16 June 2009, Sir John Chadwick issued a document that set out his proposed approach and issues to be addressed, alongside announcing his formal appointment of Towers Perrin as actuarial advisers and establishing a website, through which interested parties can keep informed of his work as it progresses and make representations to his Office.

The document intended to give interested parties an opportunity to comment on Sir John's proposed approach and Sir John requested that comments be returned in written form to his Office by 17 July 2009. I am pleased therefore to inform the House that Sir John has received a range of representations on his proposals, including from Equitable Life and an Equitable Life members group, a range of policyholders, and the Government. Sir John is in talks with these interested parties and he is now reviewing all representations with a view to identifying the next stages of his work.

Running concurrently with this work I can also inform the House that Towers Perrin, the appointed actuaries to Sir John, have already begun to thoroughly review and analyse the many hundreds of thousands of extensive policyholder records that have been provided by Equitable Life.

Sir John intends to publish a further document in August. This interim report will contain a definitive statement of his approach for determining relative losses and a definitive list of the specific issues he will address.

COMMUNITIES AND LOCAL GOVERNMENT

Local Democratic Renewal

The Secretary of State for Communities and Local Government (Mr. John Denham): I am today announcing a consultation on local democratic renewal. This follows the commitment set out in "Building Britain's Future" to explore ways of increasing both the powers and the accountability of councils and city regions. Local democratic renewal forms a major part of the Government's proposals for constitutional reform, alongside other strands for debate including reforming the House of Lords; considering a written constitution; reviewing the electoral system; and increasing public engagement in politics.

The founding principle of local government is that citizens have the right to influence the decisions that affect their lives and their communities. A key way in which local citizens are able to exercise that right is their ability to elect a strong local council which can lead and shape their area. That is why the role of councillors and councils, with their unique democratic mandate, is critical to making sure that local services are responsive to the needs of their local communities. Citizens have a right to have their voices heard, and to expect those delivering services to care what they think.

Citizens rightly expect that councils should be the centre of local decision making, and the one place that they can go in order to influence and challenge what local services are doing. In order to do this, councils must be fully equipped to act on behalf of local residents, with the powers to scrutinise and shape local public services, and respond to local need.

There is a large and untapped pool of people who would like more say in what happens in their area, and it is right that both central and local government do more to give them greater direct control over the decisions that affect their lives and their community. But we must also recognise that in today's time-poor society, citizens have only limited time to give.

There are other imperatives driving the need for stronger local government. First, it is to increase democratic accountability, since councils, uniquely among local services, have a direct democratic mandate from residents. Secondly, it is a way of promoting greater value for money. Local government has already saved £4.5 billion through efficiency measures since 2004. By giving them greater powers to oversee and co-ordinate all the money coming into their area, they will better be able to drive change and improvement, cutting out duplication and waste. Thirdly, councils have a vital role to play in promoting economic development. They are best placed to bring together partners from across their area to support residents and prepare for future prosperity. And finally, delivering personalised services. As the drive continues to deliver personalised services and enforceable entitlements it will become ever more important to ensure that local services are delivered flexibly and in response to local needs.

Recent reform has gone some way to giving councils the powers they need to play this stronger role. The three year financial settlement means that councils have much greater certainty to plan ahead. They have powers to promote the economic, social, and environmental wellbeing of their area. And they have powers of scrutiny to challenge and hold to account some of those who provide public services and serve their local communities.

This consultation sets out proposals to radically reform and strengthen local government so that it is even more able to take on a new role in serving residents by strengthening public service delivery.

It contains proposals to:

Put local authorities at the centre of local decision making. Our aspiration is that they should be the one place where citizens, through their councillors, can hold local services to account. This would mean that when citizens go to vote, they are electing someone who can act on their behalf in relation to every aspect of public spending in their area. We propose to achieve this by enhancing local authorities' power to scrutinise other bodies, and extending the range of bodies that these powers can be applied to. This builds on the concept of the total place initiative, which gives councils a unique role in scrutinising all the money that comes into their area.

Strengthen local government's ability to act in the local interest. We ask whether councils have the powers that they need to respond effectively to local challenges, or whether there are barriers which prevent them using the powers they already have. This will be essential to enable local authorities to deliver the minimum entitlements set out in Building Britain's Future. We also set out our response to the recent LAML judgement: proposing to introduce a specific power enabling councils to engage in mutual insurance and exploring what other arrangements councils may want to engage in but which may fall beyond the existing power to promote well being. We also ask whether more could be done to further reduce the burden of inspection and clarify when and where central Government should intervene in local government.

Strengthen local authorities' ability to tackle climate change. We propose to give councils more direct responsibility for fighting climate change, perhaps through introducing local carbon budgets.

Support sub-regional working. We set out a range of options to make sure that the greater powers being devolved to city-regions and other sub-regional partnerships are matched by greater transparency and accountability for local residents.

Achieve a clearer relationship between central and local government. We set out the principles in which central and local government broadly operate and ask whether these should be more formally articulated, in order to give citizens greater clarity and certainty about our respective roles and functions. We also explore the possibilities for overseeing these more formal arrangements—potentially through an ombudsman or a joint select committee, subject to the outcomes of the consultation and the views of Parliament.

The consultation seeks views on these proposals and will run from 21 July until 2 October 2009. Copies of the consultation document have been placed in the Libraries of both Houses.

Reform of Council Housing Finance

The Minister for Housing (John Healey): On 30 June I announced my intention to publish a consultation document on reform of council housing finance before the summer recess. I said that this would contain proposals to dismantle the housing revenue account subsidy system and replace it with a devolved system of responsibility and funding which would devolve control from central to local government and increase local responsibility and accountability.

I am publishing the consultation document "Reform of Council Housing Finance" today. I am placing copies of this in the Library of the House. The document can also be downloaded from the consultations section of my Department's website at: www.communities.gov.uk and I am seeking responses by 27 October 2009.

A fully self-financing locally devolved system cannot be implemented in a single step, but I want to move as rapidly as possible to put these reforms in place. I will work with all those with an interest in improving council housing to deliver this major devolution of responsibility and accountability.

Business Growth Incentives Scheme

The Minister for Regional Economic Development and Co-ordination (Ms Rosie Winterton): I am today announcing the publication of the Government's response to our public consultation on "Reforming the Local Authority Business Growth Incentives Scheme", which sets out that we will distribute a total of £100 million to local authorities in 2009-10 and 2010-11.

The Government launched the consultation on 25 August 2008 and invited comments to help refine their thinking before a new scheme was introduced for 2009-10 and 2010-11. The consultation closed on 20 November 2008.

Given the broad support the Government's proposals have received, the revised scheme will largely be as proposed in the consultation, although with two significant changes made in response to the representations we received.

(a) Instead of the mapping of local authorities into 28 sub-regions plus London as originally proposed for the purposes of the scheme, we have decided to recognise 55 smaller sub-regions including London. We believe this will go a long way towards reflecting local views about the economic relationships that actually exist;

(b) Instead of the proposed split of rewards between district councils and county councils in two tier areas (which would have favoured the upper tier), we have decided to divide rewards equally between them.

The decision on sub-regional mapping follows further consultation, in February 2009, further to which we invited all local authorities, including those that did not respond to the consultation, to enter into discussions with nearby authorities in an effort to reach a local consensus about the sub-regional mapping they wished the Government to consider.

In the consultation responses, the balance of opinion was that we should publish a provisional list of sub-regions for comment first rather than proceed directly to publish a final list, which we have done at annex A of our consultation response.

Here we are also setting out the proposed allocation of the £50 million available in 2009-10.

A period of two weeks will now be available to authorities to make any final representations on both the provisional list of sub-regions and on the provisional allocations for 2009-10, before those allocations are made.

The Government's response to the consultation, along with the provisional list of sub-regions and provisional allocations for 2009-10, is available on the Communities and Local Government website at: http://www.communities.gov.uk/localgovernment/localgovernmentfinance/labgi/labgischeme2/

Copies of these documents are available in the Libraries of both Houses.

Stoke-on-Trent Council

The Minister for Regional Economic Development and Co-ordination (Ms Rosie Winterton): On the 8 May my right hon. Friend the Member for Wentworth (John Healey), the then Minister for Local Government, announced to the House that, as part of a programme of action to help the people of Stoke-on-Trent restore to the city good city governance, the Government were minded to make an Order under section 86 of the Local Government Act 2000 specifying a scheme of whole council elections from 2011. He also announced that to enable the focus of all to be on this 2011 new start, and while an electoral review is being undertaken, the Government were minded to include in the Order provision to cancel the 2010 elections for the city council. He explained that before taking final decisions there would be a short 'soundings' period until the 18 June to provide an opportunity for interested parties to make representations to us.

That soundings period is now complete and I am today announcing that, having regard to the representations we have received, we have decided to go ahead with a scheme of whole council elections for Stoke-on-Trent city council from 2011. We intend to lay the necessary Order before Parliament as soon as practicable.

We have, however, concluded that there is not a sufficiently strong case for cancelling the 2010 elections for the city council, and hence the Order will not include provision to cancel these elections.

We reached these conclusions having regard to the 11 representations we received during the soundings period. There was broad support for whole council elections, but a number of concerns were raised about cancelling the 2010 elections to the city council, including from the Electoral Commission which considered that on the available evidence, a clear case for cancelling the elections had not been made.

In his 8 May announcement my right hon. Friend also indicated that he was asking the Electoral Commission to undertake an electoral review of Stoke-on-Trent which would consider the size of the council and the warding arrangements for the City. The Electoral Commission has now directed the Boundary Committee to undertake this review, which we understand will begin shortly.

We are confident that these measures to reform the electoral arrangements of Stoke-on-Trent will help provide for the people of Stoke-on-Trent the opportunity they need to achieve that well governed city, with high quality public services, successful economic regeneration, and improved quality of life, which they deserve.

Departmental Hospitality

The Parliamentary Under-Secretary of State for Communities and Local Government (Mr. Shahid Malik): I am today publishing a list of receptions hosted by Ministers at the Department for Communities and Local Government in 2008-09.

The total cost of these receptions was £23,500.

Date	*Host*	*Event*	*Venue*	*Number of Attendees*

Tackling Race Inequalities Fund

The Secretary of State for Communities and Local Government (Mr. John Denham): In February, the Government announced proposals to support third sector organisations through the Tackling Race Inequalities Fund. Today, I am pleased to announce to the House that 27 national and regional organisations will receive grants totalling £8.8 million over two years.

The third sector organisations are:

1990 Trust
Age UK (Age Concern and Help the Aged)
Association for Real Change (ARC)
Black Environment Network
Black Training and Enterprise Group (BTEG)
Business in the Community (Race for Opportunity)
Clinks
Council for Ethnic Minority Communities, Northamptonshire (Limited)
Exell3 Limited
Friends, Families and Travellers
Humber All Nations Alliance
MENTER (Minority Ethnic Network Eastern Region)
Network for Black Professionals
North of England Refugee Service
Olmec
Operation Black Vote
PATH Yorkshire
Race Equality Foundation
Race on the Agenda (ROTA)
Runnymede Trust
Show Racism the Red Card
Stephen Lawrence Charitable Trust
The Afiya Trust
The Innerlink Foundation
The Monitoring Group
The Rural Media Company
Workers' Educational Association (WEA)

Funding is subject to agreeing detailed work programmes and monitoring and reporting arrangements. Organisations will be expected to show how they make effective use of the financial assistance to deliver real impact.

The fund will support a range of organisations working to tackle race inequalities and promote equality of opportunity for people of all ethnic groups. It will enable organisations to contribute to policy making.

DEFENCE

MOD Annual Report and Accounts

The Secretary of State for Defence (Mr. Bob Ainsworth): I am pleased to announce that I am today publishing the Ministry of Defence's annual report and accounts 2008-09. It combines the Department's annual performance report and departmental resource accounts in a single document that provides a comprehensive overview of the MOD's financial and non-financial performance for the year, including the Departments contribution towards public service agreements and departmental strategic objective targets. Copies have been placed in the Library of the House. It is also available online from the Department's website at: www.mod.uk/DefenceInternet/DefenceFor/Researchers/.

This last year has been a challenging one for defence. Operational tempos remained high, with operations in Afghanistan and Iraq continuing, although now in Iraq we have seen the end of our combat role and the return of the majority of our personnel.

In those theatres and others, British forces have made, and continue to make, an enormous contribution to international security. Recent sad events have highlighted the commitment of all those involved, not just the men and women of the armed forces and the civilians who support them, but also those family members who remain at home and provide vital support to those who serve their country. The success of defence is dependent on them—they continue to do an exceptional job—and the Government remain committed to providing the support that they need and rightly deserve.

Armed Forces Pay Review Body

The Secretary of State for Defence (Mr. Bob Ainsworth): I am pleased to announce that I have appointed Ms Judy McKnight as a member of the Armed Forces Pay Review Body, for a three year term of office commencing on 1 September 2009. This appointment has been conducted in accordance with the guidance of the Office of the Commissioner for Public Appointments.

BVT (Terms of Business Agreement)

The Parliamentary Under-Secretary of State for Defence (Mr. Quentin Davies): The Defence Industrial Strategy (DIS) highlighted the need for restructuring in the maritime industry to reduce overcapacity in the UK warship build and support industry after the Queen Elizabeth class aircraft carriers (QE Class) have been built, and to ensure in the future a sustainable world-class industrial base. It is paramount that we balance supply and demand in the future, primarily to sustain key maritime skills and jobs that will, in turn, ensure our key industrial capabilities (KICs) are preserved.

As part of the response to the DIS, the shipbuilding and support activities of BAE Systems and VT Shipbuilding came together last year to form a new single company—BVT Surface Fleet Limited (BVT). The company, which is integral to the QE Class and Type 45 programmes, was established as MOD's strategic complex warship design and build partner, and to work collaboratively with Babcock on surface warship support.

Our joint aim is to deliver, in time, a world-class capability for the UK and global markets. In order to achieve this, we have been negotiating a long-term business agreement with BVT. Known as the terms of business agreement (TOBA), I am pleased to announce to the House today that we have now concluded these discussions and signed a 15 year commercial deal with the company. Worth around £230 million per year to BVT to sustain KICs required for essential operational sovereignty, the TOBA gives an unambiguous commitment to the company for a certain minimum level of workload in the areas of warship design and build work, and elements of warship support covering all surface warships. In return, BVT has committed to the transformation of the sector into a sustainable entity for the future. This will generate major financial benefits to the Ministry of Defence (MOD) and the Royal Navy worth a minimum of £350 million over the duration of the contract, with an aim to double this figure over the duration of the contract.

The MOD expects this new commercial agreement, which is being progressed within the strategic framework of the maritime change programme (MCP), to provide a strong foundation for BVT to compete for non-MOD work, both in the UK and throughout the world. It will be for BVT to retain the capacity it deems necessary to meet the demands made of it and to transform the sector.

This new arrangement is also intended to provide MOD with the confidence that BVT can deliver significant improvements in efficiency and performance needed to underpin the future naval shipbuilding programme, while providing the company with the certainty to enable investment and long term planning. Finally, it demonstrates that we continue to make best use of UK taxpayers' money in seeking opportunities for transformation and the delivery of efficiencies.

Defence Advisory Forum

The Secretary of State for Defence (Mr. Bob Ainsworth): In my written statement to the House on 7 July I announced plans for a Defence Green Paper to be published early in 2010, as part of a process that will enable a strategic defence review early in the next Parliament.

I intend to appoint a defence advisory forum of independent experts to support the preparation of the Green Paper. The forum will be established for a limited period, covering the preparation and publication of the Green Paper.

The defence advisory forum will be affiliated to the Prime Minister's national security forum and will work in concert with it.

I will inform the House of the membership of the forum once this has been confirmed.

FOREIGN AND COMMONWEALTH OFFICE

British Council

The Parliamentary Under-Secretary of State for Foreign and Commonwealth Affairs (Chris Bryant): Copies of the British Council's annual report and accounts for the 2008-2009 financial year have been placed in the Library of the House.

During the period the British Council received £200,963,000 grant-in-aid from the Foreign and Commonwealth Office.

HEALTH

Correction to Written Answers

The Minister of State, Department of Health (Phil Hope): I regret that the following written answers contained information which was incorrect:

the written answer given to Ann Coffey on 23 June 2009;

the written answer given to Mr. Stephen O'Brien on 21 April 2009, *Official Report*, column 587W;

the written answer given to Mr. Don Foster on 5 November 2008, *Official Report*, column 521W;

the written answer given to Sir Nicholas Winterton on 4 November 2008, *Official Report*, column 378W;

the written answer given to Mr. Mike Penning in 22 October 2008, *Official Report*, column 270W;

the written answer given to Sir Peter Soulsby on 15 July 2008, *Official Report*, column 359W;

the written answer given to Mr. Mark Hoban on 3 April 2008, *Official Report*, column 288 W;

the written answer given to Mr. David Simpson on 25 February 2008, *Official, Report* column 1196W;

the written answer given to Mr. Norman Lamb on 5 February 2008, *Official Report*, column 1071W;

the written answer given to Sandra Gidley on 25 January 2008, *Official Report*, column 17MC;

the written answer given to Mr. Mark Simmonds on 3 December 2007, *Official Report*, column 1002W;

the written answer given to Sandra Gidley on 19 July 2007, *Official Report*, column 641W;

the written answer given to Mrs. Theresa May on 25 June 2007, *Official Report*, column 23 8W;

the written answer given to Mr. Lansley on 4 June 2007, *Official Report*, column 302W;

the written answer given to Mr. Mike Penning on 17 April 2007, *Official Report*, column 576W;

the written answer given to Mr. Lansley on 15 January 2007, *Official Report*, column 908W;

the written answer given to Mr. Swire on 6 December 2006, *Official Report*, column 568W;

the written answer given to Mr. Lansley on 8 November 2006, *Official Report*, column 1871W;

the written answer given to Mr. Hayes on 19 July 2006, *Official Report*, column 507W;

the written answer given to Justine Greening on 5 June 2006, *Official Report*, column 382W;

the written answer given to Mr. David T.C. Davies on 28 March 2006, *Official Report*, column 947W;

the written answer given to Mr. Weir on 28 March 2006, *Official Report*, column 947W;

the written answer given to Anne Milton on 20 March 2006, *Official Report*, column 138W;

the written answer given to Mr. Andrew Turner on 7 July 2005, *Official Report*, column 570W;

the written answer given to Mr. Burstow on 7 July 2005, *Official Report*, column 576W;

These answers all related to Department of Health advertising spend between 2004-05 and 2008-09. The incorrect information was a result of some non-advertising expenditure being included within the figures. There was also evidence that provisional figures rather than the final discounted totals had been used. In order to prevent this issue from recurring, improvements have been made in record keeping and processes in answering PQs on advertising spend.

The following table shows the correct departmental advertising expenditure over the last five completed financial years. A further breakdown of these figures has been placed in the Library.

Department of Health Advertising Spend in £ millions[1] (2004-05 - 2008-09)

Campaign	*2004-05*	*2005-06*	*2006-07*	*2007-08*	*2008-09[2]*

TOTALS (£ millions)	32.73	27.47	23.92	26.24	56.43

[1]Advertising spend is defined as covering only media spend (inclusive of agency commissions but excluding production costs, COI commission and VAT). All figures are rounded to the nearest £10,000. These figures do not include DH recruitment/classified advertising costs and ad hoc spend under £10,000. These figures may include occasional minor spend through COI by NHS organisations, to supplement national campaigns in their area. While this expenditure has been excluded as far as possible so that this chart reflects central DH spend, it would incur disproportionate cost to validate that every item of NHS expenditure has been removed.
[2]Provisional figures

Mid Staffordshire NHS Foundation Trust

The Secretary of State for Health (Andy Burnham): On 17 March 2009, the Healthcare Commission, the independent health regulator, published a damning report into the failings of emergency care provided by Mid Staffordshire NHS Foundation Trust. Since then, the Government and the local NHS have had two priorities: first to ensure services at the trust improve as soon as possible to the level that patients and the public have a right to expect; and second to ensure the right lessons are learned both locally and nationally, so the events of Mid Staffordshire cannot be repeated.

The previous Secretary of State commissioned two rapid reviews from Professor Sir George Alberti the National Clinical Director for Emergency Care, on the present state of emergency services at the trust and Dr. David Colin-Thomé on how the broader system was not able to detect the failings sooner. All their recommendations were accepted and the reports were published, alongside the Government's response on 30 April 2009.

The new independent regulator for health and social care, the Care Quality Commission, has today published their three month stock-take report. In short, it concludes there has been some progress, but there is much more to do. Its analysis echoes the concerns that Ministers have heard from members of the local community.

Having listened carefully to these concerns, I have resolved that further action is necessary. Today I am announcing a package of measures to lead to a step change in improving local services and to help heal the wounds of the past, so the trust and their local community can face the future together with renewed confidence and optimism.

I have worked closely with Monitor, the Foundation Trust regulator, to ensure a new leadership team with the skills and experience to transform services at the hospital is appointed as a matter of urgency. I am pleased to welcome Sir Stephen Moss, the new Chair, and Antony Sumara, the new chief executive, to their roles. Monitor and the Care Quality Commission will continue to oversee their progress, with a further review due in October.

Fundamental to the trust's success will be listening to patients, to ensure their voice counts and that they are an integral part of shaping and influencing the future of the hospital. That is why I have asked Dr. David Colin-Thomé to support and advise South Staffordshire Primary Care Trust to play their full part alongside the trust in reaching out and involving people locally.

It is clear from listening to those affected that rebuilding local confidence and restoring trust will take time. The full impact of what happened at Mid Staffordshire is revealed through the personal stories of those affected and it is clear to me that these experiences need to be properly aired if the local NHS is to learn and, in time, move on.

I have therefore decided, following detailed discussions between my Department and the new management of the trust, that it would be appropriate to set up a further independent inquiry. I do not believe it is necessary for this to be a full public inquiry, given the thoroughness of the reports already produced by the Healthcare Commission, Professor Sir George Alberti and David Colin-Thomé, as well as the availability of an independent clinical review to those who have concerns about the care they or a loved one received at the hospital.

This inquiry's focus will be on ensuring that patients or their families have an opportunity to raise their concerns. It is important, given the events of the past, for those who depend upon the care provided by the trust to be confident that they have been listened to and that any further lessons not already identified by the thorough inquiries that have already occurred be learned.

Robert Francis QC has agreed to chair the inquiry. The terms of reference (a full copy has been placed in the Library) will be:

to investigate any individual case relating to the care provided by Mid Staffordshire NHS Foundation Trust between 2005 and 2008 that, in its opinion, causes concern and to the extent that it considers appropriate;

in the light of such investigation, to consider whether any additional lessons are to be learned beyond those identified by the inquiries conducted by the Healthcare Commission, Professor Alberti and Dr Colin-Thomé; and, if so,

to consider what additional action is necessary for the new hospital management to ensure the Trust is delivering a sustainably good service to its local population; and

to prepare and deliver to the Secretary of State a report of its findings.

It is important that this is swift so as not to unduly distract the new management and staff at the hospital from improving services for patients today. The inquiry is therefore planned to report to me by the end of 2009. Should the chair of the inquiry consider that it is necessary to have the power to require witnesses to attend, as Secretary of State I have the power to convert the inquiry into an inquiry under the Inquiries Act 2005.

There are also national lessons to learn from the investigation at Mid Staffordshire. Dr. David Colin-Thomé's report contained some important recommendations on this.

Many of these are already being addressed, for example through the implementation of Lord Darzi's vision High Quality Care for All and our World Class Commissioning programme. In addition, the new National Quality Board will report to me by the end of the year with recommendations on how best to ensure any early signs that something is going wrong in the NHS are picked up immediately, that the right organisation are alerted, and action is taken quickly.

The Mid Staffordshire case has also illustrated that the current regulatory framework for foundation trusts (FTs) needs updating. The FT model is a key plank of reform in the NHS, successfully rewarding high performance with greater freedom and autonomy. The policy is based on the premise that FT status is a privilege to be earned and valued—an incentive to drive up quality, innovation, productivity and local accountability. However, it is clear that in some exceptional circumstances, where an FT has failed to live up to this standard and public confidence has been damaged, it may be right for the privileges of FT status to be withdrawn.

This is why I intend to consult on legislative proposals to enable Monitor to "de-authorise" a foundation trust, subject to agreement by the Secretary of State, where it is clear an organisation has forfeited its right to the freedoms and flexibilities afforded by FT status. It is also important that where there is public concern, the Secretary of State is able to express his views and request that Monitor considers intervention in a particular way. I will also consult on legislative proposals so that, in these circumstances, if Monitor disagrees with the approach suggested by Ministers, they should be obliged to justify this position publicly. The Government will issue a consultation on both these issues in the next few days.

By focusing on the powers and actions of Monitor to intervene, I believe we achieve the appropriate balance between ensuring fundamental failure is addressed and maintaining the significant benefits of the FT model, which gives FTs greater freedom in return for high quality.

All of us who care passionately about the health service were appalled by the events at Mid Staffordshire, which are in stark contrast to the dedication and professionalism shown by NHS staff every day up and down the country. The measures I have announced today, building on those already taken, demonstrate the collective commitment in all parts of the system, to ensure there will be no repeat.

HOME DEPARTMENT

Olympics (Safety and Security)

The Secretary of State for the Home Department (Alan Johnson): I would like to inform the House that on the 20 July 2009 Ministers agreed that material on our planning for the safety and security of the London 2012 Olympic and Paralympic games should be made available to the public. In doing so we have to ensure that the public are kept fully informed of progress and of practical impacts, but also that sensitive material is not inappropriately placed in the public domain. In my statement to the House on 26 February I announced that the Government had agreed a strategy and developing concept of operations (CONOPS) for Olympic security planning, and promised that appropriate material would be put before Parliament and the public as soon as practical.

This follows a period of hard work by all stakeholders, including the police and emergency services, to ensure that a comprehensive and effective programme can be delivered on time and within appropriate boundaries for additional spending.

The Home Office, in consultation with the main stakeholders in Olympic security planning, is publishing two documents today:

An unclassified version of our safety and security strategy. This sets out our planning work in detail and in the context of our wider counter-terrorism strategy; and

A shorter leaflet setting out the main points of our security planning of wider interest to the public.

Copies of these publications are being placed in the Vote Office and the Libraries of both Houses.

Newspapers (Surveillance Methods/Update)

The Minister for Policing, Crime and Counter-Terrorism (Mr. David Hanson): In my written statement on 14 July 2009 I gave an undertaking that the House would be updated on any substantive development.

On 16 July 2009, the Director of Public Prosecutions made a statement following the conclusion of the review he announced on 9 July 2009. He had concluded that in the light of the findings, set out in the statement, it would not be appropriate to re-open the cases against Goodman and Mulcaire, or to re-visit the decisions taken in the course of investigating and prosecuting them. A copy of the full statement by the Director of Public Prosecutions will be made available in the Library of the House.

The Metropolitan Police Service has also written in response to detailed questions about the police investigation to both the Home Affairs and Culture, Media and Sport Select Committees.

In my statement on 14 July, I also reported that the Independent Police Complaints Commission had received a complaint from the hon. Member for Eastleigh (Chris Huhne) about police action in this case and was considering whether there were any issues raised that might fall within its remit. That complaint has been passed to the Metropolitan Police Service for their consideration with the hon. Member's consent.

The MPS will now make a decision as to whether the complaint is recordable under the Police Reform Act 2002 and whether they should refer any matter to the IPCC. The MPS will update the hon. Member for Eastleigh directly.

Stephen Lawrence Inquiry Report: 10 Years On

The Secretary of State for the Home Department (Alan Johnson): On 24 February the Home Office and Ministry of Justice, supported by the National Policing Improvement Agency (NPIA), held a conference to mark the 10th anniversary of the publication of the Stephen Lawrence Inquiry Report. The conference, with an opening speech by Doreen Lawrence, OBE, reviewed the progress that has been made over the last 10 years, shared good practice, and helped to set out a focus for future work.

On or around this anniversary three reports were published: "Stephen Lawrence Review" an independent commentary by Dr. Richard Stone; "Police and racism: what has been achieved 10 years after the Stephen Lawrence Inquiry report" by the EHRC and "The Stephen Lawrence Inquiry 10 Years On" an analysis of the literature by the Runnymede Trust.

I am today publishing a report of the 10 anniversary conference and a Government response to Dr. Stone's, the EHRC and Runnymede Trust reports.

The conference and the reports acknowledge that the police service and other criminal justice agencies have made progress since the publication of the Stephen Lawrence Inquiry Report, in 1999. There have been many positive changes in relation to race equality and the fact that the overwhelming majority of the recommendations of the Stephen Lawrence Inquiry Report have been addressed is a measure of this. However, we must, as the conference proceedings and the reports also demonstrate, not become complacent. Much has been achieved, but there is still considerably more to do. That is why we have published an action plan with the conference report, setting out areas for particular focus, building on existing work, as we move forward from the anniversary. This work includes: increasing the recruitment, retention and progression of minority ethnic police officers and police staff; reducing unjustified disproportionality in the use of stop and search powers; and continuing to improve the reporting and recording of racist incidents.

Copies of the conference report and the Government response to Dr. Stone's, the EHRC and the Runnymede Trust reports will be placed in the Library of the House later today.

Kingsnorth Report

The Minister for Policing, Crime and Counter-Terrorism (Mr. David Hanson): There has been considerable parliamentary and public interest in the policing of the Kingsnorth Climate Camp which took place between 3 and 9 August 2008. The Government have given repeated assurances that the lessons from the policing of Kingsnorth Climate Camp would be identified and shared across the police service and more widely with Parliament.

The National Policing Improvement Agency and the Association of Chief Police Officers have overseen a review that has been commissioned by the Chief Constable of Kent into the policing of the "Climate Camp for Change" at Kingsnorth. Given my previous commitments on Kingsnorth, I am accordingly notifying the House that the report will be published on the Kent Police website on Wednesday 22 July, and that I will place a copy of the report in the House Library on that date.

The Government are committed to working with the police and public to ensure the report's recommendations are acted upon in order to facilitate peaceful protest whilst upholding and protecting the rights of wider communities and other individuals. The findings from the report will be picked up by Her Majesty's Inspectorate of Constabulary in its wider review of policing and protest which is due to report in the autumn.

Alcohol Disorder Zones

The Parliamentary Under-Secretary of State for the Home Department (Mr. Alan Campbell): This statement follows the undertaking by the Government on 13 May 2008 to report back to Parliament one year after the commencement of the Alcohol Disorder Zone (ADZ) legislation.

ADZs came into force on 5 June 2008 and are designed to help local authorities and the police tackle high levels of alcohol related nuisance, crime and disorder that cannot be directly attributable to individual licensed premises. Guidance published by the Home Office both at the time of commencement and in December 2008 emphasised the point that ADZs should be used only in tightly defined areas and as a last resort, when all other tools and measures have failed to solve the problem.

Our discussions with local authorities have confirmed that no local authority has as yet implemented an ADZ. The principal reason highlighted as to why this is was that local authorities and enforcement agencies already have a wide range of powers and tools to tackle many of the problems that they encounter and no local authority felt that it had as yet reached the point of "last resort".

However, the Government remain concerned about the effect that a number of licensed premises acting irresponsibly together may have on an area. For that reason, in addition to this legislation we have introduced new provisions in the Policing and Crime Bill, currently before Parliament, that will allow a licensing authority to take action against two or more premises if they are contributing to alcohol related crime or disorder.

Animal Procedures

The Parliamentary Under-Secretary of State for the Home Department (Mr. Alan Campbell): I wish to respond to the publication entitled: "Statistics of Scientific Procedures on Living Animals—Great Britain—2008", which was laid before Parliament today.

This annual statistical report meets the requirement in the Animals (Scientific Procedures) Act 1986 to inform Parliament about the licensed use of animals for experimental or other scientific purposes. It also forms the basis for meeting periodic reporting requirements at EU level. A hard copy is available and supplementary information with additional tables is also available on the Home Office website.

The statistical report shows an overall increase over the previous year of 14 per cent. in the number of procedures undertaken. The total number of procedures was just under 3.7 million, an increase of 454,000 over the previous year. There has now been an increase for the seventh year running and is the highest total since 1992. A number of factors, such as investment in research and development and strategic funding priorities, determine the overall level of scientific procedures.

Non-toxicological procedures accounted for about 87 per cent. of the procedures carried out. These included fundamental research in human and veterinary medicine to improve understanding of disease mechanisms and possible therapeutic options, and development of vaccines.

Most toxicological studies (79 per cent.) were for the safety and efficacy testing of new drugs and medicines and the majority of all toxicological procedures (71 per cent.) were performed in order to carry out legal or statutory requirements.

In line with previous years, those procedures that used mice or rats (or other rodents) were the great majority at 77 per cent. Those using fish amounted to 17 per cent. and those using birds, 3 per cent. The total of all procedures using dogs, cats, horses and non-human primates, that is those species offered special protection by the Act, was less than 1 per cent. of the total.

Genetically normal animals were used in about 1.9 million regulated procedures, (up 160,000 (9 per cent.) on 2007 figures, largely as a result of the use offish and mice in fundamental biological research and applied studies. Genetically modified animals and those with a harmful genetic mutation (nearly all were rodents, fish or amphibians) were used in 1.76 million regulated procedures representing, 48 per cent. of all procedures for 2008 (compared with 46 per cent in 2007 and 16 per cent. in 1995).

Advances in the opportunities to use genetically altered animals for new areas of biomedical research means that the trend of increased production and use of genetically altered animals has continued. It allows a more precise and often less invasive study of physiological studies and disease mechanisms that was previously possible. Most of the animals concerned are mice, which appear and live as normal. Many are only used in breeding programmes. In fact nearly two fifths of all procedures in 2008 were accounted for by breeding procedures (38 per cent.) for the production of harmful mutant and genetically modified animals. Mice (89 per cent.) and fish (9 per cent.) were used in most of these procedures.

I should point out in relation to the statistics, that the Home Office, as regulatory authority under the 1986 Act, does have an effect on the overall amount of animal research and testing that takes place. This is done by ensuring, as part of our licensing function, that the provisions of the Act are rigorously applied in each programme of work and that only work that is scientifically justified, minimises the numbers of animals used and animal suffering that may be caused, is authorised.

The statistical report and supplementary information can be found at:
http://scienceandresearch.homeoffice.gov.uk/animal-research/publications-and-reference/statistics/

Animal Procedures (Annual Report 2008)

The Parliamentary Under-Secretary of State for the Home Department (Mr. Alan Campbell): I am pleased to inform the House that I have today placed in the Library the annual report of the Home Office Animals Scientific Procedures Division and Inspectorate for the year 2008.

Publication of the report honours a commitment given by the Government in response to a recommendation of the House of Lords Select Committee on Animals in Scientific Procedures in July 2002 that more information should be made available about the implementation of the Animals (Scientific Procedures) Act 1986.

Earlier annual reports have focused on the work of the Animals Scientific Procedures Inspectorate. The report for 2008 has been expanded to include the work of the Animals Scientific Procedures Division licensing and policy teams.

As in previous years, the report explains what Home Office Inspectors do and how they do it and the inspectorate's role in assessing and advising on applications for personal and project licences and certificates of designation under the Animals (Scientific Procedures) Act 1986.

The report also explains the work we have been doing to deliver our better regulation programme and new IT systems to improve our regulation of animal experimentation and provides background to the publication by the European Commission of a proposal for a new European Directive to replace Directive 86/609/EEC on which the 1986 Act is based.

I commend the report to the House.

Citizenship Consultation

The Minister for Borders and Immigration (Mr. Phil Woolas): Following the successful passage of the Borders, Citizenship and Immigration Bill through both Houses of Parliament, Royal Assent is expected to be granted today. The Bill includes changes to the routes used to achieve citizenship. In consideration of this the UK Border Agency will be publishing, during the summer recess, a consultation paper entitled "Earning the right to stay: A new points test for citizenship". This document will seek views on proposals to build on the system of earned citizenship set out in the Bill and fulfils one of the commitments made by the Prime Minister in the document "Building Britain's Future".

Copies will be made available in the Libraries of both Houses, as well as on the UKBA website.

Youth Crime Action Plan - One Year On

The Secretary of State for the Home Department (Alan Johnson): In conjunction with the Secretary of State for Justice and Secretary of State for Children, Schools and Families, I will tomorrow publish the "Youth Crime Action Plan - One Year On".

This document sets out progress made since we published the "Youth Crime Action Plan" in 2008, and describes the action we will take over the next year.

Copies of the document will be placed in the Library of the House.

JUSTICE

England and Wales Prison Service Pay Review Body Report

The Secretary of State for Justice and Lord Chancellor (Mr. Jack Straw): The eighth report of the Prison Service Pay Review Body (PSPRB) (Cm 7678) has been laid before Parliament today. The report makes recommendations on the pay of governing governors and other operational managers, prison officers and related support grades in public sector prisons in England and Wales in 2009. Copies of the report are available at: http://www.official-documents.gov.uk/document/cm76/7678/7678.pdf

I am grateful to the Chairman and members of the Review Body for their hard work in producing these recommendations.

The recommendations include:

A 1.8 per cent. consolidated increase to the maximum of the OSG, Prison Officer and Principal Officer pay scales and the Senior Officer single pay point; and

A 1.5 per cent. consolidated increase to the maximum of Manager and Senior Manager pay ranges and compression of pay ranges.

This award is consistent with the Government's policy on public sector pay that awards should

reflect the individual labour market position of work forces, particularly their recruitment and retention position;

be consistent with the Bank of England inflation target;

be affordable for Departments; and

represent value for money for taxpayers.

I am pleased to confirm that the PSPRB's recommendations will be implemented in full, effective from 1 April 2009. The cost of the award will be met from within the delegated budget allocation for the National Offender Management Service.

ATTORNEY-GENERAL

Reform of the Role of the Attorney-General

The Solicitor-General (Vera Baird): My noble Friend the Attorney-General has made the following written ministerial statement:

Following a thorough review of the role of the Attorney-General, the Government have reached the settled conclusion that the Attorney should retain the roles of chief legal adviser to the Government, Criminal Justice Minister with responsibility for superintending the main prosecuting authorities (the Crown Prosecution Service, the Serious Fraud Office and the Revenue and Customs Prosecutions Office), and independent guardian of the public interest.

However, significant reforms to the role have been, and are being, implemented. In particular, measures have been taken to clarify the Attorney-General's role of superintending the prosecuting authorities and the nature of the Attorney's involvement in prosecution decisions. A new protocol published today has been agreed with the three prosecuting departments which sets out how the relationship is to work in practice, to safeguard the independence of the prosecutors while enabling the Attorney to be properly accountable to Parliament and the public. Copies of the protocol have been placed in the Libraries of both Houses.

In addition a strategic board has been set up, chaired by the Attorney and including the prosecuting departments, to provide strategic direction to the Law Officers' Departments and secure greater efficiency and effectiveness. The strategic board agreed at the beginning of April 2009 that the Crown Prosecution Service should be merged with the Revenue and Customs Prosecutions Office to create a strengthened prosecution service.

It is intended to amend the Attorney-General's oath of office to include a specific reference to respect for the rule of law. Furthermore, the Attorney-General now only attends Cabinet when matters affecting her responsibilities are on the agenda.

These significant reforms, which have not required legislation, give effect to the aims of the review of the role, which were to enhance public confidence and respect for the rule of law and to provide greater clarity and transparency.

Attorney-General's Office Annual Review

The Solicitor-General (Vera Baird): My noble Friend the Attorney-General has made the following written ministerial statement:

I am today publishing an Annual Review of the Attorney-General's Office, to help improve understanding of the role of the Attorney-General and the collective workings of the Law Officers' Departments, to increase public confidence in the criminal justice system, protect the public interest and uphold the rule of law.

As in past years, the Law Officers' Departments have also each separately produced their individual Annual Reports and Accounts.

Copies of the Annual Review have been placed in the Libraries of both Houses.

PRIME MINISTER

Cabinet Committees

The Prime Minister (Mr. Gordon Brown): Today I am publishing an updated Cabinet Committee list. This provides details of new Cabinet Committees which have been created since the last publication. I have placed a copy of the new list in the Libraries of both Houses. The details are also available on the Cabinet Office website.

TRANSPORT

UK Domestic Drivers Hours Rules

The Parliamentary Under-Secretary of State for Transport (Paul Clark): I am today publishing a consultation document seeking views on the current UK domestic drivers' hours rules. These rules prescribe driving and duty limits along with some break and rest requirements for drivers of goods and passenger vehicles that are not covered by the EU drivers' hours rules. This includes most drivers of vans, and bus drivers on routes no more than 50 kilometre in length.

The domestic rules were introduced to support road safety by ensuring that drivers of commercial vehicles had sufficient breaks and rest.

The Department is now reviewing these rules and as part of this process needs to better understand the views and experiences of those that are affected by them in their working lives. Although the consultation document proposes no legislative changes at this stage, the responses received during the consultation will inform the initial consideration of potential policy options, which will then be the subject of further consultation.

Copies of the consultation will be made available in the Libraries of both Houses.

WORK AND PENSIONS

UN Convention on the Rights of Persons with Disabilities (Optional Protocol)

The Parliamentary Under-Secretary of State for Work and Pensions (Jonathan Shaw): The period during which the explanatory memorandum and Command Paper for ratification of the optional protocol to the UN convention on the rights of persons with disabilities were laid before Parliament has now ended. I am therefore pleased to announce that the Government will now be taking the final steps to formally ratify the optional protocol as soon as we are able.

As my previous statements of 3 and 27 February, and 22 June, indicated, the optional protocol builds on the convention by establishing two additional procedures in respect of implementation and monitoring of the convention itself.

The first is a procedural avenue that, subject to meeting conditions set out in the optional protocol, will enable individuals or groups of individuals to bring petitions to the UN Committee that has been established to monitor implementation of the disability convention if they believe that their rights under that convention have been breached. The second is an inquiry procedure giving the Committee authority to undertake inquiries when reliable information is received into allegations of grave or systematic violations of convention rights.

Having ratified the convention itself on 8 June, and in now moving to the final step in ratifying the optional protocol, the Government have demonstrated the importance that it places on respect for the human rights of disabled people.

Written Ministerial Statements

The following statements were received between Tuesday 1 September and Wednesday 9 September 2009

TREASURY

ECOFIN

The Chancellor of the Exchequer (Mr. Alistair Darling): An informal lunch of the Economic and Financial Affairs Council was held in Brussels on 2 September 2009.

The informal focused primarily on preparing a European position ahead of the meeting of G20 Finance Ministers and Central Bank Governors held on 4 and 5 September in London, including on IMF issues, executive remuneration and climate change financing. Ministers agreed to increase European resources available to the IMF, building on commitments made in the European Council conclusions in June. They also agreed that the G20 should move forward on reforms of financial regulation, stabilising the world economy, preparing for future growth and establishing sound compensation practices in the financial sector, building on the commitments made at the London summit.

The Economic Secretary to the Treasury represented the UK.

G20 Finance Ministers Meeting

The Chancellor of the Exchequer (Mr. Alistair Darling): The G20 Finance Ministers and Central Bank Governors meeting was held in London on 4 and 5 September. Discussions at the meeting focused on the global economy, financial regulation and international financial institutional reform. Copies of the Communiqué and supporting annexes have been placed in the Libraries of both Houses.

DEFENCE

Armed Forces' Pay Review Body

The Secretary of State for Defence (Mr. Bob Ainsworth): The Prime Minister has been pleased to appoint Professor Alasdair Smith as the next chair of the Armed Forces' Pay Review Body, for a three-year term of office commencing on 1 March 2010. This appointment has been conducted in accordance with the guidance of the Office of the Commissioner for Public Appointments.

Typhoon Tranche 3 Contract

The Parliamentary Under-Secretary of State for Defence (Mr. Quentin Davies): I am delighted to announce that the contracts for the third tranche of Typhoon multi-role combat aircraft have now been signed by the general manager of the NATO Eurofighter and Tornado Management Agency (NETMA), on behalf of the four partner nations, and by the chief executives of the programme's co-ordinating industrial consortia, Eurofighter GmbH and Eurojet Turbo GmbH. This is excellent news for defence and for United Kingdom industry and represents the achievement of another major milestone for the Typhoon programme.

This order builds upon the success of the in-service tranche 1 fleet and the ongoing introduction into service of tranche 2 Typhoon aircraft, which are demonstrating outstanding performance in operation with the RAF. The tranche 3 contracts will provide an additional 16 aircraft as part of a UK order for 40 aircraft, 24 of which are replacements for aircraft being diverted to satisfy exports to Saudi Arabia. The contracts form part of what is thought to be the largest defence order ever placed in Europe, reflecting the successful and continuing co-operation between the four partner nations and European industry. The contracts have also enabled partner nations to programme significant through-life support savings. For the UK this is of the order of £900 million.

Typhoon is an outstandingly capable, state-of-the-art aircraft which is providing a significant enhancement to our defence capability. The aircraft has the flexibility to contribute across a wide range of operations delivering air superiority and precision ground attack capabilities. Additionally, the aircraft will be built with sufficient capability to allow the embodiment of upgrades to systems now and in the future. The tranche 3 aircraft will be an essential part of our defence capability to be retained until at least the 2030s as they will be delivered with sufficient incremental development capacity to be able to exploit nascent systems and weapons technology to ensure that we can continue to meet emerging defence challenges.

The order will provide major benefits for industry across the United Kingdom and is expected to sustain upwards of 15,000 direct jobs with defence manufacturers, many in high-technology positions, and a significant number in supporting industries across the economy more widely.

Typhoon is a world-class combat aircraft and this investment will provide our defence force with the capability to respond to the challenges and threats we face now and in the future.

Atomic Weapons Establishment

The Parliamentary Under-Secretary of State for Defence (Mr. Quentin Davies): Further to the announcement on 19 July 2005, *Official Report*, column 59WS, volume 436, regarding the continuing programme of investment at the Atomic Weapons Establishment (AWE), I should like to provide an update to the House. This is the first opportunity I have had to announce that, on 30 July 2009, agreement was reached between the Department and AWE Management Ltd (AWEML) to extend the priced period of work, within the existing overarching 25-year contract, with AWEML to 31 March 2013.

This work, providing important investment in skills and facilities at AWE, is valued at an average of around £1 billion per annum and represents the next period of priced work within the nuclear warhead capability sustainment programme. It is fully in accordance with the December 2006 White Paper "The Future of the United Kingdom's Nuclear Deterrent" (Cm 6994).

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Marine Management Organisation

The Minister of State, Department for Environment, Food and Rural Affairs (Jim Fitzpatrick): Part one of the Marine and Coastal Access Bill, currently before Parliament, seeks to establish a new executive non-departmental public body called the Marine Management Organisation (MMO). The MMO will subsume DEFRA's Marine and Fisheries Agency, take on further functions from the Department of Energy and Climate Change and the Department for Transport and deliver a range of new functions, as set out in the Bill.

In order to become a legal entity, the MMO must have a chair and a board of at least five and no more than eight ordinary members. However, if recruitment of the board is delayed until after Royal Assent, it is highly likely that vesting of the MMO would have to be delayed. We have therefore sought HM Treasury approval for a Contingencies Fund advance to begin the recruitment of the board of the MMO prior to Royal Assent. Should Royal Assent not be granted, the recruitment process will be terminated.

Parliamentary approval for additional resources of £50,000 for this new service will be sought in a supplementary estimate for DEFRA. Pending that approval, urgent expenditure, estimated at £50,000, is being met by a repayable cash advance from the Contingencies Fund.

FOREIGN AND COMMONWEALTH OFFICE

Sino-British Joint Declaration on Hong Kong

The Secretary of State for Foreign and Commonwealth Affairs (David Miliband): The latest report on the implementation of the Sino-British Joint Declaration on Hong Kong was published today. Copies have been placed in the Library of the House. A copy of the report is also available on the Foreign and Commonwealth Office website (www.fco.gov.uk). The report covers the period from 1 January to 30 June 2009. I commend the report to the House.

HOME DEPARTMENT

The National DNA Database

The Parliamentary Under-Secretary of State for the Home Department (Mr. Alan Campbell): I am pleased to announce the publication of the second annual report of the "National DNA Database Ethics Group" on 9 September 2009. The group was established on 25 July 2007 to provide Ministers with independent ethical advice on the operation and practice of the National DNA Database (NDNAD).

The annual report makes a number of recommendations around the processes involved in taking DNA samples from children and young people, the retention of samples, and public information about the use of DNA. I have asked the National Policing Improvement Agency and the National DNA Strategy Board to let me have their considered comments on the report's recommendations as soon as possible.

The report can be viewed on the website of the independent Forensic Science Regulator and I am arranging for a copy to be placed in the Library of the House.

National DNA Database Ethics Group

The Parliamentary Under-Secretary of State for the Home Department (Mr. Alan Campbell): I am pleased to announce the appointment of Mr. Christopher Hughes, OBE, as chair of the National DNA Database Ethics Group. Mr. Hughes replaces Professor Peter Hutton, who resigned in March 2009. The ethics group provides Ministers with independent ethical advice on the operation and practice of the National DNA Database (NDNAD).

JUSTICE

Commonhold (Amendment) Regulations 2009

The Parliamentary Under-Secretary of State for Justice (Bridget Prentice): On Thursday 4 September I laid before Parliament the "Commonhold (Amendment) Regulations 2009". The regulations make consequential amendments to the Commonhold Regulations 2004, arising from the final implementation of the Companies Act 2006 on 1 October 2009. The principal changes are the removal of the prescribed form of memorandum of association for commonhold associations from the Commonhold Regulations 2004 and the insertion of a revised form of articles of association.

The existing non-statutory guidance on the Commonhold Regulations 2004 will be updated to take account of the changes and copies placed in the Libraries of both Houses.

UK Supreme Court

The Minister of State, Ministry of Justice (Mr. Michael Wills): My noble Friend the Parliamentary Under-Secretary of State, Lord Bach, has made the following written ministerial statement:

I am pleased to announce today that further significant progress has been made during the summer parliamentary recess towards the establishment of the UK Supreme Court.

The newly renovated Middlesex Guildhall building was formally handed over, from the Ministry of Justice, to Jenny Rowe, chief executive of the Supreme Court, on 1 August 2009.

The "Fees Order" specifying the fees payable to the court was laid in Parliament on 4 August 2009 following a full public consultation. The civil fees payable in the Appellate Committee were last amended in 2000. The vast majority of respondents to consultation agreed that it was equitable to uprate the fees payable in the UK Supreme Court to take account of inflation over that time. In addition the fees order introduces a robust system of fee concessions to ensure that access to justice is ensured.

While respondents to consultation agreed that the fees for devolution cases should be brought into line with civil fees generally, they were concerned that to make this change in one step represented too steep an increase—we have therefore decided to implement this change in stages.

A review of the fees will be undertaken in approximately three years to take account of the actual running costs of the Supreme Court.

LEADER OF THE HOUSE

Draft Legislative Programme 2009-10

The Leader of the House of Commons (Ms Harriet Harman): On Monday 29 June, the Prime Minister announced the Government's plans for "Building Britain's Future". The consultation on the Government's Draft Legislative Programme for the 2009-10 session is a central element of those plans.

As I said in my written statement of the 29 June 2009, *Official Report*, column 4WS, this is the third year that the Government have published their legislative programme in draft for consultation in advance of the Queen's Speech. This provides an opportunity for both the public and Parliament to see how the Draft Legislative Programme forms part of the action the Government are taking to build a more prosperous, stronger and fairer Britain and to invite comments on that programme.

I would like to thank those who have already contributed to the consultation, and in doing so helped to shape the programme for the final session of this Parliament.

The consultation closes on 21 September so there is still time to contribute. Further information about the programme is available on the Office of the Leader of the House of Commons website (www.commonsleader.gov.uk). For those who wish to contribute please email: dlp@commonsleader.x.gsi.gov.uk or send responses to:

Freepost RSCA-KKCU-ELTJ

Legislation Committee Secretariat

70 Whitehall

London, SW1A 2AS.

I will publish a summary of consultation comments, and the Government's response, on Wednesday 18 November alongside the Queen's Speech which will set out the final programme.

Written Ministerial Statements

The following statements were received between Thursday 10 September and Monday 14 September 2009

TREASURY

Debt Recovery

The Financial Secretary to the Treasury (Mr. Stephen Timms): This statement, which I am also making on behalf of my right hon. Friend the Secretary of State for Work and Pensions, sets out the plans of our two Departments to work together to recover more of the debt which is owed to the taxpayer.

For some three years our two Departments have been taking forward a programme of joint working covering a range of areas where, together, we can deliver better service to our customers and better value to the taxpayer than we could if we worked separately. One such area relates to the debts that are owed to both HM Revenue and Customs (HMRC) and the Department for Work and Pensions (DWP) - often by the same individuals. Accordingly, we have been examining:

ways in which we can recover debts more cost effectively (for customers and Departments) from customers who owe money to both our Departments;

joint tracing services to locate customers with debts owing to one or both Departments for whom we have no current address; and

a simpler payment method for customers owing a debt to HMRC and who are in receipt of benefit payments from DWP.

As part of this programme of work, from the Spring of 2010 HMRC will start to trial the recovery of working tax credit and self-assessment debts through deductions from DWP benefit payments. Participation in the trial will be voluntary. The new service will be offered to people who cannot afford to settle their debts with HMRC in one go and who would prefer to pay them off through a voluntary deduction from their benefits.

To do this DWP intends to make a regulation under the Social Security (Claims and Payments) Regulations 1987 to enable DWP to collect HMRC debts. This regulation will be subject to scrutiny by the Social Security Advisory Committee, and both Departments will consult with customer representatives when designing the trial.

The trial will enable our two Departments to assess the effectiveness of collecting HMRC debts via deductions from DWP benefit payments as well as to test our customers' response to this method of payment. The trial will involve customers who are in receipt of benefit and whose tax credit overpayment or self-assessment debt is less than £1,000. It will offer customers whose tax credit award has ended or who have a self-assessment debt the option of paying back the debt via deductions from benefit payments as an alternative to current HMRC payment methods.

Both Departments will evaluate the results of the trial before deciding whether to make this a permanent payment option.

Double Taxation Agreements

The Financial Secretary to the Treasury (Mr. Stephen Timms): New Tax Information Exchange Agreements (TIEAs) were signed with Anguilla on 20 July 2009, Turks and Caicos Islands on 22 July 2009, Liechtenstein on 11 August 2009 and Gibraltar on 27 August 2009. Protocols to Double Taxation Agreements were signed with Singapore on 24 August 2009 and Switzerland on 7 September 2009.

The text of each TIEA and Protocol has been deposited in the Libraries of both Houses and made available on HM Revenue and Customs' (HMRC) website. The text of each will be scheduled to separate draft Orders in Council and laid before the House of Commons in due course.

On the same day that the TIEA with Liechtenstein was signed, HMRC also signed a memorandum of understanding (MOU) with the Government of Liechtenstein on co-operation in tax matters. The text of the MOU is available on the HMRC website.

Monetary Policy Committee

The Exchequer Secretary to the Treasury (Sarah McCarthy-Fry): A Treasury Minute on the contingent liabilities arising from the extension of the Asset Purchase Facility is being published today. Copies are available in the Library of the House.

JUSTICE

Home Detention Curfew (Reoffending Rates)

The Secretary of State for Justice and Lord Chancellor (Mr. Jack Straw): The purpose of this statement is to announce the publication of the results of an audit of home detention custody (HDC) releases from 1 April 2003 to March 2008 who were then subsequently recalled following further charges and convicted. That information is today published and is attached to this statement.

CONTEXT

Home detention curfew (HDC) came into effect on 28 January 1999. Eligible prisoners primarily serving between three months and less than four years may be released on HDC up to 135 days earlier than they would be otherwise, depending on their sentence length.

Registered sex offenders and foreign national prisoners who are liable to removal are statutorily excluded. Offenders serving sentences for certain serious violent offences, including prisoners serving sentences for terrorism legislation offences and prisoners with any history of sexual offending are presumed unsuitable unless there are exceptional circumstances.

Prisoners subject to the release arrangements of the Criminal Justice Act 2003 who are sentenced to four years or more are not statutorily ineligible for release on HDC but are presumed unsuitable.

Prisoners released on HDC are subject to an electronically monitored curfew to their home, usually for 12 hours a day. Eligible prisoners must pass a risk assessment, which includes an assessment of home circumstances carried out by the probation service, before release can be granted.

Breach of curfew conditions or breach of licence conditions, including alleged further offences or behavioural issues may result in executive recall to prison.

Previous questions in the House have asked how many offenders released on HDC have been recalled following further offences and what offences have been committed by them. We have recently undertaken a very detailed interrogation of the HDC reoffending data used previously. This has shown that we over-reported the number of offences committed by offenders on the scheme. We have taken the opportunity to revise our procedures for calculating HDC reoffending, correcting the previous errors and introducing an improved method for estimating reoffending by these offenders. Offender Management Statistical Analysis Services has assumed responsibility for collating this data in the future.

The revised annual reoffending figures for those on HDC from April 2003 to March 2008 are shown in Table 1. Table 2 shows the types of offences committed whilst on HDC.

Table 1 Rates of reoffending while on HDC 2003/04 - 2007/08, England and Wales

Number of offenders

Year	*Number of offenders on HDC*	*Number of offenders who reoffended while on HDC*	*Reoffending rate (%)*
2003-2004	20,802	1,244	6.0
2004-2005	18,587	839	4.5
2005-2006	15,443	688	4.5
2006-2007	12,636	484	3.8
2007-2008	11,316	486	4.3

Table 2 Reoffences committed while on HDC by offence category, 2003-04 – 2007-08 England and Wales[1]

Number of offences

	2003-04	*2004-05*	*2005-06*	*2006-07*	*2007-08*
Offence Category					
Violence against the person	74	47	59	46	60
Sexual Offences	3	2	6	0	1
Burglary	120	82	81	60	54
Robbery	19	19	14	19	7
Theft and handling stolen goods	519	331	282	264	206
Criminal damage	15	21	5	9	6
Drug offences	219	142	108	77	66
Fraud and forgery	103	38	35	30	12
Indictable motoring offences	18	21	9	7	6
Other indictable offences	172	96	62	35	35
Summary motoring offences	650	398	294	172	128
Summary offences excluding motoring	306	336	236	160	199
All offences	2,307	1,535	1,176	822	820

Future Release of Data

The Ministry of Justice will consult on the publication of data in respect of offenders who breach their licence conditions (including those on home detention curfew) and who are recalled. The statistical publication arising from this consultation will include data on reoffending by offenders subject to this scheme.

Methodological Note

Details of offenders starting on HDC are taken from data recorded by the Prison Service. Data on their reoffending is taken from an extract of the police national computer (PNC) held by the Ministry of Justice. Offenders recorded in the prison data who cannot be found on the PNC are excluded from the figures. Like any large-scale recording system the PNC is subject to errors with data entry and recording. The PNC is regularly updated so that further analysis at a later date will generate revised figures.

The figures relate to offenders starting on home detention curfew in each quarter. An offender is considered to have reoffended if, during their period on HDC, he or she committed an offence that was recorded on the PNC as resulting in a caution or conviction; for the offence to count the caution or conviction has to be given within nine months of the end of the quarter in which the offender started on HDC. Offences resulting in a not guilty verdict or no further action or for which no final outcome is recorded on the PNC are not counted. Breach offences and offences from outside England and Wales are excluded.

Data on HDC start and end dates are taken from data recorded by the Prison Service. Where no end date has been recorded or where the end date gives an HDC period longer than the maximum of 135 days an estimate of the length of the HDC period has been derived as follows: for offenders recorded as receiving a custodial sentence of 18 months or longer the HDC period has been set to 135 days; for sentences of less than 18 months the HDC period has been calculated as 1/4 of the sentence length.

Michael Shields

The Secretary of State for Justice and Lord Chancellor (Mr. Jack Straw): As the House will be aware, Her Majesty graciously accepted my recommendation that Michael Shields should be granted a free pardon under the Royal Prerogative of Mercy. He was released from custody on 9 September. I have placed in the Library the statement I made to the press on that day.

In July 2005 Mr Shields was convicted in Bulgaria of the attempted murder of a Bulgarian national called Martin Georgiev. Mr Georgiev suffered a brutal and unprovoked attack in the Bulgarian resort of Varna where violence flared in the early hours of 30 May 2005. Mr Shields was sentenced to 15 years, reduced to 10 on appeal. In 2006 he was returned to England to complete his sentence here. He applied for a free pardon under the Royal Prerogative of Mercy. However, it had been the long-standing practice, on an equally long-standing legal interpretation of the 1983 Convention on the Transfer of Sentenced Persons, that the "receiving state" had to respect the decision of the sentencing state, so I did not initially entertain the application.

This approach was challenged in a judicial review and on 17 December last year the Administrative Court declared that I should consider the application and said,

"the grant of a free pardon would appear to require a conclusion that, taking the Bulgarian courts' judgment for what it is and without calling in question its correctness on the material which those courts considered, fresh evidence which the Bulgarian court did not consider, taken with the material which they did consider and their judgment upon it, justifies a conclusion that Michael Shields is morally and technically innocent".

I accepted the judgment of the Court and sought straight away to ensure from Mr Shields' legal team that I had available all the evidence in this case. I appointed senior counsel to assist me and, with the agreement of the chief constable, Merseyside Police conducted further inquiries on my behalf.

On 2 July, after the most careful consideration of the evidence, I made a provisional decision to refuse Michael Shields' application for a free pardon. I did so because I was not satisfied that Mr Shields passed the test of "moral and technical innocence" that the Administrative Court expected me to apply. I made clear at the time that I would consider any further representations before I made a final decision. I also offered Mr Shields' parents the opportunity of a meeting so they could make representations to me in person.

Written representations I received over the course of the summer did not persuade me that my provisional decision of 2 July had been wrong. However, on 28 August I had a meeting with Mr Shields' parents. The meeting was also attended by their daughter, by Louise Ellman MP and by Councillor Joe Anderson of Liverpool City Council. At that meeting I was presented with significant new information that had not been presented to me before. Following further inquiries after the meeting, I determined the new information to be both truthful and credible. Once again Merseyside police assisted me. The new evidence profoundly changed my consideration of this matter and showed other, existing, evidence in a new light. What had not previously appeared credible now appeared to be so.

Taking all the evidence together I concluded that Michael Shields was in fact telling the truth when he said he was innocent of the attempted murder of Martin Georgiev. The test of moral and technical innocence had therefore been met so Mr Shields was granted the free pardon he sought and released from custody.

One issue that has emerged from this case is the appropriateness or otherwise of the Justice Secretary exercising a power that involves him in making findings of fact in cases where miscarriage of justice is alleged in cases from abroad. I am clear that it is not a suitable function for the Executive. Indeed, any role for a Secretary of State in referring alleged miscarriages of justice occurring within the jurisdiction to the appeal courts was removed by the 1995 Criminal Appeal Act, which established the Criminal Cases Review Commission. I intend looking at options, though I have yet to form any view as to how future such applications should be handled. I shall, of course, consult and in doing so I will want to hear the views of the Criminal Cases Review Commission and others with an interest.

LEADER OF THE HOUSE

Parliamentary Pensions

The Leader of the House of Commons (Ms Harriet Harman): On 25 June the House endorsed a package of changes to the Parliamentary pension scheme, backdated to 1 April 2009, consisting of:

(1) an increase in member contribution rates

(a) from 10 to 11.9 per cent. for a pension building up at an accrual rate of 1/40th of final salary for each year of service,

(b) from 6 to 7.9 per cent. for a pension building up at an accrual rate of 1/50th, and

(c) from 5.5 to 5.9 per cent. for a pension building up at an accrual rate of 1/60th.

(2) the application of the scheme's maximum pension limit of two thirds of final salary to all scheme members for future service.

The rise in member contribution rates will mean an increase in the net (after tax relief) monthly contribution made by most MPs of approximately £62. Because the increase will be backdated to 1 April, arrears will be payable when the changes are implemented by the Trustees.

This package is judged by the Government Actuary to produce savings of 2.9 per cent. of payroll. The House also called on me to bring forward further proposals which will make additional savings of 1.9 per cent. of payroll, so that the Exchequer contribution to the scheme for 2009-10 will be capped at its 2008-09 level. I plan to put proposals before the House in October. These could include a further increase in member contribution rates, an increase in pension age, changes to the benefits payable on death, or a combination of all these measures.

TRANSPORT

Correction to Written Answer

The Parliamentary Under-Secretary of State for Transport (Chris Mole): I regret to inform the House that some of the figures in the answer I gave to Parliamentary Question 285779 on 14 July 2009, *Official Report*, col. 210W, about the number and length (in miles) of those schemes on motorways in August 2009 for each Region in England were incorrect as different regional divisions within the Highways Agency had reported the figures based on different definitions. The Highways Agency has checked the figures and the corrected answer is as follows.

Region	*Total number of miles of motorway that will be subject to roadworks in August 2009*	*Approximate estimate of roadworks schemes taking place on the motorway in August 2009*
East	36	14
East Midlands	30	1
North West	276	174
South East	306	169
South West	35	15
West Midlands	218	47
Yorkshire and North East	136	65

The stated numbers of miles subject to roadworks are based on a carriageway length of motorway. Motorways generally comprise two carriageways (one in each direction) so each stated distance is the length of motorway measured in a single direction only. The figures do not include works involving only the closure of the motorway hard shoulder.

The figures above include works involving a narrowing of the existing lanes to reduce the total width of carriageway open to live traffic, thereby allowing access to adjacent sections of carriageway. This type of restriction can allow works to be carried out while maintaining the existing number of traffic lanes open to traffic, thereby helping to minimise congestion caused by the roadworks. They also include closure of a lane completely to allow works access to the carriageway.

WORK AND PENSIONS

ICL Inquiry (HSE Progress Report)

The Secretary of State for Work and Pensions (Yvette Cooper): On 16 August I announced the publication of Lord Gill's report into the causes of the tragic factory explosion at ICL Plastics Ltd in Glasgow on 11 May 2004. At the same time I asked the Chair of the HSE and its board to consider the report's findings and to report back to me on progress by the end of September, addressing both Lord Gill's criticisms of its actions since the explosion and how the report's recommendations could be taken forward. I said that I would report back to Parliament on progress in the autumn.

The HSE has now responded to me. I have placed a copy of its response in the Libraries of both Houses and it is also available on the HSE website at http://www.hse.gov.uk/gas/lpg.htm .

In the response the HSE chair acknowledges that, while primary responsibility for the tragic accident rested with the site user, there were failings within HSE which need to be addressed. The chair also reiterates the apologies that both she and the chief executive of HSE made for these failings both during and after Lord Gill's inquiry, and explains the steps that have already been taken since the accident.

HSE has worked closely with members of UKLPG, the trade association of the liquefied petroleum gas industry, to develop plans for the replacement of buried metal pipework with polyethylene pipes, which do not carry the risk of corrosion. It has been agreed that the replacement programme will include domestic sites, which goes beyond Lord Gill's recommendations. The programme, which is scheduled to be completed by 2015, will be prioritised using an established risk model to ensure that sites identified as high risk are dealt with first. In parallel with this, HSE is also preparing an inspection campaign with local authorities focusing on sites identified as high risk, and is working with the industry to review and update user guidance materials and codes of practice for suppliers and installers.

The HSE also launched a two-stage consultation to address those recommendations of the Gill report where action is not already underway. The initial stage of the consultation seeks views from interested stakeholders in the LPG industry, the wider business community, and those with an interest in health and safety, and will run until 19 November. I hope hon. Members will take the opportunity to feed their views into this.

Following completion of this initial stage, the Government will in the new year publish the full response to Lord Gill's report. This will include firm proposals for action which will form the basis of the second stage of the consultation, supported by a formal impact assessment.

Written Ministerial Statements

The following statements were received between Tuesday 15 September and Wednesday 16 September 2009

BUSINESS, INNOVATION AND SKILLS

Strategy for Sustainable Construction

The Parliamentary Under-Secretary of State for Business, Innovation and Skills (Ian Lucas): This Government remain committed to the principles of sustainable development. The Strategy for Sustainable Construction is a joint industry and Government initiative designed to promote real action on sustainable construction, and focuses upon the principles of sustainable development to which the Government as a whole have signed up.

In response to a BERR Select Committee commitment made by the Parliamentary Under-Secretary for Business, Innovation and Skills, my right hon. Friend the Member for East Ham (Mr. Timms), to publish reports on progress and hold conferences in 2009 and 2011, yesterday, the Government, jointly with industry, published the Progress Report on the Strategy for Sustainable Construction.

This Progress Report is a result of the actions of those organisations responsible as delivery bodies for the targets in the strategy a year on from its launch in June 2008.

Overall, progress has been good and encouraging at this early stage of the process. However, with some deliverables progress has been slower than envisaged in the original strategy and work is ongoing to address these. As delivery of the strategy continues, further work to build on the successes already achieved will be necessary to reach the overarching goals of the strategy.

Copies of the Progress Report will be placed in the Library of the House.

DEFENCE

Afghanistan (Battle Casualty Replacement)

The Secretary of State for Defence (Mr. Bob Ainsworth): Since deploying in April this year, 19 (Light) Brigade have been engaged in a number of high intensity operations and this has resulted in a significant number of casualties, both due to enemy action and the harsh terrain in which they operate. As a result, commanders on the ground have requested battle casualty replacements to enable them to sustain the required operational effectiveness for the remainder of their tour, and in particular throughout the election period.

Further to our announcements to Parliament on 16 December 2008, *Official Report*, column 105WS and 29 April 2009, *Official Report*, column 46WS, around 150 personnel have deployed to Afghanistan as battle casualty replacements since 27 July 2009, the majority of whom were from 3rd Battalion The Yorkshire Regiment (Duke of Wellington's).

Type 45 (Support Contract)

The Parliamentary Under-Secretary of State for Defence (Mr. Quentin Davies): The in-service support we provide to the ships and submarines of the Royal Navy is vital in ensuring that the Fleet remains one of the world's most powerful maritime forces, able to operate with sovereign independence and protect the UK's interests around the world.

This is the first opportunity I have had to announce that on 10 September 2009 we awarded a contract, worth £309 million, to BVT Surface Fleet Ltd to provide in-service support for the Royal Navy's new Type 45 Destroyers. The class of six Type 45s is one of a number of new capabilities being developed for the Royal Navy and will provide the UK's future anti-air warfare capability, as well as being capable of contributing to a wide range of other military tasks.

The contract will provide support for a period of up to seven years commencing from 1 January 2010, in preparation of HMS Daring's planned in-service date in February 2010.

This support contract uses an "availability based contracting" approach where industry are contracted to manage equipment availability to agreed targets, incentivising them to minimise the cost of support by improving equipment reliability. Type 45 is the first major warship to adopt this approach.

Separate negotiations are under way to provide an in-service support solution for the Sea Viper missile system fitted to Type 45. These are expected to conclude early in 2010.

World War One Generation

The Parliamentary Under-Secretary of State for Defence (Mr. Kevan Jones): With the death of Harry Patch on 25 July 2009, the nation lost the last known British veteran of world war one (WW1) living in the UK. This was a hugely significant milestone and one which the Government have planned for some time to mark. This service will take place at 10.45 on Wednesday 11 November 2009 in Westminster Abbey in the presence of Her Majesty the Queen and His Royal Highness the Duke of Edinburgh .

The service is to commemorate the passing of all who served. It will recognise not only the military contribution in the great war but also that of the civilian population who supported them at home. Attendance at the service will be by invitation only but we hope that a broad cross-section of the population of the United Kingdom, with links to the war, will attend. This is being organised through the Lord Lieutenants in each county. In addition,

attendees will include members of the armed forces, Government, ambassadors, high commissioners and other VIPs.

World war one had an impact upon this country which endures today, over 90 years after it ended, and I hope that this service will be a fitting occasion when the nation can stand as one as it recognises the debt that we owe and reconfirms that "we will remember" the generation that we have now lost.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Local Community Flood Protection

The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Huw Irranca-Davies): The 2007 Pitt review highlighted the risks of surface water flooding and made a number of recommendations relating to surface water issues which included giving local authorities new roles and responsibilities for local flood risk management.

On 18 August, my right hon. Friend the Secretary of State for Environment Food and Rural Affairs announced that local communities across England will benefit from £16 million funding to help them tackle surface water flooding.

£9.7 million has been awarded to 77 local authorities for areas where evidence shows that the risk and potential impact of surface water flooding could be highest. Local authorities for all other areas will also be able to bid for a share of £5 million to help them deal with known local flooding problems.

DEFRA will publish details of how local authorities can bid for the £5 million funding and the criteria on which bids will be assessed. This will be available on the DEFRA website. Innovative proposals for tackling surface water flooding, especially in rural areas, will be particularly welcomed.

An additional £1 million will be spent on making training, data and other tools available to help all local authorities manage flood risk

Further details of this announcement can be found on the DEFRA website at: http://www.defra.gov.uk/environ/fcd/policy/surfacewaterdrainage.htm.

FOREIGN AND COMMONWEALTH OFFICE

"Global Security: Afghanistan and Pakistan" (Government Response)

The Secretary of State for Foreign and Commonwealth Affairs (David Miliband): I can announce that Command Paper Cm 7702, which sets out the Government's response to the House of Commons Foreign Affairs Committee report "Global Security: Afghanistan and Pakistan" will be published on 2 October 2009.

The Government welcome the Committee's report. Afghanistan and Pakistan remain the Government's top foreign policy priorities. These issues deserve the widest possible engagement and the Committee's report adds much to the debate. The Foreign and Commonwealth Office looks forward to further discussions with Parliament and all interested parties.

HOME DEPARTMENT

Control Order Powers

The Secretary of State for the Home Department (Alan Johnson): Section 14(1) of the Prevention of Terrorism Act 2005 (the 2005 Act) requires me to report to Parliament as soon as reasonably practicable after the end of every relevant three-month period on the exercise of the control order powers during that period.

The control order regime

I would first like to report to Parliament on the future direction of the control order regime in the light of the House of Lords judgment in the case of *AF & Others*. That judgment ruled that individuals subject to control orders must be given sufficient disclosure about the case against them to enable them to give effective instructions to their legal representatives.

As the Government have made clear on numerous occasions, when dealing with suspected terrorists prosecution is—and will continue to be—our preferred approach. Where we cannot prosecute, and the individual concerned is a foreign national, we look to detain and then deport them. For those we cannot either prosecute or deport, our assessment has been that control orders are the best available disruptive tool for managing the risk they pose.

We have reviewed that assessment in the light of the House of Lords' judgment in *AF & Others*. This has included a review of the impact of the judgment on the very small number of current control order cases. This has been in addition to the regular reviews that take place of the ongoing necessity and proportionality of each control order.

So far only one control order has been revoked and not replaced by a new one as a result of the judgment. That is the order against *AF*.

As I have made clear where the disclosure required by the court cannot be made for the protection of the public interest, including our national security, we may be forced to revoke control orders even where we consider those orders to be necessary to protect the public from a risk of terrorism. In such circumstances we will take all steps necessary to protect the public. The police and security service seek to investigate and monitor the activities of those believed to pose a threat to national security.

In some cases, as in that of *AF*, I will face difficult choices as to how best to protect the public interest. I have to balance the importance of protecting the public from the risk of terrorism posed by the individual against the risk of disclosing sensitive material. Disclosing this material would reduce the Government's ability to protect the public from a risk of terrorism and in some cases could put lives at risk. In the case of *AF*, I decided that the risks posed by disclosure were too great. However these decisions can only be made on a case by case basis.

In the case of *AM*, for example, I decided that the further disclosure that was ordered by the court could be made.

My current assessment is therefore that the control order regime remains viable following the House of Lords judgment and that the national security reasons for maintaining the regime have not changed. However as further control order cases are considered by the courts during the autumn I will be keeping this assessment under review.

In addition to this ongoing review within my Department, I have asked the independent reviewer of the Prevention of Terrorism Act 2005, Lord Carlile of Berriew QC, to review the impact of the House of Lords judgment and to advise me as to whether the assessment that the regime remains viable is right. I have asked him to advise on this question in his next annual report which will be published early next year. His report will very helpfully be informed by the High Court's consideration of further control order cases over the coming months.

The operation of the control order powers in the last quarter

I would also like to report to Parliament on the operation of the control order powers over the last quarter. As stated in previous quarterly statements on control orders, the level of information provided will always be subject to slight variations based on operational advice. Control order obligations are tailored to the individual concerned and are based on the terrorism-related risk that individual poses. Each control order is kept under regular review to ensure that obligations remain necessary and proportionate. The Home Office continues to hold control order review groups (CORGs) every quarter, with representation from law enforcement and intelligence agencies, to keep the obligations in every control order under regular and formal review and to facilitate a review of appropriate exit strategies. During this reporting period, four CORGs were held in relation to the orders currently in force. In addition, further meetings were held on an ad hoc basis as specific issues arose.

During the period 11 June 2009 to 10 September 2009, five control orders have been renewed in accordance with section 2(6) of the 2005 Act. Five control orders have been revoked. Only one of these five revocations, the case of *AF*, was as a direct result of the House of Lords judgment in *AF & Others*. In this case, I considered that the disclosure required by the court could not be made for the protection of the public interest. I therefore had no alternative but to take the difficult decision to revoke the control order, even though the assessment remained that the control order was necessary to protect the public. I have made clear that we take all steps necessary to protect the public.

In three of the other four cases I revoked the orders because I considered that they were no longer necessary because the orders had successfully disrupted the individual's terrorism-related activities. In the remaining case the order was revoked because the individual is now subject to deportation proceedings.

One further control order against an individual was revoked following a court order. However in this case a new order was made and served in its place.

In total, 15 control orders are currently in force, nine of which are in respect of British citizens. Seven individuals subject to a control order live in the metropolitan police service area; the remaining individuals live in other police force areas. All of these control orders are non-derogating. No prosecutions for breaching a control order were completed during this reporting period.

During this reporting period, 125 modifications of control order obligations were made, 49 requests to modify control order obligations were refused.

A right of appeal is provided for by section 10(1) of the 2005 Act against a decision by the Secretary of State to renew a non-derogating control order or to modify an obligation imposed by a non-derogating control order without consent. One such appeal has been lodged with the High Court during this reporting period. A right of appeal is also provided for by section 10(3) of the 2005 Act against decisions by the Secretary of State to refuse a request by a controlled person to revoke their order and/or to modify any obligation under the order. Two appeals have been lodged with the High Court by controlled persons relating to refusal to modify a control order during this reporting period.

Two judgments were handed down by the High Court during this reporting period in relation to the full judicial review of a control order under section 3(10) of the 2005 Act. An interlocutory judgment was handed down in *Secretary of State for the Home Department v. AM* in closed only on 9 July 2009. The Secretary of State was ordered to make further disclosure in order to ensure compliance with article 6 (right to a fair trial) of the European Convention on Human Rights (ECHR) despite the court's acknowledgment that the disclosure ordered is contrary to the public interest. The Secretary of State decided to make the disclosure ordered in order to maintain the control order in force. A substantive judgment in the case is expected in the next reporting period.

In *Secretary of State for the Home Department v. AN*, the court ordered the Secretary of State to revoke the control order in a judgment handed down on 31 July 2009. This followed the decision of the Secretary of State to withdraw reliance on a part of the case against *AN* due to the damage that would be done to the public interest if such disclosure was made. (The court ordered disclosure of this part of the case in a closed judgment of 29 February 2008 but the effect of the court order was stayed until the hand down of the June 2009 House of Lords judgment.) The Secretary of State argued that the control order against *AN* could be maintained on the basis of the remainder of the case. However, the judge considered that the material withdrawn represented the essence of the case as it was put to the Secretary of State when the control order was originally made and that as the decision to make an order had been based on grounds the core of which could not now be relied upon, the decision must be flawed. However, the court found that the order was properly made and renewed and therefore the appropriate remedy was to order the Secretary of State to revoke the order rather than to quash it. The court indicated that the Secretary of State was free to decide whether or not to apply for permission to make a new control order on the basis of the remaining material. The Government have subsequently made such an order with the court's permission. *AN* has lodged an application for permission to appeal against the court's judgment of 31 July 2009.

Two judgments were handed down by the High Court in relation to modification appeals under section 10(1) of the 2005 Act during this reporting period. In *Secretary of State for the Home Department v. BM*, judgment was

handed down on 3 July 2009. *BM* appealed against the decision of the Secretary of State to relocate him to a different town as part of a package of obligations designed to protect the public from a risk of terrorism. The court concluded that although it would have upheld the modification on the basis of the closed material, further disclosure of the closed reasons for the relocation was necessary to comply with article 6 of the ECHR. The Secretary of State decided not to make any further disclosure owing to the damage to the public interest that this would cause. The judge therefore directed the Secretary of State to revoke the modification. In *Secretary of State for the Home Department v. BF* a closed oral judgment was handed down at the hearing on 17 June 2009. The court directed the Secretary of State to modify *BF's* control order to require him to live at the residence in which he lived before his control order was modified to require him to live in a different town on the basis that the modification was not necessary.

Two judgments were handed down by the High Court during this reporting period in relation to modification appeals under section 10(3) of the 2005 Act. In *Secretary of State for the Home Department v. AR*, handed down on 15 July 2009, the court dismissed the appeal and upheld all the obligations subject to appeal as necessary and proportionate. *AR* has lodged an application for permission to appeal against the court's judgment. In *Secretary of State for the Home Department v. AN*, an oral judgment was handed down at the hearing on 10 September 2009. On the basis of the open material the court found that the requirement on him to live outside London was not necessary and proportionate, but left it open to the Secretary of State to apply to rely on closed material in the case. The Secretary of State subsequently confirmed that he did not wish to apply for permission to rely on closed material in these proceedings.

During this reporting period two judgments were handed down by the Court of Appeal in relation to control orders. In *Secretary of State for the Home Department v. AP*, the Court of Appeal handed down judgment on 15 July 2009. It found by a majority of 2:1 that the High Court judge had erred in his decision in *AP's* case that the combination of a 16-hour curfew with an obligation requiring him to relocate to a different city breached article 5 (right to liberty) of the ECHR. In *Secretary of State for the Home Department v. GG*, the Court of Appeal handed down a unanimous judgment on 23 July 2009. It dismissed the Secretary of State's appeal against a High Court ruling that the inclusion of an obligation in *GG's* control order requiring him to submit to a search of his person within his residence was unlawful. The Court of Appeal found that section 1 (3) of the PTA cannot be read as allowing the inclusion of such an obligation.

Full judgments are available at: http://www.bailii.org/.

JUSTICE

Defamation and the Internet

The Parliamentary Under-Secretary of State for Justice (Bridget Prentice): On 16 September we are publishing a consultation paper on an issue concerning the civil law on defamation in relation to the internet.

This relates to the "multiple publication rule", under which each publication of defamatory material can form the basis of a new defamation claim, and its effects in relation to online archives. The paper considers the arguments for and against the rule and the alternatives of a single publication rule (which would allow only one claim to be brought in this jurisdiction against particular defamatory material), or the possible extension of qualified privilege to material on online archives in certain circumstances. It also considers in that context what limitation period for defamation claims would be appropriate.

Copies of the consultation paper will be placed in the Libraries of both Houses and can also be obtained free on the Department's website at: http://www.justice.gov.uk/consultations/consultations.htm. The closing date for consultation is 16 December 2009.

Youth Justice Board

The Minister of State, Ministry of Justice (Maria Eagle): In the "Modernising Government" White Paper, the Government made a commitment to bring all public services up to the standard of the best and to make the best even better. In line with this commitment my hon. Friend the Minister of State for Schools and Learners and I today announce a review of the Youth Justice Board's governance and operating arrangements.

The Youth Justice Board is an executive non-departmental public body established under the Crime and Disorder Act 1998 to take oversight of the youth justice system in England and Wales, including the secure estate for under 18-year-olds.

Since the Youth Justice Board's inception, the ways in which a wide range of services for young people are planned and delivered at a local level have changed significantly. In that context, the Government want to ensure that the Youth Justice Board can continue to support the delivery of the best outcomes for young people and their families and communities, as well as the wider public. The Government also want to ensure that these outcomes are delivered in ways that give the public value for money.

We have asked Dame Susan Street, former permanent secretary for the Department for Culture Media and Sport, to fulfil the role of independent chair of the review. She will chair the review jointly with Frances Done, chair of the Youth Justice Board. The review's full terms of reference are available at: www.yjb.gov.uk. We have asked the chairs to produce a report and recommendations by the end of February 2010. We expect to publish the report and the Government's response shortly thereafter.

The chairs will be supported by a steering group comprising senior officials from the Ministry of Justice, the Department for Children, Schools and Families, the Home Office, the Welsh Assembly Government and the Youth Justice Board. The chairs have today issued an invitation to interested parties to submit evidence that they consider relevant within the review's terms of reference.

Independent Parliamentary Standards Authority

The Secretary of State for Justice and Lord Chancellor (Mr. Jack Straw): I wish to update the House on progress on the implementation of the Independent Parliamentary Standards Authority (IPSA) as provided for in the Parliamentary Standards Act 2009.

On Thursday 10 September Mr. Speaker announced he had appointed an interim chief executive for the IPSA, and that the recruitment process for the IPSA chair and members was to begin. I warmly welcome the appointment of Andrew McDonald as IPSA's interim chief executive, and the progress being made in implementing the IPSA.

My Department has been working with the House of Commons and other interested parties to ensure that the early establishment of the IPSA remains on track. Any expenditure incurred by the Ministry of Justice on behalf of the IPSA that is properly due to the IPSA will be recovered, subject to Parliament's approval of the necessary new estimate for the IPSA, ensuring IPSA's independence. A new estimate for IPSA will be presented shortly as part of the winter supplementary estimates for 2009-10.

Local Land Charges Register (Search Fees)

The Parliamentary Under-Secretary of State for Justice (Bridget Prentice): I am today announcing the outcome of the joint Ministry of Justice and Department for Communities and Local Government consultation on Local Authority Property Search Services—Charges for Property Search Services as it relates to the fee for a personal search of the local land charges register in England. The paper sought views on how and by whom the fee should be set and whether the present fee should be changed. Eight hundred and fifty-eight responses were received. They have been carefully considered and the following decisions reached.

First, there should be no change in the present arrangements for the setting of the fee for the time being. Secondly, the present fee will be increased from £11 to £22 for personal searches of the local land charges register conducted on or after 1 January 2010. I have, with the concurrence of HM Treasury, made and laid the Local Land Charges (Amendment) Rules 2009 to give effect to the change.

The Ministry of Justice will today publish a post-consultation report in relation to the consultation and its outcome. Copies of the report Local Authority Property Search Services—Charges for Property Search Services—The Fee for a Personal Search of the Local Land Charges Register have been placed in the Libraries of both Houses.

TRANSPORT

Motor Insurance

The Parliamentary Under-Secretary of State for Transport (Paul Clark): I have issued today a report in response to public consultation for a scheme of continuous enforcement of motor insurance. The scheme proposes the enforcement of statutory motor insurance by comparing information already held on the Driver and Vehicle Licensing Agency's (DVLA) vehicle register and the motor insurance database maintained by the Motor Insurers' Bureau. The scheme enables identification of a greater number of potentially uninsured motorists than does relying on the police spotting them on the road. In the future registered keepers who do not have appropriate insurance will be committing an offence and may, if they fail to take action following the receipt of a reminder letter, be subject to enforcement action by the DVLA.

I have placed copies of the report in the Libraries of both Houses.

Heavy Goods Vehicles (Retro-reflective Markings)

The Parliamentary Under-Secretary of State for Transport (Paul Clark): In answer to parliamentary question 136910, 15 May 2007, *Official Report*, column 465 asking when retro-reflective markings would become mandatory for newly registered heavy goods vehicles, the then Minister of State for Transport, the hon. Member for South Thanet (Dr. Ladyman), stated this would be 10 October 2009.

In view of the current economic situation I am announcing that, to reduce regulatory costs on vehicle manufacturers and the haulage industry, this measure will not now become mandatory for new vehicle registrations until 10 July 2011.

Other regulatory simplification measures on vehicle lighting due to be implemented at the same time will continue to be implemented at the earliest opportunity.

Petitions

Tuesday 14 July 2009

PRESENTED PETITION

Petition presented to the House but not read on the Floor

Taxis (Liverpool)

The humble petition of Mr Alan Watterson, of 81 Elm Vale Liverpool, the residents and taxi drivers of Wavertree Constituency and surrounding area.

Sheweth, that the livelihoods of the legitimate taxi and private hire trade in Liverpool are severely affected by the cross-border hiring of vehicles licensed in neighbouring boroughs; also sheweth that the safety and well-being of the taxi-using public is put at risk by the use of such un-licensed vehicles as their insurance is nullified.

Wherefore your petitioners pray that your Honourable House urges the Secretary of State for Communities and Local Government to consider amending the Local Government (Miscellaneous Provisions) Act 1976 to require taxis and private hire vehicles to return to the licensing area when they have completed a hiring that terminates outside of that area,

And your petitioners, as in duty bound, will ever pray, etc—*[Presented by Jane Kennedy .]*

[P000395]

OBSERVATIONS

COMMUNITIES AND LOCAL GOVERNMENT

Greenbelt Development (Essex)

The Petition of Ashleigh Sharp and others,

Declares that building on Canvey's flood plain, school fields and green land is totally unacceptable and that what Canvey really needs is an additional access road from the Northwick area; welcomes the recent referendum which was professionally organised and conducted by Graham Bracci and others, taken over the last few weeks on Canvey Island, in which 6,534 people voted of whom 99.13 per cent. supported the motion that there should be no further development on Canvey Island greenbelt land; also welcomes the Constituency wide 'Save Castle Point Greenbelt' campaign which was launched by Bob Spink MP in March 2007 and the subsequent localised save the greenbelt campaigns such as that to stop development on Daws Heath; and notes the overwhelming view of Castle Point residents that their greenbelt should be protected and totally rejects the suggestion by Castle Point Councillors that residents implicitly agree with their Core Strategy plan to build on greenbelt.

The Petitioners therefore request that the House of Commons urges the Government to encourage Essex County and Castle Point Borough Councillors to respect the flood plain, rescind plans to sell off part of Castle View School playing field, protect Castle Point greenbelt in its core strategy and make the Canvey additional access road their priority.

And the Petitioners remain, etc.—*[Presented by Bob Spink, Official Report,* 1 June 2009; Vol. 493, c. 136 .]

[P000375]

Observations from the Secretary of State for Communities and Local Government:

The Government understands the residents concern's about the future of playing field space, but it is the Government's general approach not to interfere with the jurisdiction of local planning authorities unless it is necessary to do so. Parliament has entrusted them with responsibility for day-to-day planning control in their areas as they are normally best placed to make decisions relating to their areas and it is right that, in general, they should be free to carry out their duties responsibly, with the minimum of interference.

I understand from Castle Point Borough Council that no planning application has yet been made to them in respect of this proposal. When an application has been made, the Council will be required to publicise it in order that the public and other interested parties may make known their views. They should also be guided by the policies and advice set out in the Department's Planning Policy Guidance Notes, Statements (PPGs and PPS's) and planning circulars.

The Government's statements of national planning policy, such as Planning Policy Guidance 2 "Green Belts", are material considerations which must be taken into account, where relevant, in planning decisions, but it is the responsibility of the local planning authority to identify and weigh up all the different issues, in the context of the specific local circumstances, having regard to the views of local residents and other interested parties.

Planning Policy Statement 25 (PPS25), Development and Flood Risk, provides the policy framework for local planning authorities to avoid, manage and reduce flood risk to new development without exposure to unnecessary flood risk. This is supported by the Practice Guide published in June 2008 to assist local planners in implementing PPS25 policy.

It should be noted that the 'Core Strategy Proposed Publication Document' as the strategic plan forming part of the Local Development Framework' (LDF), does not allocate any sites as such but indicates the broad locations where the development will occur.

I understand through discussions with the Council that the site referred to is identified within their Core Spatial Strategy for housing purposes. The consultation concluded on 20 March 2009.

While there is an urgent need for more housing development in this country, the location of new housing is very important, to ensure new development is in sustainable locations. It is also important amongst many other issues, that the character of settlements are protected as appropriate, and that the countryside is protected for its own sake if appropriate to do so.

Any proposed access road to Canvey Island is the responsibility for Essex County Council, as local highway authority.

Should the Council, in liaison with Castle Point Borough Council, decide to promote such a scheme, it would need to obtain the East of England region's agreement to prioritise the scheme for funding within its Regional Funding Allocation for major transport schemes. The Council would then need to submit a detailed Major Scheme Business Case for the scheme, in line with Departmental guidance, for consideration and assessment by my Department.

Alternatively, the Council could seek funding from its own or through third party sources.

Planning and Development (Somerset)

The Petition of residents of the Taunton constituency and others,

Declares that the Petitioners are extremely concerned that the Regional Spatial Strategy for the South West requires the creation of 21,800 new homes in Taunton Deane within the next 20 years; and notes that the residents of Taunton Deane have had no recourse to decide on the suitability of the plan locally despite the significant impact such large scale development will have on living standards in the local area.

The Petitioners therefore request that the House of Commons urges the Government to reassess its commitment to the over development of Taunton Deane and bring forward a revised option which strikes a more appropriate balance between the need for greater affordable housing and the quality of life in Taunton Deane.

And the Petitioners remain, etc.—*[Presented by Mr. Jeremy Browne, Official Report,* 10 June 2009; Vol. 493, c. 907 .]

[P000381]

Observations from the Secretary of State for Communities and Local Government:

Proposed changes to the draft South West Regional Spatial Strategy were the subject of public consultation between July and October 2008. I regret that therefore no new representations can be taken into account now, as to do so would be unfair to other respondents.

I planned to publish the RSS at the end of June 2009. However, on 20 May, the High Court issued a judgment that the previously issued Regional Spatial Strategy for the East of England had failed to meet certain requirements of the Strategic Environmental Assessment Directive, in respect of three towns.

The Department for Communities and Local Government and the Government Office for the South West are considering the implications for the South West Regional Spatial Strategy, but cannot reach a clear view until the written judgment is issued by the Court. Setting a new timetable for the final publication of the SW RSS is not possible, until the implications of the judgment have been clarified, and what action is required, if any.

Petitions

Wednesday 15 July 2009

PRESENTED PETITION

Petition presented to the House but not read on the Floor

Post Office Closure (Kent)

The Petition of those concerned about the closure of Queensway Post Office.

Declares that Sheerness main Post Office is providing an inadequate service.

The Petitioners therefore request that the House of Commons urge the Government to instruct Post Office Limited to re-open Queensway Post Office.

And the Petitioners remain etc,

[P000397]

OBSERVATIONS

CHILDREN, SCHOOLS AND FAMILIES
Schools (Manchester)

The Petition of persons concerned at Manchester City Council's proposal to close Ewing School in Didsbury, Manchester

Declares that Manchester City Council is currently considering proposals to close Ewing School in Didsbury, Manchester; notes that Ewing School is a specialist school that teaches children with speech, language and social communication disorders, from the ages of 5 to 16 years; further notes that Ewing's pupils are among the 1 per cent. of children with more severe and complex speech, language and social communication needs; further notes that many of the pupils have specific problems with understanding and the use of the spoken word and have further difficulties with social interaction; recognises that Ewing School has a high teacher to pupil ratio, which enables the school to provide an intensive Teach and Learn environment.

Believes that Manchester City Council's proposals to close Ewing School and relocate the pupils to mainstream schools are misguided; further notes that many of Ewing's pupils have previously been excluded from mainstream schools; further believes that Ewing School offers a safe and secure learning environment that is more conducive to their pupils' complex needs, which gives them the chance to achieve a high standard of education.

The Petitioners therefore request that the House of Commons urges the Government to do all in its power to persuade Manchester City Council to rethink its plans to close Ewing School and to permit the school to remain open and free from the threat of closure.

And the Petitioners remain, etc.—*[Presented by Mr. John Leech, Official Report,* 15 June 2009; Vol. 494, c. 137 .]

[P000382]

Observations from the Secretary of State for Children, Schools and Families:

The Government recognises that a decision on provision for pupils with special educational needs (SEN) and any school re-organisation is never an easy one. Local Authorities are responsible for keeping under review their SEN provision and have a duty to ensure that there is sufficient provision for children with SEN in their area and that it is provided in a cost effective way.

The Government would expect the local authority, in this case Manchester City Council, to think strategically about its provision and reorganisation, having analysed future requirements such as demographic changes to ensure a better match between the need for places, parental preference and the supply of places, and to consider what provision would best deliver improved outcomes for children. We would expect it to consult widely on its proposals.

The local authority should also comply with the guidance on "Planning and Developing Special Educational Needs Provision". This requires that when considering any reorganisation of SEN provision local authorities will need to demonstrate to parents and the local community how the proposed alternative arrangements are likely to lead to improvements in the standard, quality and/or range of educational provision for children with SEN.

It is for Manchester City Council to determine the precise nature of the communications and consultation with its partners. They must consult and inform all interested partners and allow adequate time and provide sufficient information for this process. Our advice to all local authorities is to start consulting early. All the normal processes associated with major changes to schools still apply, including the requirement to produce statutory proposals where required.

Manchester City Council has concluded the statutory consultation stage on the future development of Ewing School. When the City Council's Executive has considered the comments made during statutory consultation it will decide on how to proceed. If the chosen way forward requires publication of statutory notices the local authority has provided assurances this will be done.

Ewing School is a community special school and pupils placed at the school, other than those placed for assessment purposes, will have a statement of SEN. Should Manchester LA take the decision to close the school then the LA responsible for maintaining each child's statement will be required to amend the statement to change the name of the school named. The local authority will be required to consult parents about an amended statement and to ensure that any school named can meet the needs of the child and put in place the provision specified in the child's statement. If parents disagree with the school named in their child's statement they will have a right of appeal to the First-tier Tribunal (Special Educational Needs and Disability).

INTERNATIONAL DEVELOPMENT
HIV and the G8

The Petition of members of City Gate Church, Brighton,

Declares that almost every minute of every day a baby is born with HIV, and that almost all of these babies are born in the world's poorest countries; further declares that nine out of ten of all new HIV infections in children are as a direct result of mother to child transmission; further declares that the impact of HIV on infants is appalling and that without specialised treatment half will not live to see their second birthday; notes that in a number of countries, HIV and AIDs is the number one cause of death in under-five year olds.

Further declares that in rich countries the transmission of HIV from mothers to their babies has been virtually eliminated due to the availability of health care and the right drugs; notes, however, that in many low-income countries pregnant women and their babies are not receiving the same degree of care and protection; further notes that despite efforts to increase coverage of services to prevent mother to child transmission of HIV, figures from 2006 show that in low-income countries only one in five pregnant women with HIV had access to the necessary antiretroviral drugs to protect their babies.

Further notes that this shortfall is now attracting global attention and that in 2007 leaders at the G8 Summit in Heiligendamm recognised the importance of preventing mother to child transmission of HIV and promised 1.5 billion dollars to provide access to services for all pregnant women; and believes that the UK has a key role to play in turning this G8 commitment into reality.

The Petitioners therefore request that the House of Commons urges the Government to outline how it intends to contribute to G8 commitments on preventing mother to child transmission of HIV, and to encourage other G8 countries to take similar action.

And the Petitioners remain, etc.—*[Presented by David Lepper, Official Report,* 18 May 2009; Vol. 492, c. 1315.]

[P000368]

Observations from the Secretary of State for International Development:

I wholeheartedly agree with your statement that we must continue to address the devastating impact that HIV is having on children in developing countries. The latest Universal Access report[1] shows encouraging trends in the expansion of Prevention of Mother to Child Transmission (PMTCT) services for women and children. However, the world is still far from providing anti-retro viral treatment (ARV) to 80 per cent. of HIV positive pregnant women by 2010[2]. By 2007 only 34 per cent. of HIV positive pregnant women in low and middle income countries received treatment so much remains to be done. Working with others at national and international level, the UK is strongly committed to strengthening efforts to scale up PMTCT services.

The petition rightly acknowledges that mother to child transmission of HIV has been virtually eliminated in developed countries. This is because in these countries, women of reproductive age have access to high quality family planning and maternity care services into which HIV prevention, treatment and care has been integrated. DFID will continue to work to ensure that women in poor countries have the same choices and opportunities.

Scaling up PMTCT services requires effective health systems. This is why DFID helps to prevent mother to child transmission of HIV through our support to health systems' strengthening. In June 2008 the UK published a new AIDS Strategy which commits us to spending £6 billion up to 2015 to support the strengthening of health systems for improved health and HIV outcomes. The updated Strategy also commits the UK to work with others to reduce the unmet need for family planning by 50 per cent. by 2010 and eliminate unmet need by 2015.

In Zambia DFID is providing £5.5 million to support a multi-sectoral response to tackling HIV which includes support for PMTCT. And in Zimbabwe DFID is providing £25 million to support a programme which addresses maternal and newborn health, including HIV. This and similar work supported by DFID in our focus Public Service Agreement (PSA) countries is achieving significant results. The estimated percentage of HIV positive pregnant women who received ARVs for prevention of mother to child transmission increased in many African countries between 2004 and 2007, for example in Ghana from 1 per cent to 21 per cent., in Malawi from 4 per cent. to 32 per cent. and in Uganda from 9 per cent. to 34 per cent.

We are working with bilateral and multilateral partners to ensure that the Gleneagles G8 Summit commitment to provide universal access to treatment, prevention and care is implemented. This was reaffirmed by the G8 at Heiligendamm in 2007 where commitments that will significantly assist in funding and developing national AIDS plans were made. This included the provision of long-term predictable funding to the Global Fund to fight AIDS, TB and Malaria. The UK has since committed £1 billion to the Fund in support of countries' comprehensive national plans to address the AIDS epidemic. We have been working to ensure that the G8 Summit at L'Aquila delivers a much stronger framework for G8 countries to be held accountable for their commitments on global health, including HIV. Through the High Level Task Force for Innovative International Financing for Health Systems, which the Prime Minister co-chairs, we are also leading efforts to secure additional resources to help countries build the stronger health systems required to make durable progress on maternal and newborn mortality, including through enhanced access to PMTCT services.

We provide core funding to UNICEF and other UN agencies (WHO, UNAIDS) working to end mother to child transmission of HIV. In addition to core funding, DFID has provided more than US$1.5 million to an "Accelerating Action for Children Affected by HIV and AIDS" programme. This gives focus to the "4 Ps - Protection, Prevention, PMTCT and Paediatric AIDS". We are also participating in a US-led HIV and AIDS paediatric public-private partnership which seeks to develop formulations of HIV drugs suitable for children in developing countries, together with the pharmaceutical industry.

More recently, DFID has become a member of the Inter-agency Task Team on Prevention of Mother to Child Transmission (co-convened by UNICEF and WHO).

And on 21 May we held a consultation with UK stakeholders in collaboration with the AIDS Consortium to discuss ways to accelerate the scale-up of PMTCT services.

Through our prominent position on the prevention of mother to child transmission of HIV in developing countries and engagement in international fora, we will continue to show leadership and to advocate for joint action in this vital area.

[1]Progress towards Universal Access report, UNAIDS, WHO, UNICEF, 2008.

[2]This is the international target set by the United Nations General Assembly Special Session on AIDS in 2001.

TREASURY

Taxation (Bingo Clubs)

The Petition of residents of Llanelli,

Declares that the imposition of Gross Profits Tax of 22 per cent. on bingo clubs, compared with a gaming industry average of 15 per cent., is unreasonable and will be damaging to the continued viability of small bingo clubs, which play an important part as centres of the community as well as places of entertainment.

The Petitioners therefore request that the House of Commons approves a Gross Profits Tax maximum rate of 15 per cent. for bingo clubs.

And the Petitioners remain, etc.—*[Presented by Nia Griffith, Official Report,* 30 June 2009; Vol. 495, c. 273.]

[P000386]

Observations from the Chancellor of the Exchequer:

The Government notes the petition, and makes the following observations:

The Government continues to recognise the important social role played by bingo clubs in many communities, especially for pensioners and women.

Budget 2009 introduced a package of reforms intended to simplify the bingo tax regime, continuing a process of reform that began in 2003. Bingo participation fees became VAT exempt, and bingo duty was increased to 22 per cent. The Bingo industry had been campaigning for some time for VAT exemption on bingo participation fees, and the bingo duty increase should not be seen in isolation.

The Treasury's estimate of bingo's effective tax rate before the Budget was 24-25 per cent., an estimate agreed with the industry. It is not the case that the "gaming industry average" effective tax rate is 15 per cent.

The effective tax rate on bingo, now at 22 per cent., is comparable to the average effective tax rates on gaming machines, casinos and the national lottery, all of which are taxed within a 20-25 per cent. range. Before the Budget the effective tax rate on bingo was estimated at 24-25 per cent., which in turn was down from 35 per cent. as recently as 2003.

The bingo industry will benefit from the increased allocation of category B3 gaming machines (machines typically found in bingo halls that can offer up to a £500 prize) that a club may offer. The maximum allocation was increased from 4 to 8 in February 2009. The industry will also benefit from social regulation changes recently implemented by the Department for Culture, Media and Sport. The changes double the stake and prize limits for category C gaming machines, to £1/£70. Estimates from BACTA, the amusement machine trade association, suggest that gaming machine revenue could be boosted by as much as 20 per cent. following these changes. At Budget 2009 the Government amended the amusement machine licence duty categories to realign with the new regulations.

The Government recognises the challenges faced by the bingo industry, including changing tastes and greater competition in the wider leisure sector. The Government will continue to engage with the bingo industry about the state of the sector and the impact of taxation.

Petitions

Thursday 16 July 2009

OBSERVATIONS

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Sea Defences (Essex)

The Petition of Councillor Dave Blackwell, Canvey Island residents, and others,

Declares that the Environment Agency proposal to abandon, to the sea, 800 acres of land on the west of Canvey Island is wrong; further declares that sacrificing such a large, ecologically and environmentally important area could increase Canvey's problems; believes that Canvey issues like flooding, building a thousand more houses, an additional Canvey access road, hazardous industrial plants and protecting Canvey's very special environment are interlinked, and believes these should be considered together as they affect island people's future safety and quality of life.

The Petitioners therefore request that the House of Commons urges the Government to abandon its plans to flood such a large area of Canvey Island and to meet with the Hon Member for Castle Point, Councillor Dave Blackwell and Canvey councillors to discuss their plans.

And the Petitioners remain, etc.—*[Presented by Bob Spink, Official Report,* 30 March 2009; Vol. 490, c. 761.]

[P000341]

Observations from the Secretary of State for Environment, Food and Rural Affairs:

The Environment Agency's Thames Estuary 2100 (TE2100) project has developed a long-term tidal flood risk management for the estuary. This plan sets out what is required to manage increasing flood risk through to the end of the century and also identifies seven potential locations where the alignment of defences could be changed in order to create new inter-tidal habitat which is being lost locally through sea level rise. West Canvey Marshes, as a former saline marsh, is one of those potential locations. Although West Canvey has been identified as one of seven potential sites, with demonstrable benefits and advantages, no decision has been made and the proposal is open to full and transparent consultation.

The creation of new inter-tidal habitat is required under the European Birds and Habitats Directive to compensate for habitat lost due to sea level rise. The Environment Agency in consultation with Natural England have assessed that around 1,200 hectares of this designated habitat will be lost in the estuary as sea levels rise over the century. Inter-tidal habitat is vitally important for the continued health of the estuary ecology providing both a feeding ground for birds and a source of food for the estuary fishery. West Canvey Marshes, which are owned by the RSPB, would be a sustainable site for inter-tidal habitat creation because it retains the topography of the original salt marsh that occurred in that area before it was reclaimed and drained in the 17th century.

The required inter-tidal habitat creation could be achieved by the managed realignment of the existing flood defences. This would not increase flood risk on Canvey Island and it would help provide justification for constructing an improved defence that would lower the risk of failure of the current local barriers. This new defence could also provide the opportunity for a new road link for the island; the Environment Agency's public engagement shows that the limited access/egress to/from Canvey is an issue of major concern to many Canvey Island residents.

HEALTH

Hospital Parking Charges (Cheshire)

The Petition of residents of Northwich, and others,

Declares that the car parking charges of the Mid Cheshire Hospitals NHS Foundation Trust at Victoria Infirmary, Northwich are excessive and represent a charge on people accessing National Health Services.

The Petitioners therefore request that the House of Commons urges the Government to take whatever action possible to require the Mid Cheshire Hospitals NHS Foundation Trust to remove the unfair car parking charges at Victoria Infirmary, Northwich.

And the Petitioners remain, etc.—*[Presented by Mr. Mike Hall, Official Report,* 1 July 2009; Vol. 495, c. 439 .]

[P000387]

Observations from the Secretary of State for Health:

The provision of car parking is the responsibility of local NHS organisations, which take into account differing local circumstances. In England, hospital car parking charges are decided locally by individual NHS organisations to cover the cost of running and maintaining a ear park.

I have been informed that the Mid Cheshire Hospitals NHS Foundation Trust is already aware of the petition, and has issued a press release to clarify its position on this important matter.

Stroke Services (London)

The Humble Petition of the people of Croydon,

Sheweth, that there is just cause and need to maintain Mayday University Hospital's Hyper-Acute Stroke Unit (HASU) as not only is it critical to receive treatment after a stroke within thirty minutes, but also because Mayday is ranked in the top ten per cent of HASUs in the country.

Wherefore your Petitioners pray that your Honourable House will urge the Government to preserve Mayday University Hospital's funding at a level that will allow it to maintain and expand its HASU provision following Healthcare for London's review of stroke services; and will further urge the Government to prevail upon Healthcare for London to recognise the need for Mayday's HASU to remain open and to operate twenty-four hours a day.

And your Petitioners, as in duty bound, will ever pray, &c.—*[Presented by Mr. Andrew Pelling, Official Report,* 26 June 2009; Vol. 494, c. 1112 .]

[P000385]

Observations from the Secretary of State for Health:

Although the Department of Health provides strategic leadership to the NHS and social care, power is devolved and it is for local NHS organisations to plan, develop

and improve services for local people. Therefore, any proposals for improvements to services are matters to be decided locally.

Healthcare for London has told us that it has consulted on the best way to improve and specialise stroke and trauma care in the capital. The consultation proposals suggested the establishment of eight Hyper Acute Stroke Units (HASUs) supported by a network of stroke units.

HASUs represent a completely new service for Londoners, offering an immediate brain scan and if appropriate, clot-busting drugs within 30 minutes of arriving at hospital. All Londoners will be within 30 minutes ambulance journey time of a HASU.

The location of the HASUs will be determined not only by the potential quality of services, but also by the location of the hospital. HASUs must be evenly spaced around the capital to ensure everyone can reach the care they need within 30 minutes. Therefore some high performing hospitals will not be designated as HASUs. Mayday hospital was not a preferred option for a HASU, however it was recommended that the Hospital should retain its stroke unit.

Acute Trusts, such as Mayday Healthcare NHS Trust, receive funding through PCTs, which commission services from them. If Mayday hospital retains its stroke unit, it will receive sufficient funding through these channels to enable it to provide excellent 21st century stroke care.

The consultation responses were published on 29 June 2009. All Primary Care Trusts (PCTs) are being asked to submit responses for consideration by the Joint Committee of PCTs (JCPCT).

Following receipt of these comments, and an assessment of the responses provided by the Clinical Advisory Group, the JCPCT will consider all the information and make decisions and recommendations. This meeting is timetabled to be held on 20 July 2009.

In such circumstances it would therefore be wrong for the Secretary of State or Ministers to intervene.

Petition

Tuesday 21 July 2009

OBSERVATIONS

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Flooding (Cotswolds)

The Petition of Moreton in Marsh Resilience Group, and others,

Declares that Moreton in Marsh is at risk from further serious flooding; further declares that following severe flooding in July 2007 when 260 homes and premises were flooded, minimal action has been taken to repair flood relief channels and also gullies, drains and culverts remain blocked after almost two years; considers that another flood in December 2008, although not so severe, illustrated the threat of more floods into the homes of people in the town; and believes that urgent action must be taken, and quickly, to prevent the town becoming flooded again.

The Petitioners therefore request that the House of Commons urges the Secretary of State for Environment, Food and Rural Affairs to do all in his power to persuade Cotswold District Council, Gloucester County Council, the Environment Agency, and Thames Water to fulfil their responsibilities to the town and people of Moreton in Marsh and to act swiftly to avoid further flooding.

And the Petitioners remain, etc.—*[Presented by Mr. Geoffrey Clifton-Brown, Official Report,* 9 June 2009; Vol. 493, c. 764 .]

[P000379]

Observations from the Secretary of State for Environment, Food and Rural Affairs:

The Government takes flooding in residential areas very seriously and regrets the flooding incidents to the town and people of Moreton in Marsh in summer 2007. The Environment Agency advise that these events were caused by a combination of high levels of surface water run-off, overflowing drains and the River Evenlode overtopping its banks. Since the floods the Agency have been working closely with Gloucestershire County Council, Cotswold District Council and Thames Water to reduce flood risk for the town. This has included for example work on new trash screens at the upstream end of the River Evenlode, culvert clearance and maintenance, and improvements to the flood warning service.

The Government accepts that it has not always been clear who had responsibility for responding to flood events in urban areas. That is why we announced, in our response to Sir Michael Pitt's report into the major flooding events in summer 2007, that the Environment Agency will have a new national strategic overview role for all forms of flood risk. Local authorities (identified as County Councils or Unitary authorities) will be taking responsibility for local groundwater and surface water management for which nobody has previously been clearly responsible. The Agency will work closely with local authorities on their on-the ground management of surface water flooding so that comprehensive assessments of local flood risk will be possible for the first time.

Written Answers to Questions

Monday 13 July 2009

SCOTLAND

Departmental Internet

Mr. Watson: To ask the Secretary of State for Scotland when his Department plans to update its web browsers from Internet Explorer 6. [285029]

Ann McKechin: The Scotland Office shares an information technology system (SCOTS) with the Scottish Executive, which is responsible for the development, administration and maintenance of the system, including the provision of hardware and software.

Departmental Pay

Mr. Crabb: To ask the Secretary of State for Scotland how much has been spent on salaries and pensions for Ministers in his Department since 2005. [284857]

Ann McKechin: Ministers' salaries and pensions are set out in the Ministerial and other Salaries Act 1975. Information on salaries and pension contributions of Scotland Office Ministers can also be found in the resource accounts of the Ministry of Justice.

Departmental Publications

Grant Shapps: To ask the Secretary of State for Scotland how much it cost to produce each of his Department's publications in each of the last three years. [280771]

Ann McKechin: The cost of producing each Scotland Office publication in the last three years is as follows:

Publication	*2006-07*	*2007-08*	*Cost (£) 2008-09£*
2006 Scotland Office Annual Report	2,637.00	—	—
Act of the Union booklet[1]	—	6,978.00	—
2007 Scotland Office Annual Report	—	2,820.00	—
Sorting the Ballot paper—improving the election to the Scottish Parliament, a consultation paper	—	1,727.60	—
Returning Officer Election Accounts 2005-06	—	3,100.72	—
2008 Scotland Office Annual Report	—	—	3,510.69
Returning Officer Election Accounts 2006-07	—	—	3,115.68
Government Evidence to the Commission of Scottish Devolution	—	—	£3,309.06
Returning Officer Election Accounts 2007-08	—	—	3,127.53

[1] The souvenir booklet was produced as part of the 300 year anniversary of the Union of the Parliament. In addition a reception was held in Dover House to mark the tercentenary and the launch of the Mint's commemorative coin.

Note:
Figures provided exclude VAT.

Departmental Secondment

Sarah Teather: To ask the Secretary of State for Scotland how many employees of his Department have been posted to work in offices of hon. Members of each political party in each of the last five years. [284887]

Ann McKechin: All posts in the Scotland Office are filled by civil servants on secondment from either the Ministry of Justice or the Scottish Executive. Civil servants are required to act in accordance with the requirements of the Civil Service Code.

Civil servants may shadow MPs as part of the Civil Service MP Attachment Scheme run by the Industry and Parliament Trust. There are no staff in the Scotland Office participating in this scheme.

QinetiQ: Location

Pete Wishart: To ask the Secretary of State for Scotland pursuant to the answer to the hon. Member for Na h-Eileanan an Iar of 1 July 2009, *Official Report*, column 308W, on Hebrides range, what the outcomes were of the meeting he hosted for the Under- Secretary of State for Defence, the hon. Member for Grantham and Stamford (Mr. Davies) and the Western Isles Council established task group on 1 July 2009 at Dover House. [285587]

Mr. Jim Murphy: The meeting provided a valuable opportunity for the Western Isles Council established task group including Highland and Islands Enterprise and community representatives to give their initial response to the Ministry of Defence consultative document 'Cost Saving Investment Proposals affecting the MOD Hebrides and Aberporth Ranges'. I undertook to remain in close contact with the task group. The hon. Member for Na h-Eileanan an Iar (Mr. MacNeil) attended the meeting.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture: Lancashire

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs what his most recent assessment is of the future viability of farming in Lancashire. [283620]

Jim Fitzpatrick: Farms in Lancashire are in a relatively strong economic position. The predominant farms in Lancashire are Dairy, Less Favoured Areas (LFA) grazing livestock and non LFA grazing livestock and incomes on these farms are expected to have increased in 2008-09. In each of years 2003-04 to 2007-08 inclusive, incomes at the all farm types level were slightly higher in Lancashire than for the North West Government Office region as a whole. The balance sheet position of Lancashire farms is also favourable.

In each year, total liabilities were equivalent to less than 20 per cent. of total assets, and the average net worth (total assets less total liabilities) in 2006-07 and 2007-08 was also stronger in Lancashire than the North West region.

Air Pollution

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the effect of reductions in levels of air pollution on meeting the Government's targets for reductions in levels of carbon dioxide by 2020. [285516]

Jim Fitzpatrick *[holding answer 9 July 2009]:* The effect of reductions in air pollution on meeting carbon dioxide reduction targets was considered by the Air Quality Expert Group (AQEG) in their 2007 report on air quality and climate change. The main recommendations of the AQEG report are included in the UK's Air Quality Strategy, which is available via the following link:

www.defra.gov.uk/environment/airquality/strategy/index.htm

The AQEG report recognised both the trade-offs and synergies between air quality and climate policies and encouraged the promotion of improvement measures that reduce both air pollution and carbon dioxide levels. Examples of such 'win:win' measures include energy conservation in the home and efficiency improvements at industrial installations.

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what funding is available to local authorities to assist them in reducing air pollution. [285517]

Jim Fitzpatrick *[holding answer 9 July 2009]:* Local authorities are required to work towards meeting the air quality objectives in the air quality regulations 2000 by designating air quality management areas where concentrations of any of the seven pollutants in the regulations exceed, or are likely to exceed, the stated objectives. To help local authorities do this, DEFRA operates an Air Quality Grant scheme, a capital grant for which local authorities bid. All local authorities are invited each year to bid for a grant. Applications are considered and, where successful, awards made towards the cost of air quality projects. Our letter, inviting bids under the 2009-10 grant programme, together with application form is available on the DEFRA website:

http://www.defra.gov.uk/environment/airquality/local/aqgrant/index.htm

Barn Hall

Mr. Baron: To ask the Secretary of State for Environment, Food and Rural Affairs whether *(a)* Ministers and *(b)* officials in his Department have had discussions with their counterparts in the Department for Communities and Local Government on the contract of sale for Barn Hall, Wickford, Essex. [285383]

Dan Norris *[holding answer 9 July 2009]:* There has been no ministerial contact in respect of either the disposal of the former Horticultural Research Institute at Barn Hall or the planning application or subsequent planning determination. Likewise there has been no contact between officials.

The only known contacts between departmental officials in connection with this matter were:

December 2008: DEFRA was approached by Department for Communities and Local Government to alert DEFRA to pleadings made by Basildon district council in their request for judicial review of the decision to grant planning permission. Department for Communities and Local Government indicated that officials could not enter into any discussions regarding the determination or application for judicial review and none were undertaken.

April 2009: Department for Communities and Local Government transferred a Freedom of Information request made by the hon. Gentleman on behalf of his constituent seeking a copy of the disposal contract to DEFRA, which has been made available.

Mr. Baron: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions with Government Departments other than the Department for Communities and Local Government his Department has had on Barn Hall, with particular reference to the contract of sale. [286287]

Dan Norris: The Department has had no communications with other Government Departments in respect of the contract for sale for Barn Hall Wickford.

Bovine Tuberculosis: Disease Control

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs how many farms in *(a)* Lancashire, *(b)* the North West and *(c)* England were under bovine tuberculosis restrictions on the latest date for which figures are available. [284686]

Jim Fitzpatrick: DEFRA cannot provide the information in the format that the hon. Member has requested. DEFRA collects data on the number of herds under restriction because TB measures apply to a herd and not a farm.

The latest data (from the Vetnet system on 1 June) show that the number of herds under bovine TB restrictions on 31 March 2009 was *(a)* 31 in Lancashire, *(b)* 171 in the North West and *(c)* 5,493 in England.

Note:

Data downloaded from Vetnet are provisional and subject to change as more data become available.

Dairy Farming

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs if he will arrange immediately to hold a conference for all interested parties to discuss the state of dairy farming. [285137]

Jim Fitzpatrick: Representatives from throughout the production and retail chain already attend the twice-yearly Dairy Supply Chain Forum. The most recent of these forums was held on 17 June 2009. Both industry and the Government felt that the key message was a need to boost market confidence.

DEFRA will be chairing a new Horizon Scanning subgroup to identify key challenges and opportunities to help the UK dairy sector meet demand competitively.

Mr. Crabb: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what discussions he has had with the European Commission on the application of state aid rules to compensation for dairy farmers affected by the collapse of Dairy Farmers of Britain; [286184]

(2) what advice he has received on the compatibility with state aid rules of compensation arrangements for farmers affected by the entry into receivership of Dairy Farmers of Britain. [285717]

Jim Fitzpatrick: Any national financial support for farmers needs to meet EU agricultural state aid rules.

The rules require that state aid must make a real contribution to the development of specific regions or viable businesses and not purely improve the financial situation of its recipients.

Departmental Energy

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs how much *(a)* electricity and *(b)* gas was used (i) on his Department's estate and (ii) by his Department's agencies in each year from 2004-05 to 2008-09. [280513]

Dan Norris: The annual energy consumption of buildings on the DEFRA and Executive Agency estate is shown in the following table. Data cannot be provided for 2008-09 at this time as it is still being verified.

kWh

	Electricity	*Gas*	*Oil*	*WDHS*	*CHP Heat*	*CHP Electricity*	*Solar*	*Total*

Key:
WDHS: Whitehall District Heating System CHP: Combined Heat and Power
Notes:
1. Whitehall District Heating System was out of operation for refurbishment works during 2005-06.
2. CHP Heat data for 2005-06 is missing.
3. Solar technology installed in 2003-04; system taken out of operation in 2006-07.
4. MFA data in 2005-06 is for the whole year; we are unable to split the data before and after the agency was formed.:

Departmental Lost Property

Mr. Blunt: To ask the Secretary of State for Environment, Food and Rural Affairs how many laptop computers belonging to *(a)* his Department and *(b)* its agencies have been lost or stolen in the last five years. [281092]

Dan Norris: The following figures show the reported number of thefts/losses of laptops from 2005. The recent increases should be seen against the background of a significant increase in the numbers of laptops in use; for example, the numbers of IBM laptops issued across the DEFRA network under the enabling contract has increased more than six fold from some 1,200 in 2005 to over 7,500 in 2009, as we have gradually replaced desktops with encrypted laptops to reduce environmental impacts and make it easier for staff to work remotely.

	Core DEFRA	Animal Health	Natural England	Veterinary Laboratories Agency	Laptops
2005-06	n/a	n/a	n/a	n/a	18
2006-07	n/a	n/a	n/a	n/a	22
2007-08	n/a	n/a	n/a	n/a	13
2008-09	20	17	15	2	54
2008-09[1] (to date)	6	0	0	0	6

Prior to 2008-09 figures were only recorded as a total covering DEFRA and the agencies together.

Departmental Press: Subscriptions

Grant Shapps: To ask the Secretary of State for Environment, Food and Rural Affairs to which *(a)* magazines, *(b)* journals and *(c)* newspapers his Department subscribes; and what the cost of such subscriptions has been in each of the last three years. [280764]

Dan Norris: For the last three years DEFRA's expenditure on magazines, journals and newspapers subscriptions through its library service is tabled as follows:

	£
2006-07	72,000
2007-08	64,747
2008-09	55,862

To list all the publication subscriptions through the library service would incur disproportionate cost.

DEFRA press office separately subscribes to the following magazines, journals and newspapers:

Daily Express
Daily Mail
Daily Star
Daily Telegraph
Evening Standard
Financial
Guardian
Independent
Mail on Sunday
Mirror
News of the World
Observer
Radio Times
Sun
Sunday Business Magazine

Waste Management
Western Morning News

DEFRA's expenditure on these newspapers, magazines and periodicals is set out in the following table:

	£
2007-08	26,871
2008-09	26,871

DEFRA does not hold figures for 2006 press office expenditure on newspapers, magazines and periodicals.

There are no central records of subscriptions held by business units or individuals who have subscribed directly rather than via the library service or by the press office. These figures could be compiled only at disproportionate cost.

All figures exclude spend on newspapers, magazines and periodicals by DEFRA local offices and the Department's Executive agencies. These figures could be compiled only at disproportionate cost.

Departmental Procurement

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what companies provided *(a)* goods and *(b)* services to his Department in 2008-09. [278989]

Dan Norris: I will place in the Library of the House the names of each organisation that supplied goods, services and works to the core-Department in 2008-09 based on the purchase order data held in the core-Department's financial database.

Departmental Secondment

Sarah Teather: To ask the Secretary of State for Environment, Food and Rural Affairs how many employees of his Department have been posted to work in offices of hon. Members of each political party in each of the last five years. [284972]

Dan Norris: Civil servants are required to act in accordance with the requirements of the Civil Service Code.

Civil servants may shadow MPs as part of a programme run by the Industry and Parliament Trust. Details on numbers of civil servants from this Department that have had such an attachment cannot be obtained within disproportionate cost limits.

Domestic Waste: Research

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs what research *(a)* his Department and *(b)* the Waste and Resources Action Programme has commissioned on household waste prevention in the last 12 months. [285349]

Dan Norris: DEFRA is completing a major review study to help distil the evidence emerging from research work completed by the Department and other organisations on waste prevention. The work has been undertaken by the contractors Brook Lyndhurst, in association with the Social Marketing Practice and the Resource Recovery Forum. The project team has been working with DEFRA staff to consolidate findings from the Waste and Resources Evidence Programme, the Environmental Behaviours Unit and other parts of DEFRA, together with work undertaken by the Waste and Resources Action Programme (WRAP), the Environment Agency and other relevant published work.

Specific waste prevention research work commissioned by WRAP over the past 12 months includes:

Home composting diversion modelling at household and district levels;

Reuse: studies of drivers, activities, arisings and potential in the UK;

Evaluation of waste reduction advisers;

Review of life cycle assessments of reusable packaging;

Development of guidance on food waste reduction champions model.

Domestic Waste: Waste Disposal

Mr. Stewart Jackson: To ask the Secretary of State for Environment, Food and Rural Affairs what guidance *(a)* his Department and *(b)* the Waste and Resources Action Programme has issued on the use of wheelie bins for the collection of household waste. [284289]

Dan Norris: Neither DEFRA nor WRAP has issued any specific guidance on the use of wheelie bins for collection of household waste.

Each local authority decides the size, type and number of bins needed to handle the average amount of waste generated between collections in households in their area.

Among the many conclusions and recommendations made by the Communities and Local Government (CLG) Select Committee report on Waste Collection in July 2007, was the endorsement of the Government's policy of leaving local authorities to make arrangements for waste collection, based on local resources and needs.

Environment Protection: Finance

Mr. Stewart Jackson: To ask the Secretary of State for Environment, Food and Rural Affairs what funding *(a)* his Department and *(b)* the Environment Agency has allocated to the (i) Capital Standards project and

(ii) London Environment Directors' Network in the last five years; and for what projects such funding was allocated. [284136]

Dan Norris: In October 2005 the Environment Agency made a payment of £3,000 to the Capital Standards project. The membership has enabled the Environment Agency to be more engaged with local authorities on fly-tipping and antisocial behaviour.

The Environment Agency have found no record of having made a payment to the London Environment Directors' Network.

Environmental Protection Act 1990

Mrs. Laing: To ask the Secretary of State for Environment, Food and Rural Affairs how many requests for communications data were made by the Environment Agency to communication service providers (CSPs) under the Environmental Protection Act 1990 in *(a)* 2000, *(b)* 2001, *(c)* 2002, *(d)* 2003, *(e)* 2004, *(f)* 2005, *(g)* 2006, *(h)* 2007 and *(i)* 2008; and how many of these requests resulted in the requested communications data being disclosed by the relevant CSP. [284865]

Jim Fitzpatrick: The Environment Agency was granted powers under the Regulation of Investigatory Powers Act 2000 (RIPA) for Communications Data in 2004 and therefore no prior data to this exists.

Under RIPA legislation, only authorised requests are sent to the CSP and, once authorised, the CSP has a legal responsibility to comply with the request, if the data exists. Environment Agency records show that in all cases the CSP has responded to the request.

The Environment Agency made the following number of requests to CSPs between 2004 and 2008:

	Number of applications to CSPs:
2004	34
2005	98
2006	96
2007	55
2008	53

Fairtrade Initiative

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions he has had with the food retail sector on support for ethical procurement initiatives. [285569]

Jim Fitzpatrick: In developing our future strategy for a sustainable food system, our officials have held ongoing discussions with stakeholders, including food retailers, on the issue of consumer demand for food produced to a range of ethical and environmental standards.

Food: Transport

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs what steps the Government have taken to provide incentives to reduce food miles travelled in England. [284752]

Jim Fitzpatrick: Distance food has travelled, on its own, is not a good measure of sustainability (AEA Technology (2005) The Validity of Food Miles as an Indicator for Sustainable Development), but Government do want to address the environmental costs associated with the transport (as well as the production and consumption) of food—such as carbon emissions and congestion. Government have been working with the food industry to identify ways of reducing the sector's environmental impacts overall, and in doing so, improving efficiency across the supply chain. In response to recommendations made in the Food Industry Sustainability Strategy (DEFRA, May 2006), the British Retail Consortium developed a set of commitments to reduce their members' environmental impacts and the Food and Drink Federation developed their Five-Fold Ambition. Both these initiatives set targets to reduce the environmental impacts of food transport in the UK. The Institute of Grocery Distribution (IGD) is also spearheading a voluntary initiative on 'sustainable distribution' for the food and grocery industry.

Food: Waste

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs if he will make an estimate of the volume and proportion of food from *(a)* supermarkets, *(b)* households, *(c)* restaurants and other eating establishments and *(d)* other sources which became food waste in the last year for which figures are available. [286435]

Dan Norris: The DEFRA-funded Waste and Resources Action Programme (WRAP) undertook research in 2007 to quantify the amounts and types of household food waste produced in the UK. According to its report "The Food We Waste", UK households waste 6.7 million tonnes of food every year: around one third of what is bought.

WRAP is currently undertaking research on the amounts of food waste produced by the retail sector and its supply chain and by the hospitality industry. This research will be published later in 2009.

Based on a range of data sources, WRAP has estimated that, in total, the UK produces between 18 and 20 million tonnes of food waste per year from all sources.

Greyhounds: Animal Welfare

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what representations he has received from *(a)* animal welfare groups and *(b)* the general public on his proposed regulations on the welfare of racing greyhounds. [284851]

Jim Fitzpatrick: DEFRA is currently consulting on proposals for new regulations for the welfare of racing greyhounds. The consultation closes on 22 July 2009 and a full summary of the responses to the consultation will be published shortly thereafter. Prior to the public consultation, DEFRA set up a number of working groups to provide input into the proposals. The working groups contained representatives of the industry, the veterinary profession, local authorities, the devolved administrations and animal welfare groups.

Members: Correspondence

Mr. Tyrie: To ask the Secretary of State for Environment, Food and Rural Affairs when he expects to reply to the letter dated 8 June 2009 from the hon. Member for Chichester on Dairy Farmers of Britain. [285998]

Jim Fitzpatrick: I wrote to the hon. Member for Chichester on 9 July 2009 and apologise for the delay in responding.

Ozone

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what steps the Government are taking to reduce levels of ozone in urban areas to within the limits prescribed by EU legislation by 2010. [286030]

Jim Fitzpatrick: Council Directive (2002/3/EC) sets target values for ozone for the protection of human health and ecosystems, to be attained by 2010. Ground level ozone is formed when sunlight acts on nitrogen oxides (NO_x), volatile organic compounds (VOC) and other atmospheric substances close to the ground. The pollutants that cause ground level ozone come from a range of sources including industry and combustion sources such as road transport and power generation. Ozone formation can take place over several hours or days and may arise from emissions thousands of kilometres away.

Emissions of ozone precursors across the EU are controlled by the National Emissions Ceilings Directive (2001/81/EC) which sets limits on the amounts of NO_x and VOCs that each member state can emit annually, with ceilings to be met by 2010. The 1999 Gothenburg Protocol does the same for a larger group of countries under the auspices of the UN Economic Commission for Europe. The UK is currently below its 2010 VOC ceiling and is committed to meeting its NO_x ceiling as soon as possible.

Recycling

Dr. Stoate: To ask the Secretary of State for Environment, Food and Rural Affairs what steps his Department is taking together with local authorities to *(a)* promote and *(b)* facilitate commercial waste recycling. [284742]

Dan Norris: DEFRA funds the Business Resource Efficiency and Waste (BREW) centre for local authorities which has a network of over 800 local authority officers involved with business resource efficiency activities. It has funded over 60 local authority projects that provide resource efficiency services or support to their local business communities. The centre disseminates examples of successful recycling schemes to other councils to encourage them to consider whether they may be able to offer recycling services and support on resource efficiency and waste reduction.

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs what plans he has for future levels of compulsory recycling for households; and what guidance *(a)* his Department, *(b)* the Waste and Resources Action Programme and *(c)* the Waste Improvement Network has issued to local authorities on the matter. [285420]

Dan Norris: Decisions on local waste collection services, including recycling are taken by local authorities in line with local circumstances and priorities.

The Waste and Resources Action Programme (WRAP) has issued no guidance to local authorities on the subject of compulsory recycling for households.

The Waste Improvement Network (WIN) has not issued advice or guidance on compulsory recycling. WIN exists to share information between councils, and publish guidance from all available sources in one place on waste management issues, and so does not issue advice. It has, however, published some documents on the subject of existing compulsory recycling schemes in councils in England. These documents are usually written either by or for local authorities.

Recycling: Conferences

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs if he will place in the Library a copy of each *(a)* speech and *(b)* presentation made by the representatives of the Waste and Resources Action Programme at the Local Authority Recycling Advisory Committee's conference held in November 2008. [285251]

Dan Norris: A copy of the presentations requested made at the 2008 Local Authority Recycling Advisory Committee conference on food waste has been placed in the Library of the House.

Recycling: Public Consultation

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs how many consultation responses his Department received on *(a)* application and designation guidance, *(b)* technical issues guidance, *(c)* finance guidance, *(d)* coverage and disadvantaged groups guidance and *(e)* unauthorised deposit or disposal guidance in its June 2008 consultation on incentives for recycling by households. [285348]

Dan Norris: The Department received 29 responses in total to its informal June 2008 consultation on incentives for recycling by households, which also included the recycling service guidance. The number of respondents who commented specifically on each piece of guidance are listed as follows:

	Number of respondents who commented specifically on each piece of guidance
Application and designation guidance	1
Technical issues guidance	3
Finance guidance	1
Coverage and disadvantaged groups guidance	3
Unauthorised deposit or disposal guidance	3

11 responses were also received which commented on all five of the documents. Three responses made general comments. Nine responses were received on the recycling service guidance.

Recycling: South East

Dr. Stoate: To ask the Secretary of State for Environment, Food and Rural Affairs how many local authorities in *(a)* the South East and *(b)* London provide a commercial waste recycling service. [284743]

Dan Norris: As at February 2009, 17 (out of 75) local authorities in the South East and 23 (out of 37) in London were providing trade waste recycling services.

Source:

Local Authority Trade Waste Recycling Survey, BREW Centre

Waste and Resources Action Programme

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs what expenditure the Waste and Resources Action Programme has incurred on overseas travel in the last 24 months. [284929]

Dan Norris: The total expenditure incurred by the Waste and Resources Action Programme on overseas travel amounted to £15,728 over the two years 2007-08 and 2008-09 (i.e. between 1 April 2007 and 31 March 2009).

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs with reference to the answer to the hon. Member for Bromley and Chislehurst of 4 November 2008, *Official Report*, column 401W, on the Waste and Resources Action Programme, whether the liaison activity funded by the Waste and Resources Action Programme included liaison with *(a)* official representatives of *(b)* hon. Members from and *(c)* noble Lords from (i) the Conservative Party, (ii) the Labour Party and (iii) the Liberal Democrats. [285453]

Dan Norris: Yes. Meetings were scheduled with interested representatives from all three main parties, including both hon. Members and noble Lords.

Waste and Resources Action Programme: Manpower

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs how many of the Waste and Resources Action Programme's staff work on matters relating to alternate weekly collections. [285346]

Dan Norris: WRAP has a team of 14 advisers who are available to support and advise local authorities on their waste and recycling services. Advice covers improvements to existing services and the introduction of new services—which can include the introduction of alternate weekly collection of household waste. All support provided by WRAP is at the request of individual local authorities.

Waste Disposal: Eco-Towns

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs what guidance *(a)* his Department, *(b)* the Environment Agency and *(c)* the Waste and Resources Action Programme has provided to potential eco-town developers on policies on household waste for adoption in eco-towns. [285250]

Dan Norris: The Environment Agency has had discussions on the practical application of the waste worksheet with a number of potential eco-town developers.

DEFRA and the Environment Agency have also worked closely with the Town and Country Planning Association on a series of worksheets, including one on waste management, which set out principles, information and flexible models for best practice on a range of themes relevant to eco-towns. These worksheets are being made available as a resource for planning and designing eco-towns.

Neither DEFRA nor the Waste and Resources Action Programme have provided any separate or additional guidance to potential eco-town developers on household waste management policies.

The environmental standards that eco-towns will be expected to meet, including on waste management, will be set out in the Eco-towns Planning Policy Statement.

Waste Management

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs if he will place in the Library a copy of the Waste and Resources Action Programme's Waste Prevention Toolkit. [285252]

Dan Norris: WRAP's waste prevention toolkit is an online tool, rather than a document. It is not therefore possible to deposit a copy in the Library of the House.

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs if he will place in the Library a copy of the analysis undertaken by the Waste and Resources Action Programme into the efficiency and effectiveness of waste management models used by local authorities. [285253]

Dan Norris: WRAP published a study entitled "Kerbside recycling: indicative costs and performance" in 2008. A copy of this study has been placed in the Library of the House.

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer to the hon. Member for Peterborough of 14 May 2009, *Official Report*, column 904W, on waste management, and with reference to the minutes of his Department's Waste Stakeholders Group meeting of 30 November 2007, whether his Department has a communications strategy on residual waste. [285254]

Dan Norris: DEFRA is currently reviewing its communications strategy on waste, including on residual waste, and will be updating the waste stakeholder group on progress in the autumn.

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs (1) if he will place in the Library a copy of the paper on waste prevention, reference: WSG05NOV07, circulated at the meeting of his Department's Waste Stakeholders Group of 30 November 2007; [285255]

(2) if he will place in the Library a copy of the paper on medium term risks to the waste strategy, reference: WSG04FEB00, circulated at the meeting of his Department's Waste Stakeholders Group on 25 February 2008; [285256]

(3) pursuant to the answer to the hon. Member for Peterborough of 14 May 2009, *Official Report*, column 904W, on waste management, if he will place in the Library a copy of each of the papers circulated in respect of each of the meetings of the Waste Stakeholder Group. [285457]

Dan Norris: I am arranging for copies of the documents requested to be placed in the Library of the House.

DEFENCE

Armoured Personnel Carriers: Iraq

13. **Adam Price:** To ask the Secretary of State for Defence what recent assessment he has made of the adequacy of safety measures on armourrd personnel carriers deployed in Iraq; and if he will make a statement. [285433]

Bill Rammell: We continue to keep under review the measures in place to ensure the protection of the remaining British forces in Iraq. A small number of protected personnel carriers currently remain in the country, giving commanders the ability to choose the most appropriate vehicle for the limited missions and tasks which remain.

Navistar Defence Husky

14. **Sir Nicholas Winterton:** To ask the Secretary of State for Defence what recent assessment he has made of the performance of the Navistar Defence Husky tactical support vehicle in each theatre of operation in the last two years. [285434]

Mr. Quentin Davies: The Husky Tactical Support Vehicle is specifically designed for Afghanistan. As it will enter service later this year, there has not yet been an assessment of its performance in theatre. The vehicle has, however, successfully passed stringent mine blast protection tests. I cannot comment on the levels of protection afforded by the vehicle, as disclosure could prejudice the security of the armed forces.

Afghanistan

17. **Alistair Burt:** To ask the Secretary of State for Defence what recent estimate he has made of the projected costs of military operations in Afghanistan in each of the next three years. [285637]

Mr. Bob Ainsworth: I refer the hon. Member to the answer I gave today to the hon. Member for Rochford and Southend, East (James Duddridge).

20. **Patrick Mercer:** To ask the Secretary of State for Defence what his most recent assessment is of the security situation in Afghanistan. [285640]

Mr. Bob Ainsworth: I refer the hon. Member to the answer I gave earlier today to the hon. Member for Hornchurch (James Brokenshire).

Nuclear Deterrent

18. **Mr. Burns:** To ask the Secretary of State for Defence what progress has been made towards procurement of the next generation of the nuclear deterrent; and if he will make a statement. [285638]

22. **Mr. Gauke:** To ask the Secretary of State for Defence what progress has been made towards procurement of the next generation of the nuclear deterrent; and if he will make a statement. [285642]

Mr. Bob Ainsworth: I refer the hon. Members to the answer given earlier today to the hon. Member for Hammersmith and Fulham (Mr. Hands).

Budget Headings

19. **Mr. Heathcoat-Amory:** To ask the Secretary of State for Defence which of his Department's budget headings are planned to have reductions in the next three years; and if he will make a statement. [285639]

Mr. Bob Ainsworth: The Defence Plan 2008-12, available in the Library of the House, sets out in Section IV the planned Defence budget up to 2010-11, reflecting the outcome of the 2007 comprehensive spending review.

This includes a high level breakdown of the planned budgets for top level budget holders in the Department. The detailed allocation of these are reviewed during regular planning rounds to reflect current Defence priorities and commitments. It is not our practice to announce these detailed allocations—although major changes to the Defence programme, when made and appropriate, are announced in the usual way.

Departmental expenditure limits have not yet been set for the years beyond 2010-11.

Infantry Regiments

21. **Mr. Soames:** To ask the Secretary of State for Defence what his plans are for future numbers of infantry regiments; and if he will make a statement. [285641]

Bill Rammell: There are currently 36 infantry battalions. While we constantly review the structure of the infantry, we currently have no plans for this to change.

Operation Herrick

23. **Mr. Ellwood:** To ask the Secretary of State for Defence what upper limit has been placed on the number of troops participating in Operation Herrick. [285643]

Mr. Bob Ainsworth: The endorsed force level for Operation Herrick is 8,300.

On 29 April 2009, *Official Report*, column 869, the Prime Minister announced the deployment of additional troops to Afghanistan to provide extra security during the Afghan election period. This has for the present increased troop numbers in Afghanistan to 9,000.

Kyle of Lochalsh

Mr. Charles Kennedy: To ask the Secretary of State for Defence what recent assessment he has made of the contribution towards UK defence requirements of his Department's facilities at Kyle of Lochalsh and the surrounding area; and if he will make a statement. [285635]

Mr. Quentin Davies: The maritime ranges in the area around Kyle of Lochalsh make a valuable contribution to UK defence capabilities. However, work by QinetiQ, which operates the ranges on our behalf, shows that the service could be delivered more efficiently by centralising range control at a single base at Kyle of Lochalsh. We are investigating separately whether this change could be combined with an enhancement to range capability.

Trident

Mr. Carmichael: To ask the Secretary of State for Defence what his most recent estimate is of the cost to his Department of replacing Trident. [285636]

Mr. Bob Ainsworth: The estimated procurement costs for replacing the Trident nuclear deterrent are £15-20 billion, at 2006-07 prices for a four-boat fleet. Once the new fleet of submarines comes into service annual in-service capital and running costs of the deterrent, which includes the costs of the Atomic Weapons Establishment, are expected to be similar to today. This cost is currently around 5 to 6 per cent. of the annual defence budget.

Armed Forces: Housing

Dr. Murrison: To ask the Secretary of State for Defence if he will list the defects at the service family accommodation at Jubilee Buildings, Queens Terrace, St. John's Wood; what his Department's remedial plan for this accommodation is; and what the *(a)* timetable and *(b)* budget is for its repair. [274748]

Mr. Kevan Jones: As might be expected after decades of underinvestment there are many issues arising from these properties and the accommodation is not of the high standard to which we aspire.

Although essential maintenance and repairs continue to be carried out and issues raised by occupants are addressed, these properties are not required beyond 2011 and accordingly no major modernisation or improvement works are planned.

I have also asked for an update on these buildings and will write following this.

Substantive answer from Kevan Jones to Andrew Murrison

In my answer of 14 May 2009 *Official Report*, column 937W I promised to write to you with an update regarding the Service Family Accommodation (SFA) at Jubilee Buildings, Queens Terrace, St John's Wood.

As stated in my earlier answer, due to decades of underinvestment there are issues arising from the SFA at Jubilee Buildings, which is leased by the Department to house the families of the King's Troop Royal Horse Artillery (KTRHA) based at St John's Wood Barracks. The SFA is no longer required after the KTRHA's planned relocation to Woolwich in 2011, so it would not be an appropriate use of defence funds to carry out any major maintenance, modernisation or upgrade work.

However, we remain committed to carrying out essential maintenance and repairs and address any issues raised by occupants. In addition to the frequent visits made by Modern Housing Solutions, the contractor responsible for the maintenance of the SFA, the Department's Area Housing Manager visited the SFA on 29 May 2009 to better understand current issues, discuss concerns with occupants, identify immediate solutions to some and hasten outstanding essential maintenance work.

I have asked officials to keep me updated on progress and I will ensure you are also kept informed.

Dr. Murrison: To ask the Secretary of State for Defence what the new spend on *(a)* each married quarters estate and *(b)* married quarters in total (i) was in 2008-09 and (ii) is projected to be in each of the next five years. [276803]

Mr. Kevan Jones: In 2008-09 the Ministry of Defence spent some £48 million on new projects and upgrades relating to its worldwide holdings of Service Family Accommodation (SFA). Of this expenditure around £40 million was in respect of SFA in the UK, £7 million in Cyprus and £1 million in Germany.

A breakdown of the major elements of expenditure on the UK SFA, by location is shown in the following table.

Location	*£ million*
Abingdon	0.8
Aldershot	1.1
Brize Norton	1.0
Blandford	5.9
Bulford	0.4
Catterick	0.2
Chester	6.0
Chicksands	2.0
Colchester	0.7
Coningsby	0.7
Cranwell	0.2
Craigiehall	0.5
Elgin	0.4
Giffnock/Hampden	0.2
High Wycombe	1.5
Leeming	1.6
Leuchars	0.4
Lisburn, Northern Ireland	4.1
Innsworth	2.0
Invicta Park	3.5
Peninsular Towers, London	0.4
Warminster	0.8
Williams Gardens, Putney	3.0
Total	37.4

The Department was planning to spend £48 million in each year of the next five years on the upgrade of SFA to its highest standard for condition. However as the hon. Member will know from the Budget statement on 22 April 2009, this Department is bringing forward £50 million to be spent on accommodation.

The details of this expenditure have yet to be determined. I will write to the hon. Member when a decision has been taken.

Substantive answer from Kevan Jones to Andrew Murrison:

In my answer of 1 June 2009 (Official Report: Column 36W) I undertook to write to you with details of how the £50 million of advanced funding will be spent on improving Service accommodation.

Both single Service personnel and Service families will benefit from this expenditure which will be spread across 19 locations in Great Britain. As well as the provision of new accommodation, the £50 million will be spent on upgrading existing accommodation and other improvements such as new fixtures and fittings. Projects benefited by the £50 million advance will include, SFA at South Cerney, Cirencester, and Peninsula Towers, Knightsbridge, London. Single Living Accommodation (SLA) at Lille Barracks, Aldershot; Mooltan Barracks, Tidworth; and at Woolwich; Marchwood; Minley; Chivenor, Stonehouse; Culdrose; Condor; Plymouth; Lympstone; Yeovilton; Halton; Waddington; Wittering; Marham; and Lossiemouth, will also benefit.

This forms part of the more than £3 billion which the Government plans to spend on improving Service accommodation over the next 10 years.

Armed Forces: Mental Health

Mr. Walker: To ask the Secretary of State for Defence what recent estimate he has made of the number of current and former armed forces personnel likely to experience mental illness during the next 10 years as a result of their military service. [285644]

Mr. Vara: To ask the Secretary of State for Defence what recent estimate he has made of the number of current and former armed forces personnel likely to experience mental illness during the next 10 years as a result of their military service. [285645]

Mr. Kevan Jones: I refer the hon. Members to the answer I gave earlier today to the hon. Member for Mid-Bedfordshire (Nadine Dorries).

Armed Forces: Swine Flu

Mike Penning: To ask the Secretary of State for Defence how many members of the armed services have been diagnosed with swine flu. [284034]

Mr. Kevan Jones: I will answer shortly.

Substantive answer from Kevan Jones to Mike Penning:

As at 6 July 2009, the MOD was aware of 47 military personnel having been confirmed or clinically diagnosed as having the H1N1 (swine flu) virus.

This number only includes cases that have been formally reported to the Department. There may be other cases, for example where military personnel have been assessed by a civilian GP or hospital, but have not then reported it through the military medical chain or chain of command.

Armed Forces: Training

Dr. Fox: To ask the Secretary of State for Defence how many *(a)* instructors and *(b)* recruits there are in each training establishment listed in the Ofsted report on the duty of care for recruits and trainees in the armed forces. [284529]

Bill Rammell: The instructor and recruit numbers for the training establishment listed in the Ofsted Report on the duty of care for recruits and trainees in the armed forces for financial year 2008-09 are shown in the table (rounded to the nearest 10):

Training establishment	*Instructors*	*Recruits/ trainees*
25 Training Regiment—Deepcut	200	2,010
Defence Medical Services Training Centre	50	350
HMS Raleigh	80	570
Army Training Centre, Pirbright	310	4,260
RAF Halton, Recruit Training Squadron	130	890
Defence School of Transport	690	[1]7,870
RAF Regiment, Regimental Training Squadron (Basics), RAF Honington	60	300
Army School of Ammunition, Kineton	50	70
Commando Training Centre, Royal Marines	350	890
Army Training Regiment, Bassingbourn	200	1,790
Army Training Regiment, Winchester	150	1,220
Infantry Training Centre, Catterick	640	3,650

[1] Some individuals may attend more than one course at the Defence School of Transport during the year and therefore may be shown more than once in the figures.

Note:

These figures show a combination of phase 1 recruits and phase 2 trainees, depending on the establishment. Some combined phase 1 and phase 2 courses are run at Infantry Training Centre, Catterick and RAF Regiment, Regimental Training Squadron (Basics), RAF Honington.

BVT Shipyards

Angus Robertson: To ask the Secretary of State for Defence what progress has been made in his Department's negotiations with BVT Shipyards on a terms of business agreement. [284822]

Mr. Quentin Davies: MOD and BVT Surface Fleet Ltd. are working to establish a new long-term incentive based terms of business agreement (TOBA), which is intended to provide MOD with the confidence that industry can deliver significant improvements in efficiency and performance needed to underpin the future programme, while providing industry with the confidence to enable investment and long-term planning. Commercial negotiations with BVT are at an advanced stage.

Angus Robertson: To ask the Secretary of State for Defence what support his Department is giving to BVT Shipyards to promote its shipbuilding facilities and services in export markets. [284824]

Mr. Quentin Davies: Government support to the export efforts of the UK defence industry, including BVT Surface Fleet Ltd., is led by UKTI. The MOD works closely with UKTI's defence and security organisation on these matters.

Angus Robertson: To ask the Secretary of State for Defence when representatives of his Department last met representatives of BVT Shipyards; and what was discussed. [284828]

Mr. Quentin Davies: The MOD is BVT Surface Fleet Ltd.'s (BVT) principal customer and has had meetings and discussions with BVT since the inception of the joint venture.

Departmental Internet

Mr. Watson: To ask the Secretary of State for Defence when his Department plans to update its web browsers from Internet Explorer 6. [285018]

Mr. Quentin Davies: The Ministry of Defence (MOD) is currently implementing the Defence Information Infrastructure (Future) (DII(F)). DII(F) will, once delivered in full, incorporate around 140,000 terminals supporting some 300,000 users at over 2,000 defence sites worldwide, including on ships and deployed operations. DII currently uses Internet Explorer 6 and at the current time does not have a requirement to move to an updated version.

At the current time, the MOD has various other IT systems, which include closed, isolated and restricted use networks—some of these will necessarily fall outside the scope of DII due to their purpose. The information requested for each of these systems could be provided only at disproportionate cost.

Departmental Procurement

Bob Spink: To ask the Secretary of State for Defence what changes have been made to his Department's *(a)* office equipment and *(b)* stationery purchasing policy in the last six months. [285309]

Mr. Quentin Davies: None, although we continue to keep our office equipment and stationery purchasing policies under review.

Detainees

Adam Price: To ask the Secretary of State for Defence pursuant to his statement of 26 February 2009, who the authors of each of the papers sent to the Secretary of State for Foreign and Commonwealth Affairs and the Secretary of State for the Home Department in April 2006 were; and what the subject matter of each paper was. [260500]

Mr. Hutton *[holding answer 3 March 2009]:* These papers were written in the Cabinet Office and provided an update to Ministers, which informed HMG's evidence collection for the ISC's July 2007 Report into Rendition.

Gurkhas: Pensions

Miss Widdecombe: To ask the Secretary of State for Defence what recent representations he has received on his Department's future policy on the Gurkha pension scheme; and if he will make a statement. [285678]

Mr. Kevan Jones: The Department has received representations from Members of both Houses of Parliament in the form of correspondence and parliamentary questions. An early-day motion has also been tabled on the subject. These representations are linked to the British Gurkha Welfare Society's campaign to pay Gurkhas pensions at Armed Forces Pension Scheme rates.

Hercules Aircraft: RAF Brize Norton

Mr. Gray: To ask the Secretary of State for Defence what the capital cost will be of relocating the Hercules fleet to RAF Brize Norton; and what his latest estimate is of the number of years of revenue savings that cost will equate to. [285419]

Mr. Quentin Davies: The capital cost of relocating the RAF C130 Hercules fleet from RAF Lyneham to RAF Brize Norton is currently estimated to be approximately £60 million. This figure excludes service accommodation costs which cannot be accurately attributed to the C130 Hercules fleet as distinct from other units at RAF Brize Norton. This figure should be fully offset by savings in running costs within the first four years.

Intelligence Corps

Dr. Fox: To ask the Secretary of State for Defence what the *(a)* required, *(b)* actual and *(c)* fit for duty strength of each rank in the Intelligence Corps has been in each year since 1997. [284539]

Bill Rammell: The Intelligence Corps (Int Corps) consists of a Military Intelligence Brigade that includes three Regular Battalions—1, 2 and 4 Military Intelligence Battalions.

The figures requested are provided in the tables. Due to implementation of the Joint Personnel Administration (JPA) system, data from 1 April 2007 are provisional and subject to review.

[1] Fewer than five.

Fit for duty has been interpreted as fit for primary role, including personnel listed as having limited deployability, and personnel unfit for duty in their primary role but who can perform a role in an alternative capacity. This information is not held centrally and could be provided only at disproportionate cost.

Military Aircraft

Dr. Fox: To ask the Secretary of State for Defence how many equipment failure reports have been recorded in respect of each helicopter type in the *(a)* Army Air Corps, *(b)* Fleet Air Arm and *(c)* Royal Air Force in 2009 to date. [284540]

Mr. Quentin Davies: MOD Form 760 (MF760) is the mandated process for the users to report aircraft faults which include accidental damage, maintenance related failures, breakdowns, and the failure of items fitted to the aircraft. Information on the numbers of such reports raised on each helicopter type for the period 1 January 2009 to 30 June 2009 is provided in the following table.

Helicopter type[1]	Service	Helicopter, number of 760s	Engine type	Engine[2] number of 760s
Agusta A109A/AM (includes engines)	Army	1	—	—
Apache	Army	211	RTM322 Mk120	2
Chinook Mk2/2A	RAF	7	T55	0
Gazelle	Army	6	Astazou 3N2	0
Lynx Mk3/8	RN	[3]8	Gem	0
Lynx Mk7/9	Army	[3]5	Gem	2
Merlin Mk1	RN	119	RTM322 Mk100	3
Merlin Mk3	RAF	5	RTM322 Mk 200	1
Merlin Mk3a	RAF	3	RTM322 Mk250	0
Puma	RAF	19	Turmo	1
Sea King—All Mks	RN and RAF	63	Gnome	1

[1] Commodity items have been excluded. As many items are common to more than one platform the information on these items is not held in a format that would be useful for this answer.
[2] Helicopter engines are administered by a single project team; and are identified separately, except in the case of Agusta A109A/AM.
[3] In addition there were 41 MF760s applicable to both Army and RN Lynx.

The data do not incorporate the results of subsequent investigations and do not, therefore, differentiate between what might later prove to have been operator error or damage sustained as a result of operations. Nor do the data indicate the severity of the failure which might have had no discernible impact on operational capability or safety. These figures do not include any instances of equipment defects that have not been formally reported by the user.

Dr. Fox: To ask the Secretary of State for Defence how many equipment failure reports have been recorded for each aircraft type in the armed forces in 2009 to date. [284541]

Mr. Quentin Davies: MOD Form 760 is the mandated process for users to report aircraft faults which include accidental damage, maintenance related failures and breakdowns, and the failure of items fitted to the aircraft. Information on the numbers of such reports raised on the fixed-wing aircraft fleets for the period 1 January 2009 to 30 June 2009 is provided in the following table.

Aircraft	*Number of MOD Form 760s*
Typhoon	40
Tornado GR4/F3	90
Harrier GR7/GR9/T12	69
Nimrod MR2/R1	41
Tristar	2
VC10	10
Sentry	6
Sentinel	36
Hercules C-130K	8
Hercules C-130J	7
C-17	0
BAE 125	1
BAE 146	0
Dominie	0
Hawk T1/T2	14
Tucano	2
Jetstream	1
Vigilant Glider	0
Viking Glider	0

The table excludes MOD Form 760s raised for items or equipments that are common to more than one platform.

These data do not incorporate the results of subsequent investigations and do not, therefore, differentiate between what might later prove to have been operator error or damage sustained as a result of operations. Nor do the data indicate the severity of the failure, which might have had no discernible impact on operational capability or safety. These figures do not include any instances of equipment defects that have not been formally reported by the user.

Nick Harvey: To ask the Secretary of State for Defence what his most recent estimate is of the cost per flying hour of a *(a)* Tornado and *(b)* Typhoon jet. [284989]

Mr. Quentin Davies: I will write to the hon. Member.

RAF Lyneham

Mr. Gray: To ask the Secretary of State for Defence what his most recent estimate is of the cost to his Department of the closure of RAF Lyneham. [285548]

Bill Rammell: The closure of RAF Lyneham is currently estimated to have no net cost, since the costs of closing the station are anticipated to be more than offset by savings in future running costs.

Somalia: Piracy

Dr. Fox: To ask the Secretary of State for Defence if he will place in the Library a copy of the unclassified version of the Combined Maritime Forces Headquarters daily counterpiracy campaign update slide for each Monday of each month since February 2009. [270942]

Mr. Bob Ainsworth: I will write to the hon. Member and place a copy of my letter in the Library of the House.

Substantive answer from Bill Rammell to Liam Fox:

My predecessor undertook to write to you with the information promised in the reply given to you on 27 April 2009, *Official Report*, column 1024W requesting copies of the Combined Maritime Forces (CMF) Headquarters daily counterpiracy campaign update slides. A CD containing these slides at weekly intervals from 17 February to 29 June 2009 will be placed in the Library of the House.

The CMF is a coalition of 23 nations whose mission is to establish and maintain security in the international waters surrounding the Arabian Peninsula by defeating terrorism, preventing piracy, and reducing the illegal traffic of people and drugs. It is also tasked with responding to environmental and humanitarian crises within its area of operations.

The counterpiracy update slides are presented daily to CMF personnel from member navies and coastguards.

Tornado Aircraft

Nick Harvey: To ask the Secretary of State for Defence how many Tornado aircraft are *(a)* in operation and *(b)* undergoing or awaiting repair or service. [284988]

Bill Rammell: The information requested is set out in the following table.

	In service fleet	*Aircraft awaiting or undergoing maintenance or upgrade*
Tornado GR4	138	49
Tornado F3	39	3

The Tornado fleet is managed to ensure that sufficient aircraft are available to meet operational commitments. To sustain this, at any one time a number of aircraft will be undergoing or awaiting maintenance or upgrade. The figures above are typical for the Tornado GR4 Fleet. For the Tornado F3 Fleet, the figures reflect the reduced maintenance commitment during the fleet drawdown.

Nick Harvey: To ask the Secretary of State for Defence what the maintenance costs of the Tornado fleet per aircraft were in the last year for which figures are available. [284990]

Mr. Quentin Davies: Based on the logistic support costs of defence equipment and support that can be directly attributed to the Tornado fleet, the average cost of providing logistic support to the Tornado aircraft in financial year 2008-09 was £1.6 million per aircraft. This figure does not include funding for capability upgrades or DE&S staff costs.

Warships: Construction

Angus Robertson: To ask the Secretary of State for Defence what assessment he has made of the adequacy of the UK's naval shipyard capacity. [284823]

Mr. Quentin Davies: The Department set out its assessment of the adequacy of the UK's naval shipyard capacity in the 2005 Defence Industrial Strategy (Cmnd 6697). The Department is committed to work with its industrial partners to manage rationalisation of, and performance improvements in, the UK maritime industrial base to create a sustainable, world-class UK maritime sector.

Weapons: Lost Property

Angus Robertson: To ask the Secretary of State for Defence what *(a)* weapons and *(b)* rounds of ammunition for which (i) his Department has and (ii) the armed forces have responsibility have gone missing in Scotland in each of the last five years; and what the monetary value was of such weapons and ammunition. [285564]

Bill Rammell: The information requested is not held centrally in the format requested and could be provided only at disproportionate cost.

WOMEN AND EQUALITY

Domestic Violence

Fiona Mactaggart: To ask the Minister for Women and Equality what representations she has received on the potential effects of proposals in the Equality Bill on specialist domestic violence services for women. [284692]

Maria Eagle: We have received written representations from End Violence Against Women, Women Against Fundamentalism, Southall Black Sisters, Engender, Justice for Women, the Muslim Women's Network and a summary of responses from Women's National Commission partner organisations.

In June 2009 officials from the Government Equalities Office met with representatives from End Violence Against Women, Southall Black Sisters, Women Against Fundamentalism, and the Poppy project to discuss their concerns that the extension of the equality duty to religion and belief might have a negative impact on how local authorities fund specialist domestic violence services for women. The Government firmly believe these concerns are misplaced, and that the duty will encourage public bodies to consider the impact of their decisions on tackling inequality and disadvantage for all groups, including women.

Domestic Violence: Victim Support Schemes

Mr. Chaytor: To ask the Minister for Women and Equality if she will make an assessment of the responsibilities of *(a)* local authorities, *(b)* police authorities and *(c)* primary care trusts for (i) the protection of and (ii) provision of advice to female victims of domestic violence by male asylum-seeking partners or former partners; and if she will make a statement. [283989]

Maria Eagle: The authorities referred to are all subject to the gender equality duty and must have due regard for this when developing their services. The duty requires all public authorities when carrying out their functions to have due regard for the need to:

eliminate unlawful discrimination and harassment, and

promote equality of opportunity between men and women.

In regard to the (i) protection of and (ii) provision of advice to female victims of domestic violence by male asylum-seeking partners or former partners, the authorities have the following responsibilities:

Local Authorities:

The homelessness legislation in England provides one of the strongest safety nets in the world for families with children and vulnerable people who become homeless through no fault of their own.

A range of support for victims of domestic violence is available. Some victims will be accommodated in refuges, but sanctuary schemes and mainstream local authority accommodation may be an option for others. Some victims will pursue independent solutions with help and advice from support schemes as necessary.

In 2007-08 local authorities spent £64.5 million of their funding allocated through the supporting people programme on housing related support services for women at risk of domestic violence.

Police Authorities:

Police authorities have two main functions: (i) to secure an efficient and effective police force and (ii) to hold the police to account on behalf of the public.

Police authorities have three further functions: (i) to monitor the force's compliance with human rights; (ii) to co-operate with other forces and authorities; and (iii) to promote equality and diversity within the force.

Primary Care Trusts:

The updated domestic abuse handbook and cd-rom "Responding to Domestic Abuse: a handbook for health professionals", which was published in December 2005, provides advice and guidance on how the health service can respond to all women who are victims of domestic abuse.

The advice and protection available to victims of domestic violence is dependent on their individual circumstances and needs. It is not contingent on the immigration status of their partner or former partner.

Recruitment

Mr. Hoyle: To ask the Minister for Women and Equality what recruitment equality data her Office holds on each government department for each of the last three years. [284633]

Angela E. Smith: I have been asked to reply.

Recruitment equality data are not held centrally. Individual employing departments are responsible for collecting equality recruitment data.

INTERNATIONAL DEVELOPMENT

Africa: International Assistance

Annette Brooke: To ask the Secretary of State for International Development with reference to his Department's most recent White Paper, page 34, what the structure of the new proposed multidonor facility across Africa will be; where will it be hosted; and how much funding over what period his Department plans to provide the facility. [286406]

Mr. Michael Foster: The aim of the new multi-donor facility is to build the capacity of micro-finance institutions to deliver sustainable microfinance services across Africa. We are currently running consultations on the project and once these are complete we will be able to give further details.

Departmental Secondment

Sarah Teather: To ask the Secretary of State for International Development how many employees of his Department have been posted to work in offices of hon. Members of each political party in each of the last five years. [284890]

Mr. Douglas Alexander: No member of the Department for International Development's staff has been posted to work in offices of hon. Members of each political party in each of the last five years.

Overseas Aid: Animal Welfare

Mr. Drew: To ask the Secretary of State for International Development what account his Department takes of animal welfare issues in its determination of aid funding. [284795]

Mr. Michael Foster: The Department for International Development (DFID) only examines animal welfare issues when aid funding is related to research involving animals or livestock production. In these cases DFID works with partners that have high animal welfare standards.

DFID keeps abreast of animal welfare issues through links with the Department for Environment, Food and Rural Affairs (DEFRA). DFID supports the UK and European Union's backing of a Universal Declaration on Animal Welfare (UDAW) as an important means of raising awareness of animal welfare.

Sri Lanka: Internally Displaced Persons

Mr. Lidington: To ask the Secretary of State for International Development what representations the Government has made to the Sri Lankan government on allowing *(a)* the UN and *(b)* other relief organisations full access to camps for internally displaced peoples in Sri Lanka; and if he will make a statement. [285059]

Mr. Michael Foster: At ministerial and official levels, the Department for International Development (DFID) continues to urge the Government of Sri Lanka to allow United Nations and other humanitarian agencies to have full and unrestricted access to internally displaced people.

The Prime Minister raised humanitarian access with President Rajapakse on the 18 May. The Foreign Secretary also discussed the issue with the Sri Lankan Foreign Minister when they met on 5 June, as did Lord Malloch-Brown with the Sri Lankan Minister for Trade and External Development when they met on 19 June. Our high commissioner to Sri Lanka regularly raises our concerns with senior members of the Sri Lankan Government.

Mr. Lidington: To ask the Secretary of State for International Development (1) what reports he has received on conditions in the internal displacement camps in Sri Lanka; and if he will make a statement; [285060]

(2) what his most recent assessment is of the humanitarian situation in Sri Lanka; and if he will make a statement. [285057]

Mr. Michael Foster: There are almost 284,000 internally displaced persons (IDPs) held in camps in Vavuniya, Jaffna, Trincomalee and Mannar. The humanitarian situation is now moving from an emergency response to a stabilisation phase. Conditions in the camps remain basic but are improving as the priority needs of shelter, food, water, medicine and immediate access to surgical treatment are gradually met. The remaining areas of concern include high levels of malnutrition, overcrowding, inadequate water and sanitation facilities and lack of freedom of movement. Restrictions put on protection activities such as reuniting unaccompanied children with their families and the registration of the population as a whole are particularly concerning.

The UK Government urge the Government of Sri Lanka to facilitate the return of the IDPs as soon as possible and to allow humanitarian agencies to operate effectively on the ground.

HOUSE OF COMMONS COMMISSION

Members' Interests

Tony Baldry: To ask the hon. Member for North Devon, representing the House of Commons Commission with reference to page 28 of the Government's Draft Legislative Programme, what estimate the House of Commons Commission has made of the cost of registering the full details of any second jobs held by hon. Members including pay and hours. [285987]

Nick Harvey: The requirement to register details of the outside employment of hon. Members came into effect on 1 July 2009 at the same time as the requirement to register additional information about donations. The additional staff costs associated with recording the information about outside employment is provisionally estimated at one-third of a band C officer, costing about £10,000 in the current financial year. It is too soon to quantify the other costs involved.

ENERGY AND CLIMATE CHANGE

Carbon Emissions: Standards

Grant Shapps: To ask the Secretary of State for Energy and Climate Change pursuant to the answer of 18 June 2009, *Official Report*, column 463W, on carbon emissions: standards, if he will place in the Library a copy of each of the responses to his Department's consultation on the term carbon neutral. [282001]

Joan Ruddock: Yes, I will place consultation responses in the Library, excluding the one received in confidence.

Carbon Trust: Energy Saving Trust

Charles Hendry: To ask the Secretary of State for Energy and Climate Change what recent assessment he has made of the performance against objectives of *(a)* the Carbon Trust and *(b)* the Energy Saving Trust. [285081]

Joan Ruddock: DECC provides grant funding to the Energy Saving Trust to promote carbon abatement in the household sector, and to the Carbon Trust to support its work in accelerating the move to a low carbon economy by working with businesses and public sector organisations.

DECC has a range of measures in place to ensure the effective assessment of the Carbon Trust and Energy Saving Trust against these objectives. Both Trusts provide annual estimates of the carbon savings implemented by their customers as a result of their DECC-funded activities, and have processes in place to ensure a high level of assurance of the carbon savings they have delivered. In addition, the Trusts provide reports to the Department against the performance metrics set out in their business plans for each financial quarter.

The Carbon Trust was also the subject of a National Audit Office value for money review in 2007-08.

Civil Nuclear Constabulary

Simon Hughes: To ask the Secretary of State for Energy and Climate Change if he will initiate a review of the salary structure of the Civil Nuclear Constabulary against relevant public sector comparators; and if he will make a statement. [283462]

Mr. Kidney: I am assuming your question relates to the salary structure for the civil nuclear constabulary (CNC) police officers, not staff.

CNC police officers pay and terms and conditions are linked to relevant Home Office police terms and conditions, and remuneration determined by the established link with the outcome of negotiations for the police negotiating body structure for Home Office Forces. The original principles determining the basic pay of members of CNC (up to and including superintendent ranks) is that it is linked to the pay of corresponding members of the MOD police (MDP), which in turn is linked to that of Home Office police taking account of the 95 per cent. weighting (i.e. MDP and CNC pay is set at 95 per cent. of Home Office police force pay). Any decision to review these arrangements would fall within the responsibilities of the civil nuclear police authority.

Departmental Energy

Gregory Barker: To ask the Secretary of State for Energy and Climate Change which official is responsible for the energy efficiency of his Department's estate. [280563]

Joan Ruddock: The Permanent Secretary's responsibilities at the Department include the energy efficiency of the estate.

Departmental Procurement

Bob Spink: To ask the Secretary of State for Energy and Climate Change what changes have been made to his Department's *(a)* office equipment and *(b)* stationery purchasing policy in the last six months. [285310]

Joan Ruddock: No changes have been made.

Departmental Public Consultation

Mr. Philip Hammond: To ask the Secretary of State for Energy and Climate Change what consultations his Department has carried out since its establishment. [279413]

Joan Ruddock: The Department of Energy and Climate Change has carried out the following consultations since its establishment:

Consultations still open:

Consultation on Transposition of EU directive (2009/29/EC) revising EU directive (2003/87/EC) and relating to Greenhouse Gas Emissions Data and National Implementation Measures;

A framework for the development of clean coal;

Proposals for A Future Exemptions Regime under The Radioactive Substances Act 1993 and The Environmental Permitting Regulations 2010;

Consultation on draft guidance on how to measure and report your greenhouse gas emissions;

Consultation on the Standard Assessment Procedure (SAP);

Consultation on Smart Metering for Electricity and Gas;

Environmental Permitting Programme—Consultation on Government Guidance;

Guidance on Carbon Capture Readiness and Applications under Section 36 of the Electricity Act 1989: a consultation;

Consultations that have been closed:

Consultation on the Form and Content of New Climate Change Agreements;

Consultation on the Draft Order to Implement the Carbon Reduction Commitment;

Consultation on the term 'carbon neutral': its definition and recommendations for good practice;

Consultation on Transposition of EU directive (EC/2008/101) to include Aviation in the European Union Emissions Trading Scheme (ETS);

Heat and Energy Saving Strategy (HES) Consultation, Heat and Energy Saving Consultation Roadshows, Big Energy Shift;

Community Energy Saving Programme (CESP);

Government response to Offshore Electricity Transmission: a further joint Ofgem/DECC Regulatory Policy Update—final consultation document;

Consultation on the Proposed Offshore Gas Storage and Gas Unloading Licensing Scheme;

Consultation on The Severn Tidal Power Feasibility Study;

Consultation on UK Offshore Energy SEA Environmental Report;

Consultation on proposed amendments to the Carbon Emissions Reduction Target 2008 to 2011;

Consultation on the Nuclear Industry Association's Application to Justify New Nuclear power stations;

Carbon units, the net carbon account and carbon accounting;

Consultation on offshore electricity transmission: a further joint Ofgem/DECC regulatory policy update;

Towards Carbon Capture and Storage;

The UK Renewable Energy Strategy.

Energy Saving Trust: Finance

Charles Hendry: To ask the Secretary of State for Energy and Climate Change how much funding his Department and the bodies for which it is responsible has allocated to the Energy Saving Trust for *(a)* 2009-10, *(b)* 2010-11, *(c)* 2011-12 and *(d)* 2012-13. [285083]

Joan Ruddock: DECC has allocated £38.5 million to the Energy Saving Trust for 2009-10, for the valuable work it undertakes to encourage and promote the sustainable and efficient use of energy.

DECC has also allocated £1 million to fund the Energy Saving Trust's three technological field trials.

The funding allocation for future years has not yet been confirmed.

Charles Hendry: To ask the Secretary of State for Energy and Climate Change how much funding was provided by his Department to the Energy Saving Trust in each of the last five years. [285117]

Joan Ruddock: I refer the hon. Member to the answer given to the hon. Member for Romford (Andrew Rosindell) on 30 March 2009, *Official Report*, column 923W.

Energy: Conservation

Charles Hendry: To ask the Secretary of State for Energy and Climate Change how many *(a)* loft insulations, *(b)* cavity wall insulations, *(c)* solid wall insulations and *(d)* other energy saving insulation measures have been funded directly by the Energy Saving Trust in each of the last five years. [285082]

Joan Ruddock: It has not been the Energy Saving Trust's role to fund such measures directly and the Trust has therefore not directly funded any insulation measures in the last five years.

The Trust has concentrated on raising consumers' awareness of the effectiveness of such measures and then converting that awareness into action, by sign-posting and guiding consumers to appropriate grant and offer schemes via the Government funded Act on CO_2 helpline.

Energy: Prices

Mr. Mullin: To ask the Secretary of State for Energy and Climate Change whether he plans to require energy companies to equalise their prepayment tariffs with those charged to quarterly customers; and if he will make a statement. [281173]

Joan Ruddock: The Government believe that differences in charges relating to the method of payment should reflect the costs of servicing that method, and should not discriminate unfairly against any group of customers. Therefore, we strongly support the regulator Ofgem's work putting in place rules to prevent unfair price discrimination related to payment method, such as PPMs.

We are keenly aware of the impact of energy costs on all groups of consumers. We do not consider that energy suppliers should be obliged to compel standard credit customers to share the higher costs of servicing pre-payment meters, which would be the consequence of equalisation.

Fuel Poverty

Damian Green: To ask the Secretary of State for Energy and Climate Change what estimate he has made of the number of households in *(a)* Ashford, *(b)* Kent and *(c)* the UK which were in fuel poverty in the last year for which figures are available. [283004]

Mr. Kidney: The most recently available sub-regional split of fuel poverty relates to 2003, and shows that there were around 2,500 fuel poor households in the Ashford constituency and around 39,200 fuel poor households in Kent.

More recent figures are available for the UK. These show that in 2006, there were around 3.5 million fuel poor households in the United Kingdom.

Greenhouse Gas Emissions

Colin Challen: To ask the Secretary of State for Energy and Climate Change what estimate he has made of the amount of UK greenhouse gas emission reductions against a 1990 baseline attributable to *(a)* the transition of electricity generation from coal to gas, *(b)* the sourcing of services and goods as between domestic and overseas production, *(c)* the use of carbon credits sourced outwith the UK, *(d)* the direct result of Government climate change policies and *(e)* other identified causes. [282817]

Joan Ruddock: Our present estimate is that, in round terms, of the emissions reductions in 2006 below the increase that would otherwise have occurred since 1990, structural changes in the economy linked to changing patterns of imports and exports were responsible for about 30 per cent. Improvements in energy efficiency accounted for about 20 per cent., lower carbon fuels about 25 per cent. (made up of 15 per cent. from the so-called dash for gas and about 10 per cent. from renewables and other lower carbon fuels). Lower emissions of greenhouse gases other than CO_2 were responsible for some 25 per cent. The direct effect of Government policies overlaps with the estimates given above and is likely to have accounted for about 15 per cent. The effect of emissions trading in 2006 is not included in these estimates but if included would in 2006 have increased the emissions reduction by about 10 per cent.

Low Carbon Buildings Programme

Bob Spink: To ask the Secretary of State for Energy and Climate Change how many grants have been awarded through the Low Carbon Buildings programme in respect of *(a)* schools, *(b)* hospitals and *(c)* other public buildings in (i) the East of England and (ii) Castle Point constituency in each year since the programme's inception. [282142]

Mr. Kidney: The following number of grants have been offered through the Low Carbon Buildings programme in respect of *(a)* schools, *(b)* hospitals and *(c)* other public buildings in (i) the East of England and (ii) Castle Point constituency in each year since the programme's inception.

Low Carbon Buildings Programme Phase 1

Grants offered

Month grant offer letter sent

Type of organisation	*Data*	*November 2006*	*January 2007*	*February 2007*	*March 2007*	*October 2007*	*January 2008*	*Total*
Schools	Number of grants	1	1	—	2	—	—	4
	Sum of grant offered (£)	747.5	5,276.5	—	23,859.65	—	—	29,883.65
Other	Number of grants	1	2	4	2	1	2	12
	Sum of grant offered (£)	14,662.40	120,056.79	49,309.39	26,579.45	270,803	18,060.60	499,471.63

No applications received for Castle Point, therefore no grants offered.

Low Carbon Buildings Programme Phase 2

East of England

	Schools		*Hospitals*		*Other public buildings*		*Total*	
	Grant value (£)	*Number of projects*	*Grant value (£)*	*Number of projects*	*Grant value (£)*	*Number of projects*	*Grant value (£)*	*Number of projects*
2007-08	218,800	16			112,697	6	331,497	22
2008-09	539,853	36	141,809	1	260,032	5	941,694	42
2009-10	173,644	8	12,160	1	67,762	1	253,565	10
Total	932,296	60	153,969	2	440,490	12	1,526,755	74

No grants were paid for Castlepoint.

Members: Correspondence

Sir Michael Spicer: To ask the Secretary of State for Energy and Climate Change when he expects to reply to the letter from the hon. Member for West Worcestershire, dated 12 February 2009, on energy companies. [277103]

Joan Ruddock *[holding answer 1 June 2009]:* I apologise to the hon. Member for the delay in responding. A reply was sent to the hon. Member on 8 July 2009.

Sizewell A Power Station

Mr. Weir: To ask the Secretary of State for Energy and Climate Change what review of *(a)* inspection, *(b)* maintenance and *(c)* security procedures at UK nuclear installations there has been following the discovery of a coolant leak at Sizewell A on 7 June 2007. [280807]

Joan Ruddock: I assume that the hon. Member is referring to the coolant leak at Sizewell A on 7 January 2007 as we are not aware of a coolant leak there on 7 June 2007.

The Nuclear Installations Inspectorate (NII) of the Health and Safety Executive (HSE) investigated the event and took appropriate enforcement action to ensure compliance with stringent safety standards. The enforcement action required the licensee to carry out a review of safety to identify and implement safety improvements arising from the event. This was done and NII is content that appropriate safety measures are now in place.

As a result of the event at Sizewell A, licensees with comparable plant have carried out a review of their arrangements. Where the reviews identified areas for improvement the licensees have implemented modifications to address these.

The Office for Civil Nuclear Security (OCNS) is the security regulator for the UK's civil nuclear industry. It is responsible for approving security arrangements within the industry and enforcing compliance; specifying the standards that have to be met. Security at licensed civil nuclear sites is kept under regular review.

NORTHERN IRELAND

Abortion

Mr. Laurence Robertson: To ask the Secretary of State for Northern Ireland what recent representations he has received from *(a)* individuals and *(b)* organisations in Northern Ireland asking in favour of a review of the legislation on abortion as it affects Northern Ireland; and if he will make a statement. [286452]

Paul Goggins: The Northern Ireland Office has received a number of representations from interested parties on all sides of the debate on the abortion law in Northern Ireland. The Government's position remains that the best forum for discussion of these matters is the Northern Ireland Assembly when it assumes responsibility for the criminal law. While the precise timing of the devolution of policing and justice is a matter for the Assembly, an agreed process is underway that will lead to the transfer of policing and justice powers, including responsibility for the criminal law relating to abortion.

Mr. Laurence Robertson: To ask the Secretary of State for Northern Ireland when he last had discussions with representatives of the political parties in Northern Ireland on the abortion law in Northern Ireland; and if he will make a statement. [286433]

Paul Goggins: The Northern Ireland Office has had no recent discussions with representatives from the political parties in Northern Ireland on this issue. My right hon. Friend the Secretary of State wrote to the leaders of the four main parties in May 2008, confirming that Government had no plans to change the law relating to abortion, and restating the Government's view that the best forum for the discussion of these matters is the Northern Ireland Assembly when it assumes responsibility for the criminal law.

Billy Wright Inquiry

Sammy Wilson: To ask the Secretary of State for Northern Ireland how much the Billy Wright inquiry has cost to date. [285186]

Paul Goggins: The cost of the Billy Wright inquiry to the end of May 2009 is £25.7 million.

Departmental Buildings

Mr. Crabb: To ask the Secretary of State for Northern Ireland how much in *(a)* rent, *(b)* service charges and *(c)* business rates has been paid in respect of each of the premises occupied by his Department in each year since 2005. [284863]

Paul Goggins: The following table shows how much the Northern Ireland Office, including the Public Prosecution Service Northern Ireland, and excluding its agencies and NDPBs has spent in rent, service charges and business rates in each financial year since 2005.

£

Expenditure area	*2005-06*	*2006-07*	*2007-08*	*2008-09*
Rent including ground rent	4,227,592	4,387,489	4,722,820	5,650,704
Service charge	316,924	340,664	236,408	234,172
Rates	1,548,430	1,735,904	1,396,296	1,816,003

Departmental Internet

Mr. Watson: To ask the Secretary of State for Northern Ireland when his Department plans to update its web browsers from Internet Explorer 6. [285030]

Paul Goggins: The Northern Ireland Office uses Internet Explorer 7. However, in a number of areas some large corporate applications are at this stage still only supported for delivery using Internet Explorer 6, so there are no plans for a complete update before 2010.

Departmental Pay

Mr. Crabb: To ask the Secretary of State for Northern Ireland how much has been spent on salaries and pensions for Ministers in his Department since 2005. [284858]

Paul Goggins: Ministers' salaries and pensions are set out in the Ministerial and other Salaries Act 1975. Details of salary and pension contributions for Ministers in the Northern Ireland Office for the years 2005 to 2008 may be found in Northern Ireland Office Resource Accounts and can be accessed by using the following link:

http://www.nio.gov.uk/index/niopublication/niopubsearch results.htm?category=&keyword=resource+accounts&order=date

Mr. Crabb: To ask the Secretary of State for Northern Ireland what the staffing costs of his Department were in *(a)* April 2008 and *(b)* April 2009. [285412]

Paul Goggins: The staffing costs for the Northern Ireland Office, including the Public Prosecution Service Northern Ireland, and excluding its agencies and NDPBs in *(a)* April 2008 and *(b)* April 2009 were:

April	£
2008	4,166,022
2009	4,309,005

Departmental Secondment

Sarah Teather: To ask the Secretary of State for Northern Ireland how many employees of his Department have been posted to work in offices of hon. Members of each political party in each of the last five years. [284888]

Paul Goggins: Civil servants are required to act in accordance with the requirements of the Civil Service Code.

Civil servants may shadow MPs as part of a programme run by the Industry and Parliament Trust. In the last five years seven civil servants in the Northern Ireland Office have taken part in the programme, two in 2004-05, one in 2005-06, three in 2006-07, one in 2007-08 and one in 2008-09.

Fines: Defaulters

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what percentage of all prison receptions in Northern Ireland have been of fine defaulters in each of the last three years. [286312]

Paul Goggins: The following table gives the number and percentage of prison receptions in Northern Ireland for fine default as compared with all prison receptions. Data cover the calendar years 2006 to 2008.

Percentage of all prison receptions for fine default in Northern Ireland 2006-08

	Fine defaulter receptions	*Total receptions*	*Percentage of fine defaulter*
2006	1,951	6,472	30.1
2007	1,724	6,061	28.4
2008	1,742	6,185	28.2

Offensive Weapons

Sammy Wilson: To ask the Secretary of State for Northern Ireland how many *(a)* prosecutions and *(b)* convictions there have been for crimes involving an offensive weapon in Northern Ireland in each of the last five years. [285965]

Paul Goggins: The information is not available in the format requested as it is not possible to separately identify the number of prosecutions and convictions for certain offences, for example murder, in which an offensive weapon was involved. It is only possible to provide prosecution and conviction statistics, documented in the following table, for those offences which, in their definition, relate to offensive weapons. These include: possession of offensive weapons; possession of articles with blades, points or other instruments with intent on committing an offence; and firearm offences.

Data cover the calendar years 2002 to 2006 (the latest year available) and are collated on the principal offence rule; only the most serious offence with which an offender is charged is included.

Number of prosecutions and convictions for offensive weapon offences 2002-06

	Prosecutions	Convictions
2002	268	217
2003	322	250
2004	288	236
2005	332	260
2006	395	298

Prisoner Ombudsman for Northern Ireland

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many cases the Prisoner Ombudsman in Northern Ireland has investigated in each of the last three years. [285507]

Paul Goggins: This is an operational matter for the Prisoner Ombudsman's Office, which operates independently of Government. I would encourage the hon. Member to write directly to the Prisoner Ombudsman for Northern Ireland, Mrs. Pauline McCabe.

Robert Hamill Inquiry

Sammy Wilson: To ask the Secretary of State for Northern Ireland how much the Robert Hamill inquiry has cost to date. [285188]

Paul Goggins: The cost of the Robert Hamill inquiry to the end of May 2009 is £26.8 million.

Rosemary Nelson Inquiry

Sammy Wilson: To ask the Secretary of State for Northern Ireland how much the Rosemary Nelson inquiry has cost to date. [285187]

Paul Goggins: The cost of the Rosemary Nelson inquiry to the end of May 2009 is £41.1 million.

Security Guards: Licensing

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many licence applications to the Security Industry Authority have been made in Northern Ireland to date. [286313]

Paul Goggins: To the end of June 2009, 1,864 licence applications had been received by the Security Industry Authority.

Special Purchase Evacuated Dwellings Scheme

Dr. Alasdair McDonnell: To ask the Secretary of State for Northern Ireland how many *(a)* serving and *(b)* former security officers have been moved under the Scheme for the Purchase of Evacuated Dwellings in each of the last three years. [285991]

Paul Goggins: The issue of certificates under the Scheme for the Purchase of Evacuated Dwellings is an operational matter for the Chief Constable. I have asked him to reply directly to the hon. Gentleman, and will arrange for a copy of the letter to be placed in the Library of the House.

Young Offenders

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many people aged between 10 and 17 years and resident in Northern Ireland were convicted of an offence in each of the last five years. [286314]

Paul Goggins: The following table gives the number of 10 to 17-year-olds resident in Northern Ireland who were convicted of an offence.

Data cover the calendar years 2002 to 2006 (the latest year available) and are collated on the principal offence rule; only the most serious offence with which an offender is charged is included.

10 to 17-year-olds resident in Northern Ireland who were convicted of an offence 2002-06

	Number
2002	1,647
2003	1,557
2004	1,576
2005	1,436
2006	1,263

CHILDREN, SCHOOLS AND FAMILIES

Asbestos: Documents

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 19 June 2009, *Official Report*, column 553W, on asbestos: documents, (1) how many asbestos health-related files have been retained since 1984; [285246]

(2) how many and what percentage of electronic files have been retained since 1984 after the seven year review held in accordance with the Health and Safety Executive's document retention policy; [285247]

(3) how many and what percentage of paper files have been retained since 1984 after the nine year review held in accordance with the Health and Safety Executive's document retention policy. [285248]

Mr. Casker: Under the Asbestos (Licensing) Regulations 1983 only HSE are required to collect documents. Therefore my Department does not do so.

The Department retains a number of files and other documents relating to asbestos in schools. Our asbestos related paper files are classified as long-term storage and are reviewed after 10 years.

DCSF electronic files related to asbestos are reviewed every five years. Other less important documents are held in temporary storage and will need to be reviewed if they are to be retained.

Children: Day Care

Annette Brooke: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the number of nursery settings which are charging top-up fees *(a)* on the free entitlement hours and *(b)* outside the free entitlement hours in order to subsidise the provision of the free entitlement. [286021]

Dawn Primarolo: The code of practice on delivery of the free early education entitlement is clear that the free entitlement should be free at the point of delivery and that charging of top-up fees for free entitlement hours is unacceptable. Where there is evidence that providers are charging top-up fees, we expect local authorities to ensure that parents are able to access a completely free place.

Providers are free to agree with parents charges for additional services outside the free entitlement hours—that is a private matter between the parent and the provider.

Annette Brooke: To ask the Secretary of State for Children, Schools and Families how many nurseries have closed in each year from 2006. [286022]

Dawn Primarolo: The latest available information on the number of nurseries opening and closing is shown in the table.

Number of full day care settings that have opened and closed, as at 31 March each year, England 2006-08

	Opened	*Closed*
2006	2,300	1,300
2007	2,200	1,500
2008	2,100	1,700

Note:
Figures are rounded to the nearest 100.
Source:
Ofsted.

Ofsted data on closures include registered places in settings which are transferring ownership, and in settings which move from one Ofsted category to another, not just in those which are ceasing trading. For example, if a full daycare provider moved to offering sessional provision, this would be recorded as a 'closed' full daycare setting and an 'opened' sessional daycare setting. The Ofsted data therefore exaggerate the true extent of turnover.

Annette Brooke: To ask the Secretary of State for Children, Schools and Families if he will make interim arrangements to assist nurseries experiencing short-term financial difficulties before the implementation of the single local funding formula in April 2010. [286333]

Dawn Primarolo: Local authorities have a range of tools they can use to support nurseries and other early years providers to ensure their sustainability. For the funding period 2008-11, the Department has allocated £378 million of revenue funding and £642 million of capital funding to local authorities to support the sufficiency of and access to child care, part of the Sure Start early years and child care grant.

All local authorities will implement a single local funding formula from April 2010 to address any inconsistencies in funding that may exist and to ensure that the funding for all providers is based on the same principles.

Extra-curricular Activities: North East

Dr. Kumar: To ask the Secretary of State for Children, Schools and Families how much funding was allocated for the provision of extra-curricular activities in schools in *(a)* the North East, *(b)* Tees Valley and *(c)* Middlesbrough South and East Cleveland constituency in each year since 1997. [285327]

Dawn Primarolo: The Government are committed to every school providing access to a core offer of extended services, including a varied menu of extra curricular activities from 8 am to 6 pm, by 2010. To support this, the DCSF has provided significant funding to support the delivery of extended services, including committing over £1 billion in the period 2008-09 to 2010-11. The table sets out the extended services funding allocated from 2003-04, the start of the Full Service Extended School pilot, to 2010-11 for every local authority in the Government office North East region, including local authorities in the Tees Valley and Middlesbrough local authority.

This funding is passed to local authorities to support the development of the core extended services offer in every school. The exact amount of funding spent on extra curricular activities as part of supporting delivery of the broader extended services core offer is a matter for local decision making by local authorities and schools.

	2003-04	*2004-05*	*2005-06*	*2006-07*	*2007-08*	*2008-09*	*2009-10*	*2010-11*
Darlington	—	162,000	93,000	524,659	620,343	915,129	2,060,131	2,975,260

South Tyneside	162,000	93,000	93,000	603,531	775,162	862,224	2,240,917	3,103,141
Sunderland	162,000	93,000	93,000	993,968	1,290,885	1,390,028	3,634,881	5,024,910

Note:
Funding in 2003-04 to 2005-06 was for the Full Service Extended Schools Pilot. Funding in 2010-11 does not include the LA allocations for the extended services subsidy funding, which have not been announced.

Foster Care

Annette Brooke: To ask the Secretary of State for Children, Schools and Families how many children were registered as being privately-fostered in the latest year for which figures are available. [286377]

Dawn Primarolo: As at 31 March 2008, the latest date for which figures are available, 1,330 children were reported as being cared for and accommodated in private fostering arrangements in England.

This number was published in "Private Fostering Arrangements in England: Year Ending 31 March 2008" on 31 July 2008 and can be found on the departmental website at:

http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000803/index.shtml

GCSE

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many schools which received an Ofsted rating of *(a)* satisfactory and *(b)* inadequate for behaviour had less than 30 per cent. of pupils gain five GCSEs including English and mathematics at grades A* to C in each year since 2005. [282727]

Mr. Coaker: This is a matter for Ofsted. HM Chief Inspector, Christine Gilbert, has written to the hon. Member and a copy of her reply has been placed in the House Libraries.

Letter from Christine Gilbert, dated 3 July 2009:

Your recent parliamentary question has been passed to me, as Her Majesty's Chief Inspector, for reply.

Table A below shows the number of secondary schools with satisfactory or inadequate behaviour at the most recent Ofsted inspection (as at 3 April 2009), which had less than 30 per cent of pupils gain five GCSEs including English and mathematics at grades A* to C in each year since 2005, where GCSE attainment data are available.

Table A: Number of secondary schools (including middle deemed secondary schools, city technology colleges and academies) with satisfactory and inadequate behaviour as at 3 April 2009, which had less than 30 per cent. of pupils gain five GCSEs including English and mathematics at grades A to C in each year since 2005*

Behaviour at last inspection	2005	2006	2007	2008
Satisfactory				
Number of schools (for which GCSE attainment data are available)	716	721	733	725
Number of schools with less than 30 per cent. of pupils gaining five GCSEs including English and mathematics at grades A* to C	373	342	316	246
Inadequate				
Number of schools (for which GCSE attainment data are available)	29	29	31	30
Number of schools with less than 30 per cent. of pupils gaining five GCSEs including English and mathematics at grades A* to C	16	17	16	16

A copy of this reply has been sent to Vernon Coaker MP, Minister of State for Schools and Learners, and will be placed in the Library of both Houses.

Pre School Education: Bullying

Mr. Amess: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the levels of *(a)* bullying and *(b)* intimidation by other children of Jewish children attending nursery schools since December 2008; what steps he is taking to protect Jewish children from such actions; and if he will make a statement. [285552]

Mr. Coaker: Schools, including mainstream nursery schools, have a duty in law to promote race equality and it is compulsory for them to have measures in place to prevent and tackle bullying, whatever the motivation. In March 2006 we published specialist guidance on bullying around race, religion and culture which focused on preventing and tackling racist bullying in schools and included material on bullying related to anti-Semitism.

We intend also next year to introduce a new statutory duty on schools to record all incidents of bullying between pupils. We will consult on this in the autumn and also on whether schools should be obliged to report these incidents to their local authority.

Schools Grant

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families what his policy is on excess balances maintained by local authorities out of money received

via the dedicated schools grant; what information his Department collects on such balances; and if he will make a statement. [285596]

Mr. Coaker: The Department believes that it is sound financial management for schools to retain a small surplus from year to year—but the total of balances for 2007-08, which came to £1.9 billion, was too high.

The Department collects figures of the balances and deficits held by schools via the Section 52 Outturn statements, which are completed by all local authorities in England. In February 2009, we published the figures for balances and deficits held by schools for the financial year 2007-08. The information for 2008-09 is due to be submitted to the Department by 25 August 2009.

The Department expects schools and local authorities to work to reduce the total and we encourage local authorities to make full use of their power to claw back excessive balances and redistribute it to where it is needed in their area. If balances do not reduce substantially, the Department will consult on further action from 2011-12 to bring the total down.

Schools: Essex

Bob Spink: To ask the Secretary of State for Children, Schools and Families what timetable he has set for meeting hon. Members representing constituencies in Essex to discuss school closures. [285745]

Ms Diana R. Johnson: As discussed during Prime Minister's Questions on 24 June 2009, *Official Report*, column 793W and following on from the Whitsun Recess Questions, my right hon. Friend, the Secretary of State, has given a commitment to meet hon. Members representing constituencies in Essex to discuss school closures. Correspondence has recently been received from the hon. Member for Colchester (Bob Russell) requesting this meeting. My right hon. Friend the Secretary of State is in the process of responding to this with view to arranging a meeting after the summer recess.

Young People: Housing

Annette Brooke: To ask the Secretary of State for Children, Schools and Families what his policy is on liaison between housing officers and social services following a request from a 17-year-old girl for accommodation; and what guidance his Department has issued to local authorities on the provision of mediation and counselling services to the families of such girls when that family includes a 15-year-old sister prior to the arrangement of independent accommodation. [286345]

Dawn Primarolo: In order to ensure that children and young people who are at risk of homelessness receive the support they need it is important that the various statutory services in place to protect them are joined up. In the circumstances described we would expect children's and Housing services to follow the joint DCLG and DCSF guidance Joint working between Housing and Children's Services - Preventing homelessness and tackling its effects on children and young people.

This says that Children's Services and Housing Services should establish arrangements in their areas for ensuring that a Common Assessment Framework assessment is considered for all children and young people who come to the attention of authorities as homeless or at risk of homelessness. Such an assessment would include looking at a range of issues, including their family and home circumstances.

If the young person was not at risk of harm at home, services should look at what can be done to support the young person and their family to enable the young person to continue living at home. This could include the provision of mediation and counselling services where it was felt this would meet a specific need.

Young People: Oxfordshire

Tony Baldry: To ask the Secretary of State for Children, Schools and Families pursuant to the Draft Legislative Programme 2009, Cm 7654, page 20, who in Oxfordshire will be responsible for delivering the commitment that every young person should give at least 50 hours of service to their community in their teenage years. [284933]

Mr. Iain Wright: We intend to build on existing good practice by implementing the £146 million package of measures announced by the Prime Minister on April 24 this year when he set out our ambition that, in time, all young people should contribute at least 50 hours to their local community by the age of 19.

The package includes £7 million to run a set of intensive pilots to test ways of delivering significant increases in the proportions of young people within a given area participating in community service. These pilots will involve over 14,000 14 to 16-year-olds in the next two years and will provide valuable lessons to help schools provide more service opportunities for their pupils through partnerships that will increase the supply of high quality community service opportunities, and also the interest of young people in serving their communities.

CULTURE, MEDIA AND SPORT

Departmental Databases

Mr. Watson: To ask the Secretary of State for Culture, Media and Sport what information databases his Department *(a)* maintains and *(b)* uses which do not contain personal information. [284395]

Mr. Sutcliffe: My Department outsources management of all Databases. The databases it uses which do not contain personal information are:

Argus (Government Art Collection Database)
Asset Tracking
Cabinet Committee Correspondence
Calendar of Events
Calendar of IT Works Database
Central Information and Briefing Wiki
Directors blog
Livelink (Electronic Records management Repository)
Nakisa (Internal Telephone Directory)
Parliamentary Questions
Sharepoint Portal Sites
TABS Room Booking
User Account Report Form

Jenny Willott: To ask the Secretary of State for Culture, Media and Sport how many *(a)* attempts and *(b)* successful attempts were made to gain unauthorised access to each (i) database and (ii) ICT system run by his Department in each of the last five years; and if he will make a statement. [286548]

Mr. Sutcliffe: No successful attempts were made to gain unauthorised access to each (i) database and (ii) ICT system run by my Department in each of the last five years. The information on the total number of unsuccessful attempts could be provided only at disproportionate cost.

Departmental Internet

Mr. Watson: To ask the Secretary of State for Culture, Media and Sport when his Department plans to update its web browsers from Internet Explorer 6. [285019]

Mr. Sutcliffe: My Department will have completed the move to Internet Explorer 7 by the end of August. We are also looking at our longer term web browser strategy.

Departmental Procurement

Bob Spink: To ask the Secretary of State for Culture, Media and Sport what changes have been made to his Department's *(a)* office equipment and *(b)* stationery purchasing policy in the last six months. [285307]

Mr. Sutcliffe: The Department's policies regarding the purchase of office equipment and stationery have not changed in the last six months. Our policy is to buy sustainable and environmentally friendly products using collaborative agreements which have been established though organisations such as OGC Buying Solutions.

Departmental Secondment

Sarah Teather: To ask the Secretary of State for Culture, Media and Sport how many employees of his Department have been posted to work in offices of hon. Members of each political party in each of the last five years. [284975]

Mr. Sutcliffe: The Department for Culture, Media and Sport have had no employees posted to work in offices of hon. Members of each political party in the last five years.

Digital Broadcasting: North Yorkshire

Miss McIntosh: To ask the Secretary of State for Culture, Media and Sport what estimate he has made of the number of homes which have access to digital television in *(a)* the Vale of York and *(b)* North Yorkshire. [286161]

Mr. Simon: Presently, 83 per cent. of households in Yorkshire can receive digital television via an aerial. After switchover, 99 per cent. will be able to watch around 17 TV channels and 97 per cent. will be able to watch additional channels, all via an aerial. We do not have individual figures for the Vale of York and North Yorkshire.

Digital Switchover

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what estimate his Department has made of the number of appliances to be made redundant by *(a)* digital television switchover, *(b)* the roll-out of universal broadband access and *(c)* digital radio switchover. [282618]

Mr. McFadden: I have been asked to reply.

The answers to the question are as follows:

(a) Digital switchover itself does not require any equipment to be thrown away. Virtually any analogue TV can be converted to digital with the addition of a set-top box. We recognise that some consumers may use digital switchover as an opportunity to upgrade their TV and/or to dispose of analogue TV equipment (TVs and recorders). Research undertaken for DEFRA and DTI in 2006 indicated that switchover was not expected to cause any significant overall increase in TV or recorder disposals. For example, it predicted a 1 per cent. increase in recorder disposals. There is no current evidence to show additional disposal of equipment that can be attributed to digital switchover.

(b) No estimate has been made on equipment that may be redundant on the roll-out of Universal Broadband Access. Whether or not equipment would be made obsolete will depend on the technologies used to provide the universal service. This will be determined by the procurement process, and the subsequent bids from providers.

(c) Ofcom's research in September 2008 showed that about 45.9 million analogue-only radio devices were in use in the UK at least once a week. In addition their research showed that there were about 22.5 million cars with an analogue-only radio. There are no plans to close all services which these radios can receive. However to enable these radios to continue to receive a full range of services, in Digital Britain: Final Report we urge manufacturers to look closely at the market opportunities for DAB to 'FM re-broadcasters', a set-top box solution for analogue radio, as a means of allowing existing analogue radios to receive DAB in the future.

The Digital Britain Report may be found at:

http://www.dcms.gov.uk/what_we_do/broadcasting/5631.aspx

English Heritage: Pay

Mrs. Spelman: To ask the Secretary of State for Culture, Media and Sport what remuneration the Chair of English Heritage will receive in 2010-11; what employer pension contributions will be paid on the chair's behalf; and what the maximum potential bonus payment is. [285778]

Mr. Bradshaw: Baroness Andrews will commence her duties as Chair of English Heritage on 27 July 2009 for a period of four years. Her salary is £45,000 per annum for a commitment of 90 days per annum and it is non-pensionable. In addition, she may claim for travel and subsistence. Bonuses are not paid.

National Football Centre

Joan Walley: To ask the Secretary of State for Culture, Media and Sport what reports he has received on the proposed date of completion of the National Football Centre; and if he will make a statement. [284814]

Mr. Sutcliffe: The National Football Centre, including timescale for completion, is a matter for the Football Association. I have asked the Football Association to write to the hon. Member for Stoke-on-Trent, North (Joan Walley) directly.

Radio Frequencies

Peter Luff: To ask the Secretary of State for Culture, Media and Sport which representatives of the programme making and special events industry were consulted by the independent Spectrum Broker during his review of the sale of the radio spectrum; by what methodology such representatives were selected; and if he will make a statement. [278305]

Mr. McFadden: I have been asked to reply.

The Government appointed the Independent Spectrum Broker in February 2009 to take forward the spectrum modernisation plans that had been set out in the Interim Digital Britain Report. The Independent Spectrum Broker was asked by the Government to address how the existing challenges to future auctions and liberalisation might be resolved, whether historic spectrum allocations might be placed on a more even footing, how better incentives for investment and development of services might be encouraged and a fair return for the tax payer from any new arrangements achieved. His report was published on 13 May 2009.

To my knowledge the Independent Spectrum Broker has not had any specific meetings with any representatives from the programme making and special events (PMSE) sector, but he is now in the next phase of his work and would be happy to meet with the PMSE community.

Radio: North West

Andrew Stunell: To ask the Secretary of State for Culture, Media and Sport what estimate his Department has made of the number of analogue radios in use in the North West. [285800]

Mr. Simon: My Department has made no estimation of the number of analogue radios in the north-west. However, research conducted by Ofcom in 2008, showed that about 45.9 million analogue radio devices were in use in the UK at least once a week. In addition their research showed that there were about 22.5 million cars with an analogue radio.

WORK AND PENSIONS

Child Support Agency: Consultants

Bob Spink: To ask the Secretary of State for Work and Pensions how much the Child Support Agency spent on consultants in each year since 2006-07. [279626]

Helen Goodman: The Child Maintenance and Enforcement Commission is responsible for the child maintenance system. I have therefore asked the Child Maintenance Commissioner to write to the hon. Member with the information requested.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Child Maintenance Commissioner as the Child Support Agency is now the responsibility of the Child Maintenance and Enforcement Commission.

You asked the Secretary of State for the Department for Work and Pensions, how much the Child Support Agency spent on consultants in each year since 2006-07. [279626]

The Child Support Agency spend on consultants was £5.2 million in 2006/07, £3.2 million in 2007/08 and £2.8 million in 2008/09.

I hope you find this answer helpful.

Children: Maintenance

Andrew Selous: To ask the Secretary of State for Work and Pensions what her most recent estimate is of the proportion of parents with care with a child maintenance entitlement who are *(a)* not receiving maintenance payments and *(b)* receiving less that their full maintenance entitlement. [274721]

Helen Goodman *[holding answer 12 May 2009]:* The Child Maintenance and Enforcement Commission is responsible for the child maintenance system. I have therefore asked the Child Maintenance Commissioner to write to the hon. Member with the information requested.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question the Secretary of State promised a substantive reply from the Child Maintenance Commissioner.

You asked the Secretary of State for Work and Pensions, what his most recent estimate is of the proportion of parents with care with a child maintenance entitlement who are (a) not receiving maintenance payments and (b) receiving less that their full maintenance entitlement. [274721]

In the twelve months to the end of March 2009, the Commission estimates that 78% of cases due maintenance received payment. The table below sets out the Child Maintenance and Enforcement Commission's estimate of the proportion of cases who received all the maintenance due (fully compliant cases) and those cases who did not receive any of the maintenance due (non-compliant cases) in the twelve months to the end of March 2009.

	Percentage
Cases fully compliant	44
Cases receiving 70-99 per cent.	16
Cases receiving less than 70 per cent.	18
Cases not compliant	22

I hope you find this answer helpful.

Mr. Frank Field: To ask the Secretary of State for Work and Pensions what the *(a)* mean and *(b)* median amount of arrears owed by non-resident parents to the Child Support Agency and Child Maintenance and Enforcement Commission was in each month since 1993. [278841]

Helen Goodman *[holding answer 9 June 2009]:* The Child Maintenance and Enforcement Commission is responsible for the child maintenance system. I have therefore asked the Child Maintenance Commissioner to write to my right hon. Friend with the information requested.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Child Maintenance Commissioner as the Child Support Agency is now the responsibility of the Child Maintenance and Enforcement Commission.

You asked the Secretary of State for Work and Pensions, what the (a) mean and (b) median amount of arrears owed by non-resident parents to the Child Support Agency and Child Maintenance and Enforcement Commission was in each month since 1993. [278841]

The information requested is provided in the attached tables. Outstanding maintenance arrears are not owed to the Child Support Agency or to the Child Maintenance and Enforcement Commission but are owed by non-resident parents either to the parent with care or to the Secretary of State.

Table 1 shows the level of outstanding maintenance arrears owed by non-resident parents to parents with care. Table 2 shows the total amount of arrears owed to both the parent with care and to the Secretary of State.

I hope you find this answer helpful.

Table 1: Cases with maintenance arrears owed to the parent with care (PWC)

	Cases	*Total arrears (£ billion)*	*Mean amount owed to PWC (£)*	*Median amount owed to PWC (£)*
March 2007	636,500	1.721	2,700	600
April 2007	643,400	1.731	2,700	600
May 2007	650,900	1.744	2,700	600
June 2007	656,600	1.751	2,700	600
July 2007	659,600	1.760	2,700	600
August 2007	666,900	1.767	2,700	600
September 2007	670,600	1.778	2,700	600
October 2007	676,200	1.786	2,600	600
November 2007	682,300	1.792	2,600	600
December 2007	686,800	1.805	2,600	600
January 2008	688,400	1.810	2,600	600
February 2008	687,600	1.804	2,600	600
March 2008	697,100	1.822	2,600	600
April 2008	702,500	1.827	2,600	600
May 2008	706,900	1.835	2,600	500
June 2008	711,800	1.842	2,600	500
July 2008	717,700	1.848	2,600	500
August 2008	718,700	1.854	2,600	500
September 2008	718,800	1.863	2,600	500
October 2008	827,400	1.868	2,300	400
November 2008	852,100	1.885	2,200	300
December 2008	863,000	1.906	2,200	400
January 2009	858,600	1.918	2,200	400
February 2009	858,700	1.926	2,200	400
March 2009	861,400	1.932	2,200	400

Notes:
1. Data are only available from March 2007 onwards.
2. Information provided only includes cases where arrears are owed to the parent with care. This excludes arrears owed to the Secretary of State as well as some cases where the parent with care owes money.
3. Case figures are rounded to nearest 100, total arrears are rounded to the nearest million, and the mean and median amounts owed are rounded to the nearest 100.

Table 2: Cases with maintenance arrears owed to the parent with care and Secretary of State

	Cases	*Total arrears (£ billion)*	*Mean amount owed (£)*	*Median amount owed (£)*
March 2007	979,100	3.687	3,800	800
April 2007	989,300	3.698	3,700	800
May 2007	999,900	3.711	3,700	800
June 2007	1,011,300	3.728	3,700	800
July 2007	1,019,800	3.737	3,700	800
August 2007	1,026,600	3.748	3,700	800
September 2007	1,036,300	3.757	3,600	700
October 2007	1,042,600	3.771	3,600	700
November 2007	1,049,400	3.781	3,600	700
December 2007	1,056,500	3.787	3,600	700
January 2008	1,063,100	3.804	3,600	700
February 2008	1,065,900	3.809	3,600	700
March 2008	1,060,300	3.779	3,600	700
April 2008	1,078,000	3.823	3,500	700
May 2008	1,084,400	3.828	3,500	700
June 2008	1,089,700	3.839	3,500	700
July 2008	1,096,100	3.845	3,500	700
August 2008	1,102,100	3.851	3,500	700

Table 2: Cases with maintenance arrears owed to the parent with care and Secretary of State

	Cases	Total arrears (£ billion)	Mean amount owed (£)	Median amount owed (£)
September 2008	1,099,000	3.852	3,500	700
October 2008	1,092,100	3.865	3,500	700
November 2008	1,092,600	3.840	3,500	700
December 2008	1,093,000	3.870	3,500	700
January 2009	1,098,400	3.882	3,500	700
February 2009	1,092,700	3.882	3,600	700
March 2009	1,091,100	3.878	3,600	700

Notes:
1. Data are only available from March 2007 onwards.
2. Case figures are rounded to nearest 100, total arrears are rounded to the nearest million, and the mean and median amounts owed are rounded to the nearest 100.

Mr. Frank Field: To ask the Secretary of State for Work and Pensions (1) how many *(a)* compliant non-resident parents and *(b)* non-compliant non-resident parents who were registered with the Child Support Agency on the latest date for which figures are available were paying maintenance at the (i) basic, (ii) reduced, (iii) flat and (iv) nil rate; [279120]

(2) what steps are taken to monitor the income and maintenance liability of non-resident parents in respect of whom the Child Support Agency has made nil maintenance calculations. [281754]

Helen Goodman: *[holding answers 12 and 22 June 2009]:* The Child Maintenance and Enforcement Commission is responsible for the child maintenance system. I have therefore asked the Child Maintenance Commissioner to write to the right hon. Member with the information requested.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Child Maintenance Commissioner as the Child Support Agency is now the responsibility of the Child Maintenance and Enforcement Commission.

You asked the Secretary of State for Work and Pensions, how many (a) compliant non-resident parents and (b) non-compliant non-resident parents who were registered with the Child Support Agency on the latest date for which figures are available were paying maintenance at the (i) basic rate, (ii) reduced rate, (iii) flat rate and (iv) nil rate. [279120] and;

What steps are taken to monitor the income and maintenance liability of non-resident parents in respect of whom the Child Support Agency has made nil maintenance calculations. [281754]

The terms, basic, reduced, and flat rate maintenance apply to current scheme cases only. The information you have requested for compliant non-resident parents in these categories is shown in the attached table. Compliance is defined as those non-resident parents in each quarter who have paid maintenance. Non-compliant non-resident parents are those from whom maintenance has been requested but who have not paid maintenance in the previous quarter. Therefore I have also included information on non-compliant cases assessed at the basic, reduced, flat rate maintenance for current scheme cases only in the attached table.

It should be noted that the compliance measure has been replaced by the more useful maintenance outcomes measure, which includes both those cases where the non-resident parent pays maintenance direct to the parent with care and those cases with a maintenance assessment but which have yet to be asked for maintenance. This is a more accurate measure of the impact the Commission is having on improving the proportion of parents paying maintenance. I have therefore also set out the number of cases with a positive maintenance outcome under the categories you have requested in the attached Table 2.

In addition to the information on basic, reduced and flat rate current scheme cases set out in the attached table, in the quarter to March 2009 there were 106,300 current scheme cases with a nil maintenance assessment.

The Child Support Agency is required to recalculate the maintenance liability when either parent provides information indicating that relevant circumstances have changed. It does not contact clients who have not reported any change to review their current maintenance liability.

Under the future statutory child maintenance scheme, the Commission will calculate maintenance liability based on a non-resident parent's gross income. This information will be provided by HM Revenue and Customs (HMRC) and will be for the latest available tax year. Maintenance liability will also be reviewed annually with updated information received from HMRC, ensuring that in cases where neither parent has reported a change of circumstances any change in gross income will be notified to the Commission.

As with the current scheme, either parent will be able to notify the Commission of a change of circumstances which affects gross income and therefore maintenance liability. Cases with a change of circumstances which would trigger a review of a nil maintenance calculation can be reassessed without waiting for confirmation of the gross income from HMRC. It is intended that this new statutory maintenance scheme will be introduced from 2011, with existing cases moving to the new scheme over a period of 3 years.

I hope you find this answer helpful.

Table 1: Compliance

	Flat rate	Basic rate	Reduced rate
Compliant	93,800	111,900	26,700
Non-compliant	46,600	29,000	11,300

Table 2: Maintenance outcomes

	Flat rate	Basic rate	Reduced rate
Cases receiving maintenance	111,700	192,500	46,200
Cases not receiving maintenance	69,100	50,300	18,700

Notes:
1. The compliance measure includes those cases where a payment has been requested in the quarter to March 2009.
2. Compliant cases have been classed as those cases which have paid maintenance in the quarter to March 2009, excluding maintenance direct cases.
3. Non-compliant cases have been classed as those cases which have a payment schedule in place and have not paid maintenance in the quarter to March 2009, excluding maintenance direct cases.
4. Under Maintenance Outcomes, cases receiving maintenance includes those cases with a positive maintenance assessment receiving maintenance, including maintenance direct cases.
5. Cases not receiving maintenance include cases with a maintenance assessment where the agency has not yet asked for payment.
6. All figures are rounded to the nearest 100.
7. All figures include current scheme cases only.

Mr. Frank Field: To ask the Secretary of State for Work and Pensions with reference to the answer of 24 November 2008, *Official Report*, columns 977-8W, on the Child Maintenance and Enforcement Commission: ICT, what the budget for the gross income statutory maintenance scheme is. [279988]

Helen Goodman *[holding answer 15 June 2009]:* The Child Maintenance and Enforcement Commission is responsible for the child maintenance system. I have therefore asked the Child Maintenance Commissioner to write to the right hon. Member with the information requested.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question, the Secretary of State promised a substantive reply from the Child Maintenance Commissioner.

You asked the Secretary of State for Work and Pensions with reference to the Answer of 24 November 2008 Official Report columns 977-8W on the Child Maintenance and Enforcement Commission: ICT what the budget for the gross income statutory maintenance scheme is. [279988]

The Child Maintenance and Enforcement Commission has agreed funding and budgets only until March 2011, when the current spending review period ends. In the current spending review period the Commission has set aside £215m as investment in new services. These costs cover implementing the new legislation; developing, building and launching the future statutory maintenance scheme; recruiting and training the additional people needed during the transition period; setting up and managing the first residual arrears cases; and redesigning and restructuring the organisation and its processes. During this period of great change, long term costs and funding will be continually reviewed to ensure the greatest efficiency and effectiveness is achieved when providing the statutory maintenance scheme.

I hope you find this answer helpful.

Mr. Sanders: To ask the Secretary of State for Work and Pensions what account the Child Maintenance and Enforcement Commission takes of the circumstances of *(a)* resident parents and their families and *(b)* non-resident parents and their families in determining child maintenance. [281841]

Helen Goodman: The Child Maintenance and Enforcement Commission is responsible for the child maintenance system. I have therefore asked the Child Maintenance Commissioner to write to the hon. Member with the information requested.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Maintenance and Enforcement Commission, the Secretary of State promised a substantive reply from the Child Maintenance Commissioner.

You asked the Secretary of State for Work and Pensions, what account the Child Maintenance and Enforcement Commission takes of the circumstances of (a) resident parents and their families and (b) non-resident parents and their families in determining child maintenance. [281841]

Different rules apply to the calculation of child maintenance liabilities, dependant on whether the application for maintenance was effective before the 3rd of March 2003 (such cases are referred to as the "old scheme") or received on or after this date (and referred to as the "current scheme").

In the old scheme, the income of both the parent with care and the non-resident parent is taken into account where the Child Support Agency calculates the amount of child maintenance that the non-resident parent should pay. The personal circumstances of both parents are recognised in the assessment process insofar that the Agency must take into account the amount each parent pays in housing costs, for example, and also in the inclusion of certain allowances where parents have to support dependant children.

The process for the current scheme is more straightforward. The amount of maintenance that should be paid is based solely on the net weekly income of the non-resident parent, and the circumstances of the parent with care are not taken into account. However, if there are any children residing in the non-resident parent's household then the net weekly income on which the maintenance assessment is based will be reduced by a set percentage, prior to a maintenance calculation being completed. A further reduction may also apply if the non-resident parent is on a low income.

I hope you find this answer helpful.

Mr. Sanders: To ask the Secretary of State for Work and Pensions how many formal complaints were received by the Child Maintenance and Enforcement Commission and its predecessor in each of the last five years; and how many such complaints were upheld. [281845]

Helen Goodman: The Child Maintenance and Enforcement Commission is responsible for the child maintenance system. I have therefore asked the child maintenance commissioner to write to the hon. Member with the information requested.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Child Maintenance Commissioner as the Child Support Agency is now the responsibility of the Child Maintenance and Enforcement Commission.

You asked the Secretary of State for Work and Pensions, how many formal complaints were received by the Child Maintenance and Enforcement Commission and its predecessor agencies in each of the last five years; and how many such complaints were upheld. [281845]

The number of complaints received is shown in the attached table. The Child Maintenance and Enforcement Commission took responsibility for the Child Support Agency on the 1st November 2008. Therefore, for 2008/2009, complaints received prior to 1st November will be directed to the Child Support Agency and complaints received post 1st November will be directed to the Commission.

It is not possible to provide information on the number of complaints that were upheld, as this information is not captured within the management information.

I hope you find this answer helpful.

Complaints per financial year

Financial year	*Complaints*
2004-05	63,800
2005-06	62,100
2006-07	47,900
2007-08	37,600
2008-09	27,800

Notes:

1. Figures are rounded to the nearest 100.
2. Figures for 2008-09 include complaints received by the Child Support Agency prior to 1 November 2008, and the Child Maintenance and Enforcement Commission from the 1 November 2008.
3. These figures are published in the Child Support Agency's Annual Report and Accounts.
4. From April 2007, the Agency introduced a new complaints resolution process, which among others simplified the process from three stages to two stages.

Mr. Sanders: To ask the Secretary of State for Work and Pensions how many applications in respect of child maintenance the Child Maintenance and Enforcement Commission and its predecessor has made to the courts in each of the last five years. [281847]

Helen Goodman: The Child Maintenance and Enforcement Commission is responsible for the child maintenance system. I have therefore asked the Child Maintenance Commissioner to write to the hon. Member with the information requested.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Child Maintenance Commissioner as the Child Support Agency is now the responsibility of the Child Maintenance and Enforcement Commission.

You asked the Secretary of State for Work and Pensions, how many applications in respect of child maintenance the Child Maintenance and Enforcement Commission and its predecessor has made to the courts in each of the last five years. [281847]

The Child Maintenance and Enforcement Commission are currently required to apply to the courts for a liability order to obtain legal recognition of the child maintenance arrears owed. Once a liability order has been granted the Commission can then refer the case for bailiff action, or prepare a further application to the court to secure; County Court Judgments, Third Party Debt Orders and Charging Orders. In addition, where there is a wilful refusal to pay child maintenance the Commission can apply to the court to consider the suspension of a driving licence or committal to prison.

The total number of enforcement processes undertaken, including those applications listed above which were granted are regularly published in Table 21 of the March 2009 Child Support Agency Quarterly Summary of Statistics (QSS). The latest copy of which is available online at:

www.childmaintenance.org/publications/statistics.html and in the House of Commons Library.

In addition to the information provided in Table 21, an extract of which is attached below, the number of committal applications for 2008-09 was 2,940. Information is not available on the number of committal applications prior to 2008-09.

I hope you find this answer helpful.

Child Support Agency—Total enforcement applications granted

	April 2004-March 2005	*April 2005-March 2006*	*April 2006-March 2007*	*April 2007-March 2008*	*February 2007-January 2008*	*February 2008-January 2009*
Total applications granted	11,665	17,640	20,725	24,240	23,960	32,980
Liability orders granted	7,760	11,245	13,510	17,755	17,235	25,090
County Court Judgement orders	1,315	2,330	1,920	1,390	1,620	630
3rd Party Debt orders	1,235	1,710	2,090	1,790	1,855	2,435
Charging orders	845	1,335	1,850	1,735	1,780	2,490
Suspended committal sentences	225	390	420	480	525	510
Committal Sentences	5	15	40	25	[redacted]	30
Suspended driving licence disqualification sentences	25	35	30	15		30
Driving licence disqualification sentences	5	5	5	5	5	5

Notes:
The information contained in the table relates to applications granted—not applications made. Information on applications made is not available.
2. A liability order is a document obtained from the court showing that they legally recognise that the debt is owing. This is the same in both England and Wales and Scotland. This is required before the Agency can use litigation powers (Diligence in Scotland).
3. County Court Judgement orders apply only to England and Wales. Registers the person with a County Court Judgement Order, which remains on their credit record for six years.
4. Third Party Debt orders in England and Wales instruct a third party to pay any funds owed to, or held on behalf of, the non-resident parent to the Agency instead. In practice this is typically used for banks and building societies.
5. Charging orders in England and Wales are where a County Court Order for the legally recognised debt is attached to the equity in the non-resident parent's property. They are then unable to re-mortgage or sell the property without satisfying the debt. If they satisfy the debt by other means the charge is removed.
6. Note that the figures for the most recent months are provisional, and may be subject to retrospective revisions.
7. Figures are rounded to the nearest five.

Departmental Internet

Mr. Watson: To ask the Secretary of State for Work and Pensions when her Department plans to update its web browsers from Internet Explorer 6. [285023]

Jim Knight: The Department is planning to upgrade its web browser from Internet Explorer 6 to a more recent version by the end of 2009. The final timetable for implementation will be decided once the newer browser has been tested and the Department is satisfied that it will support the Department's core systems.

Domestic Waste: Regulation

Mr. Stewart Jackson: To ask the Secretary of State for Work and Pensions what guidance the Health and Safety Executive has issued to local authorities in relation to the collection of household waste; and whether it has plans to issue *(a)* revised and *(b)* further guidance. [284088]

Jonathan Shaw: The Health and Safety Executive (HSE) produces the following guidance documents relating to the collection of household waste, including recyclables.

Good practice guidance documents produced jointly by HSE and the Waste Industry Safety and Health (WISH) Forum (except for Waste 15 which was produced solely by HSE):

Waste 02: Green waste collection: Health issues;

Waste 04: Waste and recycling vehicles in street collections;

Waste 05: The safe use of refuse collection vehicle hoists and bins;

Waste 15: Health Hazards in the waste and recycling industry;

Waste 16: Glass kerbside collection: Noise reduction techniques;

Waste 17: Managing 'task and finish' to reduce safety risks;

Waste 19: Handling needles in the waste and recycling industry;

Waste 21: Health and safety training: guidelines for the waste management and recycling sector;

Waste 22: Handling offensive hygiene waste; and

Waste 23: Safe waste and recycling collection services.

Research reports made available by the HSE as part of a series of reports of work which has been supported by funds provided by the HSE:

RR701: Update to mapping health and safety standards in the UK waste industry;

RR651: Glass recycling; noise exposure from simulated roadside collection of recyclable glass—follow-up measurements;

RR609: Collecting, transfer, treatment and processing household waste and recyclables—a tool to help organisations select the most appropriate system (in terms of health and safety risk);

RR240: Mapping health and safety standards in the UK waste industry; and

RR130: Occupational and environmental exposure to bio-aerosols from composts and potential health effects—a critical review of published data.

Health and Safety Laboratory Reports funded by the HSE:

HSL/2007/21: Glass recycling: noise exposure from simulated roadside collection of recyclable glass;

HSL/2006/25: Manual handling in kerbside collection and sorting of recyclables; and

HSL/2002/21: Manual handling in refuse collection.

Guidance can also be accessed free of charge from the waste management and recycling pages on the HSE website.

HSE has no immediate plans to revise its existing guidance.

HSE is currently preparing new guidance for local authorities on the management of health and safety in waste collection service contracts and delivery. This will apply irrespective of whether the work is carried out by contractors or a local authority direct labour force. The planned publication date is spring 2010.

Employment and Support Allowance

Mr. Sanders: To ask the Secretary of State for Work and Pensions how far in advance of expecting to become eligible for employment support allowance an individual may submit an application for it. [283165]

Jim Knight: An advance claim for employment and support allowance can be made if a claimant does not satisfy the conditions of entitlement on the date on which a claim is made but will satisfy them for a future period. The future period must begin on a day which is no more than three months after the date of claim. These provisions do not apply to income related employment and support allowance claimants from abroad (including claimants who are not habitually resident in the UK). If an advance award is made it is subject to the claimant satisfying the conditions for entitlement when the date from which benefit is to be awarded is reached.

Employment Schemes

Mrs. May: To ask the Secretary of State for Work and Pensions (1) how many employment subsidy vouchers have been *(a)* issued and *(b)* cashed by employers; [283567]

(2) how many employers have *(a)* cashed an employment subsidy voucher as part of the six month offer to jobseeker's allowance claimants and *(b)* used the six month offer employment subsidy in bulk as part of their work with Jobcentre Plus in local employment partnerships; [283568]

(3) how many people have taken up *(a)* the golden hello including (i) the £1,000 recruitment subsidy and (ii) £1,500 worth of training, *(b)* support for self-employment, *(c)* one of the 40,000 additional volunteering opportunities and *(d)* one of the 75,000 new training places under the six month offer. [283569]

Jim Knight: The recruitment subsidy and the six month offer were introduced on 6 April 2009. The Department is working to guidelines set by the UK Statistics Authority to ensure we are able to publish statistics that meet high quality standards at the earliest opportunity.

Financial Assistance Scheme

Mrs. May: To ask the Secretary of State for Work and Pensions how much has been paid out under the Financial Assistance Scheme (FAS) to members of qualifying pension schemes; and how many and what proportion of such members have received payments from the FAS. [283544]

Angela Eagle: As of 19 June 2009 the FAS Operational Unit (FASOU) has assessed 666 schemes for payment and from these 12,126 people are now receiving payments. We have paid out more than £60,000,000.

All members who have notified the FASOU and are eligible for the FAS are receiving payments. We have assessed a further 692 members who will be paid when they return their personal details and a further 3581 members who will be paid when they reach their normal retirement age.

Mrs. May: To ask the Secretary of State for Work and Pensions how many complaints her Department has received about the Financial Assistance Scheme since December 2007. [283580]

Angela Eagle: Since December 2007, the financial assistance scheme operational unit has received eight customer complaints.

Health and Safety Executive: Communication Service Providers

Mrs. Laing: To ask the Secretary of State for Work and Pensions how many requests for communications data were made by the Health and Safety Executive to communication service providers (CSPs) under the Health and Safety at Work etc Act 1974 in *(a)* 2000, *(b)* 2001, *(c)* 2002, *(d)* 2003, *(e)* 2004, *(f)* 2005, *(g)* 2006, *(h)* 2007 and *(i)* 2008; and how many of these requests resulted in the requested communications data being disclosed by the relevant CSP. [284869]

Jim Knight: Before 2004, HSE sought information from communication service providers (CSPs) through use of powers under the Health and Safety at Work etc Act 1974 (HSWA). These were not recorded centrally.

Since 2004, HSE has sought information through the Regulation of Investigatory Powers Act 2000 (RIPA). HSE has made no requests for communications data from CSPs under HSWA, since 2004.

The number of requests under RIPA are as follows:

	Number of requests	
	Made by HSE to CSPs	Resulting in communications data being provided
2004	47	34
2005	36	31
2006	29	12
2007	14	8
2008	14	12

Housing Benefit

Mr. Heald: To ask the Secretary of State for Work and Pensions what guidance her Department provides to local authorities on the publication of housing benefit localities; and if she will make a statement. [285215]

Helen Goodman: Broad Rental Market Areas (BRMAs) are determined by rent officers according to legislation set out in the Rent Officers Order. Once a determination of new boundaries has been made following a review of a BRMA, rent officers must inform the local authority of the new boundaries not more than one month in advance of the BRMA taking effect. Local housing allowance rates for each BRMA will be published by the Valuation Office Agency on the LHA Direct website.

Jobcentre Plus

Mrs. May: To ask the Secretary of State for Work and Pensions which jobcentres have *(a)* acquired new office space, *(b)* extended existing office space and *(c)* converted existing office space to meet the work demands of higher benefit caseloads in the last 12 months. [283590]

Jim Knight: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the right hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your questions asking which jobcentres have (a) acquired new office space, (b) extended existing office space and (c) converted existing office space to meet the work demands of higher benefit caseloads in the last 12 months. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

Jobcentre Plus Customer Service Directors were asked to review their existing service delivery arrangements in meeting the challenge of the current economic climate and taking into account the planned welfare reform changes for the next two to three years. This review took into account the latest known information on the expected increase in business and customer volumes.

This exercise has identified that around 50 per cent. of Jobcentre Plus offices currently face capacity pressures. These pressures will be met through a range of solutions and we are unable to provide the data to fully respond to your questions (a, b and c) until all of these solutions have been implemented.

In the light of the increased customer demand we have embarked on a programme to convert or extend our existing buildings where necessary. In addition we aim to make our services more accessible to customers by providing a range of support through outreach, often delivering advisory and other support on partners' premises. We are supplementing these measures by operating extended opening hours in some locations where the need for this is identified locally. This includes some offices opening to the public on Saturday. We will only acquire new space where all other measures are insufficient.

To date estates work has been undertaken on 18 of our buildings to increase our capacity to serve the public and these works are now complete. Detailed estates planning is under way on a further 151 of our buildings. We are finalising our plans to meet the capacity challenge in the remainder of our offices.

Mr. Harper: To ask the Secretary of State for Work and Pensions what estimate she has made of the number of working days lost of staff of Jobcentre Plus in *(a)* each month since January 2008 and *(b)* each year since 1997. [285805]

Jim Knight: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your question asking what estimate she has made of *(a)* the number of working days lost for staff of Jobcentre Plus in each month since January 2008 and *(b)* the average number of such working days lost in each year since 1997. This is something which falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

Available information is shown in the following tables.

Average working days lost by month

	Number
January 2008	10.2
February 2008	10.1
March 2008	10.1
April 2008	10.1
May 2008	10.0
June 2008	10.0
July 2008	10.0
August 2008	9.8
September 2008	9.7
October 2008	9.6
November 2008	9.7
December 2008	9.7
January 2009	9.5
February 2009	9.4
March 2009	9.3
April 2009	9.1
May 2009	9.0

Source:
The monthly information provided has been drawn from the MI Portal for the period January 2008 to October 2008 and from BOXI for the subsequent period from November 2008 to May 2009 (the latest information available).

Average working days lost by year

	Number
2003	12.0
2004	9.8
2005	10.3
2006-07	11.1
2007-08	10.1
2008-09	9.3

Sources:
2003 to 2006-07 - the Cabinet Office's annual report 'Analysis of sick absence in the Civil Service'; 2007-08 and 2008-09 - DWP's HR computer systems.

I am unable to provide annual information from 1997 as Jobcentre Plus was only formed in April 2002. The annual information provided for the first three years (2003 to 2005) relates to each calendar year reported in the Cabinet Office's Annual Report 'Analysis of sick absence in the Civil Service'. For 2006-07, the reporting period changed from calendar year to our operational year (April to March).

Jobcentre Plus: Access

Mr. Harper: To ask the Secretary of State for Work and Pensions what recent assessment her Department has made of levels of accessibility of Jobcentre Plus offices for elderly and disabled people; and if she will make a statement. [285148]

Jim Knight *[holding answer 8 July 2009]:* The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your question asking what recent assessment her Department has made of levels of accessibility of Jobcentre Plus offices for elderly and disabled people. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

Jobcentre Plus offices are designed to include accessibility measures for the elderly and disabled people in accordance with statutory requirements and Building Regulations. These measures are reviewed annually by the Department's external facilities provider, Telereal Trillium, as part of the annual building assessment which they are responsible for carrying out under the private finance initiative negotiated in 1998. The annual assessments may be carried out sooner if there is a major reconfiguration of a building, to check that our statutory and regulatory responsibilities are fully met.

Our departmental policy on provision of services requires us to ensure that both offices and processes do not discriminate against any of our customers. If any of our customers do have any real difficulty with accessing services in an office, we are always able to offer other options to meet their needs, for example home visits or call back arrangements.

Jobcentre Plus: Consultants

Bob Spink: To ask the Secretary of State for Work and Pensions how much Jobcentre Plus spent on consultants in *(a)* 2006-07 and *(b)* 2007-08. [279382]

Jim Knight: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State for Work and Pensions has asked me to respond to your question asking how much Jobcentre Plus spent on consultants in (a) 2006-07 and (b) 2007-08. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

Jobcentre Plus spent £6m on consultancy costs in 2006/07 and £11m in 2007/08.

Departmental Financial Systems

Jobcentre Plus: Disabled

John Barrett: To ask the Secretary of State for Work and Pensions what her Department's policy is on the provision of accessible seating for elderly and disabled people in Jobcentre Plus offices. [284248]

Jim Knight *[holding answer 3 July 2009]:* The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your question asking what her Department's policy is on the provision of accessible seating for elderly and disabled people in Jobcentre Plus offices. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

The Disability Discrimination Act requires all providers of public services to ensure that services to customers can be accessed by all, whether that is in regard to the physical office environments or by other means. Our departmental policy on provision of services requires us to ensure that both offices and processes do not discriminate against any of our customers—this includes the range of seating components in use in our public offices.

All our components are designed and risk assessed with the full business process in mind, for example taking account of waiting times at any particular stage and considering comfort alongside safety. There is also a range of chairs, which are available for our customers should any individual have a particular problem for example, waiting seating with high or low backs and a height adjustable chair can be offered if necessary. If any of our customers have any real difficulty with accessing services in an office, however, we are always able to offer other options to meet the need, for example home visits or call back arrangements.

Disability access audits were also introduced during the rollout of Jobcentre Plus, to ensure that where physically possible, our offices provided suitable access for all groups, including customers with mobility and sensory impairments.

Jobcentre Plus: Drugs

James Brokenshire: To ask the Secretary of State for Work and Pensions what assessment her Department plans to make of the effectiveness of drug co-ordinators in Jobcentre Plus. [284846]

Jim Knight: Evaluation examining the effectiveness of drug co-ordinators will take place next year. It will examine key aspects of the drug co-ordinator role in order to identify best practice and areas for improvement, and explore ways in which co-ordinators engage in wider partnership working. The research will explore the perceptions and experiences of a range of stakeholders, including service users.

Jobcentre Plus: Manpower

Sarah Teather: To ask the Secretary of State for Work and Pensions how many staff were employed at Jobcentre branches in each London borough in each of the last five years. [272832]

Jim Knight: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your question asking how many staff were employed at Jobcentre branches in each London borough in each of the last five years. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

The table enclosed shows the number of staff employed in Jobcentre Plus offices by London borough as at March 2008 and March 2009. Information is not available for previous years as our IT records cannot match our Jobcentre sites to local authority boroughs.

The table uses full-time equivalent (FTE) staff figures rather than actual staff numbers, as a proportion of the staff involved are part-time. Substantial recruitment of staff is ongoing across London to enable Jobcentre Plus to maintain its services to its customers.

London borough	*Full-time equivalent March 2008*	*March 2009*
Barking and Dagenham	118	130
Barnet	116	138
Bexley	111	114
Brent	186	197
Bromley	108	107
Camden	78	76
Croydon	177	198
Ealing	175	175
Enfield	172	178
Greenwich	167	175
Hackney	227	240
Hammersmith and Fulham	134	177
Haringey	161	167
Harrow	160	138
Havering	83	96
Hillingdon	98	100
Hounslow	98	89
Islington	225	223
Kensington and Chelsea	45	45
Kingston upon Thames	45	73
Lambeth	342	330
Lewisham	174	200
Merton	75	46
Newham	231	235
Redbridge	96	110
Richmond upon Thames	35	32
Southwark	205	189
Sutton	48	60
Tower Hamlets	173	170
Waltham Forest	170	181
Wandsworth	83	97
Westminster	128	138
Total	4,446	4,624

Note:
The table shows that in a small number of boroughs, staffing numbers reduced between March 2008 and March 2009. In Merton, where the biggest reduction took place, this was due to the closure of the Wimbledon office. In other cases, reductions were due to the retrenchment of clerical posts and staff and work will also have moved from one office to another, within the same Jobcentre Plus district but across borough boundaries.

Jobcentre Plus Dataview.

Jobcentre Plus: Official Hospitality

Anne Main: To ask the Secretary of State for Work and Pensions how much Jobcentre Plus has spent on hospitality and entertainment in each of the last five years. [276368]

Jim Knight: The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your question asking how much Jobcentre Plus has spent on hospitality and entertainment in each of the last five years. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

All expenditure on entertainment (also known within the Department as hospitality) is made in accordance with published Departmental guidance on financial procedures and propriety. These are based on principles set out in Managing Public Money and the Treasury Handbook on Regularity and Propriety.

The information requested is shown in the table below.

	£000
2003-04	[1]79
2004-05	28
2005-06	43
2006-07	106
2007-08	10

[1] Denotes an estimate based on analysis of expenditure for 2003-04.
Source:
DWP financial systems

The figures for 2008/09 are not yet available, but will be due for publication later this month.

Jobcentre Plus: Recruitment

Mrs. May: To ask the Secretary of State for Work and Pensions how many vacancies for front-line staff in Jobcentre Plus have been advertised since 1 January 2009; how many have been filled *(a)* internally from within Jobcentre Plus, *(b)* from another Government Department or agency and *(c)* from elsewhere; and for each vacancy that has been filled, what the length of the contract was. [268022]

Jim Knight: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the right hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your question asking how many vacancies for front-line staff in Jobcentre Plus have been advertised since 1 January 2009; how many have been filled internally from within Jobcentre Plus, from another Government Department or agency and from elsewhere; and for each vacancy that has been filled what the length of the contract was. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

I can confirm that there were from 1 January 2009 to 29 May 2009 11,856 front-line vacancies advertised across the whole of Jobcentre Plus and that 7,146 posts were filled, broken down as follows:

Internally from within Jobcentre Plus: 481

From other government departments or agencies: 214

From elsewhere: 6,451

For each appointment made within this period, the appointment type and length of the contract is as follows:

Permanent staff: 3,202

Temporary and Fixed Term Appointments: 3,249

Jobseeker's Allowance

John McDonnell: To ask the Secretary of State for Work and Pensions what data her Department collects on the living costs of jobseeker's allowance claimants aged *(a)* 25 years old or more and *(b)* under 25 years old. [281601]

Jim Knight *[holding answer 22 June 2009]:* My Department does not collect data on the living costs of jobseeker's allowance claimants.

Jobseeker's Allowance: Employment

Andrew Selous: To ask the Secretary of State for Work and Pensions what her policy is on jobseeker's allowance claimants accepting offers of short-term casual employment; what guidance her Department issues to Jobcentre Plus staff on the provision of advice to claimants on this matter; and if she will make a statement. [284232]

Jim Knight *[holding answer 3 July 2009]:* The Government recognise that work is the best way out of poverty and actively encourages customers to take up employment; this includes part-time and casual work.

In order to incentivise the uptake of part-time and casual employment and to make it easier to move back on to benefit, Jobcentre Plus has introduced a rapid reclaim process. This means that where a customer returns to jobseeker's allowance within 26 weeks the claim process is shortened and the return to benefit is simpler and quicker.

Customers can also undertake part-time or casual employment and remain on jobseeker's allowance provided that they work for less than 16 hours per week. For those who work over 16 hours in a job where they expect that work to continue for at least four weeks, working tax credit may be available.

There is no specific guidance for Jobcentre Plus staff in respect of jobseeker's allowance benefit recipients wishing to do part-time or casual employment. However, advisers are fully aware of jobseeker's allowance regulations about part-time work and actively encourage those wishing to undertake part-time or casual work while still assisting them in finding full-time work.

Key Workers

Mr. Jenkins: To ask the Secretary of State for Work and Pensions what the most recent estimate is of the number of key workers in *(a)* Tamworth constituency, *(b)* Staffordshire and *(c)* the West Midlands. [282486]

Mrs. Curtis-Thomas: To ask the Secretary of State for Work and Pensions what her most recent estimate is of the number of key workers in *(a)* Merseyside and *(b)* Crosby constituency. [283184]

Jim Knight: The information is not available in the form requested as official employment statistics are collected using a standard occupational classification that does not directly match the categories commonly used to determine eligibility for existing local initiatives aimed at key workers.

Local Employment Partnerships

Mrs. May: To ask the Secretary of State for Work and Pensions pursuant to the answer of 5 May 2009, *Official Report*, column 123W, on local employment partnerships, what the outturn costs of *(a)* each of the local award ceremonies and *(b)* the grand final were. [286627]

Jim Knight: I refer the right hon. Member to the reply I gave on 8 July 2009, *Official Report*, column 843W.

National Insurance: Fraud

Chris Grayling: To ask the Secretary of State for Work and Pensions (1) how many national insurance *(a)* cards and *(b)* numbers were withdrawn for having been found to have been fraudulently obtained in each of the last five years; [281962]

(2) how many applications for a national insurance card or number were rejected owing to fraudulent documents being used in support of such applications in each of the last five years. [281988]

Jim Knight: The adult National Insurance number allocation process administered by Jobcentre Plus includes stringent verification of identity and right to work checks, which are designed to ensure that National Insurance numbers cannot be fraudulently obtained.

No National Insurance numbers or National Insurance number cards have been withdrawn in the last five years. However, in any case where there is suspicion that a National Insurance number is vulnerable to misuse, such as benefit fraud, the relevant National Insurance number record is annotated accordingly. Any subsequent claim using a National Insurance number would automatically be subjected to close scrutiny and, if appropriate, referred to the Departments Fraud Investigation Service.

The number of National Insurance number accounts marked over the last five years is shown in the following table.

	Number of marked accounts
2004-05	1,087
2005-06	2,521
2006-07	2,965
2007-08	3,234
2008-09	1,470

Note:
Each year runs from 1 April to 31 March.
HMRC are responsible for the issue of National Insurance cards. Possession of a card does not provide proof of identity, right to work or proof of entitlement to benefits.
National Insurance cards only serve as a reminder to the individual of their National Insurance number and nothing else. National Insurance cards are not withdrawn.
Source:
Jobcentre Plus

The following table shows the latest available information for National Insurance numbers that have been rejected due to the use of fraudulent documents.

	National insurance number applications rejected due to fraudulent documents being used in support of such applications
2004-05	548
2005-06	748
2006-07	595
2007-08	654

Notes:
1. Each year runs from 1 April to 31 March.
2. Information is not available for 2008-09.

Jobcentre Plus.

National Treatment Agency for Substance Misuse

James Brokenshire: To ask the Secretary of State for Work and Pensions how much funding her Department has provided to the National Treatment Agency for Substance Misuse in each of the last five years. [285553]

Jim Knight: Although my Department works closely with the National Treatment Agency, we have not provided any funding in the last five years.

New Deal Schemes

David Taylor: To ask the Secretary of State for Work and Pensions what the *(a)* maximum and *(b)* average duration of the test trading scheme element of the New Deal was in England in the last 12 months. [274343]

Jim Knight: The maximum duration of the test trading scheme element of the new deal in the last 12 months was 26 weeks. The average duration of the test trading scheme element of the new deal was 18 weeks.

Mrs. May: To ask the Secretary of State for Work and Pensions what restrictions are in place on New Deal early entry; and in what areas they apply. [283593]

Jim Knight: There are no such restrictions in place. Where an adviser feels a customer is particularly disadvantaged in the labour market and unlikely to find work without more intensive support, they will offer voluntary early entry access to additional help delivered either through stage three of the new jobseekers' regime and flexible new deal process where introduced, or the existing new deal gateway. Either way, the customer receives intensive support from their own personal adviser and access to a wide range of employment and training related opportunities.

Mrs. May: To ask the Secretary of State for Work and Pensions whether any existing New Deal providers in flexible New Deal 1 areas have *(a)* reduced and *(b)* withdrawn service provision since 29 May 2009. [283595]

Jim Knight: The transition arrangements agreed with the new deal providers to ensure provision is kept in place to 25 September 2009 are continuing. There has been no reduction of new deal provision since 29 May 2009. There have been no notified changes of services by new deal providers outside of the above agreements.

No new deal providers in the flexible new deal phase 1 areas have withdrawn the services they provide since 29 May 2009.

There are no new referrals to new deal provision from 29 June 2009 in phase 1 areas, but providers are continuing to provide a service to support those customers already on the provision. Customers who would have been referred to new deal will now be referred to stage 3 of the jobseeker's regime.

Pathways to Work

Mrs. May: To ask the Secretary of State for Work and Pensions how many people she expects to participate in Pathways to Work in each year from 2008 to 2015. [266114]

Jim Knight: Official statistics on the number of participants in Jobcentre Plus and provider-led pathways to work are available up to January 2009. The figures are to be found at annex A in the report "Jobcentre Plus Pathways to Work Official Statistics", June 2009 and annex A in "Provider-Led Pathways to Work Official Statistics", July 2009. These reports can be accessed at:

http://research.dwp.gov.uk/asd/workingage/ib_rtf_p2w.asp

Copies of these two reports have been placed in the Library.

With the exception of those placed in the support group, all new employment and support allowance customers are required to participate in pathways to work. Those in the support group can volunteer for back-to-work support through pathways to work, as can existing incapacity benefits customers.

Forecasts for the numbers of people expected to reach the main phase of employment and support allowance are available for the years 2009-10 and 2010-11. These can be viewed in table C1: Numbers receiving benefits, 1991-92 to 2010-11 at:

http://research.dwp.gov.uk/asd/asd4/medium_term.asp

A copy of the table has been placed in the Library.

These will next be updated at the pre-Budget report. Figures beyond 2010-11 are not provided. Final spending plans for departmental expenditure limits will be set in relation to the final annually managed expenditure forecasts at the time of the next spending review.

These forecasts do not take into account the measures announced in the December 2009 White Paper, Raising expectations and increasing support: reforming welfare for the future. From 2010, all existing incapacity benefits customers will receive personalised back-to-work support, based on the pathways to work model, when they are migrated from incapacity benefits to employment and support allowance.

Pension Credit

Mr. Sanders: To ask the Secretary of State for Work and Pensions if she will estimate the cost to the public purse of raising the level of pension credit to ensure that no pensioner receives an income below the poverty line. [271597]

Angela Eagle: No single measure captures all aspects of poverty—as a result PSA 17 includes a range of indicators related to low income for pensioners. These are relative low income (below 50 and 60 per cent. contemporary median household income), and absolute low income (below 60 per cent. of 1998-99 median income uprated in line with prices), after housing costs

are taken into account. The low income threshold varies for each household to take into account variations in both the size and composition of a household. For example, the threshold for a single pensioner living alone is different to that of a single pensioner living with grown-up children. However, in both cases they would be entitled to the same amount of pension credit.

The information requested in the question is not available. Furthermore, raising the value of guarantee credit for couples to the level of the 60 per cent. threshold would be insufficient to ensure that no pensioner remains below that threshold because of those pensioners who do not take up the benefits to which they are entitled.

It is not possible to predict in advance the value of low income thresholds. Any projection of the median for the population as a whole would be subject to uncertainties around future income growth, changes in the income distribution and individual behavioural responses to policy changes.

From 6 April 2009 the pension credit standard minimum guarantee increased by the largest amount since it was introduced in 2003. It increased to £130 a week for single pensioners or £198.45 for a couple. The Government are committed to tackling pensioner poverty and are continuing to promote take-up of benefits by those who are entitled.

Pension Credit: Lancashire

Mr. Hoyle: To ask the Secretary of State for Work and Pensions how many pensioners in each parliamentary constituency in the Lancashire County Council area received *(a)* pension credit and *(b)* winter fuel payment in the latest period for which figures are available. [283072]

Angela Eagle: The information requested is in the tables.

Households in receipt of pension credit in Lancashire by parliamentary constituency—November 2008

Constituencies wholly or partially in Lancashire	Households in receipt
Blackpool, North and Fleetwood*	6,660
Burnley	5,120
Chorley	4,270
Fylde	4,380
Hyndburn	4,600
Lancaster and Wyre	4,250
Morecambe and Lunesdale	5,240
Pendle	4,800
Preston	5,170
Ribble Valley	3,040
Rossendale and Darwen*	4,520
South Ribble	3,730
West Lancashire	4,890

Number of winter fuel payment recipients 2007-08 (final run)

Constituencies wholly or partially in Lancashire	Total winter fuel payment recipients
Blackpool, North and Fleetwood*	25,800
Burnley	17,380
Chorley	21,600
Fylde	25,970
Hyndburn	17,510
Lancaster and Wyre	24,980
Morecambe and Lunesdale	22,660
Pendle	17,590
Preston	16,110
Ribble Valley	23,740
Rossendale and Darwen*	18,210
South Ribble	21,840
West Lancashire	20,950

Notes:
1. Case load figures are rounded to the nearest 10.
2. Totals may not sum due to rounding.
3. Household recipients are those people who claim pension credit either for themselves only or on behalf of a household.
4. The constituencies included are those wholly or partially in Lancashire as defined by the most up to date postcode directory. '*' denotes those constituencies not wholly in contained in Lancashire. (Makerfield parliamentary constituency was excluded as only one postcode which might have pension credit or winter fuel payments living within it was within Lancashire.)

Source:
DWP Information Directorate Work and Pensions Longitudinal Study 100 per cent. data

Pensioners

Bob Spink: To ask the Secretary of State for Work and Pensions what estimate she has made of the proportion of pensioners receiving less than 90 per cent. of the 1997 levels of expected and accrued pensions in Financial Assistance Scheme annuities; and if she will make a statement. [283703]

Angela Eagle *[holding answer 3 July 2009]:* This information is not available in the form requested.

Pensioners: Poverty

Mrs. Curtis-Thomas: To ask the Secretary of State for Work and Pensions how many pensioners in *(a)* Merseyside and *(b)* Crosby were in relative poverty in each of the last five years. [282531]

Angela Eagle: Statistics on relative poverty, published in the Households Below Average Income series, only allow a breakdown of the overall number of people in relative poverty at Government office region level, inner London and outer London. Therefore, information for Merseyside and the Crosby constituency is not available.

Latest information for the North West Government office region, is based on three-year averages and provided in the following table.

Table 1: Number of pensioners falling below various thresholds of median household income, after housing costs, North West Government office region

million

	Below 60 per cent. of contemporary median household income	Below 50 per cent. of contemporary median household income
2001-02 to 2003-04	0.3	0.1
2002-03 to 2004-05	0.3	0.1
2003-04 to 2005-06	0.2	0.1

Table 1: Number of pensioners falling below various thresholds of median household income, after housing costs, North West Government office region

	million	
	Below 60 per cent. of contemporary median household income	*Below 50 per cent. of contemporary median household income*
2004-05 to 2006-07	0.2	0.1
2005-06 to 2007-08	0.2	0.1

Notes:
1. Three survey year averages are given for regional statistics as regional single year estimates are subject to volatility.
2. Small differences should be treated with caution as these will be affected by sampling error and variability in non-response.
3. The reference period for Households Below Average Income figures are single financial years.
4. The income measures used to derive the estimates shown employ the same methodology as the Department for Work and Pensions publication "Households Below Average Income" series, which uses net disposable household income, adjusted (or 'equivalised') for household size and composition, as an income measure as a proxy for standard of living.
5. Incomes have been equivalised using OECD equivalisation factors.
6. Number of pensioners have been rounded to the nearest hundred thousand people.

Source:
These statistics are based on Households Below Average Income, sourced from the Family Resources Survey.

Petrol: Planning Permission

Bob Spink: To ask the Secretary of State for Work and Pensions pursuant to the answer of 25 June 2009, *Official Report*, column 1057W, on petrol: storage, which local authority granted planning permission against Health and Safety Executive advice. [285535]

Jonathan Shaw: Pembrokeshire county council granted planning permission for the construction of an industrial unit at Waterston Industrial Estate, Milford Haven within the development proximity zone of a large-scale petrol storage site. The Health and Safety Executive had advised the local authority against the granting of permission for this development on safety grounds.

Right to Bid

Mr. Harper: To ask the Secretary of State for Work and Pensions how many bids her Department has received from organisations as part of the Right to Bid initiative; and from which organisation, and in relation to which services or functions provided by her Department, they have been received. [285803]

Jim Knight: Right to Bid commenced on 1 January 2009 and to date (8 July 2009), 92 bids from 85 different organisations have been received. Of these, 42 are private sector organisations, 41 from the third sector, one from the public sector and one is a consortium of private, third, and public sector organisations. The bids remain 'commercial in confidence' and the detail cannot be divulged without the permission of the organisations. The majority of the bids received have been in the Welfare to Work arena. A small number have replicated Learning and Skills Council or Department for Business, Innovation and Skills services.

Mr. Harper: To ask the Secretary of State for Work and Pensions how many full-time equivalent officials in her Department are working on the Right to Bid team. [285804]

Jim Knight: The Right to Bid scheme is administered and managed by a team of three dedicated full time equivalent officials. The central team is supported by other officials from a number of expert domains throughout the Department as part of the detailed evaluation process.

Social Security Benefits

Mrs. May: To ask the Secretary of State for Work and Pensions what her Department's definition is of a gateway overstayer; and what targets her Department has set to reduce the number of such overstayers. [283591]

Jim Knight: A gateway overstayer is defined as someone who has gone beyond the maximum period (16 weeks) on a New Deal personal adviser caseload and has not started a mandatory Option/Intensive Activity Period. In July 2006, the Jobcentre Plus Chief Operating Officer made a commitment to ensure the number of overstayers was no more than 7 per cent. of the total number of participants within the gateway. The level of overstayers at the end of 2008-09 was 3.8 per cent. of caseload.

Specialist Disability Employment Programme

Mr. Harper: To ask the Secretary of State for Work and Pensions what mechanism her Department has put in place for the independent monitoring of prime providers in the delivery of the Specialist Disability Employment Programme. [286584]

Jonathan Shaw: The quality of provision is subject to external scrutiny by Ofsted in England and Estyn in Wales. From January 2010 Her Majesty's Inspectorate of Education will begin to inspect our provision in Scotland.

Once the Specialist Disability Employment Programme has been fully developed the three inspectorates will be commissioned to develop an inspection model to suit this piece of provision. Reports from these inspections will be in the public domain.

This Department will work closely with the external inspectorates to produce an annual programme of inspection, ensuring all prime providers' contracts are inspected over the course of an inspection cycle.

Providers who are found to be unsatisfactory at external inspection will be offered improvement support, through the Learning and Skills Improvement Service, leading up to re-inspection.

Mr. Harper: To ask the Secretary of State for Work and Pensions (1) what criteria will apply in monitoring the effectiveness of the Specialist Disability Employment Programme in respect of each impairment type; [286585]

(2) what support her Department will make available to customers on the Specialist Disability Employment Programme following their completion of the first nine months of the programme. [286587]

Jonathan Shaw: No final decisions have been made as to exactly what information will be collected for the new Specialist Disability Employment Programme. We are currently considering what level of detail it is desirable and practical to collect on customers' impairment types.

In addition, independent evaluation will be an important element of the new programme. It will seek to investigate the extent to which the programme meets its objectives and critical success factors.

The first element of the new programme is called Work Entry Support. Its aim is to offer a range of services and support to help disabled customers with the highest support needs enter paid employment, whether it be unsupported in the open market place or supported employment. With support from the provider, we expect that the majority of customers will be able to do this within nine months of starting on the programme. If they have not been successful in finding suitable employment at this point, then the provider will work with and agree with the customer a detailed action plan, which will offer advice on how they should move forward to help them either move into employment in the future or possibly return to the programme at a later date, which ever is most appropriate to their individual needs.

State Retirement Pensions

Andrew Rosindell: To ask the Secretary of State for Work and Pensions how many people over the age of 100 receive a state pension. [272471]

Angela Eagle: At November 2008, there were 422,250 state pension recipients aged 90[1] and over.

[1] Figures given are for state pension recipients aged over 90, rather than for those aged over 100. This is because the available data on ages at the extreme higher end of the distribution is not thought to be sufficiently robust to provide accurate figures for more detailed breakdowns.

Note:

DWP Information Directorate: Work and Pensions Longitudinal Study.

Third Sector

Mr. Hurd: To ask the Secretary of State for Work and Pensions what terms and conditions are set by her Department in relation to the provision of funding from her Department's budget to *(a)* charities, *(b)* voluntary organisations and *(c)* social enterprises. [284209]

Jim Knight: The Department for Work and Pensions works on a commercial, contractual basis with charities, voluntary organisations and social enterprises where such an organisation is in a position to provide a specialist ongoing service which clearly assists in the delivery of the Department's core objectives. The Department uses its standard terms and conditions for goods or services. The Commercial Employment Provision (CEP) standard terms and schedules are used when dealing with welfare to work contracts.

These terms and conditions are based on model terms and conditions recommended by the Office of Government Commerce (OGC). They can be viewed online in the supplier section of the Department's website at:

www.dwp.gov.uk

Vacancies

Mr. Rooney: To ask the Secretary of State for Work and Pensions how many jobs have been advertised in each Jobcentre Plus district in each of the last 12 months. [282979]

Jim Knight *[holding answer 29 June 2009]:* The information has been placed in the Library. The data are broken down by notified vacancies and live unfilled vacancies.

Vocational Training

Steve Webb: To ask the Secretary of State for Work and Pensions which colleges in each region offer training for jobseekers commissioned by Jobcentre Plus; and how many people claiming jobseeker's allowance have taken part in a training programme offered by a college in each of the last 12 months. [272658]

Jim Knight: The information is not centrally collated and could be provided only at disproportionate cost.

Welfare to Work

Mr. Harper: To ask the Secretary of State for Work and Pensions pursuant to the answer of 15 June 2009, *Official Report*, column 51W, on welfare-to-work: standards, if she will place in the Library a copy of the most recent monthly report summarising the performance of all welfare-to-work providers against agreed targets. [285140]

Jim Knight: A copy of the most recent report, which includes the cumulative performance of contracted provision up to the end of March 2009, has been placed in the Library as requested. This is the end-of-year report for 2008-09.

The DWP continues to develop plans to make this information available on a monthly basis from later in 2009 via the DWP website.

Winter Fuel Payments

Dr. Cable: To ask the Secretary of State for Work and Pensions what estimate she has made of the number of people in receipt of winter fuel payment who were *(a)* eligible for and *(b)* receiving pension credit in each of the last five years. [285845]

Angela Eagle: The information is as follows:

(a) The requested information is not available.

(b) Winter fuel payments are made to pension credit claimants, not individual beneficiaries. Information on payments made to pension credit claimants is contained in the following table:

	Number of people in receipt of winter fuel payments
2003-04	1,630,000
2004-05	2,430,000
2005-06	2,530,000
2006-07	2,550,000
2007-08	2,560,000

Note:
Rounded to the nearest 10,000.
Source:
Winter Fuel Payment datasets, 2007-08 is the latest available data.

Dr. Cable: To ask the Secretary of State for Work and Pensions if she will estimate the annual saving to the Exchequer if winter fuel payments were made only to those eligible for pension credit. [285847]

Angela Eagle: Estimates show that if winter fuel payments were only made to recipients of pension credit next financial year that the annually managed expenditure savings could be around £1.5 billion.

Note:
The estimate assumes that all pension credit claimants receive a full winter fuel payment and that both partners are eligible for the same level of payment. Estimates are made on the basis of forecast recipients and not eligibility for pension credit.

Dr. Cable: To ask the Secretary of State for Work and Pensions how many *(a)* households and *(b)* individuals received the winter fuel payment in each of the last five years. [286028]

Angela Eagle: The number of winter fuel payments paid to households and individuals in Great Britain are as follows:

	Households	Individuals
2007-08	8,834,610	12,068,740
2006-07	8,630,900	11,702,900
2005-06	8,506,750	11,514,760
2004-05	8,377,365	11,401,170
2003-04	8,166,345	11,468,235

Tim Loughton: To ask the Secretary of State for Work and Pensions if she will extend eligibility for the winter fuel allowance to young people with disabilities. [285842]

Helen Goodman: Winter fuel payments are paid to people aged 60 and over to help mitigate the effects of cold weather during the winter months. There are no plans to alter the eligibility criteria for winter fuel payments.

TREASURY

Child Tax Credit

Dr. Kumar: To ask the Chancellor of the Exchequer whether he plans to review entitlement to child tax credit to families with a gross income of over £80,000. [285224]

Mr. Timms: Tax credits are a carefully targeted system of financial support that provides the greatest help to the least well off families. Support is assessed on the basis of household circumstances, taking into account factors such as the number of children in the household and any disabilities, and only in very exceptional cases will families with very high incomes receive any support. No families with an income over £80,000 a year are currently receiving tax credits, and the majority of families in receipt have incomes below £20,000 a year.

Child Trust Fund: Yorkshire and The Humber

Hugh Bayley: To ask the Chancellor of the Exchequer how many children in *(a)* Yorkshire and the Humber and *(b)* York had received Child Trust Fund payments on the latest date for which figures are available. [285698]

Sarah McCarthy-Fry: The most recent constituency level statistics on child trust fund accounts were published on 6 November 2008 and can be viewed on the HM Revenue and Customs website at:

http://www.hmrc.gov.uk/ctf/cons-stats-oct08.pdf

There were 261,000 children born before 6 April 2007 in Yorkshire and the Humber who have a child trust fund account.

Empty Property

Mr. Mullin: To ask the Chancellor of the Exchequer what his estimate is of the net revenue received in empty property rates in 2008-09; and if he will make a statement. [285568]

Sarah McCarthy-Fry: CLG publish the cost of reliefs, but Central Government do not collect data on the split between business rates paid on empty and occupied property.

The data on the amount of empty property relief that local authorities estimated that they will grant is available in table 2 of the Statistics Release National non-domestic rates to be collected by local authorities in England 2009-10 and is available on the Communities and Local Government website at:

http://www.communities.gov.uk/localgovernment/localregional/localgovernmentfinance/statistics/nondomesticrates/forecast/

Energy: Conservation

Lembit Öpik: To ask the Chancellor of the Exchequer what research has been carried out by his Department on the merits of installing A-rated circulator pumps in public sector buildings. [285066]

Ian Pearson: The Treasury has not carried out any research on this subject. The Department for Environment, Food and Rural Affairs' market transformation programme undertakes research into the environmental impact of products. The Department for Communities and Local Government is currently consulting on introducing efficiency standards for circulator pumps under building regulations.

Non-Domestic Rates

Mr. Stewart Jackson: To ask the Chancellor of the Exchequer if he will place in the Library a copy of the Valuation Office Agency form VO6403 used for the 2010 business rates revaluation. [283840]

Mr. Timms: This form is not specifically used for the 2010 business rates revaluation and has a limited application. I refer the hon. Member to the answer given to the hon. Member for Brentwood and Ongar (Mr. Pickles) on 19 March 2008, *Official Report*, column 1216W, when form VO6403 was placed in the Library.

A full list of forms used to request information from ratepayers for the revaluation is published on the Valuation Office Agency website at:

http://www.voa.gov.uk/business_rates/List-of-Forms-Requesting-Information.htm

Premium Bonds

Mr. Gordon Prentice: To ask the Chancellor of the Exchequer what the odds of winning a minimum prize with a £500 Premium Bond holding were in *(a)* 1992, *(b)* 1997, *(c)* 2001, *(d)* 2005 and *(e)* 2009. [284297]

Sarah McCarthy-Fry: NS&I publishes details of the current odds of winning prizes on premium bonds on their website at:

http://www.nsandi.com/products/pb/rates.jsp

In 1992, the odds[1] of winning a minimum prize with a £500 premium bond holding were 1 in 23.

In 1997, in January and February, the odds were 1 in 44; in March, 1 in 45; in April, 1 in 46; in May 1 in 47; and between June and December, 1 in 39.

In 2001 the odds were 1 in 41; in 2005 1 in 49; and in 2009 are 1 in 73.

The interest rate and the value of eligible funds invested in premium bonds provides a total prize pool. NS&I then look at two variables to determine the prize draw structure based (i) on the odds; and (ii) the number of prizes allocated to each value prize band.

These variables are determined based on keeping the number and value of prizes at a favourable level for premium bond holders within the constraints of the interest rate and value invested.

[1] Rounded to the nearest whole number.

Public Expenditure

Tony Baldry: To ask the Chancellor of the Exchequer pursuant to the Prime Minister's answer of 1 July 2009, *Official Report*, column 294, what the change in total spending will be between 2012-13 and 2013-14. [284606]

Mr. Byrne: Budget 2009 set the Government's spending assumptions beyond the CSR period, from 2011-12 to 2013-14.

Table C4 in Budget 2009 (page 226) shows projected public sector current expenditure and public sector net investment from 2011-12 to 2013-14.

Public Sector Debt

Mr. Sanders: To ask the Chancellor of the Exchequer if he will make it his policy to hold public consultations on proposed changes to his Department's policy on levels of public debt. [283821]

Mr. Byrne: The Government publish their economic and fiscal forecast, including their forecast of the public sector net debt, twice a year in the pre-Budget report and the Budget.

Revenue and Customs: Chorley

Mr. Hoyle: To ask the Chancellor of the Exchequer what timetable has been set for the closure of the HM Revenue and Customs office in Chorley. [285007]

Mr. Timms: I refer my hon. Friend to the answer I gave on 5 February 2009, *Official Report*, column 1398W. The position has not changed.

Tax Incentives: Energy

Lembit Öpik: To ask the Chancellor of the Exchequer what tax incentives there are for the installation of energy-efficient circulator pumps in *(a)* domestic and *(b)* non-domestic properties. [285065]

Sarah McCarthy-Fry: Two energy-efficient circulator models are supported through the Government's flagship household energy efficiency policy, the carbon emissions reduction target.

Energy efficiency measures for households are also supported by a reduced rate of VAT for the professional installation of certain energy saving products, including "hot water system controls" and "central heating system controls". Where circulator pumps fall within this description they will be eligible for the reduced rate.

Taxation: Business

Mr. Austin Mitchell: To ask the Chancellor of the Exchequer how much in tax liability was set off against company borrowing in *(a)* 2004-05, *(b)* 2005-06, *(c)* 2006-07, *(d)* 2007-08 and *(e)* 2008-09. [285735]

Mr. Timms: The information requested is not available.

JUSTICE

Ashwell Prison

Mr. Grieve: To ask the Secretary of State for Justice pursuant to the answer to the hon. Member for North West Leicestershire of 5 May 2009, *Official Report*, columns 68-69W, on HM Prison Ashwell, if he will place in the Library a copy of the representations from the Prison Officers' Association on the recent disturbances at HM Prison Ashwell. [274146]

Mr. Straw: With the permission of the national chairman of the Prison Officers' Association I have placed in the Library a copy of the letter referred to in the answer to my hon. Friend the Member for North-West Leicestershire (David Taylor) of 5 May 2009, *Official Report*, columns 68-69W.

Of the two issues referred to in the letter, the extension to the deadline for the investigation was agreed to and the meeting took place on 6 May.

Approved Premises: Convictions

Mr. Grieve: To ask the Secretary of State for Justice how many residents in approved premises were *(a)* charged and *(b)* convicted of (i) murder, (ii) manslaughter, (iii) rape, (iv) attempted murder and (v) attempted rape in the last year for which figures are available. [285298]

Mr. Straw: The number of residents in approved premises who were *(a)* charged in 2007-08 and *(b)* subsequently convicted of the offences specified are in the following tables. The tables are based on the most recent published statistics, the Offender Management Caseload Statistics 2007, in October 2008.

There are 101 approved premises in England and Wales, providing 2,200 bed spaces. Approved premises are used primarily to supervise high risk of harm offenders on release from custody, where supervision can be provided more effectively than if such offenders were dispersed into less suitable accommodation elsewhere in the community. In 2007-08, 14,607 offenders or bailees spent some time in an approved premises.

Approved premises residents 'charged' with murder, attempted murder, manslaughter, rape and attempted rape, 1 April 2007 to 31 March 2008

Serious violent offence description	*England and Wales notifications*
Attempt to commit murder or a conspiracy to commit murder	1
Manslaughter	1
Murder	3
Rape	4
Total	9

Approved premises residents 'convicted' of murder, attempted murder, manslaughter, rape and attempted rape, 1 April 2007 to 31 March 2008

Serious violent offence description	*England and Wales notifications*
Attempt to commit murder or a conspiracy to commit murder	1
Manslaughter	1
Murder	3
Attempt to commit rape	1
Rape	2
Total	8

Criminal Injuries Compensation

Mr. Grieve: To ask the Secretary of State for Justice how many applicants to the Criminal Injuries Compensation Scheme have died while awaiting *(a)* a decision, *(b)* the outcome of a review and *(c)* the outcome of an appeal against a decision in each of the last five years. [285269]

Mr. Straw: The Criminal Injuries Compensation Authority, which administers the Criminal Injuries Compensation Scheme, currently does not record this information. However, work is ongoing in the authority in relation to the recording of cases where the applicant dies while the application is live, and which will enable the recording of these cases in the future.

CICA has made significant improvements in the average time it takes to reach decisions on cases: from an average of 14 months in 2006-07 for first decisions to an average of 9.3 months in the current financial year to end of June 2009. The average time taken to conclude a review of a case has almost halved in the same period, from an average of 11.2 months in 2006-07 to 5.9 months in the current financial year to end of June 2009. These improvements of themselves should reduce the number of cases where the applicant dies before a decision is made.

Dead Bodies: Identification

Mark Pritchard: To ask the Secretary of State for Justice how many bodies of persons who died in the last 10 years in England and Wales remain unidentified. [285002]

Bridget Prentice: Where a deceased person cannot be identified the body must be disposed of by the local authority in accordance with the relevant provisions of the Public Health (Control of Disease) Act 1984, either by burial or cremation. Central records of such disposals are not kept.

Departmental Internet

Mr. Watson: To ask the Secretary of State for Justice when his Department plans to update its web browsers from Internet Explorer 6. [285031]

Mr. Wills: The Department has commenced the upgrade of Internet Explorer from version 6 to version 7. Internet Explorer 6 is still supported by Microsoft, and the upgrade to version 7 is planned to be completed prior to Microsoft ceasing to support Internet Explorer 6.

With respect to individual business areas, the upgrade from version 6 to version 7 has commenced in the HQ areas of the former Department for Constitutional Affairs (DCA). This will be completed by the end of October 2009. Approximately 1,800 PCs within the Legal Services Commission (LSC) will be upgraded by the end of March 2010, bringing all their computers up to version 7. Plans to upgrade Her Majesty's Courts Service are currently being considered. Meanwhile, staff will continue to use the Microsoft supported Internet Explorer version 6.

Within the National Offender Management Service (NOMS), version 6 of Internet Explorer is being deployed to staff within the probation service on the OMNI network as part of their contractual agreement with their IT supplier. They are considering the upgrade path to Internet Explorer 7, as part of the wider strategy of convergence of the infrastructure.

For staff within Her Majesty's Prison Service, an exercise is under way to upgrade from version 6 to version 7 as part of the Quantum Infrastructure Improvement Programme. This exercise is currently in the planning stage and work is under way to validate this plan which currently anticipates the main deployment of version 7 taking place between mid-2010 and 2011. Tactical upgrades may occur as required.

NOMS staff that use the NOMSnet service (primarily regional offender managers) are already operating at version 7.

Departmental Secondment

Sarah Teather: To ask the Secretary of State for Justice how many employees of his Department have been posted to work in offices of hon. Members of each political party in each of the last five years. [284889]

Mr. Straw: Civil servants are required to act in accordance with the requirements of the Civil Service Code. There are no records of any civil servant from the Ministry of Justice being posted to the political offices of Members of Parliament.

Civil servants may shadow MPs as part of a programme run by the Industry and Parliament Trust. However details on numbers of civil servants from this department that have had such an attachment cannot be obtained as this information is not held centrally and it would incur disproportionate cost in trying to obtain.

Information Commissioner's Office

Norman Baker: To ask the Secretary of State for Justice if he will take steps to enable the Information Commissioner's office to reduce the length of time taken for the determination of complaints. [285811]

Mr. Wills: The Ministry of Justice and the Information Commissioner regularly review the resources required for the commissioner to discharge all of his freedom of information responsibilities. For this financial year, the Government have identified additional funding of £500,000 for the Information Commissioner's office's freedom of information work, over and above the baseline funding of £5 million. We are discussing with the office how it can use this additional funding most effectively to reduce the number of outstanding cases.

In addition, the MOJ promoted a scheme last year where secondees from central Government Departments work for the ICO to help clear the freedom of information cases at their home departments' expense. There are currently seven secondees working at the ICO.

Parole

Chris Huhne: To ask the Secretary of State for Justice on how many occasions on which the Parole Board recommended parole it has not been granted in each year since 1997. [285761]

Maria Eagle: The number of prisoners' cases where a recommendation for early release from the Parole Board was turned down for the years 2004-09 is given in the table. All the cases were those of prisoners serving fixed-term sentences of 15 years or more and subject to the release provisions of the Criminal Justice Act 1991. The figures are derived from internal records. We do not have reliable data for previous years.

	Number of prisoners
2004	1
2005	3
2006	3
2007	3
2008	0
2009 (as of 8 July 2009)	1

Prisons: Construction

Rosie Cooper: To ask the Secretary of State for Justice pursuant to the answer of 1 June 2009, *Official Report*, columns 82-83W, on prisons: construction, whether Scarisbrick is under consideration as a possible site for construction of any type of prison. [285736]

Mr. Straw: Following my announcement on 27 April 2009, *Official Report*, columns 569-80, about our plans to build 1,500 place prisons, a fresh site search to identify potential sites for these new prisons will begin in due course.

Sentencing: Foreigners

Mr. Grieve: To ask the Secretary of State for Justice (1) how many foreign nationals have been discharged from a mandatory life sentence in each of the last 10 years; [285297]

(2) how many foreign nationals have been discharged from a discretionary life sentence in each of the last 10 years. [285299]

Mr. Straw: The number of foreign national prisoners serving a mandatory and discretionary life sentence and who were subsequently released from custody was not, before April 2007, recorded centrally. To answer the question would require a manual exercise checking every release of a mandatory and discretionary lifer during the period in question and this would incur disproportionate cost.

However, since April 2007 the Public Protection Unit Database (PPUD) has recorded the nationality of prisoners being released. In 2007, there were three foreign national prisoners serving a mandatory life sentence and who were released from custody. There were no discretionary life sentence prisoners, identified as foreign nationals, who were released in 2007. As with any large scale recording system, it is subject to possible errors arising from either data entry or processing.

Details of prisoners released are published "Offender Management Caseload Statistics" published by Offender Management and Sentencing Analytical Services, Ministry of Justice. This bulletin is available in the Library of the House and is available at:

http://www.justice.gov.uk/publications/statistics

The 2008 figures will be published in Offender Management Caseload Statistics 2008 at the end of July 2009. The publication of this bulletin has been pre-announced on the Ministry of Justice and United Kingdom Statistics Authority websites.

To provide the 2008 figures for foreign national prisoners released would constitute providing a breakdown of an as yet unpublished figure. This would breach the code of practice for statistics and so cannot be provided until after this publication.

It is for the independent Parole Board to determine whether to direct the release of life sentence prisoners and will do so only if it is satisfied that it is no longer necessary on the grounds of public protection for the prisoner to be detained in custody.

Victims Advisory Panel: Meetings

Mr. Grieve: To ask the Secretary of State for Justice on how many occasions the Victims' Advisory Panel has met since July 2006; and what matters were discussed at each such meeting. [285265]

Mr. Straw: The Victims Advisory Panel (VAP) have met on nine occasions since July 2006. They last met on 11 June 2009 and are next due to meet on the 14 July 2009. VAP meetings usually include presentations on emerging policy relevant to improving support to victims and subsequent discussion by panel members.

Matters the VAP have discussed and given their view on are numerous. They include: the appointment of the Commissioner for Victims and Witnesses, the Code of Practice for Victims of Crime, the payment of court ordered compensation, the provision of special measures, research into victims experience, the complaints system for victims, support for victims of domestic violence, support for young victims of crime, support for victims at coroners courts and support for victims in civil cases.

TRANSPORT

A1

Mr. Moss: To ask the Minister of State, Department for Transport if he will take steps to ensure the installation of separated junctions at the main intersections and roundabouts on the A1 between Alconbury and the A1(M) north of Baldock. [284487]

Chris Mole: The A1 trunk road in Cambridgeshire and Bedfordshire is identified as a road of regional importance. As such, the priority to be given for separated junctions at the main intersections and roundabouts on the A1 south of Peterborough to the beginning of the A1(M) north of Baldock is initially for the East of England region to consider.

In March 2009 the region submitted advice to Government on public spending priorities for transport, housing and regeneration, economic development and skills as part of the refresh of the Regional Funding Advice (known as RFA2). This includes transport priorities in the region through to 2018-19. The Government expect to respond to the region's advice later this year. However, the region did not include these junctions in their submitted priorities.

Aviation: Insecticides

Norman Baker: To ask the Minister of State, Department for Transport, what recent action the Aviation Health Working Group has taken in respect of the use of insecticides on commercial aircraft; and if he will make a statement. [285807]

Paul Clark: The Aviation Health Working Group is a stakeholder forum reporting to Ministers; it is not an executive body. The use of insecticide is required under the International Health Regulations of the World Health Organisation (WHO) on flights to or from certain destinations to control the spread of insects and to protect public health from insect borne diseases.

Rules established by the International Civil Aviation Organisation (ICAO) permit the use of certain insecticides, which have the approval of and are recommended by the WHO, based on their efficacy and minimal human toxicity. These rules are binding on International Civil Aviation Organisation (ICAO) contracting states, including the UK.

Norman Baker: To ask the Minister of State, Department for Transport how many complaints have been reported to the Aviation Health Working Group from passengers regarding the use of insecticides on commercial aircraft in the most recent 12 month period for which figures are available. [285808]

Paul Clark: None. The Air Transport Users Council (AUC) has received three complaints in the last four years.

The Civil Aviation Authority's Aviation Health Unit has, during the period from 1 July 2008 to 9 July 2009, received four enquiries regarding the use of insecticides on commercial aircraft. Two of these were complaints and both concerned non-UK airlines.

Norman Baker: To ask the Minister of State, Department for Transport what insecticides are approved for use by cabin crew on commercial aircraft. [285809]

Paul Clark: The following table gives a list of the insecticides currently approved by the Health and Safety Executive (HSE) for aircraft disinsection in Great Britain:

Product name	*HSE number*
Aircraft aerosol insect control	5408
Aircraft disinsectant	6254
Aircraft disinsectant multi	7016
Aircraft disinsecting spray	8380
Aircraft insecticide	7021
Aircraft insecticide multi	7025
Callington 1-shot aircraft insecticide	8882
Callington aerosafe (d-Phenothrin) aircraft insecticide	8323
Callington aerosafe aircraft insecticide	7431
Callington top of descent aircraft insecticide	7430
Disinsecting spray multi	7024
Disinsecting spray single	6977
Extermisect	[1]6976
Extermisect multi	[1]7027
Multi-shot permethrin spray	7119
Non-flammable aircraft insecticide 222/A-203D/P-238/D	7502
One-shot aircraft aerosol insect control	5407
Orvec aircraft insecticide	7028
Polygard one-shot aircraft disinsectant	7298
Single-shot permethrin spray	7118
Ventaire sure-serve aircraft insecticide	8789
Ventaire sure-serve aircraft insecticide	8904

[1] Two of the products listed, Extermisect (HSE 6976) and Extermisect multi (HSE 7027), have been withdrawn from the market for commercial reasons—but can still be supplied, stored and used until 16 July 2009.

Norman Baker: To ask the Minister of State, Department for Transport for what countries of *(a)* origin and *(b)* destination of flights to or from the UK the use of insecticides by cabin crew is mandatory. [285810]

Paul Clark: The International Health Regulations (2005) published by the World Health Organization (WHO) require states to ensure that measures are taken to prevent the spread of disease on aircraft. In the UK the regulations were implemented by the Public Health (Aircraft) (Amendment) Regulations 2007. They are enforced at UK airports by the local port health authority.

Port health authorities in UK require that aircraft entering the UK from countries listed in chapter 7 of the WHO guidance (see links) in relation to the control of malaria should be sprayed.

http://whqlibdoc.who.int/hq/1995/WHO_PCS_95.51_Rev.pdf

http://whqlibdoc.who.int/publications/2005/9241580364_chap7.pdf

A copy of the list of countries given in the WHO guidance has been placed in the Libraries of both Houses of Parliament.

Benefex

Mr. Leech: To ask the Minister of State, Department for Transport pursuant to the answer of 9 March 2009, *Official Report*, column 10W, on departmental conditions of employment, by what method the contract won by Benefex Limited was let by his Department. [285472]

Chris Mole: The contract was evaluated and awarded to Benefex Ltd. in accordance with the European Union procurement directives. The competition was published in the *Official Journal* of the European Union.

Bicycles: Safety

Andrew Stunell: To ask the Minister of State, Department for Transport which local authorities have received funding from his Department for the provision of Bikeability training; and what award was made in each case. [285373]

Mr. Khan: We have awarded cycle training grants to local authorities since 2006-07 to encourage cycling to school. Since 2008-09 we have been able to meet all bids in full. The grants awarded each year to local authorities are set out in the table which has been placed in the Libraries of the House. We also provide funding for training direct in schools via grants to the school sports partnerships.

Bicycles: Staffordshire

Mr. Jenkins: To ask the Minister of State, Department for Transport how much funding his Department has allocated to encourage bicycle usage in *(a)* Tamworth and *(b)* Staffordshire in each of the last five years. [285364]

Mr. Khan: Between 2005 and March 2008 Sustrans (the Sustainable Transport Charity) has on the Department for Transport's behalf made available grants for local authorities to deliver a Links to Schools programme to encourage more children to cycle to school. £80,000.00 was made available to Staffordshire county council in 2006-07.

We have also awarded cycle training grants to local authorities since 2006-07 to encourage cycling to school. The grants awarded each year to Staffordshire county council are set out in the following table:

Local authority cycle training grants, Staffordshire county council

	Grant (£)
2006-07	—
2007-08	68,000.00
2008-09	156,000.00
2009-10	249,000.00
Total 2007-08 to 2009-10	473,000.00

Departmental Contracts

Mr. Leech: To ask the Minister of State, Department for Transport in what circumstances staff contracts have been varied in his Department to include the requirement for a total reward statement; and what methods were used to vary those contracts. [285387]

Chris Mole: Issuing total reward statements does not give rise to any variation in terms and conditions of employment.

Mr. Leech: To ask the Minister of State, Department for Transport what cost codes have been set up by his Department's Shared Service Centre in relation to the flexible benefit project; and what costs have been recorded against each cost code and on what dates. [285388]

Chris Mole: The system has not yet been implemented. The Shared Service Centre has therefore not set up any cost codes in relation to the flexible benefit project.

Mr. Leech: To ask the Minister of State, Department for Transport for what reasons his Department's design authority has sanctioned an emergency delivery of flexible benefits via the Emergency Path to Production process; and if he will make a statement. [285389]

Chris Mole: There are a number of minor application changes required to the Shared Services system in order to integrate the flexible benefits scheme into payroll, which is planned for roll-out in October 2009.

Departmental Databases

Mr. Watson: To ask the Minister of State, Department for Transport what information databases his Department *(a)* maintains and *(b)* uses which do not contain personal information. [284386]

Chris Mole: A list of information databases maintained and used by the Department for Transport and its agencies is not yet centrally held and could be compiled to answer this question only at disproportionate cost. The information will be published on the Department's website in due course.

Departmental Pay

Mr. Leech: To ask the Minister of State, Department for Transport pursuant to the answer of 20 May 2009, *Official Report*, column 1388W, on departmental pay, if he will list the employers concerned, including contracts *(a)* which have been sub-let and *(b)* which are not exclusive to London; what the nature is of the work undertaken with regard to each contract; how many staff are employed under the terms of each contract, broken down by (i) grade and (ii) location; and what (A) the length of the contract is and (B) union recognition agreements are in place in each case. [285471]

Chris Mole: The number of contracted staff employed in London earning less than the London living wage of £7.45 is now 63. The employer of the staff concerned is Amey who have been contracted to provide a total facilities management service for the three London Department for Transport HQ buildings. The staff involved work in the kitchen (nine), mailroom (three) and cleaning services (51). The contract is for five and a half years and is currently exclusive to London. Amey have union recognition agreements in place.

Departmental Public Expenditure

Tony Baldry: To ask the Minister of State, Department for Transport what estimate he has made of his Department's capital underspend in 2009-10; and how much of that sum he proposes to return to the Exchequer. [284328]

Chris Mole: I refer the hon. Member to the answer given to the hon. Member for Lewes (Norman Baker) on 9 July 2009, *Official Report*, columns 921-22W.

Departmental Work Experience

Mr. Oaten: To ask the Minister of State, Department for Transport how many *(a)* paid and *(b)* unpaid graduate internships his Department has awarded in each of the last six months. [281522]

Chris Mole: The Department for Transport has awarded one paid internship to a graduate in the last six months.

Driving Tests

Mr. Goodwill: To ask the Minister of State, Department for Transport what guidance has been issued to driving test examiners on the carrying of driving instructors as rear seat passengers during the car driving test. [285746]

Paul Clark: Guidance currently issued by the Driving Standards Agency to driving examiners is as follows.

A candidate may, if they so wish, and provided the examiner is satisfied there is sufficient room in the vehicle, be accompanied by their instructor or a friend. Any person(s) accompanying the candidate must be at least 16 years of age. The examiner should, however, make it clear that the third party must not in any way interfere with, or comment on, the test.

Examiners must ensure that any rear seat passenger wears a seat belt; if a rear seat passenger refuses to do so the test will be not be conducted.

Driving: Dyslexia

Daniel Kawczynski: To ask the Minister of State, Department for Transport what assessment he has made of the accessibility of the driving theory test for people with dyslexia. [285284]

Paul Clark: The Driving Standards Agency works with disabled people's organisations, including those representing people with dyslexia, to ensure all candidates can take the driving theory test without discrimination or disadvantage. Screen layout, background colour, type size and colour have been taken into account.

Candidates with dyslexia can request an English voiceover and touch screen facility or an assistant who will read out the questions and record the candidate's answers. Candidates can also request additional time to complete the test.

Driving: Licensing

Dr. Kumar: To ask the Minister of State, Department for Transport how many applications for driving licences from residents of *(a)* Middlesbrough South and East Cleveland constituency, *(b)* Teesside, *(c)* the North East and *(d)* England using forged or stolen identity documents have been detected by the Driver and Vehicle Licensing Agency in each of the last five years. [285196]

Paul Clark: The following table provides the number of applications for driving licences, which were supported by what appeared suspect documents to the Driver and Vehicle Licensing Agency, since April 2005. These figures were not recorded before April 2005. This Department does not investigate identity fraud. Instead cases are referred to the police who would have the final confirmed figures.

	April 2005 to March 2006	*April 2006 to March 2007*	*April 2007 to March 2008*	*April 2008 to March 2009*	*April 2009 to June 2009*
Middlesbrough South and East Cleveland	0	0	1	0	0
Teesside	0	0	0	0	0
North East	6	13	9	4	0
England	948	1,264	1,484	1,259	200

East Coast Railway Line

Norman Baker: To ask the Minister of State, Department for Transport whether the terms of the East Coast mainline franchise allow for any financial obligations of National Express East Coast Ltd. to be borne by their parent company National Express Ltd. [284709]

Chris Mole *[holding answer 7 July 2009]:* Under the National Express East Coast franchise agreement, National Express Group is obliged to meet its parent company loan obligation of a £40 million loan facility. It is also open to National Express Group, at their discretion, to make available support in excess of this.

Norman Baker: To ask the Minister of State, Department for Transport what the estimated cost to the public purse is arising from the termination of the East Coast mainline franchise for the period between the date of transfer of the East Coast mainline franchise to the public sector and the expected date by which the franchise will be relet, net of operating profits received by the new public sector company. [284710]

Chris Mole *[holding answer 7 July 2009]:* The cost to the public purse while the East Coast Mainline franchise is run by the public sector company will depend upon a number of factors, including ticket revenue during that period. The costs of transferring the franchise to the public sector company and re-letting the franchise will be met from within the £31.4 million performance bond that National Express is contractually committed to.

Norman Baker: To ask the Minister of State, Department for Transport whether the funding required for the return to public ownership of the East Coast mainline franchise will come from existing rail budgets. [286329]

Chris Mole: The costs of transferring the franchise to the public sector company and re-letting the franchise will be met from within the £31.4 million performance bond that National Express is contractually committed to.

Hugh Bayley: To ask the Minister of State, Department for Transport what surplus of income over expenditure on operating costs he expects the East Coast Main Line franchise to achieve in the period that it is in public sector management; to whom the surplus will be paid; and what plans he has for the allocation of such funds. [286373]

Chris Mole: Any surplus of income over expenditure on operating costs during the period that the east coast main line franchise is in public sector management will be used to meet expected premium payments to the Department for Transport. Any surplus beyond this will also be received by the Department. Any surplus will depend on future ticket revenue which is not yet known.

Hugh Bayley: To ask the Minister of State, Department for Transport (1) what surplus of income over expenditure on operating costs of the East Coast Main Line was in each of the last 10 years that the service was managed by British Rail; [286374]

(2) how many *(a)* passengers were carried and *(b)* kilometres were travelled by trains on the East Coast Main Line in each of the last 25 years. [286376]

Chris Mole: The Department for Transport does not hold this information. More general information on rail usage is contained in National Rail Trends, published by the Office of Rail Regulation at:

www.rail-reg.gov.uk

First Great Western: Rolling Stock

Mr. Sanders: To ask the Minister of State, Department for Transport when he expects to make a decision on First Great Western's bid for 44 new rail vehicles. [286533]

Chris Mole: We are in discussion with First Great Western regarding the provision of additional train capacity in the Bristol area, and will make an announcement in due course.

Heavy Goods Vehicles: Licensing

Mrs. Gillan: To ask the Minister of State, Department for Transport how many residents of *(a)* England, *(b)* Wales, *(c)* Scotland and *(d)* Northern Ireland had heavy goods vehicle licences in each of the last five years. [285560]

Paul Clark: The following table provides the number of drivers who held a heavy goods vehicle licence in the requested countries in each of the last five years:

	2004	*2005*	*2006*	*2007*	*2008*
England	503,009	577,521	674,355	782,103	889,167
Wales	36,398	41,714	48,649	56,166	63,543
Scotland	44,854	51,507	59,860	69,349	78,367
N. Ireland	13,291	18,094	25,160	33,726	42,701

Motor Vehicles: Testing

Mr. Roger Williams: To ask the Minister of State, Department for Transport how many tests of *(a)* heavy goods vehicles and *(b)* public service vehicles were carried out at the Llandrindod Wells test centre in each of the last three years; and how much the Vehicle and Operator Services Agency received from such tests in each such year. [286024]

Paul Clark: The number of tests and income the Vehicle and Operator Services Agency received for *(a)* Heavy goods vehicles and *(b)* public service vehicles at Llandrindod Wells in the past three years is as set out in the following table:

	HGV Tests	*HGV Income (£)*	*PSV Tests*	*PSV Income (£)*
2006-07	2013	105,507.00	363	26,025.00
2007-08	2060	115,083.00	367	28,078.00
2008-09	1774	98,974.00	369	27,867.00

Mr. Roger Williams: To ask the Minister of State, Department for Transport how many tests of *(a)* heavy goods vehicles and *(b)* public service vehicles have been carried out in (i) England and (ii) Wales by staff of the Vehicle and Operator Services Agency in the last three years. [286027]

Paul Clark: The following table sets out the number of tests of heavy goods vehicles (HGVs) and public service vehicles (PSVs) carried out by the Vehicle and Operator Services Agency in England and Wales over the past three years:

Financial year	*Country*	*Scheme*	*Annual tests*	*Re-tests*	*Total*
2006-07	England	HGV and trailers	611,049	121,036	732,085
	England	PSV	66,264	8,643	74,907
	England 2006-07 total		677,313	129,679	806,992
	Wales	HGV and trailers	36,518	7,445	43,963
	Wales	PSV	5,784	899	6,683
	Wales 2006-07 total		42,302	8,344	50,646
2007-08	England	HGV and trailers	605,444	121,592	727,036
	England	PSV	66,363	9,502	75,865
	England 2007-08 total		671,807	131,094	802,901
	Wales	HGV and trailers	37,955	7,735	45,690
	Wales	PSV	5,738	926	6,664
	Wales 2007-08 total		43,693	8,661	52,354
2008-09	England	HGV and trailers	602,359	107,762	710,121
	England	PSV	68,330	9,251	77,581
	England 2008-09 Total		670,689	117,013	787,702
	Wales	HGV and trailers	35,759	7,016	42,775
	Wales	PSV	5,717	901	6,618
	Wales 2008-09 total		41,476	7,917	49,393

Network Rail: Directors

Stephen Hammond: To ask the Minister of State, Department for Transport pursuant to the answer of 4 June 2009, *Official Report*, columns 611-2W, on Network Rail: directors, whether he has identified criteria on which he would consider appointing a special director to Network Rail. [285758]

Chris Mole: No consideration has been given to identifying such criteria.

Public Expenditure

Norman Baker: To ask the Minister of State, Department for Transport (1) what assessment he has made of the effects on his Department's priorities and plans of the re-allocation of funding announced in the White Paper, Building Britain's Future, Cm 7654; [286327]

(2) what proportion of the £1.5 billion to be allocated to new housing announced in Building Britain's Future, Cm 7654, will be drawn from his Department's budgets. [286328]

Chris Mole: I refer the hon. Member to my answer of 9 July 2009, *Official Report*, columns 921-22W.

Public Transport: Greater Manchester

Andrew Stunell: To ask the Minister of State, Department for Transport how much funding his Department has allocated for the purposes of improving public transport *(a)* in each local authority area in Greater Manchester and *(b)* in England in each of the last five years. [285370]

Mr. Khan: The Department for Transport allocates integrated transport block funding to local transport authorities outside London for capital investment in transport. Funding is not generally ring-fenced and local authorities have discretion to spend their allocations in line with their priorities, including support of public transport. The following table shows funding support in Greater Manchester and England between 2005-06 and 2009-10:

	Integrated transport funding				*£ million*
	2009-10	*2008-09*	*2007-08*	*2006-07*	*2005-06*
Greater Manchester					
Bolton	1.577	2.244	1.757	1.548	1.694
Bury	1.004	1.488	1.207	1.177	1.290
Manchester	5.203	6.048	5.442	5.358	4.189

Integrated transport funding

	2009-10	2008-09	2007-08	2006-07	£ million 2005-06
Oldham	1.321	1.925	1.852	1.852	2.000
Rochdale	1.197	1.797	1.433	1.332	1.462
Salford	1.457	2.261	2.261	2.260	2.481
Stockport	4.511	5.084	4.837	4.493	1.657
Tameside	2.345	2.871	2.606	2.544	1.536
Trafford	1.148	1.640	1.321	1.265	1.397
Wigan	1.741	2.449	1.881	1..558	1.706
GMITA[1]	26.528	17.905	21.788	16.528	17.088
England	589.393	576.791	571.017	546.999	552.528

[1] GMITA—Greater Manchester integrated transport authority

Revenue expenditure on transport is generally supported through the Department for Communities and Local Government's formula grant, but the Department provides support for public transport through rural bus subsidy and special grant funding to meet the additional cost of the new, England-wide concessionary bus travel. The figures are as follows:

Rural bus subsidy

	Greater Manchester	£ million England
2009-10	0.329	58.500
2008-09	0.320	57.000
2007-08	0.312	55.598
2006-07	0.305	54.300
2005-06	0.298	52.999

Concessionary fares funding

	Greater Manchester ITA	£ million England
2009-10	10.800	217.000
2008-09	10.500	212.000

The Department has supported the following major schemes over the period 2005-06 to 2009-10 in the Greater Manchester area.

	£ million
Northern Orbital quality bus corridor (GMITA)	2.459
South East Manchester quality bus network (GMITA)	11.716
Manchester Metrolink (GMITA)	252.509
Greater Manchester urban traffic control (Manchester City Council)	8

Major project allocations in England (£ million)[1]

England	£ million
2009-10	383.602
2008-09	467.085
2007-08	264.490

[1] The England figures cover local transport authorities outside London and include funding to improve highways as well as public transport schemes.

Funding support for rail services and bus service operators grant are not available on the basis of local authority boundaries.

Railways

Mrs. Villiers: To ask the Minister of State, Department for Transport whether his Department *(a)* is funding and *(b)* plans to fund any projects included in the rail Control Period Four programme. [284812]

Chris Mole: The Department for Transport has funding to deliver the projects included in the programme for Control Period Four.

Railways: Concessions

Fiona Mactaggart: To ask the Minister of State, Department for Transport what consultation with passengers took place before the introduction of the recent changes in terms and conditions for Network Railcards. [284729]

Chris Mole: Network Railcards are offered commercially by train operators.

Consultation on any proposed changes to the terms and conditions for the Network Railcard are a matter for the participating Train Operators acting together through their industry body, the Association of Train Operating Companies.

Railways: Finance

Hugh Bayley: To ask the Minister of State, Department for Transport how much the Exchequer received from *(a)* GNER and *(b)* National Express East Coast in each year that each held the East Coast Main Line franchise; and what profits each reported to his Department in respect of its operation of the franchise in each such year. [286375]

Chris Mole: Details of subsidy paid and premiums received from all Train Operating Companies are published by the Office of Rail Regulation (ORR) in National Rail Trends on an annual basis. This document is available in the Library of the House and on the ORR's website at:

www.rail-reg.gov.uk

Details of the profits generated by Great North Eastern Railway and National Express are contained in the certified company accounts which are held at Companies House.

Railways: Franchises

Norman Baker: To ask the Minister of State, Department for Transport what mechanisms are in place to ensure the continuity of rail services in the event of the default of a franchisee; and what estimate he has made of the cost of such provision. [283040]

Chris Mole: Section 30 of the Railways Act 1993 (as amended by the Railways Act 2005) places a duty on the Secretary of State for Transport to ensure passenger services are maintained in the event that a franchise is not in place.

Contingency plans are in place to deal with a franchise failure. These plans are regularly reviewed to ensure that they are still fit for purpose.

The cost of any such provision would depend on the specific circumstances of the case.

Norman Baker: To ask the Minister of State, Department for Transport how many staff of his Department would be required to manage the return of a franchise by a train operating company. [283041]

Chris Mole: Staffing requirements would depend on the specific franchise returned and the circumstances at the time of the return.

Stephen Hammond: To ask the Minister of State, Department for Transport (1) what legal advice he has received with regard to cross default provisions in rail franchise contracts; [285770]

(2) if he will publish any legal advice he has received with regard to cross default provisions in rail franchise contracts. [285771]

Chris Mole: Legal advice on the issue of cross default in the context of the franchise agreement is privileged and confidential; therefore, it will not be published or divulged.

Stephen Hammond: To ask the Minister of State, Department for Transport what recent assessment he has made of the *(a)* punctuality and *(b)* reliability of the rail service on the Wimbledon loop line (i) before and (ii) after the award of the franchise to First Capital Connect. [285806]

Chris Mole: The Department for Transport holds information on punctuality and reliability for each train operator for routes as a whole. The service on the Wimbledon Loop is assessed as part of the Thameslink route and not broken down into specific sections.

The Public Performance Measure Moving Annual Average (PMM MAA) for performance before the start of the First Capital Connect Franchise (April 2006) was 86.2 per cent. The latest PPM MAA performance figure is 89.2 per cent. on the Thameslink route.

Stephen Hammond: To ask the Minister of State, Department for Transport with reference to Chart 5 of his Department's publication, Franchise Evaluation Process Charts, May 2008, Selection of winning bid, whether the National Express East Coast bid for the Inter City East Coast franchise awarded in 2007 had a greater than 2.5 per cent. advantage in the delivery plan score against the next best bid, after an assessment of the affordability, compliance and deliverability of the bid had been as completed. [285855]

Chris Mole: The Inter City East Coast Franchise was let on 13 August 2007. A January 2007 version of the Franchise Evaluation Process Charts was used in the evaluation process.

National Express East Coast bid for the Inter City East Coast franchise had a greater than 2.5 per cent advantage in its deliverability score over the lead risk adjusted net present value bidder. Both bids were within the risk adjusted net present value materiality threshold.

Stephen Hammond: To ask the Minister of State, Department for Transport with reference to Chart 4 of his Department's publication, Franchise Evaluation Process Charts, May 2008, categorisation of financial risk, what category of financial risk was awarded to the National Express East Coast bid financial for the Inter City East Coast franchise. [285856]

Chris Mole: The Intercity East Coast Franchise was let on 13 August 2007. A January 2007 version of the Franchise Evaluation Process Charts was used in the evaluation process.

National Express East Coast bid was categorised as medium financial risk.

Norman Baker: To ask the Minister of State, Department for Transport what assessment he has made of the effects on his Department's plans for transport schemes of the return to public ownership of the East Coast mainline franchise. [286326]

Chris Mole: The temporary transfer of operation of the east coast main line train services to a public sector company will, in itself, have no impact on the plans for long term development of those services or other transport schemes.

Road Signs and Markings: Isle of Sheppey

Mr. Grieve: To ask the Minister of State, Department for Transport if he will instruct the Highways Agency to ensure that road signage on the Isle of Sheppey and the A249 includes directions to HM Prison Swaleside, HM Prison Elmley and HM Prison Standford Hill. [285276]

Chris Mole: The signing for the HM Prisons Isle of Sheppey on the A249 is being reviewed by the Highways Agency in liaison with Kent county council which is responsible for all other roads on the island. The Highways Agency hope to be able to reach a conclusion in this matter soon.

Roads: Death

Norman Baker: To ask the Minister of State, Department for Transport how many people were killed in *(a)* road and *(b)* rail accidents in each year since 1980. [284010]

Paul Clark: The numbers of people killed in reported *(a)* road and *(b)* rail accidents in Great Britain in each year between 1980 and 2008 are given in the table.

Number of fatalities

	Road accidents[1]	*Rail accidents*[2]: *total*	*Of which: train accidents*[2]
1980	5,953	429	7
1981	5,846	445	7
1982	5,937	353	11
1983	5,445	427	10
1984	5,599	415	30
1985	5,165	392	6
1986	5,385	397	27
1987	5,125	421	10

	Road accidents[1]	Rail accidents[2]: total	Of which: train accidents[3]
		Number of fatalities	
1988	5,052	431	40
1989	5,373	362	18
1990	5,217	369	6
1991	4,568	359	12
1992	4,229	307	10
1993	3,814	316	4
1994	3,650	299	12
1995	3,621	289	5
1996	3,598	288	5
1997	3,599	299	8
1998	3,421	288	4
1999	3,423	349	34
2000	3,409	319	7
2001	3,450	308	13
2002	3,431	316	11
2003	3,508	286	11
2004	3,221	288	12
2005	3,201	314	9
2006	3,172	343	1
2007	2,946	309	4
2008	2,538	[4]	[4]

[1] Fatalities in reported personal injury road accidents on the public highway which involved at least one vehicle. Confirmed suicides are excluded.

[2] Fatalities in train accidents, accidents occurring through movement of railway vehicles and other accidents occurring on railway infrastructure (including acts of trespass and suicides).

[3] Train accidents are defined as collisions, derailments, trains running into obstructions, fires on board trains and missile damage to drivers' cab windscreens.

[4] 2008 figures for fatalities in rail accidents are scheduled for publication end July 2009.

Mr. Jenkins: To ask the Minister of State, Department for Transport how many road fatalities there have been in each constituency in the West Midlands in each of the last five years for which figures are available. [285363]

Paul Clark: The number of fatalities resulting from reported personal injury road accidents in each constituency in the West Midlands in each of the last five years are given in the table:

Parliamentary constituency[1]	2004	2005	2006	2007	2008
	Number of fatalities				
Aldridge-Brownhills	2	0	1	4	0
Birmingham, Edgbaston	3	3	5	3	1
Birmingham, Erdington	1	1	3	3	1

Tolls

Norman Baker: To ask the Minister of State, Department for Transport what forecast his Department has made of the future trends in traffic congestion following the decision not to introduce national road pricing. [284705]

Mr. Khan: The latest forecasts published in December 2008 suggest that congestion across the English road network as a whole will increase by about 37 per cent. between 2003 and 2025. The modelling underpinning the Department for Transport's central forecasts does not assume the introduction of national road pricing.

Transport Innovation Fund

Mrs. Villiers: To ask the Minister of State, Department for Transport what projects his Department plans to fund from the *(a)* productivity strand and *(b)* congestion charging strand of the Transport Innovation Fund. [284811]

Mr. Khan: Under the productivity Transport Innovation Fund (TIF) programme, resources have been allocated to:

Rail Schemes:

Gospel Oak/Barking

Humber Ports Gauge Enhancement

Peterborough/Nuneaton Gauge Enhancement

Southampton/Birmingham Gauge Enhancement

Olive Mount Chord

Highway Schemes:

Birmingham Box Active Traffic Management

A14 Traffic Management

In addition, the Department for Transport's contributions to the Crossrail project will be supported by the Fund. Funding also remains available through congestion TIF to support packages that tackle local congestion problems by combining investment in public transport and demand management such as road pricing.

Vehicle and Operator Services Agency

Mr. Roger Williams: To ask the Minister of State, Department for Transport how much the Vehicle and Operator Services Agency has received from the sale of property in each of the last three years. [286025]

Paul Clark: The Vehicle and Operator Services Agency (VOSA) received the following amount in respect of property sales in the last three years:

2007: Nil

2008: £1.5 million

2009: £0.8 million in the year to date.

Mr. Roger Williams: To ask the Minister of State, Department for Transport how many Vehicle and Operator Services Agency testing centres in *(a)* England and *(b)* Wales have closed in each of the last three years. [286026]

Paul Clark: No testing centres were closed in 2007. In 2008 the Vehicle and Operator Services Agency (VOSA) closed one test centre in England which was immediately replaced by a new facility in an improved location. VOSA has closed two English test centres so far in 2009.

VOSA plan to close two further test centres, one in England and one in Wales.

Mr. Roger Williams: To ask the Minister of State, Department for Transport how many vehicle testing centres in England and Wales operated by Vehicle and Operator Services Agency staff are owned by *(a)* the Vehicle and Operator Services Agency and *(b)* private companies. [286029]

Paul Clark: The Vehicle and Operator Services Agency (VOSA) does not hold ownership details of designated premises which are owned by private companies.

There are 68 sites in England and Wales which are either owned by the Department for Transport, or held on leases exceeding 40 years—the latter category numbering 13 sites. Of these, four sites are owned by private companies, the remainder are owned by local authorities.

West Coast Railway Line

Mr. Hoyle: To ask the Minister of State, Department for Transport whether maintenance work is planned on the West Coast Main Line on the weekend of 28 and 29 August. [285583]

Chris Mole: Maintenance work is planned on the weekend of 28 and 29 August when all lines will be blocked between Watford Junction and Leighton Buzzard between Saturday morning and Monday lunchtime.

I understand that Virgin West Coast is proposing to operate additional services between London and Birmingham via an alternative route.

PRIME MINISTER

Iraq Committee of Inquiry: Finance

Mr. Davey: To ask the Prime Minister (1) how much funding he expects to allocate to the Chilcot Inquiry into Iraq; [285360]

(2) how many staff the Chilcot Inquiry into Iraq will have; [285361]

(3) whether witnesses to the Chilcot Inquiry into Iraq will be permitted legal representation; and if he will make a statement; [285362]

(4) which experts have been appointed to assist the Chilcot Inquiry into the Iraq war; [286444]

(5) if he will request Sir John Chilcot to *(a)* publish the rules of procedure which his inquiry into the Iraq war will follow, *(b)* establish a website for the inquiry to communicate with the public and *(c)* announce a venue for the public hearings to be held during the inquiry; and if he will make a statement; [286445]

(6) what assessment he has made of the merits of making provision for immunity for witnesses to the Chilcot Inquiry into the Iraq war in respect of any prosecution which might arise as a result of their evidence; and if he will make a statement; [286446]

(7) whether provision has been made for legal representation for Ministers and former Ministers giving evidence to the Chilcot Inquiry into the Iraq war; [286447]

(8) what discussions he has had with the Chilcot Inquiry into the Iraq war on arrangements for him to give evidence to the inquiry; what such arrangements have been made; and if he will make a statement; [286448]

(9) what guidance he has issued to Government Departments on *(a)* preparations for and *(b)* responses to requests for evidence from the Chilcot Inquiry into the Iraq war; and if he will make a statement. [286449]

Andrew Mackinlay: To ask the Prime Minister (1) pursuant to the answer of 6 July 2009 to Question 283370, on the Chilcot Inquiry, if he will direct the Committee to publish a list of those Privy Council members serving on the Committee who attend each closed session of the inquiry; and if he will make a statement; [285588]

(2) pursuant to the answer of 6 July 2009 to Question 283372, on the Chilcot Inquiry, whether a verbatim record of the public sessions of the inquiry will be published daily; and if he will make a statement; [285589]

(3) pursuant to the answer of 6 July 2009 to Question 283458, on the Chilcot Inquiry, for what reasons Sir John Chilcot plans not to have legal representation for the tribunal; and if he will make a statement; [285590]

(4) pursuant to the answer of 6 July 2009 to Question 283460, on the Chilcot Inquiry, under what powers Sir John Chilcot plans to exclude legal representation for witnesses to the inquiry; and if he will make a statement; [285591]

(5) pursuant to the answer of 6 July 2009 to Question 283459, on the Chilcot Inquiry, whether he provided guidance to the persons invited to serve on the Committee of Inquiry on the likely time commitment involved and the frequency of meetings; and if he will make a statement; [285592]

(6) when there will be an announcement on the form in which witnesses to the Committee of Inquiry on Iraq will give evidence when doing so on a basis equivalent to giving evidence under oath; [285681]

(7) pursuant to the answer of 6 July 2009, *Official Report*, column 505W, on Iraq Committee of Inquiry, what level of *(a)* remuneration and *(b)* expenses will be provided to (i) Sir John Chilcot and (ii) other members of the Committee of Inquiry on Iraq; and if he will make a statement. [285682]

The Prime Minister: I refer the hon. Members to the statement I made to the House on 15 June 2009, to my letters of 17 and 22 June 2009 to the right hon. Sir John Chilcot GCB and his reply to me of 21 June 2009, copies of which have been placed in the Libraries of the House. I also refer to the written answer I gave on 6 July 2009, *Official Report*, column 505W.

As Chairman, it is for Sir John, in consultation with the Inquiry Committee members, to take decisions on how the inquiry conducts its work, and he will make public his intentions. The Cabinet Office, as the sponsoring Department for the inquiry, is taking forward work on the Government's support to and liaison with the inquiry, in consultation with other relevant Government Departments. We will continue to update the House.

Letter from the Prime Minister, dated 17 June 2009:

I would like to thank you for agreeing to Chair the Iraq Inquiry. As I said in Parliament, I believe this Inquiry will, through lessons learned, strengthen our diplomacy, our military and our democracy. I am fully committed to a thorough and independent inquiry, and guarantee the full co-operation of the Government. As Privy Counsellors, you will have unhindered access to government documents. I have written to all relevant current and former Ministers to underline the importance of their full cooperation. And the Cabinet Secretary is writing to departments to underline the need for full transparency.

It is essential that all those appearing before the Inquiry do so with the greatest possible candour and openness, and that the Inquiry itself proceeds as efficiently as possible, while maintaining full public confidence in the integrity of the process and without in any way damaging national security. Once you have met, as I have suggested, the Leaders of the other political parties and the Chairs of the relevant parliamentary Select Committees it would be helpful if you could set out how you and your colleagues think these objectives can best be met in the way that the Inquiry is conducted.

I hope as part of this that you will consider whether it is possible for there to be a process whereby they give their contributions on oath.

It is also essential that the families of those who gave their lives in Iraq are properly consulted on the nature of the inquiry. I hope therefore that you will be able to meet them as part of the preparations and as you continue your work, to explain how you are proceeding. This could be, at their request, in public or private.

Once you have established your plans in more detail, I would encourage you to hold an open session to explain in greater depth the significant scope and breadth of the inquiry.

I wish you and your Committee well with your important task, and look forward to your conclusions.

Letter from Sir John Chilcot, dated 21 June 2009:

Thank you for your letter of 17 June about the Iraq Inquiry. I am grateful for your assurance of the Government's commitment to a thorough and independent inquiry, and for the steps that have already been taken with former and current Ministers, and Departments, to ensure full cooperation, transparency and access to government documents. I welcome the fact that I and my colleagues are free to decide independently how best to fulfil our remit.

I am for my part wholly committed to the search for the lessons to be learned for the future from events and experience of the last seven and more years, to uphold the integrity of the process of inquiry and the need to ensure public confidence in it, and to ensure complete candour and openness from witnesses while protecting national security. I will indeed, as you suggest, examine how best, given the non-judicial nature of the Inquiry, a formal undertaking can be given by witnesses that their contributions will be complete, truthful and accurate.

If a judicial inquiry, or a statutory Tribunal of Inquiry, had been established, then I would not have been asked to take on this responsibility. That would have required an extended process, with legal representation for the tribunal, witnesses, and other interested parties. That is not what we have been asked to conduct. To find without extended delay the key lessons for the future from the Iraq experience is however something I believe is well worthwhile.

I have as you suggested begun a process of consultation with the Leaders of the main Opposition parties, and with the Chairs of the relevant Parliamentary Select Committees (Foreign Affairs,

Defence, and Public Administration as well as the Intelligence and Security Committee). I see this as helping the Inquiry to decide how best we can structure our procedures to fulfil our remit and meet the objectives we have been set. When these consultations have been completed, I expect to be in a position, having taken them fully into account, to say in more detail how we will propose to take the Inquiry forward.

As part of that, it will, I wholeheartedly agree, be essential to ensure that the families of those who gave their lives in Iraq, or were seriously affected by the conflict, have an early opportunity to express their views about the nature and procedures of the Inquiry, and to express them either in public or in private as they prefer. That will be important in helping us to decide how to go about the task, and explain what we are going to do.

I have also concluded that the Inquiry will need expert assessors at the highest level, including in military, legal, and international development and reconstruction matters, and I have already begun to identify people who may be willing to serve in that capacity. Then, when we have settled on how we are going to go about the Inquiry, I am sure it is right that we should explain this in open session.

More broadly, I believe it will be essential to hold as much of the proceedings of the Inquiry as possible in public, consistent with the need to protect national security and to ensure and enable complete candour in the oral and written evidence from witnesses.

One important point which has not received much public notice so far is that examining and analysing the very large body of existing documentary evidence, stretching over seven or more years, will necessarily occupy a significant part of the time available to the Inquiry, especially in the early stages, and by definition that part of the process cannot be conducted in public sessions. The results of that examination and analysis will, however, be crucial in guiding the selection of witnesses and the detailed questions that will then need to be answered. I expect our report will publish all the relevant evidence except where national security considerations prevent that.

A particular suggestion which has been made is that the Inquiry might make an interim report, possibly on the run-up to the war, or up to the moment when the coalition assumed responsibility for Iraq's internal affairs. While I do not rule out the possibility, it seems to me clear that the causes and effects of particular phases of these events cannot simply be divided up so as to separate clearly one period from another. To take one obvious example, the existence or otherwise of weapons of mass destruction could not be established with any reliability until well after the conflict phase, after the work of the Iraq Survey Group and others had gone as far as it could, while before the event the outstanding possibility had significant implications for the military deployment into the initial conflict phase.

Because we will need to give careful attention to what comes out of the consultation processes I have outlined, I am, as I said, not yet in a position to state in more detail exactly how we will conduct the Inquiry. It is however already clear to me that as much as possible of the work of the Inquiry as is consistent with fulfilling our remit should be conducted, or explained, in public.

Letter from the Prime Minister, dated 22 June 2009:

Thank you for your letter. I remain grateful that you have agreed to Chair the Independent Inquiry and welcome your interim response in your letter of 21 June.

I am grateful you agree with me on the process which has been established to consult with leaders of the main Opposition parties, and with the Chairs of the relevant Parliamentary Select Committees. I share the view that this will help the Inquiry decide how best to structure its procedures to fulfil the remit and meet the objectives we have set.

I believe the proposals we have discussed to ensure the families of those who gave their lives in Iraq, or who were seriously affected by the conflict, will be able to be involved at the earliest opportunity in the work of the Inquiry remain extremely important. Allowing them to express their views about the nature and procedures of the Inquiry, and being able to express these either in public or in private is essential.

As an independent Inquiry, as I said in the House of Commons last week, the methodology employed by the Inquiry is a matter for you. The Inquiry should decide on its structure, but I welcome the proposals for the process of the Inquiry as set out in your letter today. I believe your proposals will manage to meet both the need not to compromise national security but also enable the Independent Inquiry also to hold public sessions helping to build public confidence.

I share your view that the Inquiry will obviously need expert assessors and I am pleased you have already identified several who will be willing to serve in that capacity.

I am pleased that you intend to set out how these experts will be used and other matters explaining how you will go about the Inquiry in an open session.

I am grateful for your views that you will continue to examine whether witnesses can give evidence under oath or a similar formal undertaking.

Following further work and consultations by you, I look forward to hearing your final proposals as soon as possible.

Written Ministerial Statements

Norman Baker: To ask the Prime Minister if he will take steps to ensure that Ministers observe paragraph 9.3 of the Ministerial Code in relation to written ministerial statements on the last days before the summer recess. [286332]

The Prime Minister: Guidance for Ministers on announcements is set out in the Ministerial Code.

FOREIGN AND COMMONWEALTH OFFICE

Colombia

Mr. Watson: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the written ministerial statement of 30 March 2009, *Official Report*, columns 40-42WS, on Colombia, what progress has been made in his Department's work with trade union partners on labour relations in Colombia. [285740]

Chris Bryant: We continue to work with the Trades Union Congress (TUC) and their Colombian counterparts, the Arbitration and Conciliation Advisory Service (ACAS) and others on opportunities aimed at strengthening labour relations in Colombia.

Representatives from the TUC, ACAS and the Confederation of British Industry visited Colombia in 2008 to look at the relationship between the Government, employers and unions. Their findings highlighted a number of challenges, and we are presently considering proposals for projects to address some of those challenges.

Colombia: Land Mines

Mr. Watson: To ask the Secretary of State for Foreign and Commonwealth Affairs how much his Department has spent on landmine clearance projects in Colombia in each of the last five years. [285454]

Chris Bryant: Land mine clearance projects in Colombia have been supported by the Conflict Prevention Pool, which is funded jointly by the Foreign and Commonwealth Office, the Department for International Development and the Ministry of Defence.

Expenditure on these projects over the period concerned has been as follows:

	£
2004-05	24,482
2005-06	35,645
2006-07	28,134
2007-08	18,083
2008-09	17,367

The Conflict Prevention Pool no longer funds projects in South America.

Colombia: Press Freedom

Mr. Watson: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the Government of Colombia on press freedom in that country; and if he will make a statement. [285874]

Chris Bryant: Freedom of expression and of the press is an issue we raise regularly with the Colombian Government. Our embassy in Colombia has committed over £600,000 to projects in this field over the next two years, which include a programme for strengthening national networks for journalists.

The press in Colombia play a vital role in bringing matters of importance to the public's attention. They have been instrumental in exposing wrongdoings, and have provided an important platform for the political opposition.

Departmental Responsibilities

Mr. Redwood: To ask the Secretary of State for Foreign and Commonwealth Affairs how many hours he spent on his Ministerial duties in the week commencing 21 June 2009. [283539]

Chris Bryant: My right hon. Friend the Foreign Secretary spent 81 hours on his ministerial duties in the week commencing 21 June 2009. This includes meetings, dinner engagements and telephone conversations, as well as overseas trips. It does not include the time spent working on the ministerial box at home or constituency matters. The Foreign Secretary spends as much time as necessary to fulfil his ministerial and constituency obligations.

Hamas

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he has taken at the United Nations on allegations of misappropriation of aid by Hamas; and if he will make a statement. [283712]

Mr. Ivan Lewis: The UK has had a number of working-level contacts with UN counterparts on this issue. The UN has been putting in place a range of verification and quality assurance procedures to minimise the risk of misappropriation of aid.

Israel

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the government of Israel on the status of Jerusalem as capital of Israel; and if he will make a statement. [285542]

Mr. Ivan Lewis: The Government's position is very clear in support of a two-state solution based on the 1967 borders, with Jerusalem as the capital of both Israel and Palestine. My right hon. Friend the Foreign Secretary made this clear in the House on 30 June 2009, *Official Report*, column 152.

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received of the number of settlements removed by the government of Israel since 1997; and if he will make a statement. [285544]

Mr. Ivan Lewis: We have not received any reports outlining the number of settlements removed by the Israeli Government since 1997.

We consider all Israeli settlement activity to be illegal and in contravention of international law. Settlement activity remains one of the major obstacles towards achieving a peaceful solution in the Middle East. My right hon. Friend the Foreign Secretary made this clear during his recent meeting with the Israeli Defence Minister. We will continue to raise this issue both in public and private.

Israel: Foreign Relations

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he *(a)* has taken recently and *(b)* plans to take during the next 12 months to improve UK relations with Israel; and if he will make a statement. [285499]

Mr. Ivan Lewis: Israel is a close ally of the UK and we have regular warm and productive exchanges at all levels. Most recently, my right hon. Friend the Foreign Secretary met the Israeli Defence Minister Ehud Barak on 6 July 2009. We shall continue to foster a close relationship with Israel.

Middle East

Jo Swinson: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received on the recent statement by the Head of Shin Bet Yuval Diskin on the West Bank security barrier. [285071]

Mr. Ivan Lewis *[holding answer 8 July 2009]:* We are aware of reports on a statement made by the Head of Shin Bet regarding the security barrier.

While we recognise fully Israel's right to self-defence and agree that if it decides to build a barrier, it should be able to do so, we will continue to make clear to the Government of Israel, both in private and in public, that the barrier must be built either on or behind the green line.

Middle East: Peace Negotiations

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs when and where he last met Senator George Mitchell in his capacity as the US administration's special envoy to the Middle East. [286119]

Mr. Ivan Lewis: My right hon. Friend the Foreign Secretary met Senator Mitchell on 26 June 2009 in the margins of the G8 Foreign Ministers' meeting in Trieste. They also spoke on 6 July 2009.

Nigeria: Politics and Government

Mrs. Curtis-Thomas: To ask the Secretary of State for Foreign and Commonwealth Affairs what his most recent assessment is of the political situation in the Niger Delta. [285011]

Mr. Ivan Lewis: The Government remain concerned at the continuing high level of instability in the Niger Delta. We welcome the Nigerian Government's announcement of an amnesty and hope that this can lead to constructive dialogue towards reaching political, economic and environmental stability and development benefiting communities in the Delta. The UK stands ready to assist if requested by the Nigerian Government.

My noble Friend the Minister for Africa, Asia and the UN, Lord Malloch-Brown, and my right hon. Friend the Prime Minister will continue to raise the situation in the Delta with senior Nigerians where opportunities arise.

Sri Lanka

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs what his policy is on whether a UN Observer Mission should be sent to Sri Lanka. [285058]

Mr. Ivan Lewis: We fully support the efforts of the UN in regard to the situation in Sri Lanka and welcome the personal engagement by UN Secretary-General Ban Ki-Moon. We urged the Government of Sri Lanka to use the opportunity of the Secretary-General's recent visit to recognise that the UN has a central role to play, both in the delivery of humanitarian aid and in encouraging the process of political reconciliation that must be an integral part of rebuilding Sri Lanka's civil society. We would support further UN involvement that would lead to an improvement on the ground.

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations the Government has made to the government of Sri Lanka on the freedom of the press in that country. [285061]

Mr. Ivan Lewis: We regularly raise our concerns about media freedom, including attacks against media personnel, with the Sri Lankan Government. We believe the Sri Lankan authorities have a duty to take prompt action to ensure thorough and independent investigations are carried out into all incidents. We have also expressed our concern about media freedom in Sri Lanka through UK and EU statements this year.

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations have been made by the Government in the UN Human Rights Council on alleged human rights abuses in Sri Lanka. [285062]

Mr. Ivan Lewis: At the UN Human Rights Council Special Session on 26-27 May 2009, we raised our concerns about the human rights and humanitarian situation in Sri Lanka. We condemned the killing of civilians in the conflict and expressed concern for the many thousands displaced from their homes. We also used the opportunity to draw attention to the worrying reports of extra-judicial killings, politically motivated disappearances and attacks on the media. A copy of the UK's full statement can be found here:

http://ukungeneva.fco.gov.uk/resources/en/pdf/pdf1/hrc-sri-lanka-statement-26052009.

I have placed a copy in the House Library.

Sri Lanka: Internally Displaced Persons

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to the Government of Sri Lanka on the return of Sri Lankan Muslims in Puttalam who were displaced by the Liberation Tigers of Tamil Eelam in 1990. [284422]

Mr. Ivan Lewis: It is important that all communities, including Muslims, that have been displaced by the conflict over the years are able to return to their homes as soon as possible. We regularly discuss this with the Sri Lankan Government. Our immediate concern remains the humanitarian needs of the 280,000 civilians displaced by the recent fighting who are still held in camps. We support the continued engagement by Walter Kälin, the UN Representative on the Human Rights of Internally Displaced Persons, in addressing the needs of all displaced persons in Sri Lanka.

Sudan: Peace Negotiations

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the US administration on the Comprehensive Peace Agreement in Sudan. [284793]

Mr. Ivan Lewis: My noble Friend the Minister for Africa, Asia and the UN, Lord Malloch-Brown, discussed the comprehensive peace agreement (CPA) with Scott Gration, US Special Envoy to Sudan, in the margins of the African Union summit on 1 July 2009. He also led the UK delegation to the Forum of Supporters of the CPA in Washington on 23 June 2009.

Senior officials maintain regular contact with the US Administration on CPA and other Sudan issues. In addition, we remain in contact with the US embassy in Khartoum and US consulate in Juba.

CABINET OFFICE

Cancer: North East

Dr. Kumar: To ask the Minister for the Cabinet Office how many cases of cancer have been *(a)* diagnosed and *(b)* successfully treated in (i) the North East, (ii) Tees Valley and (iii) Middlesbrough, South and East Cleveland constituency in each year since 1997. [285326]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking how many cases of cancer have been (a) diagnosed and (b) cured in (i) the North East, (ii) Tees Valley and (iii) Middlesbrough South and East Cleveland constituency in each year since 1997 [285326]

The latest available figures for newly diagnosed cases of cancer (incidence) are for the year 2006. Numbers of (a) newly diagnosed cases of cancer from 1997 to 2006 in (i) the North East government office region, (ii) Tees Valley district and (iii) Middlesbrough South and East Cleveland parliamentary constituency are in Table 1.

It cannot be stated definitively whether a patient (b) has been definitely cured. For most cancers, five-year survival rates are often taken to be 'cure' rates. Cancer survival rates are only produced for specific cancers. A figure giving the overall survival rate for all cancer patients is not produced as it would not be meaningful to combine figures for disparate conditions having very different survival rates.

ONS regularly publishes five-year relative survival for patients resident in England, government office regions and strategic health authorities for the most common cancers. The most recent report can be found on the ONS website at:

http://www.statistics.gov.uk/statbase/Product.asp?vlnk=11991

Table 1: Registrations of newly diagnosed cases of all cancers[1], North East Government office region, Tees Valley district[2] and Middlesbrough South and East Cleveland parliamentary constituency[3], 1997 to 2006

	1997	1998	1999	2000	2001	2002	2003	2004	2005	2006
North East	12,384	12,922	13,093	13,119	13,483	13,645	13,748	13,605	13,620	13,495
Tees Valley	3,118	3,117	3,211	3,207	3,209	3,309	3,397	3,376	3,328	3,246
Middlesbrough South and East Cleveland	465	477	418	476	472	500	511	499	461	465

[1] All cancers coded to C00-C97 excluding C44 (non-melanoma skin cancer) in the International Classification of Diseases, Tenth Revision (ICD-10)
[2] Tees Valley is defined as the Hartlepool, Middlesbrough, Redcar and Cleveland, Stockton-on-Tees and Darlington local authorities.
[3] Based on boundaries as of 2008.

Office for National Statistics.

Cancer: South East

Mr. Pelling: To ask the Minister for the Cabinet Office how many cases of cancer have been *(a)* diagnosed and *(b)* successfully treated in (i) Hemel Hempstead constituency, (ii) Dacorum, (iii) Hertfordshire and (iii) the South East in each year since 1997. [285888]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking how many cases of cancer have been (a) diagnosed and (b) successfully treated in (i) Hemel Hempstead constituency, (ii) Dacorum, (iii) Hertfordshire and (iv) the South East in each year since 1997. [285888]

The latest available figures for newly diagnosed cases of cancer (incidence) are for the year 2006. Numbers of (a) newly diagnosed cases of cancer from 1997 to 2006 in (i) Hemel Hempstead parliamentary constituency, (ii) Dacorum local authority, (iii) Hertfordshire county and (iv) the South East government office region in each year since 1997 are given in Table 1.

It cannot be stated definitively whether a patient (b) has been successfully treated. For most cancers, five-year survival rates are often taken to be 'cure' rates. Cancer survival rates are only produced for specific cancers. A figure giving the overall survival rate for all cancer patients is not produced as it would not be meaningful to combine figures for disparate conditions having very different survival rates.

ONS regularly publishes five-year relative survival for patients resident in England, government office regions and strategic health authorities for the most common cancers. The most recent report can be found on the ONS website at:

http://www.statistics.gov.uk/statbase/Product.asp?vlnk=11991

Table 1: Registrations of newly diagnosed cases of all cancers[1]: Hemel Hempstead parliamentary constituency[2], Dacorum local authority, Hertfordshire county and the South East government office region, 1997 to 2006

	1997	1998	1999	2000	2001	2002	2003	2004	2005	2006
Hemel Hempstead	381	400	439	411	420	389	308	340	478	345
Dacorum	542	585	653	563	549	591	482	527	653	511
Hertfordshire	4,378	4,232	4,321	4,334	4,149	3,967	4,038	4,093	4,640	4,038
South East	36,698	36,240	38,108	37,649	37,967	37,391	37,468	39,018	38,627	38,775

Office for National Statistics

Conditions of Employment

Mr. Hoyle: To ask the Minister for the Cabinet Office what measures are in place regarding the use in Government infrastructure programmes of local employment contracts; and if she will make a statement. [285392]

Ian Pearson: I have been asked to reply.

Public procurers are required to seek value for money through fair and open competition. They must comply with EU Treaty open market principles and the UK public procurement Regulations implementing the 2004 EU Public Procurement Directives. These set out the

value for money criteria to be used for the award of public contracts. Any preferential treatment for local companies or those offering local employment is not allowed.

Death: Drugs

Mike Penning: To ask the Minister for the Cabinet Office how many *(a)* drug-related and *(b)* methadone-related deaths there were in each year since 1997. [285232]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician, I have been asked to reply to your recent question asking how many (a) drug-related and (b) methadone-related deaths there were in each year since 1997. (285232)

The table attached provides the number of deaths where (a) the underlying cause was drug poisoning, and (b) methadone was mentioned on the death certificate either alone or with other substances, in England and Wales, from 1997 to 2007 (the latest year available).

Table 1: Number of deaths from (a) drug poisoning[1] and (b) where methadone was mentioned on the death certificate, England and Wales[2], 1997 to 2007[3, 4]

			Deaths (persons)
	Drug poisoning	Methadone alone	Methadone with other substances
1997	2,817	288	437
1998	2,976	230	398
1999	3,110	178	336
2000	2,932	150	269
2001	3,093	126	244
2002	2,830	91	199
2003	2,623	74	201
2004	2,787	105	219
2005	2,762	98	220
2006	2,570	125	241
2007	2,640	167	325

[1] Cause of death was defined using the International Classification of Diseases, Ninth Revision (ICD-9) for the years 1997 to 2000, and Tenth Revision (ICD-10) for 2001 onwards. Deaths were included where the underlying cause was *(a)* due to drug poisoning (corresponding ICD-9 and ICD-10 codes are shown in Box 1), and *(b)* where methadone was mentioned on the death certificate, either alone or in combination with other substances.
[2] Figures for England and Wales include deaths of non-residents.
[3] Figures are for deaths registered in each calendar year.
[4] Figures for deaths registered in 2008 are provisional.

Box 1: International Classification of Diseases, Ninth Revision (ICD-9) and Tenth Revision (ICD-10) codes used to define drug-related poisoning deaths by underlying cause

Description	ICD-9	ICD-10
Mental and behavioural disorders due to drug use (excluding alcohol and tobacco)	292, 304, 305.2-305.9	F11-F16, F18-F19
Accidental poisoning by drugs, medicaments and biological substances	E850-E858	X40-X44
Intentional self-poisoning by drugs, medicaments and biological substances	E950.0-E950.5	X60-X64
Assault by drugs, medicaments and biological substances	E962.0	X85
Poisoning by drugs, medicaments and biological substances, undetermined intent	E980.0-E980.5	Y10-Y14

Mike Penning: To ask the Minister for the Cabinet Office how many deaths were caused by drug dependency in each year since 1997. [285233]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician, I have been asked to reply to your recent question asking how many deaths were caused by drug dependency in each year since 1997. (285233)

ONS routinely publishes figures on deaths related to drug poisoning, and the latest report was published on 28 August 2008[1]. However, it is not possible to determine from information collected at death registration whether a death was caused by drug dependency, since this information is not routinely recorded.

[1] Office for National Statistics (2008). Report: Deaths related to drug poisoning: England and Wales, 2003 to 2007. Health Statistics Quarterly 39, 82-88

Death: Skin Cancer

Norman Lamb: To ask the Minister for the Cabinet Office how many deaths from skin cancer were recorded in each year since 1997. [285451]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician, I have been asked to reply to your recent question asking how many deaths from skin cancer were recorded in each year since 1997. (285451)

The table attached provides the number of deaths where skin cancer was the underlying cause of death, in England and Wales, from 2004 to 2008 (the latest year available).

Number of deaths where skin cancer was the underlying cause of death[1], England and Wales[2], 1997 to 2008[3,4]

	Deaths (persons)
1997	1,734
1998	1,865
1999	1,844
2000	1,867
2001	1,877
2002	1,921
2003	2,036
2004	2,073
2005	2,068
2006	2,109
2007	2,313
2008	2,264

[1] Cause of death was defined using the International Classification of Diseases, Ninth Revision (ICD-9) codes 172-173 (Malignant melanoma of skin, and Other malignant neoplasm of skin) for the years 1997 to 2000 and Tenth Revision (ICD-10) codes C43 -C44 (Malignant melanoma of skin, and Other malignant neoplasm of skin) for 2001 onwards.
[2] Figures for England and Wales include deaths of non-residents.
[3] Figures are for deaths registered in each calendar year.
[4] Figures for deaths registered in 2008 are provisional.

Departmental ICT

Nadine Dorries: To ask the Minister for the Cabinet Office (1) what recent discussions she has had with the Minister for Digital Engagement and Civil Service Issues on the use and provision of information communications technology in *(a)* the Civil Service, *(b)* Government Departments and *(c)* 10 Downing Street; and if she will make a statement; [271092]

(2) what recent assessment has been made of the effectiveness of the Government's online communications strategy in meeting its objectives; and if she will make a statement; [271093]

(3) what recent discussions she has had with the Minister for Digital Engagement and Civil Service Issues on the Government's online communications strategy; and if she will make a statement. [271094]

Tessa Jowell: The Power of Information Taskforce was formed in April 2008 to help increase innovation in the use of new media by Government and to improve the way Departments share information. The taskforce published their final report on 2 March 2009 and made 25 recommendations for further action. All these recommendations have been accepted.

Copies of the Taskforce's report and the Government response have been placed in the Library.

Divorce

Chris Ruane: To ask the Minister for the Cabinet Office how many divorces were granted in each region in each of the last 30 years. [285997]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, July 2009:

As National Statistician I have been asked to reply to your recent Parliamentary Question asking how many divorces were granted in each region in each of the last 30 years. (285997)

Divorce statistics are based upon information supplied to ONS by the courts in England and Wales. The fact that a divorce has taken place in a court in a particular region does not mean that either one or both parties are resident there. Therefore, divorce statistics have been historically presented at a national level only. Table 1 shows the number of divorces separately for Wales and England for all years from 1986 to 2007. Figures are not available for years prior to 1986. Figures for 2008 will be published later in the year.

Table 1: Number of divorces by country 1986 to 2007

	Wales	Thousand England
1986	7.8	146.0
1987	7.8	143.2
1988	7.9	144.7
1989	8.2	142.7
1990	8.3	145.1
1991	8.4	150.1
1992	8.9	151.5
1993	8.9	156.1
1994	8.6	149.6
1995	8.0	147.5
1996	8.4	148.7
1997	8.0	138.7
1998	7.8	137.4
1999	7.5	137.0
2000	7.2	133.9
2001	7.4	136.4
2002	7.6	140.2
2003	7.7	145.8
2004	7.9	145.5
2005	7.2	134.6
2006	7.0	125.6
2007[1]	6.7	121.9

[1] Data are provisional for 2007

Drownings

Norman Lamb: To ask the Minister for the Cabinet Office how many deaths from drowning were recorded in each of the last five years. [285446]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, July 2009:

As National Statistician, I have been asked to reply to your recent question asking how many deaths from drowning were recorded in each of the last five years. (285446)

The table attached provides the number of deaths where drowning was the underlying cause of death, in England and Wales, from 2004 to 2008 (the latest year available).

Deaths from drowning may be accidental or due to suicide or homicide.

Table 1. Number of deaths where drowning was the underlying cause of death[1], England and Wales[2], 2004-08[3,4]

	Number
2004	412
2005	432
2006	429
2007	390
2008	429

[1] Cause of death was defined using die International Classification of Diseases, Tenth Revision (ICD-10), codes W65-W74 (Accidental drowning and submersion), X71 (Intentional self-harm by drowning and submersion), X92 (Assault by drowning and submersion) and Y21 (Drowning and submersion, undetermined intent).
[2] Figures for England and Wales include deaths of non-residents.
[3] Figures are for deaths registered in each calendar year.
[4] Figures for deaths registered in 2008 are provisional.

Employment: Yorkshire and the Humber

Hugh Bayley: To ask the Minister for the Cabinet Office how many *(a)* men and *(b)* women were in employment in (i) City of York constituency, (ii) the City of York local authority area and (iii) Yorkshire and the Humber in (A) May 1997 and (B) each year since. [285824]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, July 2009:

As National Statistician, I have been asked to reply to your Parliamentary Question asking how many (a) men and (b) women were in employment in (i) City of York constituency (ii) City of York local authority area and (iii) Yorkshire and the Humber region in (A) May 1997 and (B) each year since. (285824)

The Office for National Statistics (ONS) compiles labour market statistics for local areas from the Annual Population Survey (APS) and its predecessor the Annual Labour Force Survey (LFS) following International Labour Organisation (ILO) definitions.

Table 1 shows the number of males and females in employment resident in the requested areas. For the 12 month periods ending in February for 1997 to 2004 estimates have been provided from the Annual LFS. For the 12 month periods ending in December 2004 to 2008 estimates have been provided from the APS. The estimates for Yorkshire and The Humber have also been compiled from the Annual LFS and APS to be consistent with those for the City of York parliamentary constituency and City of York local authority and will therefore differ from the employment figures published in the Labour Market Statistical Bulletin.

National and local area estimates for many labour market statistics, including employment and unemployment are available from the NOMIS website at: http://www.nomisweb.co.uk

Table 1: Number of males and females in employment aged 16 and over resident in the City of York parliamentary constituency, City of York local authority and Yorkshire and the Humber

Thousand

	City of York parliamentary constituency		*City of York local authority*		*Yorkshire and the Humber*	
	Male	*Female*	*Male*	*Female*	*Male*	*Female*
12 months ending						
February 1997	22	22	43	39	1,163	988
February 1998	24	21	43	34	1,178	993
February 1999	28	20	45	38	1,202	1,010
February 2000	25	20	44	39	1,197	1,014
February 2001	27	24	49	44	1,208	1,051
February 2002	28	24	47	43	1,221	1,044
February 2003	29	25	50	43	1,233	1,047
February 2004	28	25	48	43	1,248	1,064
December 2004	29	27	49	44	1,247	1,068
December 2005	30	27	52	47	1,298	1,098
December 2006	29	28	51	50	1,309	1,107
December 2007	32	27	54	49	1,324	1,108
December 2008[1]	**32	**28	**54	**51	*1,324	1,124

[1] Coefficients of Variation have been calculated for the latest period as an indication of the quality of the estimates. See Guide to Quality below.

Guide to Quality:

The Coefficient of Variation (CV) indicates the quality of an estimate, the smaller the CV value the higher the quality. The true value is likely to lie within +/- twice the CV—for example, for an estimate of 200 with a CV of 5 per cent. we would expect the population total to be within the range 180-220.

Key Coefficient of Variation (CV) (%) Statistical Robustness

* 0 ≤ CV< 5 Estimates are considered precise

** 5 ≤CV < 10 Estimates are considered reasonably precise

*** 10≤ CV < 20 Estimates are considered acceptable

**** CV ≥ 20 Estimates are considered too unreliable for practical purposes

Annual Labour Force Survey/Annual Population Survey

Lobbying

Jenny Willott: To ask the Minister for the Cabinet Office when the Government plans to respond to the Public Administration Select Committee's First Report of this Session on Lobbying: access and influence in Whitehall; and if she will make a statement. [286430]

Angela E. Smith: I refer the hon. Member to the answer I gave to my hon. Friend the Member for Pendle (Mr. Prentice) on 8 July 2009, *Official Report*, columns 824-25W.

Parliamentary Session

Chris Ruane: To ask the Minister for the Cabinet Office what information her Department holds on the average length of a working week in each of the last 30 years. [285685]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician, I have been asked to reply to your Parliamentary Question asking what information is held on the average length of a working week in each of the last 30 years. (285685)

Estimates of the average actual weekly hours of work for those in employment from 1980 to 2009 are shown in the attached table. This information is updated monthly as part of the Labour Market Statistics Bulletin and can be found on the National Statistics website at the following address:

http://www.statistics.gov.uk/downloads/theme_labour/LMS_FR_HS/WebTable07.xls

The estimates are derived from the Labour Force Survey. As with any sample survey, estimates from the LFS are subject to a margin of uncertainty.

Average actual weekly hours of work, three-month periods ending April, 1980 to 2009, United Kingdom, seasonally adjusted

	Average weekly hours[1, 2]
1980	34.6
1981	33.7
1982	33.6
1983	33.5
1984	33.5
1985	33.7
1986	33.5
1987	33.6
1988	33.7
1989	33.8
1990	33.7
1991	33.2
1992	33.0
1993	32.9
1994	33.2
1995	33.4
1996	33.2
1997	33.3
1998	33.3
1999	32.9
2000	32.8
2001	32.7
2002	32.5
2003	32.2
2004	32.1

Average actual weekly hours of work, three-month periods ending April, 1980 to 2009, United Kingdom, seasonally adjusted

	Average weekly hours[1, 2]
2005	32.1
2006	32.0
2007	32.0
2008	32.0
2009	31.6

[1] Average hours actually worked in the reference week, which includes hours worked in second jobs.
[2] Figures include both paid and unpaid overtime.
Note:
The above estimates exclude people in most types of communal establishment (e.g. hotels, boarding houses, hostels mobile home sites etc.)
Source:
Labour Force Survey.

Public Houses: Closures

Chris Ruane: To ask the Minister for the Cabinet Office what estimate her Department has made of the number of public houses which have ceased trading in each of the last 30 years. [285687]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician, I have been asked to reply to your recent Parliamentary Question concerning what estimate has been made of the number of public houses to have ceased trading in each of the last 30 years. (285687)

Annual statistics on business births, deaths and survival are available from the ONS release on Business Demography. Data on business deaths are only available back as far as 2002 in this series. The table below contains the count of enterprise deaths of public houses for 2002-2007.

Table showing counts of Enterprise 'deaths' within Public Houses SICs for the years 2002-07

Standard industrial classification	2002	2003	2004	2005	2006	2007
55402—Independent public houses and bars	5,530	6,775	6,875	6,175	5,300	5,260
55403—Tenanted public houses and bars	2,150	2,610	2,950	2,590	2,310	2,340
55404—Managed public houses and bars	130	200	255	315	345	350
Total	7,810	9,585	10,080	9,080	7,955	7,950

Unemployment: Essex

Bob Spink: To ask the Minister for the Cabinet Office what her most recent estimate is of the number of children in a household in which no adult is in work in *(a)* Essex and *(b)* Castle Point. [285961]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician, I have been asked to reply to your Parliamentary Question on what the most recent estimate is of the number of children in a household in which no adults work in a) Essex and b) Castle Point. (285961)

Estimates for Essex from the Annual Population Survey (APS) household dataset for January to December 2007 are shown in the attached table. An estimate for Castle Point has not been provided as it is unreliable for practical purposes.

Figures for children in households are based on children aged under 16 years old living in working age households. A working-age household is a household that includes at least one person of working-age, that is a woman aged 16 to 59 or a man aged 16 to 64.

As with any sample survey, estimates from the APS are subject to a margin of uncertainty as different samples give different results. These estimates are such that there is 95 per cent certainty that from all samples possible they will lie within the lower and upper bounds.

Number of children[1] in workless[2] households in Essex, 2007, January to December 2007

			Thousand
	Estimate	Lower bound[3]	Upper bound[3]
Essex	32	23	42

[1] Children under 16.
[2] Workless household is a working-age household where no one aged 16 or over is working.
[3] 95 per cent. confidence interval which means that from all samples possible there would be 95 per cent. certainty that the true estimate would lie within the lower and upper bounds.

Annual Population Survey Household data sets

COMMUNITIES AND LOCAL GOVERNMENT

Audit Commission: Public Appointments

Mrs. Lait: To ask the Secretary of State for Communities and Local Government when he expects to make appointments of Audit Commissioners to replace those commissioners who retired at the end of March 2009. [284696]

Ms Rosie Winterton: Three audit commissioners left the board at the end of April 2009. The statutory size of the board is being reduced from 1 August and in the light of this, we are not replacing all three members.

Interviews took place in June 2009, to appoint one new member to the Audit Commission board and we expect to announce a decision shortly.

Chorley Borough Council: Bank Services

Mr. Hoyle: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 16 June 2009, *Official Report*, column 199W, on Chorley Borough Council: bank services, what steps his Department has taken to assist Chorley Borough Council in recovering its deposits in Icelandic banks; and if he will make a statement. [285574]

Ms Rosie Winterton: I refer my hon. Friend to the answer I gave him on 9 July 2009, *Official Report*, column 958W.

Council Housing: Construction

Mr. Austin Mitchell: To ask the Secretary of State for Communities and Local Government whether new council houses to be built under the proposals in Building Britain's Future will be allowed to be sold under right to buy provisions. [284800]

John Healey: Tenants in new council houses will have the same rights as other council tenants. However, I announced last month that we will exclude all new build council housing from the HRA subsidy system, which means that councils will retain in full the rent and capital receipts from these homes.

Mr. Austin Mitchell: To ask the Secretary of State for Communities and Local Government pursuant to the Prime Minister's statement of 29 June 2009, *Official Report*, columns 21-24, on Building Britain's Future, what steps he is taking to inform councils of the new opportunities for them to build homes; and how he plans to encourage them to do so. [284913]

John Healey: We have encouraged local authorities by making up to £350 million available to support the provision of new council housing, and by changing the rules governing the financing of such housing. The Homes and Communities Agency issued guidance to local authorities on accessing the funding available on 8 May, and will encourage delivery through its continuing dialogue with each authority.

Mr. Austin Mitchell: To ask the Secretary of State for Communities and Local Government pursuant to the Prime Minister's statement of 29 June 2009, *Official Report*, columns 21-24, on Building Britain's Future, when he expects the local authority house building programme to start. [284915]

John Healey: I expect the first building starts of new homes in the last quarter of 2009.

Council Housing: Finance

Grant Shapps: To ask the Secretary of State for Communities and Local Government on what date he expects his Department to launch its consultation on the future of the Housing Revenue Account. [286009]

Mr. Ian Austin: I refer the hon. Member to the answer given to him on 8 July 2009, *Official Report*, columns 898-99W.

Departmental Procurement

Bob Spink: To ask the Secretary of State for Communities and Local Government what changes have been made to his Department's *(a)* office equipment and *(b)* stationery purchasing policy in the last six months. [285308]

Mr. Malik: No changes have been made to the Department's *(a)* office equipment and *(b)* stationery purchasing policy in the last six months.

Departmental Responsibilities

Mrs. Lait: To ask the Secretary of State for Communities and Local Government which Minister in his Department has lead policy responsibility for the Audit Commission. [284697]

Ms Rosie Winterton: My right hon. Friend the Secretary of State for Communities and Local Government is responsible for all areas of policy, including those relating to the Audit Commission. I as Minister of State with responsibility for local government, lead on oversight of the Audit Commission on his behalf.

Domestic Waste: Waste Disposal

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what powers local authorities have to charge households for the provision of wheelie bins. [284290]

Dan Norris: I have been asked to reply.

Section 46 of the Environmental Protection Act 1990 sets out the provisions under which an authority can seek payment for waste receptacles, which include wheelie bins.

Eco-Towns: Finance

Tony Baldry: To ask the Secretary of State for Communities and Local Government how much his Department has allocated for its eco-towns programme in each of the next three years. [284935]

John Healey: We expect to make growth area funding available to those taking forward eco-town proposals, and in particular to support early delivery. In addition support will be available from the National Affordable Housing Programme, managed by the Homes and Communities Agency.

Home Information Packs

Bob Spink: To ask the Secretary of State for Communities and Local Government if he will make an assessment of the effects of the introduction of home information packs on the level of *(a)* demand for the services of domestic energy assessors and *(b)* competition in the domestic energy assessment market; and if he will make a statement. [285744]

John Healey: Both demand for the services of domestic energy assessors and competition in the domestic energy assessment market are matters for the market to determine. There are therefore no plans to carry out an assessment of the effects of the introduction of home information packs on either.

Homes and Communities Agency: Finance

Ms Buck: To ask the Secretary of State for Communities and Local Government what proportion of the Homes and Communities Agency's capital funding he expects to be allocated to the provision of homes for *(a)* social rent, *(b)* shared ownership and shared equity, *(c)* intermediate rent, *(d)* intermediate tenure other than intermediate rent and *(e)* private sale in each region in the next three years. [284699]

John Healey: The Homes and Communities Agency will set out their spending plans and allocations in their corporate plan, which will be published shortly.

Housing: Construction

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 18 November 2008, *Official Report*, column 112, on housing policy, whether his Department is on course to deliver three million new homes by 2020. [284481]

Mr. Ian Austin: The Housing Green Paper, "Homes for the Future: more affordable, more sustainable", published in July 2007, set out the Government's ambition to increase housing supply.

The Department does not produce forecasts of housing supply. However, the Government recognise that the current financial and economic conditions will make the achievement of their housing supply ambition extremely challenging. But despite the difficult economic and financial conditions, long-term pressures on housing supply and affordability remain. The Government therefore remain fully committed to doing all they can to meet the long-term demand and need for housing.

At Budget 2009 the Government announced a further £1 billion housing package which included a £400 million Kickstart housing delivery fund to restart stalled construction activity across the country. This should help developers retain jobs and skills, and boost the supply of homes over the next year.

In order to complement this investment, the Government are putting in place measures to enable a strong and sustainable recovery in house building, including: ensuring availability of sufficient supply of land and an effective and responsive planning system; and delivering effective and coordinated infrastructure provision.

Ms Buck: To ask the Secretary of State for Communities and Local Government how many homes for *(a)* social rent, *(b)* shared ownership and shared equity, *(c)* intermediate rent and *(d)* intermediate tenure other than intermediate rent have been (i) started, (ii) completed and (iii) acquired in the last three years; what estimate he has made of the number of homes in each such category to be (A) started, (B) completed and (C) acquired in the next three years; how many homes for private purchase have been (1) started and (2) completed in the last three years; and how many he expects to be (x) started and (y) completed in the next three years. [284698]

Mr. Ian Austin: Figures showing the number of social rent, intermediate rent and low cost home ownership completions in England, broken down by new build completions and acquisitions, were released in live table 1009 on the CLG website in December 2008:

http://www.communities.gov.uk/documents/housing/xls/table1009.xls

Affordable housing figures are collated from the Homes and Communities Agency investment management system (IMS); and housing strategy statistical appendix (HSSA) returns and P2 house building returns submitted to CLG by local authorities.

Comprehensive figures showing the total number of affordable housing starts are not available.

Communities and Local Government do not set targets for affordable housing. The details of how the national affordable housing programme (NAHP) will be managed, taking account of the housing pledge, part of Building Britain's Future, announced on 29 June, will be published in the HCA corporate plan shortly.

Figures showing the number of house building starts and completions in England, broken down by tenure, were released in live tables 208 (house building starts) and 209 (house building completions) on the CLG website in May 2009:

Starts:

http://www.communities.gov.uk/documents/housing/xls/323492.xls

Completions:

http://www.communities.gov.uk/documents/housing/xls/323495.xls

Figures are not available showing how many homes for private purchase are expected to be started and completed in the next three years.

Mr. Austin Mitchell: To ask the Secretary of State for Communities and Local Government how much has been spent under the Kickstart programme to re-start stalled housing projects; and how many houses have been completed under the programme. [284799]

John Healey: Since its announcement in April, the Homes and Communities Agency (HCA) has been conducting a competitive exercise to select projects for the Kickstart Housing Development Programme. I expect to announce the first allocations from the HCA from this programme later this month and to see the first building starts of new homes from the third quarter of 2009.

Housing: Energy

Mike Penning: To ask the Secretary of State for Communities and Local Government how many people had successfully completed a diploma in *(a)* domestic energy assessment and *(b)* home inspection in (i) Hemel Hempstead constituency, (ii) Hertfordshire and (iii) England at the latest date for which figures are available. [284815]

John Healey: Data about the number of people who successfully complete diplomas for either domestic energy assessment or home inspection are not collected centrally.

Tony Baldry: To ask the Secretary of State for Communities and Local Government what estimate he has made of the number of additional energy-efficient homes the Government expects to be built in the next two years which will be built in eco-towns. [284936]

John Healey: As yet no decisions have been made on those locations with potential to be an eco-town, but our aim is to see the first phase of a number of exemplar projects starting in the next couple of years, which will include providing energy efficient homes.

Housing: Low Incomes

Ms Buck: To ask the Secretary of State for Communities and Local Government how many homes for shared ownership, shared equity and discounted market sale were sold to households with an annual household income at the time of purchase of *(a)* £20,000 or less, *(b)* between £20,001 and £30,000, *(c)* between £30,001 and £40,000, *(d)* between £40,001 and £50,000, *(e)*

between £50,001 and £60,000, *(f)* between £60,001 and £70,000 and *(g)* over £70,000 in 2008-09; and what the average amount of subsidy provided to households in each income bracket was in that year. [284701]

John Healey: These data are available from the Continuous Recording (CORE) returns to the Tenant Services Authority from registered social landlords. Data for 2008-09, however, are not yet available.

Mr. Austin Mitchell: To ask the Secretary of State for Communities and Local Government pursuant to the Prime Minister's statement of 29 June 2009, *Official Report*, columns 21-24, on Building Britain's Future, whether the £1.5 billion additional expenditure for affordable housing he announced includes the £400 million allocated in the 2009 Budget. [284733]

John Healey: The £1.5 billion for the Housing Pledge set out in Building Britain's Future is additional expenditure. It does not include the £400 million allocated in the 2009 Budget.

Mr. Austin Mitchell: To ask the Secretary of State for Communities and Local Government whether local authorities which have transferred housing stock to a registered social landlord under a large scale voluntary transfer are permitted to build new social housing. [284802]

Mr. Ian Austin: There is nothing to prevent any local housing authority building new social housing.

Grant Shapps: To ask the Secretary of State for Communities and Local Government (1) how many new properties were available for sale under the *(a)* HomeBuy Direct, *(b)* New Build HomeBuy and *(c)* Rent to HomeBuy scheme in each of the last 12 months; [285963]

(2) how many properties were available under the *(a)* HomeBuy Direct, *(b)* New Build HomeBuy, *(c)* Rent to HomeBuy and *(d)* First-time Buyers Initiative in each of the last 12 months. [286015]

John Healey: Data on the number of properties available each month for New Build HomeBuy and Rent to HomeBuy are not held centrally. The following table shows the number of newly completed properties available for New Build HomeBuy and Rent to HomeBuy in each of the last 12 months.

	New Build HomeBuy	*Rent to HomeBuy*
2008		
July	415	0
August	495	0
September	868	18
October	476	70
November	545	28
December	1,129	48
2009		
January	413	10
February	632	27
March	2,849	972
April	126	63
May	388	245
June	716	133

There were 1,670 properties available under the First Time Buyers initiative in July 2008. This has gradually declined and as at the end of June 2009 there were 1,118 properties available.

HomeBuy Direct was introduced in September 2008 and there are currently over 8,000 properties available.

Grant Shapps: To ask the Secretary of State for Communities and Local Government what expenditure his Department has incurred on *(a)* HomeBuy Direct, *(b)* OwnHome, *(c)* OpenMarket HomeBuy, *(d)* the First-time Buyers Initiative, *(e)* MyChoice HomeBuy, *(f)* New Built HomeBuy, *(g)* Social HomeBuy and *(h)* Rent to HomeBuy in 2009-10 to date. [286014]

John Healey: I refer the hon. Member to the answer given to him by my right hon. Friend the Member for Derby, South (Margaret Beckett) on 21 May 2009, *Official Report*, column 1546W.

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many homes have been withdrawn from the *(a)* HomeBuy Direct, *(b)* New Build HomeBuy, *(c)* Rent to HomeBuy and *(d)* First Time Buyers Initiative scheme in each of the last 12 months. [286031]

John Healey: I refer the hon. Member to the answer given to him by my right hon. Friend the Member for Derby, South (Margaret Beckett) on 28 April 2009, *Official Report*, column 1178W.

No homes have been withdrawn from First Time Buyers Initiative schemes in the last 12 months. It is open to housing associations to convert NewBuild HomeBuy units to social, intermediate rent and Rent to HomeBuy to meet local circumstances.

Grant Shapps: To ask the Secretary of State for Communities and Local Government what the latest date was on which applications for *(a)* OwnHome, *(b)* MyChoice HomeBuy and *(c)* Open Market HomeBuy were accepted; and if he will make a statement. [286032]

John Healey: The latest dates on which applications were taken for MyChoiceHomeBuy were in mid May and early July for Ownhome.

Open Market HomeBuy is a general term for Ownhome and MyChoiceHomeBuy rather than a separate product.

Housing: Sales

Mr. Austin Mitchell: To ask the Secretary of State for Communities and Local Government if he will permit local authorities to participate in the Housing and Communities Agency's clearing house scheme for the sale of homes to housing associations. [284801]

John Healey: The Home and Communities Agency's (HCA) National Clearing House was set up to streamline initial assessment of national packages of at least 250 units from private sector house builders and operated during 2008-09. For the future, the HCA will continue to fund the purchase of unsold stock from developers where it represents value for money, is of good quality and in the right locations.

Local authorities, who successfully pre-qualify, will be able to bid for grant from the Homes and Communities Agency's Affordable Housing Programme through two bidding rounds announced in May.

Local Government: Bank Services

John Mann: To ask the Secretary of State for Communities and Local Government what provision each local authority which has lost more than £5 million as a result of the Icelandic banking collapse has made to cover the loss. [286394]

Ms Rosie Winterton: It is for each individual local authority to assess and manage their own financial situation and revise their financial plans and strategies where necessary. We do not hold the information requested.

We produced a regulation, which came into force on 31 March 2009, which allows local authorities to postpone the impact on budget calculations of the impairments required by accounting practice from the financial year 2009-10 to 2010-11. This will give councils time to adjust their medium-term financial plans and be clearer about how much money might be recovered before taking decisions which affect their budgets or council tax.

Local Government: Manpower

Hugh Bayley: To ask the Secretary of State for Communities and Local Government how much *(a)* local authorities in England and *(b)* City of York Council spent on employing (i) educational and (ii) other staff in (A) 2002-03 and (B) the latest year for which figures are available; and what change there has been in the proportion of (1) local authority and (2) City of York Council expenditure on staff since 2002-03. [285708]

Ms Rosie Winterton: The information requested is tabled as follows:

Employee expenditure

£ million

		2002-03	2007-08
City of York	Education service	67.5	99.8
	Other services	37.[illegible]	42.3
	All services	[illegible]	152.1
	Percentage of total net current expenditure: all services	63	69
England	Education service	21,972.8	30,687.7
	Other services	22,372.0	31,393.7
	All services	44,344.8	62,081.5
	Percentage of total net current expenditure: all services	64	65

Total expenditure on employees as reported by authorities to Communities and Local Government on revenue outturn (RO) forms. This includes all direct and indirect employee expenses and contributions to employee-related provisions, including national insurance contributions, pensions and employee-related expenses.

Figures are not necessarily comparable year-on-year owing to changes in the funding, function and structure of local authorities during this time. In particular, the outturn data for 2002-03 have been calculated on a non-financial reporting standard (FRS) 17 basis while the outturn data for 2007-08 have been calculated on a FRS 17 basis.

Mortgages: Government Assistance

Grant Shapps: To ask the Secretary of State for Communities and Local Government (1) what expenditure his Department has incurred on the administration of the Mortgage Rescue Scheme to date; [285968]

(2) what expenditure his Department has incurred on the Mortgage Rescue Scheme to date. [286020]

John Healey: The Mortgage Rescue Scheme was established as part of wide continuing work on the Department's homelessness prevention programme. The impact assessment, which sets out the estimated costs and benefits for the Mortgage Rescue Scheme, was published on 16 September 2008 and is available at:

http://www.communities.gov.uk/publications/housing/homeownerssupportpackage

The Mortgage Rescue Scheme has funding of £285 million over two years. The Homes and Communities Agency (HCA) is responsible for delivery of the scheme. The HCA's programme expenditure will be published in its annual report and accounts.

Non-Domestic Rates

Justine Greening: To ask the Secretary of State for Communities and Local Government what estimate has been made of the *(a)* total business rate liability that eligible businesses will defer under the business rate deferral scheme and *(b)* number of businesses eligible to make such deferrals in (i) 2009-10, (ii) 2010-11 and (iii) 2011-12. [285126]

Ms Rosie Winterton: On *(a)*, details of take-up estimates and revenue impacts of the business rates deferral scheme are contained in the scheme's impact assessment which can be found at the following link:

http://www.opsi.gov.uk/si/si2009/em/uksiem_20091597_en.pdf

A copy has been placed in the Library of the House.

On *(b)*, information on the number of businesses eligible to defer in 2009-10 is not held centrally.

We have no plans to implement a similar business rates deferral scheme for 2010-11 or 2011-12.

Justine Greening: To ask the Secretary of State for Communities and Local Government what estimate has been made of the number of properties subject to the business rate deferral scheme in respect of which more than 40 per cent. of the 2009-10 rates liability will have been paid before the first recalculated payment instalments are issued by local authorities; and what

estimate has been made of the total business rate liabilities which will have been paid before the recalculated payments come into effect. [285127]

Ms Rosie Winterton: No estimates have been made as the required information is not held centrally. Ratepayers are able to defer 60 per cent. of the increase in their 2009-10 rates bills caused by: the RPI adjustment to the non-domestic rates multiplier; and the end of the transitional relief scheme for the 2005 revaluation period. However, the amount that an eligible ratepayer can defer will be based on their entire 2009-10 bill.

Non-Domestic Rates: Empty Property

Justine Greening: To ask the Secretary of State for Communities and Local Government how many representations his Department has received on empty property business rate relief from *(a)* representative industry groups and *(b)* individual property owners since January 2008. [285118]

Ms Rosie Winterton: Our records show that we received 349 letters on empty property rates (EPR) between March 2007 and December 2008 from businesses and individuals both directly to Community and Local Government Ministers and via constituency MPs.

We have received representations from a number of representative bodies. These include:

British Property Federation
Consortium of British Industry
British Council of Shopping Centres
Machinery Users Association
British Retail Consortium
The Urban Regeneration Companies.

The Government listened to the concerns expressed by stakeholders and as a result announced in the 2008 pre-Budget report a temporary raising of the threshold at which rates on empty property becomes due from £2,200 to £15,000.

Justine Greening: To ask the Secretary of State for Communities and Local Government what estimate has been made of the number of properties *(a)* eligible for empty property business rate relief and *(b)* on which empty property business rate relief was claimed in each region in each year from 2005-06 to 2008-09; and what estimate he has made of the equivalent figures for each year from 2009-10 to 2011-12. [285128]

Ms Rosie Winterton: Local authority estimates of the number of properties on which empty property relief was being claimed, by region, as at 31 December 2007 and 31 December 2008 are shown in the following table. Data for earlier years were not collected and no estimates have been made of the number of properties that will claim relief in future years.

Number of properties on which empty property relief is being claimed

	31 December 2007	*31 December 2008*
North East	8,575	7,570
North West	30,305	27,597
Yorkshire and the Humber	19,233	17,138
East Midlands	15,158	12,244
West Midlands	24,282	18,181
East of England	19,682	14,967
London	33,506	20,840
South East	20,498	15,793
South West	15,129	13,593
Total England	186,370	147,923

No estimates have been made of the number of properties eligible for empty property rate relief.

Data are not strictly comparable as the rules governing empty property rate relief were changed by the Ratings (Empty Properties) Act 2007 and further subsequent changes.

Justine Greening: To ask the Secretary of State for Communities and Local Government how much empty property business rate relief was granted in each region in each year from 2005-06 to 2008-09; and what estimate he has made of the equivalent figures for each year from 2009-10 to 2011-12. [285129]

Ms Rosie Winterton: Details of the amount of empty property business rate relief granted in each year by local authorities (in £ million) in each region in each year from 2005-06 to 2007-08 are shown in the following table. Also shown are local authority estimates of the empty property business rate relief they will grant in 2008-09 and 2009-10. No estimates have been made for 2010-11 or 2011 -12.

Empty property business rate relief granted by local authorities

	2005-06	*2006-07*	*2007-08*	*2008-09*[1]	*£ million 2009-10*[1]
North East	36.9	43.4	42.2	32.8	22.1
North West	161.3	189.3	178.6	149.3	94.4
Yorkshire and the Humber	97.0	110.0	117.7	82.4	50.9
East Midlands	74.1	83.4	81.6	77.3	43.7
West Midlands	154.8	145.1	143.8	111.3	54.2
East of England	119.2	122.5	127.9	102.1	52.9
London	397.7	383.2	327.6	246.7	145.3
South East	202.2	206.1	195.0	140.3	67.3
South West	70.3	78.8	79.5	59.1	39.0
Total England	1,313.5	1,361.8	1,294.0	1,001.2	569.8

[1] Estimate

Justine Greening: To ask the Secretary of State for Communities and Local Government how much was paid in business rates on empty properties in each region in each year from 2005-06 to 2008-09; and what estimate he has made of the equivalent figures for each year from 2009-10 to 2011-12. [285130]

Ms Rosie Winterton: This information is not available centrally.

Non-Domestic Rates: Ports

Mr. Austin Mitchell: To ask the Secretary of State for Communities and Local Government how many fast-track reassessments of port operators' business rates are being made by the Valuation Office Agency; how long on average each such reassessment has taken; and when he expects such reassessments to be completed. [284983]

Ms Rosie Winterton: Since 24 November 2008 the Valuation Office Agency has received 308 proposals (appeals) against properties within ports. All have been dealt with in accordance with the 'fast track' procedures. 71 appeals have been resolved. At 1 June 2009 the average time taken for each appeal was 44 days.

In all but the most complex cases, the agency will reach a considered decision within two months of the date of receipt of the appeal.

Mr. Austin Mitchell: To ask the Secretary of State for Communities and Local Government how many operators in each port *(a)* are being assessed and *(b)* remain to be assessed for business rates by the Valuation Office Agency. [284984]

Ms Rosie Winterton: Within the 45 statutory ports and container terminals in England, there are, at 1 April 2005, over 2,200 separate assessments for business rates.

The Valuation Office Agency continues to update the rating list to reflect new information and physical changes since 1 April 2005 in accordance with its statutory functions to maintain the rating lists.

Repossession Orders

Mr. David Anderson: To ask the Secretary of State for Communities and Local Government what steps his Department is taking to provide security of tenure to tenants resident in properties subject to repossession proceedings. [286245]

Mr. Ian Austin: We announced on 13 May 2009 our intention to legislate at the earliest opportunity to fill a gap in legal protection for private tenants whose landlords are repossessed to ensure that those tenants get adequate notice to vacate the property, regardless of whether their tenancy has been authorised by the landlord's lender.

We will consult on our proposals over the summer 2009 with a view to legislate at the next opportunity.

Shared Ownership Schemes

Mike Penning: To ask the Secretary of State for Communities and Local Government how many shared ownership purchases were made in *(a)* Hemel Hempstead, *(b)* Hertfordshire and *(c)* England by people registered on housing waiting lists in each year since 2000; and what proportion of all such sales this represented in each such year. [285134]

Mr. Ian Austin: Information on shared ownership purchases is not available below the spatial level of local authority.

The following table shows the number of shared ownership completions made in Dacorum local authority, Hertfordshire and England by people on housing waiting lists, and as a percentage of total shared ownership sales.

	Dacorum		*Hertfordshire*		*England*	
	Number of sales	*Percentage of sales*	*Number of sales*	*Percentage of sales*	*Number of sales*	*Percentage of sales*
2000-01	0	0	10	34	1,360	36
2001-02	0	0	[1]—	18	1,310	32
2002-03	10	100	10	38	1,620	36
2003-04	0	0	10	24	1,830	38
2004-05	0	0	30	62	2,830	45
2005-06	0	0	40	37	2,910	38
2006-07	10	39	80	34	3,620	34

[1] Not available due to small sample size of less than five.

Source:
CORE (Continuous Recording) returns to the Tenant Services Authority (TSA) from Registered Social Landlords (RSLs)

CORE data only record data from RSLs with at least 250 units or bedspaces, so the figures above may be underestimates if not all RSLs are included. Also not all CORE data are compulsory for RSLs to complete, and details on whether sales were made to people on LA waiting lists was missing in approximately 20 per cent. of returns.

Details on whether shared ownership sales were made to people on LA waiting lists was removed from the CORE form in 2007-08, so the figures are only available up to 2006-07.

Temporary Accommodation

Sarah Teather: To ask the Secretary of State for Communities and Local Government how many people aged *(a)* over 65 and *(b)* under 18-years-old have been placed in temporary accommodation in each year since 2004. [283438]

Mr. Ian Austin: Information about English local housing authorities' actions under the homelessness legislation (Part 7 of the Housing Act 1996) is collected quarterly at local authority level.

Data collected include the number of households accepted by local housing authorities as eligible for assistance, unintentionally homeless and in priority need, and therefore owed a main homelessness duty (to secure that suitable accommodation is available). If a settled home is not immediately available, the authority must secure temporary accommodation until a settled home becomes so.

The number of households housed in temporary accommodation by local authorities as at the last day of each quarter, is also recorded. This figure consists of those households which have been accepted as owed the main homelessness duty; those for which inquiries are pending; those being accommodated for a limited period because they have been found intentionally homeless and in priority need; those being accommodated pending possible referral to another authority; and those being accommodated pending the outcome of a local authority review or county court appeal.

The temporary accommodation figures are for households, not individuals, and therefore data are not collected centrally by age bands.

However, figures are collected for the number of dependent children (and expected children) that are included within the households in temporary accommodation. Dependent children comprise all children under 16, and children aged 16 to 18 years old who are in, or about to begin, full-time education or training or for other reasons are unable to support themselves and who live at home. These figures are available for 2007-08 and 2008-09, shown in the following table:

Table 1: Number of dependent children (and expected children) in temporary accommodation at the end of each financial year (31 March), from 2007-08 to 2008-09, England

	Number of children
2007-08	110,360
2008-09	92,590

We also collect figures for the number of 16 or 17-year-old applicant households in temporary accommodation—i.e. where a 16 or 17-year-old applicant is not a dependent child, has applied for assistance themselves, and they (and their household where applicable) are being housed in temporary accommodation. These figures are also available for 2007-08 and 2008-09, shown in the following table:

Table 2: 16 or 17-year-old applicant households in temporary accommodation at the end of each financial year (31 March), from 2007/08 to 2008-09, England

	Number
2007-08	2,300
2008-09	1,830

Note that the two sets of figures should not be added together, as the former covers individuals and the latter households.

HOME DEPARTMENT

Animal Experiments

Mr. Drew: To ask the Secretary of State for the Home Department what the Government's policy is on the use of animal experimentation for scientific advancement; and if he will make a statement. [284794]

Mr. Alan Campbell: The Government's policy on the use of animal experimentation for scientific advancement is clear and straightforward. We believe that the responsible use of animals for experimental and other scientific purposes continues to be essential if improvements in health care and veterinary treatment are to be developed with the minimum of delay and to make proper provision to protect man and the environment from health risks and other hazards.

Mr. Drew: To ask the Secretary of State for the Home Department what recent discussions he has had with *(a)* academic departments practising vivisection and *(b)* anti-vivisection organisations to discuss the Government's policy on vivisection. [284941]

Mr. Alan Campbell: The Under-Secretary of State for the Home Department, my hon. Friend the Member for Hackney, South and Shoreditch (Meg Hillier) met People for the Ethical Treatment of Animals (PETA) and the British Union for the Abolition of Vivisection (BUAV) earlier in 2009 to discuss aspects of the European Commission proposal for a draft directive for the protection of animals used in scientific procedures to replace Directive 86/609/EEC. My hon. Friend also met the All Party Parliamentary Fund for the Replacement of Animals in Medical Experiments (FRAME) Group to discuss the draft directive. In addition, Home Office officials have met with a wide and representative cross-section of relevant stakeholder groups to discuss its provisions. A public consultation on the proposal closed on 3 July 2009.

Asylum: Bahrain

Mr. Purchase: To ask the Secretary of State for the Home Department what recent discussions *(a)* he and *(b)* Ministers in his Department have had with (i) the Secretary of State for Foreign and Commonwealth Affairs, (ii) other Ministerial colleagues and (iii) the UK Border Agency on grounds for granting asylum to Bahraini nationals. [267974]

Mr. Woolas: Neither I nor my right hon. Friend the Home Secretary have had recent discussions with the Secretary of State for Foreign and Commonwealth Affairs or with other ministerial colleagues about grounds for granting asylum to Bahraini nationals. I frequently discuss matters of asylum and immigration policy with officials across a range of Whitehall Departments including the UK Border Agency. It is the policy of the Home Office not to discuss individual asylum cases with third parties.

Separately, I have engaged directly with the Bahraini Interior Minister to build better understanding on matters of mutual interest, including conveying the fundamental principles of the United Kingdom's international protection obligations.

Automatic Number Plate Recognition

Mrs. Laing: To ask the Secretary of State for the Home Department on how many occasions an individual *(a)* stopped and searched and *(b)* arrested on the basis of automatic number plate recognition data was released without charge in each year since 2005. [285402]

Mr. Hanson: The information requested is not collected centrally.

Information on the individual circumstances of arrests and stops and searches (including whether automatic number plate recognition was used during the arrest/search) are not reported to the Home Office.

Mrs. Laing: To ask the Secretary of State for the Home Department (1) how many authorisations were given by senior police officers for access to automatic number plate recognition data in each year since 2005; [285403]

(2) how many police officers have authorised access to automatic number plate recognition data in each year since 2005; [285404]

(3) how many instances there have been of senior police officers accessing automatic number plate recognition data which had been retained for more than 90 days in each year since 2005; [285405]

(4) how many automatic number plate recognition records have been permanently deleted in each year since 2005; [285406]

(5) how many automatic number plate recognition records have been created in each year since 2005. [285413]

Mr. Hanson: Information regarding the number of Automatic Number Plate Recognition (ANPR) records created, accessed to and deleted is not held centrally. ANPR data is collected and stored locally on computer systems that are owned and managed by the individual police force. Chief Police Officers are responsible for the management of this ANPR data, including access to and deletion of records.

Aviation: Personal Records

Mr. Brazier: To ask the Secretary of State for the Home Department what percentage of passenger name record data submitted by airlines to the *(a)* Semaphore and *(b)* e-Borders projects included data relating to (i) place of birth and (ii) date of issue of travel document. [282238]

Mr. Woolas *[holding answer 8 July 2009]:* Statistical information on the individual elements of PNR data was not captured under Semaphore, and equally there are no plans to collect these figures as a percentage of the Passenger Name Record (PNR) data collected under e-Borders.

These data elements would only be transmitted to e-Borders if the carrier were to collect these data for its own commercial purposes.

Borders: Personal Records

Damian Green: To ask the Secretary of State for the Home Department how many intelligence-led checks on people leaving the UK at ports and airports were made by UK Border Agency officers in *(a)* 2006 and *(b)* 2008. [282998]

Mr. Woolas: Details on the number of intelligence-led checks made on outbound passengers are not routinely recorded.

Crime Prevention

Mr. Watson: To ask the Secretary of State for the Home Department what recent discussions he has had on the use of unmanned aerial vehicles to tackle *(a)* crime and *(b)* terrorism. [284602]

Mr. Hanson: I have had no discussions recently on the subject of unmanned aerial vehicles.

Crime Prevention: Finance

James Brokenshire: To ask the Secretary of State for the Home Department how much funding has been provided by his Department to each local authority area identified as a youth crime priority area. [284834]

Mr. Hanson: The Youth Crime Action Plan (YCAP), published in July 2008, sets out the Government's plans for tackling offending by young people. It is supported by close to £100 million over the three year period from 2008-09 to 2010-11, in addition to the existing investment in children's and youth services, to support local authorities in making inroads into youth crime locally.

69 local authority areas in England and two in Wales have been identified as "priority areas" under YCAP. In 2008-09, under YCAP, the 69 local authorities in England each received £65,000 to implement an intensive package of activity set out in YCAP.

Each of the 69 local authority areas in England will receive £350,000 this financial year (2009-10) and £350,000 in 2010-11 to deliver the intensive package of activity to help reduce youth crime. In addition, the two Welsh areas will receive £175,000 in each of the two years to fund those aspects of the intensive package that are not devolved.

This year, building on the success of the Home Office enforcement campaign in 2008-09 we will provide funding to the 69 areas to develop a co-ordinated plan of activity to tackle alcohol related youth crime. Areas will be provided with a grant of up to £20,000 (£1.4 million in total) to kick-start activity to begin before the summer and last at least throughout the summer holidays.

Criminal Records Bureau

Jenny Willott: To ask the Secretary of State for the Home Department how many individuals have undergone *(a)* two, *(b)* three, *(c)* four and *(c)* five or more standard or enhanced Criminal Records Bureau checks in the last (i) three, (ii) six and (iii) 12 months; and if he will make a statement. [286096]

Mr. Hanson: The Criminal Records Bureau (CRB) does not hold data to show the number of individuals who have been required to apply for more than one Disclosure.

It is ultimately for each recruiting organisation and not the CRB to decide whether a fresh Disclosure should be applied for. The recruiting organisation, using a full range of pre-recruitment checks, is best placed to assess whether a new Disclosure is required for a specific position, bearing in mind their legal and other responsibilities. Organisations can accept a previously issued Disclosure at their own risk but they must understand the limitations and risks of doing so.

Guidance can be found on the CRB website at:

www.crb.gov.uk,

but the overriding consideration must always be the safety of those whom the Disclosure Service is designed to protect.

Cybercrime

Chris Grayling: To ask the Secretary of State for the Home Department how many *(a)* prosecutions and *(b)* convictions have been made consequent on investigations by the E-Crime Unit of the Serious Organised Crime Agency. [278434]

Alan Johnson: The mandate of SOCA's e-Crime Department is to reduce the harm caused to the UK by online crime. It is resourced to address the threat of technology-enabled crime, and in particular to degrade criminal capability to

use the Internet as an operational enabler or means of influence;

use the Internet to obtain information on serious organised crime in order to improve understanding of how those involved operate;

use the internet as a tool to assist in the disruption of criminal activity; and

help our citizens protect themselves from criminal activity on the internet.

From April 2006 until March 2009 the Serious Organised Crime Agency's e-Crime unit was involved in

(a) 22 prosecutions; and

(b) 21 convictions.

Prosecution is however only one of a number of tools available to help achieve harm reduction in line with the Home Secretary's priorities in this area. Resources are directed also to the development of new intervention techniques, to disrupt and deny criminal opportunities worldwide and to work with international partners. Similarly these techniques include work with internet protocol registrars and others involved in regulating the internet and the influencing of future legislation. The aim is not just to pursue the criminals involved, many of whom operate beyond the reach of our courts but also provide long-term solutions for harm reduction on the internet. The SOCA 2008-09 annual report recorded significant operational successes by the e-Crime unit, notably against DarkMarket and the Sumitomo Banking Corporation.

The Child Exploitation and Online Protection centre (CEOP) was involved over the same period in the investigation of offences of alleged child abuse where technology may have been a factor.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what recent progress has been made towards ratification of the European Convention on Cybercrime; and if he will make a statement. [283483]

Mr. Alan Campbell: The Government are fully committed to ratifying the Council of Europe Cybercrime Convention. We are currently working through the formal UK process of ratification, during which we will lay the required explanatory memorandum before Parliament to obtain approval for ratification. If Parliament agrees to ratification, the Foreign and Commonwealth Office will then commence the formal ratification process with the Council of Europe.

The Government had hoped to complete this process earlier in the year, but due to extended discussions with the devolved administrations and with legal advisors this has not been possible. We do not believe that further legislation will be necessary before we can proceed. We hope to complete the Parliamentary process shortly.

Departmental Information Officers

Paul Holmes: To ask the Secretary of State for the Home Department what the cost to his Department of employing press office staff other than press officers has been in each year since 1997. [283085]

Mr. Woolas: Staff employed in the Home Office press office other than press officers include staff in administrative and management roles. The following table which is based on our records provides the costs of these staff each year since 1997.

	Cost (£)
1997-98	258,650
1998-99	191,334
1999-2000[1]	215,431
2000-01	328,688
2001-02	244,309
2002-03	428,276
2003-04	443,509
2004-05	[2]423,061
2005-06	560,715
2006-07	474,324
2007-08	501,390
2008-09	573,322

[1] Prison Service and Core Home Office Press Offices merged.
[2] Exact costs of management 2004-05 are not available—management costs included here are the same as 2003-04.

Departmental Procurement

Bob Spink: To ask the Secretary of State for the Home Department what changes have been made to his Department's *(a)* office equipment and *(b)* stationery purchasing policy in the last six months. [285314]

Mr. Woolas: The Department has made no changes to its *(a)* office equipment and *(b)* stationery purchasing policy in the last six months.

The Department participates in cross-government collaborative arrangements for office equipment and stationery that include built-in incremental benefits. Additionally, the Department regularly engages with the market to ensure that the objective of value for money is achieved.

Departmental Training

Andrew Rosindell: To ask the Secretary of State for the Home Department (1) how much his Department has spent on staff training in health and safety procedures in each of the last five years; [278142]

(2) how much his Department has spent on health and safety training for its employees in each of the last two years. [284112]

Mr. Woolas: The information requested is not collated centrally and could be provided only at disproportionate cost.

DNA: Databases

Jenny Willott: To ask the Secretary of State for the Home Department how many new profiles have been added to the National DNA Database by each police force since 4 December 2008; and if he will make a statement. [285742]

Mr. Alan Campbell: The figures in Table 1 show the number of subject profiles added to the National DNA Database (NDNAD) by forces in England and Wales between 5 December 2008 and 8 July 2009, broken down by police forces.

The figures in Table 2 show the number of crime scene profiles added to the NDNAD by forces in England and Wales between 5 December 2008 and 8 July 2009, broken down by the police forces.

The number of subject profiles held on the NDNAD is not the same as the number of individuals. A proportion of DNA profiles held on the NDNAD are replicates, that is, a profile for a person has been loaded on more then one occasion (this may be because the person gave different names, or different versions of their name, on separate arrests, or because of upgrading of profiles). It is currently estimated that 13.5 per cent. of subject profiles held on the NDNAD are replicates. The replication rate of 13.5 per cent. should only be applied over the entire database however, as the replication rate for individual forces varies considerably. The presence of these replicate profiles on the NDNAD does not impact on the effectiveness and integrity of the database.

Table 1: Subject profiles added to the NDNAD between 5 December 2008 and 8 July 2009

Drug System Change Pilots

Mike Wood: To ask the Secretary of State for the Home Department (1) what the budget is for each of the seven drug system change pilots for *(a)* 2009-10 and *(b)* 2010-11; [284995]

(2) when he plans to publish details of the independent evaluation process for the seven drug system change pilots. [284996]

Mr. Alan Campbell: The Drug System Change Pilots programme is not a source of new money for service delivery. The aim of the programme is to improve outcomes for communities and individuals by encouraging partnerships to make better use of existing resources, align the efforts of all partners and key stakeholders, encourage innovation and share best practice, and to identify efficiencies that can come from the pooling of budgets, streamlined communication and information systems.

Joint funding (£2 million from the Home Office and Department of Health) has been allocated to kickstart the pilots in 2009-10, and to help build capacity by funding the appointment of a project manager and administrative support in those pilot sites which require it.

A tendering process for the independent evaluation of the programme is currently being undertaken, and it is hoped that this will be completed, and an independent contractor appointed, by September 2009. The intention is that, based on the reports from the contractor and the pilot sites, updates on progress from the Drug System Change Pilots will be made available on a quarterly basis.

Entry Clearances

Damian Green: To ask the Secretary of State for the Home Department how many risk assessment officers are *(a)* based at the UK Border Agency Abu Dhabi hub and *(b)* working on Pakistani visas in Abu Dhabi. [282948]

Mr. Woolas: Risk and Liaison Overseas Network staff are deployed on a risk assessment basis.

Bob Spink: To ask the Secretary of State for the Home Department pursuant to the answer of 18 June 2009, *Official Report*, column 455W, on entry clearances, if he will allocate greater resources to the processing of sponsor licences in order to meet the target time. [283485]

Mr. Woolas: There are currently no plans to allocate more resources to the processing of sponsor licences. The available resources are being targeted to better effect to improve turnaround times.

Entry Clearances: China

Andrew Rosindell: To ask the Secretary of State for the Home Department how many visitor visas were issued to Chinese nationals in *(a)* 2007 and *(b)* 2008. [283323]

Mr. Woolas: The number of visit visas issued to Chinese nationals in the calendar years 2007 and 2008 is given in the following table:

Chinese nationals	*2007*	*2008*
Family visit	19,211	19,138
Other visit	111,116	90,176
Total	130,327	109,314

Note:
These data are unpublished and should be treated as provisional
Source:
Central Reference System.

Entry Clearances: Jamaica

Andrew Stunell: To ask the Secretary of State for the Home Department for what reason the electronic processing of emergency visa applications from Jamaica has been suspended; when it will be resumed; and what steps he is taking to ensure that applications for emergency visas from that country can be granted where appropriate. [282890]

Mr. Woolas *[holding answer 29 June 2009]:* There has been no suspension of the processing of any visa applications in Jamaica. Kingston continues to operate a normal visa issuing service.

Entry Clearances: Macedonia

Jo Swinson: To ask the Secretary of State for the Home Department how many applications for visas from nationals of *(a)* Macedonia and *(b)* Kosovo were processed at the visa section of the British Embassy in Skopje in the latest period for which figures are available. [281218]

Mr. Woolas *[holding answer 19 June 2009]:* In the financial year 2008-09, our visa section in Skopje received 3,326 visa applications from nationals of Macedonia, and 3,233 applications from nationals of Kosovo.

Note:
These data are unpublished and should be treated as provisional.
Source:
Proviso visa processing system.

Entry Clearances: Nepal

Damian Green: To ask the Secretary of State for the Home Department how many Nepalese visa legacy cases there were as at 31 May 2009. [282944]

Mr. Woolas: As at 31 May 2009 there were 1,290 applications made in country for leave to remain where the lead applicant's nationality was given as Nepalese.

The figures quoted are not provided under National Statistics and have been derived from local management information and are therefore provisional and subject to change.

Entry Clearances: Russia

Andrew Rosindell: To ask the Secretary of State for the Home Department how many visitor visas were issued to Russian nationals in *(a)* 2007 and *(b)* 2008. [283325]

Mr. Woolas: The number of visit visas issued to Russian nationals in the calendar years 2007 and 2008 is given in the following table:

Russian nationals	*2007*	*2008*
Family visit	9,360	8,324
Other visit	116,438	118,374
Total	125,798	126,698

Note:
These data are unpublished and should be treated as provisional

Forensic Science Service

Mr. Hoyle: To ask the Secretary of State for the Home Department what steps he took to inform hon. Members of the recently announced planned changes to the Forensic Science Service prior to the release of information to the media. [285580]

Mr. Alan Campbell *[holding answer 9 July 2009]:* I made the announcement of Forensic Science Service (FSS) Transformation plans in a written ministerial statement (WMS) on 8 June 2009, *Official Report*, column 22WS and the commencement of the process by the FSS through internal meetings with staff and staff representatives began on the same day. I was aware that Bill Griffiths, the executive chairman of the company, had previously written to, and in some cases spoken to, Members with constituency interests. I also agreed with Bill that he would write to Members on the day of the WMS. This was done. This process was designed so that the statement was made to Parliament first.

Forensic Science: Standards

Mr. Hoyle: To ask the Secretary of State for the Home Department what procedures are in place to assess the *(a)* quality and *(b)* adequacy of private forensic science services operating under contract to police forces. [283018]

Mr. Alan Campbell: The Forensic Science Regulator sets out the quality standards and accreditation that are required for all forensic practitioners, including private forensic laboratory service providers.

Under the national forensic framework agreement, private forensic providers must comply with the standards set by the Forensic Science Regulator to be eligible to provide forensic services to police forces (in England and Wales). This is a mandatory clause contained within the framework agreement. The current standard requirements include ISO9001 quality management systems, 17025, and where appropriate 17020 compliance for each speciality area of work performed.

At a national level, the National Policing Improvement Agency (NPIA) manages the framework agreement on behalf of the 43 police forces and ensures that these quality standards are held by the participating suppliers and that they are maintained. The private companies themselves undergo annual inspection for compliance with the standards which is carried out by the United Kingdom Accreditation Service (UKAS). UKAS report any failings in compliance to the Forensic Regulator, who then passes relevant information on to the NPIA. If any action is required in terms of contract management, or there has been a breach of contract terms, the NPIA will address this through formal contract management processes with the supplier concerned.

To monitor the adequacy of any services being performed throughout the life of a forensic services provision contract, key performance indicators (KPIs) have been developed. These KPIs are reviewed at regular intervals.

This performance monitoring regime also includes regular contract management meetings between the suppliers and the police force and strategic business reviews carried out by the NPIA on behalf of Association of Chief Police Officers.

The regime is being designed to ensure that the services being provided by the private forensic suppliers are adequate to meet the operational needs of the police force. This also ensures that high quality standards set by the Forensic Science Regulator continue to be complied with, throughout the length of any service contract and for the lifetime of the national forensic framework agreement itself.

Immigration: Somalia

Andrew Rosindell: To ask the Secretary of State for the Home Department what recent discussions he has had with his EU counterparts on levels of immigration to the EU from Somalia. [284103]

Mr. Woolas: There are a number of initiatives concerning migration from Somalia to the EU in which the UK is involved with other EU member states and also the European Commission.

We supported a proposal by the incoming Swedish presidency of the European Union for a migration specific mission from EU capitals at official level to Kenya with a regional focus on Somalia.

The UK also leads an EU funded initiative called the 'East Africa Migration Routes Initiative' worth approximately £1 million in 2008 and 2009 which was co-funded by the EU Commission, UK, Malta, Italy and the Netherlands. The initiative included:

work by UK, Italy and Maltese border authorities to monitor and debrief migrants arriving by sea from Africa in the EU including Somali migrants in 2008;

an East-Africa wide information campaign by the International Organisation for Migration which informed prospective migrants about the risks of attempting the dangerous journey to the EU; and

creation of a regional focal point in Djibouti to help co-ordinate migration policies of countries of the region, including Somalia.

EU Heads of Mission (HOMS) in Nairobi also recently agreed to establish a local taskforce on Somali migration issues that will share information about illegal migration from Somalia and work with Somali authorities to curb irregular migration to the EU.

Independent Safeguarding Authority: Databases

Mrs. Laing: To ask the Secretary of State for the Home Department whether a privacy impact assessment has been undertaken in relation to the Independent Safeguarding Authority's database. [285414]

Mr. Hanson: The Vetting and Barring Scheme programme, which includes establishment of the Independent Safeguarding Authority is being delivered in phases. The programme is currently in its third phase and a privacy impact assessment is scheduled to be completed with the full support and contribution of the Information Commissioner's Office during the remaining three phases of the programme. Some aspects of the privacy impact assessment have been captured in the first round of business impact assessments and the Information Commissioner's Office is aware of this progress.

International Child Sexual Exploitation Image Database

James Brokenshire: To ask the Secretary of State for the Home Department how much his Department has allocated to development of the International Child Sexual Exploitation Image database; and if he will make a statement. [284829]

Mr. Alan Campbell: The Home Office paid £300,000 towards the International Child Sexual Exploitation Image Database (ICSEID) in two instalments of £150,000 in 2006-07 and 2007-08.

Life Imprisonment: Prisoner Release

Mr. Grieve: To ask the Secretary of State for the Home Department how many foreign nationals on life licence have been *(a)* deported and *(b)* removed in each of the last 10 years. [285277]

Mr. Woolas: The information requested could be obtained only at disproportionate cost. The Chief Executive of the UK Border Agency has regularly written to Home Affairs Select Committee in order to provide them with all the robust and accurate information available relating to foreign national criminals. Copies of these letters are available in the Library of the House.

Local Government Finance

Justine Greening: To ask the Secretary of State for the Home Department (1) which *(a)* specific and *(b)* area-based grants are distributed to local authorities by each division of his Department; [285045]

(2) what recent estimate has been made of the annual cost to *(a)* his Department of distributing each grant made by it to local authorities and *(b)* local authorities of administering each such grant; [285046]

(3) what *(a)* eligibility conditions and *(b)* compliance measures are in place in respect of the expenditure by local authorities of each grant distributed by his Department; and what recent estimate has been made of the annual cost to his Department of monitoring the compliance by local authorities with such measures in respect of each such grant. [285124]

Mr. Woolas: The introduction of the Area Based Grant has reduced ring-fencing, giving councils increased flexibility to manage their budgets. Alongside this, the new local performance framework has provided a simplified and more effective structure for priority setting and performance measurement.

The following specific revenue grants are being paid by this Department direct to local authorities in 2009-10:

Grant stream	*Budget 2009-10 (£ million)*
Adult Facing Chronic Exclusion	0.75
Alcohol Arrest Referral Pilots	1.60
Priority Areas	1.50
Neighbourhood Crime and Justice Grants	4.22
National Support Framework	1.40
Youth Crime Action Plan Initiatives	10.00
Local Funding for Domestic/Sexual Violence	2.10
Drug Intervention Programme	87.85
Community Justice Panel	0.04
Positive Futures	2.18
Protect: Crowded Places	1.00
Prevent: Identification and Referral	0.62
Unaccompanied Asylum Seeking Children (UASC)	127.00
UASC Leaving Care Costs Grants	17.20

Area Based Grant is paid by Communities and Local Government on behalf of the Government as a whole, in monthly instalments. Funding streams from this Department which are being paid through Area Based Grant in 2009-10 are:

Grant stream	*Budget 2009-10 (£ million)*
Safer Stronger Communities Fund—Resource	61.15
Young People Substance Misuse Partnership	15.39

The Department does not routinely estimate the costs of distributing grant each year.

As Area Based Grant is not ring-fenced, it comes with no specific conditions or compliance requirements.

Eligibility conditions and compliance measures vary with each specific revenue grant and, given the number of grants provided to local authorities, it is not cost effective to detail the criteria of all grants awarded. A standard criterion in place for all grants is that work delivers against Home Office PSA targets.

Members: Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for the Home Department (1) when he plans to reply to the letter to his predecessor of 14 May 2009 from the right hon. Member for Manchester, Gorton with regard to Mr. Tariq Mahmood Butt. [284720]

(2) when he plans to reply to the letter to his predecessor of 11 May 2009 from the right hon. Member for Manchester, Gorton with regard to Mr. J. Haig; [284721]

(3) when he plans to reply to the letter to his predecessor of 18 May 2009 from the right hon. Member for Manchester, Gorton with regard to Mr. Muhamad Imran Khan; [284723]

(4) when he plans to reply to the letter to his predecessor of 24 April 2009 from the right hon. Member for Manchester, Gorton with regard to Mr. Amjad Khan; [284724]

Alan Johnson: I wrote to my right hon. Friend on 7 July 2009.

Clare Short: To ask the Secretary of State for the Home Department when a response will be provided to the right hon. Member for Birmingham, Ladywood's inquiry of 4 March 2009 on Zahir Omar Ahmed, HO Ref A1166882. [284981]

Mr. Woolas: The UK Border Agency responded to my right hon. Friend by e-mail on 27 March 2009. A duplicate response was issued on 6 July 2009.

Police Community Support Officers: Protective Clothing

Mr. Watson: To ask the Secretary of State for the Home Department what recent discussions he has had with chief constables on the issuing of stab-proof vests for police community support officers. [284604]

Mr. Hanson: There have been no further discussions with chief constables on the subject of body armour for PCSOs since the exchange of correspondence referenced in my answer to my hon. Friend on 26 June 2009, *Official Report*, column 1206W.

Police: Absenteeism

Mike Penning: To ask the Secretary of State for the Home Department what the rate of *(a)* absence and *(b)* absence resulting from injury at work was among Hertfordshire Constabulary employees in each of the last five years; what estimate he has made of the cost to the public purse of such absences; and if he will make a statement. [284445]

Mr. Hanson: The detailed absence figures requested are not collected annually.

Figures on sickness absence for the past five financial years are published on the Home Office website at the following link:

http://police.homeoffice.gov.uk/performance-and-measurement/performance-assessment/

Information on the cost of such absences is not collected centrally.

Police: Complaints

Greg Mulholland: To ask the Secretary of State for the Home Department how many complaints were made about police actions at the camp for climate change at the Kingsnorth Power Station; and how many related to specific officers. [285522]

Mr. Hanson *[holding answer 9 July 2009]:* I am informed by the chief constable of Kent police that in relation to the camp for climate change at Kingsnorth 35 complaints about the conduct of a person serving with the police have been recorded under the Police Reform Act 2002. An additional 49 complaints were made about the direction and control of the event. No officers are the subject of multiple complaints.

Police: Cycling

Bob Spink: To ask the Secretary of State for the Home Department what his Department's policy is on the use of *(a)* bicycles and *(b)* electrically-assisted bicycles by (i) police officers and (ii) police community support officers in performing their duties. [285721]

Mr. Hanson: The use of bicycles and/or electronically assisted bicycles is a matter for the operational discretion of individual force chief officers and the Home Office does not issue any policy or guidance in respect of this.

Police: Dogs

Mr. Watson: To ask the Secretary of State for the Home Department what guidance he has issued to police forces on the issue of anti-stab vests for police dogs. [285455]

Mr. Hanson: Neither the Home Office nor the Association of Chief Police Officers have issued guidance to forces on the issue of anti-stab vests for police dogs.

Police: Essex

Bob Spink: To ask the Secretary of State for the Home Department how many *(a)* police officers and *(b)* police community support officers (PCSOs) were assigned to duties in (i) Essex and (ii) Castle Point in the latest period for which figures are available; how many police officers were assigned to duties in each of those areas in 1997; and how many PCSOs were assigned to duties in each of those areas in 2003. [284950]

Mr. Hanson: There were 3,410 police officers in the Essex Police as at 30 September 2008 and 2,961 as at 31 March 1997. These figures exclude officers on career break or maternity/paternity leave.

There were 437 police community support officers as at 30 September 2008 and 10 as at 31 March 2003. Police community support officers were introduced by the Police Reform Act 2002, therefore data are not available prior to 2002-03.

All figures are given as full-time equivalents.

Police personnel data by parliamentary constituency are not collected centrally.

Police: Protective Clothing

Mr. Watson: To ask the Secretary of State for the Home Department if he will require police forces to submit to him an annual risk assessment form in respect of their body armour policy; and if he will make a statement. [285518]

Mr. Hanson *[holding answer 9 July 2009]:* There are currently no plans to require police forces to submit an annual risk assessment concerning their body armour policy. The management of health and safety and related services provided for police officers and police staff is the responsibility of the individual chief officer and police authority.

Police: Tetra

Mr. Andrew Mitchell: To ask the Secretary of State for the Home Department what assessment he has made of the effects on the health of police officers from radiation emissions from Tetra handsets issued to police forces. [285237]

Mr. Hanson: Since the roll out of Airwave radio began in 2001, the Government have made a considerable investment into research into the safety of the Tetra technology. None of the research to date has produced any evidence that Airwave is harmful to health.

All Airwave terminals comply fully with international safety standards and exposure levels are typically lower than those of the analogue terminals that they replaced.

Police: Uniforms

Mr. Watson: To ask the Secretary of State for the Home Department which manufacturers have been accredited by his Department's Scientific Development Branch to supply stab-proof vests for use by *(a)* police community support officers and *(b)* police officers in police forces in England and Wales. [284790]

Mr. Hanson *[holding answer 7 July 2009]:* The Home Office Scientific Development Branch (HOSDB) maintains an online database detailing all approved models of armour, from various manufacturers, tested according the HOSDB body armour standards for UK police 2007. The database can be viewed on the HOSDB website.

The HOSDB body armour standards do not differentiate between armour suitable for PCSOs or other police officers. The level of protection selected, and who the armour is issued to, are decisions made by the police force concerned based on the forces' risk and threat assessments.

Police: Vehicles

Bob Spink: To ask the Secretary of State for the Home Department how many police vehicles have been damaged by the vehicle of a suspect during attempts to apprehend the suspect in each police force area in each of the last five years. [285199]

Mr. Hanson: Statistics on the number of police vehicles damaged by the vehicle of a suspect during attempts to apprehend the suspect are not collected centrally.

Right of Abode: European Economic Area

Sarah Teather: To ask the Secretary of State for the Home Department what obligations set at EU level his Department has in relation the time taken to process applications for EEA residence permits. [283952]

Mr. Woolas: Under EEA legislation member states are required to issue registration certificates immediately, and residence cards and documents certifying permanent residence no later than six months after an application with the required documents is subnitted.

UK Border Agency

Mr. Stewart Jackson: To ask the Secretary of State for the Home Department whether the areas for which regional directors and regional offices of the UK Border Agency are responsible are the same as the areas designated as Government Office regions. [284288]

Mr. Woolas: UK Border Agency regions do not correspond directly with Government Office regions. In a number of areas a UKBA region will cover more than one Government Office region. A list of UKBA regional directors and the areas that they are responsible for can be found at:

http://www.ukba.homeoffice.gov.uk/aboutus/organisation/structure/

UK Border Agency: Correspondence

Mr. Winnick: To ask the Secretary of State for the Home Department if he will arrange for a reply to be sent from the UK Border Agency to the letter from the hon. Member for Walsall, North dated 27 May 2009, reference M1274079. [284613]

Mr. Woolas *[holding answer 7 July 2009]:* The Chief Executive of the UK Border Agency wrote to the hon. Member on 8 July 2009.

UK Border Agency: Manpower

Damian Green: To ask the Secretary of State for the Home Department how many airport liaison officers are employed by the UK Border Agency; and what their average annual salary is. [282958]

Mr. Woolas: I refer the hon. Member to the answer I gave on 15 June 2009, *Official Report*, column 41W.

UK Border Agency: Training

Mr. Oaten: To ask the Secretary of State for the Home Department what *(a)* training leading to a formal qualification and *(b)* other training is offered to UK Border Agency staff who make decisions on asylum claims. [283384]

Mr. Woolas *[holding answer 9 July 2009]:* The information is as follows:

(a) The training does not presently lead to any formal qualification.

(b) Asylum caseowners in the UK Border Agency receive comprehensive learning and development in all aspects of their role of owning cases from end to end of the asylum process. Although the course does not currently lead to a qualification, the Agency is now well-advanced in securing accreditation for it and hopes to have this in place by the end of the year.

HEALTH

Abortion Act 1967

Mr. Amess: To ask the Secretary of State for Health what new files on the Abortion Act 1967 have been created by his Department since January 2008; and if he will make a statement. [285485]

Gillian Merron: The information is shown in the following table. File names have been amended to remove identifying information in order to protect the Government policy making process and also private individuals.

Prefix	*Title*
CPO 2/36	Miscellaneous Parliamentary Matters
CPO 4/34	Future Regulation Of Top Establishments Under The Care Quality Commission
CPO 5/27	2007 Abortion Statistics Bulletin
CPO 5/28	2008 Abortion Statistics Bulletin
CPO 10/50	ICO (name withheld) Case
CPO 12/28	RCOG: Working Party On Termination Of Pregnancy For Fetal Abnormality
CPO 12/29	RCOG: Working Party On Fetal Awareness
CPO 14/39	Smoking In Pregnancy Campaign: Scan Creative Concept
CPO 14/41	(Name withheld)

Mr. Amess: To ask the Secretary of State for Health what *(a)* statutory instruments, *(b)* departmental circulars and *(c)* other documents he has published since 1997 consequent on the provisions of the Abortion Act 1967; and if he will make a statement. [285356]

Gillian Merron: Since 1997, the Department has published, or funded the publication of, the following statutory instruments, departmental circulars and documents on the provisions of the Abortion Act 1967.

Statutory instruments

The Abortion (Amendment) (England) Regulations 2002

The Abortion (Amendment) Regulations 2008

Departmental circulars

Letter from the Chief Medical Officer (CMO) about the completion of the abortion notification forms (HSA4) (1998)

Letter on the consultation on changes to the HSA4 form (2000)

Letter from the CMO about changes to the abortion notification form (2002)

Letter from the CMO following the publication of his report "An Investigation into the British Pregnancy Advisory Service (BPAS) Response to Requests for Late Abortions" (2005).

Other documents

Documents issued by the Department of Health

Procedures for the Approval of Independent Sector Places for the Termination of Pregnancy (1999)

Procedures for the Registration of Pregnancy Advice Bureaux (1999)

The National Strategy for Sexual Health and HIV (2001)

The National Strategy for Sexual Health and HIV Implementation Action Plan (2002)

Conscious Sedation in Termination of Pregnancy: Report of the Department of Health Expert Group (2002)

Independent Health Care National Minimum Standards and Regulations (2002)

Effective Commissioning of Sexual Health and HIV Services, A Sexual Health and HIV Commissioning Toolkit for Primary Care Trusts and Local Authorities (2003)

Government Response to the Health Select Committee's Third Report of Session 2002-03 on Sexual Health (2003)

An Investigation into the British Pregnancy Advisory Service (BPAS) Response to Requests for Late Abortions, A report by the Chief Medical Officer (2005)

Partial Regulatory Impact Assessment for the Prohibition of Abortion (England and Wales) Bill (2005)

Partial Regulatory Impact Assessment for the Termination of Pregnancy Bill (2007)

Government Response to the Report from the House of Commons Science and Technology Committee on the Scientific Developments Relating to the Abortion Act 1967 (2007)

Evaluation of Early Medical Abortion (EMA) Pilot Sites (2008)

Documents funded by the Department of Health

The Care of Women Requesting Induced Abortion, Royal College of Obstetricians and Gynaecologists (RCOG) (2000 and 2004)

National Audit of Induced Abortion 2000, RCOG (2001)

Recommended Standards for Sexual Health Services, Medical Foundation for AIDS and Sexual Health (2005)

Accident and Emergency Departments: Alcoholic Drinks

Sandra Gidley: To ask the Secretary of State for Health how many people in each age group attended accident and emergency departments for treatment of symptoms associated with alcohol consumption in each NHS hospital trust area within the ceremonial county of Hampshire in each of the last five years. [286278]

Gillian Merron: The information requested is not collected centrally.

Admissions: Young People

Norman Lamb: To ask the Secretary of State for Health how many hospital admissions of persons aged *(a)* under 16 years and *(b)* 16 years and over there were with a primary or secondary diagnosis relating to attack by an animal in each of the last five years. [285449]

Mr. Mike O'Brien: The information requested is as follows:

Count of hospital admissions by age group for 'injuries caused by animals'. Activity in English national health service hospitals and English NHS commissioned activity in the independent sector

Age group	*2007-08*	*2006-07*	*2005-06*	*2004-05*	*2003-04*
Under 16	1,839	2,039	1,917	1,673	1,746
16 and over	7,465	7,381	6,377	5,701	5,142
Unknown	2	3	1	—	2

Count of hospital admissions by age group for 'injuries caused by animals': Activity in English national health service hospitals and English NHS commissioned activity in the independent sector

Age group	2007-08	2006-07	2005-06	2004-05	2003-04
Total	9,295	9,422	8,210	7,573	6,890

Notes:
Finished admission episodes
A finished admission episode is the first period of inpatient care under one consultant within one health care provider. Finished admission episodes are counted against the year in which the admission episode finishes. Admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
Data quality
Hospital Episode Statistics (HES) are compiled from data sent by more than 300 NHS trusts and primary care trusts (PCTs) in England. Data are also received from a number of independent sector organisations for activity commissioned by the English NHS. The NHS Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and works to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain.
Assessing growth through time
HES figures are available from 1989-90 onwards. The quality and coverage of the data have improved over time. These improvements to information submitted by the NHS have been particularly marked in the earlier years and need to be borne in mind when analysing time series.
Some of the increase in figures for later years (particularly 2006-07 onwards) may be due to the improvement in the coverage of independent sector activity.
Changes in NHS practice also need to be borne in mind when analysing time series. For example, a number of procedures may now be undertaken in outpatient settings and may no longer be accounted for in the HES data. This may account for any reductions in activity over time.
Cause code
The cause code is a supplementary code that indicates the nature of any external cause of injury, poisoning or other adverse effects. The field within HES records only the first external cause code which is coded within the episode. The codes used are: W53, W54, W55, W57, W58, and W59.

Hospital Episode Statistics (HES), The NHS Information Centre for health and social care

Alcoholic Drinks

Chris Ruane: To ask the Secretary of State for Health what estimate his Department has made of the average amount of alcohol consumed by an individual in each of the last 30 years. [285681]

Gillian Merron: Data on the average amount of alcohol purchased by an individual are collected by HM Revenue and Customs. Data are available for the years 1986-87 to 2007-08 and are given in the following table. It is important to note that not all alcohol purchased is consumed by the individual that purchased it.

Amount of alcohol purchased per adult[1]

	Total alcohol purchased (litres of pure alcohol per adult)	Total alcohol purchased (units per adult)
1986-87	9.53	953
1987-88	9.94	994
1988-89	9.99	999
1989-90	9.96	996
1990-91	10.01	1,001
1991-92	9.65	965
1992-93	9.45	945
1993-94	9.41	941
1994-95	9.70	970
1995-96	9.75	975
1996-97	9.97	997
1997-98	10.14	1,014
1998-99	10.16	1,016
1999-2000	10.78	1,078
2000-01	10.56	1,056
2001-02	11.09	1,109
2002-03	11.46	1,146
2003-04	11.70	1,170
2004-05	11.78	1,178
2005-06	11.54	1,154
2006-07	11.39	1,139
2007-08	11.53	1,153

[1] Adult equals aged 16 and over from the Population Trends Spring 2008, published by the Office for National Statistics. Purchase of pure alcohol is calculated using estimated average strengths for wine, beer and cider.

HM Revenue and Customs, Alcohol Factsheet, July 2008.

Ambulances

Daniel Kawczynski: To ask the Secretary of State for Health (1) how many county towns in England do not have an ambulance control centre within their boundaries; [285283]

(2) what recent assessment he has made of the efficiency of the ambulance control centres in Brierley Hill and Stafford; [285285]

(3) what qualifications ambulance control centre telephone operators need to perform their duties; [285286]

(4) what his Department's policy is on ambulance crews operating in areas in which they are not based. [285287]

Mr. Mike O'Brien: The location, organisation and operation of control centres and training requirements for control centre staff are for national health service ambulance trusts to manage locally. Information on numbers and efficiency of control centres and on staff qualifications is therefore not collected centrally.

It is also for NHS ambulance trusts locally to manage the deployment of staff across the trust. Cross-border arrangements between neighbouring trusts may also be agreed which may lead to some crews attending incidents outside the boundaries of the trust, where appropriate.

Arthritis

Anne Milton: To ask the Secretary of State for Health what recent assessment he has made of the effectiveness of the management by multi-disciplinary teams of *(a)* rheumatoid arthritis, *(b)* ankylosing spondylitis and *(c)* psoriatic arthritis. [285217]

Ann Keen: We have made no assessment of the effectiveness of the management by multi-disciplinary teams for these conditions.

Norman Lamb: To ask the Secretary of State for Health (1) what percentage of patients with rheumatoid arthritis are being managed by multi-disciplinary teams; and what percentage of primary care trusts are managing

all their rheumatoid arthritis patients by multi-disciplinary teams throughout their care; [285467]

(2) which primary care trusts do not review new patients presenting with rheumatoid arthritis using a multi-disciplinary team; [285468]

(3) what recent estimate he has made of the proportion of hospitals able to provide patients suspected of having rheumatoid arthritis with access to a multi-disciplinary assessment *(a)* on first referral, *(b)* on subsequent admission and *(c)* throughout their care. [285469]

Ann Keen: Information on the number of patients with rheumatoid arthritis being managed by multi-disciplinary teams, and the proportion of primary care trusts providing new or existing patients with access to such teams, is not collected centrally.

Blood: Contamination

Jenny Willott: To ask the Secretary of State for Health how many haemophiliacs known to have been infected with hepatitis C through contaminated blood products are still alive; and if he will make a statement. [285970]

Gillian Merron: The 2008 United Kingdom Haemophilia Centre Doctor's Organisation Annual Report shows that a total of 4,168 patients with haemophilia A and haemophilia B, have been exposed to hepatitis C, based on historical clotting factor concentrate exposure. Of these, 2,535 were alive at the end of 2007, which are the latest figures available.

Jenny Willott: To ask the Secretary of State for Health how many legal waivers his Department holds which were signed by registrants of the MacFarlane Trust indemnifying the Government against further litigation; if he will publish these documents; and if he will make a statement. [285259]

Gillian Merron: The Department holds 239 legal waivers which were signed by registrants of the Macfarlane Trust. These documents hold personal information which the Department is not able to release.

Jenny Willott: To ask the Secretary of State for Health when the ELISA test for hepatitis C antibodies in blood was first used by the NHS; and if he will make a statement. [286097]

Gillian Merron: Enzyme Linked ImmunoAssay (ELISA) tests for antibodies to hepatitis C virus for diagnostic and blood screening purposes were introduced over a period between 1990 and 1991. There was no single date of introduction throughout the national health service.

Carers: Telephone Services

Bob Spink: To ask the Secretary of State for Health how many complaints his Department has received in relation to the Carers Direct Helpline since it was established. [285482]

Phil Hope: Since the commencement of Carers Direct Helpline on 1 April 2009, it has received one complaint.

CJD

Jenny Willott: To ask the Secretary of State for Health what recent estimate he has made of the average *(a)* annual and *(b)* total lifetime cost to the NHS of a patient diagnosed with vCJD; and if he will make a statement. [285737]

Gillian Merron: The average total cost to the national health service of patients diagnosed with variant Creutzfeldt-Jakob disease is estimated at £40,000. The National Creutzfeldt-Jakob Disease Surveillance Unit reports the median duration of variant Creutzfeldt-Jakob disease from the onset of first symptoms to death as 14 months.

Crohn's Disease

Norman Lamb: To ask the Secretary of State for Health how many cases of Crohn's disease were recorded in each of the last five years. [285452]

Ann Keen: Information on the number of cases of Crohn's disease is not collected.

Dental Services

Mr. Hepburn: To ask the Secretary of State for Health what the average waiting time for *(a)* initial orthodontic assessment and *(b)* subsequent orthodontic treatment was in (i) South Tyneside, (ii) the North East and (iii) England in each of the last five years. [284639]

Ann Keen: Information is not collected centrally on waiting times for orthodontic treatment provided in primary care.

Information is available for part of the period requested from which average hospital waiting times from referral to first outpatient appointment and from decision to hospital admission (both day case and in-patient) can be provided.

This information available covers the period up to and including Quarter 2 2007-08. From Quarter 3 2007-08 this data collection no longer broke waits down by speciality. The information available is held by primary care trust (PCT) and strategic health authority (SHA) area and is set out in the following tables.

Hirdias orthodontic speciality out-patient waiting time for first out-patient appointment

Weeks

	Month ending			
Area	*March 2005*	*March 2006*	*March 2007*	*September 2007*
England	5.1	3.9	4.2	3.9
North East SHA	5.4	5.6	4.4	4.5
South Tyneside PCT	n/a	n/a	n/a	n/a

Department of Health Waiting List Collections QM08R and MMRCOM

Median orthodontic specialty in-patient waiting time for elective admission

Weeks

	Month ending					
Area	*March 2003*	*March 2004*	*March 2005*	*March 2006*	*March 2007*	*September 2007*
England	11.2	9.2	8.9	6.8	4.0	5.8
North East SHA	8.0	8.2	n/a	n/a	n/a	n/a
South Tyneside PCT	n/a	n/a	n/a	n/a	n/a	n/a

Notes:
1. Figures are shown for organisations that existed at the time.
2. Figures shown are for those recorded under the orthodontic speciality.
3. Out-patient waiting times are measured from referral by the dentist to first out-patient appointment to the consultant. The data are based on a snapshot in time, and so will include some patients who were yet to see a consultant.
4. In-patient waiting times are measured from the decision to admit by the consultant to admission to hospital.
5. The last time these data were collected was for the period ending September 2007.
6. Time bands for all specialties were only collected from 2004-05 onwards for out-patients so average waiting first out-patient times are available only from this point forward.
7. Where n/a, no orthodontic waiters were declared for the time periods specified or there were very low numbers.
8. Median waiting times are calculated from aggregate data, rather than patient level data, and therefore are estimates of the position on average waits.
9. In particular, specialties with low numbers waiting are prone to fluctuations in the median. This should be taken into account when interpreting the data.

Source:
Department of Health Waiting List Collections QF01 and MMRCOM.

From 1 January 2009, no one should wait more than 18 weeks from the time they are referred by their general practitioner or dentist to start of their consultant-led treatment unless it is clinically appropriate to do so or they choose to wait longer. The 18 weeks commitment covers pathways that involve or might involve consultant-led care, including orthodontics, which is now recorded under the oral surgery speciality.

Latest data show that since January 2009, the national health service has been delivering the operating standards for 18 weeks to ensure that no one should wait more than 18 weeks from the time they are referred to the start of their consultant-led treatment, unless it is clinically appropriate to do so or they choose to wait longer.

Mr. Pelling: To ask the Secretary of State for Health (1) how much of his Department's spending on NHS dentistry has been allocated to front-line services since April 2006; [285890]

(2) how much his Department has spent on the new contract for NHS dentistry and associated policy changes in each year since April 2006. [285891]

Ann Keen: The Department has allocated the following total sums to primary care trusts (PCTs) and strategic health authorities to fund primary dental care services. These allocations were net of any income from national health service dental charges collected from patients, which is retained by the relevant local PCT as an additional resource.

Primary dental care service allocations, England

Financial year	*£ million*
2006-07	1,764.7
2007-08	1,872.4
2008-09	2,081
2009-10	2,257

Departmental staff to monitor NHS dental services and review policy were provided from within existing departmental resources. The following table sets out estimated expenditure levels from centrally managed programme funds on additional and external services to support the commissioning and development of dental services and oral health measures in each of the last three years.

Financial year	*£ million*
2006-07	2.2
2007-08	2.5
2008-09	2.7

Dental Services: Essex

Bob Spink: To ask the Secretary of State for Health what recent assessment he has made of the adequacy of provision of NHS dentistry in *(a)* Essex and *(b)* Castle Point. [285962]

Ann Keen: It is for primary care trusts (PCTs) to assess local need and demand for national health services dental services and commission the appropriate services.

All 10 strategic health authorities have set themselves the aim of providing access to NHS dentistry for all who seek it by March 2011 at the latest.

We are supporting PCTs to meet this aim with extra resources—an 11 per cent. uplift in our dental funding allocations for 2008-09, and a further 8.5 per cent. uplift in total funds for 2009-10, which takes the total available for dental allocations to £2,257 million (net of patient charge income).

We have also set up an expanded national dental access programme, headed by Dr. Mike Warburton an experienced clinician and manager, to support managers and clinicians to rapidly expand services where needed.

The report of the Independent Review of Dentistry in England, published on 22 June recommends a series of further actions to support access and quality. Piloting of the recommendations will begin from this autumn. A copy of the report has already been placed in the Library.

Dental Services: North Yorkshire

Hugh Bayley: To ask the Secretary of State for Health how many dentists there were with open national health service contracts in the North Yorkshire and York Primary Care Trust area at the latest date for which figures are available. [285870]

Ann Keen: The numbers of dentists with national health service activity during the years ending 31 March 2007 and 2008 are available in Table G1 of Annex 3 of the NHS Dental Statistics for England: 2007-08 report. Information is provided by strategic health authority and by primary care trust. This information is based on

the new dental contractual arrangements, introduced on 1 April 2006. This report, published on 21 August 2008, has already been placed in the Library and is also available on the Information Centre for health and social care at:

www.ic.nhs.uk/pubs/dental0708

Following a recent consultation exercise, this measure is based on a revised methodology and therefore supersedes previously published workforce figures relating to the new dental contractual arrangements. It is not comparable to the information collected under the old contractual arrangements. This revised methodology counted the number of dental performers with NHS activity recorded via FP17 claim forms in each year ending 31 March.

These figures relate to headcounts and do not differentiate between full-time and part-time dentists, nor do they account for the fact that some dentists may do more NHS work than others.

Figures for the year ending 31 March 2009 are due to published by the Information Centre for health and social care on 19 August 2009.

Dental Services: Waiting Lists

Mike Penning: To ask the Secretary of State for Health what the average waiting time for *(a)* initial orthodontic assessment and *(b)* subsequent orthodontic treatment was in (i) Hemel Hempstead, (ii) Dacorum, (iii) Hertfordshire, (iv) the South East and (v) England in each of the last five years. [285132]

Ann Keen: Information is not collected centrally on waiting times for orthodontic treatment provided in primary care.

Information is available for part of the period requested from which average hospital waiting times from referral to first out-patient appointment and from decision to hospital admission (both day case and in-patient) can be provided.

This information available covers the period up to and including quarter 2 2007-08. From quarter 3 2007-08 this data collection no longer broke waits down by speciality. The information available is held by primary care trust (PCT) and strategic health authority (SHA) area and is set out in the following tables.

Median orthodontic speciality out-patient waiting time for first out-patient appointment

Weeks

	Month ending			
Area	*March 2005*	*March 2006*	*March 2007*	*September 2007*

East of England SHA	5.1	4.6	3.9	3.1
Hertsmere PCT	n/a	n/a	—	—
Watford and Three Rivers PCT	n/a	n/a	—	—
Dacorum PCT	n/a	n/a	—	—
St. Albans and Harpenden PCT	n/a	n/a	—	—
West Hertfordshire PCT	—	—	n/a	n/a

Notes:
1. Figures are shown for organisations that existed at the time. Hertsmere, Watford and Three Rivers, Dacorum and St. Albans PCTs were combined to form West Hertfordshire PCT on 1 October 2006. For the time periods where an organisation was not in existence, "—" has been entered into the table.
2. Figures shown are for those recorded under the orthodontic speciality.
3. Out-patient waiting times are measured from referral by the dentist to first out-patient appointment to the consultant. The data are based on a snapshot in time, and so will include some patients who were yet to see a consultant.
4. In-patient waiting times are measured from the decision by the consultant to admit to admission to hospital.
5. The last time these data were collected was for the period ending September 2007.
6. Time bands for all specialties were only collected from 2004-05 onwards for out-patients so average waiting first out-patient times are only available from this point forward.
7. Where n/a, no orthodontic waiters were declared for the time periods specified or there were very low numbers.
8. Median waiting times are calculated from aggregate data, rather than patient level data, and therefore are estimates of the position on average waits.
9. In particular, specialties with low numbers waiting are prone to fluctuations in the median. This should be taken into account when interpreting the data.

Median orthodontic speciality in-patient waiting time for elective admission

Weeks

Area	*Month ending*					
	March 2003	*March 2004*	*March 2005*	*March 2006*	*March 2007*	*September 2007*
West Hertfordshire PCT	—	—	—	—	n/a	n/a

Notes:
1. Figures are shown for organisations that existed at the time. Hertsmere, Watford and Three Rivers, Dacorum and St. Albans PCTs were combined to form West Hertfordshire PCT on 1 October 2006. For the time periods where an organisation was not in existence, "—" has been entered into the table.
2. Figures shown are for those recorded under the orthodontic speciality.
3. Out-patient waiting times are measured from referral by the dentist to first out-patient appointment to the consultant. The data are based on a snapshot in time, and so will include some patients who were yet to see a consultant.
4. In-patient waiting times are measured from the decision by the consultant to admit to admission to hospital.
5. The last time these data were collected was for the period ending September 2007.
6. Time bands for all specialties were only collected from 2004-05 onwards for out-patients so average waiting first out-patient times are only available from this point forward.
7. Where n/a, no orthodontic waiters were declared for the time/periods specified or there were very low numbers.
8. Median waiting times are calculated from aggregate data, rather than patient level data, and therefore are estimates of the position on average waits.
9. In particular, specialties with low numbers waiting are prone to fluctuations in the median. This should be taken into account when interpreting the data.

Source:
Department of Health Waiting List Collections QF01 and MMRCOM.

From 1 January 2009, no one should wait more than 18 weeks from the time they are referred by their general practitioner or dentist to start of their consultant-led treatment unless it is clinically appropriate to do so or they choose to wait longer. The 18 weeks commitment covers pathways that involve or might involve consultant-led care, including orthodontics, which is now recorded under the oral surgery speciality.

Latest data show that since January 2009, the NHS has been delivering the operating standards for 18 weeks to ensure that no one should wait more than 18 weeks from the time they are referred to the start of their consultant-led treatment, unless it is clinically appropriate to do so or they choose to wait longer.

Mike Penning: To ask the Secretary of State for Health how many people were waiting for orthodontic treatment in *(a)* Hemel Hempstead, *(b)* Dacorum, *(c)* Hertfordshire, *(d)* the South East and *(e)* England in each of the last five years. [285136]

Ann Keen: Information is not collected centrally on waiting times for national health service orthodontic treatment provided in primary care.

From 1 January 2009, no one should wait more than 18 weeks from the time they are referred by their general practitioner or dentist to the start of their consultant-led treatment unless it is clinically appropriate to do so, or they choose to wait longer.

The 18 weeks commitment covers pathways that involve or might involve consultant-led care. Referral to treatment (RTT) data collection monitors the length of time from referral through to treatment and is used to measure performance against the 18 weeks operational standard.

Information is collected on the total number of incomplete RTT pathways, for oral surgery, which includes orthodontic treatment. These data look at patients who have entered a RTT pathway but whose treatment had not yet started. Data are available from August 2007. Information is not available in the format requested, however, the following table sets data for East and North Hertfordshire PCT, West Hertfordshire primary care trust (PCT), East of England strategic health authority (SHA) and England.

Oral surgery, total number of incomplete RTT pathways

	East and North Hertfordshire PCT	*West Hertfordshire PCT*	*East of England SHA*	*England*
August 2007	1,268	757	16,906	152,302
April 2008	1,473	2,601	15,879	121,032
April 2009	1,062	1,530	11,779	111,188

Note:
Data on incomplete pathways are only available from August 2007 onwards.

Depressive Illnesses

Bob Spink: To ask the Secretary of State for Health how many people in *(a)* England, *(b)* the East of England, *(c)* Essex and *(d)* Castle Point have been diagnosed with (i) major depression, (ii) atypical depression (iii) psychotic depression, (iv) dysthymia and (v) manic depression in each year since 1997. [285921]

Phil Hope: This information is not available. Most treatment for mental health problems including depressive illnesses occurs in primary care settings, where information on the number of patients treated for specific conditions is not collected.

Approximately one in six adults in England has a common mental illness, including dysthymia, at any given time, with one in four adults experiencing mental ill heath at some stage in their lives. Approximately one in 100 people are thought to have a more severe mental illness, including psychotic or bipolar (manic) depressive conditions.

Dietary Supplements: EC Law

Mike Penning: To ask the Secretary of State for Health what steps he plans to take to ensure that candidates shortlisted for the post of Chair of the Food Standards Agency are aware of the implications of implementation of Article 5 of the Food Supplements Directive; and what plans he has to consult the official Opposition on the appointment of the Chair. [285675]

Gillian Merron: As is customary, the candidate that was recommended for pre-appointment scrutiny by Ministers was given a factual briefing by the Food Standards Agency (FSA) on the organisation and the topical issues it was facing, including food supplements. The successful candidate will receive a full induction on taking up the position, including on the issues associated with the Food Supplements Directive.

The position of Chair of the FSA is appointed jointly by the Secretary of State for Health and the Health Ministers in the devolved Administrations. Following a full recruitment process, run by the Appointments Commission in accordance with the Commissioner's Code of Practice for Public Appointments, Ministers considered the selection panel's recommendations and agreed Lord Rooker as the preferred candidate.

My right hon. Friend the Secretary of State invited the House of Commons Health Committee to scrutinise the preferred candidate prior to appointment. The Committee invited Lord Rooker to give evidence on 6 July 2009, following which they recommended that the Secretary of State continue with the appointment. Lord Rooker was confirmed as the new Chair of the FSA on 10 July and will take up his position on 27 July 2009, for a period of four years.

The appointment has been run jointly with the devolved Administrations as required by the Food Standards Act. As is customary, there are no plans to consult with Her Majesty's official Opposition outside of the pre-appointment scrutiny process.

The appointment process had involved an independent assessor at all stages, including the shortlist and interview panel.

Domestic Visits: Norwich

Mr. Chope: To ask the Secretary of State for Health when he last made an official visit to Norwich; and when he next plans to make such a visit. [285720]

Phil Hope: Neither my right hon. Friend the Secretary of State or his predecessor my right hon. Friend the Member for Kingston upon Hull, West and Hessle (Alan Johnson) has made an official visit to Norwich.

At the present time, there are not any confirmed visits to the area by the Secretary of State.

Epilepsy: Drugs

John Battle: To ask the Secretary of State for Health (1) what cost-benefit analysis his Department has undertaken of the effects of implementation of its proposal for the generic substitution of branded anti-epilepsy drugs; [285488]

(2) what estimate he has made of the number of NHS patients likely to be affected by implementation of proposals for the generic substitution of branded anti-epileptic drugs; [285489]

(3) what estimate his Department has made of the potential for savings to accrue to the NHS from the implementation of proposals for the generic substitution of branded anti-epileptic drugs. [285490]

John Penrose: To ask the Secretary of State for Health (1) whether there are any defined exclusions from his proposals for generic substitution of medicines; [285443]

(2) whether there will be an exemption for epilepsy under the proposals for generic substitution of medicines; and if he will make a statement; [285665]

(3) whether his Department has assessed the views of leading clinicians operating in the field of epilepsy on the clinical impact of generic substitution of medicines on people with epilepsy; [285666]

(4) whether his Department has had discussions with epilepsy patient groups on patient concerns about automatic generic substitution of medicines in epilepsy. [285667]

Mr. Mike O'Brien: Patient safety will be paramount in taking forward the work on generic substitution. It has long been the Department's policy to encourage generic prescribing where possible, for reasons of good professional practice and because of the opportunities for more effective use of national health service resources. However, we have always recognised that there are circumstances in which it may be clinically appropriate to prescribe a particular brand of drug even where a generic is available if the prescriber considers it essential for the patient to receive that specific product. This position will need to be maintained under any new specific proposals made as part of the work on generic substitution.

In addition, as stated in the Pharmaceutical Price Regulation Scheme (PPRS) of December 2008, in implementing generic substitution, provision may also be made to exclude certain categories of medicines for clinical reasons in the interests of patient safety. No decisions have yet been made on whether any medicines and, if so, which should be excluded from the arrangements.

The detail of implementing the PPRS generic substitution provision is still being considered. No cost-benefit analysis, estimation of possible numbers of patients affected by or potential savings from the implementation of generic substitution in relation to anti-epileptic drugs have been made.

A number of patient representative groups, such as those representing epilepsy sufferers, have written to the Department expressing their concerns on the implementation of generic substitution. Whilst we have not yet met with any such groups, nor with clinicians operating in the field of epilepsy, we want to make sure we engage with all stakeholders in the best way possible and are currently considering how best to do so.

Eyesight: Testing

Hugh Bayley: To ask the Secretary of State for Health how many pensioners in York have received free eye tests since they were re-introduced. [286007]

Ann Keen: The information is not available in the format requested.

Patients aged 60 and over became eligible for national health service sight tests on 1 April 1999.

The numbers of NHS sight test claims processed for persons aged 60 and over in the former North Yorkshire Health Authority (HA), the former York and Selby Primary Care Trust (PCT) and the North Yorkshire and York PCT in the relevant financial years are shown in the following table.

The three columns in the table represent each organisation in place that included York over the relevant time period. The geographical areas covered by each organisation listed vary in size which makes it impossible to have a comparable time series over the full period.

The Information Centre for health and social care is due to publish information for 2008-09 on 19 August 2009.

General Ophthalmic Services (GOS) NHS sight tests for persons aged 60 and over in the specified organisations

	North Yorkshire HA	*York and Selby PCT*	*North Yorkshire and York PCT*
1999-2000	52,072	n/a	n/a
2000-01	61,787	n/a	n/a
2001-02	68,855	n/a	n/a
2002-03	70,278	n/a	n/a
2003-04	n/a	26,254	n/a
2004-05	n/a	26,619	n/a
2005-06	n/a	25,057	n/a
2006-07	n/a	n/a	[1]
2007-08	n/a	n/a	88,428

n/a = Not applicable.

[1] Validated information at a PCT level is not available for 2006-07.

Notes:

1. Patients may qualify for an NHS sight test on more than one criterion. However, they would only be recorded against one criterion on the form. Patients are more likely to be recorded according to their clinical need rather than their age. For example, a patient aged over 60, with glaucoma, is likely to be recorded in the glaucoma category only. The count by eligibility is therefore approximate.
2. The figures relate to the number of NHS sight tests and are not a count of individuals.

The Information Centre for health and social care

Fibromyalgia

Stephen Hesford: To ask the Secretary of State for Health what his Department's policy is on the provision of services for people diagnosed with fibromyalgia; and whether he plans to review that policy. [286854]

Ann Keen: People living with fibromyalgia have access to the full range of health and social care from the national health service, including access to pain management services. We have no plans to review this policy.

We have published an 18-week pathway to support those commissioning pain management services. The pathway is specifically aimed at supporting local implementation of good practice, to improve efficiency, reduce delays, and improve quality of service provision in a safe and effective way.

It is the responsibility of primary care trusts to commission specific services for people with fibromyalgia, taking into account the resources they have available, the needs of their wider population, and available guidance on best practice.

Health Professionals: North East

Dr. Kumar: To ask the Secretary of State for Health how many *(a)* nurses and *(b)* doctors were employed in (i) the North East, (ii) the Tees Valley and (iii) Middlesbrough South and East Cleveland constituency in each year since 1997. [285222]

Ann Keen: The information is not held in the format requested. However, information on the number of nurses and doctor in the North East Strategic Health Authority (SHA) area and related organisations is shown in the following table.

	1997	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*	*2008*

n/a = Not available. We cannot accurately map figures for PCT predecessor organisations.

Notes:

1. Headcount practice nurse figures were estimated for these years for the whole of England, using a standard nation-wide headcount to full-time equivalent ratio. These two years must be treated with caution in a local level time series such as this.
2. Practice nurse data as at 1 October 1997-1999 and 30 September 2000-08.
3. In 2002, South Tees Acute Hospitals NHS Trust and Northallerton Health Services NHS Trust merged to form South Tees Hospitals NHS Trust. Figures prior to 2002 are an aggregate of these predecessor organisations.
4. In 2006, Langbaurgh PCT became Redcar and Cleveland PCT.

Health Services: Finance

Jenny Willott: To ask the Secretary of State for Health how much his Department paid through the *(a)* MacFarlane Trust, *(b)* Skipton Fund and *(c)* Eileen Trust in each year of their operation; to how many individuals payments have been made through each fund; and if he will make a statement. [285852]

Gillian Merron: The details of the funding since 1990 for the Macfarlane Trust, Skipton Fund and Eileen Trust are shown as follows:

Macfarlane Trust, Skipton Fund and Eileen Trust: Funding by the Department of Health

£000

Year ending 31 March	Macfarlane Trust	Skipton Fund	Eileen Trust[1]
1990	100	0	0
1991	130	0	0
1992	136	0	0
1993	5,165	0	0
1994	158	0	525
1995	166	0	23
1996	2,662	0	23
1997	173	0	22
1998	3,177	0	23
1999	181	0	23
2000	2,187	0	157
2001	2,693	0	25
2002	2,448	0	606
2003	284	0	74
2004	3,489	0	33
2005	3,287	[2]70,147	166
2006	3,778	14,000	80
2007	3,754	7,000	177

Macfarlane Trust, Skipton Fund and Eileen Trust: Funding by the Department of Health

£000

Year ending 31 March	Macfarlane Trust	Skipton Fund	Eileen Trust[1]
2008	3,754	6,400	178
2009	3,754	5,000	178

[1] These are approximate amounts for each year that have been provided by the Administrator of the Eileen Trust.
[2] Includes funding for the month of March 2004.

Notes:

1. Funding to all three organisations covers both payments to beneficiaries and administration costs.
2. It is not possible to provide separate figures in relation to haemophiliacs, and their dependants.

The details of the total number of individual payments that have been made by the Macfarlane Trust, Skipton Fund and Eileen Trust are shown as follows:

Macfarlane Trust, Skipton Fund and Eileen Trust: Total number of individuals payments that have been made by each fund[1]

	Number of individuals payments
Macfarlane Trust	[2]14,682
Skipton Fund	4,807
Eileen Trust	[3]

[1] Information provided by the Administrators of each body.
[2] Individual payments made to infected registrants and non-infected beneficiaries.
[3] This information is not available as requested. In total the trust has made payments to fewer than 100 people. In the year to 31 March 2008 the Eileen Trust provided assistance to 23 beneficiaries. We believe that the trust assisted 22 beneficiaries in the year to 31 March 2009.

Health Services: North Yorkshire

Hugh Bayley: To ask the Secretary of State for Health what revenue allocations were made to each primary care trust in North Yorkshire in each year since 2003-04. [285715]

Ann Keen: The revenue allocations made to each primary care trust in North Yorkshire for the period 2003-04 to 2010-11 are provided in the following tables:

Table 1: 2003-04 to 2005-06 primary care trust revenue allocations

Primary Care Trust	Allocation (£000) 2003-04	2004-05	2005-06	Three year increase £000	Percentage
Craven, Harrogate and rural district	166,668	181,585	197,111	43,216	28.1
Hambleton and Richmondshire	91,187	99,349	107,843	23,644	28.1
Scarborough, Whitby and Ryedale	138,792	152,118	166,123	38,642	30.3
Selby and York	216,207	235,557	255,791	56,154	28.1

Table 2: 2006-07 to 2007-08 primary care trust revenue allocations

Primary Care Trust	Allocation (£000 2006-07	2007-08	Two year increase £000	Percentage
Craven, Harrogate and rural district	235,518	254,740	36,977	17.0
Hambleton and Richmondshire	129,360	139,918	20,310	17.0
Scarborough, Whitby and Ryedale	198,010	216,805	35,399	19.5
Selby and York	307,131	335,917	53,344	18.9

Table 3: 2008-09 primary care trust revenue allocations

Primary Care Trust	Allocation (£000)	Cash increase £000	Percentage
North Yorkshire and York	999,125	51,746	5.5

Table 4: 2009-10 to 2010-11 primary care trust revenue allocations

Primary Care Trust	Allocation (£000) 2009-10	2010-11	Two year increase £000	Percentage
North Yorkshire and York	1,076,587	1,139,019	118,557	11.6

Notes:
1. On 1 October 2006, the number of PCTs reduced from 303 to 152. Craven, Harrogate and Rural District PCT, Hambleton and Richmondshire PCT, Scarborough, Whitby and Ryedale PCT and Selby and York PCT merged to become North Yorkshire and York PCT. Allocations were made to North Yorkshire and York PCT from 2008-09.
2. Comparisons between allocations should be made with caution because of changes to PCT baseline funding between rounds.

Health Services: Reciprocal Arrangements

Mr. Lansley: To ask the Secretary of State for Health with reference to page 219 of his Department's Annual Report 2009, what the reasons are for the difference between the level of spending on EEA medical costs in 2007-08 and the estimate of spending on such costs in 2008-09. [283876]

Gillian Merron: The figure for European Economic Area medical costs for 2008-09 in the Department's Annual Report is an estimate made during the 2008-09 year where as the 2007-08 cost is an actual cost. The actual costs for 2008-09 will be known after the National Audit Office have completed the audit of the 2008-09 figures and the Resources Accounts are ready for publication. This is expected to be during 2009.

Hospital Beds: North East

Dr. Kumar: To ask the Secretary of State for Health what his most recent estimate is of the number of intensive care beds provided by NHS trusts in *(a)* the North East, *(b)* Tees Valley and *(c)* Middlesbrough South and East Cleveland constituency. [285336]

Mr. Mike O'Brien: The information is not held in the format requested. However, information on the number of intensive care beds in the North East Strategic Health Authority area is shown in the following table.

2007-08

Name	Intensive care: Neonates	Paediatric
City Hospitals Sunderland NHS Foundation Trust	6	
Gateshead Health NHS Foundation Trust	2	
North Tees And Hartlepool NHS Trust	17	
South Tees Hospitals NHS Trust	20	4
The Newcastle Upon Tyne Hospitals NHS Foundation Trust	16	18
North East Strategic Health Authority	61	22

Note:
The KH03 provides a count of available and occupied bed days by broad ward classification. It is an annual return and relates to available and occupied bed days over a 12-month period between 1 April of one year and 31 March of the following year. The average daily number of available beds is then calculated based on the number of reported bed days.
Source:
Department of Health form KH03

Incontinence: Health Services

Bill Wiggin: To ask the Secretary of State for Health if the Government will establish a continence care health improvement national programme. [285585]

Phil Hope: We have no plans to establish a continence care health improvement national programme.

Infectious Diseases

Norman Lamb: To ask the Secretary of State for Health how many cases of *(a)* ebola, *(b)* West Nile fever, *(c)* yellow fever, *(d)* sleeping sickness, *(e)* dengue fever, *(f)* anthrax poisoning, *(g)* rabies, *(h)* guinea worm disease, *(i)* leprosy and *(j)* Chagas's disease were recorded in each of the last five years. [285448]

Gillian Merron: The information available on the number of cases of the specified diseases from 2004 to 2008 is in the table. There were 24 laboratory diagnoses of Chagas disease in the United Kingdom from January 2005 to March 2009. An annual breakdown is not available.

Disease	*2004*	*2005*	*2006*	*2007*	*2008*
Ebola	0	0	0	0	0
West Nile fever	0	0	[1]1	[1]1	0
Yellow fever	0	0	0	0	0
Sleeping sickness	0	2	0	1	1
Dengue fever	[3]120	[3]144	[2]166	[1]164	[1,4]167
Anthrax poisoning	0	0	[5]1	0	[5]1
Rabies	0	[6]1	0	0	[7]1
Guinea worm disease	0	0	0	0	0
Leprosy[8]	1	4	7	5	7

[1] Acquired in Canada
[2] These data are confirmed, probable, and suspected cases.
[3] These data are confirmed and probable cases.
[4] Provisional total.
[5] Fatal case of inhalational anthrax.
[6] Dog bite in Goa
[7] Dog bite in South Africa.
[8] Leprosy data are statutory notifications by registered medical practitioners. Data for other diseases in the table are laboratory diagnoses.
Source:
Health Protection Agency

Infectious Diseases: North East

Dr. Kumar: To ask the Secretary of State for Health how many reported cases of *(a)* mumps, *(b)* measles and *(c)* rubella there were in (i) the North East, (ii) Tees Valley and (iii) Middlesbrough South and East Cleveland constituency in each year since 1997. [285333]

Gillian Merron: The available information is shown in the following table.

The Health Protection Agency does not break down these data beyond the regional level.

Laboratory confirmed cases of Measles, Mumps and Rubella in the North East 1997 to 2008

	Measles	*Mumps*	*Rubella*
2008	17	184	0
2007	12	169	0
2006	12	123	0
2005	0	3,766	0
2004	2	579	1
2003	0	541	1
2002	8	101	2
2001	3	3	1
2000	0	17	1
1999	0	36	8
1998	0	0	5
1997	1	5	1

Influenza: Health Services

Sandra Gidley: To ask the Secretary of State for Health (1) how many primary care trusts had designated influenza treatment distribution centres on 1 July 2009; [284985]

(2) what his most recent assessment is of the preparedness of primary care trusts for an influenza pandemic. [285001]

Gillian Merron: Data on the number of primary care trusts (PCTs) who have set up antiviral collection points are not collected centrally.

The Department has been working closely with PCTs across the country to ensure their plans are robust, and so far the response from PCTs, particularly in areas of sustained transmission, has been very good in challenging circumstances.

Kidney Patients: Bexley

Mr. Evennett: To ask the Secretary of State for Health how many people in the London Borough of Bexley are receiving kidney dialysis treatment. [285734]

Ann Keen: This information is not held centrally. Information on the prevalence of people on dialysis is collected by the UK Renal Registry.

Mental Health Services: Finance

Hugh Bayley: To ask the Secretary of State for Health how much North Yorkshire and York Primary Care Trust spent per capita on mental health services in each year since 2004-05; what proportion of the Trust's expenditure such spending represented in each such year; and where the Trust was placed in national rankings relating to primary care trust expenditure on mental health services in each such year. [285713]

Ann Keen: The information is shown in the following table:

North Yorkshire and York primary care trust (PCT)—Expenditure on mental health disorders (estimated from programme budgeting data)

Financial year	*Estimated spend on mental health disorders (£/capita)*	*Expenditure on mental health disorders as a percentage of total expenditure*	*PCT ranking for mental health disorders by expenditure per capita*
2004-05	123.41	10	117
2005-06	140.44	10	107

North Yorkshire and York primary care trust (PCT)—Expenditure on mental health disorders (estimated from programme budgeting data)

Financial year	*Estimated spend on mental health disorders (£/capita)*	*Expenditure on mental health disorders as a percentage of total expenditure*	*PCT ranking for mental health disorders by expenditure per capita*
2006-07	138.64	10	122

Notes:
1. Data are best estimate of expenditure on own population.
2. Continual refinements made to the calculation methodology and to underlying data sources which makes like-for-like comparisons between years difficult.
3. Expenditure across all sectors is included.
4. Disease specific expenditure will not include expenditure on prevention, or GP expenditure, but will include prescribing expenditure.
5. Source of data are PCT financial programme budgeting returns.
6. 2007-08 Programme Data has not yet been published.
7. The population values used to calculate expenditure per capita are those used for PCT resource allocations, and have been weighted for age, sex and need.
8. Total expenditure is total expenditure on own population.

Source:
Programme Budgeting Data.

Methadone

Mike Penning: To ask the Secretary of State for Health (1) what percentage of people prescribed methadone were aged under 30 in each year since 1997; [285216]

(2) how many people have been prescribed methadone for more than three years in each year since 1997. [285218]

Gillian Merron: This information is not collected centrally.

Necrotizing Fasciitis

Norman Lamb: To ask the Secretary of State for Health how many cases of necrotizing fasciitis were recorded in each of the last five years. [285444]

Gillian Merron: These data are not collected centrally, but available information suggests cases of necrotising fasciitis are uncommon. Further information can be found at:

www.cdc.gov/ncidod/EID/pastcon.htm#14

NHS Litigation Authority

Mr. Bellingham: To ask the Secretary of State for Health what the monetary value was of the tax levied on claimant costs in cases involving the NHS Litigation Authority in each of the last five years. [286088]

Ann Keen: This answer can be provided only at disproportionate cost, as it would involve the NHS Litigation Authority working through each and every claim within the five-year period.

Mr. Bellingham: To ask the Secretary of State for Health what the largest *(a)* absolute and *(b)* reduction in claimant costs consequent on the levying of tax in cases involving the NHS Litigation Authority in respect of which legal proceedings have been completed was in each of the last five years; and what the names of the solicitors were in each case. [286089]

Ann Keen: This answer can be provided only at disproportionate cost, as it would involve the NHS Litigation Authority working through each and every claim received within the five-year period.

Mr. Bellingham: To ask the Secretary of State for Health in how many cases involving the NHS Litigation Authority in respect of which legal proceedings have been completed involving claimant costs of over £50,000 contested those costs in each of the last five years; in how many such cases those costs were reduced in each such year; and what the total monetary value was of such reductions. [286090]

Mr. Garnier: To ask the Secretary of State for Health how many cases involving claimant costs of over £50,000 the NHS Litigation Authority contested in the last 12 months; in how many of those cases costs were reduced following contest by the authority; and what the combined monetary value of such reductions was. [286275]

Ann Keen: While the NHS Litigation Authority (NHSLA) contests the value of claimant costs on the vast majority of claims, to provide this answer would be at disproportionate cost as it would involve the NHSLA working through each and every claim within the five-year period where claimant costs were settled above £50,000.

Mr. Bellingham: To ask the Secretary of State for Health in how many cases involving the NHS Litigation Authority in respect of which legal proceedings have been completed claimant costs exceeded the amount of compensation awarded in each of the last five years. [286092]

Ann Keen: The information requested was supplied by the NHS Litigation Authority in the following table.

	Number of claims closed where claimant costs exceeded damages	*Total number of claims closed*
2004-05	2,384	11,250
2005-06	2,330	9,369
2006-07	2,555	9,879
2007-08	3,438	10,611
2008-09	3,380	10,006
Total	14,087	51,115

Mr. Garnier: To ask the Secretary of State for Health in how many cases involving the NHS Litigation Authority claimant costs have exceeded the compensation awarded in the latest period for which figures are available. [286277]

Ann Keen: In 2008-09, the NHS Litigation Authority closed 10,006 claims. Of those claims, 3,380 were closed with claimant costs exceeding the compensation awarded.

NHS Purchasing and Supply Agency

Mr. Watson: To ask the Secretary of State for Health which recruitment agencies are approved by the NHS Purchasing and Supply Agency to supply the NHS with medical staff. [286378]

Mr. Mike O'Brien: The following recruitment agencies have been awarded a place on the current NHS Purchasing and Supply Agency national framework agreement for the supply of medical locums:

Accident and Emergency Agency Ltd.
Ambition Recruitment Services Ltd
Arthur Rai Medical Services Ltd.
Athona Ltd.
Britannic Medical Services Ltd.
Capital Care Services (UK) Ltd.
Care Providers
Castlerock Care Services Ltd.
Clinical Employment Services Ltd. (CES)
Corrigan's Door Ltd.
Doctors On Call Ltd.
dr-locums
DRC Locums Ltd.
Evergood Associates Ltd.
First Medical Staffing Solutions Ltd.
Geneva Health International Ltd.
G4S Integrated services (UK) Ltd. (formerly GSL UK Ltd.)
Hays Healthcare
Holt Medical Recruitment
ID Medical
InterAct Consulting (Reality HR)
kcare nursing agency Ltd.
Medacs Healthcare Services Plc
Medecho Ltd.
Medical Professional Personnel Ltd.
Medicspro Ltd.
Medicure Ltd.
Mediplacements Ltd.
Medpro Group
Medsol Healthcare Services Ltd.
Medteam Healthcare Ltd.
Merco Recruitment Ltd.
Mild Professional Care Ltd.
Minutes Medical Staffing Ltd.
Mylocum Ltd.
Nationwide Locum Services Ltd.
Northwest Locums Ltd.
Orion Locums Ltd.
Pioneer Recruitment Ltd.
Pulse Healthcare Ltd. trading as Pulse Doctors
Reed Healthcare
Resuscitate Medical Services Ltd.
Richmond Medical Agency
RMR Recruitment Ltd.
Scanloc
Serving The Nation Locums Ltd.
Sonographers Medical Ltd.
Templars Medical Agency
Thames Medics (HCL)
The Anaesthetists Agency
The Consultants Agency Ltd.
Total Assist Recruitment Ltd.
United Medicare Ltd.

Mr. Watson: To ask the Secretary of State for Health what criteria a recruitment agency must meet in order to be approved by the NHS Purchasing and Supply Agency to supply the NHS with medical staff; and if he will make a statement. [286438]

Mr. Mike O'Brien: All recruitment agencies must meet the following criteria in order to enter the tendering process to supply the national health service with medical locums:

an initial pre-qualification check to assess the ability to supply medical staff and to obtain full details of the company requesting inclusion in the tender process;

financial check from Dun and Bradstreet or similar;

reference check from NHS customers;

an audit to check that the policies and procedures are in place to meet NHS Employers standards for recruitment into the NHS covering identity, right to work, qualification, employment history, Criminal Records Bureau and occupational health checks;

agreement with the NHS terms and conditions of contract; and

a pricing structure which offers value for money to the NHS.

NHS: ICT

Sandra Gidley: To ask the Secretary of State for Health in how many NHS trusts the National Programme for IT is fully operational. [285830]

Mr. Mike O'Brien: The National Programme for Information Technology (IT) is a long-term programme which presents an unprecedented opportunity to use IT to reform the way the national health service in England uses information, and to improve health services and patient care. As reported by the National Audit Office in May 2008, elements of the programme are already fully deployed across the NHS, some ahead of schedule. The NHS could not now function without the systems and services the programme has delivered.

In line with best practice, the new IT services are being implemented incrementally across the NHS throughout the duration of the programme, with increasingly richer functionality being provided in successive software releases. For example, it is likely to be 2014-15 before all trusts have fully deployed systems to support the NHS care records service, though some should receive final releases of the software much sooner.

National programme-delivered systems and services will continue to require upgrading over time in the light of new technology and the evolving requirements of the NHS.

NHS: Manpower

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 1 July 2009, *Official Report*, columns 348-49W, on NHS: manpower, how many hours were supplied under each agreement in each financial year since the agreement came into effect. [286310]

Ann Keen: The information requested is as follows.

Number of hours supplied under each framework agreement

Framework agreement	*2005-06*	*2006-07*	*2007-08*	*2008-09*
AS/HSS/ AHP	—	—	13,3[illegible]	18,814,968
Nursing	—	—	5,707,076	5,951,471
Medical locums	1,024,361	1,962,028	2,522,698	2,624,202
Ancillary	—	—	911,153	1,116,599

Note:
AS = Administrative Services
HSS = Health Science staff
AHP = Allied Health Professionals

NHS: Mental Health

Chris Ruane: To ask the Secretary of State for Health how many people received treatment from the NHS for mental health problems in each of the last 30 years. [285684]

Phil Hope: This information is not available. Most treatment for mental health problems occurs in primary care settings, where information on the number of patients treated for specific conditions is not collected.

Approximately one in six adults in England has a common mental illness, like anxiety or mild depression at any given time, with one in four adults experiencing mental ill heath at some stage in their lives. Approximately one in 100 people are thought to have a severe mental illness like schizophrenia or psychosis.

NHS: Waiting Lists

Bob Spink: To ask the Secretary of State for Health pursuant to the answer of 2 July 2009, *Official Report*, column 401W, on NHS: waiting lists, for what reasons data on the rate of patient deaths while on waiting lists for NHS operations are not held centrally. [285531]

Mr. Mike O'Brien: Central data collections ensure that the Department has the ability to monitor performance against standards and targets without placing significant burden on the national health service. More detailed information, for example, on people who have died while on a waiting list will be held on local systems within NHS organisations.

Waiting times are now at the lowest levels since records began. In April 2009, the average patient waited 7.7 weeks from referral to admitted treatment and 4.2 weeks from referral to non-admitted treatment.

Chronic Pain: Essex

Bob Spink: To ask the Secretary of State for Health how many people in *(a)* Essex and *(b)* Castle Point have been diagnosed with chronic pain in each year since 1997. [285922]

Ann Keen: The information requested on the number of people diagnosed with chronic pain in the national health service is not collected centrally.

Primary Care Trusts: Dental Services

Mr. Sanders: To ask the Secretary of State for Health what guidance his Department has issued to primary care trusts on the procedures to be followed in allocation of dental contracts by them; and what steps his Department is taking to monitor compliance with that guidance. [285203]

Ann Keen: Primary care trusts (PCTs) are expected to follow the same procedures when commissioning dental services—both in primary and secondary care—as in any other area of health service contracting. The Department published a "PCT Procurement Guide for Health Services" in May 2008, which supports National Health Service Commissioners in deciding whether and how to procure health services through formal tendering and market-testing exercises. It is one of the System Management tools and guidance documents and it is referenced in the Principles and Rules for Cooperation and Competition.

In addition, the Cooperation and Competition Panel (The Panel) has been established to advise the Secretary of State (and his delegated authorities) and Monitor (The independent regulator of NHS Foundation Trusts) on alleged breaches of the Principles and Rules for Cooperation and Competition (PRCC) which apply to all PCT contracted/funded services.

Copies of both documents have already been placed in the Library.

The Department has also published a large number of specific guidance documents and fact sheets on NHS primary care dental contracts which can be found on the Department's website. The most recent guidance was issued to PCTs on 29 May 2009 and is available at:

www.dh.gov.uk/en/Publicationsandstatistics/Publications/PublicationsPolicyAndGuidance/DH_099946

A copy has been placed in the Library.

Putney Hospital: Non-domestic Rates

Justine Greening: To ask the Secretary of State for Health (1) how much was paid in business rates liabilities on buildings on the site of the former Putney Hospital in each year from 1998-99 to 2009-10; and how much he expects to be paid in such liabilities in *(a)* 2010-11 and *(b)* 2011-12; [285115]

(2) what the rateable value of the former Putney Hospital site was in *(a)* 1995, *(b)* 2000 and *(c)* 2005; and what he expects that value to be in 2010. [285116]

Mr. Mike O'Brien: This information is not held centrally.

Skin Cancer

Norman Lamb: To ask the Secretary of State for Health how many cases of skin cancer were diagnosed in each year since 1997. [285458]

Angela E. Smith: I have been asked to reply.

The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking how many cases of skin cancers were diagnosed in each year since 1997. [285450]

The latest available figures for newly diagnosed cases (incidence) of malignant melanoma of skin registered in England are for the year 2006. Figures for the years 1997 to 2006 are shown in the table below.

Registrations of newly diagnosed cases of malignant melanoma of skin,[1] England, 1997 to 2006

England	*Number*
1997	5,018
1998	5,138
1999	5,337
2000	5,996
2001	6,406
2002	6,661
2003	6,918
2004	7,596
2005	8,102
2006	8,658

[1] Malignant melanoma of skin is coded to C43 in the International Classification of Diseases Tenth Revision (ICD-10)

Source:
Office for National Statistics

Social Services: Applications

Bob Spink: To ask the Secretary of State for Health pursuant to the answer of 1 July 2009, *Official Report*, column 354W, on social services: applications, for what reasons data on refusal of social care and support services are not collected. [285533]

Phil Hope: Specific information on how many applications for health and social care support services were refused following a positive assessment of need by a specialist can not be isolated from the overall data that are collected on the known or anticipated sequel of assessment for new clients following a social care assessment.

Data included in 'No (new) services offered or intended to be provided' category, include those clients who are refused services, clients where the assessment has indicated that no (new) services are warranted and where the council with adult social services responsibilities is aware that services will be provided by another agency. In addition this category includes numbers relating to where services are warranted but no resources are available to provide them and where clients are fully funded and thus pay for their own service provision following assessment.

The data are not collected separately but under the one category heading only.

Tobacco: Regulation

David Taylor: To ask the Secretary of State for Health when he plans to publish *(a)* his Department's comprehensive tobacco control strategy, *(b)* draft regulations on tobacco displays and *(c)* draft regulations on tobacco vending machines. [285718]

Gillian Merron: The new tobacco control strategy will be published by the end of the year.

Draft regulations on tobacco displays and tobacco vending machines will be published during the summer recess.

David Taylor: To ask the Secretary of State for Health what information his Department holds for benchmarking purposes on the costs of removing point of sale displays of tobacco from shops in Canada. [285719]

Gillian Merron: The Department sourced cost estimates from a Canadian company responsible for about 85 per cent. of the covered tobacco display market in Canada. The Department published the details of relevant correspondence on the Department's website on 3 July 2009. The correspondence can be found at:

www.dh.gov.uk/en/FreedomOfInformation/Freedomofinformationpublicationschemefeedback/FOIreleases/DH_101835

Transplant Surgery: Essex

Bob Spink: To ask the Secretary of State for Health how many people waiting for organ transplants in *(a)* Essex and *(b)* Castle Point had been waiting for longer than three weeks on the latest date for which figures are available. [285923]

Ann Keen: The following table shows people who are currently[1] actively waiting and have been listed on the UK Transplant waiting list for more than three weeks in identified postcodes for Essex[2]:

[1] As at 8 July 2009.

[2] Postcodes CB10, 11, CM (not 21, 23), CO (not 10), EN9, IG7, 9, 10, RM4, 15-20, SS (not 17).

Organ(s)	*Number of patients listed*
Kidney	95
Kidney/Pancreas	11
Liver	7
Pancreas	4
Heart	3
Lung(s)	3
Total	123

The following table shows patients who are currently[1] actively waiting and have been listed on the UK Transplant waiting list for more than three weeks in Castle Point[2]:

[1] As at 8 July 2009.

[2] Postcodes SS7, 8.

Organ(s)	*Number of patients listed*
Kidney	6
Pancreas	1
Total	7

BUSINESS, INNOVATION AND SKILLS

Apprentices

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills whether all existing learners who started their training before 1 April 2009 on *(a)* apprenticeship programmes and *(b)* Train to Gain courses funded by the Learning and Skills Council will be funded to complete their existing training at the agreed rates. [282225]

Kevin Brennan: Learners legitimately starting their courses before 1 April 2009, whether Apprenticeships programmes or Train to Gain courses, will be funded to complete their training.

Funding rates are set by the Learning and Skills Council for each funding year (the funding year runs from 1 August to 31 July). Learners who started during the 2008-09 academic year would be funded at the published rates for the provision delivered during 2008-09. Train to Gain Funding rates will increase by 1.5 per cent. in 2009-10 and all learners, both those continuing from 2008-09 into 2009-10 and new starts in 2009-10 will be funded at this higher rate from the start of the academic year. The detailed rates for 2009-10 have been published in the LSC funding guidance.

Funding rates for Apprenticeships will also increase by 1.5 per cent. for 2009-10 but the funding rate for new 25+ Apprenticeship starts from 1 August 2009 will be funded at 90 per cent. of the 19-24 rate. Those learners that started a 25+ Apprenticeship during the 2008-09 academic year would continue to be funded at the full 19-24 rate.

Apprentices: Greater London

Mr. Evennett: To ask the Minister of State, Department for Business, Innovation and Skills what estimate he has made of the number of apprenticeship places that have been lost in *(a)* the London Borough of Bexley and *(b)* Greater London as a result of the recession in the last 12 months. [283016]

Kevin Brennan: Data about the total number of apprentices made redundant are not currently held centrally. Arrangements are in place from 1 August 2009 onwards to record the number of apprentices who are made redundant. Working with the Learning and Skills Council (LSC) we have established a matching service to help apprentices at risk of redundancy to find alternative employment and to complete their apprenticeship. More generally, providers and the LSC have procedures to advise and relocate apprentices, in cases where providers or employers fail, to help ensure that they are able to continue in work and complete their apprenticeship. The £140 million package announced by my right hon. Friend the Prime Minister for an additional 35,000 apprenticeship places will help fund new provision in both the public sector and private sector, and will extend the opportunities available to people facing redundancy.

Aspire Fund

Mr. Prisk: To ask the Minister of State, Department for Business, Innovation and Skills how many applications for funding have been made to the Aspire fund since its creation; and what proportion of *(a)* successful and *(b)* unsuccessful applications made to the fund were from female entrepreneurs. [253634]

Ms Rosie Winterton: Since the launch of the Aspire Fund on 19 November the fund has received around 80 general enquiries and 57 specific approaches for investment.

The Aspire Investment Committee has made two offers, both accepted, which are expected to complete by the end of June and early July, totalling £850,000.

There are seven further deals under active consideration totalling around £3.4 million of investment.

All of the 57 approaches have related to businesses where the founder or co-founder is female or a significant proportion of the senior management team are female.

British Airways

Mr. Amess: To ask the Minister of State, Department for Business, Innovation and Skills on what dates the Secretary of State met representatives of British Airways since June 2007; what issues were discussed; who attended each meeting; whether a record of each meeting was kept; and if he will make a statement. [269842]

Mr. McFadden: The then Secretary of State, my right hon. Friend the Member for Barrow and Furness (Mr. Hutton), met with Willie Walsh (chief executive) and Maria De Cunha (director, Government Affairs), on 19 June 2008; and my noble Friend the Secretary of State met with them on 9 December 2008. They discussed a range of issues facing British Airways and the aviation industry.

Broadband

Mr. Greg Knight: To ask the Minister of State, Department for Business, Innovation and Skills what estimate he has made of the likelihood of every home in Britain having access to 2MB broadband by 2012. [278699]

Mr. McFadden: It is the Government's intention that all households will be able to have access to a broadband connection capable of delivering at least 2 Mbps by 2012. The Digital Britain White Paper published on 16 June confirmed the Government's commitment to providing universal broadband access that can deliver at least 2 Mbps to virtually all UK homes and businesses by 2012.

Mr. Hunt: To ask the Minister of State, Department for Business, Innovation and Skills what steps have been taken by the Government to help implement the Community Broadband Network's proposals for an umbrella body for local and community broadband networks. [279095]

Mr. McFadden *[holding answer 11 June 2009]:* The Government have held several discussions with the Community Broadband Network (CBN) and set out in the Digital Britain Report, published on 16 June, how they will take forward this action.

http://www.culture.gov.uk/what_we_do/broadcasting/6216.aspx

Mr. Don Foster: To ask the Minister of State, Department for Business, Innovation and Skills how much funding his Department plans to raise from the private sector before 2012 to fund universal broadband commitment of two megabits per second. [282619]

Mr. McFadden: Government are committing an anticipated £200 million of public funds to deliver the Universal Service Commitment. It is envisaged that the remainder of the costs will be met from the private

sector through in-kind contributions, competitive commercial pricing through tender contract and design, and contributions from other public sector organisations. It is impossible at this stage to determine what the total cost may be. The finer details will be looked at by the proposed Network Design and Procurement Group.

Broadband: Essex

Bob Spink: To ask the Minister of State, Department for Business, Innovation and Skills what recent estimate he has made of the proportion of households without access to broadband in *(a)* Essex and *(b)* Castle Point. [282845]

Mr. McFadden: The matter raised is the responsibility of the independent regulator, the Office of Communications (Ofcom), which is accountable to Parliament rather than Ministers. Accordingly, I have asked the chief executive of Ofcom to reply directly to the hon. Member.

Copies of the chief executive's letter will be placed in the Libraries of the House.

Broadband: Rural Areas

Miss McIntosh: To ask the Minister of State, Department for Business, Innovation and Skills (1) what recent estimate he has made of the number of people living in remote rural areas of *(a)* the Vale of York, *(b)* North Yorkshire and *(c)* England who have access to broadband. [286234]

(2) what proportion of households in rural areas in *(a)* the Vale of York, *(b)* North Yorkshire and *(c)* England have access to (i) a digital subscriber line (DSL) at speeds of at least 512 kBits/s and (ii) cable broadband services of at least 2Mbps. [286589]

Mr. McFadden: The matter raised is the responsibility of the independent regulator, the Office of Communications (Ofcom), which is accountable to Parliament rather than Ministers. Accordingly, I have asked the chief executive of Ofcom to reply directly to the hon. Member. Copies of the chief executive's letter will be placed in the Libraries of the House.

Building Britain's Future

Mr. Stewart Jackson: To ask the Minister of State, Department for Business, Innovation and Skills with reference to paragraph 36 of Building Britain's Future, Cm 7654, which Department will sponsor the proposed new Infrastructure UK advisory body. [283955]

Mr. Byrne: I have been asked to reply.

The development of Infrastructure UK will be led by Lord Davies of Abersoch, reporting to the Prime Minister, the Chancellor of the Exchequer, and the First Secretary of State. It will be supported by a joint HM Treasury/ Department for Business, Innovation, and Skills secretariat.

Business

Mr. Sanders: To ask the Minister of State, Department for Business, Innovation and Skills if he will estimate the cost to businesses of compliance with *(a)* EU and *(b)* UK regulations in 2009-10 to date. [281426]

Ian Lucas: The costs to business from new regulations are included in published Impact Assessments which can be accessed at:

www.ialibrary.berr.gov.uk

Developing robust estimates of the costs to business of complying with all existing regulations would involve disproportionate cost.

Business: Government Assistance

Mr. Weir: To ask the Minister of State, Department for Business, Innovation and Skills (1) how many applications for the Enterprise Finance Guarantee Scheme have been *(a)* received and *(b)* approved; [265951]

(2) how many successful applications for the Enterprise Finance Guarantee Scheme have been taken up by businesses. [265952]

Ms Rosie Winterton: Since its launch on 14 January 2009 the Enterprise Finance Guarantee has over £573 million of eligible applications from 5,090 firms that have been granted, are being processed or assessed. 3,697 businesses have been offered loans totalling £364.33 million.

Mr. Cox: To ask the Minister of State, Department for Business, Innovation and Skills what guidance his Department has issued to lenders consequent upon the extension of the Enterprise Finance Guarantee Scheme to agricultural businesses. [270422]

Ms Rosie Winterton: Revised guidance was incorporated into the web portal used by lenders to determine eligibility and guidance issued to lenders via Capital for Enterprise Ltd (CfEL). Additionally, details are on the BIS website at

www.bis.gov.uk

and are shared with the regional development agencies and Business Link.

Stewart Hosie: To ask the Minister of State, Department for Business, Innovation and Skills how many applications have been made to the Capital for Enterprise Fund; and how many of these have met the eligibility criteria. [280005]

Ms Rosie Winterton: As from 11 June 2009, the Capital for Enterprise Fund has received 459 formal inquiries. From these 169 have been rejected on the basis of ineligibility. 278 of these applications fit broad eligibility criteria subject to further information and are under consideration. 12 of the applications meet all eligibility criteria and offers have been made totalling £12.4 million.

Bob Spink: To ask the Minister of State, Department for Business, Innovation and Skills what support his Department is providing to small and medium-sized businesses in *(a)* Essex and *(b)* Castle Point. [280226]

Ms Rosie Winterton: East of England Development Agency provides an integrated package of business support, accessible through Business Link; key examples for Essex and Castle Point are:

Regional Business Link service which includes the Train to Gain training brokerage service for businesses. In 2008/09, Business Link interacted with 28,223 businesses in Essex, of which over 1,088 are in Castle Point.

52 Essex businesses have received support for enhanced ICT through EEDA's TakeItOn programme totalling over £144,000 since December 2007.

Over the last 18 months Manufacturing Advisory Service East (MAS-East) has assisted 138 manufacturing businesses in Essex, and completed projects that have generated £2,553,100 estimated GVA.

659 Essex women are signed up to Enterprising Women, EEDA's specialist business support for women entrepreneurs.

Essex businesses have won nine contracts for Olympic opportunities through the CompeteFor programme out of 28 total awards to the region.

In the past year, six Essex businesses have received £95,100 from EEDA's Proof of Concept and Grants for Research and Development funding streams.

Since 2004, over 400 companies in Southend-on-Sea have received business support through the new Southend University Campus.

EEDA is also implementing the 'Solutions for Business' programme to make access to support easier and has recently launched the 'Understanding Finance for Businesses' product.

On 14 January 2009 we launched the Real Help Now for Business measures to support businesses in the current economic climate. These include useful information, advice and tools to help businesses with staff, cash flow and access finance measures, such as:

The £1.3 billion Enterprise Finance Guarantee (EFG) scheme supports bank lending, up to £1 million, to viable small businesses which, due to the current economic downturn, are struggling to secure the finance they need through normal, commercial lending.

EFG data are available at district and county level and as at 24 June, Essex county offered 92 loans with a total value of £8.39 million of which 58 have been drawn with a total value of £5.81 million

Included in this total is Castle Point. Nine loans were offered with a total value of £977,000 of which six loans have been drawn with a total value of £899,000.

In addition to the above there are the unitary authorities of Southend-on-Sea and Thurrock. These have an additional 20 loans offered with a value of 1.12million of which 13 loans have been drawn with a total value of £866,000.

Capital for Enterprise Fund (CfEL) announced in PBR 2008 as a £50 million debt for equity fund, this now provides £75 million of equity, made up £50 million of Government funds and an additional £25 million from high street banks. The fund provides equity and quasi-equity of £250,000 to £2 million for companies under the EU SME definition, ie with turnover of up to €50 million, who have viable business models and growth potential in need of long term capital. Risk will be shared equally between government funds and those committed by the banks. Data for the CfEL are only available at regional level at present.

The Working Capital Scheme which (though not available to business to apply for) enables participating lenders to increase the amount of working capital they can make available to businesses with a turnover of up to £500 million.

As part of the Real Help offered to businesses, they could undertake a "Health Check" (an impartial and objective assessment of business performance to identify; key strengths, prioritising areas for improvement and highlighting business opportunities) either on-line or with a Business Link adviser. Since the end of October 2008, over 57,000 businesses have undertaken a "Health Check" with more than 5,400 benefiting in the East of England.

Further details of the Real Help for Business finance measures and the wide range of information, advice and tools are available via

www.businesslink.gov.uk/realhelp.

Mr. Stewart Jackson: To ask the Minister of State, Department for Business, Innovation and Skills what recent steps his Department has taken to assist *(a)* small, *(b)* medium-sized and *(c)* large businesses in Peterborough constituency. [281718]

Ms Rosie Winterton: East of England Development Agency supports businesses in Peterborough in a number of ways and has highlighted key examples as follows:

In 2008-09, Business Link interacted with 1,684 businesses in Peterborough through its Train to Gain training brokerage service for businesses.

In the past years seven Peterborough companies have received Take ITon grants totalling £25,220. These grants have focused on helping small and medium enterprises to improve use of IT.

Over the last 18 months Manufacturing Advisory Service East (MAS-East) has supported 20 businesses in Peterborough, having worked intensively with three businesses to generate an estimated Gross Value Added of £88,000.

140 Peterborough women are signed up to Enterprising Women, EEDA's specialist support for women entrepreneurs.

So far Peterborough has 150 businesses registered on CompeteFor, a web portal for promoting Olympic opportunities to businesses.

Two projects have been funded through Grant for Business Investment (to support companies in expanding their business through capital investment) with a total contribution of £144,000. This has levered in £823,000 in business investment.

Two projects are currently being funded to help companies increase their research and development (R&D) capability through Grant for Research.

Development (GRAD) with a total contribution of £258,000. This has levered in £742,000 in business investment.

£2.2 million has funded a regional response to redundancy programme which has supported companies across the region and in Peterborough.

EEDA is implementing the 'Solutions for Business' programme to make accessing support easier. A breakfast event will be held at the Peterborough Eco Centre in July with a larger business event organised in conjunction with Opportunity Peterborough for later in the year to target Peterborough businesses. EEDA has also recently launched the Understanding Finance for Businesses product, with the purpose of helping SMEs to be investment ready and signposting to relevant sources of funding.

EEDA funded £750,000 towards the Learning Centre at Perkins in Peterborough, to help create an expanded high-tech, world-class in-industry training facility in R&D, design and production available to local people, businesses, educational establishments and other organisations.

Margaret Moran: To ask the Minister of State, Department for Business, Innovation and Skills how many employers in *(a)* England and *(b)* Luton sought advice on redundancy issues from his Department and its predecessors in (i) the latest period for which figures are available and (ii) the same period 12 months previously. [282201]

Mr. McFadden: Employers are able to seek advice on redundancy issues from the Department via the Business Link helpline and website, the ACAS helpline and the redundancy payments service helpline. The available figures are set out in the following table, except for calls to the redundancy payments service helpline, which are not categorised or recorded by group.

	May	
	2008[1]	May 2009
ACAS Helpline		
Percentage of total calls from employers that were about redundancy issues	19.9	27.2

	March	
	2008	March 2009
Business Link (Luton)		
Calls to helpline	0	2
Response to redundancy project	No data available	[2]10

	March	
	2008	2009
Business Link (England)	No data available	No data available

	April	
	2008	2009
Business Link Website		
Guidance (visits)	28,050	68,740
Redundancy tool	2,487	4,004
Redundancy calculator	No data available	39,474

[1] Relates to two weeks only, due to the introduction of new technology.
[2] Project began in September 2008.
Note:
Although guidance was also available on the BIS (BERR) website in 2008, hits/visits were not categorised or recorded by group.

Mr. Meacher: To ask the Minister of State, Department for Business, Innovation and Skills how much financial assistance his Department and its predecessors have provided to companies in each year since 1990; under what budgetary headings such assistance was given in each year; which 10 companies received the most such funding in each year; and how much each such company received each year. [283373]

Mr. McFadden *[holding answer 6 July 2009]:* The information requested is not held centrally and, where available, could be obtained only at disproportionate cost.

Tony Baldry: To ask the Minister of State, Department for Business, Innovation and Skills by what means businesses will be able to obtain funding from the *(a)* Strategic Investment Fund and *(b)* Innovation Fund. [284961]

Mr. McFadden: Although the Strategic Investment Fund is not a fund to which businesses can apply directly, BIS seeks and continues to engage with business to understand opportunities and challenges they face and use the Fund in areas in which Government action can have a bigger impact. The aim of £750 million Strategic Investment Fund—which was announced in Budget 2009—is to support advanced industrial projects of strategic importance, of which £250 million has been ring fenced specifically for low carbon initiatives, a further £50 million for the Technology Strategy Board and £10 million to promote UK sector expertise through UK Trade and Investment (UKTI). The Fund will help to deliver the Government's strategy as set out in the 'Building Britain's Future—New Industry New Jobs' framework document, published on 20 April 2009, and will allow Government to support advanced industrial projects of strategic importance to the UK's economic renewal and future growth.

The UK Innovation Investment Fund will operate on a Fund of Funds structure which means it will not invest directly in companies, but rather invest in a small number of specialist technology funds that have the expertise and track record to invest directly in companies. A Fund of Funds manager will be appointed over 2009 to manage the fund and make investments in underlying technology funds with the expertise and track record to invest directly in technology businesses.

Business: Overseas Trade

Daniel Kawczynski: To ask the Minister of State, Department for Business, Innovation and Skills what assessment UK Trade and Investment has made of the UK's business competitiveness in international markets in each of the last three years; and against which competitors each assessment was made. [284037]

Ian Lucas: UK Trade and Investment has made two assessments of the UK's business competitiveness in the last three years, the first in 2007 and the second in 2009.

The 2007 study assessed UK competitiveness against that of France, Germany, the USA and Japan for the period 1996 to 2004. The study looked specifically at exports of goods from eight sectors to 12 emerging markets and compared UK performance in these sectors and markets with that of the four competitors. The study is entitled "Mapping the match between UK exports and demand in emerging markets" and is available on the UKTI website at URL:

https://www.uktradeinvest.gov.uk/ukti/fileDownload/UKTIUKexportsreportforwebamended291107.pdf?cid=409154

The 2009 study assessed UK competitiveness against that of Germany, the USA and Japan over the period 2002-07. It considered export of goods from 16 sectors to 11 destination markets and compared UK performance in these sectors and markets with that of the three competitors. The report of this work will be available on the UKTI website in due course.

Both pieces of research have been carried out by external contractors. International trade statistics take time to collate, hence, 2007 data was the latest available for the 2009 study.

BIS has two assessments of UK business competitiveness in 2008.

A study on green business and UK comparative advantage which compared the UK to other OECD member countries. The report is available at URL:

http://www.berr.gov.uk/files/file46793.pdf

A study of the design engineering sector compared the cost efficiency of the UK with the US and Europe. The report is available at URL:

http://www.berr.gov.uk/files/file44824.pdf

Conditions of Employment

Mr. Hoyle: To ask the Minister of State, Department for Business, Innovation and Skills what measures are in place on the use of local employment contracts in infrastructure expenditure by local and central government agencies. [285391]

Ian Pearson: I have been asked to reply.

Public procurers are required to seek value-for-money through fair and open competition. They must comply with EU treaty open market principles and the UK public procurement Regulations implementing the 2004 EU public procurement directives. These set out the value for money criteria to be used for the award of public contracts. Any preferential treatment for local companies or those offering local employment is not allowed.

Construction Clearing House

Lorely Burt: To ask the Minister of State, Department for Business, Innovation and Skills whether his Department has yet established its proposed construction clearing house. [283901]

Kevin Brennan: The Construction Clearing House (Apprenticeship Matching Service) was established in September 2008 by ConstructionSkills (the Sector Skills Council for the construction industry), the Learning and Skills Council and the former Department for Innovation, Universities and Skills. Its purpose is to ensure that construction apprentices, at risk of redundancy, are not lost to the industry.

Construction Task Force

Lorely Burt: To ask the Minister of State, Department for Business, Innovation and Skills whether his Department has yet established its proposed construction task force. [283900]

Kevin Brennan: The Construction Apprenticeships Task Force was established by the then Secretary of State for Innovation, Universities and Skills, my right hon. Friend for Southampton Itchen (Mr. Denham) with Construction Skills (the Sector Skills Council for the construction sector), in November 2008 to review the approach to Apprenticeships within the construction sector and to make recommendations to Government.

Departmental Buildings

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills whether his Department is negotiating to end the lease of any buildings leased by the Department for Innovation, Universities and Skills. [282851]

Mr. McFadden: The Department for Innovation, Universities and Skills did not lease any buildings. There are no negotiations under way for any of the buildings previously occupied by the Department for Innovation, Universities and Skills to be vacated, except (in the case of the buildings in Sheffield and Darlington) the plans to relocate jointly with DCSF to new premises in the same city. These plans were developed long before the creation of the Department for Business, Innovation and Skills.

Departmental Carbon Emissions

Mr. Paice: To ask the Minister of State, Department for Business, Innovation and Skills what estimate he has made of the volume of carbon dioxide emissions from offices in his Department and its predecessors in *(a)* 2006-07 and *(b)* 2007-08 (i) in total and (ii) per full-time equivalent member of staff. [280939]

Mr. McFadden: This Department and its predecessors recorded the following carbon dioxide emissions during the periods requested:

	Total CO_2 emissions	*Kgs Per FTE*
2006-07	9,252,827	2,279.6
2007-08	8,487,264	1,854.7

Departmental Energy

Gregory Barker: To ask the Minister of State, Department for Business, Innovation and Skills how much was spent on energy efficiency measures for his Department's predecessors' estate in each year from 2004 to 2009; what assessment has been made of the effectiveness of that expenditure; and what plans he has for future energy efficiency measures. [280534]

Mr. McFadden: Due to changes in our operations and maintenance service providers, BIS can only provide data on spend on energy efficiency measures for its predecessors for the past two years. The amounts spent are as follows:

	£
2007-08	75, 000
2008-09	62, 000

BIS is continuing to work towards achieving the energy efficiency targets expressed in the Sustainable Operation of the Government Estate (SOGE) framework. Our main strategy has been to gain efficiencies through a reduction in the physical size of the estate and the number of buildings, occupied by the introduction of new ways of working, including flexible desking. As a result the size of the BIS estate has been reduced by 58 per cent. and its overall carbon footprint has been cut by 26 per cent. since the baseline year of 1999-2000. Energy consumption has reduced across the whole estate by 11.2 per cent. since 1999-2000.

The Department has recently undertaken energy audits across its estate. Projects identified to reduce carbon emissions include using lighting controls more effectively (e.g. £11,000 p.a. savings on improved lighting for the 1 Victoria Street underground car park), improved building management controls at our HQ buildings at 1 Victoria Street and Kingsgate House, piloting the use of LED technology in 1 Victoria Street and the installation of

Automated Metering and Targeting across the HQ estate. Although it is too early to evaluate the latter, it has already led to the identification of instances where plant has been running when not necessary.

So far as future plans are concerned, I refer the hon. Member to the August 2008 Sustainable Procurement and Operations on the Government Estate Delivery plan

http://www.ogc.gov.uk/documents/Delivery-Plan.pdf

and the December 2008 Delivery Plan Update

http://www.ogc.gov.uk/documents/Delivery_Plan_Update_Dec08.pdf.

Mr. Paice: To ask the Minister of State, Department for Business, Innovation and Skills what estimate he has made of the energy consumed per full-time equivalent member of staff in his Department and its predecessors in *(a)* 2006-07 and *(b)* 2007-08. [280940]

Mr. McFadden: BIS and its predecessors have consumed the following amounts of energy per full-time equivalent member of staff during the periods requested:

		kWh
	Total energy (electricity and gas)	*Per FTE*
2006-07	20,102,208	4,953
2007-08	19,109,231	4,176

Departmental Internet

Mr. Watson: To ask the Minister of State, Department for Business, Innovation and Skills when his Department plans to update its web browsers from Internet Explorer 6. [285022]

Mr. McFadden: As part of its long term PFI Agreement with Fujitsu, the Department is currently reviewing its options for the technology refresh of software such as Internet Explorer 6.

Departmental Procurement

Bob Spink: To ask the Minister of State, Department for Business, Innovation and Skills what changes have been made to his Department's and its predecessor's *(a)* office equipment and *(b)* stationery purchasing policy in the last six months. [285320]

Mr. McFadden: No changes have been made during the last six months to this Department or its predecessors' purchasing policy for office equipment and stationery.

Departmental Waste

Mr. Paice: To ask the Minister of State, Department for Business, Innovation and Skills what estimate he has made of the amount of waste arising from his Department and its predecessors in *(a)* 2006-07 and *(b)* 2007-08 (i) in total and (ii) per full-time equivalent member of staff. [281017]

Mr. McFadden: BIS and its predecessors have produced the following amounts of waste arisings:

		Kgs
	Total waste arisings	*Per FTE*
2006-07	530,400	130.67
2007-08	640,800	140.03

The figures for 2007-08 are higher due to the rationalisation of BIS predecessors estate and the resultant staff movements between buildings.

Departmental Water

Mr. Paice: To ask the Minister of State, Department for Business, Innovation and Skills what estimate he has made of the water consumption on the office estate of his Department and its predecessors in *(a)* 2005-06 and *(b)* 2006-07, (i) in total and (ii) per full-time equivalent member of staff. [280938]

Mr. McFadden: The BIS estate and its predecessors' water consumption was as follows:

	Total water consumption (m3)	*Per FTE (m3)*
2005-06	55,708	11.81
2006-07	29,302	7.22

BIS's predecessor rationalised its estate during 2006-07, which contributed to substantial reduction in water consumption.

Digital Broadcasting: Wales

Mrs. Gillan: To ask the Minister of State, Department for Business, Innovation and Skills what estimate he has made of the number of *(a)* households and *(b)* businesses in Wales liable to pay the levy on fixed copper lines proposed in the Digital Britain White Paper. [281726]

Mr. McFadden: This Department has made no specific estimate of the number of *(a)* households and *(b)* businesses in Wales liable to pay the proposed levy of 50p per month on each fixed copper line proposed in the Digital Britain report. The independent telecommunications regulator, Ofcom, however estimates that there are 1,380,941 fixed BT lines in Wales.

Under existing rules any individual in receipt of income support, income-based jobseeker's allowance, pensions credit (guaranteed credit) or employment and support allowance (income related) is entitled to social telephony. As set out in the Digital Britain White Paper published on 16 June 2009 the Government do not wish to see a widening digital divide. Therefore the Government expect that individuals entitled to social telephony packages would also be exempt from the broadband levy to fund the deployment of next generation networks.

Education: Standards

Bob Russell: To ask the Minister of State, Department for Business, Innovation and Skills what recent discussions he has had with the Joint Education task force on establishments offering educational careers but not providing education to recognised standards. [285601]

Kevin Brennan: None.

The joint education taskforce (JET) is composed of representatives from across the education sector. It is not a ministerial group. The aim of the JET is to support partnership working across government and with all the key stakeholder groups on immigration issues affecting international students.

Employment Agencies: EU Law

Mrs. Spelman: To ask the Minister of State, Department for Business, Innovation and Skills what recent estimate he has made of the cost to local authorities of implementing the EU Agency Workers Directive; and what his policy is on the application of the new burden doctrine to implementation of that Directive. [282781]

Mr. McFadden: The Impact Assessment accompanying the Consultation Paper published by the Department on 8 May 2009 (www.bis.gov.uk/files/file51197.pdf) set out the estimated costs and benefits of the directive. Figures are not available for the specific cost to local authorities, although costs were included for public sector hirers of agency workers. Under a 12-week qualifying period for equal treatment, as agreed under the TUC/CBI agreement of 20 May 2008, the cost to public sector hirers was estimated to be between £227 and £337 million a year.

Government policy for implementing the directive is to ensure appropriate protection for agency workers while maintaining a flexible labour market, by minimising administrative burdens. Implementation requirements will apply equally to private and public sector users of agency workers and will not therefore impose a disproportionate new burden on local authorities.

Greece

Norman Baker: To ask the Minister of State, Department for Business, Innovation and Skills which individuals *(a)* whose travel and *(b)* accommodation was paid for out of public funds accompanied the Secretary of State on his recent visit to Greece. [284711]

Mr. McFadden *[holding answer 7 July 2009]:* My noble Friend the Secretary of State was accompanied by his Private Secretary, for the initial part of his visit to Greece.

Higher Education

Mr. Sanders: To ask the Minister of State, Department for Business, Innovation and Skills if his Department will assess systems for widening participation in higher education applied in other countries for the purposes of the development of best practice in England. [283914]

Mr. Lammy: The Department has funded research to identify relevant practice on widening participation in higher education in other countries, to help inform practice in this country. This research has yet to be published.

Higher Education: Admissions

Mike Penning: To ask the Minister of State, Department for Business, Innovation and Skills how many people resident in *(a)* Hemel Hempstead constituency and *(b)* Hertfordshire were admitted to university in England in each of the last five years. [284565]

Mr. Lammy: The number of all-aged entrants to higher education institutions in England from Hemel Hempstead constituency and Hertfordshire local authority area are shown in the table. Figures for the 2008-09 academic year will be available from the Higher Education Statistics Agency (HESA) in January 2010.

Higher Education: Palestinians

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills whether his Department plans to provide an exchange programme for Palestinian academics similar to the Britain-Israel Research and Academic Exchange Partnership scheme. [282227]

Mr. Lammy: The Government remain committed in principle to supporting a programme for Palestinian PhD students, as a counterpart to the Britain Israel Research and Academic Exchange partnership scheme. The British Council has meanwhile drawn up proposals to enable a small number of Palestinian students to undertake PhD courses in the United Kingdom. This will be reliant on securing private sector funding, which we are actively seeking.

Insolvency

Mr. Oaten: To ask the Minister of State, Department for Business, Innovation and Skills what recent estimate he has made of the *(a)* direct and *(b)* indirect contribution to the UK economy made by the insolvency sector. [285772]

Ian Lucas: No recent estimate has been made by my Department of the direct and indirect contribution to the UK economy made by the insolvency sector.

Insolvency Service: Finance

Mr. Oaten: To ask the Minister of State, Department for Business, Innovation and Skills on average how much was held in the Insolvency Service's account in each month of the last three years. [286325]

Ian Lucas: The Insolvency Service conducts its day to day business banking through the Office of the Paymaster General. We do not keep average monthly balance information. The following table shows the balance held on the last day of each month for the last three years:

				£000s
Month	*2009*	*2008*	*2007*	*2006*
January	11,961	7,321	18,799	—
February	19,061	10,116	15,566	—
March	4,823	6,854	7,195	—
April	10,903	10,059	10,993	—
May	11,644	5,558	17,029	—

Month	2009	2008	2007	£000s 2006
June	5,838	8,398	10,891	—
July	—	5,251	13,656	15,255
August	—	10,855	8,498	16,420
September	—	6,013	4,934	19,344
October	—	11,793	9,525	13,587
November	—	10,910	11,255	19,456
December	—	10,604	10,103	17,257

These figures do not include moneys held on trust for insolvency estates which are held in the insolvency services account or the insolvency services investment account. The figures also do not include funds for the payment of statutory redundancy payments from the national insurance fund administered by the Insolvency Service.

Insolvency: Logistics

Mrs. Gillan: To ask the Minister of State, Department for Business, Innovation and Skills how many insolvencies in the logistical transport sector were recorded in Wales in each of the last five years. [285563]

Ms Rosie Winterton: Insolvency statistics are not currently available centrally broken down by both industry sector and region, below the published level of "England and Wales" as a whole. Further, the Standard Industrial Classification 2003 (SIC 2003) currently in use does not identify "logistical transport" as a composite industry category.

Learning and Skills Council for England

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills if he will place in the Library a copy of the paper on Managing Demand (LSC 21/2009) presented to the meeting of the Council of the Learning and Skills Council on 22 April 2009. [282850]

Kevin Brennan: The acting chief executive of the Learning and Skills Council has recently undertaken a review of its National Council minutes and has decided that he will make public the full minutes from these meetings, except for any sensitive or confidential information which is exempt under the terms of the Freedom of Information Act. The minutes can be found at:

www.lsc.gov.uk

The LSC does not routinely publish papers for council meetings but we have asked its acting chief executive to review whether it would be appropriate to do so in this case, subject to the determining whether the paper contains any exempt information as defined in Freedom of Information Act, and to write to the hon. Member.

Members: Correspondence

Sir Gerald Kaufman: To ask the Minister of State, Department for Business, Innovation and Skills when the Secretary of State plans to reply to the letter of 6 April 2009 from the right hon. Member for Manchester, Gorton with regard to Mr. D Healey. [283360]

Mr. McFadden: I apologise to my right hon. Friend for the delay in responding. My right hon. Friend will receive a response shortly.

Minimum Wage: Gratuities

Mr. Stewart Jackson: To ask the Minister of State, Department for Business, Innovation and Skills what estimate his Department has made of the number of businesses in *(a)* Peterborough constituency and *(b)* the UK using tips as a means of ensuring their employees receive the national minimum wage; what estimate his Department has made of (i) the number of employees involved and (ii) the monetary value of such tips in the last 12 months; what steps his Department plans to take on the matter; and what assessment has been made of the effects of the practice on expenditure on benefits. [281647]

Mr. McFadden: It is not possible to provide an estimate of the number of businesses in *(a)* Peterborough constituency, and *(b)* in the UK, using tips as a means of ensuring their employees receive the national minimum wage as this data are not collected.

Using the Annual Survey of Hours and Earnings we have estimated that (i) the number of employees who could be receiving tips to make up wages to the national minimum wage is around 60,000 and (ii) the monetary value of such tips to be £82 million per year.

The Department for Work and Pensions is responsible for benefit payments. DWP has not made an assessment of the effects of the practice on expenditure on benefits as to do so could be done only at disproportionate cost.

From 1 October 2009 we will be amending National Minimum Wage regulations so that tips can no longer be used to pay national minimum wage.

National Skills Academies: Finance

Mr. Timpson: To ask the Minister of State, Department for Business, Innovation and Skills when he expects the next funding round for national skills academies to take place. [284440]

Kevin Brennan *[holding answer 6 July 2009]:* An announcement will be made as soon as is practicable.

Network Design and Procurement Group

Mr. Don Foster: To ask the Minister of State, Department for Business, Innovation and Skills when the Government plans to establish the Network Design and Procurement Group proposed in the Digital Britain Report; what estimate he has made of the annual running costs of the group; and from which of his Department's budgets he expects such costs to be met. [282615]

Mr. McFadden: The Government plan to establish the Network Design and Procurement Group with the appointment of a CEO in October this year. We expect the group to be small, containing approximately four to five people. The running costs of the group have yet to be agreed but we expect to be in the region of £500,000 to £1 million per year, and will be funded from the overall budget for the delivery of the Universal Service Commitment and Next Generation proposals.

Postal Services

Mr. Watson: To ask the Minister of State, Department for Business, Innovation and Skills how many Royal Mail post boxes there are in *(a)* England, *(b)* Scotland, *(c)* Wales and *(d)* Northern Ireland. [284458]

Mr. McFadden: This is an operational matter for Royal Mail. I have therefore asked the chief executive, Adam Crozier, to reply direct to my hon. Friend.

Copies of the letter will be placed in the Libraries of the House.

Regional Planning and Development: South West

Julia Goldsworthy: To ask the Minister of State, Department for Business, Innovation and Skills on how many occasions the South West Regional Economic Task Group has met; what timetable that group has set for future meetings; and whether the agendas and minutes of such meetings are published. [284703]

Ms Rosie Winterton: The South West Regional Economic Task Group has met on eight occasions since its establishment in November 2008. The group's next meeting will take place on Monday 20 July. Dates for future meetings are currently being arranged.

Agendas, papers and minutes of all meeting are published on the Regional Economic Task Group website www.swretg.org.uk.

Rural Network Subsidy

Mr. Binley: To ask the Minister of State, Department for Business, Innovation and Skills what criteria are used by the Post Office to allocate funds from the Rural Network Subsidy. [286573]

Mr. McFadden: This is an operational matter for Post Office Ltd (POL). I have therefore asked Alan Cook, Managing Director of POL, to reply direct to the hon. Member.

Copies of the letter will be placed in the Libraries of the House.

Skillfast UK

Mr. McLoughlin: To ask the Minister of State, Department for Business, Innovation and Skills what assessment he has made of the likely effect on small and medium-sized businesses of the closure of Skillfast UK. [280870]

Kevin Brennan: Skillfast UK has been assessed by the UK Commission for Employment and Skills against the standards set out in the Relicensing Framework for Sector Skills Councils. The UK Commission recommendation to Government that Skillfast UK has not met the standard required of an SSC is now the subject of an appeal by Skillfast UK. The UK Commission will provide further advice to Government on the outcome of the Skillfast UK appeal. In the event that an SSC did not have its licence renewed, it would be asked to work with the UK Commission to ensure that the skills needs of the sector in question continue to be met, including the needs of small and medium sized businesses. This would include access for employers to high quality labour market information about skills, and the continued development of national occupational standards that underpin qualifications that meet both employer and individual needs.

Strategic Investment Fund

Adam Afriyie: To ask the Minister of State, Department for Business, Innovation and Skills when funding first became available under the Strategic Investment Fund; which Government bodies will administer the fund; what guidelines apply to the allocation of grants from the fund; how much has been allocated under the fund; and which organisations have received funding. [278320]

Ms Rosie Winterton *[holding answer 12 June 2009]:* In the Budget 2009, the Chancellor of the Exchequer announced the £750 million Strategic Investment Fund to support advanced industrial projects of strategic importance, of which £250 million has been ring fenced specifically for low carbon initiatives, a further £50 million for the Technology Strategy Board and £10 million to promote UK sector expertise through UK Trade and Investment (UKTI).

The Department for Business, Innovation, and Skills (BIS) will administer this fund; however the £250 million low carbon element will be allocated only to those initiatives that have been jointly agreed between BIS and the Department of Energy and Climate Change.

The aim of the fund is to help ensure that the UK remains well positioned to emerge from the economic downturn in a globally competitive position. All proposals will be appraised in line with Green Book principles, particularly to ensure that they provide good value for money in delivering longer term benefits to the UK economy, as well as ensuring there are clear delivery mechanisms and monitoring and evaluation procedures in place.

Work is moving at pace to agree how the money will be allocated. Investments will be prioritised on where there are economic opportunities for UK-based businesses and where government action can make a real and beneficial impact.

There are a number of proposals currently being considered to help deliver the Government's strategy as set out in the 'Building Britain's Future—New Industry New Jobs' document published on 20 April 2009. Within the context of that document the Government will be bringing forward more detailed statements of policy in the weeks and months ahead. A number of these may draw on the Strategic Investment Fund. Naturally, as these are strategic investment opportunities there will be a time lag between agreement of proposals and funds being spent.

Students: Finance

Mr. Boswell: To ask the Minister of State, Department for Business, Innovation and Skills how many full-time students in receipt of student awards will experience a reduction in disposable income from the combined effects of the freeze in the level of awards and the annual uplift in tuition charges in the next academic year; and what his estimate is of the maximum amount of this reduction. [284758]

Mr. Lammy: The uplift in tuition charges in the 2010-11 academic year will have no impact on disposable income for students in receipt of student support. The maximum tuition fee is set to increase by 2.04 per cent. in 2010-11 and the maximum tuition fee loan will increase by the same amount to reflect this rise. Therefore all students will continue to have the full cost of their tuition fees covered in the form of a tuition fee loan.

Students: Loans

David T.C. Davies: To ask the Minister of State, Department for Business, Innovation and Skills how much money collected by HM Revenue and Customs for the Student Loans Company (SLC) has not been allocated by the SLC against individual accounts. [284609]

Mr. Lammy *[holding answer 7 July 2009]:* HMRC has collected £1.623 billion in student loan repayments since income-contingent loans were introduced in 1998. As at 1 June 2009, the Student Loans Company (SLC) held £1.4 million which had not been applied to customers' accounts due to data matching issues. This figure covers the whole UK. SLC actively addresses this through managed processes to reconcile the repayments against the customers' accounts.

SLC does not record the subject of complaints in sufficient detail to provide the data requested in relation to complaints. SLC aims to respond to all letters of complaint within 10 working days of receipt.

Telecommunications

Mr. Hunt: To ask the Minister of State, Department for Business, Innovation and Skills on how many occasions the Government-led strategy group on next generation access networks has met. [279094]

Mr. McFadden *[holding answer 11 June 2009]:* The strategy group has been a working group rather than a formal committee. It has held regular discussions with stakeholders. The conclusions of the group are published in the final Digital Britain Report, published on 16 June 2009 at:

http://www.culture.gov.uk/what_we_do/broadcasting/6216.aspx

Telephones: Fees and Charges

Mr. Don Foster: To ask the Minister of State, Department for Business, Innovation and Skills what estimate he has made of the number of households on social telephony tariffs; and whether such households will be exempt from the proposed levy on fixed copper lines. [282622]

Mr. McFadden: Under existing rules any individual in receipt of income support, income-based jobseeker's allowance, pensions credit (guaranteed credit) or employment and support allowance (income related) is entitled to social telephony. As set out in the Digital Britain White Paper published on 16 June 2009 the Government do not wish to see a widening digital divide. Therefore the Government expect that individuals entitled to social telephony packages would also be exempt from the broadband levy to fund the deployment of next generation networks.

Under current records maintained by the independent telecoms regulator Ofcom, there are currently approximately 850,000 households on social telephony tariffs. The social telephony schemes from BT are available to those on income support, income-based job seeker's allowance, employment support allowance (income-rated) or guaranteed pensions credit.

Train to Gain Programme: Essex

Bob Spink: To ask the Minister of State, Department for Business, Innovation and Skills how many people resident in *(a)* Essex and *(b)* Castle Point constituency have successfully completed a Train to Gain course. [283895]

Kevin Brennan: In 2007/08, there were 280 Train to Gain achievements for learners living in Castle Point, and 4,300 Train to Gain achievements for learners living in Essex.

Bob Spink: To ask the Minister of State, Department for Business, Innovation and Skills how many residents of *(a)* Essex and *(b)* Castle Point constituency who have registered for Train to Gain courses have not yet commenced their training. [283896]

Kevin Brennan: The Learning and Skills Council (LSC) delivers the Train to Gain programme on behalf of the Department. It counts the number of learners who register for Train to Gain at the point where they formally start on programmes. However, there is no formal registration process before a learner starts and therefore no central mechanism is in place to measure the number of people registering an interest.

The LSC is working closely with providers to support ongoing new starts for the remainder of the 2008/09 academic year where providers are within their maximum contract value. Maximum contract values for 2009/10 academic year were finalised in June.

Written Questions: Government Responses

Peter Luff: To ask the Minister of State, Department for Business, Innovation and Skills when he expects to provide a substantive answer to question 278968 tabled on 8 June 2009 by the hon. Member for Mid-Worcestershire, on the role of the Enterprise Champion; what the reasons for the time taken are; and if he will make a statement. [283444]

Ms Rosie Winterton *[holding answer 2 July 2009]:* I refer the hon. Member to the answer I gave on 6 July 2009, *Official Report*, column 596W. The Department endeavours to answer parliamentary questions as quickly as possible and apologises for the delay on this occasion.

Written Answers to Questions

Tuesday 14 July 2009

SCOTLAND

Departmental Buildings

Mr. Crabb: To ask the Secretary of State for Scotland how much in *(a)* rent, *(b)* service charges and *(c)* business rates has been paid in respect of each of the premises occupied by his Department in each year since 2005. [284862]

Ann McKechin: The Scotland Office spend on rent, service charges and business rates since 2005 is as follows:

£

	2005-06	2006-07	2007-08	2008-09
Rent	182,704	224,301	209,767	210,923
Service charges[1]	185,398	207,753	171,090	194,773
Rates	185,051	187,005	203,130	183,379

[1] Gas, electricity, water and cleaning.

LEADER OF THE HOUSE

Divisions

John Mann: To ask the Leader of the House what information she holds on the number of hon. Members taking part in divisions in the House. [286952]

Barbara Keeley: The number of hon. Members taking part in each division in the House, including deferred divisions, is published in both the Votes and Proceedings and the *Official Report*.

East of England Regional Grand Committee

Andrew Mackinlay: To ask the Leader of the House what factors *(a)* she and *(b)* Ministerial colleagues took into account, and what consultations she held, before proposing 8 September 2009 to the House for the first meeting of the East of England Regional Grand Committee; and if she will make a statement. [285863]

Barbara Keeley: The Government proposed that the majority of Regional Grand Committees meet during the summer recess in order to minimise any clash with other business of the House.

The decision to hold the meeting of the East of England Regional Grand Committee on 8 September was approved by the House.

Independent Parliamentary Standards Authority

Tony Baldry: To ask the Leader of the House what the working relationship will be between the Independent Parliamentary Standards Authority and *(a)* the Parliamentary Commissioner for Standards, *(b)* the Committee on Standards in Public Life and *(c)* the Committee of Standards and Privileges. [286632]

Barbara Keeley: The Parliamentary Standards Bill which will create and define the role of the Independent Parliamentary Standards Authority is still being considered by Parliament.

Independent Parliamentary Standards Authority: Finance

Tony Baldry: To ask the Leader of the House what estimate she has made of the size of the annual budget of the Independent Parliamentary Standards Authority. [285966]

Barbara Keeley: The Parliamentary Standards Bill which will create and define the role of the Independent Parliamentary Standards Authority is still being considered by Parliament. The budget for the authority therefore has not been finalised. It will be made public as soon as possible.

Legislation: Parliamentary Scrutiny

Tony Baldry: To ask the Leader of the House what provisions she plans to make for time on the Floor of the House for debate on the Government's draft legislative programme for 2009-10. [285656]

Barbara Keeley: The Government hope to make time available on the Floor of the House for a debate on Building Britain's Future, including the Draft Legislative Programme, before the end of the current Session.

My right hon. and learned Friend has also invited the Liaison Committee to consider the Draft Legislative Programme.

Legislation: Public Consultation

Tony Baldry: To ask the Leader of the House with reference to page 113 of the Building Britain's Future document, what the *(a)* dates and *(b)* locations are of each regional event in which Ministers will be taking part to highlight the publication of the Government's Draft Legislative Programme and the Building Britain's Future White Paper; which Ministers will participate in each such event; and what estimate she has made of the cost of each such event. [285967]

Barbara Keeley: Since the launch of Building Britain's Future by the Prime Minister on 29 June, regional events have already taken place in Oxfordshire (30 June), Brighton (2 July), Plymouth (6 July), Cambridge (9 July) and Portsmouth (10 July). Participating Ministers included the relevant Regional Ministers, the Chancellor of the Exchequer and the Secretaries of State for Justice, Communities and Local Government, and Culture, Media and Sport.

Further events are currently being arranged and they will be detailed on the website at:

www.hmg.gov.uk/buildingbritainsfuture/roadshow.aspx

The costs of these events are being collated as they happen and they are being kept to a minimum. They will be published once all events have taken place.

Legislatures: EU Countries

John Mann: To ask the Leader of the House what information she holds on the sitting dates of the Parliaments of other EU member states. [286716]

Barbara Keeley: The Office of the Leader of the House of Commons does not hold any information on the sitting dates of the Parliaments of other EU member states.

Members: Visits Abroad

John Mann: To ask the Leader of the House how much the House has spent on foreign travel for hon. Members in 2008-09. [286443]

Barbara Keeley: A total of £1.88 million was spent on foreign travel for hon. Members in 2008-09.

HOUSE OF COMMONS COMMISSION

Parliament: Security

Tom Brake: To ask the hon. Member for North Devon, representing the House of Commons Commission how many security officers of each category were working on the Parliamentary estate in each year since 2000. [286437]

Nick Harvey: It is not the policy of the House authorities to answer questions on security matters.

Tony Blair: Allowances

David T.C. Davies: To ask the hon. Member for North Devon, representing the House of Commons Commission whether records of additional costs allowance claims made by the right hon. Tony Blair when he was Prime Minister have been destroyed; and if he will make a statement. [284608]

Nick Harvey: Original claims made by Tony Blair for additional costs allowance in 2003-04 and previous years have been destroyed in line with the House service's records disposal policy. However, copies of Mr. Blair's additional costs allowance claims in 2001-02, 2002-03 and 2003-04, which have been released under the Freedom of Information Act, have been retained in line with our policy of retaining records which have been the subject of FOI requests.

TRANSPORT

Bus Services: Concessions

Mr. Stewart Jackson: To ask the Minister of State, Department for Transport pursuant to the answer to my hon. Friend the Member for Bromley and Chislehurst (Robert Neill) of 16 June 2009, *Official Report*, column 170W, on bus services: concessions, if he will seek the consent of the local authorities listed for their written representations to be placed in the Library. [283969]

Mr. Khan: Department for Transport officials are contacting the relevant authorities seeking consent to place their written representations in the Library of the House.

Crossrail Line

Mr. Tom Harris: To ask the Minister of State, Department for Transport when he expects Crossrail passenger services to commence. [286059]

Mr. Khan: The first Crossrail services are expected to commence in 2017. Services are expected to be introduced on a phased basis with full operation due in 2018.

Crossrail Line: Finance

Mr. Tom Harris: To ask the Minister of State, Department for Transport whether he plans to review the level of his Department's contribution to the cost of constructing Crossrail. [286057]

Mr. Khan: The Department for Transport has no current plans to change the level of contribution to the Crossrail funding package. However, the Crossrail project governance arrangements do make provision for the project sponsors (Department for Transport and Transport for London) to review costs and funding at agreed points in the programme.

Driver Information Systems

Norman Baker: To ask the Minister of State, Department for Transport if he will estimate the number of vehicles on the road in the UK which use satellite navigation devices. [285837]

Paul Clark: This information is not currently available. However, a question on the presence of satellite navigation devices in vehicles was added to the National Travel Survey with effect from January 2008. Results from the 2008 National Travel Survey are planned for release later in the year.

Driving: Licensing

Mark Hunter: To ask the Minister of State, Department for Transport on how many occasions the Driver and Vehicle Licensing Agency has withdrawn driving licences after receiving notification that the licence holder was medically unfit to drive from *(a)* the licence holders and *(b)* a general practitioner in each year since 1997. [286839]

Paul Clark: The information as requested is not available; however, while the separate figures are not available, the combined figures for the total number of driving licences revoked following a medical notification since 2004 are shown in the following table.

	Number
2008	32,011
2007	33,083
2006	26,912
2005	23,388
2004	25,334

Mark Hunter: To ask the Minister of State, Department for Transport what recent assessment he has made of the effectiveness of the procedure for withdrawal of driving licences as a result of persons being medically unfit to drive; and if he will make a statement. [286840]

Paul Clark: The Department for Transport is currently reviewing the system in place in Great Britain for ensuring that only those drivers who are fit to drive are licensed to do so. We are in the process of considering the complex issues raised in this review and intend to consult on how we can improve the service offered to all drivers.

East Coast Railway Line: Franchises

Mr. Hoyle: To ask the Minister of State, Department for Transport pursuant to the statement of 1 July 2009, *Official Report*, columns 424-27, on National Express East Coast franchise, what recent assessment he has made of the viability of other franchises held by National Express. [284817]

Chris Mole: All rail franchises are formally regularly monitored through the monthly and quarterly franchise performance meetings. Both National Express East Anglia and National Express c2c are monitored in this way and are currently meeting their obligations under their franchise agreements.

Stephen Hammond: To ask the Minister of State, Department for Transport with reference to Chart 5 of his Department's publication, Franchise Evaluation Process Charts, May 2008, Selection of Winning Bid, whether the difference between the risk-adjusted net present value of the National Express East Coast bid for the Intercity East Coast Franchise and the risk-adjusted net prevent value of the next best bidder for the same franchise was greater than the materiality threshold, after an assessment of the affordability, compliance and deliverability of the bid had been completed. [285882]

Chris Mole: The Intercity East Coast Franchise was let on 13 August 2007. A January 2007 version of the Franchise Evaluation Process Charts was used in the evaluation process.

The lead bidder's risk adjusted net present value and National Express East Coast risk-adjusted net present value were both within the materiality threshold as stated in the Franchise Evaluation Process Charts. The risk adjusted net present values included risk adjusted elements for specification compliance, deliverability and affordability.

Stephen Hammond: To ask the Minister of State, Department for Transport with reference to chart 4 of his Department's publication, Franchise Evaluation Process Charts, May 2008, categorisation of financial risk, whether his Department ascertained from National Express Group plc whether they were prepared to provide an additional unfettered facility or an on-demand loan to National Express East Coast; and whether the schedule 12 ratio fell below 1.05 per cent. at any time during the franchise. [285883]

Chris Mole: The Intercity East Coast Franchise was let on 13 August 2007. A January 2007 version of the Franchise Evaluation Process Charts was used in the evaluation process.

As part of their submission, National Express Group committed a loan facility of £40 million that was sufficient to maintain the bid in the medium financial risk category and the schedule 12 ratio above 1.05 at any point during the franchise.

Mr. Tom Harris: To ask the Minister of State, Department for Transport (1) whether the new franchise on the East Coast Main Line will be required to provide rail services to Glasgow; [286055]

(2) if he will require the specification for the new East Coast Main Line franchise in preparation by the Department to maintain services at or above the level of service in the franchise awarded to National Express East Coast. [286056]

Chris Mole: Work has now started to develop proposals for the specification of the replacement franchise. This will include looking at service patterns and destinations. The draft specification will be consulted on with stakeholders, including passenger groups, parliamentarians and the Scottish Executive.

Hazardous Waste

Andrew George: To ask the Minister of State, Department for Transport what hazardous waste cargoes have been reported as having been lost overboard in UK waters since 1997 but have not been recovered; what packages containing hazardous goods were reported found in UK waters since 1 January 1997; what the *(a)* date of finding, *(b)* origin of the goods, *(c)* nature of the incident giving rise to the deposit of the package and *(d)* location of the find was in each case; and what reporting requirements apply in respect of such losses overboard (i) in UK waters and (ii) on UK-registered vessels carrying hazardous cargo. [286300]

Paul Clark: Details of hazardous cargoes lost overboard from ships in the UK pollution control zone are given in annual reports produced by the Advisory Committee on Protection of the Sea (ACOPS). ACOPS reports for 2001-07 are available on the Maritime and Coastguard Agency's website—under the Emergency Response menu—at:

http://www.mcga.gov.uk

To provide the specific details as requested would incur disproportionate costs.

Reporting requirements for loss of cargo overboard are contained in the Statutory Instrument 1995 No. 2498—The Merchant Shipping (Reporting Requirements for Ships Carrying Dangerous or Polluting Goods) Regulations 1995. This can be found on the Maritime and Coastguard Agency's website at:

http://www.mcga.gov.uk/c4mca/mcga-mnotice.htm?nexiobjid=466274775289B019

Local Government Finance

Justine Greening: To ask the Minister of State, Department for Transport (1) which *(a)* specific and *(b)* area-based grants are distributed to local authorities by each division of his Department; [285113]

(2) what estimate has been made of the annual cost to *(a)* his Department of distributing each grant made by it to local authorities and *(b)* local authorities of administering each such grant; [285114]

(3) what *(a)* eligibility conditions and *(b)* compliance measures are in place in respect of the expenditure by local authorities of each grant distributed by his Department; and what recent estimate has been made of the annual cost to his Department of monitoring the compliance by local authorities with such measures in respect of each such grant. [285122]

Mr. Khan: The Government believe in giving local authorities greater flexibility to take decisions on local priorities. The introduction of the area-based grant has reduced ring-fencing, giving councils increased flexibility to manage their budgets. Alongside this, the new local performance framework has provided a simplified and more effective structure for priority setting and performance measurement.

The following specific revenue grants are being paid by the Department for Transport direct to local authorities in 2009-10:

Urban and rural bus challenge, and Kick start

Concessionary Travel

Cycling and walking funding

Urban congestion performance fund

Pump-priming for the Transport Innovation Fund

area-based grant is paid by Communities and Local Government on behalf of the Government as a whole. Funding streams from the Department which are being paid through area-based grant in 2009-10 are:

revenue funding for detrunked roads

revenue funding for road safety

rural bus subsidy.

The Department does not routinely estimate the costs of distributing grant each year, although it does consider the cost effectiveness of proposals as part of the policy development process. It also assesses whether there will be any new burdens on local authorities, and ensures that these are fully funded when a policy is implemented.

As area-based grant is not ring-fenced, it comes with no specific conditions or compliance requirements.

Eligibility conditions and compliance measures vary with each specific revenue grant. I am placing in the House of Commons Library a copy of all Grant Determinations for 2009-10 made by the Department. These set out the purpose of the grant and grant conditions.

The Department is also making available substantial capital support to local authorities in 2009-10. Information on grant arrangements for such support is on the Department's website.

Motorcycles: Licensing

Norman Baker: To ask the Minister of State, Department for Transport how many and what percentage of motorcyclists were driving on a provisional licence in each year since 1997. [284807]

Paul Clark: The following statistics reflect the number of drivers held on the Driver and Vehicle Licensing Agency database holding motorcycle entitlement. Percentages are shown for both full and provisional motorcycle licence holders in Great Britain:

	Full/ provisional	*Provisional*	*Percentage provisional*	*Percentage full*
1997	22,832,732	21,368,520	94	6
1998	23,760,048	22,302,028	94	6
1999	24,639,737	23,203,452	94	6
2000	25,403,909	23,996,248	94	6
2001	26,288,998	24,879,335	95	5
2002	27,667,609	26,268,281	95	5
2003	29,169,100	27,806,069	95	5
2004	30,759,591	29,446,216	96	4
2005	32,404,429	31,180,161	96	4
2006	34,589,872	33,362,453	96	4
2007	37,382,194	36,179,419	97	3
2008	40,073,283	39,104,336	98	2
2009	41,246,796	40,771,889	99	1

Motorways: Repairs and Maintenance

Norman Baker: To ask the Minister of State, Department for Transport how many miles of motorway will be subject to road works in each region on England in August 2009; and what estimate he has made of the number of days on which traffic flow is likely to be affected by each such roadwork. [285779]

Chris Mole: The number of miles of motorway that will be subject to road works in each region in England in August 2009 are detailed in the following table:

Region	*Total number of miles of motorway that will be subject to road works in August 2009*	*Approximate estimate of the number of road works schemes taking place on the motorway in August 2009*
East	35.8	11
East Midlands	15	1
North West	303.1	190
South East	22.5	9
South West	34	8
West Midlands	288	52
Yorkshire and North East	209.3	69

The number of days on which traffic flow is likely to be affected varies considerably according to the type of road works being undertaken in each region.

Railways

Ms Barlow: To ask the Minister of State, Department for Transport if he will take steps to require train operating companies to abide by their contractual obligations to increase paper waste recycling and reduce electricity usage; and what recent representations he has received from train operating companies on the matter. [285796]

Chris Mole: The Department for Transport is committed to including environmental objectives such as reducing energy consumption and increasing recycling in all franchises. Once these are agreed, they are monitored by the Department as part of the normal franchise management process. Earlier this month, officials discussed with train operators how to embed a wide range of sustainability issues, such as recycling and energy consumption in future franchises.

Railways: Fares

Mr. Tom Harris: To ask the Minister of State, Department for Transport what proposals his Department is considering in relation to changes to the regime governing regulation of rail fares. [286113]

Chris Mole: My noble Friend, the then Minister of State for Transport announced in February that the increase in the cap for regulated fares (usually the retail prices index + 1 per cent.) will, in general, be applied to individual regulated fares next year as well as to baskets of fares. We also intend to regulate the rail Oyster Pay as You Go fares when these are introduced.

Railways: Finance

Mr. McLoughlin: To ask the Minister of State, Department for Transport how much capital funding the Government has allocated to the rail network in *(a)* West Derbyshire and *(b)* England in each of the last five years. [286407]

Chris Mole: The information is not available in the form requested. A breakdown of annual expenditure by mode and region is available in the Department for Transport's Annual Report. Details of total historic expenditure are available in National Rail Trends which is published by the Office of Rail Regulation. Copies of these documents are available in the Library of the House.

Railways: Floods

Dr. Kumar: To ask the Minister of State, Department for Transport what steps his Department has taken to ensure the continued operation of the rail network in the North East in the event of flooding. [285225]

Chris Mole: Network Rail has contingency plans in place to deal with such incidents. In addition, the review into the 2007 floods conducted by Sir Michael Pitt provided a recommended action for the rail industry to develop plans to provide emergency welfare support to passengers stranded on the rail network. As a result, the Department for Transport has worked with Network Rail to review the current practice in relation to the recommendation.

Railways: Franchises

Mr. Gordon Prentice: To ask the Minister of State, Department for Transport whether train operating companies which hold more than one franchise and default on the conditions for one franchise may retain the remaining franchises. [286832]

Chris Mole: There are cross-default provisions in all franchise agreements. The Secretary of State will consider the individual circumstances of the case in reaching a decision as to whether to apply them. The decision whether to cross-default can only be taken once one of the franchises has been terminated.

Road Traffic Act 1988

Mark Hunter: To ask the Minister of State, Department for Transport on how many occasions inquiries into road accidents under section 180 of the Road Traffic Act 1988 have been held. [286838]

Paul Clark: No inquiries have been held under section 180 of the Road Traffic Act 1988.

Severn Bridge: Tolls

Jessica Morden: To ask the Minister of State, Department for Transport what recent progress has been made on introducing facilities for payment of Severn crossing tolls by credit and debit card. [285959]

Mr. Khan: Detailed discussions are currently taking place with the Severn Crossings Concessionaire to resolve both technical and financial issues. This will then permit payment of tolls by credit and debit cards.

We recognise the importance of implementing card payments for the Severn crossings and are working to introduce this as soon as possible.

Transport: Finance

Mr. Stewart Jackson: To ask the Minister of State, Department for Transport what funding *(a)* his Department and *(b)* its agencies have given to the Campaign for Better Transport in each of the last three years; and for what purpose. [286517]

Mr. Khan: I refer the hon. Member to the answer I gave him on 7 July 2009, *Official Report*, column 639W.

Transport: York

Hugh Bayley: To ask the Minister of State, Department for Transport how much local transport grant his Department has allocated to City of York Unitary Council in each year since its creation; and what criteria are used to determine the amount of grant allocated to each local authority. [285707]

Mr. Khan: The Department for Transport provides integrated transport block and highways maintenance funding to local transport authorities to support capital investment in transport, which may be used for a range of purposes as the authorities see fit. Funding allocated to the City of York is as follows:

£ million

	Integrated Transport	*Highways Maintenance*	*Total pre-LTP Funding[1]*
2008-09	3.737	1.379	—
2007-08	4.141	1.419	—
2006-07	4.478	1.386	—
2005-06	4.9	1.325	—
2004-05	4.84	1.462	—
2003-04	4.7	1.281	—
2002-03	4.4	1.155	—
2001-02	4.9	1.095	—
2000-01	1.55	0.712	—
1999-2000	—	—	1.983
1998-99	—	—	1.127

£ million

	Integrated Transport	Highways Maintenance	Total pre-LTP Funding[1]
1997-98	—	—	2,212

[1] Since 2000 the allocations comprise integrated transport block grant and highways maintenance. Prior to 2000 the allocations are in the form of gross approved spending.

Details on the allocation of funding to local authorities can be found on the Department's website at:

http://www.dft.gov.uk/pgr/regional/ltp/

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agricultural Shows

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs what steps the Government are taking to support *(a)* the Royal agricultural show, *(b)* the Lancashire show and *(c)* other agricultural shows. [283607]

Jim Fitzpatrick: DEFRA does not financially support agricultural shows but instead ensures that there is a departmental presence at a number of agricultural shows over the summer months.

At this year's Royal Show DEFRA has its own bespoke stand as well as a trailer, based in the livestock and agriculture area. The Secretary of State and other Ministers visited the show throughout its duration. The chief veterinary officer, deputy veterinary officer and director general for farming also attended.

The Lancashire show is not taking place in 2009. However DEFRA did attend the 2008 Show.

DEFRA Ministers or officials are attending an additional 13 other agricultural shows—a mix of regional and sector events—during June to September 2009. DEFRA has a bespoke trailer at the majority of these shows.

Agriculture: Regulation

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs what plans there are to reduce the regulatory burden on farmers. [283613]

Jim Fitzpatrick: Our plans for reducing burdens on the farming industry and progress so far is set out in 'Better Regulation, Better Business' our Simplification Plan published in December 2008, which includes measures that contribute to reducing the administrative (red tape) burden on farmers by 25 per cent. by 2010.

Burdens on farmers can be reduced in many ways. These include matching regulatory requirements to business practice, and reducing duplication of effort, for example by co-ordinating inspections so that a single visit covers multiple activities. DEFRA is working in partnership with its agencies, especially RPA, to develop online transactional services of which Whole Farm Approach is the leading example. Fast and easy access to advice and guidance is also available online, via the farming theme on BusinessLink.

We are engaging farmers' representatives in identifying more things that might be done to reduce burdens, and responding to suggestions submitted via the 90-day portal, hosted on the BIS website at:

http://www.betterregulation.gov.uk

which allows anyone to submit their ideas for simplification.

Agriculture: Subsidies

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs how many payments under the single payment scheme in relation to farms in *(a)* Lancashire and *(b)* Chorley constituency were outstanding on the latest date for which figures are available. [285006]

Mike Penning: To ask the Secretary of State for Environment, Food and Rural Affairs how many payments under the single payment scheme in relation to farms in *(a)* Hemel Hempstead, *(b)* Dacorum and *(c)* Hertfordshire were outstanding on the latest date for which figures are available. [285244]

Jim Fitzpatrick: The rural payments agency does not record information on payments to farmers on a regional basis. The information requested could be obtained only at disproportionate cost.

Animal Health Agency: Consultants

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs how much the Animal Health Agency spent on consultants in each of the last five years. [285537]

Jim Fitzpatrick: Animal Health employ a range of consultants such as project managers, systems implementation specialists, systems testers, business/requirements analysts, planning and delivery consultants, benefits realisation managers, change management and trainers (IT specialists).

The following table shows the amount that Animal Health spent on consultants in each of the last four years. Unfortunately, figures cannot be obtained for years prior to Animal Health being formed.

	Total spend on consultancy[1] (£ million)
2005-06	1.852
2006-07	3.333
2007-08	3.708
2008-09	3.555

[1] Data were taken from Animal Health's published annual accounts.

Birds: Imports

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs from which countries outside the EU birds of species *(a)* listed and *(b)* not listed under the Convention on International Trade in Endangered Species have been imported into the UK in each of the last five years; and for what purposes they have been imported. [284512]

Huw Irranca-Davies: The Trade Control and Expert System (TRACES) database, which holds information on imports into the UK, does not distinguish between species listed under the Convention on International Trade in Endangered Species (CITES) and species not so listed, and does not hold information on the purpose of imports.

Table 1 shows the data obtained from the TRACES database for all bird species (for non-EU imports).

Table 2 shows the data on CITES species held by the Wildlife Licensing and Registration Service in Animal Health (for non-EU imports).

Notes:

1. Only the commodity code (birds of prey/parrots/other birds) is recorded on TRACES rather than the full species name.

2. The TRACES system was not in operation prior to 2004.

Table 1: Imports of all birds as recorded on TRACES

	Exporting countries
2004	UAE, Australia, Barbados, Bahrain, Benin, Brazil, Canada, Switzerland, Ivory Coast, China, Czechoslovakia, Egypt, Ghana, Guinea, Guyana, Hong Kong, Heard and McDonald Islands, Indonesia, Japan, Kazakhstan, Mali, Malaysia, Niger, Nigeria, Peru, Russian Federation, Solomon Islands, Singapore, Senegal, Suriname, El Salvador, Thailand, Turkey, Tanzania, Ukraine, Uganda, United States, Uzbekistan, Venezuela, Vietnam, South Africa
2005	UAE, Australia, Barbados, Bahrain, Benin, Brazil, Canada, Democratic Republic of the Congo, Switzerland, Ivory Coast, Cameroon, Cuba, Egypt, Ghana, Guinea, Guyana, Hong Kong, Indonesia, Japan, Kenya, Kuwait, Kazakhstan, Morocco, Mauritius, Namibia, Nigeria, Nicaragua, Peru, Philippines, Pakistan, Russian Federation, Sudan, Singapore, Senegal, Suriname, Chad, Togo, Taiwan, Tanzania, Ukraine, Uganda, United States, Uzbekistan, Vietnam, Zambia
2006	Argentina, Australia, Barbados, Benin, Brazil, Canada, Democratic Republic of the Congo, Switzerland, Cameroon, Cuba, Egypt, Georgia, Ghana, Guyana, Hong Kong, Indonesia, Jordan, Madagascar, Mauritius, Malaysia, Philippines, Pakistan, Russian Federation, Suriname, El Salvador, Turkey, Tanzania, Ukraine, Uganda, United States, Uzbekistan, Vietnam, South Africa, Zambia
2007	UAE, Australia, Barbados, Benin, Brazil, Canada, Democratic Republic of the Congo, Switzerland, Cuba, Egypt, Ghana, Guatemala, Guyana, Indonesia, Macedonia, Malaysia, Philippines, Pakistan, Russian Federation, Saudi Arabia, Solomon Islands, Seychelles, Sudan, Singapore, Suriname, Turkey, Tanzania, Uganda, United States, Uzbekistan, Vietnam, South Africa, Zambia
2008	UAE, Barbados, Bahrain, Benin, Brazil, Canada, Democratic Republic of the Congo, Cameroon, Egypt, Ghana, Gibraltar, Guyana, Indonesia, Israel, India, Japan, Madagascar, Macedonia, Mauritius, Malaysia, Nigeria, Philippines, Russian Federation, Sudan, Senegal, Suriname, Turkey, Taiwan, Tanzania, Ukraine, United states, Uruguay, Uzbekistan, Vietnam, South Africa, Zambia, Zimbabwe

Table 2: Imports of CITES listed birds for the last five years (information supplied by Wildlife Licensing and Registration Service in Animal Health)—recorded countries of export and purpose of import

	Exporting country	*Recorded purposes of imports*
2004	Australia	Personal
	Canada	Personal; trade
	Czech Republic	Trade
	Egypt	Personal

	South Africa	Personal
	Tanzania, United Republic of	Personal
	United Arab Emirates	Breeding in captivity
	United States of America	Breeding in captivity; personal; zoos

CITES species listed on appendix III do not require CITES permits to be issued to enable their import to take place. They do however require import notifications to be made. The country of export is recorded on import notifications, but not the purpose of the import.

The table shows details of exporting countries for which import notifications were issued (for imports into the UK).

	Exporting countries
2004	Mali; South Africa
2005	Chad; Ghana; Guinea; Jersey; Senegal; United States of America
2006	One notification made but 'exporting country' not entered
2007	Japan
2008	Jersey

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs how many birds of each species *(a)* listed and *(b)* not listed under the Convention on International Trade in Endangered Species were recorded as being imported into the (i) EU and (ii) UK on the Trade Control and Expert System database in each year since 2000; and of those recorded as being imported into the UK how many in each category were imported from countries (A) within and (B) not part of the EU in each year. [284514]

Huw Irranca-Davies: The Trade Control and Expert System (TRACES) database does not distinguish between species listed under the Convention on International Trade in Endangered Species (CITES) and species not so listed. It is therefore not possible to make the distinction requested at items *(a)* and *(b)* of the question.

It is not possible to supply the information requested at item (i) since we do not have access to EU-wide statistics: each member state would need to advise on numbers imported separately.

The information we hold on the numbers of birds imported into the UK from within and outside the EU according to the TRACES database for each year since 2000 is shown in the tables.

Notes:

1. Only the commodity code (birds of prey/parrots/other birds) is recorded on TRACES rather than the full species name.

2. The TRACES system was not in operation prior to 2004.

3. 'Other Birds' imported from within the EU will include pheasant/partridge day-old chicks incorrectly entered under the 'Other Birds' code by other member states (this will have therefore increased figures).

Birds recorded on TRACES as having been imported into the UK from within the EU

	TRACES Commodity code	*Number*
2004	Birds of Prey	7
	Parrots	24,458
	Other Birds	24,260
	Total	48,725
2005	Birds of Prey	38
	Parrots	57,885
	Other Birds	2,991,995
	Total	3,049,918
2006	Birds of Prey	27
	Parrots	159,396
	Other Birds	3,168,705
	Total	3,328,128
2007	Birds of Prey	32
	Parrots	243,006
	Other Birds	4,130,388
	Total	4,373,426
2008	Birds of Prey	52
	Parrots	24,593
	Other Birds	6,186,499
	Total	6,211,144

Birds recorded on TRACES as having been imported into the UK from within the EU

	TRACES Commodity code	*Number*
2009 (1 January 2009 to 30 June 2009)	Birds of Prey	9
	Parrots	14,224
	Other Birds	4,850,244
	Total	4,864,477
	Grand total	21,875,818

Birds recorded on TRACES as having been imported into the UK from outside the EU

	TRACES Commodity code	*Number*
2004	Birds of Prey	4
	Parrots	17,539
	Other Birds	31,644
	Total	49,187
2005	Birds of Prey	162
	Parrots	17,838
	Other Birds	53,898
	Total	71,898
2006	Birds of Prey	17
	Parrots	234
	Other Birds	40
	Total	291
2007	Birds of Prey	192
	Parrots	31
	Other Birds	67
	Total	290
2008	Birds of Prey	28
	Parrots	30
	Other Birds	31
	Total	89
2009 (1 January 2009 to 30 June 2009)	Birds of Prey	26
	Parrots	8
	Other Birds	186
	Total	220
	Grand total	121,975

Clean Neighbourhoods and Environment Act 2005

Bob Russell: To ask the Secretary of State for Environment, Food and Rural Affairs what his estimate is of the number of *(a)* dog exclusion orders and *(b)* dogs on leads orders introduced by local authorities under the Clean Neighbourhoods and Environment Act 2005; what proportion of such orders in each category have affected land classified as open access land under the Countryside and Rights of Way Act 2000; and how many such orders in each category affect access to land of which Natural England has been notified. [285605]

Huw Irranca-Davies: We do not hold figures on the number of dog exclusion orders and dogs on leads orders introduced by local authorities under the Clean Neighbourhoods and Environment Act 2005 or the proportion of such orders that have affected land classified as open access land. However, I am aware that Natural England has been consulted by local authorities on five Dog Control Orders where a proposal to make an Order would affect open access land mapped under the Countryside and Right of Way Act 2000.

Compost

Mr. Stewart Jackson: To ask the Secretary of State for Environment, Food and Rural Affairs if he will place in the Library a copy of the report on research by the Environment Agency and Cranfield University on bioaerosol emissions from composting sites; what assessment he has made of the implications for his Department's waste and recycling policies of the findings of that research; and if he will make a statement. [284137]

Dan Norris: I have placed a copy of the report in question in the Library.

The research leading to the report was commissioned by the Environment Agency in order to review and assess aspects of the risk assessment of open-air composting facilities, in particular in relation to bioaerosols. Although the work has helped to improve the Agency's monitoring and evaluation of the risks posed by bioaerosols it did not support a change to the current 250m risk assessment limit for the proximity of residential or commercial properties. As further research emerges it will be carefully reviewed by DEFRA and the Environment Agency.

Departmental Procurement

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what changes have been made to his Department's *(a)* office equipment and *(b)* stationery purchasing policy in the last six months. [285311]

Dan Norris: There have been no changes to the Department's *(a)* office equipment and *(b)* stationery purchasing policy in the last six months. DEFRA's policy remains the acquisition of sustainable goods, based on best value for money.

Domestic Waste: Waste Disposal

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs what guidance the Waste and Resources Action Programme has provided to local authorities on alternate weekly waste collections since its establishment. [285347]

Dan Norris: The Waste and Resources Action Programme published the report 'Alternate Weekly Collections Guidance' in July 2007. This document replaced a previous guidance document published in 2005.

Mr. Stewart Jackson: To ask the Secretary of State for Environment, Food and Rural Affairs if he will direct the Waste and Resources Action Programme to

assess the effect on recycling rates of household waste of the use of wheeled refuse containers. [286528]

Dan Norris: The DEFRA funded Waste and Resources Action Programme has an ongoing programme of research to assess the effectiveness of different collection systems and to provide advice to local authorities. This will include consideration of the different kerbside containers available as part of the overall collection system.

EU Grants and Loans

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs what information his Department holds on the subsidies granted by the European Commission to EU member states in each of the last five years; and what recent discussions he has had with his EU counterparts on the criteria applied to applications for such subsidies. [285572]

Jim Fitzpatrick: The European Commission list direct aids to farmers as presented in Table 1. Producers must comply with a number of criteria in order to qualify, with the most significant being that production is required for receipt of coupled direct aids, but not decoupled aids.

Table 1: EU direct aids for Budget years 2004-08

€million

	2008	2007	2006	2005	2004
Decoupled direct aids					
Single Payment Scheme	28,234	28,119	14,226	0	0
Single Area Payment Scheme	2,974	2,083	1,721	1,449	0
Separate sugar payment	206	167	0	0	0
Separate fruit and vegetables payment	0	0	0	0	0
Other direct aids					
Arable Crops	1,781	1,853	7,951	17,158	17,095
Beef	1,641	1,697	2,637	7,730	7,312
Sheep and Goats	314	330	907	1,837	1,471
Dairy	0	0	1,454	1,370	0
POSEI	410	81	81	185	110
Fruit and Vegetables[1]	104	202	255	483	595
Sugar	25	17	0	0	0
Rice	168	173	261	427	110
Olive groves	99	119	2,312	2,240	2,302
Tobacco	301	336	811	918	924
Silkworms	1	1	0	0	0
Cotton	248	254	0	0	0
Payments for specific types of farming and quality production	435	420	199	0	0
Other (direct aids)	—	761	958	75	0
Additional amounts of aid	563	434	316	0	0
Ancillary direct aids, small producers, agrimonetary aids, etc.)	0	0	0	4	1
Recoveries	0	0	-39	-21	-12
Total	37,505	37,046	34,051	33,856	29,908

[1] Includes starch potatoes and grain legumes.

Source:
Provisional Draft Budget 2010 and previous budgets, EC.

The UK has argued forcefully for further decoupling of aid payments from production in order to reduce market distortions, and the 2008 Health Check made a step in this direction, decoupling approximately a further €3 billion of direct payments. This increases the level of decoupled support from around 89 per cent. of all direct farm payments to around 96 per cent. The payments currently scheduled for decoupling and the relevant dates are presented in Table 2.

Table 2: Direct aids scheduled to be decoupled

Sector	*Current situation*	*When/how to be phased out*
Fruit and vegetables	The EU Processed Fruit and Vegetables Regime was subject to major reform in 2007, with agreement reached on a phased approach to full decoupling:	Tomatoes for processing—1 January 2012
	Tomatoes for processing—member states may allow a maximum four year transitional period provided that the coupled element of the payment does not exceed 50 per cent. of the corresponding component of the national ceiling	
	Other processing aids—member states may allow a maximum five year transitional period until at the latest 31 December 2012, provided that after 31 December 2010, the coupled proportion of the payment does not exceed 75 per cent. of the corresponding component of the national ceiling in 2011 and 2012 respectively.	Other processing aids—1 January 2013

Table 2: Direct aids scheduled to be decoupled

Sector	*Current situation*	*When/how to be phased out*
Sugar	There are no direct aids in the sugar sector, but there is a transitional fund to help the sugar sector restructure. There are also separate sugar payments as part of the Single Payment Scheme.	The transitional aid is due to end in 2010
Tobacco	Progressive reduction in coupled support from 2006 to 2010.	2010
Crops	Member states may retain partial coupled payments in: Arable Crops Payments (up to 25 per cent.) Durum Wheat Quality Supplement (up to 40 per cent.) Hops (up to 25 per cent.)	Full decoupling from 2010 and integration into Single Payment Scheme (SPS)
Olive oil	Aid for olive groves could remain up to 40 per cent. coupled.	Full decoupling in 2010 and integration in SPS
Livestock	Member states may retain coupled payments in: Suckler Cow Premium (up to 100 per cent.) Special beef premium (up to 75 per cent.), Slaughter Premium (up to 40 per cent. for adults and 100 per cent. for calves) Sheep and Goats (up to 50 per cent.).	Slaughter premium for young animals, slaughter premium for adult animals and Special beef premium: Full decoupling from 2012 onwards and integration into SPS. No change in suckler cow and sheep and goatmeat.
Flax and Hemp	Option of 25 per cent. partial coupling as arable crops area payment. Short fibre flax to be phased out in 2008-09. Long fibre flax to be increased to €40/tonne in 2009-10.	Decouple long fibre flax processing aid and integrate into SPS from 2012.
Dried Fodder	Retain processing aid (per tonne, uniform for dehydrated and dried fodder)	Decouple processing aid and integrate into SPS in 2012
Starch potato	Aid for starch producers (60 per cent. of pre-2003 level) paid per tonne of starch delivered. A transformation aid is granted to the manufacturers per tonne of potato starch with guaranteed minimum prices within the quota limit. Finally, production refunds for starch are granted when using starch for the production of certain goods.	Decouple aid to growers and integrate into SPS from 2012 at the latest; decouple processing aid and integrate into SPS in 2012
Energy crop premium	Aid of EUR 45 per hectare for energy crops for the production of biofuels and electric and thermal energy produced from biomass	Abolish in 2010
Durum Wheat	Aid of EUR 40 per hectare, granted subject to the use of certain quantities of certified seeds of varieties recognised as being of high quality for the production of semolina or pasta.	Full decoupling and integration into SPS in 2010.
Protein crops	Aid of EUR 55.57 per hectare of protein crops (peas, field beans, lupins).	Decouple and integrate into SPS in 2012 at the latest.
Specific payment for rice	Aid per hectare, the value set according to the yields in the member states concerned	Decouple and integrate into SPS in 2012 at the latest.
Nuts	Aid per hectare granted to farmers producing nuts, with a possibility of granting additional national aid.	Decouple and integrate into SPS in 2012 at the latest.

It is a condition of all direct payments that claimants both keep their land in 'good agricultural and environmental condition' (GAEC), as defined by member states in accordance with a set EU framework, and comply with 18 statutory management requirements (existing EU regulatory environmental, public, animal and plant health and animal welfare requirements).

The UK "Vision for the Common Agricultural Policy (CAP)" is clear that by 2015 to 2020, CAP Pillar 1 should be phased out completely. Instead, payments to farmers should be targeted at delivering public benefits, including environmental benefits, through a re-shaped Pillar 2.

Eggs: Labelling

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs if he will take

steps to ensure that eggs are labelled clearly to indicate the method by which the chickens which produced the eggs are farmed. [285584]

Jim Fitzpatrick: All eggs sold at retail and to catering (i.e. class A eggs) must already be labelled with the method of production and the eggs must be stamped on their shells with a code which must be explained on the labelling.

This code identifies the method of production, country of origin and the establishment. The code will start with a number to distinguish production method, this should be '0' = Organic, '1' = Free Range, '2' = Barn, '3' = Eggs from Caged Hens. This will be followed by two letters denoting country of origin (e.g. 'UK') followed by a code (numbers sometimes with letters) identifying the registered production site.

Environment Agency: Pay

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs how much was paid in bonuses to *(a)* directors, *(b)* senior managers, *(c)* specialist and delivery managers and *(d)* executive support and administration staff in the Environment Agency in each of the last five years. [285539]

Jim Fitzpatrick: The following table shows performance-related pay paid by the Environment Agency over the last five years.

These payments are awarded to reflect success for performance across a range of objectives which are set and agreed with Government. The Environment Agency's annual report details its overall performance against its objectives and gives details of directors' remuneration, including performance-related pay.

These payments are only made to directors and senior managers. The Environment Agency currently has 155 senior managers and directors.

Total value of performance-related pay over last five years

£

	2003-04	2004-05	2005-06	2006-07	2007-08
Director (9)	92,178	95,883	101,970	113,715	127,396
Senior Manager (av. 133)	655,546	739,625	843,141	870,264	1,222,480
Manager	n/a	n/a	n/a	n/a	n/a
Specialist	n/a	n/a	n/a	n/a	n/a
Executive Support and Administration Staff	n/a	n/a	n/a	n/a	n/a
Total	747,724	835,508	945,112	983,979	1,349,876

The average percentage paid as performance-related pay per eligible employee over the last five years has been 10 per cent. For 2008-09, the Environment Agency has decided to cap performance-related pay in line with civil service practice.

Environment Protection: Prosecutions

Martin Horwood: To ask the Secretary of State for Environment, Food and Rural Affairs how many prosecutions resulted in *(a)* convictions and *(b)* custodial sentences for offences related to (i) water resources, (ii) flood defences, (iii) fisheries, (iv) navigation, (v) process industry regulation, (vi) radioactive substances, (vii) waste and (viii) water quality as recorded in the National Enforcement Database in each year since 1997. [286467]

Huw Irranca-Davies *[holding answer 13 July 2009]:* The table shows the number of convictions (1) and custodial sentences (2) for environmental offences recorded in the National Enforcement Database in each financial year from 1999 to 2008.

The national enforcement database came online in April 1999. Data are therefore not available for 1997, 1998 and the first three months of 1999.

	Fisheries[1]	Flood defence	Navigation	Process industry regulation	Radioactive substances	Waste	Water quality	Water resources
1999 (April-December)								
Convictions	1	4	3	6	3	314	220	10
Custodial sentences	0	0	0	0	0	5	0	0
2000								
Convictions	29	1	6	12	3	409	229	21
Custodial sentences	0	0	0	0	0	5	0	0
2001								
Convictions	22	2	3	8	11	472	223	10
Custodial sentences	0	0	0	0	0	11	0	0
2002								
Convictions	50	1	14	3	1	516	232	11

	Fisheries[1]	Flood defence	Navigation	Process industry regulation	Radioactive substances	Waste	Water quality	Water resources
Custodial sentences	0	0	0	0	0	5	0	0
2003

[1] Figures given for fisheries cover only freshwater/inland fisheries and non-rod and line fishing offences.

Fluoride: Drinking Water

Mr. Crausby: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 17 June 2009, *Official Report*, column 380W, on fluoride: drinking water, what assessment the Drinking Water Inspectorate made of the adequacy of the remedial action taken by Hartlepool Water following the addition of excessive levels of fluoride to the water supply in 2000. [285954]

Huw Irranca-Davies: The failure of a sample taken by Hartlepool Water to meet the prescribed standard for fluoride arose in 2004 when two boreholes containing water having naturally occurring fluoride in excess of the standard were pumped simultaneously. This was not a situation where fluoride was being added to the water. Normally water from these boreholes would have been blended with water from other boreholes with a lower natural fluoride concentration. The Inspectorate was satisfied that the change in pumping arrangements put in place by the company after the incident was effective in preventing a recurrence of excessive levels of fluoride. Since this time, all further tests by Hartlepool Water for fluoride have met the required standard.

Food: Labelling

Ms Keeble: To ask the Secretary of State for Environment, Food and Rural Affairs whether his Department provides *(a)* financial and *(b)* other support to the RSPCA in respect of its Freedom Food Initiative. [284313]

Jim Fitzpatrick: DEFRA has not provided ongoing financial support to RSPCA for its Freedom Foods initiative but did award a grant of £139,000 in February 2002 under the Agriculture Development Scheme to support the development of the scheme.

Food: Prices

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs what the average farm gate price of lamb was in the most recent period for which figures are available; and if he will make a statement. [285067]

Jim Fitzpatrick: In June 2009 the average farm gate price of UK lambs was 383 pence per kilogram deadweight. This was 25 pence per kilogram higher than the average for June 2008. Monthly average prices from January 2008 onwards are shown in the following table. The seasonal nature of lamb prices can been seen in the 2008 figures.

Average UK farm gate lamb price (pence per kilogram deadweight)

	2008	2009
January	226	335
February	265	368
March	288	372
April	329	415
May	337	415
June	358	383
July	296	—
August	280	—
September	290	—
October	276	—

Average UK farm gate lamb price (pence per kilogram deadweight)

	2008	2009

Futuresource Conference

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs if he will place in the Library a copy of the presentation and handouts delivered by representatives of *(a)* the Environment Agency, *(b)* Waste and Resources Action Programme and *(c)* his Department on (i) municipal waste issues and policy, (ii) household waste prevention and (iii) principles of a good collection service at the Futuresource Conference held in London between 9 to 11 June 2009. [284930]

Dan Norris: I am arranging for copies of the presentations and the handout delivered at the Futuresource Conference by representatives of the Waste and Resources Action Programme and DEFRA to be placed in the Library of the House. The Chairman of the Environment Agency delivered his speech from bullet points and as such, there is no copy of his presentation.

Landfill

Mr. Stewart Jackson: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer to my hon. Friend the Member for Meriden (Mrs. Spelman) of 12 February 2009, *Official Report*, column 2152W, on the Landfill Allowance Trading Scheme, if he will introduce a mechanism to determine the amount of waste diverted by home composting in order to allow such composting to count towards the landfill allowance trading scheme. [286520]

Dan Norris: DEFRA is working with the Environment Agency and the DEFRA funded Waste and Resources Action Programme (WRAP) to consider whether a robust mechanism for calculating the amount of waste diverted by home composting can be developed. This work is ongoing.

In response to the operational review of the Landfill Allowance Trading Scheme, DEFRA agreed to review again the position of home composting in relation to the scheme after the first target year in 2010.

Marine and Coastal Access Bill

Mr. Tyrie: To ask the Secretary of State for Environment, Food and Rural Affairs whether he has made an estimate of the likely amount of compensation payable if the provisions of Part 9 of the Marine and Coastal Access Bill relating to the English coastal route were given effect under existing legislation. [284632]

Huw Irranca-Davies: There are no provisions in the Marine and Coastal Access Bill to pay compensation. The Bill requires Natural England and the Secretary of State to aim to strike a fair balance between the interests of landowners and the interests of the general public. The careful and considered identification of the route in consultation with landowners and others will allow Natural England to avoid creating situations where compensation would be required and will mean that any impacts on business and property will be minimised.

The Bill was amended during its passage through the House of Lords to introduce a procedure for an appointed person to review objections to a proposal in a report by Natural England. This will provide additional safeguards for landowners and occupiers.

Natural England will also consult with landowners when deciding any conditions or restrictions on access, for example for land management purposes. Natural England will also be able to revisit decisions about alignment and the need for restrictions in the light of experience of actual impacts or changes to the situation.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to his contribution of 23 June 2009, *Official Report*, column 700, on the Marine and Coastal Access Bill *[Lords]*, what criteria he plans to use in deciding whether to approve changes to terms and conditions for staff of the Marine and Fisheries Agency. [284775]

Huw Irranca-Davies: Staff transferring to the Marine Management Organisation from the Marine and Fisheries Agency will do so under the Cabinet Office Statement of Practice, following the principles contained in the Transfer of Undertakings (Protection of Employment) Regulations 2006. There will be no detriment to them in relation to pay or terms and conditions of employment at the point of transfer. Any future changes to terms and conditions would only happen following proper consultation with the relevant trade unions and would be on the condition that there would not be any detriment to their current terms and conditions.

Marine and Fisheries Agency: Finance

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the monthly *(a)* staffing, *(b)* travel and *(c)* accommodation costs for the operation of the Marine and Fisheries Agency offices in London and Tyneside. [284777]

Huw Irranca-Davies: Broad estimates of the costs of a coastal location as opposed to a London headquarters formed part of the business case for relocation. Cost savings are not the primary driver for locating the Marine and Fisheries Agency at a coastal location. However, operating in Tyneside as opposed to London will offer savings on staff costs, by virtue of paying national rather than London rates for new staff recruited there, and accommodation costs by virtue of lower rental costs outside London. Travel costs are not expected to differ significantly.

Marine Management Organisation

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs which organisations proposed that the Marine Management Organisation should be a non-departmental public body in their responses to his Department's consultation on the creation of that body. [284776]

Huw Irranca-Davies: The Marine Bill consultation in 2006 set out options for the status of the Marine Management Organisation. The 'Summary of Responses' to that consultation, which is available on the departmental website, states that only a few responses made specific comments on the status that would be appropriate for the Marine Management Organisation. However, a large number of responses took the general opportunity to insist that the Marine Management Organisation should be neutral and independent from Government.

Careful consideration was given to the most appropriate status for the MMO, and responses to that consultation were taken into account. Final agreement on non-departmental public body status for the MMO was reached at a cross-departmental meeting in January 2007.

Non-departmental public body status was considered to be the most appropriate given the functions that the Marine Management Organisation is designed to deliver, together with the fact that those services will be delivered by the Marine Management Organisation on behalf of a number of Government Departments.

Pollution: Fines

Martin Horwood: To ask the Secretary of State for Environment, Food and Rural Affairs how much has been levied in fines by the Environment Agency against *(a)* companies, *(b)* local authorities and *(c)* individuals with regard to incidences of each type of pollution (i) in total and (ii) in each region in each year since 1997; and what assessment he has made of the effectiveness of fines so levied in preventing further incidences of pollution by (A) those upon whom such fines have been levied and (B) others; and if he will make a statement. [286534]

Jim Fitzpatrick *[holding answer 13 July 2009]:* This matter falls within the remit of the Environment Agency; the Health and Safety Executive does not levy pollution-related fines.

The relevant Environment Agency national enforcement database reports have been placed in the Library of the House. The national enforcement database came online in April 1999. Data are therefore not available for 1997, 1998 and the first three months of 1999.

The national enforcement database has categories for individuals and companies, but local authorities are classified with "other legal entities". The reports provided here titled "other" therefore include local authorities along with other non-commercial corporate entities.

The Environment Agency will prosecute a serious pollution offence only when prosecution is considered to be in the public interest. The level of fine imposed is a matter for the sentencing court. All aggravating and mitigating factors and the defendant's ability to pay will be taken into account.

Prosecution is only one of a number of interventions that the Environment Agency employs and other enforcement tools will also have some effect. The Environment Agency publishes an annual Spotlight report which provides the relevant enforcement action taken. The 2008 report can be viewed at:

http://publications.environment-agency.gov.uk/pdf/GEHO0708BOFX-E-E.pdf?lang=_e

Rats: Greater London

Robert Neill: To ask the Secretary of State for Environment, Food and Rural Affairs with reference to the answer to my hon. Friend the Member for Romford (Andrew Rosindell) of 4 November 2008, *Official Report*, column 399W, on rats: Greater London, whether the further report on rodent presence in domestic premises has been completed. [286694]

Dan Norris: The latest report on rodent presence in domestic properties as revealed by the English House Condition Survey data for 2002-03 and 2003-04 is available on DEFRA's website. The next report covering the period up to 2006 should be available this year, although at present there is no set date for publication.

Reptiles: Imports

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs how many reptiles of each species *(a)* listed and *(b)* not listed under the Convention on International Trade in Endangered Species were recorded as being imported into the EU on the Trade Control and Expert System database in each year since 2000. [284507]

Huw Irranca-Davies: We do not have access to EU-wide statistics which would enable us to answer this question.

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs how many reptiles of each species *(a)* listed and *(b)* not listed under the Convention on International Trade in Endangered Species were recorded on the Trade Control and Expert System as being imported into the UK from (i) EU member states and (ii) other countries in each year since 2000. [284508]

Huw Irranca-Davies: The information available regarding numbers of reptiles in each species in each category listed has been placed in the Libraries of the House.

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs how many reptiles were seized by HM Revenue and Customs under the Convention on International Trade in Endangered Species in each year since 2000. [284509]

Mr. Woolas: I have been asked to reply.

The following table provides data, from HM Revenue and Customs central records.

Reptiles	*Number of specimens seized*
2005-06	1,333
2006-07	1,311
2007-08	347

These reptiles were seized using customs enforcement powers in relation to live animals listed as endangered species under Council Regulation (EC) No 338/97 on the protection of species of wild fauna and flora.

For the year's 2000 to 2004-05 information on all CITES specimens seized by the former HM Customs and Excise can be found on the DEFRA website at:

http://www.defra.gov.uk/wildlife-countryside/trade-crime/cites/action-uk.htm#enforcement

Further breakdown of the 2000 to 2004-05 figures can be achieved only at a disproportionate cost.

Rural Areas: Employment

John Mann: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions he has had with the Youth Hostel Association on the effectiveness of its steps taken with his Department to increase levels of *(a)* rural employment and *(b)* access to the countryside. [286723]

Huw Irranca-Davies: I have had no such discussions with the Youth Hostel Association but would be willing to consider doing so should they request a meeting.

School Fruit and Vegetable Scheme

Mr. Todd: To ask the Secretary of State for Environment, Food and Rural Affairs whether he plans to bring forward proposals for a free fruit scheme under the provisions of EC Commission Regulation No. 288/2009. [283339]

Gillian Merron: I have been asked to reply.

There are a number of pilots and evaluation projects currently under way that are looking at the school fruit and vegetable scheme and wider on free school meals in England. A decision will be made about whether to bring forward proposals once the results have been received and considered.

Soil

Mr. Don Foster: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions he has had with the Environment Agency on soil value guidelines; and if he will make a statement. [285865]

Huw Irranca-Davies: DEFRA officials have been in regular contact with the Environment Agency (EA) regarding the publication of new soil guideline values. The EA is working closely with partners including the Health Protection Agency and the Food Standards Agency to produce new soil guideline values for a range of the most common contaminants. Values for the first eight contaminants were published earlier this year. The EA has stated that it will publish the remaining values as they are developed.

Rosie Cooper: To ask the Secretary of State for Environment, Food and Rural Affairs when his Department plans to publish the Soil Guideline Value and Toxicological reports for *(a)* naphthalene, *(b)* benzo(a)pyrene and *(c)* carbon fractions (i) aromatic C12-C16 and (ii) aromatic C21-C35. [285879]

Dan Norris: The Environment Agency's (EA) plans to publish Soil Guideline Values (SGV) and Toxicological (TOX) reports for naphthalene and benzo(a)pyrene have been delayed. I am informed that the EA is working on these reports with other Government agencies to resolve some outstanding technical issues, and intends to publish them as soon as possible.

The EA has, at present, no plans to publish SGV or TOX reports for carbon fractions (i) aromatic C12-C16 and (ii) aromatic C21-C35. Its approach for these hydrocarbons was published in 2005 and is available on the EA website at:

www.environment-agency.gov.uk

Sustainable Development

Chris Ruane: To ask the Secretary of State for Environment, Food and Rural Affairs what steps his Department has taken in relation to its sustainable consumption and production priority area for action; and if he will make a statement. [285814]

Dan Norris: DEFRA's work in this priority area aims to make production and consumption patterns associated with the UK economy compatible with sustainable living. Action is being taken to minimise greenhouse gas emissions and inputs of non-renewable resources, energy and water.

DEFRA and its partners are working with businesses, consumers and the public sector to help them understand and reduce their impacts. Overall, this work aims to create better products and services, with lower environmental impacts across their lifecycle, which minimise waste and the use of landfill. DEFRA is working to achieve this in three key ways:

Encouraging best practice through the provision of tools, guidance, and information to help businesses and consumers choose the most sustainable behaviours. For example, we are working with industry to pilot ten roadmaps to improve the sustainability of products that have significant environmental and/or social impacts.

Leading by example by setting policies and ensuring that the Government act in a sustainable way.

Setting standards to ensure that minimum requirements are implemented in the design, production, use and disposal of particular products. This includes raising the sustainability of energy-using products, including through EU minimum standards. The minimum standards agreed so far are expected to save £900 million per year from people's energy bills and help save around 7Mt CO_2 per annum by 2020.

An important aspect of more sustainable consumption and production is the impact of products at their end of life as waste. Following the Waste Strategy for England 2007, DEFRA is working to:

secure better integration of treatment for municipal and non-municipal waste;

secure the investment in infrastructure needed to divert waste from landfill and for the management of hazardous waste; and

meet and exceed the Landfill Directive diversion targets for biodegradable municipal waste in 2010, 2013 and 2020.

Further information about DEFRA's work in this priority area can be found in the Departmental Report which is available on DEFRA's website.

Waste Disposal: Fees and Charges

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs with reference to the answer of 11 November 2008, *Official Report*, column 1006W, on domestic wastes, which local authorities have sought the advice of the Waste and Resources Action Programme on available options for waste incentive schemes in the last 12 months. [285234]

Dan Norris: WRAP has not provided specific advice on operating a waste charging scheme to individual authorities within the last 12 months. They have dealt with a number of general enquiries from local authority officers and members, seeking clarification on the legislation

and draft guidelines for the Waste Incentive Programme, but these did not result in an application being developed for a pilot scheme.

Water Charges

Mr. Watson: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions he has had with *(a)* water companies, *(b)* consumer groups and *(c)* others on simplifying the format of domestic water bills. [284681]

Huw Irranca-Davies: My Department has held no recent discussions with water companies, consumer groups or others on simplifying the format of domestic water rates bills. However, the independent Walker Review of charging for household water and sewerage services is looking at this, among other issues, and published an interim report on 29 June.

WALES

Departmental Buildings

Mr. Crabb: To ask the Secretary of State for Wales how much in *(a)* rent, *(b)* service charges and *(c)* business rates has been paid in respect of each of the premises occupied by his Department in each year since 2005. [284861]

Mr. Hain: My Department occupies two buildings, one in London and the other in Cardiff. My Department has paid the following for each building in:

(a & b) Rent and Service Charges

The London office is owned by the Wales Office and no rent or service charges are payable. The service charges are not recorded separately from the rent and could be obtained only at a disproportionate cost.

	Cardiff Office (£)
2005-06	140,272.92
2006-07	163,079.46
2007-08	178,601.80
2008-09	194,638.24

(c) Business Rates

	London Office (£)	*Cardiff Office (£)*
2005-06	48,168.00	39,784.50
2006-07	48,168.00	40,669.00
2007-08	50,616.00	42,112.00
2008-09	52,668.00	43,431.20

Departmental Data Protection

Jenny Willott: To ask the Secretary of State for Wales what categories of personal information on members of the public will be held on each of his Department's and its agency's databases expected to become operational in the next five years; what estimate he has made of the likely number of individuals' details each such database will hold when fully operational; and if he will make a statement. [286699]

Mr. Hain: The Wales Office has no plans for databases holding personal information on members of the public to become operational within the next five years.

Jenny Willott: To ask the Secretary of State for Wales how many *(a)* attempts and *(b)* successful attempts were made to gain unauthorised access to each (i) database and (ii) ICT system run by his Department in each of the last five years; and if he will make a statement. [286539]

Mr. Hain: As a small Department, the Wales Office does not run its own ICT systems, instead using services provided by the Ministry of Justice. My Department runs two databases, which have not suffered from attempts to gain unauthorised access during the last five years.

Departmental Electronic Equipment

Jenny Willott: To ask the Secretary of State for Wales how many *(a)* photocopiers, *(b)* scanning devices and *(c)* fax machines, excluding multi-function devices, there are in his Department; how many there were in each of the last three years; and if he will make a statement. [286163]

Mr. Hain: The number of photocopiers, scanning devices and fax machines, excluding multi-function devices, currently used in the Wales Office and over the past three years are given in the table:

	Photocopiers	*Scanning devices*	*Fax machines*
Current	6	2	16
2008-09	7	2	16
2007-08	7	2	16
2006-07	7	2	16

Departmental Internet

Mr. Crabb: To ask the Secretary of State for Wales what the maintenance and development costs of his Department's website were in each year since 2005. [285411]

Mr. Hain: My Department has spent the following on maintaining and developing our website:

	£
2005-06	5,875.00
2006-07	6,227.50
2007-08	27,581.96
2008-09	6,054.55

The 2007-08 figure includes the cost of designing and establishing the new Wales Office website in 2007-08 and the provision of a new server.

ENERGY AND CLIMATE CHANGE

Departmental Press: Subscriptions

Grant Shapps: To ask the Secretary of State for Energy and Climate Change to which *(a)* magazines, *(b)* journals and *(c)* newspapers his Department subscribes; and what the cost of such subscriptions has been in each of the last three years. [280766]

Joan Ruddock: Since the Department's formation in October 2008, Ministers and the Communications director have received the following publications:

Ministers

Monday to Friday: 4 x *Financial Times*, 3 x *The Times*, 3 x *Telegraph*, 4 x *Independent*, 4 x *Guardian* 2 x *Mail*, 2 x *Express*, 3 x *The Sun*, 3 x *The Mirror*, 2 x *The Star*, 4 x *Evening Standard* and weekly *Observer*, *Spectator*, 2 x *Economist*, *New Scientist*. The total cost to the Department as of 31 May 2009 was £4,270.05.

Communications

Monday to Saturday: *Financial Times*, *Times*, *Telegraph*, *Independent*, *Guardian*, *Mail*, *Express*, *Sun*, *Mirror*, *Star* and weekly *Sunday Times*, *Sunday Telegraph*, *Independent on Sunday*, *Observer*, *Mail on Sunday*, *Sunday Express*, *News of the World*, *People*, *Sunday Mirror*, *Daily Star Sunday*, *The Economist*, *Spectator*, *PR Week*, *Private Eye*, *New Statesman*. The total cost to the Department as of 31 May 2009 was £2,025.73.

The Department does not keep central records of all the remaining publications that it receives and this information could be provided only at disproportionate cost.

Environment Protection: Education

Nadine Dorries: To ask the Secretary of State for Energy and Climate Change how much funding his Department has allocated towards the development of environmental education initiatives in *(a)* Mid Bedfordshire constituency and *(b)* the East of England since it was established; and if he will make a statement. [278844]

Ms Diana R. Johnson: I have been asked to reply.

The Department does not allocate funding directly to support environmental education initiatives in specific areas. Environmental education is one of the key concepts for the study of geography in the new secondary curriculum and the Action Plan for Geography supports this by providing professional development opportunities for teachers in the regions to help them embed sustainable development and environmental education in their classroom practice. We are also working with stakeholders, including the Government Office East of England and local authorities, to engage and support schools work towards the DCSF's Sustainable Schools strategy which aims for all schools to be sustainable by 2020. The strategy is guided by a commitment to care for the environment both locally and nationally and a national framework has been established to help schools identify areas on which they can focus to develop their sustainability practices.

Fuel Poverty

Charles Hendry: To ask the Secretary of State for Energy and Climate Change how many staff in his Department are working on the review of its strategy for tackling fuel poverty. [285094]

Mr. Kidney: DECC is currently undertaking a review of its fuel poverty policies. Initial findings of this review are expected in the summer of 2009. Until the review has delivered its findings it would be inappropriate to consider whether to revise the Government's Fuel Poverty Strategy.

The Fuel Poverty Review project team currently consists of the following officials by pay band:

	Number
SCS	1
Grade 7	4
HEO	2
EO	1

In addition the project team has recently recruited a short-term secondee.

Warm Front Scheme: Pensioners

Charles Hendry: To ask the Secretary of State for Energy and Climate Change how many applicants for a Warm Front grant aged *(a)* under 60 years old and *(b)* 60 years old and over who were informed that they would need to pay a contribution (i) took up the grant and (ii) did not proceed with their applications in 2008-09. [285080]

Mr. Kidney: The following table shows the requested information:

		Households asked to contribute			
Scheme year 2008-09	Assisted households	Number	Percentage	Paid	Did not proceed
Under 60s	102,317	19,693	19.2	17,379	2,314
Over 60s	133,277	29,571	22.2	26,031	3,540
Total	235,594	49,264	20.9	43,410	5,854

The grant maxima for the period reported on were £2,700 or £4,000 where an oil measure was required. On 23 April 2009 we announced our intention to raise the grant maxima to £3,500 or £6,000 for oil and other low carbon and renewable heating measures.

PRIME MINISTER

Members: Surveillance

Mr. Paul Goodman: To ask the Prime Minister whether the application of the Wilson Doctrine on interception of hon. Members' telephone calls has been amended since September 2007; and if he will make a statement. [286618]

The Prime Minister: No. I refer the hon. Member to the answer given by my right hon. Friend the Minister for Policing, Crime and Counter-Terrorism to my hon. Friend the Member for Islington, South and Finsbury (Emily Thornberry) on 9 July 2009, *Official Report*, columns 1133-4.

OLYMPICS

Olympic Games 2012: Employment

Alistair Burt: To ask the Minister for the Olympics what percentage of the construction workers at the Olympic Park are residents of the London Borough of *(a)* Hackney, *(b)* Newham, *(c)* Tower Hamlets, *(d)* Waltham Forest and *(e)* Greenwich. [285108]

Tessa Jowell: The latest figures published by the Olympic Delivery Authority (ODA) in April 2009 showed that at that time there were 4,101 people working on the

Olympic Park, of which 20 per cent. (826) stated that they are a resident in the five host boroughs. This equates to approximately one in five individuals working on the Olympic site.

The table provides a snap shot of people from each of the host boroughs working on site as at April 2009.

Borough	Contractor workforce number	Representation of contractor workforce (percentage)	BAME (percentage)
Hackney	104	3	32
Newham	308	8	27
Tower Hamlets	101	2	28
Waltham Forest	187	5	25
Greenwich	126	3	34

The ODA publishes its employment and skills statistics on a quarterly basis and will be releasing the next set of quarterly figures later this month, in the publications sections of the London 2012 website.

Olympic Games 2012: Gun Sports

Gordon Banks: To ask the Minister for the Olympics if she will publish all reports relevant to the consideration of the National Shooting Centre, Bisley as a location for target shooting at the London 2012 Olympics. [280694]

Tessa Jowell *[holding answer 18 June 2009]:* A redacted summary version of the KPMG report that informed the Olympic Board's decision was published and placed in the House Library. Because of the continuing commercial sensitivity of information contained within the report, I am unable to publish a full copy at this time.

The London Organising Committee of the Olympic Games and Paralympic Games and the Olympic Delivery Authority have also held several briefing sessions with a number of MPs and Peers and are happy to undertake further meetings to explain the rationale behind the Olympic Board's decision as are the British Olympic Association and British Shooting. British Shooting has accepted that Bisley is not a viable option for the 2012 events and will work with London 2012 on legacy for the sport.

HOME DEPARTMENT

Antisocial Behaviour

Miss McIntosh: To ask the Secretary of State for the Home Department what funding has been provided from the public purse to parish councils to tackle antisocial behaviour in the last 12 months. [285390]

Mr. Alan Campbell: The Home Office does not provide direct funding to parish councils to tackle antisocial behaviour. Funding to tackle antisocial behaviour now forms part of the general Area Based Grant (ABG) paid by the Department of Communities and Local Government to Unitary and upper tier authorities. It is for local partnerships to agree how the grants received should be allocated against locally determined priorities, including tackling antisocial behaviour.

Antisocial Behaviour Orders: Young People

Annette Brooke: To ask the Secretary of State for the Home Department pursuant to the answer of 18 June 2009, *Official Report*, column 454W, on anti-social behaviour orders: young people, who is responsible for monitoring the effects of media reporting on antisocial behaviour orders imposed on children between the ages of 10 and 17 years on levels of compliance with such orders. [285322]

Mr. Alan Campbell: The Home Office has issued guidance on publicising antisocial behaviour orders (ASBOs) which emphasises that a case by case approach should be adopted and that a test should be applied which balances the purpose of publicity against the impact it will have on the individual involved, especially in cases involving young people. It is up to the applicant agency to determine the outcome of this test and determine what publicity is appropriate and proportionate. In addition courts retain the right to impose reporting restrictions where they believe it necessary to do so.

ASBO publicity does not always have to be negative. In cases where ASBOs have worked and perpetrators have turned their lives around, the media may wish to follow up ASBO successes with good news stories.

Crime: Detection Rates

Hugh Bayley: To ask the Secretary of State for the Home Department what the crime detection rate for North Yorkshire police force was in each year since 2002-03. [285708]

Mr. Alan Campbell: The information requested has been given in the following table.

From 1 April 2007 the rules governing recording of non-sanction detections were revised to reduce the scope within which they can be claimed to a very small limited set of circumstances. This has significantly reduced the number of non-sanction detections which has been reflected in the overall detection rates in England and Wales.

Detection rates are a ratio of crime detected in a period to crimes recorded in a period. They are not based on tracking whether individual crimes recorded in a period have eventually been detected.

Detection rates for offences recorded by the police in North Yorkshire

	Detection rate (percentage)
2002-03	26
2003-04	28
2004-05	35
2005-06	35
2006-07	33
2007-08	33

Crime: Yorkshire

Hugh Bayley: To ask the Secretary of State for the Home Department how many crimes were reported in York in each of the last four years. [285711]

Mr. Alan Campbell: The information requested is given in the table.

Offences recorded by the police in York

	Number
2004-05	23,080
2005-06	22,784
2006-07	20,935
2007-08	19,055

Hugh Bayley: To ask the Secretary of State for the Home Department how many *(a)* violent crimes and *(b)* crimes were recorded in (i) North Yorkshire and (ii) City of York in each year since 1996-97. [285712]

Mr. Alan Campbell: The available information is given in the tables.

A number of changes have been made to recorded crime in response to suggestions in the two reviews of crime statistics. One such change is that the term 'violent crime' is no longer used and we now provide figures for violence against the person.

Table 1: Offences recorded by the police in North Yorkshire and York, 1996 and 1997

Area and offence	1996	Number 1997
North Yorkshire		
Violence against the person	2,333	2,425
Total recorded crime	56,919	50,252

Table 1: Offences recorded by the police in North Yorkshire and York, 1996 and 1997

Area and offence	1996	Number 1997
York		
Violence against the person	n/a	n/a
Total recorded crime	n/a	n/a

n/a = Not available.

Table 2: Offences recorded by the police in North Yorkshire and York, 1998-99 to 2001-02[1,2]

Area and offence	1998-99	1999-2000	2000-01	Number 2001-02
North Yorkshire				
Violence against the person	4,827	5,101	4,898	5,624
Total recorded crime	55,309	53,554	51,551	59,125
York				
Violence against the person	n/a	1,650	1,504	1,656
Total recorded crime	n/a	n/a	19,291	22,890

n/a = Not available

[1] The coverage was extended and counting rules revised from 1998-99. Figures from that date are not directly comparable with those for 1997.

[2] The data in this table are prior to the introduction of the National Crime Recording Standard in April 2002. These figures are not directly comparable with those for later years.

Table 3: Offences recorded by the police in North Yorkshire and York, 2002-03 to 2007-08[1]

Area and offence	2002-03	2003-04	2004-05	2005-06	2006-07	Number 2007-08
North Yorkshire						
Violence against the person	8,108	9,610	12,043	11,473	10,087	9,538
Total recorded crime	67,239	71,473	61,615	58,850	54,526	50,265
York						
Violence against the person	2,575	3,459	4,000	3,810	3,285	3,219
Total recorded crime	25,630	29,347	23,080	22,784	20,935	19,055

[1] The data in this table take account of the introduction of the National Crime Recording Standard in April 2002. These figures are not directly comparable with those for earlier years.

Domestic Violence

Margaret Moran: To ask the Secretary of State for the Home Department what estimate he has made of changes in levels of reported domestic violence in each police force area since January 2008; and if he will make a statement. [282200]

Mr. Alan Campbell: There were 674,756 domestic violence incidents reported in 2007-08. Data for 2008-09 are not yet available.

Forensic Science Service: Essex

Bob Spink: To ask the Secretary of State for the Home Department on how many occasions staff of the Forensic Science Service have attended the scene of a violent crime in *(a)* Essex and *(b)* Castle Point in each of the last five years. [285728]

Mr. Alan Campbell: The Forensic Science Service are unable to determine those occasions when they have attended the scene of a violent crime in Castle Point. These are included here within the figures for Southend. The figures for the last five years for Southend and the rest of Essex are shown in the following table.

Actual finish dates

Location	2004	2005	2006	2007	2008	2009
Southend	0	4	3	3	0	0
Rest of Essex	11	15	16	20	15	10

Human Trafficking

Dr. Kumar: To ask the Secretary of State for the Home Department what funding the Government has allocated for measures to tackle human trafficking in *(a)* the UK and *(b)* the North East in each year since 1997. [285354]

Mr. Alan Campbell: Funding for the fight against human trafficking is not provided on a regional basis as the crime is one that affects all parts of the country and our response therefore has to be national and strategic in nature.

We have provided the UK Human Trafficking Centre with £5.7 million over the period 2006 to the end of the current financial year.

Additionally, we fund the Serious Organised Crime Agency to the tune of £400 million per annum. SOCA has organised immigration crime, including human trafficking as its second highest priority.

From 2004 to the start of the current financial year we had given £5.8 million to Eaves Housing for Women to manage the support provisions for adult female victims of trafficking for the purpose of sexual exploitation. This has been further supported by a further £3.7 million over the next two financial years to Eaves Housing to continue these services on a wider geographical basis.

Mr. Steen: To ask the Secretary of State for the Home Department what funds his Department has allocated to the Metropolitan Police's human trafficking team for *(a)* 2009-10 and *(b)* 2010-11; what recent discussions he has had with the Metropolitan Police on (i) funding for and (ii) staff levels in the human trafficking team; and if he will make a statement. [280406]

Mr. Alan Campbell *[holding answer 17 June 2009]:* Following negotiations with the Metropolitan Police, the Home Office agreed on an exceptional basis to provide an additional £435,000 for the current financial year.

Human trafficking is core police business. However, this money was granted in consideration of the fact that the Met, unlike the other forces, could not mainstream this work by the end of the last financial year and on the clear understanding that all anti-human trafficking work within the Met would be met from within their existing budget from 1 April 2010 onwards. The staffing levels are a matter for the Commissioner. The Metropolitan Police has developed a good relationship with the UK Human Trafficking Centre, which is the acknowledged centre of expertise on human trafficking issues and was established to co-ordinate the law enforcement response to this crime.

Identity Cards: Greater Manchester

Chris Grayling: To ask the Secretary of State for the Home Department pursuant to the answer to my hon. Friend the Member for Harwich (Mr. Carswell) of 20 May 2009, *Official Report*, column 1463W, on identity cards: Greater Manchester, what national implementation strategy his Department will follow for the National Identity Service should take-up in the Manchester pilot be low. [279614]

Alan Johnson: We intend that lessons learned from the launch of identity cards to volunteers in Manchester will inform our subsequent delivery strategy.

The identity card roll out included Foreign National Identity Cards, Critical Workers Identity Cards, Voluntary Identity Cards (commensurate with EU Member State Identity Cards) and the establishment of an identity register to supplement and eventually replace existing identity registers. The lessons learned from Manchester will feed into this roll out.

Migrant Workers

Damian Green: To ask the Secretary of State for the Home Department how much funding his Department has allocated in respect of *(a)* translation services and *(b)* advertising in job centres in respect of schemes to encourage migrant workers to return home. [271366]

Mr. Woolas: The Department does not operate any schemes to encourage migrant workers to return home. It follows that the Department has allocated no funding to date in respect of *(a)* translation services and *(b)* advertising in job centres in respect of such schemes.

Police: Disciplinary Proceedings

Chris Huhne: To ask the Secretary of State for the Home Department what disciplinary procedures apply in relation to *(a)* police officers, *(b)* police community support officers and *(c)* civilian police staff who are convicted of a criminal offence. [285792]

Alan Johnson: Discipline for police officers and staff convicted of a criminal offence is a matter for the chief officer of the force concerned. They would be dealt with under separate procedures.

Police officers are subject to disciplinary procedures set out in the Police (Conduct) Regulations 2008 (SI 2008 2864). In cases where the chief officer has determined that the conduct of an officer or police staff member amounts to gross misconduct, then the officer or police staff member may be dismissed from the service. There are alternative outcomes of a written warning or a final written warning.

Police community support officers and civilian police staff are not subject to police regulations, but are subject to procedures based on the terms and conditions of their employment with the force concerned.

Police: Protective Clothing

Mr. Watson: To ask the Secretary of State for the Home Department if he will bring forward legislative proposals to require chief constables to issue stab-proof vests to police community support officers. [285875]

Mr. Hanson: There are no plans to bring forward legislation in this area at the present time.

CULTURE, MEDIA AND SPORT

Cultural Heritage: Wiltshire

Robert Key: To ask the Secretary of State for Culture, Media and Sport how many people visited *(a)* Stonehenge, *(b)* Old Sarum and *(c)* Old Wardour Castle in (i) 2000, (ii) 2005 and (iii) 2008. [286035]

Barbara Follett: Stonehenge, Old Sarum Castle and Wardour Castle are properties managed by English Heritage. The information set out in the following table has been provided by English Heritage. The table shows English Heritage's figures for the number of visitors to Stonehenge, Old Sarum Castle and Wardour Castle in financial years 2000-01, 2005-06 and 2008-09. The information is not recorded by calendar year.

	Stonehenge	Old Sarum Castle	Old Wardour Castle
2000-01	799,742	75,921	19,863
2005-06	834,318	48,637	26,470
2008-09	890,438	50,839	25,100

Robert Key: To ask the Secretary of State for Culture, Media and Sport what the annual *(a)* running costs and *(b)* income from entrance charges, shop sales and other revenue at (i) Stonehenge, (ii) Old Sarum and (iii) Old Wardour Castle were in each of the last three years. [286036]

Barbara Follett: Stonehenge, Old Sarum Castle and Wardour Castle are properties managed by English Heritage. The information set out in the following table has been provided by English Heritage. The table shows the running costs incurred and income received by English Heritage for the management of Stonehenge, Old Sarum Castle and Wardour Castle in each of the last three years.

£

	2006-07	2007-08	2008-09
Stonehenge			
Running costs	2,177,206	2,043,083	2,162,420
Total income	5,392,727	5,680,332	5,901,546
Admissions income	3,174,409	3,373,807	3,550,203
Retail and catering income	1,889,494	1,942,072	2,002,089
Other earned income	328,824	364,453	349,254
Old Sarum Castle			
Running costs	161,868	161,769	137,943
Total income	243,828	223,807	198,282
Admissions income	105,304	97,081	85,667
Retail and catering income	94,209	90,278	80,324
Other earned income	44,315	36,448	32,291
Wardour Castle			
Running costs	73,864	74,192	67,975
Total income	113,198	115,338	97,478
Admissions income	36,731	38,585	36,458
Retail and catering income	37,936	33,770	28,486
Other earned income	38,531	42,983	32,534

Departmental Databases

Jenny Willott: To ask the Secretary of State for Culture, Media and Sport which databases managed by his Department and its agencies hold personal information on members of the public; on what date each such database become operational; and if he will make a statement. [284908]

Mr. Sutcliffe: My Department outsources management of all databases. The databases it uses which contain personal information are:

Database	Operational
Finance	February 2006
Consultation—Audiovisual Media Services	October 2008
Consultation—BBC Charter Review	January 2004
Consultation—BBC White Paper	May 2006
Consultation—BBC Green Paper	June 2005
Consultation—Free to Air	April 2009
Consultation—Gambling Bill	March 2004
Consultation—Heritage Protection	April 2007
Consultation—McMaster Review	November 2007
Consultation—Museum of London Act (1965)	October 2003
Consultation—Ticket Touting	February 2009
Consultation—Television Without Frontiers	November 2006
Dome documents	November 2001
Freedom of Information Act Case Management	October 2004
Honours	2001
Information Centre Enquiry	March 2001
Lottery Grants	December 1996
Memorial—July 7th	July 2005
Memorial—Tsunami	March 2005
Records Centre	July 2003
Sponsored Bodies	July 1997

Databases managed by the Royal Parks Agency are:

Database	Operational
Estates Licencing	2000
Fund Raising	2001
Sports Booking	2005
Considerate Cycling Scheme	2007
What's On (visitor information)	2005

Jenny Willott: To ask the Secretary of State for Culture, Media and Sport what categories of personal information on members of the public will be held on each database expected to become operational in the next five years and which will be managed by his Department or its agency; what estimate he has made of the likely number of individuals' details each such database will hold when fully operational; and if he will make a statement. [286139]

Mr. Sutcliffe: My Department has no specific plans for databases in the future. However, they are used to capture views in consultations.

Jenny Willott: To ask the Secretary of State for Culture, Media and Sport what databases which will be managed by his Department and which will contain personal information are *(a)* under construction and *(b)* expected to go live in each of the next five years; and if he will make a statement. [286502]

Mr. Sutcliffe: My Department has no databases under construction. It has no specific plans for databases in the future. However, they are used to capture views in consultations.

Digital Broadcasting

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport what meetings Ministers and officials of his Department have had with representatives of BT to discuss the Government's Digital Britain report in the last six months. [285040]

Mr. Bradshaw *[holding answer 8 July 2009]:* Lord Carter, joint Minister for the Department for Culture, Media and Sport and Department for Business, Innovation and Skills has met representatives of BT four times to discuss the Digital Britain White Paper in the last six months. Officials of the Department for Culture, Media and Sport have met with representatives of BT once in this time.

Hampton Court

Mr. Liddell-Grainger: To ask the Secretary of State for Culture, Media and Sport how many grace and favour residences there are at *(a)* Hampton Court and *(b)* Kensington Palace; and how much income has been received from the residences in the last five years. [284401]

Barbara Follett: There are currently three grace and favour residences at Hampton Court and one at Hampton Court Mews occupied rent-free and there are no grace and favour residents at Kensington Palace. Grace and favour residences are by definition occupied rent-free and therefore no income has been received in the last five years.

Religious Buildings: Conservation

Robert Key: To ask the Secretary of State for Culture, Media and Sport how much funding his Department allocated for the conservation of *(a)* cathedrals, *(b)* parish churches and *(c)* other places of worship in England in (i) 1997, (ii) 2001 and (iii) 2009. [286037]

Barbara Follett: In the years requested, the funding made available by the Department for Culture, Media and Sport was as set out in the following tables.

DCMS funding for churches conservation trust

	£
1997-98	2,480,000
2001-02	3,000,000
2008-09	3,161,000

DCMS funding for listed places of worship scheme[1]

	£
1997-98	[2]—
2001-02	931,452
2008-09	13,411,061

[1] It is not possible to segregate the grants disbursed between cathedrals, parish churches and other places of worship.
[2] Scheme not in place.

In addition, English Heritage made funding available for the conservation of cathedrals and other places of worship in England as set out in the following table. English Heritage does not distinguish between parish churches and places of worship in terms of funding.

£

	English Heritage funding offered to cathedrals	*English Heritage funding offered to places of worship*
1997-98	3,020,500	9,195,000
2001-02	2,519,000	2,524,200
2008-09	1,292,000	9,569,800

Sports

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how many people of each *(a)* sex and *(b)* ethnic group participated in each sporting activity for which his Department records figures in each of the last three years for which figures are available. [272980]

Mr. Sutcliffe: Sport England has provided figures for sports currently in receipt of funding, where sample sizes are sufficient. These are drawn from Active People Survey 1 (APS1), for the period 2005-06; and from Active People 2 (APS2), for the period 2007-08. Results are as follows:

APS1

Sport	*Male*	*Female*	*White*	*non-white*
Athletics	836,900	516,500	1,245,000	108,800
Badminton	290,300	226,300	455,500	61,200
Basketball	125,100	33,100	108,900	49,400
Bowls	203,100	136,300	335,000	4,500

Volleyball	31,100	17,300	33,900	11,300
Weightlifting	108,900	9,400	93,300	18,600

[1] Denotes insufficient sample size.

Active People has now been commissioned on a rolling basis and further data will be available in due course. Further analysis of ethnicity and other demographics can be found on Sport England's Active People Diagnostic website at:

http://www.sportengland.org/index/get_resources/research/active_people/active_people_diagnostic_intro.htm

Sport England has not provided data on each individual sport by each detailed ethnic group (below the 'white' and 'non-white' groups), as for some of the smaller participant sports, there is insufficient sample to analyse the individual sport on a detailed demographic sub-group basis.

Tourism

Lembit Öpik: To ask the Secretary of State for Culture, Media and Sport what estimate his Department has made of the number of tourist information centres which have closed in the last two years; and what recent steps his Department has taken to support the tourism sector. [285916]

Barbara Follett: DCMS is aware of the following closures in 2008-09:

Regions	*2008*	*2009*
East Midlands	—	Lincoln
London	Hounslow	Croydon
	Hillingdon	—
	Southwark	—
North East	Addiston	Newcastle Airport
North West	Saddleworth	—
South East	Havant	—
	Herne Bay	—
	Whitstable	—
South West	Wadebridge	Stow on the Wold

Responsibility for tourist information centres falls to local authorities, for whom tourism support is a discretionary activity.

VisitEngland has worked with national, regional and local level tourism stakeholders to develop a national partnership model to increase the promotion of tourist information centres, to ensure that these are quality assured, and to improve their customer focus. A national implementation group will oversee the introduction of this new partnership.

The Government remain committed to supporting the tourism industry. At the national tourism summit in January, the Prime Minister called for a strengthened partnership between industry and Government through the recession and toward recovery. A t[redacted]visory group, composed of key industry repre[redacted]tives, is providing intelligence and guidance in this regard and an inter-ministerial group has been established to address fiscal and regulatory concerns as well as incentives and opportunities. VisitBritain and VisitEngland are also running a major, £6.5 million overseas and domestic marketing campaign, themed around destinations as "Value for Money".

INTERNATIONAL DEVELOPMENT

Departmental Internet

Mr. Watson: To ask the Secretary of State for International Development when his Department plans to update its web browsers from Internet Explorer 6. [285012]

Mr. Michael Foster: The Department for International Development (DFID) currently runs Internet Explorer 7 as part of our standard PC build. We are evaluating Internet Explorer 8 for potential future release when we have assessed compatibility with existing applications.

JUSTICE

Court Orders

Mrs. Laing: To ask the Secretary of State for Justice how many court production orders for data from communications service providers were *(a)* applied for and *(b)* obtained in each year since 2000; and how many such orders were (i) sought and (ii) obtained by Government departments and agencies in each such year. [285415]

Bridget Prentice: The information about court production orders which is being sought is not held centrally.

Courts

Mr. Gordon Prentice: To ask the Secretary of State for Justice what guidance is issued to the courts on discretion to refer to presenting authorities for investigation instances of prima facie evidence of criminal activity contained in papers lodged with a court in the course of a civil action. [286721]

Bridget Prentice: The Judicial Studies Board issue guidance to the judiciary in section 1.7 of the Civil Bench Book on what to do when criminal conduct is discovered in civil proceedings. This can be viewed at the Judicial Studies Board website at:

www.jsboard.co.uk

Courts: Fines

Mr. Grieve: To ask the Secretary of State for Justice how many courts accept fine payments by *(a)* credit and *(b)* debit card. [285268]

Mr. Straw: By the end of July all magistrate courts and their associated payment offices will be able to accept both debit and credit card payments. In addition there is a national internet site and telephone pay line through which card payments can be taken.

Departmental Contracts

Bob Spink: To ask the Secretary of State for Justice if he will make an assessment of the standard of service provided to his Department and its agencies by contractors appointed by reverse auction. [285221]

Claire Ward: Since the beginning to 2008 the Ministry of Justice (MOJ) have undertaken three reverse auctions as detailed in the following table.

Supplier	*Auction title*	*Completed*
Hamilton and Pollock	Polythene bags and sacks—Lot 1	February 2008
Hamilton and Pollock	Polythene bags and sacks—Lot 2	February 2008
3663	Supply of frozen food stuffs	June 2009

All of the products provided by the two suppliers listed above are associated with food/catering services that are supplied for National Offender Management Service (NOMS). The polythene bags and sacks are supplied as light catering equipment for holding food stuff only.

The performance of both suppliers has been satisfactory with no disputes or reason to issue performance warnings during the post contact phase albeit the supply of frozen food is currently in implementation phase having only been awarded in the past four weeks.

Departmental Finance

Mr. Grieve: To ask the Secretary of State for Justice what the capital budget for his Department and each of its agencies is in the next four years. [285271]

Mr. Straw: The Ministry of Justice (MOJ) has a capital DEL budget of £768 million this year, as published in the 2009-10 Main Supply Estimates. This reflects MOJ'S CSR settlement with HM Treasury. Capital DEL budgets for individual MOJ agencies are contained in the following table:

Executive agency	*To nearest £ million Published net capital DEL budget for 2009-10*
National Offender Management Service (NOMS)	375
Her Majesty's Courts Service	164
Office of Public Guardian	2
Tribunals Service	4
MOJ other (includes NDPBs)	59
Departmental Unallocated capital Provision (DUP)	[1]164
Total	768

[1] MOJ currently has an official DUP for capital DEL which it intends to draw down formally in the supplementary round and forms part of NOMS expenditure plan.

As published in the 2007 Pre-Budget Report and Comprehensive Spending Review, the provisional capital DEL budget for 2010-11 is £733 million. This funding is yet to be allocated out across the Department and its agencies.

No capital budgets have been set beyond 2010-11 as this is dependent on the outcome of the next Spending Review.

Departmental Procurement

Bob Spink: To ask the Secretary of State for Justice what changes have been made to his Department's *(a)* office equipment and *(b)* stationery purchasing policy in the last six months. [285316]

Claire Ward: The Ministry of Justice (MOJ) have not altered any purchasing policies for the supply of office equipment (includes printers, photocopiers, facsimile, etc.) in the last six months.

With regard to the provision of stationery suppliers, the MOJ has recently conducted a mini-competition between Government framework suppliers to supply the total stationery requirement for the whole of MOJ. The mini-competition brought together the supply requirements for HM Prison Service, HM Courts Service and Tribunals Service which was identified as an ideal opportunity to rationalise the stationery product base and increase volume leverage for the benefit of the Ministry and the taxpayer.

Fraud: Essex

Bob Spink: To ask the Secretary of State for Justice how many convictions for offences related to fraud in connection with property leases there were in *(a)* Essex and *(b)* Castle Point in each of the last five years. [285473]

Claire Ward: There is no specific offence of 'lease-related fraud'. If detected, a person committing such an activity is likely to be charged with a general fraud offence—for example, dishonestly making a false representation for gain under section 2 of the Fraud Act 2006 or, prior to commencement of the Fraud Act in January 2007, obtaining property by deception under section 15 of the Theft Act 1968.

The number of defendants found guilty of offences under section 2 of the Fraud Act 2006 and section 15 of the Theft Act 1968 in Essex police force area, for the years 2003 to 2007, is shown in the table. Information held by the Ministry of Justice Court Proceedings Database for the number of convictions for fraud offences cannot be broken down to constituency level. Nor is it possible to identify how many of those convicted of fraud were guilty of offences specifically relating to property leases.

These data are provided on a principal offence basis. This means that where a defendant has been found guilty of two or more offences, the offence selected is the one for which the heaviest penalty was imposed. Where the same sentence is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

Court proceedings data for 2008 will be available in the autumn of 2009.

Number of defendants found guilty at all courts for offences of obtaining property by deception[1] or fraud by false representation[2], in Essex police force area, 2003-07[3,4]

	Found guilty
2003	156
2004	147
2005	127
2006	134
2007	156

[1] Includes the following statutes:
Theft Act 1968 Sec 15.
Fraud Act 2006 (repealed eight sections including S15 of the Theft Act 1968 and was implemented in January 2007).
[2] Fraud Act 2006 S.1(2a)(3)(4), and 2.
[3] These data are on the principal offence basis.
[4] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts, and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

OCJR—E&A: Office for Criminal Justice Reform—Evidence and Analysis Unit

Further Offence Inquiries

Mr. Grieve: To ask the Secretary of State for Justice how many serious further offence inquiries were conducted in each year since 2001; and how many of those involved a person previously convicted of homicide. [285275]

Mr. Straw: The number of serious further offence reviews which were conducted in each year since 2001, together with the number of those involving a person under supervision for an index offence of homicide, is included in the following table. The table is based on cases that were recorded in the published annual Prison and Probation statistics and the Offender Management Caseload Statistics respectively.

The changes in serious further offence review numbers since 2001 are largely attributable to overall changes in the size and nature of the workload of the Probation Service over this period (from 145,000 in 2004 to 179,000 in 2008), action to address known under-reporting of serious further offences and the revisions to the serious further offence review procedures which took place in 2006. These revisions increased the number of cases requiring review by extending the number of stipulated offences that qualified for review. Prior to 2006, the review procedures stipulated nine named offences which qualified for review; thereafter, there were 74.

The data cover index offences of homicide only since 2006-07, as these are the data that NOMS holds on its electronic database, and obtaining further details would involve manual trawling of individual reviews which would incur delay and large cost.

Of the 16 offenders in the table with an index offence for a homicide offence, two were subsequently charged with and convicted of a homicide offence. 2 offenders died shortly after the serious further offence and prior to any charge being brought.

	Serious further offence reviews	Offenders with index offence-homicide
2001	341	—
2002	394	—
2003	294	—
2004-05	537	—
2005-06	581	—
2006-07	1,043	[1]7
2007-08	1,252	[2]9

[1] Four murders one manslaughter two deaths by dangerous driving
[2] Five murders three manslaughters one death by dangerous driving
Note:
Up until 2003, serious further offence statistics were compiled on a calendar year basis, and thereafter on a business year basis.

Legal Aid Scheme: Finance

Mr. Grieve: To ask the Secretary of State for Justice what expenditure his Department incurred on *(a)* the legal aid 60 years exhibition and *(b)* other commemorative events associated with the 60th anniversary of legal aid. [285260]

Mr. Straw: The aim of the 60th anniversary of legal aid exhibition and related media work is to improve people's awareness and knowledge of legal aid services. The Ministry of Justice supported the launch of the 60th anniversary of legal aid exhibition at a cost of just under £900. The LSC has spent just under £40,000 on producing the material for the exhibition (in English and Welsh) and paying for the host venues across the country throughout 2009, including costs for transportation and hosting media events. To date (8 July 2009) the LSC has spent just under £4,000 on supporting other commemorative events associated with the 60th anniversary of legal aid.

Legal Aid: Finance

Mr. Grieve: To ask the Secretary of State for Justice what expenditure his Department incurred in legal aid payments in respect of family proceedings in each year since 1997. [285267]

Mr. Straw: Gross payments in family proceedings are shown in the following table. Finalised figures for 2008-09 are not yet available.

	Bills paid (£ million)
1996-97	392
1997-98	389
1998-99	423
1999-2000	420
2000-01	443
2001-02	399
2002-03	450
2003-04	493
2004-05	488
2005-06	536
2006-07	548
2007-08	582

Legal Aid: North West

Andrew Stunell: To ask the Secretary of State for Justice (1) how many solicitors' offices provided legal aid to clients in each local authority area in the North West in relation to *(a)* civil and *(b)* criminal cases in each of the last three years; [285371]

(2) what estimate he has made of the number of firms of solicitors in the North West which have ceased providing legal services to clients who require legal aid for *(a)* civil and *(b)* criminal cases in each of the last three years. [285372]

Bridget Prentice: The information is being collated by the Legal Services Commission. I will write to the hon. Member when the information is available.

Legal Services Commission: Research

Mr. Grieve: To ask the Secretary of State for Justice if he will place in the Library a copy of the results of the research commissioned by the Legal Services Commission on legal visits to prisons. [285270]

Mr. Straw: The Legal Services Commission (LSC) has not commissioned formal research into legal visits to prisons.

Nevertheless, the LSC does undertake online surveys from time to time to obtain information and views from legal aid providers on specific topics. In late 2008, it conducted an online survey inviting solicitors' firms to provide views on the application of good practice guidance on prison legal visits issued in 2007 by the Ministry of Justice and the LSC. The survey covered areas such as legal practitioners' experience of booking prison visits and use of video links for consultations with clients. This exercise has informed work by the LSC at a local level, including a project which aims to increase use of video links by criminal justice partners within the Northumbria area. The LSC has not published the survey results but intends to place a summary on its website by the end of July. A copy will be placed in the House Libraries.

In February 2009, the LSC published a consultation on reform of prison law work, including proposals to increase control on costs. The LSC will publish a consultation response shortly.

Non-molestation Orders

Chris Huhne: To ask the Secretary of State for Justice how many applications for a non-molestation order have been made in each court area in each year since their introduction; and how many such orders have been granted. [286608]

Bridget Prentice: The following tables show the number of non-molestation orders applied for, and the number of non-molestation orders granted, in each court area in each year since 2003. The data are taken from the HMCS FamilyMan database and the applications figures do not include applications for arrest warrants.

Non-molestation orders applied for in England and Wales, by court area, 2003-08

Area	*2003*	*2004*	*2005*	*2006*	*2007*	*2008*

Area level figures are not available before 2003. However, the following table gives, for each year from 1998 to 2002, the most recently published national figures.

Non molestation orders applied for, and made, in England and Wales between 1998 and 2002

	Applications made	Orders made
1998	18,153	19,365
1999	16,908	18,485
2000	15,734	18,293
2001	17,590	20,968
2002	19,131	24,999

Prisoners

Mr. Grieve: To ask the Secretary of State for Justice how many hours of purposeful activity were recorded on average by prisoners in each month in the last five years. [285261]

Mr. Straw: The average number of hours of purposeful activity by prisoners in each month in the last five years is set out in the following table.

Average hours of purposeful activity per prisoner per month

	Number
April 2004	23.2
May 2004	23.7
June 2004	24.9
July 2004	24.8

Probation: Hemel Hempstead

Mike Penning: To ask the Secretary of State for Justice what the average ratio of offenders to Probation Service staff in the Hemel Hempstead probation area was in each of the last five years. [284321]

Maria Eagle: The ratio of offenders supervised by Hertfordshire probation area to Hertfordshire probation staff (unfortunately the caseload is not broken down to constituency level) as at 31 December each year is as shown in the following table. The ratio for offender management staff has also been provided as this represents a full picture of the workload (it should also be noted that this includes trainee probation officers, who would have a low protected caseload).

	Total staff : offenders	Offender managers : offenders
2004	1:10	1:23
2005	1:12	1:30
2006	1:12	1:35
2007	1:13	1:36
2008	1:13	1:41

Probation Officers

Mr. Mullin: To ask the Secretary of State for Justice how many trainee probation officers are expected to qualify in *(a)* Northumbria and *(b)* England and Wales in September 2009; how many in each category he estimates will be offered full-time employment as trained probation officers; and if he will make a statement. [285567]

Maria Eagle: In October 2009 24 trainee probation officers (TPOs) are due to qualify in Northumbria and a total of 518 are due to qualify in England and Wales. A recent survey of the 42 probation areas, who are the employers, has shown that it is too soon to accurately estimate how many TPOs will be offered permanent posts upon graduation.

Roads: Accidents

Dr. Kumar: To ask the Secretary of State for Justice how many criminal convictions have resulted from hit and run incidents in *(a)* the North East, *(b)* Tees Valley and *(c)* Middlesbrough South and East Cleveland constituency in each year since 1997. [285334]

Claire Ward: The available information on the findings of guilt at all courts for the offence of 'failing to stop after an accident' in Cleveland Police Force Area, and the North East Region for the years 1997 to 2007 is shown in the table.

Data for 2008 will be available in the autumn of 2009.

Findings of guilt at all courts for the offence of 'failing to stop after an accident'[1,2,3] in Cleveland police force area, and the North East region[4], 1997 to 2007[5]

Number of offences

	Total findings of guilt	
	Cleveland	*North East region[4]*
1997	105	438
1998	96	435
1999	89	452
2000	75	428
2001	71	467
2002	77	515
2003	132	617
2004	76	486
2005	79	473
2006	81	495
2007	91	518

[1] Not all hit and run incidents are pursued through the courts—minor ones in particular may not involve police attendance and may not be reported to the police by the injured party.

[2] "Hit and run" usually refers to a collision in which someone was injured or killed. The offence of failure to stop is also committed if there has only been damage but such incidents cannot be distinguished from those involving injury or death.

[3] A person involved in a hit and run incident may be convicted of a more serious offence such as dangerous driving.

[4] North East region includes figures for Cleveland police force area.

[5] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when these data are used.

OCJR E&A (Office for Criminal Justice Reform, Evidence and Analysis Unit), Ministry of Justice

Service Personnel and Veterans Agency's Prison In-Reach

Mr. Carmichael: To ask the Secretary of State for Justice how many prisoners who were formerly members of the armed forces have been identified by the Service Personnel and Veterans Agency's Prison In-Reach programme in each *(a)* nation and *(b)* region in which they have been held in each year since the programme's inception. [286073]

Mr. Kevan Jones: I have been asked to reply.

The Veterans Prison In-Reach initiative aims to raise awareness among ex-service offenders and their families about the help and assistance that is available to them. The Ministry of Justice and the MOD are working together with the ex-service charities, including The Royal British Legion, SSAFA-Forces Help and Combat Stress, to publicise the initiative and to target better those who need assistance. I will arrange for copies of our new leaflet and poster publicising the Veterans Prison In-Reach initiative to be placed in the Library of the House.

The Service Personnel and Veterans Agency (SPVA) Welfare Service has the capability to respond to referrals as part of their normal business. Consequently, no specific funding has been provided under this initiative.

On contacting the SPVA, prison authorities (welfare) and ex-service offenders are referred to the Veterans Welfare Service which has the capability to offer help and advice to them and to their families. The ex-service charities also provide support including financial assistance, help with rent as well as clothing, training, relocation, employment and welfare visits to veterans and to their families.

Statistics on the number of offenders who are ex-service, the number who contact the SPVA, and the prison establishments they come from are not held centrally and could be provided only at disproportionate cost. We are working closely with the Ministry of Justice to produce up-to-date and authoritative data on the number of our veterans in prison.

Sexual Offences: Compensation

Mr. Gordon Prentice: To ask the Secretary of State for Justice how many awards have been made by the Criminal Injuries Compensation Authority in relation to serious sexual assaults committed on patients while in the care of the NHS in the last five years. [285204]

Claire Ward: In assessing criminal injuries compensation applications, the main information the Criminal Injuries Compensation Authority (the Authority) requires (in addition to an applicant's personal details) his incident reports from the police to determine whether a crime of violence has taken place; and reports from medical authorities to determine the nature and extent of an applicant's injuries. The Authority does not need details on whether an applicant was in the care of the NHS at the time of the assault, and therefore does not record that information.

Young Offender Institutions

Justine Greening: To ask the Secretary of State for Justice what percentage of *(a)* 12, *(b)* 13, *(c)* 14, *(d)* 15, *(e)* 16, *(f)* 17, *(g)* 18 and *(h)* 19 year olds in each young offender institution was detained within 20 miles or 45 minutes travel away from their homes on the latest date for which figures are available. [285053]

Maria Eagle: The tables show the percentage of 15-19 year-old male and female offenders in young offender institutions (YOIs) who were detained within 20 miles of their home area, as of September 2008. Home area is taken as a prisoner's home address. If no home address is recorded the court of first committal is used as a proxy. We do not hold reliable data for travel times between YOIs and home areas. Those aged 12 to 14 are not held in YOIs.

Percentage of 15, 16, 17, 18 and 19 year-olds in each young offender institution detained within 20 miles or 45 minutes travel away from their homes on the latest date for which figures are available

Male YOI

	Percentage of 15 year-olds held within 20 miles of home area	*Percentage of 16 year-olds held within 20 miles of home area*	*Percentage of 17 year-olds held within 20 miles of home area*	*Percentage of 18 year-olds held within 20 miles of home area*	*Percentage of 19 year-olds held within 20 miles of home area*

Young Offenders: Sports

Mr. Grieve: To ask the Secretary of State for Justice how many hours on average a young offender in prison spent playing competitive sport in each of the last five years. [285264]

Mr. Straw: The average number of hours of recreational sport and educational physical education per offender per week in young offender institutions is:

	Average number of hours per offender per week
2004-05	3.5
2005-06	3.3
2006-07	3.2
2007-08	3.4
2008-09	3.5

DEFENCE

3 Squadron

Nick Harvey: To ask the Secretary of State for Defence what the annual operating costs for 3 Squadron based at RAF Coningsby are. [284596]

Bill Rammell: The annual operating costs for 3 Squadron for FY 2008-09 were £15 million excluding cost of capital charges.

Afghanistan: Peacekeeping Operations

Nick Harvey: To ask the Secretary of State for Defence pursuant to the answer of 8 June 2009, *Official Report*, column 697W, whether his Department has procedures to *(a)* (i) minimise and (ii) record the risk to civilians from use of enhanced blast munitions and *(b)* investigate cases of injury and death caused to citizens by such munitions in Afghanistan. [286097]

Mr. Bob Ainsworth: We regret incidents where civilians are accidentally killed as a result of actions by international forces. Procedures are in place, and constantly updated in the light of experience, both to minimise the risk of these casualties occurring and to investigate any incidents that do happen. UK personnel operate at all times under rules of engagement which ensure that force is used in accordance with international humanitarian law. This ensures that civilian casualties and damage to civilian infrastructure are minimised. Wherever possible, local populations are warned of impending operations. We should remember the insurgents are the real threat to the safety and security of the Afghan people by their indiscriminate use of violence. ISAF forces are not present on a permanent basis in many parts of Afghanistan, which makes it difficult to monitor atrocities against the civilian population by the Taliban. The UK Government do not collate or publish figures for civilian casualties in Afghanistan because of the immense difficulty and risks of collecting robust data, including the nature of any munitions involved.

All reports of civilian casualties are investigated promptly and thoroughly, in co-ordination with the Afghan authorities.

Jenny Willott: To ask the Secretary of State for Defence how many soldiers of *(a)* the Welsh Guards and *(b)* the Royal Welsh Regiment deployed in Afghanistan have been (i) killed, (ii) injured, (iii) seriously injured and (iv) very seriously injured in each month of the deployment; and if he will make a statement. [286102]

Mr. Bob Ainsworth: Between the commencement of operations in Afghanistan in 2001 and 8 July 2009, five members of the Welsh Guards and one member of the Royal Welsh Regiment have died while on deployment or as a result of injuries sustained on deployment, all were the result of hostile action. All six deaths happened in 2009, of which one occurred in each month from March to June and two in July.

Since operations began in Afghanistan in 2001 and 15 June 2009, the latest date for which casualty information is available, 13 members of the Welsh Guards and 18 members of the Royal Welsh Regiment have been injured whilst on deployment in Afghanistan. These figures are provided in the following table:

Regiment	*All*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*	*2008*	*2009 (as at 15 June)*
All	31	0	0	0	0	0	0	12	2	17
Welsh Guards	13	—	—	—	—	—	—	1	—	12
Royal Welsh Regiment	18	—	—	—	—	—	—	11	2	5

The figures represent UK operational casualties in Afghanistan from 7 October 2001 to 15 June 2009. The figures include injuries as a result of hostile action and non-battle injuries, and exclude all casualties from natural causes.

The figures include all injury categories from the NOTICAS reporting system (Very Seriously Injured, Seriously Injured, Incapacitating Injury and Unlisted Condition).

Information on the breakdown of very seriously and seriously injured casualties by month is not released to protect individual identities.

Casualty statistics for UK Military and Civilian personnel in Afghanistan are routinely updated for each fortnight on the MOD website. The tables can be found at the following link:

http://www.mod.uk/DefenceInternet/FactSheets/OperationsFactsheets/OperationsInAfghanistanBritishCasualties.htm

Miss McIntosh: To ask the Secretary of State for Defence what estimate he has made of the cost to his Department of its operations in Afghanistan in *(a)* 2009-10 and *(b)* 2010-11; and if he will make a statement. [286536]

Mr. Bob Ainsworth: The estimated cost of operations in Afghanistan for this financial year is £3.5 billion as recently published for the first time in MOD's main estimates. The cost of military operations is dependent on a number of variable factors which are difficult to predict, including changes to operational tempo and the actual conditions in theatre at the time. We do not, therefore, attempt to project costs for subsequent years.

Dr. Fox: To ask the Secretary of State for Defence pursuant to the answer of 24 June 2009, *Official Report*, column 899W, on Afghanistan: peacekeeping operations, how many British troops were required to serve in the Regional Command South Headquarters between May 2007 and February 2008. [284516]

Bill Rammell: Between May 2007 and February 2008, the UK was responsible for filling approximately 80 posts within Regional Command South Headquarters from a

total of some 400 posts. The actual number of UK personnel would have fluctuated over this period due to individual tour lengths.

Armed Forces

Mr. Russell Brown: To ask the Secretary of State for Defence what recent representations he has received on formal commemoration of the achievements of the Navy, Army and Air Force Institutes. [286720]

Mr. Kevan Jones: I can confirm that the Secretary of State for Defence has not received any recent representations regarding formal commemoration of the achievements of the Navy, Army and Air Force Institutes (NAAFI). I am however pleased to express my gratitude to NAAFI for their continued worldwide support to our Service personnel.

Armed Forces Day: Finance

Bob Spink: To ask the Secretary of State for Defence (1) which Armed Forces Day 2009 events received funding from his Department; and if he will make a statement; [285421]

(2) how many applications for funding from his Department for events to commemorate Armed Forces Day 2009 were not granted; and if he will make a statement. [285200]

Mr. Kevan Jones: There is one recorded case only of funding not being granted to an event. This related to an event where Ministry of Defence funding had already been given to the local council. The organisers were advised to join forces with the council to create one larger event.

The Ministry of Defence provided grants to 85 event organisers from across the United Kingdom. A list of the event locations is as follows:

Chatham
Cardiff
Blackpool
Plymouth
Southport
RAF Shawbery
Torbay
Perranporth
Rhyl

Armed Forces: Death

Rosie Cooper: To ask the Secretary of State for Defence what targets his Department has set for the timetable against which inquests into the deaths of members of the armed forces killed in action should be completed; and if he will make a statement. [285571]

Bill Rammell: I refer my hon. Friend to the answer my predecessor gave her on 12 January 2009, *Official Report*, column 6, where he stated that it has been one of his priorities to eliminate unnecessary delay and I am pleased that we continue to make progress on this.

The timing of individual inquests is a matter for the coroner to decide, taking into account all relevant circumstances, including in particular the availability of the bereaved family and demands for other, non-military inquests. So it would be inappropriate for MOD to set targets. But we have been working closely with families and coroners to provide them with all the information they operations need so that inquests into the deaths of Service personnel who die on operations can be held as quickly as possible. Some such inquests are now being held as little as seven months after the death and others within eight to 10 months. Some inquests have to await the outcome of complex technical or other investigations and it is right that they do so. I remain committed to doing all we can to reduce the timeframe in which such inquests are held so that families can get the answers to their questions and be helped in coming to terms with their tragic loss.

Armed Forces: Ethnic Groups

Mr. Jim Cunningham: To ask the Secretary of State for Defence how many people from black and ethnic minority backgrounds applied to join the armed forces in 2008. [285906]

Mr. Kevan Jones: In financial year 2008-09,759 people from black and ethnic minority backgrounds applied to join the naval service, 2,555 to join the Army and 657 to join the RAF. These figures do not include Ghurkha applications.

Mr. Jim Cunningham: To ask the Secretary of State for Defence how many people from black and ethnic minority backgrounds successfully applied for a commission in the armed forces in 2008. [285907]

Mr. Kevan Jones: In 2008 1,810 out of a total of 21,810 successful applicants for the intake to UK regular forces were from ethnic minority backgrounds.

Due to ongoing validation of data from the Joint Personnel Administration System, all flow statistics from financial year 2007-08 are provisional and subject to review.

Armed Forces: Females

Mr. Jim Cunningham: To ask the Secretary of State for Defence how many women applied to join the armed forces in 2008. [285905]

Mr. Kevan Jones: In financial year 2008-09,1,830 women applied to join the naval service, 2,134 to join the Army and 3,351 to join the RAF.

Armed Forces: Males

Mr. Jim Cunningham: To ask the Secretary of State for Defence how many men applied to join the armed forces in 2008. [285904]

Mr. Kevan Jones: In financial year 2008-09,12,641 men applied to join the naval service, 20,701 to join the Army and 14,276 to join the RAF.

Armed Forces: Minorities

Mr. Jim Cunningham: To ask the Secretary of State for Defence what steps his Department is taking to increase applications for service in the armed forces from minority groups. [285908]

Mr. Kevan Jones: The armed forces are committed to becoming more representative of the society they serve and invest considerable resources to this end.

For details of our work to increase applications from ethnic minority groups, I refer my hon. Friend to the reply I gave him on 10 February 2009, *Official Report*, column 1876W.

The under representation of women in the armed forces is recognised and we continue to encourage women to join through recruitment campaigns which raise awareness of the benefits of a career in the armed forces. These campaigns concentrate on the opportunities for training and the acquisition of professional qualifications, and to dispel fears and myths about life in the services. The armed forces also offer a generous maternity scheme to provide supportive arrangements to enable servicewomen to accommodate pregnancy and maternity absence within their careers.

The armed forces are exempt from the employment provisions of the Disability Discrimination Act 1995. However, we demonstrate our willingness to follow the spirit of disability legislation by recruiting people who may have some degree of impairment and by retaining a significant number of personnel who have become disabled in the course of their duties.

The armed forces are equal opportunity employers and therefore are only interested in the individual's qualities and abilities not in such issues as their background, religion or sexual orientation which are considered private matters and not relevant to an individual's suitability for a career in the armed forces. We aim to provide a working environment where individuals can freely practise their religious observances or where individuals are free to be open about their orientation should they wish. Recruitment strategies encourage lesbian, gay and bisexual people to consider a career in the armed forces. For example, representatives from all three services took part in uniform in a parade as part of the London Pride event in July 2009.

Armed Forces: Social Clubs

Chris Ruane: To ask the Secretary of State for Defence what information his Department holds on the number of service personnel social clubs which have closed in each of the last 30 years. [286292]

Mr. Kevan Jones: The information requested is not held centrally and could be provided only at disproportionate cost.

Armoured Fighting Vehicles

Ann Winterton: To ask the Secretary of State for Defence to what *(a)* type and *(b)* level of mine resistance tests the Navistar Defence Husky vehicle tactical support has been subjected; and if he will publish the results. [286441]

Mr. Quentin Davies: Husky has successfully passed stringent mine blast protection tests. I cannot, however, comment on the specific types and levels of mine resistant tests, as disclosure could prejudice the security of the armed forces.

Ann Winterton: To ask the Secretary of State for Defence pursuant to the answer of 2 July 2009, *Official Report*, column 374W, on armoured fighting vehicles, what roles the 334 Panther vehicles not upgraded for deployment in Afghanistan will have. [286442]

Mr. Quentin Davies: The Panther vehicles that have not been upgraded for deployment in Afghanistan will be used for pre-deployment training, individual and collective training, and trials and development.

BVT Shipyards

Angus Robertson: To ask the Secretary of State for Defence (1) whether the proposed terms of business agreement between his Department and BVT Shipyards includes provision for rationalisation of BVT facilities during its lifetime; [284825]

(2) what recent discussions he has had with BVT Shipyards on redundancies arising from shipyard rationalisation; and if he will make a statement; [284826]

(3) what discussions he has had with BVT Shipyards on their plans for shipyard rationalisation. [284827]

Mr. Quentin Davies: As stated in the 2005 Defence Industrial Strategy (DIS, Cmnd 6697), MOD is committed to sustaining key sovereign capabilities, particularly in high end design, systems engineering and combat systems integration, to support the needs of the Royal Navy today and well into the future. As well as securing future capability, the DIS also signalled the need for a sensible balance between supply and demand over time. MOD is working with industry to make best use of taxpayers' money in seeking opportunities for rationalisation and the delivery of efficiencies wherever possible.

As part of ongoing commercial negotiations on a 15-year Terms of Business Agreement with BVT Surface Fleet Limited (BVT), we are discussing the workload required to sustain these key skills and capability in the shipyards. In return, BVT will be expected to achieve efficiency targets. This will provide a sound, long-term basis for the future of naval shipbuilding.

It is quite normal in long-term industrial partnership agreements between the MOD and defence suppliers that provision should be made for redundancy costs to be met at customer expense in certain circumstances, but MOD has made no plans for redundancies in the shipyards.

Departmental Data Protection

Mr. Blunt: To ask the Secretary of State for Defence how many breaches of information security there have been at *(a)* his Department and *(b)* its agencies in the last five years. [281077]

Mr. Kevan Jones: During the four-year period ending 31 March 2008, 12 significant breaches of information security were centrally reported within the Ministry of Defence. Figures for 2008-09 are currently being compiled, audited and verified prior to laying before Parliament in the Department's Annual Report and Accounts 2008-09.

Departmental Databases

Jenny Willott: To ask the Secretary of State for Defence what categories of personal information on members of the public will be held on each of his Department's and its agency's databases expected to become operational in the next five years; what estimate he has made of the likely number of individuals' details each such database will hold when fully operational; and if he will make a statement. [286495]

Mr. Kevan Jones: Ministry of Defence officials are currently collating and validating the data needed to answer these questions. I will write to the hon. Member before the summer recess.

Departmental Electronic Equipment

Jenny Willott: To ask the Secretary of State for Defence how many *(a)* photocopiers, *(b)* scanning devices and *(c)* fax machines, excluding multi-function devices, there are in his Department; how many there were in each of the last three years; and if he will make a statement. [286176]

Mr. Quentin Davies: This information is not held centrally and could be provided only at disproportionate cost.

Departmental Manpower

Angus Robertson: To ask the Secretary of State for Defence what change in the number of jobs at his Department's bases in each *(a)* county in England and Wales and *(b)* local authority area in Scotland was in each year since 1992; and if he will make a statement. [284591]

Mr. Kevan Jones: Data for the number of job losses at MOD bases are not centrally held and could be provided only at disproportionate cost.

Departmental Training

Bob Spink: To ask the Secretary of State for Defence how much his Department has spent on IT training for its staff in each of the last five years. [274210]

Mr. Kevan Jones: This information is not held centrally and could be provided only at disproportionate cost. Expenditure on IT training must be necessary, appropriate, cost-effective and an admissible charge to public funds.

Gurkhas: Pensions

Mr. Heald: To ask the Secretary of State for Defence if he will bring forward proposals to provide pensions equal to those for UK soldiers for Gurkhas who retired from the armed forces prior to 1997. [286239]

Mr. Kevan Jones: I refer the hon. Member to the answer given by the Minister for Armed Forces on 7 July 2009, *Official Report*, column 659W, to my hon. Friend the Member for Sheffield, Attercliffe (Mr. Betts)

Chris Huhne: To ask the Secretary of State for Defence pursuant to the answer to the hon. Member for Heywood and Middleton (Jim Dobbin) of 19 June 2009, *Official Report*, column 512W, on Gurkhas: pensions, what proportion of the £1.5 billion estimated cost to his Department he expects to be incurred in each of the next 20 years. [286347]

Mr. Hancock: To ask the Secretary of State for Defence pursuant to the answer of 19 June 2009, *Official Report*, column 512W, on Gurkhas: pensions, what methodology his Department used to calculate the figure of £1.5 billion; and what estimate he has made of how much of this expenditure would be incurred in each year over which such expenditure is planned. [286429]

Mr. Kevan Jones: I refer the hon. Members to the answer I gave on 8 July 2009, *Official Report*, column 788W, to my hon. Friend the Member for Stroud (Mr. Drew). A breakdown of the estimated cost could be provided only at disproportionate cost.

Met Office

Mr. Arbuthnot: To ask the Secretary of State for Defence whether *(a)* he and *(b)* officials of his Department plan to meet private sector stakeholders as part of his Department's ongoing review of the Met Office. [286590]

Mr. Kevan Jones: The Operational Efficiency Programme (OEP) Met Office Review Group is comprised of officials from the Ministry of Defence, Shareholder Executive, HM Treasury and the Met Office and meets regularly in undertaking the review.

This group is responsible for taking forward all aspects of the Met Office review as set out in the OEP Final Report published April 2009. In exploring all options and opportunities, this has included initial discussions regarding opportunities for engaging with private sector partners, although to date the group has not met with private sector stakeholders. This aspect of the work is at an early stage, and more detailed work on this topic will be taking place over the coming months. A further update on progress of the review will be provided with the pre-Budget report.

The Secretary of State for Defence has no current plans to meet private sector stakeholders as part of the OEP Review of the Met Office.

Mr. Arbuthnot: To ask the Secretary of State for Defence on what date he and officials of his Department will first meet the Operational Efficiency Programme project team to consider the future of the Met Office. [286591]

Mr. Kevan Jones: The Operational Efficiency Programme (OEP) Met Office Review Group is comprised of officials from the Ministry of Defence, Shareholder Executive, HM Treasury and the Met Office and meets regularly in undertaking the review. The group first met on 19 January 2009. The Secretary of State for Defence has no current plans to attend Review Group Meetings, but receives regular updates on the work of the Review Group.

Mr. Arbuthnot: To ask the Secretary of State for Defence when he expects the decision on the future of the Met Office to be announced. [286598]

Mr. Kevan Jones: The Operational Efficiency Programme has taken a tailored approach to each of the studies in its remit, and carries out a rolling programme of work that reports at six-monthly intervals. Work is now under way on the next steps set out for the Met Office review in the OEP Final Report published April 2009, with the findings of this work dictating the timing of the study's recommendations. Progress will next be reported at the pre-Budget report 2009.

Mr. Arbuthnot: To ask the Secretary of State for Defence if he will commission research into international comparisons with public sector weather service providers as part of his consideration of the future of the Met Office. [286599]

Mr. Kevan Jones: The Secretary of State for Defence has no current plans to commission research into international comparisons with public weather service providers as part of his consideration of the future of the Met Office.

Military Aircraft

Dr. Fox: To ask the Secretary of State for Defence what assumption has been made for planning purposes of the service entry date for the Joint Strike Fighter. [284544]

Mr. Bob Ainsworth: I refer the hon. Member to the answer given to him by my hon. Friend the Minister for Defence Equipment and Support on 18 June 2009, *Official Report*, column 465W.

Angus Robertson: To ask the Secretary of State for Defence what the *(a)* required and *(b)* actual number of pilots in the armed forces is for the MR2 aircraft. [284778]

Bill Rammell: As at 9 July 2009, the required and actual number of pilots in the armed forces for the Nimrod MR2 aircraft is provided in the table.

Aircraft type—Nimrod MR2

	Number
Required pilots	58
Actual pilots	46

The reason for the variation is that there is a temporary increase in the number of pilots required, as the MR2 Force transitions to MRA4, and as personnel are retrained and transferred to the MRA4.

Angus Robertson: To ask the Secretary of State for Defence what the *(a)* required and *(b)* actual number of pilots in the armed forces is for the GR4 aircraft. [284779]

Bill Rammell: The required and actual number of pilots in the armed forces for the Tornado GR4 aircraft is given in the following table:

Aircraft type	*Required pilots*	*Actual pilots*
Tornado GR4	134	129

The variation is due to a number of factors such as promotion, assignment of pilots to other aircraft or ground posts, medical downgrading or leaving the Service.

RAF Chilmark: Finance

Robert Key: To ask the Secretary of State for Defence how much expenditure in each cost category was incurred in respect of the former RAF Chilmark site in 2008-09. [286240]

Mr. Kevan Jones: Those elements of the former RAF Chilmark Site that have not been sold are managed by Defence Estates (DE)—the Ministry of Defence organisation with responsibility for the defence estate.

In financial year 2008-09, DE incurred the following costs:

Cost Category	*Details*	*Cost incurred (£)*
Land Contamination	Hydrogeological Site investigation	5,000
Ecology/ Conservation	Installation of a bat grille across a mine entrance	15,000
Legal Fees	For work relating to parts of site previously sold	415

Raiding Craft: Navy

Dr. Fox: To ask the Secretary of State for Defence how many raiding craft there have been in the Royal Navy in each year since 1997. [284533]

Mr. Quentin Davies: There are currently 111 raiding craft in service with the Royal Navy. Detailed records for each year since 1997 are not held centrally and could be provided only at disproportionate cost. From the limited information available, however, it is estimated that there have been between 111 and 120 boats in service in each year since 1997.

Reserve Forces

Mr. Stewart Jackson: To ask the Secretary of State for Defence what contributions *(a)* the Department for Communities and Local Government and *(b)* local authorities have made to his Department's Supporting Britain's Reservists and Employers campaign. [286566]

Mr. Kevan Jones: The Department for Communities and Local Government have endorsed SaBRE's (Supporting Britain's Reservists and Employers) public statement of support.

To date, 222 local authorities have confirmed details of their supportive policies to SaBRE and endorsed SaBRE's public statement of support. A list of these 222 supportive authorities can be found at:

www.sabre.mod.uk

Service Personnel and Veterans Agency: Prisoners

Mr. Carmichael: To ask the Secretary of State for Defence (1) what funding his Department has allocated to the Service Personnel and Veterans Agency's Prison In-Reach programme in each year since the programme's inception; [286067]

(2) how many prisoners have *(a)* participated in and *(b)* been otherwise assessed by the Service Personnel and Veterans Agency's Prison In-Reach programme in each prison in each year since the programme's inception; and what the (a) name and (b) location is of each prison which has participated. [286072]

Mr. Kevan Jones: The Veterans Prison In-Reach initiative aims to raise awareness among ex-service offenders and their families about the help and assistance that is available to them. The Ministry of Justice and the MOD are working together with the ex-service charities, including The Royal British Legion, SSAFA-Forces Help and Combat Stress, to publicise the initiative and to target better those who need assistance. I will arrange for copies of our new leaflet and poster publicising the Veterans Prison In-Reach initiative to be placed in the Library of the House.

The Service Personnel and Veterans Agency (SPVA) Welfare Service has the capability to respond to referrals as part of their normal business. Consequently, no specific funding has been provided under this initiative.

On contacting the SPVA, prison authorities (welfare) and ex-service offenders are referred to the Veterans Welfare Service which has the capability to offer help and advice to them and to their families. The ex-service charities also provide support including financial assistance, help with rent as well as clothing, training, relocation, employment and welfare visits to veterans and to their families.

Statistics on the number of offenders who are ex-service, the number who contact the SPVA, and the prison establishments they come from are not held centrally and could be provided only at disproportionate cost. We are working closely with the Ministry of Justice to produce up-to-date and authoritative data on the number of our veterans in prison.

UK Health Departments Partnership Board: Meetings

Willie Rennie: To ask the Secretary of State for Defence on how many occasions his Department has been represented at a meeting of the UK Health Departments Partnership Board in each year since 2007; and which *(a)* Ministers and *(b)* officials in his Department have attended each such meeting. [283177]

Mr. Kevan Jones: The joint MOD/UK Health Departments Partnership Board meets three times a year. It is chaired alternately by senior officials from MOD and the Department of Health, and has a membership drawn from MOD, the UK Health Departments and the NHS. Government Ministers do not attend.

The Partnership Board has met on eight occasions since January 2007.

Attendees at individual meetings will include both standing board members as well as other departmental officials, who are invited on an individual basis for discussion of specific agenda items. The following table shows which individual posts have been present at each meeting, and includes both standing members and ad hoc attendees:

WORK AND PENSIONS

Atos

Tom Brake: To ask the Secretary of State for Work and Pensions what the cost was of medical assessments carried out by Atos Health on behalf of her Department from 1 March 2008 to 28 February 2009. [284572]

Jonathan Shaw: The Department for Work and Pensions re-awarded Atos Origin IT Services Ltd., trading as Atos Healthcare, a new contract to perform medical services on behalf of the Department from 1 September 2005.

The total cost of these services from 1 March 2008 to February 2009 was £80,589,204. This figure not only covers the total number of examinations undertaken across all benefits, but also costs relating to written and verbal medical advice, fixed overheads, administrative costs, investment in new technology and other service improvements.

The individual cost of medical assessments carried out by Atos Healthcare is commercially sensitive information. To disclose this information would prejudice the interest of Atos Healthcare and the Department's future dealings with Atos Healthcare or other service providers.

Carer's Allowance: Essex

Bob Spink: To ask the Secretary of State for Work and Pensions how many people were receiving carer's allowance in *(a)* Essex and *(b)* Castle Point on the latest date for which figures are available. [282063]

Jonathan Shaw: The available information is in the following table:

Carer's allowance: Cases in payment in Essex local authority area and Castle Point parliamentary constituency, November 2008

	Number
Essex	9,140
Castle Point	710

Notes:
1. Figures are rounded to the nearest 10.
2. Totals show the number of people in receipt of an allowance, and exclude people with entitlement where the payment has been suspended.

Source:
DWP Information Directorate Work and Pensions Longitudinal Study.

Children: Maintenance

Mr. Frank Field: To ask the Secretary of State for Work and Pensions (1) on how many and what proportion of applications for maintenance the Child Support Agency and its successor made decisions on the award of maintenance within three months of receipt in each year since 1993; [278258]

(2) how many applications for child support made to the Child Support Agency resulted in no maintenance calculation being made because one of the parents could not be identified in each year since 1993. [278458]

Helen Goodman *[holding answer 8 June 2009]:* The Child Maintenance and Enforcement Commission is responsible for the child maintenance system. I have therefore asked the Child Maintenance Commissioner to write to my right hon. Friend with the information requested.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Child Maintenance Commissioner as the Child Support Agency is now the responsibility of the Child Maintenance and Enforcement Commission.

You asked the Secretary of State for Work and Pensions, on how many and what proportion of applications for maintenance the Child Support Agency and its successor made decisions on the award of maintenance within three months of receipt in each year since 1993. [278258]; and

You also asked the Secretary of State for Work and Pensions, how many applications for child support made to the Child Support Agency resulted in no maintenance calculation being made because one of the parents could not be identified in each year since 1993. [278458]

The Child Maintenance and Enforcement Commission regularly publish information on the time taken to clear maintenance applications in Table 3 of the Child Support Agency Quarterly Summary of Statistics (QSS). The latest copy of which is available in the House of Commons library online and at:

www.childmaintenance.org/publications/statistics.html

The latest figures show that 82% of applications received in December 2008 were cleared within 12 weeks, compared to just 30% cleared in 12 weeks by March 2005, the year before the Operational Improvement Plan was introduced.

However the additional information that you have requested is not regularly published and is therefore provided in the attached table. This shows the number and proportion of current scheme applications that were cleared in each financial year within 12 weeks

of receipt. This information is only available for current scheme cases and so can not be reported prior to 2003, when the current scheme was introduced.

It should be noted that since the beginning of the Operational Improvement Plan in 2006, the volume of uncleared new scheme applications has reduced from 220,600 to 49,200, a fall of 78%.

The information you also requested on the number of applications made to the Child Support Agency that resulted in no maintenance calculation being made because one of the parents could not be identified, is not available as this information is not recorded for management information purposes.

I hope you find this answer helpful.

Number of applications cleared each year within 12 weeks and as a percentage of claims received

	Number cleared within 12 weeks	*Number cleared as a percentage of cases received in year*
2003-04	75,200	28
2004-05	88,600	32
2005-06	138,200	47
2006-07	161,000	60
2007-08	216,600	79
2008-09	143,300	84

Notes:
1. Only includes current scheme cases. Data not available prior to March 2003.
2. Cleared applications are those that have had a maintenance calculation carried out and a payment arrangement between the parent with care and non-resident parent put in place; a maintenance calculation carried out and nil liability established; a parent with care has been identified as claiming Good Cause or is subject to a Reduced Benefit Decision; the application is identified as being a change of circumstance on an existing case; or the application has been closed.
3. Figures have been rounded to the nearest 100.
4. Includes clerical cases.
5. Number of cases cleared within 12 weeks expressed as a percentage of applications received.

Mr. Frank Field: To ask the Secretary of State for Work and Pensions how many children are receiving maintenance payments calculated by the Child Support Agency; and in how many such cases the non-resident parent is in arrears. [280026]

Helen Goodman *[holding answer 15 June 2009]:* The Child Maintenance and Enforcement Commission is responsible for the child maintenance system. I have therefore asked the Child Maintenance Commissioner to write to my right hon. Friend with the information requested.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Child Maintenance Commissioner as the Child Support Agency is now the responsibility of the Child Maintenance and Enforcement Commission.

You asked the Secretary of State for Work and Pensions, how many children are receiving maintenance payments calculated by the Child Support Agency; and in how many such cases the non-resident parent is in arrears. [280026]

It should be noted that the majority of child maintenance cases will have some arrears. In particular all new cases will accrue arrears unless the non-resident parent provides support while the liability is being assessed. The Agency estimates that around a quarter of all cases with arrears owe less than £170 which is less than two monthly maintenance payments.

As at March 2009, 593,100 cases were receiving maintenance, from which 779,800 children benefited. Of these 593,100 cases, there are approximately 436,600 cases where the non-resident parent has arrears outstanding.

I hope you find this answer helpful.

Mr. Sanders: To ask the Secretary of State for Work and Pensions what account the Child Maintenance and Enforcement Commission takes of shared custody arrangements in determining levels of child maintenance. [281842]

Helen Goodman: The Child Maintenance and Enforcement Commission is responsible for the child maintenance system. I have therefore asked the Child Maintenance Commissioner to write to the hon. Member with the information requested.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Maintenance and Enforcement Commission, the Secretary of State promised a substantive reply from the Child Maintenance Commissioner. The Child Support Agency is now the responsibility of the Child Maintenance Enforcement Commission.

You asked the Secretary of State for Work and Pensions, what account the Child Maintenance and Enforcement Commission takes of shared custody arrangements in determining levels of child maintenance. [281842]

Where an application for child maintenance is made, and care of the child or children subject to that application is shared between the parent with care and non-resident parent, the Child Support Agency may in some cases reduce the amount of child maintenance payable as a result.

Different rules apply to the calculation of child maintenance liabilities, dependent on whether the application for maintenance was effective before the 3rd of March 2003 (such cases are referred to as the "old scheme") or received on or after this date (and referred to as the "current scheme").

In the old scheme, the amount of maintenance that a non-resident parent should pay will be reduced if the child or children spends 104 nights or more (on average, throughout the year) in their care. In the current scheme, a non-resident parent's maintenance liability is reduced if the child or children spends an average of 52 nights or more in their care during the year.

I hope you find this answer helpful.

Andrew Selous: To ask the Secretary of State for Work and Pensions what steps the Child Support Agency is taking to recalculate child maintenance liabilities for non resident parents whose income is reduced through loss of overtime, short time working or working without pay; how quickly such recalculations are performed on average; and if she will make a statement. [284231]

Helen Goodman *[holding answer 3 July 2009]:* The Child Maintenance and Enforcement Commission is responsible for the child maintenance system. I have therefore asked the Child Maintenance Commissioner to write to the hon. Member with the information requested.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Child Maintenance Commissioner as the Child Support Agency is now the responsibility of the Child Maintenance and Enforcement Commission.

You asked the Secretary of State for Work and Pensions, what steps the Child Support Agency is taking to recalculate child maintenance liabilities for non resident parents whose income is reduced through loss of overtime short time working or working without pay; how quickly such recalculations are performed; and if she will make a statement. [284231]

The Child Support Agency will reassess the maintenance liability from the point at which either parent informs the Agency that the non-resident parent's income has changed. Although the Agency

may require further information such as wage slips to complete the reassessment, the date from which the reassessment takes effect will remain the date that the Agency was notified of the change. Information on the time taken to reassess individual cases from the date of notification including gathering the required evidence is not available.

It should be noted that not all changes in income will result in a reassessment of the child maintenance due. In cases assessed under the current scheme the Agency may not change the amount of child maintenance if the non-resident parent's regular net weekly income changes by less than 5%. For cases assessed under the old scheme, the Agency may not make a change of less than £10 a week, or in cases where there is 'protected income' only where amount the non-resident parent would have to pay would increase by £5 a week or more, or reduce by £1 a week or more.

I hope you find this answer helpful.

Council Tax Benefits

Mr. Stewart Jackson: To ask the Secretary of State for Work and Pensions what the take-up rate of council tax benefit was in each local authority in the latest period for which figures are available. [284096]

Helen Goodman: Estimates of eligibility for council tax benefit are not available below the level of Great Britain.

The latest estimates of the take-up rates and the number of those entitled to but not receiving council tax benefit are published in the report "Income Related Benefits Estimates of Take-Up in 2007-08", copies of which are available in the Library.

Departmental Contracts

Lynne Jones: To ask the Secretary of State for Work and Pensions pursuant to the answer of 17 June 2009, *Official Report*, column 355W, on department pay, to which employers her Department's contracts have been *(a)* let and *(b)* sub-let where the location of employment is not exclusive to London in the last five years; what the nature of the work undertaken on each such contract is; what information her Department holds on the grade and location of employment of those working on such contracts; what the duration of each such contract is; and what agreements on union recognition have been reached in relation to each such contract. [285492]

Jim Knight: The DWP currently has over 1,000 contracts with external suppliers for a wide range of goods and internal and external services. The Department does not hold this information centrally and it could be obtained only at disproportionate costs.

Departmental Energy

Gregory Barker: To ask the Secretary of State for Work and Pensions how much *(a)* electricity and *(b)* gas was used (i) on her Department's estate and (ii) by her Department's agencies in each year from 2004-05 to 2008-09. [280523]

Helen Goodman: The following table shows energy consumption information for DWP and its agencies:

	Electricity (kWh)	*Gas (kWh)*
2004-05	328,376,312	363,437,092
2005-06	327,460,763	348,427,210
2006-07	328,992,384	316,398,341
2007-08	299,091,966	282,711,424

Final information for 2008-09 is not yet available.

Departmental Procurement

Bob Spink: To ask the Secretary of State for Work and Pensions what changes have been made to her Department's *(a)* office equipment and *(b)* stationery purchasing policy in the last six months. [285318]

Jim Knight: There have been no changes in DWP office equipment or stationery purchasing policy in the last six months.

Disability Living Allowance

Mrs. May: To ask the Secretary of State for Work and Pensions pursuant to the answer of 3 June 2009, *Official Report*, column 541W, on disability living allowance, at what level information is recorded on the number of people claiming disability living allowance where the main disabling condition is recorded as obesity. [283621]

Jonathan Shaw: In October 2008 the set of codes used to record the disabling condition for disability living allowance changed. Primary and Secondary codes replaced codes for Care and Mobility and more fine detail was introduced with respect to disabling condition. Prior to October 2008, there were fewer than 50 categories for disabling condition, but now there are over 500. This information is available for statistical analysis from November 2008.

However, codes for existing disability living allowance claimants were not updated, so the number of cases with new codes is extremely small compared to the total numbers in receipt of disability living allowance. It is, therefore, not yet possible to produce an estimate of the total number of people claiming disability living allowance with a main disabling condition of obesity.

Future Jobs Fund

Ms Buck: To ask the Secretary of State for Work and Pensions how much funding from the Future Jobs Fund has been allocated to each *(a)* regional development agency and *(b)* local authority; and what targets have been set for each such body in respect of the creation of new jobs. [286235]

Jim Knight: The Future Jobs Fund operates a competitive bidding process, with local authorities, partnerships and others able to bid to create jobs through the fund. We are not ring-fencing funding, or setting targets for any particular region or area. However greater emphasis will be given to bids from areas of high unemployment and with high populations of eligible young people.

Hazardous Substances: Storage

Bob Spink: To ask the Secretary of State for Work and Pensions what *(a)* large-scale petrol storage depots and *(b)* onshore non-nuclear major hazard installations there are in (i) England and (ii) Essex. [280663]

Jonathan Shaw *[holding answer 19 June 2009]:* The following table shows the number of large-scale petrol storage depots and the number of other major hazard sites subject to the Control of Major Accident Hazards Regulations 1999 (as amended) ('COMAH') in Essex and England respectively.

	Number
Large-scale petrol storage depots	
Essex	5
England	41
COMAH major hazard sites	
Essex	31
England	893

Tables listing the relevant sites have been placed in the Library.

Medical Assessors

Tom Brake: To ask the Secretary of State for Work and Pensions what mechanisms her Department has in place to monitor the accuracy and quality of work carried out for her Department by medical assessors. [284573]

Jonathan Shaw: The contract between DWP and Atos Healthcare contains a number of quality targets to measure the performance of health care professionals (HCPs)[1] which are monitored on a monthly basis. Quality and accuracy is regularly monitored through a variety of other methods including monthly management information, customer satisfaction surveys and feedback from complaints. The work of all HCPs is subjected to quality audit which is conducted by experienced medical auditors within Atos Healthcare. The quality of Atos Healthcare's audit is validated by senior medical auditors from Atos Healthcare and doctors working for the Chief Medical Adviser to the DWP.

[1] The term health care professionals (HCP) covers both registered doctors and registered nurses who conduct medical assessments on behalf of the DWP.

Tom Brake: To ask the Secretary of State for Work and Pensions what minimum qualifications are required of medical assessors working for her Department. [284574]

Jonathan Shaw: The contract between DWP and Atos Healthcare specifies minimum recruitment standards that all approved health care professionals (HCPs)[1] must be fully registered with the General Medical Council or Nursing and Midwifery Council without restrictions or conditions and complete a course of training in disability assessment medicine approved by the DWP Chief Medical Adviser (CMA). In addition they must have a minimum of three years post registration experience. In individual cases, solely at the discretion of the CMA, the requirement that no conditions be attached to registration and the requirement that health care professionals have a minimum of three years post registration experience may be waived. In addition all HCPs must be approved by the CMA to the DWP.

[1] The term health care professionals (HCP) covers both registered doctors and registered nurses who conduct medical assessments on behalf of the DWP.

New Deal Schemes

David Taylor: To ask the Secretary of State for Work and Pensions what the *(a)* maximum and *(b)* average payment of the New Deal Allowance was to people who had reached the test trading phase of the New Deal in the most recent period for which figures are available. [274342]

Jim Knight: Test trading allows the customer to stay on benefits for a short period while they launch their business. This can last for a maximum of six months.

The amount of new deal allowance paid to individual customers is equivalent to their previous benefit rate (usually jobseeker's allowance) plus a new deal premium of £15.38 a week.

Pathways to Work

Mr. Rooney: To ask the Secretary of State for Work and Pensions how many participants there have been for each of the Pathways to Work programme providers since inception of the contracts; how many of these *(a)* did not attend initial interview, *(b)* were referred back to a decision maker for consideration of a sanction and *(c)* were placed in sustained employment. [285521]

Jim Knight *[holding answer 9 July 2009]:* Official statistics on the number of participants in Pathways to Work are available up to January 2009, these are published on the Department's website at:

http://research.dwp.gov.uk/asd/workingage/ib_ref_p2w.asp

Information is not available by provider. Breakdowns are available by district. Data on starts are available up to January 2009. Data on job entries are available up to October 2008 but no data are available to show sustained jobs. Starts and job entries in each Pathways district have been placed in the Library.

The Department does not hold official statistics on failed to attend interviews or referrals back to decision makers.

Pension Credit

Dr. Cable: To ask the Secretary of State for Work and Pensions what estimate she has made of the number of people aged *(a)* between 60 and 79 and *(b)* 80 years old and over who are eligible for pension credit. [285827]

Angela Eagle: The information requested is not available.

Pensions

Mrs. Spelman: To ask the Secretary of State for Work and Pensions what the absolute value of the basic state pension for *(a)* single pensioners and *(b)* pensioner couples has been in each year since 1997-98. [285777]

Angela Eagle: The information is in the table.

	Weekly basic state pension for single pensioner	*Weekly basic state pension for pensioner couple*
	£	£
1997-98	62.45	99.80
1998-99	64.70	103.40
1999-2000	66.75	106.70
2000-01	67.50	107.90

£

	Weekly basic state pension for single pensioner	Weekly basic state pension for pensioner couple
2001-02	72.50	115.90
2002-03	75.50	120.70
2003-04	77.45	123.80
2004-05	79.60	127.25
2005-06	82.05	131.20
2006-07	84.25	134.75
2007-08	87.30	139.60
2008-09	90.70	145.05
2009-10	95.25	152.30

Note:
There are no singles or couples rates as such, the basic state pension is an individual benefit. However, the maximum Category A rate is commonly referred to as the "singles rate", and the combination of the maximum Category A rate for a husband and a maximum Category B rate set at (60 per cent. of maximum Category A) for his wife is commonly referred to as the "couples rate".

Personal Accounts Scheme: Finance

Mr. Waterson: To ask the Secretary of State for Work and Pensions (1) what estimate she has made of the cost of establishing personal accounts schemes; and what proportion of such costs she expects to be recouped from scheme participants; [284123]

(2) how much grant-in-aid paid the Personal Accounts Delivery Authority has received from her Department in each financial year since its inception; [284124]

(3) what expenditure the Personal Accounts Delivery Authority has incurred in each financial year since its inception. [284038]

Angela Eagle: Revenues from membership charges are intended to cover the cost of personal accounts in the long run, including the cost of setting up the scheme.

All cost estimates are commercially sensitive until the Personal Accounts Delivery Authority has completed its procurement process. Publishing these estimates now could compromise the Authority's ability to get value for money.

The following table shows how much funding the Authority has received from the Department and its expenditure in each financial year since its inception.

£ million

	2007-08	2008-09	2009-10[1]
Grant in aid funding—advice to Government on their pension reform programme	3.300	18.435	0.464
Loan funding—for setting up the scheme	—	5.623	5.836
PADA expenditure	1.996	30.958	5.504

[1] As at end of May 2009.

Notes:
1. Expenditure figures include capital expenditure plus non-cash depreciation costs.
2. Grant in aid and loan figures represent cash paid to the Authority from the Department within each year.
3. Expenditure figures are recorded on an accruals basis i.e. include costs that have been incurred but not yet paid and non-cash costs such as depreciation. Therefore expenditure figures do not equal the grant in aid and loan figures.
4. Expenditure for 2008-09 exceeded the funding PADA received in that year. The difference was, in the main, funded by cash balances carried forward from the previous year and movements in working capital.
5. Figures for 2008-09 and 2009-10 represent pre-audited outturn and may change.

Remploy

Mr. Robathan: To ask the Secretary of State for Work and Pensions what her Department's role is in respect of *(a)* setting the levels of and *(b)* paying (i) salaries and (ii) bonuses at Remploy. [284769]

Jonathan Shaw: The Department is responsible for recruiting and setting the salaries for the chair, chief executive officer and non-executive directors of Remploy. The setting of salaries of all other employees is the responsibility of the company.

As with all non-departmental public bodies, the Department approves the annual pay remit for Remploy and the overall remuneration package must meet the Treasury civil service pay guidance.

The Department has approved the performance related pay schemes for the Remploy Executive where targets are now closely linked to achieving key objectives in the five-year modernisation plan. Performance related pay schemes for all other employees are set by the company.

Right to Bid Scheme

Mr. Rooney: To ask the Secretary of State for Work and Pensions which Minister has lead responsibility for the Right to Bid scheme; what officials in her Department are working on the scheme; and how many applications to the scheme have been received to date. [284495]

Jim Knight *[holding answer 6 July 2009]:* I have lead responsibility for Right to Bid. Alan Cave, DWP Employment Group Delivery Director, is the lead official for the Right to Bid scheme; he is supported by a central team which administer and manage Right to Bid.

The Right to Bid initiative was introduced on 1 January 2009 and we are pleased to say that we have had a significant amount of interest. As of 6 July 2009, 91 bids have been received.

Social Security Benefits

Andrew Selous: To ask the Secretary of State for Work and Pensions for what reason disability living allowance is disregarded for the purposes of calculating child maintenance; for what reason war pensions are assessed in calculating child maintenance; and if she will make a statement. [284228]

Helen Goodman *[holding answer 3 July 2009]:* Child maintenance is based on the financial circumstances of parents. State benefits which vary in accordance with a person's financial circumstances (such as war pensions) form part of their overall income and as such are therefore taken into account when the maintenance liability is calculated. However, the level of income required to qualify for a war pension is such that the maximum the vast majority of non-resident parents who are on a war pension would have to pay is £5. That is the case for all of those on the current child maintenance scheme.

Disability living allowance is a standard payment which, beside the qualifying criteria, i.e. the nature of the disability, takes no account of a person's financial circumstances; it is only the nature of the disability that

is a factor and it is specifically designed to enable someone to cope with the extra expense that disability imposes on them. It would not therefore be appropriate to include such payments within the child maintenance calculation.

Social Security Benefits: Fraud

Andrew Rosindell: To ask the Secretary of State for Work and Pensions how many *(a)* court cases and *(b)* convictions there have been for benefit fraud in each of the last five years. [272721]

Lady Hermon: To ask the Secretary of State for Work and Pensions how many people have been *(a)* interviewed on suspicion, *(b)* charged with and *(c)* convicted of benefit fraud offences in each of the last five years. [273049]

Helen Goodman: Information relating to how many people have been *(a)* interviewed on suspicion and *(b)* charged with benefit fraud offences is not available.

The available information on the number of people interviewed under caution (for DWP administered benefits) and the number of people that DWP has presented to court for prosecution for benefit fraud offences is detailed in the following tables. Information on local authority prosecutions and convictions is not yet available for 2008-09.

DWP administered benefits

	Number of interviews held under caution	*Number prosecuted for benefit fraud*	*Number of convictions for benefit fraud offences*
2004-05	—	10,295	9,219
2005-06	—	10,262	8,740
2006-07	—	8,964	6,861
2007-08	—	10,276	7,343
2008-09	44,105	8,840	6,709

Notes:
1. 2008-09 is the first year in which interview under caution data have been collected.
2. The figure provided on the number of interviews held under caution may include the same person more than once. This is because the same person may have been interviewed under caution more than once.

Sources:
1. Interviews under caution data are taken from Fraud Referral and Intervention Management System (FRAIMS).
2. Prosecution and Conviction data for England and Wales are provided by DWP/DH Legal Group.
3. Prosecution and Conviction data for Scotland are taken from Fraud Information by Sector (FIBS) and FRAIMS.

Local authority administered benefits

	Number prosecuted for benefit fraud	*Number of convictions for benefit fraud offences*
2003-04	4,901	3,747
2004-05	5,508	4,608
2005-06	7,717	6,234
2006-07	6,023	5,060
2007-08	6,833	6,493

Notes:
1. The decision to prosecute is taken by the appropriate local authority.
2. Figures from HOBOD are subject to revision when new or revised data are received from local authorities and uploaded by the Department.
3. Data on the number of interviews held under caution have not been included in this table because 2008-09 is the first year in which interview under caution data have been collected and information on local authority prosecutions and convictions is not yet available for 2008-09.

Source:
Housing Benefits Operational Database (HOBOD) using local authority housing benefit administrative returns.

Social Security Benefits: Overseas Residence

Stephen Hammond: To ask the Secretary of State for Work and Pensions what estimate she has made of the amount wrongly paid in benefits to UK nationals resident abroad in the last 12 months. [276150]

Helen Goodman: Between October 2007 and September 2008 an estimated £45 million was wrongly paid to customers who continued to claim benefits to which they were not entitled while they were abroad.

In order to qualify for DWP means tested benefits, the customer must be habitually resident in the UK. The benefit rules, for some benefits, allow customers to travel abroad for a certain period of time without it affecting their benefit entitlement. The estimates used in this PQ relate to customers that have exceeded this period of time abroad.

We do not capture customer nationality as part of the claims process and are therefore unable to provide specific figures for UK nationals.

Stephen Hammond: To ask the Secretary of State for Work and Pensions (1) what estimate she has made of the amount of benefits wrongly claimed by UK nationals resident abroad in each of the last five years. [277039]

(2) how much was reclaimed from UK nationals resident abroad for benefits wrongly claimed in each of the last five years; [277039]

(3) what the administrative costs of reclaiming benefits wrongly claimed by UK nationals resident abroad were in each of the last five years. [277040]

Helen Goodman: We do not capture customer nationality as part of the claims process and are therefore unable to provide specific figures for UK nationals.

The only available information on the amounts wrongly paid to customers who continued to claim benefits to which they were not entitled while they were abroad is provided for each of the last five years in the following table.

	Amount wrongly paid (£ million)
April 2004 to March 2005	44
April 2005 to March 2006	40
April 2006 to March 2007	36
April 2007 to March 2008	43
October 2007 to September 2008	45

Notes:
In order to qualify for DWP means tested benefits, the customer must be habitually resident in the UK. The benefit rules, for some benefits, allow customers to travel abroad for a certain period of time without it affecting their benefit entitlement. The estimates used in this PQ relate to customers that have exceeded this period of time abroad. The information about how much was reclaimed from UK nationals resident abroad for benefits wrongly claimed in each of the last five years and the administrative costs of reclaiming these benefits is not available.

Source:
National Statistics

Social Security Benefits: Research

Mr. Drew: To ask the Secretary of State for Work and Pensions what research her Department is undertaking into the effects of consumer debt on the benefits system. [284731]

Jim Knight: My Department part funds the Wealth and Assets Survey. The survey is a longitudinal survey that collects information about the economic well-being of households and individuals including their assets and debts, pension provision, how wealth is distributed and factors that may affect financial planning. The survey panel is made up of 32,000 households who are interviewed once every two years. The first full wave findings are due to be released at the end of 2009, with the second wave currently being undertaken.

In relation to debt, the Wealth and Assets Survey collects information on household non-mortgage debt and on respondents' attitudes to debt. The survey also collects information on the benefits and tax credits that respondents are in receipt of.

The Office for National Statistics is conducting the survey which is partly funded by my Department along with several other Government Departments such as BIS, HMT, HMRC, CLG, the Scottish Government and the Cabinet Office.

Winter Fuel Payments

Mark Williams: To ask the Secretary of State for Work and Pensions when she plans to announce the dates of the qualifying week for the Winter Fuel Payment; and if she will make a statement. [285201]

Angela Eagle: The qualifying week is set by regulations as the week beginning on the third Monday in September. So, for winter 2009-10, it is the week commencing 21 September 2009.

Pollution: Fines

Martin Horwood: To ask the Secretary of State for Work and Pensions how much has been levied in fines by the Health and Safety Executive (HSE) against *(a)* companies, *(b)* local authorities and *(c)* individuals for offences committed in relation to pollution of each type (i) in total and (ii) in each region in each year since 1997; and what assessment she has made of the effectiveness of fines levied by the HSE on polluters in preventing further incidences of pollution on the part of (A) those upon whom fines have been imposed and (B) others. [286466]

Jim Fitzpatrick *[holding answer 13 July 2009]*: I have been asked to reply.

This matter falls within the remit of the Environment Agency; the Health and Safety Executive does not levy pollution-related fines.

The relevant Environment Agency national enforcement database reports have been placed in the Library of the House. The national enforcement database came online in April 1999. Data are therefore not available for 1997, 1998 and the first three months of 1999.

The national enforcement database has categories for individuals and companies, but local authorities are classified with "other legal entities". The reports provided here titled "other" therefore include local authorities along with other non-commercial corporate entities.

The Environment Agency will prosecute a serious pollution offence only where prosecution is considered to be in the public interest. The level of fine imposed is a matter for the sentencing court. All aggravating and mitigating factors and the defendant's ability to pay will be taken into account.

Prosecution is only one of a number of interventions that the Environment Agency employs and other enforcement tools will also have some effect. The Environment Agency publishes an annual Spotlight report which provides details of the performance of regulated industry sectors and the relevant enforcement action taken. The 2008 report can be viewed at:

http://publications.environment-agency.gov.uk/pdf/GEHO0708BOFX-E-E.pdf?lang=_e

CHILDREN, SCHOOLS AND FAMILIES

Apprenticeships, Skills, Children and Learning Bill

John Penrose: To ask the Secretary of State for Children, Schools and Families what the evidential basis was for the statement that, Costs to existing recognised Awarding Bodies are expected to be neutral, on average, in the Impact Assessment of the Apprenticeships, Skills, Children and Learning Bill relating to the creation of the awarding body regulator, Ofqual and the QCDA. [285500]

Mr. Iain Wright: The provisions in the Apprenticeships, Skills, Children and Learning Bill to create Ofqual have been widely welcomed by awarding bodies and others. The costs of the reforms will depend in large part on how awarding bodies respond to the new regulatory regime. The move to a more strategic approach to regulation—so that Ofqual will not need to accredit every qualification—should reduce awarding body costs. But Ofqual's market regulation role, with its strong powers to ensure value for money in the provision of qualifications, may increase the demands on awarding bodies; and awarding bodies may also have to develop relationships with the new Qualifications and Curriculum Development Agency, which will support the development of qualifications. Overall, our best assessment is therefore that the impact of the plans on existing awarding bodies will be cost-neutral.

Children: Day Care

Mr. Jenkins: To ask the Secretary of State for Children, Schools and Families how many registered childcare places for children under eight years old there were in Tamworth constituency in each year since 1997. [286335]

Dawn Primarolo: The information requested is not available below local authority level.

Annette Brooke: To ask the Secretary of State for Children, Schools and Families pursuant to his answer of 23 June 2009, *Official Report*, column 819W, on children: day care, what his definition is of the term philosophical convictions contained in the Early Years Foundation Stage exemption document. [286841]

Dawn Primarolo: Parents may apply to their early years provider for an exemption in respect of their child, where they consider that the Early Years Foundation

Stage learning and development requirements, or some element of them, cannot be reconciled with their religious or philosophical convictions.

The term 'religious and philosophical convictions' is a concept that is understood in legal terms and appears in case law, such as that on the European convention on human rights. It refers to a cogent and serious belief-set or conviction worthy of respect in a democratic society.

Children: Protection

Mike Penning: To ask the Secretary of State for Children, Schools and Families what steps his Department is taking to improve child protection services in *(a)* Hemel Hempstead constituency, *(b)* Dacorum and *(c)* Hertfordshire. [284739]

Dawn Primarolo: Ofsted's 2007 Joint Area Review of Hertfordshire county council's children's services judged services for safeguarding and looked after children to be inadequate. An external support team worked with the council to improve performance management and safe staffing arrangements. The Department for Children, Schools and Families also part-funded an interim head of fieldwork services for a period of six months. After close monitoring, the council exited intervention following the 2008 annual performance assessment, in which Hertfordshire was judged to be adequate for 'Staying Safe'. The Government Office for the East of England is continuing to work closely with Hertfordshire county council, as Children's Safeguarding Authority, and partner organisations and agencies to strengthen child protection services in the area.

The Government have made clear its determination to make sure that child protection services in every area meet the needs of the vulnerable children they serve. That is why we asked Lord Laming to prepare an urgent report of progress across the country in implementing effective arrangements for safeguarding children.

The Government have accepted all of Lord Laming's recommendations and published a detailed action plan on 6 May 2009.

Children's Play: Finance

Harry Cohen: To ask the Secretary of State for Children, Schools and Families what funding his Department has provided for the enhancement of public play facilities in the London Borough of *(a)* Redbridge and *(b)* Waltham Forest in the last 12 months. [284449]

Dawn Primarolo: Following the commitments made in the Children's Plan in 2007 and the national Play strategy in 2008, every top tier local authority in England will receive either play pathfinder or playbuilder funding between 2008-11 through the play capital investment programme.

On average all play pathfinder authorities will receive around £2 million capital funding and £500,000 revenue funding, while playbuilder authorities will receive around £1 million capital and £45,000 revenue funding. Play pathfinder authorities will use their allocated funding to deliver a minimum of 28 play areas plus a new staffed adventure playground, while playbuilder authorities will deliver a minimum of 22 play areas by 2011. The play areas that are delivered can be either completely new areas or existing areas which are significantly refurbished.

Redbridge is one of 43 playbuilder authorities across England who began receiving play funding from April 2008, as part of the first wave of the play capital investment.

Class Sizes: York

Hugh Bayley: To ask the Secretary of State for Children, Schools and Families what the average pupil to teacher ratio in *(a)* primary and *(b)* secondary schools in York was in each year since 1996-97. [285703]

Mr. Coaker: I refer my hon. Friend to the reply given on 26 November 2008, *Official Report*, column 1837W.

Local authority figures are not yet available for 2009, but will be published later this summer.

Connexions

Mr. Sanders: To ask the Secretary of State for Children, Schools and Families what recent assessment he has made of the effectiveness of services provided through Connexions. [285424]

Mr. Iain Wright: Since April 2008 local authorities have been responsible for providing Connexions services. Under the Education and Skills Act 2008 they have a statutory duty to deliver Connexions, which places services within scope of the Comprehensive Area Assessment. Connexions services contribute to targets in local area agreements. We expect local authorities to assess the quality of their information, advice and guidance (IAG) provision, including that commissioned from Connexions services, against national IAG Quality Standards.

Departmental Internet

Mr. Watson: To ask the Secretary of State for Children, Schools and Families when his Department plans to update its web browsers from Internet Explorer 6. [285021]

Mr. Coaker: The Department for Children, Schools and Families currently operates Microsoft Internet Explorer Version 6.0 Service Pack 2. The proposed DCSF Information Strategy (incorporating Systems and Technology) plans are to update the browser during 2010/11 financial year.

Pupils

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many maintained schools have fewer than *(a)* 40, *(b)* 50, *(c)* 60, *(d)* 70, *(e)* 80, *(f)* 90 and *(g)* 100 pupils; and if he will make a statement. [281305]

Mr. Coaker: Local authorities are responsible for planning the pattern of school provision most appropriate to their area. They have to ensure that there are sufficient school places, the needs of the local community are served and good quality education is provided in a cost effective way. Virtually all small primary schools serve rural communities.

The requested information is shown in the table.

Maintained nursery, primary, state-funded secondary and maintained special schools, size of school, as at January 2009 (provisional), England

	All schools	Schools with fewer than 40 pupils[1]	Schools with fewer than 50 pupils[1]	Schools with fewer than 60 pupils[1]	Schools with fewer than 70 pupils[1]	Schools with fewer than 80 pupils[1]	Schools with fewer than 90 pupils[1]	Schools with fewer than 100 pupils[1]
Maintained Nursery	437	15	35	80	135	204	270	313
Maintained Primary[2]	41	328	615	930	1,274	1,630	1,997	2,410
State-funded Secondary[2, 3]	3,347	0	0	1	2	3	3	5
Maintained Special[4]	983	114	194	294	397	504	594	654

[1] Includes solely registered pupils.
[2] Includes middle schools as deemed.
[3] Includes CTCs and Academies.
[4] Includes General Hospital Schools.
Source:
School Census.

Pupils: Radiation Exposure

Mr. Andrew Mitchell: To ask the Secretary of State for Children, Schools and Families what recent assessment he has made of the effects on schoolchildren of potential radiation emissions from wireless local area networks in schools; and if he will direct local education authorities to adopt a precautionary approach to the approval of the *(a)* installation and *(b)* operation of wireless local area networks in schools. [285238]

Ms Diana R. Johnson: The Health Protection Agency (HPA) is the authoritative body on health issues relating to wireless technology. The HPA has consistently and clearly advised schools and local authorities that it does not consider there to be any problem with the safety of WiFi. Its current guidelines state there is no scientific evidence of any health risks from WiFi or that exposures exceed international guidelines and there is absolutely no reason schools should stop using them.

The HPA announced further research into the use of WiFi in October 2007, details at:

http://www.hpa.org.uk/webw/HPAweb&HPAwebStandard/HPAweb_C/1195733726123?p=1171991026241

Becta is the Government Agency with responsibility for providing advice to schools and others on various technologies and their use, including their safe use.

Becta follows the HPA's latest guidance in the advice it produces for schools and other education providers. Becta's current guidance on the use of WiFi equipment in schools is that it provides a useful and flexible option to complement rather than replace hard wired systems. This advice will be reviewed and updated accordingly as and when new guidance is published by the HPA. Becta have engaged with the HPA on elements of the research programme and will monitor closely any emerging findings to ensure that children are offered the best education in a safe and secure environment.

Pupils: Travel

Norman Baker: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the number and percentage of children aged 16 years of age and under who *(a)* walked and *(b)* cycled to school in each year since 1997. [284809]

Mr. Coaker: Information on pupils' mode of travel to school has been collected only since 2007. The available information is shown in the table.

Maintained primary[1], state-funded secondary[1, 2] and special schools[1]: pupils[4, 5] 16 and under who walked or cycled to school, as at January each year, England

	Pupils who walk to school		Pupils who cycle to school		Pupils for whom travel data were supplied[6]	
	Number	Percentage	Number	Percentage	Number	Percentage
2007	2,531,370	50.0	94,230	1.9	5,065,810	69.0
2008	3,100,510	50.2	120,190	1.9	6,172,180	84.8
2009[p]	3,502,890	50.9	131,300	1.9	6,887,060	95.1

[1] Includes middle schools as deemed.
[2] Includes CTCs and academies.
[3] Includes maintained and non-maintained special schools. Excludes general hospital schools.
[4] Pupils aged 16 and under as at 31 August in the previous year.
[5] Excludes boarders.
[6] Expressed as a percentage of those pupils for whom travel data were supplied.
[7] The collection of mode of travel to school data are only mandatory at pupil level for schools with an approved school travel plan.
[p] Provisional
Note:
Figures have been rounded to the nearest 10.
Source:
School Census.

Schools: Bullying

Bob Spink: To ask the Secretary of State for Children, Schools and Families if he will require schools to record incidents of *(a)* bullying between pupils and *(b)* verbal and physical abuse of school staff by pupils. [285726]

Mr. Coaker: Yes. On 26 September 2008, my predecessor Jim Knight and his colleague Kevin Brennan announced the Government's plan to make it compulsory for schools to record incidents of bullying between pupils, and incidents of verbal or physical abuse against school staff. We plan to launch a full consultation on draft regulations in the autumn, and to lay the regulations next year with a view to them coming into force in September 2010.

Schools: Capital Investment

Hugh Bayley: To ask the Secretary of State for Children, Schools and Families what capital funding has been allocated by his Department to schools in the City of York in each year since 2003. [285782]

Mr. Coaker: Capital funding allocated by the Department to the City of York for schools in each year since 2003 is set out in the following table:

	£ million
2003-04	11.1
2004-05	11.4
2005-06	10.7
2006-07	23.0
2007-08	37.5
2008-09	6.8
2009-10	13.7

The allocations include £14.2 million for targeted capital funding in 2006-07, £28.5 million for a One School Pathfinder School in 2007-08, and £3.0 million for the new Primary School programme in 2009-10, together with an advance in 2009-10 of funding brought forward from 2010-11.

Schools: Crimes of Violence

Dr. Kumar: To ask the Secretary of State for Children, Schools and Families what measures his Department has in place to ensure the protection of children against sexual assault on school premises. [285331]

Dawn Primarolo: Section 175 of the Education Act 2002 requires governing bodies of maintained schools to make arrangements to ensure that their functions are carried out with a view to safeguarding and promoting the welfare of children. In meeting this duty, schools must have regard to the guidance contained in "Safeguarding Children and Safer Recruitment in Education". This sets out the safeguarding responsibilities of all local authorities and schools, including recruitment best practice, designed to safeguard children from all forms of abuse including sexual abuse. To comply with the guidance, governing bodies of all maintained schools should ensure that;

the school has a child protection policy in place that is in accordance with local authority guidance and locally agreed inter-agency procedures;

the school operates safe recruitment procedures and carries out appropriate checks on staff and volunteers who work with children;

the school operates procedures for dealing with allegations of abuse that comply with guidance from the local authority and locally agreed inter-agency procedures;

a senior member of the school's leadership team is designated to take lead responsibility for dealing with child protection issues, providing advice and support to other staff, liaising with the local authority and working with other agencies;

in addition to basic child protection training the designated person undertakes training in inter-agency working to standards agreed by the local safeguarding children board, and refresher training at two yearly intervals;

all staff who work with children undertake training to equip them to carry out their responsibilities for child protection effectively, and refresher training at three yearly intervals;

temporary staff and volunteers who work with children are made aware of the school's arrangement for child protection and their responsibilities;

they remedy without delay any deficiencies or weaknesses in regard to child protection arrangements that are brought to their attention;

a member of the governing body is nominated to be responsible for liaising with the LA in the event of allegations of abuse being made against the head teacher;

they review their policies and procedures annually and provide information to the local authority about them and about how the above duties have been discharged.

Schools: Finance

Mr. Scott: To ask the Secretary of State for Children, Schools and Families whether any elements of the Targeted Capital Fund have been subject to a moratorium on spending. [284377]

Mr. Coaker: No elements of the Targeted Capital Fund, where allocations to schools and local authorities have been confirmed, are subject to a moratorium on spending. However, the Standards and Diversity Targeted Capital Fund is currently closed for new applications. We have always been clear that further allocations would depend on the availability of funds, and these have now been committed.

Schools: Manpower

Mr. Laws: To ask the Secretary of State for Children, Schools and Families if he will place in the Library a copy of the school workforce census form. [286561]

Mr. Coaker: The school workforce census is an electronic data collection from schools and local authorities. The Census is being piloted during 2009 and will go live in 2010. As it is an electronic data collection there is no form as such but a copy of the technical specification for the collection is publicly available on the Department's TeacherNet pages

http://www.teachernet.gov.uk/management/ims/datacollections/swfcpilot/

Science: Education

Lembit Öpik: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the likely effects on levels of attainment in science subjects by children at secondary level of the proposal of the Rose Review to replace science as a core subject in primary schools; and if he will make a statement. [284011]

Ms Diana R. Johnson: We have not made a formal assessment of the implications for levels of attainment in science subjects for secondary pupils of the proposed revisions to the primary curriculum.

In the proposals for the new primary curriculum subjects will no longer be designated as core and foundation. The essential knowledge, skills and understanding of science are all included within the 'scientific and technological understanding' area of learning. The Rose Review Team worked closely with the science community to ensure that this area of learning contains the scientific knowledge, skills and understanding they consider is essential for children aged 5-11 to learn.

The Government remain committed to encouraging the take up of science subjects at GCSE and beyond. The new pupil guarantee in the White Paper will ensure that every pupil understands that they have, and are encouraged to take up, the opportunity to study at least two science GCSEs and those who would benefit from a more stretching science curriculum have the opportunity to study triple science GCSE (physics, chemistry and biology).

Secondary Education: Gifted Children

Andrew Stunell: To ask the Secretary of State for Children, Schools and Families how many and what proportion of *(a)* primary and *(b)* secondary school pupils in (i) each local authority area in the North West and (ii) England are on gifted and talented programmes. [285376]

Ms Diana R. Johnson: The Department does not collect data on which pupils in schools are on gifted and talented programmes. Through the School Census schools are asked to confirm the gifted and talented pupils they have identified. In the summer 2008 Census, 95 per cent. of secondary schools and 78 per cent. of primary schools nationally confirmed they were identifying gifted and talented pupils. The comparable figures for North West were 94 per cent. and 76 per cent. respectively.

The following table shows the number and proportion of gifted and talented pupils attending primary and secondary schools in the local authorities in the North West and England.

	Maintained primary schools[1]		*Maintained secondary schools*[1,5]	
	Number of gifted and talented pupils[2]	*Percentage of gifted and talented pupils*[4]	*Number of gifted and talented pupils*[2]	*Percentage of gifted and talented pupils*[4]
England[3]	347,400	8.4	454,770	14.2
North West[3]	48,610	8.3	56,590	12.9
Blackburn with Darwen	865	6.0	1,046	11.0
Blackpool	975	8.5	820	9.8
Bolton	1,424	5.6	2,410	12.7
Bury	279	1.7	1,503	13.2
Cheshire	4,484	8.5	6,827	15.2
Cumbria	2,462	6.3	3,594	10.4
Halton	536	5.3	1,109	14.4
Knowsley	1,086	7.3	670	8.0
Lancashire	11,896	13.1	10,668	15.0
Liverpool	2,586	7.0	3,753	12.9
Manchester	4,037	9.9	3,138	14.0
Oldham	868	3.7	1,616	10.1
Rochdale	1,185	6.0	1,110	8.8
Salford	869	4.6	1,156	10.8
Sefton	1,954	8.7	2,208	11.4
St. Helens	1,811	12.0	1,224	11.0
Stockport	1,556	6.9	1,677	11.4
Tameside	2,014	10.2	2,236	14.9
Trafford	873	4.5	1,985	12.2
Warrington	1,649	9.5	2,194	16.1
Wigan	2,461	9.6	2,550	12.7
Wirral	2,763	10.8	3,096	13.4

[1] Includes middle schools as deemed primary/secondary.
[2] Includes pupils with sole and dual (main) registration.
[3] National figures have been rounded to the nearest 10.
[4] The number of gifted and talented pupils expressed as a percentage of the total number of pupils.
[5] Excludes academies.

School Census summer 2008.

Secondary Education: School Choice

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many and what percentage of parents in each local authority were offered *(a)* their fourth preference, *(b)* their fifth preference, *(c)* their sixth preference and *(d)* none of their preferences for secondary school in the last year for which data are available. [260867]

Ms Diana R. Johnson *[holding answer 5 March 2009]:* The following table contains the information requested and is derived from data collected on National Offer day in March 2009.

Where parents did not receive an offer on National Offer day, this is likely to be because the local authority is giving them a further opportunity to express preferences for schools with vacant places or because they did not require an alternative offer if a place was not available at their preferred school e.g. in authorities with mixed two and three-tier schools systems, parents of children at middle schools may apply for a secondary school place, but choose to remain at the middle school if a place is not available at their preferred secondary school.

	Number		*Percentage*			
Local authority	*Applications received from parents of children resident in the local authority area*	*Preferences offered by the local authority*	*Applicants receiving an offer for their fourth preference school*	*Applicants receiving an offer for their fifth preference school*	*Applicants receiving an offer for their sixth preference school*	*Applicants without an offer corresponding to any preference*

Social Workers: Essex

Bob Spink: To ask the Secretary of State for Children, Schools and Families how many full-time children's social workers there were in *(a)* Essex and *(b)* Castle Point in (i) 1997 and (ii) the latest period for which figures are available. [285476]

Dawn Primarolo: Information on all staff, including children's social workers, directly employed by social services departments is collected through the Personal Social Services Staff of Social Services Departments return (SSDS001) which was introduced in 1993 by the Department of Health. In 2004-05 responsibility for the collection of this data passed to the NHS Information Centre for Health and Social Care. These data are published on an annual basis with breakdown by local authority available in the supporting annexes.

Reports published from 2006 onwards are available on the NHS Information Centre website here:

http://www.ic.nhs.uk/statistics-and-data-collections/social-care/childrens-social-care

Reports published between 1996 and 2005 are available on the Department of Health website here:

http://www.dh.gov.uk/en/Publicationsandstatistics/Statistics/StatisticalWorkAreas/Statisticalworkforce/DH_4000233

Sure Start Programme: York

Hugh Bayley: To ask the Secretary of State for Children, Schools and Families how many *(a)* children and *(b)* families in York have received support from his Department's Sure Start programme since the programme's inception. [285780]

Dawn Primarolo: The city of York currently has eight Sure Start children's centres offering access to services to over 6,000 children under five and their families. One further centre is planned by 2010 in order to provide universal coverage of children's centre services for children under five and their families in the local authority area. The Department does not hold information centrally on how many families have received support from the Sure Start programme in York since the programme's inception, but we would expect the local authority, as the body responsible for delivering children's centres, to hold data on usage of centres.

Teachers and Teaching Assistants: North East

Dr. Kumar: To ask the Secretary of State for Children, Schools and Families (1) how many teachers were employed in schools in *(a)* the North East, *(b)* the Tees Valley and *(c)* Middlesbrough South and East Cleveland constituency in each year since 1997; [285223]

(2) how many classroom assistants were employed in schools in *(a)* the North East, *(b)* Tees Valley and *(c)* Middlesbrough South and East Cleveland constituency in each year since 1997. [285329]

Mr. Coaker: The following table shows the number of full-time equivalent teachers and teaching assistants in local authority maintained schools in the North East Government office region, Tees Valley sub region and Middlesbrough, South and East Cleveland parliamentary constituency in January 1997 to January 2008.

Full-time equivalent teachers and teaching assistants in local authority maintained schools[1]. Years: January 1997 to 2008. Coverage: North East Government office region, Tees Valley sub region and Middlesbrough, South and East Cleveland parliamentary constituency

	Teachers[2]			Teaching assistants[3]		
	North East[4]	Tees Valley[4, 5]	Middlesbrough, South and East Cleveland[6]	North East[6]	Tees Valley[5, 6]	Middlesbrough, South and East Cleveland[6]
1997	22,200	5,170	760	2,870	670	100
1998	21,950	5,910	740	2,990	820	110
1999	22,020	5,860	730	3,130	830	100
2000	22,010	5,940	730	3,450	950	100
2001	22,540	5,900	730	4,280	1,180	130
2002	22,910	6,170	760	4,010	1,030	140

2008	22,640	5,860	650	8,030	2,410	300

[1] Excludes academies.
[2] Qualified and unqualified teachers.
[3] Teaching assistants include teaching assistants, higher level teaching assistants, special needs support staff and minority ethnic pupil support staff.
[4] Source: Annual survey of teachers in service and teacher vacancies, 618g.
[5] Tees Valley Sub Region is made up from local authorities Hartlepool, Middlesbrough, Redcar and Cleveland, Stockton and Darlington. Darlington became a new authority in 1998 and is therefore not included in the 1997 figures.
[6] Source: School Census.
Note:
Figures are rounded to the nearest 10.

Teachers: Degrees

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many and what proportion of National Challenge schools have staff with a degree in *(a)* English, *(b)* mathematics, *(c)* physics, *(d)* chemistry and *(e)* biology. [286693]

Mr. Coaker: The information requested is not collected centrally.

Teachers: Pay

Hugh Bayley: To ask the Secretary of State for Children, Schools and Families what the average full-time equivalent gross pay of teachers has been in schools in York in *(a)* cash and *(b)* real terms in each year since 1997. [285823]

Mr. Coaker: Information on the average salary of teacher is available only for full-time regular qualified teachers in service in local authority maintained schools. The following table provides this information for York local authority in both cash and real terms in each year, March 1997 to 2007, the latest year available.

Average salary of full-time regular qualified teachers in local authority maintained schools, York local authority, March 1997 to 2007

	Gross average salary (£)[1]	
	Actual	Real terms[2]
1997	22,500	28,500
1998	23,200	28,600
1999	24,100	29,100
2000	24,900	29,500
2001	26,900	31,500
2002	27,800	31,800

Average salary of full-time regular qualified teachers in local authority maintained schools, York local authority, March 1997 to 2007

	Gross average salary (£)[1]	
	Actual	Real terms[2]
2003	29,700	32,900
2004	30,600	33,000
2005	32,100	33,700
2006[3]	33,100	34,100
2007[3]	34,300	34,300

[1] Gross salary of teachers of all grades including allowances.
[2] Adjusted using HM Treasury GDP deflator.
[3] Provisional.
Note:
Figures are rounded to the nearest £100. *Source:* Database of Teacher records.

Teachers: South East

Mike Penning: To ask the Secretary of State for Children, Schools and Families how many teachers were employed in schools in *(a)* Hemel Hempstead constituency, *(b)* Dacorum, *(c)* Hertfordshire and *(d)* the South East in each year since 1997. [285894]

Mr. Coaker: The following table shows the number of full-time equivalent number of teachers in local authority maintained schools in Hemel Hempstead parliamentary constituency, Dacorum district, Hertfordshire local authority and the South East government office region, in January 1997 to January 2008.

Information for all the years requested for Dacorum district authority is available only at disproportionate cost.

Full-time equivalent teachers[1] in local authority maintained schools[2]. Years: January 1997 to 2008. Coverage: Hemel Hempstead parliamentary constituency, Dacorum district, Hertfordshire local authority and South East Government office region

	Hemel Hempstead[5]	Dacorum[3]	Hertfordshire[4]	South East[4]
1997	830	1,130	9,040	59,830

Teachers: Yorkshire and The Humber

Hugh Bayley: To ask the Secretary of State for Children, Schools and Families how many full-time equivalent *(a)* teachers, *(b)* teaching assistants and *(c)* support staff there were in local education authority schools in (i) Yorkshire and the Humber and (ii) City of York in (A) 1997 and (B) the latest period for which figures are available. [285702]

Mr. Coaker: The number of full-time equivalent teachers, teaching assistants and support staff in each year since 1997 have been published in the Statistical First Release, "School Workforce in England (including Local Authority level Figures), January 2008 (Revised)". They are located in tables 19, 26 and 25 respectively in the following location:

http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000813/index.shtml

COMMUNITIES AND LOCAL GOVERNMENT

62 South Eaton Place

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government at what sale price his Department's property at 62 South Eaton Place was marketed; for how long it was marketed; and whether the property has now been sold. [284478]

Mr. Woolas: I have been asked to reply.

62 South Eaton Place was placed on the market in September 2008 at an indicated guide price of £4 million. The property remains for sale and viewings are continuing.

Aerials: Planning Permission

Mr. Andrew Mitchell: To ask the Secretary of State for Communities and Local Government what guidance he issues to planning authorities on their consideration of potential health effects arising from the operation of proposed mobile telephone masts; what account he takes of the guidelines for protection from such radiation established by the International Commission on Non-Ionizing Radiation Protection in establishing such guidance; and if he will make a statement. [285240]

Mr. Ian Austin: Planning policy guidance note 8: Telecommunications (PPG8) states that health considerations can be a material consideration in determining applications for planning permission and prior approval. Whether such matters are material in a particular case is ultimately a matter for the courts. It is for the decision maker to determine what weight to attach to such considerations in any particular case.

PPG8 goes on to say that if a proposed mobile phone mast base station meets the International Commission on Non-Ionizing Protection (ICNIRP) guidelines for public health it should not be necessary for a local planning authority to consider further the health aspects and concerns about them.

Airports: Planning Permission

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what guidance his Department issues on the permitted development rights which apply in respect of airports. [286531]

Mr. Ian Austin: No specific guidance has been issued concerning the permitted development rights at airports. However, general guidance on publicity for statutory undertakers, including airport operators, has been issued

in DOE circulars 15/92 and 9/95. This makes it clear that although statutory undertakers are not required to submit a planning application when carrying out permitted development, they should inform the local planning authority and the public if they consider that their proposal is likely to have a significant effect on amenity and environment before the proposals are finalised.

Allotments

Mike Gapes: To ask the Secretary of State for Communities and Local Government what applications each Government Office has *(a)* received, *(b)* approved and *(c)* not approved from each local authority in its region for disposal of statutory allotments between 1 April 2007 and 31 March 2009; what the proposed alternative use of the allotments was in each case; and what the reason for (i) approval and (ii) refusal was in each case. [285487]

Mr. Ian Austin: The Secretary of State's consent will only be given if he is satisfied that:

the allotment in question is not necessary and is surplus to requirement;

adequate provision will be made for displaced plot holders, or that such provision is not necessary or is impracticable;

the number of people on the waiting list has been effectively taken into account;

the authority has actively promoted and publicised the availability of allotment sites and has consulted the National Society of Allotment and Leisure Gardeners: and

the implications of disposal for other relevant policies, in particular development plan policies, have been taken into account.

During the period 1 April 2007 and 31 March 2009 98 applications for consent to dispose of statutory allotment have been determined. This includes 56 applications which were approved, two applications which were refused, five applications which were withdrawn and for 35 applications consent was not required or the applications were taken no further. In addition to these 98 determined applications there remained four still under consideration.

Those applications that were approved or refused were judged by the Government offices, on behalf of the Secretary of State, as either satisfying or not satisfying the criteria on the basis of which the Secretary of State is to grant consent for the disposal of statutory allotment sites.

Since April 2008 Government office west midlands have been responsible for determining all statutory allotment consent to dispose applications, on behalf of Secretary of State.

Coastal Areas: Economic Situation

Mr. Sanders: To ask the Secretary of State for Communities and Local Government if he will make an assessment of the economic performance of seaside resorts in England. [285209]

Ms Rosie Winterton: "England's Seaside Towns—A Benchmarking Study", published by the Department in November 2008 presents findings on the socio-economic performance of England's 37 principal seaside resorts (over 10,000 population) and compares the figures with regional and national averages. The report is available on line at:

http://www.communities.gov.uk/publications/citiesandregions/englishseasidetowns

The Department is about to commission a benchmarking study of smaller seaside towns (below 10,000 population) in England. This will complement the earlier benchmarking study and provide a range of data on socio-economic performance. It is being jointly funded with the Department for the Environment, Food and Rural Affairs and the Commission for Rural Communities. The final report will be published in the autumn.

Councillors

Mr. Mullin: To ask the Secretary of State for Communities and Local Government what guidance he provides to local authorities on declarations by councillors who are freemasons; and whether that guidance has been amended since 1997. [285566]

Ms Rosie Winterton: The Standards Board for England frequently issues guidance to local authorities about members' conduct. The last guidance that included freemasonry was issued in 2007. Prior to this in 2004 the Standards Board produced guidance about what councillors who are freemasons have to register and declare.

Eco-Towns: Public Consultation

Robert Neill: To ask the Secretary of State for Communities and Local Government how many responses were received to his Department's consultation on the planning policy statement on eco-towns; and what the timetable is for publication of the Government response to the consultation. [286706]

John Healey: The consultation on the eco-towns programme, including the draft Planning Policy Statement closed on 30 April 2009. I intend to publish a Government response together with a consultation summary report of responses received, information requested, before the summer recess.

Home Information Packs

Mr. Oaten: To ask the Secretary of State for Communities and Local Government pursuant to his answer on 24 June 2009, *Official Report*, column 958W, on home information packs, if he will assess performance of local authority weights and measures authorities in enforcing home information pack duties under the Housing Act 2004. [286621]

John Healey: It is for individual trading standards offices to decide on how to exercise their enforcement duties, including those that apply to home information packs, in the light of local priorities.

Housing: Armed Forces

Bob Spink: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 2 July 2009, *Official Report*, column 369W, on housing: armed forces, for what reasons data on

applications for assistance under the New Build HomeBuy and intermediate rent schemes are not held centrally. [285532]

John Healey: The Homes and Communities Agency does not collect data on the number of applications for each of the homebuy products. Households make applications for the scheme through their local homebuy agent. When applying for the homebuy scheme, applicants are not required to choose between the products at the application stage and often select a number of options. This information therefore does not give a reliable indication of the number of applications for a particular product.

Housing: Low Incomes

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government (1) how many transactions have been completed under the HomeBuy Direct scheme to date; [283972]

(2) how many completed transactions there have been under the *(a)* Social HomeBuy and *(b)* HomeBuy Direct scheme. [284168]

John Healey: I refer the hon. Member to the answer given by my right hon. Friend, the Member for Derby South (Margaret Beckett) to the hon. Member for Buckingham (John Bercow) on 7 May 2009, *Official Report*, columns 390-92W.

As at the end of June, 194 properties had been sold through HomeBuy Direct.

Alistair Burt: To ask the Secretary of State for Communities and Local Government (1) how much funding has been *(a)* allocated to and *(b)* spent in the East of England under the MyChoice HomeBuy scheme in 2009-10; [285111]

(2) how much funding was allocated to the East of England under the MyChoice HomeBuy scheme in *(a)* 2006-07, *(b)* 2007-08 and *(c)* 2008-09. [285112]

John Healey: I refer the hon. Member to the answer my right hon. Friend the Member for Derby South (Margaret Beckett) gave to the hon. Member for Welwyn Hatfield (Grant Shapps) on 21 May 2009, *Official Report*, columns 1540-42W, regarding funding for the MyChoice HomeBuy scheme in 2008-09.

In the first quarter of 2009-10 the Homes and Communities Agency spent approximately £7 million on the MyChoice HomeBuy scheme in the East of England.

The MyChoice HomeBuy scheme was launched in April 2008 and therefore no data are available for the 2006-07 or 2007-08 financial years.

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government what recent estimate he has made of the number of apprenticeship places which have been created or safeguarded by social house-building projects to date. [286767]

Mr. Ian Austin: Communities and Local Government's biggest lever in terms of supporting apprenticeships in the home building sector is to maintain investment in and delivery of programmes for regeneration, new social housing and decent homes.

Since December 2008, these programmes have been delivered by the Homes and Communities Agency (HCA). The HCA supports the Prime Minister's commitment to increase the number of apprenticeships by 35,000 by 2010. However, the HCA is now undertaking work to identify the baseline for what is currently being achieved, to set realistic targets for future funding and to monitor and measure improvement over time.

Industrial Estates: Planning Permission

Miss McIntosh: To ask the Secretary of State for Communities and Local Government how many planning applications for the development of business sites in *(a)* Vale of York constituency, *(b)* North Yorkshire and *(c)* England were (i) made and (ii) approved in each year since 1997. [286301]

Mr. Ian Austin: This information is not available for constituency areas. Statistics are, however, available for the county of North Yorkshire. The following table shows the numbers of applications decided and granted by local planning authorities in North Yorkshire and in England

The figures shown are the totals of applications for commercial, retail and industrial developments.

Further information for individual local planning authorities is available Table 1.6 in the Annual Development Control Statistics publication at the following web link:

http://www.communities.gov.uk/publications/corporate/statistics/developmentcontrol200708

Planning decisions on business sites in North Yorkshire and England

	North Yorkshire		England	Business sites[1]
	Decisions	Granted	Decisions	Granted
1997-98	522	467	34,700	31,300
1998-99	522	454	33,400	30,100
1999-2000	496	447	30,300	27,600
2000-01	455	411	28,700	26,000
2001-02	478	430	28,500	25,600
2002-03	461	423	28,000	24,900
2003-04	382	330	26,600	23,400
2004-05	329	280	26,100	22,600
2005-06	322	271	25,400	21,900
2006-07	371	310	24,600	21,000
2007-08	341	284	23,700	21,900
2008-09[2]	344	293	21,300	18,500

[1] Includes offices, research and development, light industry, general industry, storage, warehousing, retail distribution and servicing.
[2] Provisional.

Communities and Local Government General Development Control Returns, PS2/PSF

Local Government: Apprentices

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government what recent estimate he has made of the number of *(a)* apprenticeships and *(b)* graduate trainee places offered by local authorities in (i) 2005-06, (ii) 2006-07, (iii) 2007-08, (iv) 2008-09 and (v) 2009-10. [286766]

Ms Rosie Winterton: We do not hold centrally information about the number of apprenticeships or graduate trainees in local government.

Local Government: Pensions

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what obligations local authorities *(a)* in and *(b)* outside London have in relation to providing scheme participants with information on deficits and surpluses in the Local Government Pension Scheme fund administered by their local authority. [286525]

Ms Rosie Winterton: Under Regulation 34(1)(d) of The Local Government Pension Scheme (Administration) Regulations 2008, Scheme administering authorities in England and Wales are required to place in their Pension Fund Annual Report a statement of the level of funding based on the most recent actuarial valuation of their funds.

The first report for the period 2008-09 must be published by 1 December 2009.

Mortgages: Government Assistance

Grant Shapps: To ask the Secretary of State for Communities and Local Government if he will place in the Library a copy of the Mortgage Rescue Scheme monitoring statistics at local authority level for May 2009. [285147]

John Healey: The mortgage rescue scheme figures for May 2009 as reported by local authorities have been provided in a table placed in the Library of the House.

Non-Domestic Rates

Justine Greening: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 11 June 2009, *Official Report*, columns 996-97W, on non-domestic rates, if he will place in the Library a copy of each of the nine written representations in favour of a five-year transitional business rates relief scheme. [285125]

Ms Rosie Winterton: The responses have been placed in the Library.

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government pursuant to the answer to my hon. Friend the Member for Bromley and Chislehurst (Robert Neill) of 18 June 2009, *Official Report*, column 471W, on non-domestic rates, whether his Department takes account of rates of *(a)* council tax and *(b)* non-domestic rate collection in determining levels of future funding for (i) local authorities, (ii) police authorities and (iii) fire authorities. [286512]

Ms Rosie Winterton: No collection rates, whether of business rates or council tax, are assumed for the purposes of allocating formula grant.

Non-Domestic Rates: Ports

Mr. Austin Mitchell: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 1 July 2009, *Official Report*, column 318W, on non-domestic rates: ports, how each port operator has been notified of the new business rate assessment in 2005; how many of the assessments for the 1,800 separate heriditaments were re-assessed before 2009; and for what reasons they were re-assessed. [285010]

Ms Rosie Winterton: The information requested could be provided only at disproportionate cost.

Ordnance Survey

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government if he will place in the Library a copy of the study produced by Ordnance Survey on the cost of a free data model, with commercially confidential elements redacted as necessary. [284566]

Mr. Ian Austin: A redacted copy of "International Comparison of Geographical Information Trading Models: A report for the Parliamentary Under-Secretary of State for Communities and Local Government on the outcomes of different trading models for Geographical Information" is available on the Ordnance Survey website at:

http://www.ordnancesurvey.co.uk/oswebsite/aboutus/foi/icgitm.html

This redacted version is an interim release pending permission from overseas' contributors to release information which they contributed.

Planning and Energy Act 2008

Mr. Fallon: To ask the Secretary of State for Communities and Local Government how many local authorities have used their powers under the Planning and Energy Act 2008 to date. [286725]

Mr. Ian Austin: In developing policies in local plans which set requirements for energy use and energy efficiency, local authorities will have regard to a number of factors including the legislative framework and the expectations placed on them by the planning policy statement on climate change. Local authorities have not been asked to explain the extent to which, in developing such policies, they have relied on the specific powers provided by the Planning and Energy Act 2008.

Planning Permission

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government whether local authorities are able to require the creation of apprenticeship or trainee places as a condition of *(a)* granting planning permission for new developments and *(b)* allocating funding to new developments. [286765]

Mr. Ian Austin: It will be for local authorities to decide whether or not it is appropriate to make any funding they provide conditional. Following the Prime Minister's announcement in January to increase the number of apprenticeships by 35,000 by 2010, the Local Government Association committed to double the number of apprentices employed, or managed via contract, by local government from 7,500 to 15,000.

Planning Permission: Fees and Charges

Miss McIntosh: To ask the Secretary of State for Communities and Local Government what fees are payable by businesses seeking to renew a planning application in respect of which planning permission has already been given; and if he will make a statement. [286303]

Mr. Ian Austin: Under current legislation there is not a separate fee to renew a planning permission, the fee payable would be the same as a new planning application.

The Minister for Housing announced on 18 June 2009 the publication of a consultation document entitled 'Greater Flexibility for Planning Permissions' which includes proposals in respect of extensions to the time limits for existing planning permissions.

The document is available at:

http://www.communities.gov.uk/publications/planningandbuilding/flexibilitypermissions

Regional Planning and Development

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government which decisions taken by him in relation to regional spatial strategies in the last 12 months have been the subject of applications for judicial review. [286519]

Mr. Ian Austin: Since May 2008, the Secretary of State has published six regional spatial strategies. High Court challenges have been lodged against the regional spatial strategies for the East of England and the South East of England.

Repossession Orders: Hampshire

Sandra Gidley: To ask the Secretary of State for Communities and Local Government (1) how many people in each age group have had their home repossessed in *(a)* Test Valley borough and *(b)* Southampton in the last 12 months; [286322]

(2) how many domestic dwellings in *(a)* Test Valley borough and *(b)* Southampton were repossessed in each of the last 12 months. [286323]

Mr. Ian Austin: There are two independent sources of data on actual numbers of mortgage possessions: the Council of Mortgage Lenders (CML) and the Financial Services Authority (FSA). However, neither source has data by age of borrower or data at the local level.

The Council of Mortgage Lenders latest press release on repossessions is on their website at:

http://www.cml.org.uk/cml/media/press/2262

The Financial Services Authority data is available on their website at:

http://www.fsa.gov.uk/pages/Doing/Regulated/Returns/IRR/statistics/

Social Rented Housing: Hemel Hempstead

Mike Penning: To ask the Secretary of State for Communities and Local Government how many properties he expects to be *(a)* completed and *(b)* purchased for social rent in Hemel Hempstead in each of the next five years. [283679]

Mr. Ian Austin: The information requested is as follows:

(a) Within Dacorum borough new social rented housing completions are currently projected as follows:

	Number of units
2008-09 (outturn)	93
2009-10 (planned)	50
2010-11 (proposed)	126

Source:

Dacorum Borough Council, Housing Supply Statistical Appendix Returns 2009. Information does not extend beyond 2010-11.)

(b) There were seven sales/transfers made through Right to Buy in Dacorum borough in 2008-09. Information on projected sales/transfers through Right to Buy and Right to Acquire is not available as it will depend on applications. Dacorum borough council does not currently purchase empty properties to offer for social rent.

Source:

Dacorum borough council, P1B Statistical Returns 2009.

Temporary Accommodation

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many households were in temporary accommodation in the last quarter for which figures are available. [286431]

Mr. Ian Austin: This information is published on a quarterly basis and can be found in the Library and also at the following link:

http://www.communities.gov.uk/publications/corporate/statistics/homelessnessq12009

FOREIGN AND COMMONWEALTH OFFICE

Afghanistan: Prisoners

Dr. Evan Harris: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what recent discussions he has had with the Afghan Government on the custodial sentence imposed on journalist Sayed Pervez Kambaksh; [285357]

(2) whether his Department has requested that Afghan President Hamid Karzai grant a presidential pardon to journalist Sayed Pervez Kambaksh. [285358]

Mr. Ivan Lewis: We share the hon. Member's concern about the continuing imprisonment of journalism student Sayed Pervez Kambakhsh. We urge the Afghan state to honour the Afghan Constitution and comply with the international human rights standards, to which it is a party, including the right to a fair trial and freedom of expression.

We opposed the death sentence imposed upon Mr. Kambakhsh at his initial trial in January 2008 after his imprisonment in October 2007. While it is positive that he no longer faces the death penalty, we are disappointed by the 20 year prison sentence he received on the 21 October 2008, a decision sadly upheld by the Afghan Supreme Court in early February. We have serious concerns about the fairness of his trials.

In April 2009, as part of the EU, we asked President Karzai to carefully consider the legitimacy of Mr. Kambakhsh's trial. We continue to follow Mr. Kambakhsh's case closely and, in conjunction with our international partners, will continue to raise it with the relevant Afghan authorities, wherever appropriate.

Australia: Diplomatic Service

Kate Hoey: To ask the Secretary of State for Foreign and Commonwealth Affairs when the appointment of the next High Commissioner to Australia will be made. [286707]

Chris Bryant: My noble Friend Baroness Amos will take up her post in October 2009.

Kate Hoey: To ask the Secretary of State for Foreign and Commonwealth Affairs how many non-career diplomats have been appointed to the post of High Commissioner to Australia since 1997. [286709]

Chris Bryant: Since 1997 three non-career diplomats have held the post of high commissioner to Australia.

Kate Hoey: To ask the Secretary of State for Foreign and Commonwealth Affairs when the term of office of the present High Commissioner to Australia ends. [286830]

Chris Bryant: The current high commissioner to Australia, the right hon. Mrs. Helen Liddell, will leave post at the end of her appointment in September 2009.

My noble Friend Baroness Amos will take up her post in October 2009.

BBC External Services

Mr. Watson: To ask the Secretary of State for Foreign and Commonwealth Affairs what involvement his Department has in the determination by the BBC World Service of the languages in which it broadcasts. [285458]

Chris Bryant: BBC World Service (BBCWS) and the Foreign and Commonwealth Office (FCO) discuss where BBCWS can best operate and which language services are best served to do this.

The BBC Charter and Agreement, section 64 (3) (a) states as follows:

The World Service must be provided:

(a) to such users outside the UK, and in such languages, as are approved by the Foreign Secretary; and

(b) in accordance with any objectives, priorities and targets agreed with him.

This is also referred to in section 10 of the Broadcasting Agreement between the BBC and the FCO for the provision of the BBCWS.

The BBC and FCO discuss the opening or closure of a language service prior to a final decision being taken.

BBC External Services: Meetings

Mr. Watson: To ask the Secretary of State for Foreign and Commonwealth Affairs on how many occasions he has met the Director of the BBC World Service in the last 12 months. [286817]

Chris Bryant: There have been no meetings between my right hon. Friend the Foreign Secretary and the director of the BBC World Service.

There are however, regular meetings between the Minister responsible for the BBC World Service and its director. Most recently, Peter Horrocks met my right hon. Friend the Member for Don Valley (Caroline Flint), the then Minister for Europe on 7 May 2009.

Colombia

Mr. Watson: To ask the Secretary of State for Foreign and Commonwealth Affairs when he last met representatives of Justice for Colombia. [286858]

Chris Bryant: My right hon. Friend the Foreign Secretary met my hon. Friend the Member for Manchester, Central (Tony Lloyd), Vice-Chair of Justice for Colombia (JFC), and representatives of the Unite and Amicus trade unions in July 2008 to discuss human rights in Colombia.

My ministerial colleagues and I regularly meet representatives of non-governmental organisations with an interest in Colombia, including JFC. Most recently, I met Colombian trade unionist Luis Alberto Vanegas and representatives of JFC on 2 July 2009.

Departmental Consultants

Mr. Holloway: To ask the Secretary of State for Foreign and Commonwealth Affairs with reference to volume two of his Department's Annual Report and Resource Accounts 2008-09, page 39, for what reasons his Department's estimated expenditure on consultants has increased to £60 million in 2008-09. [286033]

Chris Bryant: The figures quoted in the annual report and resource accounts for 2008-09 included managed service provision.

The Office of Government Commerce defines managed services as being

"the provision to management of objective advice and assistance relating to strategy, structure, management or operations of an organisation in pursuit of its purposes and objectives. Such assistance will be provided outside the 'business as usual' environment when in-house skills are not available and will be of no essential consequence and time-limited. Services may include the identification of options with recommendations and/or assistance with (but not delivery of) the implementation of solutions."

The managed services included Hewlett-Packard Joint Service Delivery Team staff, Cap-Gemini staff working on Prism (the Foreign and Commonwealth Office (FCO) management tool), and Fujitsu staff working on FCONet (the FCO intranet).

Consequently, the figures for actual expenditure in 2007-08 and estimated expenditure in 2008-09 are not comparable. We do not believe the actual cost on consultancy has increased.

Departmental Contracts

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 1 July 2009, *Official Report*, column 284W, on departmental contracts, what the monetary value is of each contract entered into by his Department during financial year 2008-09 with *(a)* Alchemist Partnership Limited, *(b)* Avail Consulting, *(c)* Building Services Group Ltd., *(d)* Cambridge Econometrics, *(e)*

Concerto Consulting, *(f)* Coombs Consulting Ltd., *(g)* Corporate Value Associates, *(h)* Haig Consulting Ltd., *(i)* Hanover Aviation Consulting Ltd., *(j)* Hay Group Management Limited, *(k)* Intuity Consulting Ltd., *(l)* Jedi Systems Consulting Ltd., *(m)* KPMG LLP, *(n)* Methods Consulting, *(o)* Minimal Risk Consultancy Ltd., *(p)* Mott MacDonald, *(q)* Ove Arup, *(r)* Oxford Policy Management Ltd., *(s)* PA Consulting Group, *(t)* Projected Consulting Ltd., *(u)* Purcon Ltd., *(v)* Ridge and Partners, *(w)* RPS Health Safety, *(x)* TPS Consult, *(y)* Tribal Consulting, *(z)* UCT Ltd. and *(aa)* Venn Group Ltd. [285289]

Chris Bryant: The Foreign and Commonwealth Office (FCO) only has a static database of all of its contracts in the UK and overseas which was compiled in the latter part of 2008. Work is currently being undertaken to convert this to a real time database. To gather all of the contract information for 2008-09 would involve disproportionate cost so the attached response reflects records kept by the two contracts teams in the FCO and FCO Services for 2008-09 which will cover a high proportion of the contracts awarded by the FCO in the UK during the period.

Departmental Databases

Jenny Willott: To ask the Secretary of State for Foreign and Commonwealth Affairs what categories of personal information on members of the public will be held on each database expected to become operational in the next five years and which will be managed by his Department or one of its agencies; what estimate he has made of the likely number of individuals' details each such database will hold when fully operational; and if he will make a statement. [286154]

Chris Bryant: The Foreign and Commonwealth Office (FCO)'s Data Protection Register entry with the Information Commissioner's Office is to be renewed in September this year. The general categories for which the Department processes personal data for its work will be similar to those listed now, for example, processing a range of personal data for providing consular assistance to British nationals overseas. However, the FCO will continue to comply with the Data Protection Act 1998 and governmental data handling standards.

Departmental Manpower

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs how many staff his Department employed in *(a)* the Middle East and *(b)* South Asia (i) in 2007 and (ii) on the latest date for which figures are available. [285281]

Chris Bryant: On 1 April 2007 the Foreign and Commonwealth Office (FCO) employed 133 UK civil servants at posts in the middle east and 104 UK civil servants at posts in south Asia.

On 1 July 2009 the FCO employed 137 UK civil servants at posts in the middle east and 147 UK civil servants at posts in south Asia.

We do not hold figures centrally for the numbers of staff recruited locally to work at each post.

Departmental Pay

John McDonnell: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 20 May 2009, *Official Report*, column 1420W, on departmental pay, who the employers are who are paying less than £7.45 an hour for work contracted out by his Department; what the nature of the work undertaken on each contract is; how many staff at each *(a)* payband and *(b)* location are working on each contract; what the duration of each contract is; and what union recognition agreements are in place with each contractor. [285513]

Chris Bryant *[holding answer 9 July 2009]:* Two contractors working within the Foreign and Commonwealth Office (FCO) pay some of their staff less than £7.45 per hour.

These contractors are Interserve and Compass. Both companies share responsibility for delivering different facilities management services to the FCO, including cleaning, porterage, grounds maintenance and catering. Neither company operates a payband structure.

In the case of Interserve, it employs 40 cleaners, and one porter based in London who are paid less than £7.45 per hour. It also employs 19 cleaners, three porters and one grounds maintenance operative based in our offices near Milton Keynes who are paid less than £7.45 per hour.

Compass employs 17 catering staff in London and 12 catering staff in our offices near Milton Keynes who are paid less than £7.45 per hour.

The contract the above companies deliver commenced on 1 December 2008 and is set to run for a minimum of seven years, with an option to extend for up to three further years.

Both companies recognise all UK unions and actively consult with them on issues which affect their members.

Departmental Policy

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs what policy objectives he has set for the UK's economic and political cooperation with its international partners; and what his assessment is of his Department's performance against those objectives in *(a)* 2008 and *(b)* 2009. [285288]

Chris Bryant: The Foreign and Commonwealth Office (FCO)'s annual report for the financial year 2008-09 was laid before Parliament on 30 June 2009 and is also available at:

http://www.fco.gov.uk/en/about-the-fco/publications/publications/annual-reports/departmental-report/

as is the report for 2007-08. The report sets out how the FCO spends public funds to meet its policy and service delivery objectives.

Departmental Procurement

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs what changes have been made to his Department's *(a)* office equipment and *(b)* stationery purchasing policy in the last six months. [285312]

Chris Bryant: In April 2009 the Foreign and Commonwealth Office (FCO) introduced a policy change for its stationery and office equipment requirements. This ensures that an approved core-list of non-branded products is purchased rather than more expensive brand-name alternatives. The policy change will save the FCO approximately £32,000 in the current financial year.

Embassies: EU Countries

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs what the cost to the public purse of the British Embassy in each other European Union member state was in each of the last 10 years. [282838]

Chris Bryant: The information requested by the hon. Member is set out in the table. The information includes some current EU member states which were not members 10 years ago.

The apparent rise in costs in 2004-05 relate to a change in costing methodology. In 2006-07 the Foreign and Commonwealth Office reverted back to the previous methodology (and has continued to use this methodology since).

Net running costs for British embassies and high commissions in European Union countries

Net running costs in each year (all figures in GBP)

Notes:
1. Figures for all current European Union countries have been provided. However, Cyprus, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Slovakia, and Slovenia did not join the European Union until 1 May 2004, and Bulgaria and Romania did not join the European Union until 1 January 2007.
2. Figures for the embassy in Brussels for 2000-01 and 2005-06, and the Embassies in Nicosia, Prague, and Sofia for 2002-03 are not available and the IT system on which the figures were recorded is no longer in use.
3. The figures for the embassies in Lisbon for 2007-08, and in Dublin and Madrid for 2008-09 are negative due to net proceeds from sale of property.

Freedom of Information: Trident

Mr. Dai Davies: To ask the Secretary of State for Foreign and Commonwealth Affairs what requests for information under the Freedom of Information Act 2000 in respect of which his Department has disclosed information in the last 12 months have related to the replacement of the Trident nuclear weapons system and its launch platform. [286851]

Chris Bryant: The Foreign and Commonwealth Office has received no requests in the last 12 months under the Freedom of Information Act 2000 related to the replacement of the Trident nuclear weapons system and its launch platform.

Iran: Internet

Mr. Holloway: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer to my hon. Friend the Member for Aylesbury (Mr. Lidington) of 25 June 2009, *Official Report*, column 1072W, on Iran: internet, whether his Department has received reports of the Iranian Government using technology or software provided by British companies to inspect, monitor or filter internet content. [286034]

Mr. Ivan Lewis: The Foreign and Commonwealth Office is not aware of any such reports.

Locate System

Mr. Watson: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the effectiveness of his Department's Locate system for tracking British travellers. [286855]

Chris Bryant: The Foreign and Commonwealth Office (FCO)'s overseas online registration and crisis database, Locate, enables British nationals to let the FCO know about their travel and residence outside of the UK. It is also a tool designed specifically for handling consular crises. Since its media launch in May 2008, the FCO website and Know Before You Go campaign literature has encouraged British travellers to use Locate. We have also used Locate successfully as part of our response to recent crises, most notably during the Sichuan earthquake and the Mumbai terror attacks in 2008.

An audit of Locate in March 2009 showed that many expatriate Britons around the world are registering with Locate and that our embassy staff are trained and ready to use the system in a crisis. The audit identified ways to improve Locate's functionality and better promote it. The results of the audit, and continual assessments of Locate's performance, are informing how we develop this important consular tool.

Royal Visits

Lynne Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the effectiveness of the participation on official visits sponsored by his Department of *(a)* the Prince of Wales and the Duchess of Cornwall on visits to (i) South East Asia from 26 October to 5 November 2008 and (ii) Chile, Brazil and Equador from 7 to 18 March 2009 and *(b)* the Duke and Duchess of Gloucester on a visit to Tonga from 27 July to 6 August 2008; and if he will make a statement. [286136]

Chris Bryant: The Asia tour by the Prince of Wales and the Duchess of Cornwall in October to November 2008 was highly effective in bolstering our relationships with important countries. The visit to Japan was the culmination of a year-long major UK-Japan festival marking the 150th anniversary of UK-Japan diplomatic relations. The environment and climate change were important themes, and a corporate leaders' group on climate change was established. In Brunei, the British garrison was a major feature along with initiatives to promote a low carbon, high growth, global economy. The key themes for the visit to Indonesia were climate change, environment and interfaith dialogue.

Their Royal Highnesses' Latin American tour in March 2009 was similarly effective. The visit to Chile encompassed environmental, social and defence issues; his Royal Highness participated in the launch of an energy efficiency programme for the young. The visit to Brazil centred on climate change and strengthened our growing relationship with this major regional player. It included constructive discussion on sustainable development in the Amazon. The visit to the Galapagos Islands of Ecuador marked the 200th anniversary of the birth of Charles Darwin and the 50th of the foundation of the Galapagos National Park, and was a special opportunity to highlight wildlife protection.

Their Royal Highnesses the Duke and Duchess of Gloucester visited Tonga in 2008 to represent Her Majesty the Queen at the coronation of King George Tupou V. It was particularly important that a member of the British Royal Family was present to bolster support for King George Tupou V's voluntary surrender of constitutional powers in order to make Tonga a constitutional monarchy. The tour also incorporated an official visit to the Solomon Islands to celebrate its 30th anniversary of independence.

Spirit of Humanity

Bob Russell: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has made representations to the Government of Israel over the interception in international waters by the Israeli navy of the Free Gaza ship, Spirit of Humanity and the subsequent detention in an Israeli port of the vessel and those on board; and if he will make a statement. [285849]

Mr. Ivan Lewis *[holding answer 13 July 2009]:* We are unable to confirm whether the Spirit of Humanity was intercepted in international waters or in Gazan waters. When my right hon. Friend the Foreign Secretary spoke to his Israeli counterpart, Avigdor Lieberman, on 1 July 2009, he raised the issue with him. Officials at our embassy in Tel Aviv confirm that they were given good access to the British nationals arrested by the Israelis and that they were all treated well during their detention. The Israeli authorities deported the British nationals on 6 July 2009 and they are now back in the UK.

Sri Lanka: Election Observers

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will take steps to seek to ensure that independent observers monitor the forthcoming municipal elections in Jaffna and Vavuniya in Sri Lanka. [285352]

Mr. Ivan Lewis: At least two independent Sri Lankan organisations intend to monitor the upcoming municipal election in Vavuniya and Jaffna. Our view remains that a political process, based on respect, inclusion and rule of law is essential to address the underlying causes of the recent conflict in Sri Lanka. Ensuring all elections are transparent, free and fair is a crucial part of this process.

Sri Lanka: Internally Displaced Persons

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has received on the ability of residents of Jaffna and Vavuniya who have been displaced and are being held in government clearing centres to vote in the forthcoming municipal elections in Sri Lanka. [285351]

Mr. Ivan Lewis: The Sri Lankan Government announced special measures to enable internally displaced persons (IDPs) to vote in the upcoming municipal elections. Given the continued restrictions on freedom of movement in the IDP camps we understand that very few IDPs have registered to vote. We have raised regularly with the Sri Lankan Government the need to allow IDPs freedom of movement and to make meaningful progress on an inclusive political process.

Western Sahara: Natural Resources

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent reports he has received on the legality of the practices of the Moroccan Government in extracting resources from Western Sahara; and if he will make a statement. [286783]

Chris Bryant: We have received no recent reports on the legality of the practices of the Moroccan Government in extracting resources from the Western Sahara. I am however aware of academic papers on this matter by the Former Legal Counsel of the UN.

The Government maintain the position that the Government of Morocco—as the de facto administering power of Western Sahara—are obliged under international law to ensure that economic activities under administration, including the extraction and exportation of phosphates, do not adversely affect the interests of the people of Western Sahara.

CABINET OFFICE

Civil Service: Manpower

Hugh Bayley: To ask the Minister for the Cabinet Office how many full-time equivalent civil servants were employed in *(a)* the City of York unitary authority and *(b)* Yorkshire and the Humber by each Governmen Department and Executive agency in each year since 1996. [285752]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician I have been asked to reply to your recent Parliamentary Question concerning how many full-time equivalent civil servants were employed in (a) the City of York unitary local authority and (b) Yorkshire and the Humber by each Government department and executive agency in each year since 1996. 285752

In order to provide the information requested for York, ad hoc analysis has been required. This analysis is based on the Mandate collection (1997-2006) which provides approximately 90 per cent coverage of Civil Service departments and agencies and the Annual Civil Service Employment Survey (2007-2008) which provides 100 per cent coverage. For years prior to 2003 coverage is lower.

The requested data for York are attached in Annex A.

The number of full-time equivalent staff employed in Yorkshire and the Humber by government departments and executive agencies from 1996-2005 has been published by Cabinet Office and is available on-line:

http://www.civilservice.gov.uk/about/who/statistics/archived-reports.aspx

The number of full-time equivalent staff employed by government departments and their executive agencies for Yorkshire and the Humber, 2006-2008, is attached in Annex B.

The information referred to as Annex A and Annex B has been placed in the Library.

Death: Alcohol

Andrew Stunell: To ask the Minister for the Cabinet Office how many alcohol-related deaths there were in each age group in each primary care trust area in each year since 1997. [285375]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician, I have been asked to reply to your recent question asking how many alcohol-related deaths there were in each age group in each primary care trust area in each year since 1997. (285375)

The table provides the number of deaths with an alcohol-related underlying cause in each primary care organisation in England, by age group, from 1997 to 2008 (the latest year available). A copy has been placed in the Library of the House.

Death: Bacterial Diseases

Norman Lamb: To ask the Minister for the Cabinet Office how many deaths attributable to necrotizing fasciitis there were in each of the last five years. [285463]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician, I have been asked to reply to your recent question asking how many deaths attributable to necrotizing fasciitis there were in each of the last five years. (285463)

The table attached provides the number of deaths where necrotizing fasciitis was the underlying cause of death, in England and Wales, from 2004 to 2008 (the latest year available).

Table 1. Number of deaths where necrotizing fasciitis[1] was the underlying cause of death, in England and Wales[2], 2004 to 2008[3, 4]

	Persons (deaths)
2004	70
2005	79
2006	65
2007	87
2008	92

[1] Cause of death was defined using the International Classification of Diseases, Tenth Revision (ICD-10) code M72.5 (Fasciitis, not elsewhere classified).
[2] Figures for England and Wales include deaths of non-residents.
[3] Figures are for deaths registered in each calendar year.
[4] Figures for deaths registered in 2008 are provisional.

Death: Methanol

Norman Lamb: To ask the Minister for the Cabinet Office how many deaths attributable to methanol poisoning there were in each region in each of the last five years. [285464]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician, I have been asked to reply to your recent question asking how many deaths attributable to methanol poisoning there were in each region in each of the last five years. (285464)

The table attached provides the number of deaths where the toxic effect of methanol was the cause of death, in each government office region in England from 2004 to 2008.

The toxic effect of methanol does not appear as the underlying cause of death, but is identified from the secondary cause, or 'main injury' field in the death registration data. The figures provided may include deaths which resulted from an accident, suicide or homicide.

Table 1: Number of deaths where the toxic effect of methanol[1] was the cause of death, Government office regions in England[2], 2004-08[3, 4]

	Deaths (persons)				
Government office region	2004	2005	2006	2007	2008
North East	0	1	0	0	1
North West	0	1	0	0	0
Yorkshire and the Humber	0	0	0	0	0
East Midlands	0	0	0	0	0
West Midlands	0	0	0	0	0
East of England	0	0	0	0	0
London	0	0	0	0	1
South East	1	0	1	0	0
South West	0	0	1	0	0

[1] Cause of death was defined using the International Classification of Diseases, Tenth Revision (ICD-10) code T51.1 (Toxic effect of methanol), where this code appeared as a secondary cause.
[2] Based on boundaries as of 2009.
[3] Figures are for deaths registered in each calendar year.
[4] Figures for deaths registered in 2008 are provisional.

Departmental Data Protection

Mr. Blunt: To ask the Minister for the Cabinet Office how many breaches of information security there have been at *(a)* her Department and *(b)* its agency in the last five years. [281083]

Tessa Jowell: There was one significant loss of security classified information and one loss of personal information for the period 1 March 2008 to 30 March 2009. There were no such losses in the 12 months before that period. Figures for previous years are not available.

Information on breaches are published on an annual basis in the Department's annual report and accounts, as announced in the data handling review published on 25 June 2008.

The Cabinet Office is not responsible for any Executive agencies.

Jenny Willott: To ask the Minister for the Cabinet Office how many *(a)* attempts and *(b)* successful attempts were made to gain unauthorised access to each (i) database and (ii) ICT system run by her Department in each of the last five years; and if she will make a statement. [286552]

Angela E. Smith: It is not in the interests of the UK's national security for Departments to confirm information on the number of attempts, successful or otherwise, to gain unauthorised access to departmental systems or databases. Such disclosure could undermine the integrity and security of departmental systems and thereby expose them to potential threats.

The Cabinet Office complies with the mandatory requirements of the Security Policy Framework in relation to information security including managing the risk of unauthorised access to ICT systems.

Employment

Chris Ruane: To ask the Minister for the Cabinet Office how many *(a)* men and *(b)* women were working in the economy in each region in each of the last 30 years. [285686]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician, I have been asked to reply to your Parliamentary Question asking how many *(a)* men and *(b)* women were working in the economy in each region in each of the last 30 years. (285686)

The available information on people aged 16 and over in employment for 1992 to 2009 is shown in the attached table. Regional estimates for years prior to 1992 are not available on a comparable basis. This information is updated monthly as part of the Labour Market Statistics Bulletin and can be found on the National Statistics website at the following address:

http://www.statistics.gov.uk/statbase/product.asp?vlnk=8281

The estimates are derived from the Labour Force Survey. As with any sample survey, estimates from the LFS are subject to a margin of uncertainty.

People aged 16 and over in employment by Government office region and sex, three-month period ending May 1992; then April 1993 to 2009, United Kingdom, seasonally adjusted

Source:
Labour Force Survey.

Mr. Clappison: To ask the Minister for the Cabinet Office how many and what proportion of *(a)* UK nationals, *(b)* UK born people, *(c)* foreign nationals, *(d)* non-UK EU nationals, *(e)* EU A8 nationals and *(f)* non-EU nationals of working age in the UK were in employment in the second quarter of 2009. [286459]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician, I have been asked to reply to your Parliamentary Question asking how many and what proportion of (a) UK nationals, (b) UK born people, (c) foreign nationals, (d) non-UK EU nationals, (e) EU A8 nationals and (f) non-EU nationals of working age in the UK were in employment in the second quarter of 2009. (286459)

The information for the April to June 2009 Labour Force Survey (LFS) quarter will not be available until 12 August 2009, the release date of the August Labour Market Statistics Statistical Bulletin.

Freedom of Information

Mr. Hurd: To ask the Minister for the Cabinet Office when her Department plans to provide a substantive answer to Freedom of Information Act request [illegible]2511; and what the reasons are for the time taken to assess the public interest in relation to the request. [250312]

Angela E. Smith: The information requested under the Freedom of Information Act request FO125251 was released on 8 June 2009.

Lord Ashcroft

Mr. Gordon Prentice: To ask the Minister for the Cabinet Office how many documents her Department has made available to the Information Commissioner in relation to the request by the hon. Member for

Pendle under the Freedom of Information Act 2000 for information on the assurances given by Lord Ashcroft on his tax status prior to his elevation to the peerage. [285228]

Tessa Jowell *[holding answer 9 July 2009]:* Information provided to the Information Commissioner as part of an investigation is provided in confidence. It is not Cabinet Office practice to comment on such investigations.

National Income

Chris Ruane: To ask the Minister for the Cabinet Office what the gross domestic product of each region of the UK was in each of the last 30 years. [286293]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician I have been asked to reply to your recent question about the average gross domestic product in each region of the UK for the last thirty years. (286293)

Information on gross domestic product by region is not available for years from 1997 onwards. However the Office for National Statistics does publish estimates of regional gross value added (GVA) using official statistical geographies known as the Nomenclature of Units for Territorial Statistics (NUTS). Data at NUTS1 level refer to Northern Ireland, Scotland, Wales, and the Government Office Regions of England. GDP at market prices is equal to GVA at basic prices plus taxes on products (e.g. VAT, excise duties on alcohol, tobacco and fuel) less subsidies on products (e.g. the majority of agricultural subsidies).

A full range of published NUTS1 GVA estimates from 1989, including GVA per head is available on the ONS website:

http://www.statistics.gov.uk/downloads/theme_economy/PROGRESS_NUTS1.xls

Although information on gross domestic product (GDP) is available at NUTS 1 for years up to 1996, it was compiled on different conceptual, geographical and industrial bases from the current GVA estimates and is not comparable.

Further information is available from:

http://www.statistics.gov.uk/statbase/Product.asp?vlnk=14650

Pay: York

Hugh Bayley: To ask the Minister for the Cabinet Office what the average wage for *(a)* full-time and *(b)* part-time (i) male and (ii) female employees is; and what the average household income of working age households was in the City of York local authority area in (A) cash and (B) real terms in (1) 1997 and (2) 2008. [285825]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking what the average wage for (a) full-time and (b) part-time (i) male and (ii) female employees is; and what the average household income of working age households was in the City of York local authority area in (A) cash and (B) real terms in (1) 1997 and (2) 2008. (285825)

Average levels of earnings are estimated from the Annual Survey of Hours and Earnings (ASHE), and are provided for all employees on adult rates of pay whose pay for the survey period was not affected by absence. I refer you to the answer given in the Official Report, 24 February 2009, volume 488, column 594 for the average wage for (a) full-time and (b) part- time (i) male and (ii) female employees in the City of York local authority area in (A) cash and (B) real terms in (1) 1997 and (2) 2008.

Information regarding the average household income of working age households is not available for the City of York local authority area.

Regional Development Agencies

Dan Rogerson: To ask the Minister for the Cabinet Office what guidance her Department issued to officials from regional development agencies on meeting hon. Members during the restricted period before the local and European Parliament elections in 2009. [285382]

Tessa Jowell *[holding answer 9 July 2009]:* I refer the hon. Member to the written ministerial statement made on 19 March 2009, *Official Report*, 70W. Copies of the guidance were placed in the Libraries of Houses and on the Cabinet Office website at:

http://www.cabinetoffice.gov.uk/propriety_and_ethics/civil_service/election_guidance.aspx

HEALTH

Accident and Emergency Departments

Mr. Lansley: To ask the Secretary of State for Health (1) with reference to the announcement of his Department's Emergency Service Review on 3 June 2009, which standards in emergency care are classified as having been challenged in the winter of 2008-09; [283877]

(2) when he expects to receive the report of the Emergency Services Review; and what data that review is analysing from the last and previous years to understand the root causes of declines in performance. [283878]

Mr. Mike O'Brien: The Emergency Services Review (ESR) is led by the Office of the Strategic Health Authorities on behalf of SHA chief executives and will deliver a range of outputs including conferences, tools and guides rather than producing a single report. As part of the ESR, a number of tools for local health services to use are being published this month, and a series of regional conferences are taking place between June and September of this year. An Intensive Support Team has been established to support specific challenges within the local national health service in relation to operational performance in the delivery of high quality urgent and emergency care. The analysis undertaken has included detailed work with partners drawing on a broad range of quantitative data and expert input.

No formal classification of 'challenged' was applied to performance standards during last winter. The severe weather in 2008-09 led to performance dips in some parts of the country during winter, both in ambulance response times and the accident and emergency (A&E) 4 hour standard. Despite this, the NHS performed very well, meeting the A&E 4 hour standard for the year and performing well against the new, more rigorous ambulance response time measurement.

Accident and Emergency Departments: Hampshire

Sandra Gidley: To ask the Secretary of State for Health how many people of each age group attended accident and emergency departments in each NHS

trust area within the ceremonial county of Hampshire for treatment for injuries sustained in an attack by a dog in each of the last five years. [286285]

Mr. Mike O'Brien: Information is not available in the format requested. The following table shows the number of patients admitted to hospital through accident and emergency departments (A and Es) for hospital providers in the ceremonial county of Hampshire with a cause code of W54 (bitten or struck by dog). 2007-08 is the most recent financial year for which data are available. Information has therefore been provided for the five financial years to 2007-08.

Admission episodes where the patient was admitted via A and E with cause code W54 (bitten or struck by dog), by hospital providers in Hampshire and age group

	NHS trust	Under 10	10-18	Over 18	Total
2003-04	Southampton University Hospitals NHS Trust	8	0	9	17
	Portsmouth Hospitals NHS Trust	*	*	16	27
	Winchester and Eastleigh Healthcare NHS Trust	0	*	*	*
	North Hampshire Hospitals NHS Trust	*	*	*	*
2004-05	Southampton University Hospitals NHS Trust	*	*	14	19
	Portsmouth Hospitals NHS Trust	14	6	13	33
	Winchester and Eastleigh Healthcare NHS Trust	0	0	*	*
	North Hampshire Hospitals NHS Trust	0	0	*	*
2005-06	Southampton University Hospitals NHS Trust	*	*	20	30
	Portsmouth Hospitals NHS Trust	9	8	19	36
	Winchester and Eastleigh Healthcare NHS Trust	*	0	*	*
	North Hampshire Hospitals NHS Trust	*	0	*	7
2006-07	Southampton University Hospitals NHS Trust	*	*	18	29
	Portsmouth Hospitals NHS Trust	*	*	19	30
	Winchester and Eastleigh Healthcare NHS Trust	0	*	*	8
	Basingstoke and North Hampshire NHS Foundation Trust	0	*	*	*
2007-08	Southampton University Hospitals NHS Trust	*	*	20	28
	Portsmouth Hospitals NHS Trust	*	*	21	36
	Winchester and Eastleigh Healthcare NHS Trust	0	0	*	*
	Basingstoke and North Hampshire NHS Foundation Trust	*	0	*	7

Notes:
1. To protect patient confidentiality, figures between one and five have been suppressed and replaced with "*". Where it was possible to identify numbers from the total due to a single suppressed number in a row or column, an additional number (the next smallest) has been suppressed.
2. HES figures are available from 1989-90 onwards. The quality and coverage of the data have improved over time. These improvements in information submitted by the national health service have been particularly marked in the earlier years and need to be borne in mind when analysing time series. Some of the increase in figures for later years (particularly 2006-07 onwards) may be due to the improvement in the coverage of independent sector activity. Changes in NHS practice also need to be borne in mind when analysing time series. For example, a number of procedures may now be undertaken in outpatient settings and may no longer be accounted for in the HES data. This may account for any reductions in activity over time.
3. HES are compiled from data sent by more than 300 NHS trusts and primary care trusts in England. Data are also received from a number of independent sector organisations for activity commissioned by the English NHS. The Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain.
4. Figures have not been adjusted for shortfalls in data (i.e. the data are unproved).
5. A finished admission episode is the first period of in-patient care under one consultant within one health care provider. Finished admission episodes are counted against the year in which the admission episode finishes. Admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
6. The cause code is a supplementary code that indicates the nature of any external cause of injury, poisoning or other adverse effects. The field within HES counts only the first external cause code which is coded within the episode. Cause code used: W54—Bitten or struck by dog.
7. The admission method field within HES contains a code which identifies how the patient was admitted to hospital. Admission method codes used in this case were:
21 = Emergency: via A&E services, including the casualty department of the provider
28 = Emergency: other means, including patients who arrive via the A and E department of another health care provider
Source:
Hospital Episode Statistics (HES), the Information Centre for health and social care

Accident and Emergency Departments: Staffordshire

Mr. Jenkins: To ask the Secretary of State for Health what provision at what locations there is in the South Staffordshire Primary Care Trust area for emergency referrals for children, the elderly and vulnerable adults outside normal working hours. [285903]

Mr. Mike O'Brien: This information is not collected centrally. Strategic health authorities and primary care trusts (PCTs) determine how to most effectively meet the needs of their local populations. I have asked the South Staffordshire PCT to send this information to my hon. Friend.

Cancer: Brain

Sandra Gidley: To ask the Secretary of State for Health how much the NHS spent on the treatment of brain cancer in each strategic health authority area in each of the last six years. [286284]

Ann Keen: The information is not available in the format requested.

Dental Services

Hugh Bayley: To ask the Secretary of State for Health what percentage of the *(a)* adult and *(b)* child population of (i) Selby and York Primary Care Trust area, (ii) North Yorkshire Primary Care Trust area, (iii) Yorkshire and the Humber and (iv) England received treatment from an NHS general dental practitioner in the last 24 months. [285867]

Ann Keen: Information is not available in the format requested.

Information on the number of patients seen by an NHS dentist in the previous 24 months as a percentage of the population, in England, is available in table D2 of annex 3 of the "NHS Dental Statistics, Quarter 3: 31 December 2008" report. Data are available at primary care trust and strategic health authority level, and are provided by adults and children. The most recent published information covers the period from 1 January 2007 to 31 December 2008.

This report has already been placed in the Library.

Dental Services: Waiting Lists

Mr. David Anderson: To ask the Secretary of State for Health (1) how many people resident in Blaydon constituency were on a waiting list for orthodontic treatment in each of the last five years; [286240]

(2) how many people in *(a)* Gateshead Borough and *(b)* the North East were on a waiting list for orthodontic treatment in each of the last five years. [286288]

Ann Keen: The information is not available in the format requested. However, information on the waiting lists for orthodontic treatment in the Gateshead Primary Care Trust (PCT) area is shown in the following table:

Oral surgery—total number of incomplete pathways

	Gateshead PCT	North East Strategic Health Authority	England
August 2007	264	3,011	152,392
April 2008	156	1,950	121,032
April 2009	127	1,431	111,199

Note:
Data on incomplete pathways only published since August 2007
Source:
Department of Health 18 weeks RTT data

Mr. David Anderson: To ask the Secretary of State for Health (1) what the average waiting time for *(a)* initial orthodontic assessment and *(b)* subsequent orthodontic treatment was in Gateshead borough in each of the last five years; [286244]

(2) what the average waiting time for *(a)* initial orthodontic assessment and *(b)* subsequent orthodontic treatment was in Blaydon constituency in each of the last five years. [286249]

Ann Keen: The information is not available in the format requested. The following tables provide information on the median in-patient and out-patient waiting times for orthodontics and oral surgery within the Gateshead Primary Care Trust and the North East Strategic Health Authority areas.

Table 1: Median in-patient waiting time for elective admission (weeks). Time periods 2003-07 (commissioner based). Inpatient Commissioner Hospital Based Waiting List Statistics: Specialties—Oral Surgery, Orthodontics

	Gateshead		North East	
Month ending	Oral surgery	Orthodontics	Oral surgery	Orthodontics
March 2003	8.4	n/a	8.4	8.0
March 2004	7.9	n/a	8.4	8.2
March 2005	6.9	n/a	8.0	n/a
March 2006	4.2	n/a	6.6	n/a
March 2007	9.3	n/a	6.5	n/a
September 2007	6.8	n/a	7.1	n/a

Notes:
1. Figures are shown for organisations that existed at the time.
2. In-patient waiting times are measured from decision to admit by the consultant to admission to hospital.
3. The last time this data was collected was for period ending September 2007.
4. Where n/a, no orthodontic waiters were declared for the time periods specified.
5. Median waiting times are calculated from aggregate data, rather than patient level data, and therefore are only estimates of the position on average waits.
6. In particular, specialties with low numbers waiting are prone to fluctuations in the median. This should be taken into account when interpreting the data.
Source:
Department of Health Waiting List Collections QF01 and MMRC1304

Table 2: Median out-patient waiting time for first out-patient appointment not seen (weeks). Time periods 2003-07 (commissioner based). Outpatient Commissioner Hospital Based Waiting List Statistics: Specialties—Oral Surgery, Orthodontics

	Gateshead		North East	
Month ending	Oral surgery	Orthodontics	Oral surgery	Orthodontics
March 2005	6.4	n/a	4.5	5.4
March 2006	5.5	n/a	4.7	5.6
March 2007	4.3	5.1	4.1	4.6
September 2007	4.5	6.3	3.8	4.5

Notes:
1. Figures are shown for organisations that existed at the time.
2. Out-patient waiting times are measured from referral by the general practitioner (GP) to first out-patient appointment to the consultant.
3. From 2006-07 all time bands for outpatients not seen were first collected so only average waiting first out-patient times can be made from this point in time.
4. The last time this data was collected was for period ending September 2007.
5. Where n/a, no orthodontic waiters were declared for the time periods specified or there were very low numbers declared.
6. Median waiting times are calculated from aggregate data, rather than patient level data, and therefore are only estimates of the position on average waits. In particular, specialties with low numbers waiting are prone to fluctuations in the median. This should be taken into account when interpreting the data.
Source:
Department of Health Waiting List Collections QF04HR and MMRC1304

From 1 January 2009, no one should wait more than 18 weeks from the time they are referred by their GP or dentist to start of their consultant-led treatment unless it is clinically appropriate to do so or they choose to wait longer. The 18 weeks commitment covers pathways that involve or might involve consultant-led care, including orthodontics, which is now recorded under the oral surgery speciality.

Latest data show that since January 2009, the national health service has been delivering the operating standards for 18 weeks to ensure that no one should wait more than 18 weeks from the time they are referred to the start of their consultant-led treatment, unless it is clinically appropriate to do so or they choose to wait longer.

Mr. David Anderson: To ask the Secretary of State for Health what the average waiting time for *(a)* initial orthodontic assessment and *(b)* subsequent orthodontic treatment was in England in each of the last five years. [286253]

Ann Keen: Information is not collected centrally on waiting times for orthodontic treatment provided in primary care.

Information is available for part of the period requested from which average hospital waiting times from referral to first out-patient appointment and from decision to hospital admission (both day case and in-patient) can be provided.

This information available covers the period up to and including Quarter 2 2007-08. From Quarter 3 2007-08 this data collection no longer broke waits down by speciality.

Median orthodontic speciality out-patient waiting time for first out-patient appointment

Month ending	England Weeks
March 2005	5.1
March 2006	3.9
March 2007	4.2
September 2007	3.9

Source:
Department of Health Waiting List Collections QM08R and MMRCU04

Median orthodontic speciality in-patient waiting time for elective admission

Month ending	England Weeks
March 2003	11.2
March 2004	9.2
March 2005	8.9
March 2006	6.9
March 2007	6.0
September 2007	5.8

Notes:
1. Figures shown are for those recorded under the orthodontic speciality.
2. Out-patient waiting times are measured from referral by the doctor to first out-patient appointment to the consultant. The data are based on a snapshot in time, and so will include some patients who were yet to see a consultant.
3. In-patient waiting times are measured from the decision to admit by the consultant to admission to hospital.
4. The last time these data were collected was for the period ending September 2007.
5. Time bands for all specialties were only collected from 2004-05 onwards for out-patients so average waiting first out-patient times are only available from this point forward.
6. Median waiting times are calculated from aggregate data, rather than patient level data, and therefore are estimates of the position on average waits.
7. In particular, specialties with low numbers waiting are prone to fluctuations in the median. This should be taken into account when interpreting the data.
Source:
Department of Health Waiting List Collections QF01 and MMRCU04

From 1 January 2009, no one should wait more than 18 weeks from the time they are referred by their general practitioner or dentist to start of their consultant-led treatment unless it is clinically appropriate to do so or they choose to wait longer. The 18 weeks commitment covers pathways that involve or might involve consultant-led care, including orthodontics, which is now recorded under the oral surgery speciality.

Latest data show that since January 2009, the national health service has been delivering the operating standards for 18 weeks to ensure that no one should wait more than 18 weeks from the time they are referred to the start of their consultant-led treatment, unless it is clinically appropriate to do so or they choose to wait longer.

Mr. David Anderson: To ask the Secretary of State for Health how many people were on a waiting list for orthodontic treatment in England in each of the last five years. [286253]

Ann Keen: Information is not collected centrally on waiting times for national health service orthodontic treatment provided in primary care.

From 1 January 2009, no one should wait more than 18 weeks from the time they are referred by their general practitioner or dentist to the start of their consultant-led treatment unless it is clinically appropriate to do so, or they choose to wait longer.

The 18 weeks commitment covers pathways that involve or might involve consultant-led care. Referral to treatment (RTT) data collection monitors the length of time from referral through to treatment and is used to measure performance against the 18 weeks operational standard.

Information is collected on the total number of incomplete RTT pathways, for oral surgery, which includes orthodontic treatment. This data looks at patients who have entered a RTT pathway but whose treatment had not yet started. Data are available from August 2007:

Total number of incomplete oral surgery RTT pathways, England

	Number
August 2007	152,302
April 2008	121,032
April 2009	111,188

Note:
Data on incomplete pathways is only available from August 2007 onwards.

Mr. Evennett: To ask the Secretary of State for Health how many people resident in *(a)* the London Borough of Bexley and *(b)* Bexleyheath and Crayford constituency were on a waiting list for orthodontic treatment in each of the last four years. [286691]

Ann Keen: Information is not collected centrally on waiting times for national health service orthodontic treatment provided in primary care.

From 1 January 2009, no one should wait more than 18 weeks from the time they are referred by their general practitioner or dentist to the start of their consultant-led treatment unless it is clinically appropriate to do so, or they choose to wait longer.

The 18 weeks commitment covers pathways that involve or might involve consultant-led care. Referral to treatment (RTT) data collection monitors the length of time from referral through to treatment and is used to measure performance against the 18 weeks operational standard.

Information is collected on the total number of incomplete RTT pathways, for oral surgery, which includes orthodontic treatment. These data look at patients who have entered a RTT pathway but whose treatment had not yet started. Data are available from August 2007.

The following table shows data for Bexley Care Trust.

Oral surgery: Total number of incomplete RTT pathways

	Bexley Care Trust
August 2007	257
April 2008	216
April 2009	183

Note:
RTT data are only available from 2007 onwards.
Source:
Department of Health 18 weeks RTT data

Departmental Public Expenditure

Mr. Lansley: To ask the Secretary of State for Health what his latest estimate is of his Department's *(a)* capital budget and *(b)* capital expenditure outturn in (i) 2009-10 and (ii) 2010-11. [286317]

Mr. Mike O'Brien: Details of the Department's capital expenditure forecasts for 2009-10 and 2010-11 were published in the 2009 departmental report (page 218), Cm 7593, which is available in the Library.

General Practitioners: Working Hours

Mr. Jenkins: To ask the Secretary of State for Health what recent estimate he has made of the change to the number of patient appointments available following the introduction of extended evening and weekend opening hours at GP practices in *(a)* Tamworth and *(b)* England. [286338]

Mr. Mike O'Brien: Information is not collected centrally on which individual general practitioner (GP) practices offer extended opening hours. GP practices can voluntarily participate in a national scheme where they should offer 30 minutes of extended opening for every 1,000 registered patients. Guidance issued to primary care trusts (PCTs) suggests that this would normally equate to 12 to 14 additional patient appointments being available in the average practice of 6,000 patients. However, there will be variations in the number of additional appointments available within each practice dependent on the list size of each practice participating in the scheme. It is not possible to estimate the number of additional appointments being delivered in Tamworth (South Staffordshire PCT). However, nationally, we estimate that around 5.5 million additional new appointments may have been created based on the current levels of extended opening. I have asked the PCT to provide any local information they have to my hon. Friend.

Hospital Beds

Chris Huhne: To ask the Secretary of State for Health pursuant to the answer to the hon. Member for Eddisbury (Mr. O'Brien) of 1 June 2009, *Official Report*, column 117-8W, on hospital beds, whether his Department collates data on the *(a)* sex and *(b)* age of occupants of hospital beds. [285724]

Mr. Mike O'Brien: The Department does not collate these data. However, the NHS Information Centre publishes Hospital Episode Statistics for admitted patient care which are available by age and gender. Summary data are published at:

www.hesonline.org.uk/Ease/servlet/ContentServer?siteID=1937&categoryID=193

Hospitals: Admissions

Mr. David Anderson: To ask the Secretary of State for Health how many hospital admissions there were for *(a)* chronic obstructive pulmonary disease and *(b)* respiratory diseases in (i) England and (ii) each primary care trust area in the latest period for which figures are available. [286251]

Ann Keen: The hospital admission data for 2007-08 for chronic obstructive pulmonary disease and all respiratory disease in England and each primary care trust are contained in a the table which has been placed in the Library.

Hospitals: Waiting Lists

Hugh Bayley: To ask the Secretary of State for Health what the average waiting time was for *(a)* elective in-patient admission and *(b)* first out-patient appointment in each specialty at York NHS Trust in each year since 1996. [285714]

Mr. Mike O'Brien: The information on the waiting times for York health services by specialty is shown in a table which has been placed in the Library.

Injuries: Dogs

Chris Huhne: To ask the Secretary of State for Health how many people aged *(a)* under 10, *(b)* between 10 and 18 and *(c)* over 18 years of age were admitted to accident and emergency departments in each hospital trust under the external cause code of W54 as a result of an attack by a dog in each year since 2000. [285762]

Mr. Mike O'Brien: The information is not available in the format requested. Tables showing a count of the number (admission episodes) admitted to hospital via accident and emergency departments for hospital providers in England, with a cause code of W54 (bitten or struck by dog) have been placed in the Library. This information has been provided by the following age groups: under 10, between 10 and 18 and over 18, for each financial year from 2000-01 to 2007-08—the most recent financial year available.

Kidneys

Norman Lamb: To ask the Secretary of State for Health how many hospital admissions for the treatment of kidney stones were recorded in each year since 1997. [285445]

Ann Keen: The following table shows how many finished hospital admissions for the treatment of kidney stones were recorded in each year since 1997.

Count of finished admission episodes for the treatment of kidney stones (ICD-10 codes N20.0 and N20.2)

	Count
2007-08	33,639
2006-07	31,015
2005-06	28,555
2004-05	26,210
2003-04	25,089
2002-03	21,949
2001-02	21,288
2000-01	21,145
1999-2000	21,030
1998-99	21,074
1997-98	20,932

Count of finished admission episodes for the treatment of kidney stones (ICD-10 codes N20.0 and N20.2)

	Count
1996-97	20,158

ICD-10 Code
N20.0 Calculus of Kidney
N20.2 Calculus of Kidney with calculus of ureter

Notes:

1. Ungrossed data

Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

2. Finished admission episodes

A finished admission episode is the first period of in-patient care under one consultant within one health care provider. Finished admission episodes are counted against the year in which the admission episode finishes. Admissions do not represent the number of in-patients, as a person may have more than one admission within the year. We have provided finished admission with a primary diagnosis of ICD-10 codes N20.0 Calculus of kidney and N20.2 Calculus of kidney with calculus of ureter.

3. Primary diagnosis

The primary diagnosis is the first of up to 20 (14 from 2002-03 to 2006-07 and seven prior to 2002-03) diagnosis fields in the Hospital Episode Statistics (HES) data set and provides the main reason why the patient was admitted to hospital.

4. Data quality

HES are compiled from data sent by more than 300 NHS trusts and primary care trusts (PCTs) in England. Data is also received from a number of independent sector organisations for activity commissioned by the English NHS. The NHS Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain.

5. Assessing growth through time

HES figures are available from 1989-90 onwards. The quality and coverage of the data have improved over time. These improvements in information submitted by the NHS have been particularly marked in the earlier years and need to be borne in mind when analysing time series. Some of the increase in figures for later years (particularly 2006-07 onwards) may be due to the improvement in the coverage of independent sector activity. Changes in NHS practice also need to be borne in mind when analysing time series. For example, a number of procedures may now be undertaken in out-patient settings and may no longer be accounted for in the HES data. This may account for any reductions in activity over time.

6. Further primary diagnosis codes exist relating to kidney stones, however these are not limited to kidney stones and therefore have been excluded these are:

N13.2 Hydronephrosis with renal and ureteral calculous obstruction includes but is not limited to ureteric calculus of kidney and hydronephrosis.

N13.6 Pronephrosis includes but is not limited to ureteric calculus with calculus of kidney and hydronephrosis and infection.

Q63.8 Other specific congenital malformations of kidney includes but is not limited to congenital calculus of kidney.

Source:

Hospital Episode Statistics (HES), The NHS Information Centre for health and social care

Mental Health Services: Kent

Mr. Fallon: To ask the Secretary of State for Health how much funding his Department has allocated for the provision of mental health services in West Kent for 2009-10. [286758]

Gillian Merron: The information requested is not held centrally. Primary care trusts are responsible for decisions about the funding of mental health services based on the priorities and needs of the local population.

NHS: Debt

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the answer of 15 June 2009, *Official Report*, column 494W, on the NHS: debt, how the NHS accounts for debts owed by trusts to bodies other than *(a)* his Department and *(b)* other Government bodies. [283937]

Mr. Mike O'Brien: From 2009-10, accounting for all types of creditor transactions by national health service organisations is in accordance with International Financial Reporting Standards, as adapted and interpreted for the public sector by the Government Financial Reporting Manual issued by Her Majesty's Treasury.

NHS: Drugs

Mr. Baron: To ask the Secretary of State for Health how much has been paid in *(a)* legal costs and *(b)* compensation awards arising from cases of adverse incidents associated with the use of medicines outside their licensed indication in the last 12 months. [286295]

Ann Keen: The information requested can be answered only at disproportionate cost because the NHS Litigation Authority does not record this information in a readily accessible format.

NHS: Private Sector

Tony Baldry: To ask the Secretary of State for Health on what criteria relating to *(a)* medical conditions and *(b)* waiting times the eligibility of patients for access to treatment funded by the NHS in private hospitals is determined. [285989]

Mr. Mike O'Brien: Under free choice, patients who require an elective referral can choose to be treated at any clinically appropriate provider that meets national health service costs and standards (including waiting times standards). This includes all NHS Foundation trusts and NHS Acute trusts as well as a large number of Independent Sector providers and their hospitals.

There are some services that fall outside the scope of the choice policy. Where speed of access is particularly important (for example, patients attending a rapid access chest pain cancer services under the two week maximum waiting time). Maternity and mental health services are also currently exempt.

Pharmacy

Mark Simmonds: To ask the Secretary of State for Health what support primary care trusts provide to pharmacies which do not reach their prescription items threshold for *(a)* one month, *(b)* six months and *(c)* one year. [286062]

Mr. Mike O'Brien: Essential Small Pharmacy Local Pharmaceutical Services (ESPLPS) contracts are in place for those low-volume pharmacies considered by their primary care trust to be essential to the proper and sufficient provision of drugs and medicines within its area. This provides a 'top-up' where the dispensing activity falls below certain monthly thresholds. For other low-volume pharmacies it is a matter for the parties locally to agree what measures, if any, may be taken, including, for example, the commissioning of additional services.

Pregnant Women

Harry Cohen: To ask the Secretary of State for Health how many health in pregnancy grants have been made in the London boroughs of *(a)* Waltham Forest and *(b)* Redbridge; and what estimate he has made of the number of residents of each borough who will be eligible for such grants in 2009-10. [285819]

Mr. Timms: I have been asked to reply.

The information requested is not yet available, it is estimated that, 140,000 mothers-to-be in London will be eligible for the Health in Pregnancy grant in 2009-10.

Prescription: Fees and Charges

Lembit Öpik: To ask the Secretary of State for Health what recent progress his Department has made towards exempting from prescription charges people with long-term medical conditions; and if he will make a statement. [285917]

Mr. Mike O'Brien: I refer the hon. Member to the written answer I gave my hon. Friend the Member for Chorley (Mr. Hoyle) on 29 June 2009, *Official Report*, column 92W.

Primary Care Trusts: Working Hours

Norman Lamb: To ask the Secretary of State for Health how much has been allocated to each primary care trust in respect of compliance with the revised requirements of the European Working Time Directive; and what assessment he has made of the use to which such funds have been put. [285462]

Ann Keen: A total of £310 million has been made available to support implementation of the Directive. In 2009-10 the tariff uplift includes £150 million implementing the Directive, while strategic health authorities will be able to target £50 million to support change and expansion in paediatrics, obstetrics and anaesthetics and other trained doctor solutions.

Strategic health authorities have made clear to primary care trusts and trust boards the availability of funding and the criteria for its use.

The strategic health authorities will report on usage in due course.

Swine Flu

Mr. Lansley: To ask the Secretary of State for Health pursuant to the statement of 12 June 2009, *Official Report*, columns 1052-62, on swine flu update, what scenarios have been planned for; and which of these has enabled his Department to plan for the worst. [284274]

Gillian Merron: The planning assumptions set out in the National Framework for Responding to an Influenza Pandemic, which was published in November 2007, advise planning for a range of scenarios. A copy has already been placed in the Library. These were based on advice from the predecessor of the Scientific Pandemic Influenza Advisory Committee, the Scientific Advisory Group on Pandemic Influenza, and its subgroup on Modelling. These assumptions are for a considerably more severe and more infectious illness than the illness currently seen in the United Kingdom or abroad with the swine flu virus A(H1N1).

York Hospitals NHS Foundation Trust: Expenditure

Hugh Bayley: To ask the Secretary of State for Health what capital expenditure York Hospitals NHS Foundation Trust has incurred in each year since 1996-97. [285871]

Mr. Mike O'Brien: The information is not available in the format requested.

The following table shows data for 2001-02 to 2006-07, which are the only years for which information is available for the York Hospitals NHS Trust.

	Charge against the capital resource limit (£000)
2006-07	(20,770)
2005-06	13,187
2004-05	14,916
2003-04	11,238
2002-03	843
2001-02	(9,281)

Notes:
1. York Hospitals NHS Trust achieved Foundation Trust status on 1 April 2007. The Department does not collect data from foundation trusts, therefore no data are available for 2007-08.
2. The term "capital expenditure" has been interpreted to mean the charge against the Capital Resource Limit for the year. This charge is calculated as follows:
(a) Gross capital expenditure in accruals terms for the period
(b) Less the net book value of assets disposed of
(c) Plus any loss on disposal of donated assets
(d) Less capital grants received
(e) Less donations
3. The negative figures in 2006-07 and 2001-02 indicate that the trust has disposed of assets with a net book value greater than the amount spent on the purchase of fixed assets in each period.
4. For the available data since achieving foundation trust status, my hon. Friend may wish to contact the York Hospitals NHS Foundation Trust direct.
Source:
Department of Health audited consolidation schedules.

York Hospitals NHS Foundation Trust: Waiting Times

Hugh Bayley: To ask the Secretary of State for Health what the *(a)* average and *(b)* maximum waiting time for (i) in-patient and (ii) day case admissions was at York Hospitals NHS Foundation Trust in the quarter ending (A) December 2006, (B) March 2007 and (C) June 2007. [285868]

Mr. Mike O'Brien: The information on the waiting time for York Hospitals NHS Foundation Trust is shown in the following table:

	Month ending	*Type*	*Median waiting time (weeks)*	*Time band containing the longest Waiter (weeks)*
2006-07	December 2006	Day case	6.5	25-26
	December 2006	Ordinary	7.8	25-26

	Month ending	Type	Median waiting time (weeks)	Time band containing the longest waiter (weeks)
	March 2007	Day case	6.7	19-20
	March 2007	Ordinary	6.5	19-20
2007-08	June 2007	Day case	6.0	19-20
	June 2007	Ordinary	6.5	19-20

Notes:
1. The figures show the median waiting times for patients still waiting for admission at the end of the period stated.
2. In-patient waiting times are measure from decision to admit by the consultant to admission to hospital.
3. Median waiting times are calculated from aggregate data, rather than patient level data, and therefore are only estimates of the position on average waits.

York Hospitals NHS Trust: Manpower

Hugh Bayley: To ask the Secretary of State for Health how many full-time equivalent *(a)* medical consultants, *(b)* other medical staff, *(c)* nurses, *(d)* other professional staff, *(e)* administrative and clerical staff and *(f)* auxiliary staff were employed by York NHS Trust, excluding those transferred to Selby and York Primary Care Trust, in each year since 1996-97. [285869]

Ann Keen: The data are not available in the format requested. The following table shows national health service staff at the York Hospitals NHS Trust by main staff group as at 30 September each specified year.

Full-time equivalent

	1997	1998	1999	2000	2001	2002	2003	2004	2005	2006	2007	2008

n/a = Not applicable. Figures for Healthcare Scientists were not separately identifiable until 2003.

Notes:

1. Full-time equivalent figures are rounded to the nearest whole number.

Data Quality:

2. Workforce statistics are compiled from data sent by more than 300 NHS trusts and primary care trusts in England. The NHS Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data. Processing methods and procedures are continually being updated to improve data quality. Where this happens, any impact on figures already published will be assessed but unless this is significant at national level, they will not be changed. Where there is impact only at detailed or local level, this will be footnoted in relevant analyses.

TREASURY

Quantitative Easing

17. **Mr. Jenkin:** To ask the Chancellor of the Exchequer what assessment he has made of the effects on the economy of the Bank of England's decision to implement quantitative easing measures. [286207]

Sarah McCarthy-Fry: The Bank of England has operational responsibility for monetary policy, including use of the Asset Purchase Facility.

The Bank publishes quarterly reports on the APF, the first of which was published on 27 April. The Bank also reports on the APF in its Inflation Report and Quarterly Bulletin and regularly publishes operational information for the APF on its website.

Comprehensive Spending Review

18. **Bill Wiggin:** To ask the Chancellor of the Exchequer when he expects to commence the next Comprehensive Spending Review. [286208]

Mr. Byrne: Departmental budgets are set until April 2011. The exceptional economic uncertainty we now face means that it would not make sense to set budgets now for 2014, less than half way through the current spending review period. The Chancellor will set out economic and fiscal forecasts at the time of the Pre-Budget report, when he will return to this issue.

21. **Stephen Hammond:** To ask the Chancellor of the Exchequer what steps his Department is taking in preparation for the next Comprehensive Spending Review. [286211]

Mr. Byrne: Departmental budgets are set until April 2011. The exceptional economic uncertainty we now face means that it would not make sense to set budgets now for 2014, less than half way through the current spending review period. The Chancellor will set out economic and fiscal forecasts at the time of the Pre-Budget report, when he will return to this issue.

Departmental Expenditure Limits

22. **Mr. Whittingdale:** To ask the Chancellor of the Exchequer what plans have been made for total Departmental Expenditure Limits in real and cash terms for 2010-11 and 2013-14. [286213]

Mr. Byrne: Departmental budgets are set until April 2011. The exceptional economic uncertainty we now face means that it would not make sense to set budgets now for 2014, less than half way through the current spending review period. The Chancellor will set out economic and fiscal forecasts at the time of the Pre-Budget report, when he will return to this issue.

Departmental Databases

Jenny Willott: To ask the Chancellor of the Exchequer (1) what categories of personal information about members of the public are contained on each relevant database managed by his Department and its agencies; on what date each such category of information began to be collected; and if he will make a statement; [285880]

(2) what categories of personal information on members of the public will be held on each database expected to become operational in the next five years which will be managed by his Department or one of its agencies; what estimate he has made of the likely number of individuals details each such database will hold when fully operational; and if he will make a statement; [286151]

(3) what databases which will be managed by his Department or one of its agencies and which will contain personal information are *(a)* under construction and *(b)* expected to be operational in each of the next five years; and if he will make a statement. [286508]

Sarah McCarthy-Fry: I refer the hon. Member to the answer that I gave to her on 8 July 2009, *Official Report*, column 877W. For those databases, managed by the Treasury and its agencies, containing personal information about members of the public, the following categories of data are held:

Financial Sanctions (all categories collected since October 2007):

Personal identification information, contact information, information related to financial sanctions.

Gilts Register (all categories collected since December 2004)

Personal identification information, contact information, information related to gilts registration.

DMO Job Applicants (all categories collected since 2004):

Personal identification information, contact information.

All data stored on Treasury databases are managed in accordance with the requirements of the Data Protection Act 1998.

There are currently no new databases managed by the Department, or its agencies, which will contain personal information of any kind, either under construction or expected to become operational over the next five years.

Following the publication of the cross-Government data handling review in June 2008, any new projects or programmes that propose to hold significant amounts of personal data will be obliged to conduct privacy impact assessments.

Departmental Electronic Equipment

Jenny Willott: To ask the Chancellor of the Exchequer how many *(a)* photocopiers, *(b)* scanning devices and *(c)* fax machines, excluding multi-function devices, there are in his Department; how many there were in each of the last three years; and if he will make a statement. [286164]

Sarah McCarthy-Fry: The Treasury currently has no stand-alone photocopiers. Photocopying is carried out on multi-function devices. The other information requested is not held centrally and could be provided only at a disproportionate cost.

Banks: Regulation

Keith Vaz: To ask the Chancellor of the Exchequer what further plans he has for the reform of banking regulation. [286212]

Sarah McCarthy-Fry: As set out in the Chancellor of the Exchequer's statement to the House on 8 July, the Government's plans for the reform of banking regulation are presented in the document 'Reforming financial markets.' Legislation will follow, where necessary, in the next session.

Banks: Remuneration of Senior Employees

Tony Lloyd: To ask the Chancellor of the Exchequer what recent discussions he has had with banks in public ownership on remuneration packages for their senior employees. [286210]

Sarah McCarthy-Fry: The Government have been clear that any rewards for senior employees in the banks must be based on solid, long-term performance which rebuilds the bank and delivers a good return for the taxpayer. As a shareholder, UKFI has worked closely with the bank to ensure these principles are adhered to. The implementation of this is for the banks' boards, in consultation with UKFI.

Economic Growth

Mr. Binley: To ask the Chancellor of the Exchequer what recent assessment he has made of the future rate of growth of the economy. [286209]

Sarah McCarthy-Fry: As set out in the Budget:

"GDP is forecast to contract sharply in the first half of 2009, by 4 per cent. on a year earlier, to stabilise in the second half of the year, and then to pick up progressively through 2010 and 2011".

Equitable Life Assurance Society

Sandra Gidley: To ask the Chancellor of the Exchequer what reports he has received of the progress made by Sir John Chadwick in the formulation of his advice on an Equitable Life ex-gratia payment scheme. [286196]

Mr. Byrne: Sir John provides regular updates to the Government on the progress of his work. Sir John has already established his Office, appointed its key members and actuarial advisers, and has established a website.

On 16 June Sir John issued a document setting out his proposed approach and he has requested comments to this by 17 July.

Financial Action Task Force

Andrew Stunell: To ask the Chancellor of the Exchequer (1) whether the Government has received warnings from the Financial Action Task Force for non-compliance with its recommendations on combating the laundering of corrupt funds; [285378]

(2) on how many occasions the Government has delivered a progress report to the Financial Action Task Force for non-compliance with its recommendations on *(a)* requiring banks to perform enhanced due diligence for politically exposed persons and *(b)* preventing the unlawful use of legal persons by money launderers; [285379]

(3) whether the Government has received representations from the Financial Action Task Force (FATF) on the Government's compliance with FATF recommendations on tackling money laundering. [285799]

Sarah McCarthy-Fry: The anti-money laundering and countering the finance of terrorism regime of the UK was last evaluated by the FATF in 2007. The UK achieved one of the highest overall compliance ratings of any country evaluated so far and was required to report in two years on progress in addressing the deficiencies the report identified.

That progress report was delivered in June this year. The report detailed all the action that had been taken in addressing each deficiency identified in the FATF mutual evaluation and will shortly be published on the FATF website.

In the follow up report, the UK detailed the changes made to its regime since 2007, including the implementation of a requirement for banks to carry out enhanced due diligence when conducting business with politically exposed persons, thereby rectifying the identified shortfalls that led to the non-compliant rating against the recommendation on combating the laundering of corrupt funds.

Financial Ombudsman Service: Complaints

Adam Afriyie: To ask the Chancellor of the Exchequer what information his Department holds on the average time taken by the Financial Ombudsman Service to respond to complaints by members of the public in the last six months. [285677]

Sarah McCarthy-Fry: The Financial Ombudsman Service (FOS) is operationally independent from Government. The steps taken by the Financial Ombudsman Service to deal with the demands it faces are detailed in its Corporate Plan and budget 2009-10 published in March 2009.

Interest Rates

Mr. Sanders: To ask the Chancellor of the Exchequer if he will assess the effect of lower interest rates on *(a)* the income and *(b)* retail spending levels of those over 65 years of age whose income is largely dependent on their savings. [285208]

Sarah McCarthy-Fry: The Government recognise that historically low interest rates have particularly impacted on pensioners. Budget 2009 announced a package of support for pensioners who receive an income from savings.

In order to help those pensioners who may have been affected by lower interest rates the Government will be increasing the annual ISA investment limits for people aged 50 and over to £10,200, up to £5,100 of which can be held in cash, from October 2009.

To provide additional support, the capital disregard in pension credit and pensioner-related housing and council tax benefit will increase in November 2009, meaning the first £10,000 of savings will not be included when calculating someone's entitlement for these income-related benefits. This is expected to increase the income of 540,000 low-income households by an average of £4 a week.

The Government are also launching a new tax back campaign, through which pension credit recipients will be contacted to encourage them to claim back tax they may have overpaid on their savings income and, where possible, register to receive interest on their savings tax-free in future.

The Government have also committed to maintain the standard interest rate used to calculate support for mortgage interest at 6.08 per cent. for a further six months until the end of December 2009, to provide continued support for home owners on pension credit who receive help with their mortgage.

Personal Income

Mr. Frank Field: To ask the Chancellor of the Exchequer if he will estimate the net cost to the public purse of increasing personal allowances to provide a *(a)* £2 and *(b)* £3 rise in net income per week if the whole of the value of the increase in income were clawed back through national insurance contributions from those earning more than £18,000 per year. [286911]

Mr. Timms: £2 per week rise in net income would require an increase in the personal allowance of £520. £3 per week rise would require an increase of £780 The national insurance contributions (NICs) system in its present form has no facility that would allow the increase in net income to be clawed back from those who earn over £18,000 and pay primary Class 1 or Class 4 NICs.

To do so would require each individual affected to have a different rate of NICs dependent on their income to ensure the income rises are exactly clawed back by the increase in NICs.

Public Expenditure

Miss McIntosh: To ask the Chancellor of the Exchequer what recent discussions he has had with the Secretary of State for the Environment, Food and Rural Affairs on that Department's departmental expenditure limits for the next three years. [286538]

Mr. Byrne: The Secretary of State for the Environment, Food and Rural Affairs and Treasury ministers have regular discussion on a range of issues in the conduct of their duties including the Departmental Expenditure Limits of the Department for the Environment, Food and Rural Affairs (DEFRA).

DEFRA's Departmental Expenditure Limits for 2009-10 and 2010-11 were published on 19 June 2009 in Public Expenditure Statistical Analysis 2009.

Departmental expenditure limits for all Departments for the period after 2010-11 will be set at the next Spending Review.

Public Services: Finance

Hywel Williams: To ask the Chancellor of the Exchequer whether his Department undertook a needs assessment of the cost of provision of public services in England, Scotland, Wales and Northern Ireland in 1994. [285812]

Mr. Byrne *[holding answer 13 July 2009]:* The Treasury produced an update of the 1979 Needs Assessment for Scotland, Wales and Northern Ireland in 1994.

Revenue and Customs

Dan Rogerson: To ask the Chancellor of the Exchequer what requests received by HM Revenue and Customs under the provisions of the Freedom of Information Act 2000 in 2008 were *(a)* classified as not resolvable and *(b)* refused in full. [286132]

Mr. Timms: In 2008 HMRC received 1,288 Freedom of Information requests. Of these, 174 were classified as not resolvable in that HMRC either did not hold the information requested, or asked the requestor to clarify the information they were seeking.

Of the remaining requests, HMRC fully withheld the information in 312 cases. The most frequent reason for withholding information is in response to requests for customer information, relating to either individuals or companies.

The text for these 486 requests could be located and extracted only at disproportionate cost.

Taxation: Bingo

Mr. Bellingham: To ask the Chancellor of the Exchequer (1) what recent representations his Department has received on changes to the taxation regime for bingo; [286054]

(2) what representations his Department received from representatives of the bingo industry on estimates made by his Department in relation to the effects on that industry of recent changes to the taxation regime for bingo; and if he will make a statement; [286058]

(3) whether he has had discussions with the Department for Business, Innovation and Skills on his Department's proposals in relation to the introduction of a gross profit tax system to replace amusement machine licence duty; [286078]

(4) whether he has had discussions with the Department for Culture, Media and Sport on his Department's proposals in relation to the introduction of a gross profit tax in place of amusement machine licence duty; and if he will make a statement; [286085]

(5) what representations he has received on his Department's planned consultation on proposals to introduce a gross profit tax in place of amusement machine licence duty; [286086]

(6) what representations his Department has received on changes to the amusement machine licence duty regime by means other than the introduction of a gross profits tax. [286103]

Sarah McCarthy-Fry: Treasury Ministers and officials meet with a wide range of organisations and individuals in the public and private sectors as part of the usual policymaking process. As was the case with previous Administrations, it is not the Government's practice to provide details of all such discussions.

Taxation: Gaming Machines

Mr. Bellingham: To ask the Chancellor of the Exchequer (1) what timetable he has set for his Department's consultation on proposals to introduce of a gross profit tax in place of amusement machine licence duty; and if he will make a statement; [286080]

(2) what estimate he has made of the cost to the public purse of introducing a gross profit tax in place of amusement machine licence duty; and if he will make a statement; [286083]

(3) what estimate his Department has made of the likely change in revenue accruing to the Exchequer consequent on the introduction of a gross profit tax on gaming machines; and what methodology was used to determine that estimate; [286099]

(4) what assessment his Department has made of the likely effects on the amusement machine industry of the introduction of a gross profit tax to replace the amusement machine licence duty system. [286104]

Sarah McCarthy-Fry: The Government plan to launch the consultation and a consultation stage impact assessment soon. The Government will produce and publish a final stage impact assessment after the consultation has closed.

Taxation: Repayments

Steve Webb: To ask the Chancellor of the Exchequer (1) in how many and what proportion of tax credit cases in which tax credits were overpaid those overpayments were being repaid by claimants in each year since their introduction; [286071]

(2) how many and what proportion of tax credit claimants have been required to repay tax credits in each year since they were introduced. [286066]

Mr. Timms: This information is not available.

The latest estimates of the number of families with tax credit awards, including information on overpayments based on final family circumstances and incomes are published on the HM Revenue Customs website at

www.hmrc.gov.uk/stats/personal-tax-credits/menu.htm

VAT: Garages

Mr. Stewart Jackson: To ask the Chancellor of the Exchequer whether the rules on value added tax liability of garages rented by local authorities to householders have been amended since 1997. [286518]

Mr. Timms: No.

BUSINESS, INNOVATION AND SKILLS

Apprentices

Lorely Burt: To ask the Minister of State, Department for Business, Innovation and Skills how many apprenticeship places have been created as a result of the awarding of new public procurement contracts since January 2009; and if he will make a statement. [283898]

Kevin Brennan: We do not have a central record of how many apprenticeship places have been created as a result of the award of new public sector contracts. There is no formal requirement in place in the Apprenticeships programme to record this information.

A number of Departments and agencies have already brought forward firm, quantified commitments to creating apprenticeship opportunities through their procurement processes. The Olympic Delivery Authority has pledged to create an extra 250 apprenticeship places through the development of the Olympic Park and Village. Through Building Schools for the Future procurement, we expect to create an additional 1,000 apprenticeship places, building on existing commitments in Building Colleges for the Future where we estimate that on average one in every 20 workers employed on college construction projects is an apprentice.

Lorely Burt: To ask the Minister of State, Department for Business, Innovation and Skills what guidance his Department has issued on the inclusion of apprenticeship opportunities in criteria for Government procurement contracts. [283899]

Kevin Brennan: The Government are committed to using the unique leverage of their £175 billion procurement programme to promote skills training and apprenticeship opportunities.

In April the then Department for Innovation, Universities and Skills and the Office of Government Commerce published "Promoting Skills through Public Procurement", a new guide to provide procurers across the public sector with practical advice on how skills training and apprenticeships can be promoted through public procurement processes—both when letting new contracts, and working with existing contractors on a voluntary basis.

Mr. Hayes: To ask the Minister of State, Department for Business, Innovation and Skills what the average number of apprentices in training was in *(a)* 2007-08 and *(b)* 2008-09. [286220]

Kevin Brennan *[holding answer 13 July 2009]:* There were 224,800 apprenticeship starts in 2007/08, the latest year for which we have full-year information. In total, there were 418,900 learners participating on apprenticeship programmes in 2007/08. This includes learners who had started their programme in previous academic years. In the first nine months of 2008/09 (1 August 2008 to 30 April 2009, provisional), there were 196,600 apprenticeship starts.

In "World-Class Apprenticeships", we announced that we were changing the way we count apprenticeships, moving to counting the number of people starting an apprenticeship in the year ('starts') and the percentage who complete an apprenticeship ('completion rate').

Apprentices: Finance

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills what recent discussions he has had with the Learning and Skills Council on funding the Council has allocated to training providers for the provision of new apprenticeship places in 2009-10. [284682]

Kevin Brennan: The Government have made clear to the Learning and Skills Council (LSC) that apprenticeships are a key route to building the national skills base. The Government are committed to significant growth in apprenticeships for young people and adults.

The LSC has issued final allocations to providers for apprenticeships for the academic year 2009/10. Funding for apprenticeships has increased by almost a quarter between 2007-08 and 2009-10, to over £1 billion.

Government funding will provide for over 250,000 new apprenticeship starts in the academic year 2009-10, including an additional 30,000 of the 35,000 new starts announced by the Government in January 2009.

Companies Act 2006

Bob Russell: To ask the Minister of State, Department for Business, Innovation and Skills (1) what progress his Department has made in its assessment of the merits of using provisions of the Companies Act 2006 to protect the use of the word college; [285603]

(2) if he will take steps to restrict the use of the word college to educational establishments providing education to recognised standards. [285604]

Ian Lucas: The new offence under the Companies Act 2006 of carrying on business under a name that gives so misleading an indication of the nature of the business's activities as to be likely to cause harm to the public will come into force on 1 October 2009. As this will address the problem of bogus colleges, I do not intend to add "college" to the list of words for which the Secretary of State's prior approval is required for their inclusion in either a company's registered name or any person's business name.

Consumer Protection Act 1987

Mrs. Laing: To ask the Minister of State, Department for Business, Innovation and Skills how many requests for communications data were made by trading standards officials to communication service providers (CSPs) under the *(a)* Consumer Protection Act 1987, *(b)* Fair Trading Act 1973, *(c)* Trade Descriptions Act 1968 in (i) 2000, (ii) 2001, (iii) 2002, (iv) 2003, (v) 2004, (vi) 2005, (vii) 2006, (viii) 2007 and (ix) 2008; and how many of these requests resulted in the requested communications data being disclosed by the relevant CSP. [284864]

Kevin Brennan: Local authorities will make requests to service providers for subscriber details as part of their enforcement activities on a case by case basis. This information is held by the respective local authorities and is not collected by central Government.

Consumers: Protection

Mr. Drew: To ask the Minister of State, Department for Business, Innovation and Skills what steps his Department takes to ensure that consumers entering into contracts with *(a)* utilities, *(b)* communications providers, *(c)* internet service providers, *(d)* media services, *(e)* banks and *(f)* software companies are provided with comprehensible forms to protect them from agreeing to unfair terms. [284735]

Kevin Brennan: The Unfair Terms in Consumer Contract Regulations 1999 (UTCCRs) protect consumers when entering into contracts. Companies who deal with consumers and use standard form contracts must ensure they do not use unfair terms. Under the UTCCRs, an unfair term is defined as one which, contrary to the requirements of good faith, causes a significant imbalance in the parties' rights and obligations under the contract to the detriment of the consumer.

The UTCCRs require that all contract terms are expressed in plain, intelligible language. The indicative list of terms which may be unfair includes terms with which the consumer has had no real opportunity of becoming acquainted before the conclusion of the contract.

Departmental Energy

Gregory Barker: To ask the Minister of State, Department for Business, Innovation and Skills how much *(a)* electricity and *(b)* gas was used (i) on his Department's predecessors' estate and (ii) by his Department's predecessors' agencies in each year from 2004-05 to 2008-09. [280515]

Mr. McFadden: Electricity and gas consumption figures for BIS and its predecessors are as follows:

	Electricity	*kWh Gas*
2004-05	17,867,158	6,385,773
2005-06	18,294,370	6,011,530
2006-07	15,721,409	4,380,799
2007-08	14,068,343	5,040,888
2008-09	12,644,998	6,400,222

The figures shown for 2007-08 and 2008-09 include consumption by DIUS who occupied floors in a BIS managed building, Kingsgate House, in London. The figures do not include DIUS consumption in buildings managed by DCSF where DIUS also occupied space.

I have approached the chief executives of the Insolvency Service, Companies House, National Weights and Measures Laboratory and UK Intellectual Property Office and they will respond directly to you.

Letter from Stephen Speed, dated 14 July 2009:

The Minister of State, Department for Business, Innovation and Skills, has asked me to reply to you directly on behalf of The Insolvency Service in relation to how much (a) electricity and (b) gas was used (i) on his Department's predecessors' estate and (ii) by his Department's predecessors' agencies in each year from 2004-05 to 2008-09.

The table shows the amount of electricity and gas consumption (in kilowatt hours) that has been directly billed to the Insolvency Service by utility providers.

Financial year	*Electricity*	*Gas*
2004-05	2722806	610187
2005-06	2777875	565826
2006-07	2770868	389574
2007-08	2892753	471518
2008-09	2336081	659159

In about half of its offices, The Insolvency Service is billed indirectly via a building services charge and where this is the case we are unable to identify energy, consumption separately.

Letter from Gareth Jones, dated 14 July 2009:

I am replying on behalf of Companies House to your Parliamentary Question tabled on 12 June 2009, UIN 280515, to the Minister of State for the Department for Business Innovation and Skills.

The amounts of electricity and gas used by Companies House are as follows:

Year	*Electricity (kwh)*	*Gas (kwh)*
2004-05	4,885,487	2,068,553
2005-06	5,458,489	1,894,193
2006-07	5,349,874	1,612,251
2007-08	5,315,618	1,708,260
2008-09	5,500,920	1,901,217

Letter from Peter Mason, dated 25 June 2009:

I am responding in respect of the National Measurement Office (formerly National Weights and Measures Laboratory) to your Parliamentary Question tabled on 12 June 2009 [reference 280515] to the Minister of State, Department for Business, Innovation and Skills, asking how much (a) electricity and (b) gas was used (i) on his Department's predecessors' estate and (ii) by his Department's predecessors' agencies in each year from 2004-05 to 2008-09.

The expenditure by the National Weights and Measures Laboratory on electricity and gas as recorded in the Agency's accounts over the relevant years was:

	2004-05	*2005-06*	*2006-07*	*2007-08*	*£ 2008-09*
Electricity	55,779.38	66,796.09	10,156.98	40,963.17	41,396.33
Gas	17,551.23	26,730.70	23,993.23	23,579.51	29,409.96

Letter from Ian Fletcher, dated 24 June 2009:

I am responding on behalf of the Intellectual Property Office to your Parliamentary Question tabled 12 June 2009, to the Minister of State, Department for Business, Innovation and Skills.

In the last 4 years the following quantities of gas and electricity were used within the Intellectual Property Office; 05/06 through to 08/09 as follows:

2005/06

Gas: 4,451,422 kwH

Electric: 2,952,075 kwH

2006/07

Gas: 4,065,852 kwH

Electric: 3,415,314 kwH

2007/08

Gas: 3,982,293 kwH

Electric: 3,404,358 kwH

2008/09

Gas: 4,035,357 kwH

Electric: 3,379,787 kwH

Figures are for Concept House and NMP. Harmsworth House consumption was included in the service charge and not monitored separately.

We are not able to provide figures for 04/05 within the specified time frame as these records are not kept electronically at present and paper records are held off site in storage.

Education: Standards

Bob Russell: To ask the Minister of State, Department for Business, Innovation and Skills (1) what representations he has received on the effects on the reputation of the higher and further education sectors of trends in the numbers of establishments purporting to be colleges but not providing education to recognised standards; [285600]

(2) what steps he plans to take to cease the operations of organisations purporting to provide educational courses but not doing so to recognised standards. [285602]

Kevin Brennan: This Department and its predecessors have received representations on this issue from a number of parties. Following the Home Affairs Select Committee on 16 June 2009, the Department will form a task group to review the case for registering privately funded education providers. The task group will report back with its findings in September 2009.

Iron and Steel: Redundancy

Dr. Kumar: To ask the Minister of State, Department for Business, Innovation and Skills what training schemes will be provided for skilled steel workers who are made redundant to retain and develop their skills. [282877]

Kevin Brennan: The Government are committed to providing individuals and employers with the real help they need during the current economic downturn.

In each region Government agencies, including the Regional Development Agencies and Learning and Skills Council, are working together with Jobcentre Plus to deliver its Rapid Response Service to help individuals affected by redundancy. The service provides help and advice on a range of issues, including job searches, training, and benefits, and can be delivered on employers' premises.

Newly redundant employees or those under notice of redundancy can access a new £100 million package of support that will help 70,000 people to get flexible pre-employment training designed to meet their individual needs and help them get back to work quickly. The support typically lasts two to eight weeks, and there is no restriction on the type of provision.

£58 million will also be available over two years to increase information and advice services for people looking to re-train and find work.

The Government have also created 75,000 additional work-focused training opportunities for people who have been unemployed for six months or more from any sector, to help them up-skill or re-skill and get back into work. This provision is tailored to the local job market, can be full-time supported by a training allowance, and will provide a significant uplift in skills.

Through the Train to Gain service we are also actively engaging with employers in the steel industry to provide them and their employees with the skills support that will help them through the downturn.

Learning and Skills Council

Mr. Laws: To ask the Minister of State, Department for Business, Innovation and Skills if he will place in the Library a copy of the minutes of the meeting of the Learning and Skills Council on *(a)* 4 March and *(b)* 22 April 2009; and if he will make a statement. [276887]

Kevin Brennan: The acting chief executive of the Learning and Skills Council has recently undertaken a review of its National Council minutes and has decided that he will make public the full minutes from the National Council meetings, subject to the redaction of any confidential information that is exempt under the terms of the Freedom of Information Act 2000. Copies of the full minutes from June 2008 to April 2009 have now been published on their website, and can be found at:

www.lsc.gov.uk

Minutes of future meetings will be placed on the LSC's website within seven days of being approved by the Council.

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills whether the paper on the regional and sub-regional presence of the Young People's Learning Agency and the Skills Funding Agency, which the former Secretary of State for Innovation, Universities and Skills undertook to provide to the Learning and Skills Council at its Council meeting on 22 April 2009, has been completed. [282961]

Kevin Brennan: This paper remains under development and will be submitted to a future meeting of the LSC Council. The Department for Business, Innovation and Skills and the Department for Children, Schools and Families are currently working with a range of partners at regional and sub-regional level to discuss how they will work with the Skills Funding Agency and Young People's Learning Agency.

Mr. Sanders: To ask the Minister of State, Department for Business, Innovation and Skills what recent assessment he has made of progress in the transition from the Learning and Skills Council to the Skills Funding Agency and Young People Learning Agency. [285422]

Kevin Brennan: We continue to make good progress in planning for the changes, though any transition is subject to the passage of the Apprenticeships, Skills, Children and Learning Bill, currently progressing through Parliament.

In respect of local authorities, we now have proposals for the operation of the 43 sub-regional groupings that will act as the main planning bodies for learning for those aged 16-18 across the country.

Significant progress has also been made in developing the new structures for the Young People's Learning Agency and the Skills Funding Agency. The ambition is to establish shadow operations, without disrupting services to young people, employers and adult learners, from this September.

We have appointed a chair of the new LSC Young People's Learning Agency committee and appointed a chief executive designate of the Young People's Learning Agency, though this is subject to the passage of the ASCL Bill. Recruitment for the post of chief executive of Skills Funding is also under way.

LSC staff have been briefed on the new staffing structures (including numbers and roles) and locations for the new agencies and for each local authority, and processes to match LSC staff to the posts in the new structures have been communicated and are under way.

We continue to work with key partners and stakeholder to ensure that our planning for the change is as comprehensive as possible. During June and July we are undertaking a series of regional events for partners and stakeholders affected by or involved in the changes to the pre and post 19 landscapes, to provide information on the changes and invite their views on how they would like to work with the new systems locally.

Mr. Willis: To ask the Minister of State, Department for Business, Innovation and Skills how many posts he expects to be transferred from the Learning and Skills Council (LSC) to local authorities by 31 March 2010; and how many staff he expects to be transferred by *(a)* 31 August 2009, *(b)* 31 December 2009 and *(c)* 31 March 2010 from the LSC to those posts in each LSC region of England. [285581]

Kevin Brennan *[holding answer 9 July 2009]:* The LSC will continue to operate until 31 March 2010. On that date, subject to the passage of the necessary legislation in the Apprenticeships, Skills, Children and Learning Bill, the LSC will be dissolved.

On 1 April 2010 LSC staff will transfer to the new structures. We expect around 950 posts to transfer to local authorities distributed across each of the local authorities in each region.

No staff will transfer before this point, though we are planning to operate the new system in a shadow mode from September 2009 as a part of the transition process. The LSC remains the legally accountable body for the planning, commissioning and funding of all post-16 provision until it is dissolved.

Learning and Skills Council: Finance

Justine Greening: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to the answer of 24 June 2009, *Official Report*, columns 981-2W, on Learning and Skills Council: finance, (1) when he expects to announce the funding allocations to local authorities through the Learning and Skills Council for the academic year 2009-10; [284053]

(2) what funding allocations were made to the London boroughs through the Learning and Skills Council in the academic years *(a)* 2007-08 and *(b)* 2008-09; [284054]

(3) what funding allocations were made to each London borough for informal adult learning in the academic years *(a)* 2007-08 and *(b)* 2008-09; and what funding is planned for the academic year 2009-10. [284055]

Kevin Brennan: The Learning and Skills Council (LSC) has responsibility for the funding of post 16 education and training. Further education (FE) colleges and providers (including local authorities) received confirmation of their adult learner responsive allocations on 7 April 2009, with maximum contract values for Train to Gain and adult apprenticeships confirmed on 19 June 2009.

This Department does not hold information on funding allocations made to London boroughs for specific years. I have therefore asked the chief executive of the LSC, Geoff Russell to write to the hon. Member with this information and a copy will be placed in the Libraries of the House.

Skilled Workers

Mr. Sanders: To ask the Minister of State, Department for Business, Innovation and Skills (1) what recent research his Department and its predecessor have evaluated on the effects of skill levels in the workforce on levels of national prosperity; [284634]

(2) what recent research his Department has evaluated on the potential effects of the numbers of people taking *(a)* further and higher education courses and *(b)* skills courses on levels of economic productivity. [284629]

Kevin Brennan: The Department is constantly monitoring research and analysis on the economic impact of education, skills and qualifications. This covers both work commissioned by the Department and by others.

Generally, there is not much research that directly estimates the impact on overall levels of national prosperity of the numbers going through HE and FE, or of the numbers holding FE and HE-level qualifications. The Bank of England found that increasing skill levels accounted for a fifth of GDP growth over the 30 years from 1975-2002[1]. Other research[2] found that lower skill levels in the UK directly accounted for up to a fifth of the productivity gap with our competitors.

In future we also hope to be able to match data from the National Employer Skills Survey, and the Train to Gain Evaluation, to data from the Annual Business Inquiry. This should help us to try and assess the direct impact of skills on firm level productivity.

However, there is a lot of research that can inform this question in a more indirect way—in particular research which analyses the impact of holding qualifications on earnings, which is generally taken as a reasonable proxy for the impact on productivity of those individuals. Relevant reports published in the departmental research series[3] since 2000 are listed as follows.

In addition, the Department co-funds the Centre for the Economics of Education (CEE). This research centre has also carried out a lot of research on the returns to the economy and individuals from education and training. Their publications can be found on their website at:

http://cee.lse.ac.uk

In brief, the research shows that individuals with higher qualification levels are more likely to be employed than those with lower qualification levels. Equally, individuals with higher qualifications are less likely to be unemployed.

Once in work, people with higher qualifications also earn more on average than similar individuals with lower qualification levels. This is true for each successive level of qualification, and applies to both academic and vocational qualifications, plus apprenticeships. In general, higher qualifications carry higher earnings returns and academic qualifications deliver higher returns than their vocational counterparts.

Research also shows that the earnings returns to qualifications have remained relatively constant over recent years. This would seem to suggest that the supply of skilled labour has been keeping pace with employer demand, and we are not saturating the market with skills and qualifications that are not in demand.

The Department will continue to monitor the returns to education, skills and qualifications, both through commissioned research and through internal analysis of data. It is vital that we gain as full an understanding as possible of these returns. This will enable us to make sure that the qualifications we deliver in future provide economically valuable skills for individuals, employers and the economy as a whole, and help us to achieve the ambitions for a high-skilled workforce set out in the Leitch report on skills.

[2] O'Mahoney and de Boer (2002) "Britain's relative productivity performance: Updates to 1999" NIESR.

[3] This covers the predecessor Departments: DIUS, DFES and DFEE.

Mr. Sanders: To ask the Minister of State, Department for Business, Innovation and Skills what his most recent assessment is of the UK's optimal skills mix; and what steps his Department is taking to achieve that skills mix. [284677]

Kevin Brennan: "Ambition 2020", published by UKCES, reiterates Government's long held view that raising skills levels improves the country's future prosperity. "Working Futures", also published by UKCES, made it clear that if we are to emerge from the recession stronger, more adaptable and more competitive, our skills strategy must enable the UK to take advantage of opportunities in the key industries, technologies and services that will drive economic growth.

Government are investing £5 billion in adult skills this year to continue to up-skill the nation. Government have also put in place measures to ensure we are up-skilling people with the right skills. For example, sector skills agreements provide a framework for sector skills council's to work with employers, key delivery agencies and Government to address priority skills in their sector.

Government will now take a more proactive approach to ensure it delivers the right skills, in the right place, at the right time to ensure the UK can seize the opportunities of the new global economy. The new approach will include forecasting demand; taking action to manage supply to meet these demands; and thinking strategically about how we best support areas of the economy where we anticipate opportunities for high employment or high competitive advantage.

We will publish a new Skills Strategy later this year, setting out how this will work in more detail.

Students: Loans

Stephen Williams: To ask the Minister of State, Department for Business, Innovation and Skills what progress has been made in selling parts of the student loan book following the enactment of the Sale of Student Loans Act 2008. [283171]

Mr. Lammy: The Government still intend to make sales from the student loan book, but it is clear that this should only be done at a time when we can get a good return for the taxpayer. For the time being, the market conditions do not allow this. However, we will actively look to identify opportunities for a sale that represents value for money as market conditions improve.

Train to Gain Programme

Mr. Sanders: To ask the Minister of State, Department for Business, Innovation and Skills what mechanisms his Department uses to assess the progress of the Train to Gain programme towards its objectives; and what his most recent assessment is of such progress. [284628]

Kevin Brennan: The progress of Train to Gain is assessed both through evaluations commissioned by the Learning and Skills Council and through the use of Management Information on Train to Gain starts and outcomes, reported in the Statistical First Release, published by the Data Service.

The most recent, fourth wave of Train to Gain evaluation comprised a survey of Train to Gain employers and a survey with learners who accessed training via Train to Gain. Reports on these employer and learner evaluations were published on 25 June 2009, alongside the most recent Statistical First Release.

The latest employer evaluation tells us that employers are satisfied, and Train to Gain is having a real impact on business:

more than nine in 10 of employers were satisfied with the quality of provision;

80 per cent. of employers who had taken up training would recommend it to others;

around half of employers sampled reported a positive impact on staff productivity;

66 per cent. reported improved long-term competitiveness.

Additionally, the latest Train to Gain learner evaluation shows that improving skills provides benefits to individuals in terms of improved employment prospects, labour market progression and social mobility:

83 per cent. of new learners said their training gave them skills that would help them do a better job in the future.

34 per cent. of learners completing a Train to Gain course reported getting a promotion, and 34 per cent. of new learners reported receiving a pay rise.

The Statistical First Release shows that since April 2006, there have been a total just over 1.25 million Train to Gain starts with around 600,000 qualifications achieved.

Train to Gain Programme: Tamworth

Mr. Jenkins: To ask the Minister of State, Department for Business, Innovation and Skills how many people resident in Tamworth constituency have successfully completed a Train to Gain course in the latest period for which figures are available. [285365]

Kevin Brennan: In 2007/08 academic year, 470 courses were achieved through Train to Gain by learners resident in Tamworth constituency, an increase from 170 in 2006/07.

This information was published in a statistical first release on 25 June 2009:

http://www.thedataservice.org.uk/statistics/sfriun09/

Tyne Metropolitan College

Mr. Byers: To ask the Minister of State, Department for Business, Innovation and Skills if he will provide additional funding to Tyne Metropolitan College for the purposes of *(a)* avoiding redundancies and *(b)* maintaining numbers of available courses. [286296]

Kevin Brennan *[holding answer 13 July 2009]:* The Learning and Skills Council (LSC) has responsibility for the funding of post-16 further education (FE) and skills delivered through FE colleges and providers. In line with Government priorities, funding is prioritised towards courses that provide adults with the skills to enter and progress into employment or further learning.

As independent organisations, FE colleges are responsible for managing their own budgets and setting the conditions of service of their staff. The Government therefore have no involvement in contractual arrangements for college staff.

Vocational Training

Mr. Evennett: To ask the Minister of State, Department for Business, Innovation and Skills what recent representations he has received from training providers on the availability of *(a)* apprenticeships and *(b)* Train to Gain contracts in the 2009-10 academic year. [273202]

Kevin Brennan: As a part of its normal tendering process, in January 2009 the Learning and Skills Council undertook a tendering exercise for Employer Responsive provision in 2009-10. 2,059 organisations accessed the pre-qualification questionnaire for this exercise, 1,553 responded to the questionnaire, 1,142 were invited to tender for Train to Gain and Apprenticeship provision, and 47 responded to the Train to Gain invitation to tender and 14 to the Apprenticeships invitation to tender.

Mr. Sanders: To ask the Minister of State, Department for Business, Innovation and Skills what methodology his Department uses to assess the demand for skills training in each region. [284620]

Kevin Brennan: The Department utilises data and advice from the United Kingdom Commission for Employment and Skills (UKCES) and the National Employer Skills Survey (NESS) to provide a national level picture of skills needs. The most recent wave of NESS (2007) interviewed around 79,000 employers. The National Employer Skills Survey 2007 report includes a breakdown of the regional pattern of skills gaps (i.e. where employers consider that employees are not fully proficient at their job), including a distribution of skills gaps by occupation in each region (p.85) and the skills lacking by region (p.88). Each regional development agency also assesses the need to improve skills levels at regional level as part of the Regional Economic Strategy (separate arrangements apply in London).

Written Questions: Government Responses

Mr. Weir: To ask the Minister of State, Department for Business, Innovation and Skills when he plans to answer question *(a)* 265951 and *(b)* 265952, tabled on 18 March 2009, on the Enterprise Finance Guarantee Scheme. [281348]

Ms Rosie Winterton: I refer the hon. Member to the answer I gave on 13 July 2009, *Official Report*, column 186W.

Written Answers to Questions

Wednesday 15 July 2009

DEFENCE

Afghanistan: Peacekeeping Operations

Jenny Willott: To ask the Secretary of State for Defence how many soldiers of *(a)* the Welsh Guards and *(b)* the Royal Welsh Regiment are deployed in Afghanistan; and if he will make a statement. [286101]

Mr. Bob Ainsworth: The deployment of the 1st Battalion Welsh Guards and elements of the 2nd Battalion The Royal Welsh to Afghanistan was announced by the then Secretary of State for Defence on 16 December 2008.

The number of personnel in units may fluctuate significantly on a daily basis for a variety of reasons, including mid-tour rest and recuperation, temporary absence for training, evacuation for medical reasons, and visits. Units often contain individual augmentees from other units and services, and additional members from the Welsh Guards and the Royal Welsh Regiment may be augmenting other units.

These data are not collated centrally and the information requested could be provided only at disproportionate cost.

Armed Forces: Mental Health

Willie Rennie: To ask the Secretary of State for Defence how many members of the armed forces have resumed *(a)* front line service and *(b)* civilian military support duties after being diagnosed with a mental health condition in each year since 1997. [283312]

Mr. Kevan Jones: The MOD's Defence Analytical Services and Advice (DASA) organisation has since July 2007 reported on the Psychiatric Morbidity of the UK Armed Forces, and quarterly Reports for the whole of 2007 and 2008 are now available both in the Library of the House and on the DASA website at:

www.dasa.mod.uk

Equivalent verified data prior to 2007 are not available and could be provided only at disproportionate cost.

The figures show that, of the 10,103 personnel who attended a MOD Department of Community Mental Health (DCMH) for the first time during this two-year period, 7,101 were assessed as having a mental health disorder of some sort. These included a wide range and severity of neurotic and mood disorders; only 335 were given an initial diagnosis of Post-Traumatic Stress Disorder (PTSD).

While records are not collated centrally as to how many of these return specifically to the frontline or to other service duties, overall only around 200 personnel are discharged each year where mental and behavioural disorders are the principal disability. This demonstrates that if personnel do come forward for mental health assessment and treatment, the vast majority can be treated and remain in service.

Armed Forces: Training

Dr. Fox: To ask the Secretary of State for Defence how many airborne jumps armed forces personnel undertook for training purposes from civilian aircraft in each of the last five years. [284535]

Bill Rammell: The total number of annual parachute descents by entitled service personnel conducted between 2004 and 2008 from civilian aircraft is provided in the following table. This includes displays conducted by the RAF Falcon display team, whose descents cannot be broken out from the totals.

	Descents from civilian aircraft
2004	5,610
2005	3,462
2006	2,139
2007	203
2008	3,470

Civilian aircraft make a valuable and cost-effective contribution to parachute training particularly when military aircraft are deployed on other high priority military tasks. The relatively small number of descents made in 2007 is due to an increased availability of military aircraft in that year.

Ascension Island

Mr. Lancaster: To ask the Secretary of State for Defence pursuant to the answer of 1 June 2009, *Official Report*, column 18W, on Ascension Island, when he plans to write to the hon. Member for North East Milton Keynes in response to his query. [283752]

Bill Rammell *[holding answer 2 July 2009]*: The decision by the Ascension Island Government to remove a variation in the Ministry of Defence's annual property tax liability, which had the effect of almost doubling the amount, is currently being disputed. The MOD, therefore, has not paid this new tax liability in full. Urgent discussions are taking place between the MOD and the Foreign and Commonwealth Office about the amount of property tax owed. We are seeking an agreement that is fair and equitable, and assurance that the services received in return from the Ascension Island Government represent best value for money. I will inform the House once these discussions are complete.

Departmental Accountancy

Steve Webb: To ask the Secretary of State for Defence when he expects to publish his Department's resource accounts for 2008-09. [287337]

Mr. Bob Ainsworth: The Department's resource accounts for 2008-09 are expected to be laid before the House by the summer recess.

Departmental Information Officers

Paul Holmes: To ask the Secretary of State for Defence what the cost to his Department of *(a)* press officers and *(b)* other press office staff has been in each year since 1997. [283064]

Mr. Kevan Jones: Currently, there are 110 press officers employed across the Department, as recorded in the Central Office of Information's White Book, of which 35 are within the central MOD Media and Communications unit or Regional Defence Press Officer Network. Additionally, there are five press office support staff.

The total includes civilian and military staff working across the Department (including within single services) and are defined as those who directly interface with national or regional media on news issues, and in direct support of operations.

The cost for the 35 press officers and five support staff employed by the central organisation based on capitation rates for 2009-10 is approximately £2.2 million, which includes some £115,000 for the press office support staff.

Press officer costs in other areas of the Department and historical records, since 1997, are not held centrally and could be provided only at disproportionate cost.

Operation Herrick 10: Operation Herrick 9

Mr. Ellwood: To ask the Secretary of State for Defence how many UK military personnel have lost limbs in the course of *(a)* Operation Herrick 10 and *(b)* Operation Herrick 9. [286974]

Mr. Bob Ainsworth: Fifteen surviving casualties from roulement 9 of Op. Herrick, between 15 October 2008 and 14 April 2009, sustained a traumatic or surgical amputation ranging from the loss of part of a finger or toe up to the loss of an entire limb or limbs.

Initial figures for roulement 10, will be reported following the end of the roulement period.

These figures include those who have had a surgical amputation performed either at military field hospitals or in hospital in the UK. These figures may be amended as records are updated.

Tornado Aircraft

Nick Harvey: To ask the Secretary of State for Defence how many flying hours were completed by Tornado aircraft in each of the last 10 years. [284991]

Bill Rammell: I refer the hon. Member to the answer my predecessor gave on 14 May 2009, *Official Report*, column 14-16MC, to the hon. Member for Woodspring (Dr. Fox) which provides the actual flying hours completed by Tornado aircraft from 2001-02 until 2007-08. Information prior to 2001-02 is not held centrally and could be provided only at disproportionate cost. The actual flying hours completed for 2008-09 are:

Aircraft	*Actual hours flown*
Tornado F3	7,460
Tornado GR4	22,248

Written Questions: Government Responses

Mr. Watson: To ask the Secretary of State for Defence when he plans to answer question 279511, on Demos, tabled on 11 June 2009. [285877]

Mr. Kevan Jones: I replied to my hon. Friend on 9 July 2009, *Official Report*, column 943W.

SCOTLAND

Conditions of Employment

Lynne Featherstone: To ask the Secretary of State for Scotland what percentage of employees in his Department *(a)* are on a flexible working contract, *(b)* are on a job share employment contract and *(c)* work from home for more than four hours a week. [287091]

Ann McKechin: All staff in the Scotland Office are on secondment from the Scottish Executive or the Ministry of Justice. Any member of staff can request a change to their working pattern and line managers consider requests in line with the policy and guidance of the parent Department.

Staff below the senior civil service (92 per cent.) can work to a flexi-time agreement and local records are kept of hours worked; 4 per cent. of all staff work part-time; and 4 per cent. work compressed hours. No staff work on job-share or work from home for more than four hours per week.

Departmental Accountancy

Steve Webb: To ask the Secretary of State for Scotland when he expects to publish his Department's resource accounts for 2008-09. [287342]

Ann McKechin: The Scotland Office does not produce its own set of resource accounts, the Office's figures are included within the resource accounts of the Ministry of Justice.

Departmental Buildings

Mr. Crabb: To ask the Secretary of State for Scotland what the floor area is of each of the premises occupied by his Department. [284860]

Ann McKechin: The Scotland Office occupies premises at Dover House, London and Melville Crescent, Edinburgh. Both buildings provide non standard office accommodation and have listed building status, they provide both office space as well as accommodation that can be doubled up for hosting events. The office occupies a floor area of 927.5m^2 in Dover House and 694m^2 in Melville Crescent.

Departmental Data Protection

Jenny Willott: To ask the Secretary of State for Scotland how many *(a)* attempts and *(b)* successful attempts were made to gain unauthorised access to each (i) database and (ii) ICT system run by his Department in each of the last five years; and if he will make a statement. [286541]

Ann McKechin: It is not in the interests of the UK's national security for Departments to confirm information on the number of attempts, successful or otherwise, to gain unauthorised access to departmental systems or

databases. Such disclosure could undermine the integrity and security of departmental systems and thereby expose them to potential threats.

The Scotland Office shares an information technology system with the Scottish Executive, who are responsible for the development, administration, security and maintenance of the system. They comply with the mandatory requirements of the Security Policy Framework in relation to information security including managing the risk of unauthorised access to ICT systems.

Departmental Electronic Equipment

Jenny Willott: To ask the Secretary of State for Scotland how many *(a)* photocopiers, *(b)* scanning devices and *(c)* fax machines, excluding multi-function devices, there are in his Department; how many there were in each of the last three years; and if he will make a statement. [286166]

Ann McKechin: Details of the number of Scotland Office photocopiers, scanning devices and fax machines in each of the last three years are provided in the following table:

Scotland Office—overall

	2006-07	*2007-08*	*2008-09*
Photocopiers	6	5	4
Scanning devices	2	2	3
Fax machines (incl. secure fax)	19	18	16

My officials are in regular communication with their counterparts in the Scottish Government and about the information and communications technology system (SCOTS), which the Office shares with the Scottish Government, as well as compatible devices that will help reduce the carbon footprint of the office.

The Scottish Government are complying with the same standards as those set out in the Greening Government ICT Strategy.

Departmental Publications

Mr. MacNeil: To ask the Secretary of State for Scotland who authored the Scotland Office Background Paper, Scotland and oil, published 18 June 2009; when the Paper was commissioned; what background papers the Scotland Office has published since May 1997; who was consulted in the production of the Paper; what estimate he has made of the cost of *(a)* producing and *(b)* printing the Paper; and what steps his Department took to publicise the Paper. [286784]

Mr. Jim Murphy: The paper was produced by the Scotland Office to provide a factual analysis of the position to help inform debate. It was prepared over the course of 2009, in consultation with other relevant Government Departments.

As the paper was part of the ongoing work of the Scotland Office, there were no additional costs involved. It was made available on the Scotland Office website.

Similar papers may be published in the future, as appropriate, but have not been hitherto.

TRANSPORT

Air Misses

Norman Baker: To ask the Minister of State, Department for Transport how many air proximity hazards have been reported to the Civil Aviation Authority's UK Airprox Board in each year since 1997. [285836]

Paul Clark: The Airprox events for the years from 1997 to 2008 are given in the following table.

	Number of Airprox events
1997	208
1998	201
1999	208
2000	198
2001	195
2002	221
2003	181
2004	207
2005	188
2006	159
2007	154
2008	155

Aircraft: Air Conditioning

Mr. Peter Ainsworth: To ask the Minister of State, Department for Transport whether he plans to require cabin air quality monitoring systems to be installed on passenger aircraft. [286904]

Paul Clark *[holding answer 14 July 2009]:* UK passengers travel on a range of global airlines. Within Europe, we suggest that any mandatory system to be fitted to commercial passenger aircraft would have to be required and approved by the European Aviation Safety Agency, on the basis of evidence that it was necessary and fit for purpose i.e. capable of detecting any specific items of concern in the circumstances where these might occur. In the UK we are conducting research to ascertain what substances are in cabin air, and at what concentrations, both in normal circumstances and during occasional "fume events". When we have obtained and assessed this information, it may be appropriate for the UK to recommend some kind of detection systems.

Mr. Peter Ainsworth: To ask the Minister of State, Department for Transport what procedures are used to quantify and investigate instances of air contamination on board commercial aircraft; and if he will make a statement. [286905]

Paul Clark *[holding answer 14 July 2009]:* The principal procedure is the Mandatory Occurrence Reporting scheme which the Civil Aviation Authority (CAA) established in 1976. Its objectives are to ensure that the CAA is advised of any hazardous, or potentially hazardous, incidents and defects (occurrences), and that appropriate action is taken. All reports are disseminated to the relevant specialists in CAA. The Head of the Aviation Health Unit will see any where health effects are reported.

Should an individual wish to bypass his employer in reporting an incident, a separate procedure exists whereby details can be sent to the Confidential Human Factors Incident Reporting Programme.

Mr. Peter Ainsworth: To ask the Minister of State, Department for Transport what the responsibilities of *(a)* his Department, *(b)* the Civil Aviation Authority and *(c)* the Health and Safety Executive are in relation to the health of persons on board commercial aircraft; and if he will make a statement. [286906]

Paul Clark *[holding answer 14 July 2009]:* The functions of the Secretary of State for Transport and the Civil Aviation Authority (CAA) with respect to health are set out in section 8 of the Civil Aviation Act 2006.

S8 (2) amends the functions of the Secretary of State in the Civil Aviation Act 1982 to include a "general duty of organising, carrying out and encouraging measures for safeguarding the health of persons on board aircraft".

S8 (3) amends the functions of the CAA to include the "health of persons on board aircraft".

S8 (4) requires the CAA to provide assistance to the Secretary of State in relation to the function.

The CAA established the Aviation Health Unit in 2003 as a centre of expertise on aviation health matters. It provides advice to the UK Government and other stakeholders; and suggests and oversees research on relevant aviation medical issues.

Separately, the CAA has specific health and safety regulatory responsibilities under the Civil Aviation (Working Time) Regulations 2004 for crew members (flight and cabin crew) of UK public transport aircraft. The Regulations require employers to ensure that each crew member is provided with adequate health and safety protection and prevention services or facilities appropriate to the nature of his employment.

The Health and Safety Executive (HSE) is responsible for the enforcement of health and safety legislation in Great Britain and the Health and Safety at Work Act 1974 (HSWA) applies within British air space. A memorandum of understanding exists between the CAA and the HSE to reduce regulatory duplication of effort. Similar arrangements exist for Northern Ireland.

Aviation: Exhaust Emissions

Mr. Carmichael: To ask the Minister of State, Department for Transport (1) what discussions his Department has had with *(a)* Lord Turner of Ecchinswell and *(b)* other members of the Committee on Climate Change on the effect on lifeline flights of proposed targets for aviation emissions; [285958]

(2) what recent discussions his Department has had with representatives of the Committee on Climate Change on the effect on plans to expand Heathrow Airport of the proposed aviation emissions targets. [286068]

Paul Clark: The Committee on Climate Change will provide independent advice to the Government by December 2009 this year on the 2050 UK aviation carbon dioxide emissions target. The Committee is currently undertaking analysis of a range of factors that might contribute to meeting the target. The Department for Transport meets from time to time with the Committee on Climate Change at ministerial and official level in order to provide information in support of the Committee's analytical work on the 2050 target.

No discussions have taken place with the Committee on the effects of the target on specific aviation policy initiatives. The Government will develop their approach to achieving the target once they have received the Committee's advice.

Departmental Information

Paul Holmes: To ask the Minister of State, Department for Transport what the cost to his Department of press office staff other than press officers has been in each year since 1997. [283069]

Chris Mole: The information requested can be provided only at disproportionate cost.

Departmental Pay

John McDonnell: To ask the Minister of State, Department for Transport which Minister approved the 2009 pay remit for his central Department; on what date that remit was *(a)* sent to that Minister, *(b)* approved by the Minister and *(c)* sent to HM Treasury. [286977]

Chris Mole: The Secretary of State for Transport approved the final version of the 2009 remit of the central Department on 3 June 2009 having been sent to the Minister that day. The final remit was submitted to HM Treasury on 4 June 2009.

John McDonnell: To ask the Minister of State, Department for Transport what the job titles are of the senior managers who approved the 2009 pay remit for his central Department; and on what date *(a)* that remit was sent to and *(b)* approved by those managers. [286978]

Chris Mole: The Department for Transport (DfT) (C) Executive Committee discussed the pay remit for DfT (C) at its meeting on 28 April 2009.

Driver and Vehicle Licensing Agency

Alistair Burt: To ask the Minister of State, Department for Transport how many applications for vehicle excise duty refunds from *(a)* private owners and *(b)* motor dealerships have been processed by the Driver and Vehicle Licensing Agency in each month since January 2008; and what the monetary value was of the refunds made in each such month. [286791]

Paul Clark: The following table provides the total number and value of vehicle excise duty refunds processed by the Driver and Vehicle Licensing Agency (DVLA) since January 2008. Separate figures are not available for private owners and motor dealerships. However, since January 2009 only the current or previous registered keeper would receive a refund of vehicle excise duty and then only after informing the DVLA why the vehicle no longer requires a valid tax disc:

Month	Volume	Value (£000)
January 2008	314,491	19,011
February 2008	302,928	21,383
March 2008	272,720	17,447
April 2008	393,654	24,724
May 2008	301,969	22,010
June 2008	336,389	21,281
July 2008	321,566	22,322
August 2008	290,476	20,329
September 2008	306,270	20,031
October 2008	355,190	26,895
November 2008	313,229	23,223
December 2008	234,214	18,330
January 2009	235,022	17,262
February 2009	195,601	11,688
March 2009	191,752	16,579
April 2009	274,613	16,216
May 2009	183,451	14,721
June 2009	270,709	17,704

John McDonnell: To ask the Minister of State, Department for Transport what plans he has for levels of staff recruitment to the Driver and Vehicle Licensing Agency; and if he will make a statement. [286979]

Paul Clark: The Driver and Vehicle Licensing Agency is committed to efficiency and will continue to critically assess that to reflect the economic situation and customer need, including contributing fully to future public spending rounds. We anticipate that it is likely that there will continue to be turnover, for example in a number of specialist vacancies such as Accountants and Procurement Specialists that will need to be recruited. Fixed term and temporary appointments are also used to manage fluctuating business demands.

Railways: Franchises

John McDonnell: To ask the Minister of State, Department for Transport how much funding his Department will allocate to rail franchises in revenue support in financial year 2009-10. [286901]

Chris Mole *[holding answer 14 July 2009]:* The Department for Transport maintains financial forecasts of anticipated revenue support payable to Train Operating Companies. However, this information is commercially confidential and market sensitive.

Shipping

Andrew George: To ask the Minister of State, Department for Transport how many incidents of ships losing hazardous cargo overboard resulted in *(a)* court actions and *(b)* fines since 1979; and what the (i) nature of the conviction and (ii) financial penalty was in each case. [286298]

Paul Clark: The Maritime and Coastguard Agency has recorded this information centrally since 2001. There have been no court actions or fines against ship owners for losing hazardous cargo overboard since then.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Abandoned Vehicles

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs how many abandoned vehicles were recorded in England in each year since 1997. [286451]

Dan Norris: The numbers of abandoned vehicles reported by local authorities in England to DEFRA between 2000-01 and 2003-04 in the Municipal Waste Management Survey, and from 2004-05 onwards via WasteDataFlow, are available on the DEFRA website at:

www.defra.gov.uk/environment/statistics/waste/wrabanvehicles.htm

National figures prior to 2000-01 were not collected by DEFRA.

Circuses: Animal Welfare

Mark Pritchard: To ask the Secretary of State for Environment, Food and Rural Affairs when the report of the Circus Working Group on the future use of wild animals in travelling circuses will be published. [287097]

Jim Fitzpatrick: The report of the Circus Working Group on wild animal acts in travelling circuses was released on 20 November 2007.

Following the publication of that report, which found that there was no existing evidence that justified banning wild animal acts in circuses, DEFRA launched a feasibility study to look at the possibility of regulating the use of such animals in circuses.

The feasibility study is due to report later this year.

Departmental Internet

Mr. Watson: To ask the Secretary of State for Environment, Food and Rural Affairs when his Department plans to update its web browsers from Internet Explorer 6. [285016]

Dan Norris: The Department for Environment, Food and Rural Affairs (DEFRA) provides Internet Explorer 7 to staff via our internal office system.

Domestic Waste: Waste Disposal

Mr. Stewart Jackson: To ask the Secretary of State for Environment, Food and Rural Affairs what information the Waste Improvement Network has provided to local authorities on the procurement of containers for the collection of household waste. [286526]

Dan Norris: The Waste Improvement Network (WIN) exists to share information between councils and publish guidance from all available sources in one place on waste management issues. It does not issue advice directly to councils. However, WIN promotes existing framework contracts which can be used to procure bins, and provides links to general information, guidance, advice and case studies from available sources on both procurement and waste collection strategy.

Mr. Stewart Jackson: To ask the Secretary of State for Environment, Food and Rural Affairs if he will direct the Bird Management Unit of the Food and Environment Research Agency to conduct research into the effect on the prevalence of *(a)* vermin and *(b)* insects of different modes of collection of household waste. [286530]

Jim Fitzpatrick: DEFRA currently has no plans to commission research into the effect on the prevalence of 'vermin' or insects of different modes of collection of household waste.

Horses: Artificial Insemination

Daniel Kawczynski: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 15 December 2008, *Official Report*, column 324W, on horses: artificial insemination, how many semen straws from the Hanoverian stallion Weltmeyer, reference 31-44035-84, have been imported into the UK since January 1989. [285008]

Jim Fitzpatrick: This information can be provided only at disproportionate cost.

Landfill: Carbon Emissions

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the proportion of carbon dioxide emissions arising from landfill activities in the latest period for which figures are available. [285559]

Joan Ruddock: I have been asked to reply.

According to the UK Greenhouse Gas Inventory, landfill activities accounted for 3.2 per cent. of UK total emissions in 2007. This is from methane and corresponds to 41.5 per cent. of UK total methane emissions in 2007. The UK agrees with the assessment of the Intergovernmental Panel on Climate Change that the proportion of carbon dioxide in landfill gas is about 50 per cent. The UK does not separately estimate emissions of carbon dioxide from landfills because to do so would be to double count with carbon stock changes estimated in the land-use, land-use change and forestry sector. This is in accordance with the international guidelines for reporting greenhouse gases to the United Nations Framework Convention on Climate Change.

Mobile Phones

Martin Horwood: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the number of *(a)* mobile telephones and *(b)* printer cartridges which were (i) recycled, (ii) reused overseas and (iii) disposed of within the waste stream in each year since 1997; what research his Department has (A) commissioned and (B) evaluated on the disposal of mobile telephones and printer cartridges in that period; and if he will make a statement. [286468]

Dan Norris: Information on the number of mobile phones and printer cartridges recycled, reused or disposed of is not collected centrally. The Department has not commissioned research into the disposal of these items. We have, however, published guidance on the treatment of waste electrical and electronic equipment which includes mobile phones and printers, which is available on DEFRA's website.

Pollution: Fines

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs how much has been levied in fines by local authorities against *(a)* companies, *(b)* local authorities and *(c)* individuals for each type of pollution incident in each region in each year since 1997. [286450]

Jim Fitzpatrick: Details of fines levied by local authorities against companies, local authorities and individuals for pollution incidents are not held centrally and can be sourced only at disproportionate cost.

Primates

Mark Pritchard: To ask the Secretary of State for Environment, Food and Rural Affairs if he will bring forward legislation to prohibit the keeping of primates as pets. [287093]

Jim Fitzpatrick: The Government have no plans to introduce legislation to prohibit the keeping of primates as pets because we are not aware of any evidence to suggest that there is a widespread problem to warrant such action.

However, the Government accept that primates are complex creatures that require specialist care. As a result of concerns raised in Parliament, the Government are working with a number of stakeholders on the production of a code of practice on the welfare of privately kept primates.

Sustainable Development Commission

Mr. Dai Davies: To ask the Secretary of State for Environment, Food and Rural Affairs what criteria were used to select the new Chairman of the Sustainable Development Commission; and what the remuneration is for that post in 2009-10. [286817]

Dan Norris: As the sponsoring Department for the Sustainable Development Commission, DEFRA, on behalf of the Cabinet Office, managed the appointment of the new chair of the Sustainable Development Commission. The process was managed in line with the Office for the Commissioner for Public Appointments (OCPA) guidelines.

Candidates were required to demonstrate the full range of criteria outlined in the information pack for the post (see OCPA Guidelines Annex A).

All devolved Administrations and the Prime Minister approved the recommended appointment. Remuneration for the SDC chair is £400 per diem. The time input for the position is two to three days per week subject to negotiation.

Veterinary Medicines Agency: Pay

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs how much was paid in bonuses to *(a)* directors, *(b)* senior managers, *(c)* specialist and

delivery managers and *(d)* executive support and administrative staff in the Veterinary Medicines Agency in each of the last five years. [286367]

Jim Fitzpatrick: The Veterinary Medicines Directorate is an Executive agency of DEFRA and follows DEFRA's pay agreements for staff outside the senior civil service. Non-consolidated performance payments for directors are paid under the senior civil service pay agreement and the payments for the chief executive is part of his contract of employment. The VMD's other staff are eligible for non-consolidated performance payments under the DEFRA scheme. Many of VMD's staff straddle the categories requested so it has not been possible to break down the total annual payments for these staff which are set out in the following table.

£

	2004-05	2005-06	2006-07	2007-08	2008-09
CEO and directors	[1]0	19,047	19,674	20,405	29,803
Other staff	[2]—	71,767	80,800	70,828	51,725
Total	0	90,814	100,474	91,233	81,528

[1] The CEO's non-consolidated performance payments for 2003-04 and 2004-05 were paid in 2005-06.
[2] The VMD is unable to identify payments paid as a separate component of gross salary before 2005-06 as this information was not available from the previous payroll bureau.

Waste Disposal: Fees and Charges

Mr. Stewart Jackson: To ask the Secretary of State for Environment, Food and Rural Affairs what requirements arising from EU legislation there are in respect of *(a)* charges for businesses and local authorities disposed of waste in landfill sites, *(b)* the provision of receptacles for the disposal of household waste and *(c)* the frequency of waste collections. [286574]

Dan Norris: The requirements from EU obligations in respect of charges on businesses or local authorities to dispose of waste in landfill sites relate to two directives:

The European Waste Framework Directive which provides that in accordance with the 'polluter pays principle' the cost of disposing of waste must be borne by the holder or previous holder, or the producer of the product giving rise to of the waste, or the collector or disposer of the waste.

The Landfill Directive which seeks to ensure measures are taken that all the costs of setting up and operating a landfill site, including the cost of any financial security and the costs of closure and aftercare for a period of at least 30 years, are covered in the price to be charged by the operator for the disposal of waste at a landfill site.

There are no requirements arising from EU obligations in respect of either the receptacles for the disposal of household waste or the frequency of collections. These are rightly matters for local authorities to determine to suit local circumstances, taking into account the views of residents in the area.

Weed Control

Mr. Stewart Jackson: To ask the Secretary of State for Environment, Food and Rural Affairs whether his Department has issued guidance to local authorities on controlling weeds. [286511]

Jim Fitzpatrick: DEFRA has policy responsibility for the five injurious weeds covered by the Weeds Act 1959 (Common Ragwort, Creeping or Field Thistle and Spear Thistle and Curled and Broad Leaved Dock) and also for invasive species, such as Japanese knotweed and water primrose.

We have not issued any specific guidance to local authorities on controlling the weeds covered by the Weeds Act 1959. However, the Code of Practice on How to Prevent the Spread of Ragwort provides comprehensive guidance on how to develop a strategic and cost-effective approach to control of common ragwort. It is intended for use by all landowners and occupiers but is particularly relevant for large-scale organisations managing significant land areas, including local authorities and other public bodies. The code of practice and other information about the control of injurious weeds is available on the DEFRA website.

Advice on the management of invasive non-native weeds is available from a number of sources including the websites of the Environment Agency and the Great Britain Non-Native Species Secretariat. In addition, DEFRA published the Horticultural Code of Practice in 2005, which provides best practice advice concerning the acquisition, use and disposal of plants.

WALES

Holtham Commission

10. **Adam Price:** To ask the Secretary of State for Wales what evidence his Department has given to the Holtham Commission; and if he will make a statement. [285617]

Mr. Hain: The Treasury provided evidence to the Holtham Commission and last week I met with Gerald Holtham to discuss the outcomes of the Commission's work.

Crime Levels

11. **Mrs. James:** To ask the Secretary of State for Wales what assessment he has made of the likely effect of proposals contained in the Building Britain's Future document on the level of criminal activity in Wales. [285618]

Mr. David: Building Britain's Future, our strategic plan to build a more prosperous, stronger and fairer country contains enforceable entitlements that will help to reduce the level of criminal activity in Wales, such as:

a right to police on the beat, with community teams spending 80 per cent. of their time on foot patrol;

a right to monthly beat meetings, where local policing priorities are agreed; and

a right to minimum response times.

Crime Prevention

12. **Mr. Caton:** To ask the Secretary of State for Wales what recent discussions he has had with the Secretary of State for the Home Department on crime prevention programmes in Wales. [285619]

Mr. David: My right hon. Friend and I have regular meetings with Home Office Ministers on a range of issues including crime prevention programmes.

A great deal of solid and focused work has been undertaken around Wales to address key crime issues over the last year, with great success.

Rail Service: Aberystwyth-London

13. **Mark Williams:** To ask the Secretary of State for Wales what recent discussions he has had with Welsh Assembly Government Ministers and ministerial colleagues on proposals for the introduction of a direct rail service between Aberystwyth and London. [285620]

Mr. David: My right hon. Friend the Secretary of State and I have regular meetings with Welsh Assembly Government and ministerial colleagues to discuss matters relating to Wales, including transport issues.

I would like to pay tribute to the work of the hon. Gentleman in his campaigning to raise the profile of this proposed rail service. There is a strong demand for increased rail services in Wales, and a further rail service to London would be most welcome not only to rail users but also local businesses, by encouraging even more visitors to Wales.

Holiday Lettings

Lembit Öpik: To ask the Secretary of State for Wales whether he has had discussions with the Chancellor of the Exchequer on the implications for Wales of the decision to repeal rules on furnished holiday lettings. [286095]

Mr. Hain: The Treasury's decision to repeal the Furnished Holiday Lettings Scheme in 2010 is based upon advice it received that by treating landlords of furnished holiday accommodation differently to other landlords in the UK, and across the rest of the European Economic Area, it may be in breach of European Law. The change will put landlords of holiday homes on an equal footing with other landlords and brings the UK regulations in line with those elsewhere in the wider European Economic Area.

Public Expenditure: Wales

Mr. Bone: To ask the Secretary of State for Wales what his assessment is of the effect of the recession on levels of public expenditure per capita in Wales. [285994]

Mr. Hain: Figures on identifiable public spending per head in Wales were published in Public Expenditure Statistical Analyses (Cm 7630) in June 2009. Public expenditure for the Welsh Assembly Government was set in the 2007 Spending Review. Wales, along with other parts of the UK, received a fiscal stimulus in the pre-Budget report and Budget in response to the recession.

HOME DEPARTMENT

Alcoholic Drinks

James Brokenshire: To ask the Secretary of State for the Home Department on how many occasions the maximum fine was imposed on a licensee for the offence of persistently selling alcohol to people under-age in each of the last two years. [284845]

Mr. Alan Campbell: There have been no prosecutions under s147A of the Licensing Act 2003 in the last two years for which data are available (2006 and 2007). Therefore no individuals have been recorded as receiving the maximum fine for the offence of persistently selling alcohol to people underage. Data from 2008 will be available in autumn 2009.

Alcoholic Drinks: Young People

Sandra Gidley: To ask the Secretary of State for the Home Department (1) how much was collected in fines levied upon retail store licensees for serving alcohol to minors in each local authority area within the ceremonial county of Hampshire in each of the last five years; [286280]

(2) how much was collected against fines levied upon public house licensees for serving alcohol to minors in each local authority area within the ceremonial county of Hampshire in each of the last five years. [286281]

Mr. Alan Campbell: It is not possible to differentiate between fines given to retailers and those given to licensees of public houses. Additionally, data on the collection of fines for specific offences are not held, therefore the answer given in table 1 shows the sum of all fines imposed for offences relating to the sale of alcohol to under 18's. The actual amount collected, and the status of the defendant is not known.

Fines issued in Hampshire police force area for selling alcohol to under 18's

	2003	*2004*	*2005*	*2006*	*2007*
Selling etc. intoxicating liquor to person under 18 on the premises					
Number of fines issued	0	6	7	0	0
Sum of fines imposed (£)	—	1,740	1,800	—	—
Sale of alcohol to person under 18					
Number of fines issued	0	0	0	0	4
Sum of fines imposed (£)	—	—	—	—	1,690

Note:
1. These figures have been drawn from administrative data systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system.
2. These data are presented on the principal offence basis. Where an offender has been sentenced for more than one offence the principal offence is the one for which the heaviest sentence was imposed. Where the same sentence has been imposed for two or more offences the principal offence is the one for which the statutory maximum is most severe.

OMS Analytical Services, Ministry of Justice

Asylum

Mr. Illsley: To ask the Secretary of State for the Home Department when he expects to make a decision on the case of Mr. Davit Khutcichvili, Ref. no. K1100834. [285990]

Mr. Woolas: The UK Border Agency wrote to the hon. Member on 8 July 2009.

Asylum: Finance

Sarah Teather: To ask the Secretary of State for the Home Department how many people in receipt of section 4 support have been receiving it for a period longer than *(a)* six months, *(b)* one year, *(c)* two years, *(d)* five years and *(e)* 10 years. [264019]

Mr. Woolas: As at 14 June 2009 9,354 people, excluding dependants, are recorded as having been on section 4 support for over six months, of whom 7,598 had been on section 4 support for over one year and 5,106 for over two years. These figures are not provided under National Statistics protocols and have been derived from local management information. They are therefore provisional and subject to change.

Information is not available on the number of persons on section 4 support for over five years and could be obtained only at disproportionate cost. No person has been on section 4 support for over 10 years as this support for failed asylum seekers became effective from 7 November 2002.

Automatic Number Plate Recognition

Mr. Stewart Jackson: To ask the Secretary of State for the Home Department what guidance his Department has issued to *(a)* local authorities and *(b)* police forces on the use of automated number plate recognition systems to detect parking offences. [284178]

Mr. Hanson: Neither the Home Office nor the National Policing Improvement Agency has issued guidance to *(a)* local authorities or *(b)* police forces on the use of automatic number plate recognition systems (ANPR) to detect parking offences.

Following the Road Traffic Act (1991), the majority of parking enforcement is not dealt with by the police. The police operated national ANPR system is not used for parking enforcement.

British Citizenship

Colin Burgon: To ask the Secretary of State for the Home Department how many non-UK born people have been given British citizenship in each of the last three years; and from which countries such people originated. [285523]

Mr. Woolas: The information requested is not in the public domain in the required format.

Information based upon the previous nationality of those granted British Citizenship is provided in the table.

Grants of British citizenship in the United Kingdom in 2006, 2007 and 2008(P) by previous nationality

[1] Excluding Gibraltar BOTCs.

The information has been provided with reference to the published statistics.

British Nationality

Mr. Wallace: To ask the Secretary of State for the Home Department how many people have *(a)* been prevented from entering the UK, *(b)* been deported from the UK and *(c)* had their British citizenship revoked under the UK Border Agency's powers to exclude those who promote violent extremism and stir up hatred. [286112]

Mr. Woolas: The Government's unacceptable behaviours policy is directed at those who advocate hatred or violence in support of their beliefs. Since the introduction of the policy in August 2005, there have been *(a)* 106 exclusions, *(b)* one deportation and *(c)* no deprivations of citizenship on unacceptable behaviour grounds.

Cannabis: Suffolk

Mr. Spring: To ask the Secretary of State for the Home Department how many seizures of cannabis were made by the police in Suffolk in each of the last five years. [286271]

Mr. Alan Campbell: The information requested is given in the following table.

Number of police seizures of cannabis in Suffolk police force area, 2003 to 2007-08[1]

	Number of Cannabis seizures
2003	660
2004[2]	1,080
2005[3]	1,181
2006-07	1,022
2007-08	947

[1] The drugs seizures collection was changed from a calendar year basis to a financial year basis from 2006-07 onwards.
[2] Increases in cannabis seizures in 2004 and 2005 are thought to be associated with the introduction of cannabis warnings on 1 April 2004.
[3] 2005 figures onwards are unrounded; previous years rounded.

Citizenship: Gurkhas

Dr. Fox: To ask the Secretary of State for the Home Department how many Gurkhas have *(a)* applied for, *(b)* been granted and *(c)* been refused British citizenship in each of the last 15 years. [262733]

Mr. Woolas: UKBA does not capture information relating to the employment of individual applicants electronically. We can not therefore provide information on the numbers of Gurkhas or former Gurkhas who have naturalised in the past 15 years as a British citizen. The information requested could be obtained by the detailed examination of individual case records of all Nepalese nationals who had applied for British citizenship in the past 15 years only at disproportionate cost.

Crime: Suffolk

Mr. Spring: To ask the Secretary of State for the Home Department how many crimes committed by *(a)* males and *(b)* females aged between 10 and 17 years were recorded in Suffolk in each of the last five years. [286272]

Mr. Alan Campbell: The information requested is not collected centrally. From the recorded crime statistics collected by the Home Office it is not possible to identify the age or sex of the alleged offender.

The Ministry of Justice collects information on the number of persons proceeded against and convicted by age and sex.

Crimes of Violence: West Suffolk

Mr. Spring: To ask the Secretary of State for the Home Department how many crimes of violence against the person were recorded as occurring in West Suffolk constituency in each of the last five years. [286269]

Mr. Alan Campbell: Information for the West Suffolk constituency is not available centrally. West Suffolk comes within the Forest Heath crime and disorder reduction partnership (CDRP) area and figures for this CDRP are provided in the following table.

Offences of violence against the person recorded in Forest Heath

	Number of offences
2003-04	856
2004-05	809
2005-06	798
2006-07	1,072
2007-08	1,133

Criminal Records Bureau

Jenny Willott: To ask the Secretary of State for the Home Department how much on average it cost the Criminal Records Bureau to process a *(a)* standard and *(b)* enhanced check in each of the last five years; and if he will make a statement. [285971]

Mr. Hanson: The Criminal Records Bureau (CRB) is an Executive agency of the Home Office and issues higher level disclosures (both standard and enhanced) for employment and licensing purposes, as provided for in part V of the Police Act 1997. The CRB has been self-funding since 2006.

Fees have been frozen at the 2006-07 level, meaning the cost of a disclosure has not increased since April 2006. This has been achieved as a direct result of year on year internal efficiency savings and year on year increases in demand.

Approximately 20 per cent. of applications are from volunteers and disclosures for volunteers continue to be processed free of charge. This has resulted in a considerable saving for the voluntary sector.

As the CRB is self-funding, the processing costs for all the volunteer applications, processed free of charge, needs to be recovered through the fee paid by other applicants; consequently, the fee must be set higher than the unit cost.

The unit cost of a standard and an enhanced disclosure is the average cost to the CRB of producing one disclosure, irrespective of whether the disclosure is paid for. The following table shows the unit costs in each of the last five financial years.

£

Financial year	*Standard disclosure*	*Enhanced disclosure*
2004-05	22.73	28.09
2005-06	19.94	26.86
2006-07	18.34	24.30
2007-08	24.34	33.29
2008-09	25.18	35.21

Demos

Mr. Watson: To ask the Secretary of State for the Home Department what *(a)* private meetings and *(b)* public engagements Ministers in his Department have attended at which representatives from the think-tank Demos were present in the last 12 months; and if he will make a statement. [279500]

Mr. Woolas: Ministers have meetings with a wide variety of organisations in the public and private sectors as part of the process of policy development and delivery.

Departmental Energy

Gregory Barker: To ask the Secretary of State for the Home Department how much *(a)* electricity and *(b)* gas was used (i) on his Department's estate and (ii) by his Department's agencies in each year from 2004-05 to 2008-09. [280524]

Mr. Woolas: Central Government Departments and their Executive agencies report performance data on their energy consumption from their offices annually as part of the Sustainable Development in Government (SDiG) reporting process.

For the properties that we collect data and report on, the electricity and gas use is as follows:

	kWh	*2005-06 (Baseline)*	*2006-07*	*2007-08*
Core[1]	Electricity	48,715,675	49,986,978	46,319,546
	Gas	21,020,944	20,731,269	15,863,319
Agency[2]	Electricity	3,340,052	3,765,290	3,505,445
	Gas	3,415,074	3,210,571	2,808,985
Total	Electricity	52,055,727	53,752,268	49,824,991
	Gas	24,436,018	23,941,840	18,672,304

[1] Core includes Home Office, UKBA and Home Office Scientific Development Branch.
[2] Agency includes Identity and Passport Service.

Departmental Responsibilities

Mr. Burrowes: To ask the Secretary of State for the Home Department how many Ministers with responsibility for victims of crime in England and Wales there have been in his Department since 1997. [286094]

Mr. Alan Campbell *[holding answer 13 July 2009]:* There were in total seven Ministers in the Home Office with responsibility for victims of crime in England and Wales between the Government coming to power in 1997 and the creation of the Ministry of Justice in 2007. Ministry of Justice Ministers now have overall responsibility for victims of crime.

Deportation

Jeremy Corbyn: To ask the Secretary of State for the Home Department what his Department's policy is on discussing planned deportations with representatives of the government of the destination country based *(a)* in the UK and *(b)* in that country. [283093]

Mr. Woolas *[holding answer 30 June 2009]:* The UK Border Agency works in close partnership with the Foreign and Commonwealth Office (FCO) on return of individuals who do not have a right to remain in the UK, including those who are subject to deportation. The FCO leads in liaison with foreign missions in the UK, and through the FCO network of UK missions overseas, to work with the authorities in the country of destination. This includes both establishing overall agreements on returns policy with the receiving country and liaison on specific cases.

DNA: Databases

James Brokenshire: To ask the Secretary of State for the Home Department pursuant to the answer of 2 June 2009, *Official Report*, column 359W, on DNA: databases, how many children aged under 10 years have had DNA samples taken with the consent of a parent or guardian in the last 12 months; and for how long on average such samples were retained. [278668]

Mr. Alan Campbell *[holding answer 8 June 2009]:* A DNA sample may only be taken from a child under 10 with the consent of a parent or guardian. Such samples are taken from children aged under 10 for elimination purposes to assist in the investigation of an offence e.g. from children who are the victim of a crime or who had legitimate access to a crime scene. These samples are then destroyed and not put on the actual database. Information on the number of such samples taken and the average length of time for which they were retained is not held centrally.

The DNA profiles of all children aged under 10 taken by England and Wales police forces have been removed from the National DNA Database, and the database is monitored to ensure that this remains the case.

Drugs

Chris Huhne: To ask the Secretary of State for the Home Department how many people have been sentenced to immediate custody for possession of *(a)* cannabis and *(b)* ecstasy in each year since 1997. [286045]

Claire Ward: I have been asked to reply.

The requested information is shown in the table:

Number of immediate custodial sentences imposed for possession of cannabis or MDMA, 1997-2007

	Possession of MDMA	*Possession of MDMA with intent to supply*	*Possession of cannabis*	*Possession of cannabis with intent to supply*
1997	62	410	268	1,129
1998	51	217	410	1,284
1999	69	338	451	1,112
2000	108	520	361	808
2001	151	690	290	618
2002	100	578	241	547
2003	81	461	288	475
2004	60	394	161	420
2005	61	342	136	272
2006	62	256	141	240
2007	70	276	162	232

Notes:
1. These figures have been drawn from administrative data systems.
2. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system

Source:
OMS Analytical Services, Ministry of Justice

These data are presented on the principal offence basis. Where an offender has been sentenced for more than one offence the principal offence is the one for which the heaviest sentence was imposed. Where the same sentence has been imposed for two or more offences the principal offence is the one for which the statutory maximum is most severe.

Entry Clearances

Mr. Carswell: To ask the Secretary of State for the Home Department how many and what proportion of appeals against refusal of a family visit visa from *(a)* India, *(b)* Nigeria, *(c)* Bangladesh and *(d)* Pakistan have been dismissed in the last six years. [273593]

Mr. Woolas: The number of appeals against the refusal of applications for family visit visas at visa-issuing posts in India, Nigeria, Bangladesh and Pakistan that were *(a)* received and *(b)* dismissed in each of the last five calendar years is shown in the following tables. Reliable data is not held for years prior to 2004.

	2004			*2005*			*2006*		
	Appeal decisions	*Dismissed*	*Dismissed (%)*	*Appeal decisions*	*Dismissed*	*Dismissed (%)*	*Appeal decisions*	*Dismissed*	*Dismissed (%)*
Bangladesh	350	119	34	719	275	38	2,027	956	47
India	3,690	1,380	37	3,321	986	30	8,153	2,956	36
Nigeria	1,506	563	37	3,101	1,442	47	4,147	1,846	45
Pakistan	430	90	21	2,832	678	24	11,889	5,473	46

	2007			2008		
	Appeal decisions	*Dismissed*	*Dismissed (%)*	*Appeal decisions*	*Dismissed*	*Dismissed (%)*
Bangladesh	3,146	1,557	49	4,450	2,128	48
India	9,427	4,657	49	8,841	4,198	47
Nigeria	8,703	6,090	70	8,740	7,149	82
Pakistan	14,646	7,994	55	17,230	8,783	51

Information is unpublished and treated as provisional.

Mark Lazarowicz: To ask the Secretary of State for the Home Department how many applications for residence permits by the spouses or partners of EU citizens have been awaiting a decision for more than six months. [284546]

Mr. Woolas: Information relating to the number of applications for residence permits from the spouses and partners of EU nationals are in the same category as other family members and is not recorded separately and therefore is not readily available.

Essex Police Authority: Absenteeism

Bob Spink: To ask the Secretary of State for the Home Department what the rate of *(a)* absence and *(b)* absence resulting from injury at work was among Essex Police Authority employees in each of the last five years; what estimate he has made of the cost to the public purse of such absences; and if he will make a statement. [283890]

Mr. Hanson: Figures for staff employed by Essex police authority are not collected centrally.

This is a matter for Essex county council and the chief constable of the police force.

Forensic Science: North West

Mr. Hoyle: To ask the Secretary of State for the Home Department how many incidents of violent crime requiring forensic science capabilities there have been in the police force areas covering *(a)* Lancashire, *(b)* Merseyside, *(c)* Cumbria, *(d)* North Wales, *(e)* Greater Manchester and *(f)* Cheshire in each of the last five years. [282984]

Mr. Alan Campbell *[holding answer 29 June 2009]:* The table gives details of the number of violent crimes which had a crime scene examination and the number of crimes at which potential DNA material, finger marks and footwear marks were collected in each of the years from 2004-05 to 2007-08 for the police forces referred to. Figures for the 2008-09 financial year will be available shortly.

It should be noted that in crimes where potential forensic material is collected, only a proportion of the forensic material collected is submitted to a forensic laboratory for analysis. The proportion varies for DNA material, finger marks and footwear marks.

The information provided is from police force data collected by the Home Office on forensic activity and related detections. The data cover DNA, finger mark and footwear mark activity. These data are normally used for management information only and are not subject to the detailed checks that apply for National Statistics publications.

Violent crime[1]

	Cheshire	*Cumbria*	*Greater Manchester*	*Lancashire*	*Merseyside*	*North Wales*	*Total*
2004-05							
Crimes which have a crime scene examination	571	169	2,392	831	478	480	4,921
Crimes where potential DNA material collected	210	112	863	223	319	201	1928
Crimes where potential fingerprints collected	119	52	1,143	140	229	107	1790
Crimes where potential footwear marks collected	35	20	150	73	58	40	376
2005-06							
Crimes which have a crime scene examination	383	336	2,014	992	704	191	4,620
Crimes where potential DNA material collected	166	75	758	200	396	134	1729
Crimes where potential fingerprints collected	77	49	592	134	254	80	1186
Crimes where potential footwear marks collected	35	12	138	88	57	49	379

	Violent crime[1]						
	Cheshire	*Cumbria*	*Greater Manchester*	*Lancashire*	*Merseyside*	*North Wales*	*Total*
2006-07							
Crimes which have a crime scene examination	1,072	394	1,574	1,091	1,018	156	5,305
Crimes where potential DNA material collected	196	110	724	278	537	100	1945
Crimes where potential fingerprints collected	116	62	635	186	289	70	1358
Crimes where potential footwear marks collected	45	27	505	101	73	56	807
2007-08							
Crimes which have a crime scene examination	849	312	1,443	919	1,063	122	4708
Crimes where potential DNA material collected	174	117	714	264	580	82	1931
Crimes where potential fingerprints collected	60	50	666	171	316	57	1320
Crimes where potential footwear marks collected	37	32	317	96	61	45	588

[1] 'Violent crime' covers all violence against the person offences.

G20: Protest

Keith Vaz: To ask the Secretary of State for the Home Department whether he plans to take steps in response to the report by Her Majesty's Inspector of Constabulary on the G20 protests; and if he will make a statement. [285933]

Mr. Hanson: The Government welcome the interim report by Her Majesty's Inspector of Constabulary on the G20 protests and will be working closely with the police to ensure the conclusions and recommendations are properly addressed, and co-ordinated with the recommendations coming out of other reviews into the policing of the G20 summit and the policing of protest by the Home Affairs Committee and the Joint Committee on Human Rights.

Human Trafficking: Babies

Margaret Moran: To ask the Secretary of State for the Home Department what recent representations he has received on the adequacy of legislation on the trafficking of babies into the UK; and if he will make a statement. [273057]

Mr. Alan Campbell: Following discussions with the Crown Prosecution Service we have introduced a clause in the Borders, Citizenship and Immigration Bill to amend Section 4 of the Asylum and Immigration (Treatment of Claimants etc.) Act 2004.

This amendment will allow for the prosecution, under trafficking legislation, of those who bring small children or vulnerable adults into the country for the purpose of obtaining benefits, and where the role of the child or vulnerable adult is entirely passive.

Human Trafficking: Convictions

Mr. Vara: To ask the Secretary of State for the Home Department pursuant to the answer of 16 June 2009, *Official Report*, column 192W, on human trafficking, how many people from each country were *(a)* arrested for and *(b)* convicted of human trafficking offences in each of the last five years. [282151]

Mr. Alan Campbell: The numbers of arrests and convictions for human trafficking broken down by country of origin is set out in the following table:

	Arrests	*Convictions*
United Kingdom	68	9
Nigeria	6	0
Somalia	2	0
Romania	36	5
Poland	16	3
Spain	1	1
Lithuania	31	6
Latvia	4	1
Bulgaria	7	2
Cameroon	2	0
Kosovo	22	10
Turkey	4	2
Thailand	27	8
Malaysia	12	1
Pakistan	9	1
Albania	25	21
Hungary	19	1
Moldova	5	1
Vietnam	6	2
Slovakia	17	3
Congo	3	0
Brazil	1	1
China	57	11
Ukraine	2	1
Czech Republic	40	8
Portugal	2	0
Serbia	4	4
Germany	4	1
Philippines	2	1
Macedonia	4	2

	Arrests	Convictions
Greece	1	1
Bangladesh	10	1
South Africa	1	1
Malta	2	1

Illegal Immigrants: Deportation

Damian Green: To ask the Secretary of State for the Home Department what arrangements his Department has made with the French Government to fly back to their country of origin potential illegal entrants into the United Kingdom from France; when he expects the first such flights to happen; how costs will be split between the Government and the French Government; and what payments in cash or benefits in kind will be made to those placed on such flights. [243113]

Mr. Woolas: The United Kingdom (UK) continues to work with France—one of our closest European partners—in fighting illegal migration. Our shared determination has already created one of the toughest border crossings in the world at Calais. As part of this co-operation, the UK and France are assessing the feasibility of joint return flights to fly back to their country of origin potential illegal entrants who have no lawful basis with which to be in either country.

The UK Border Agency does not disclose information in advance about the dates or destinations of charter flights in order to ensure the safety and security of our own staff, our contractors, and those we are seeking to return. Additionally, the Government of the country of origin may request that we do not publicise our operation as a condition of granting clearance for the flight. As there are currently no firm arrangements in place for the UK and France to operate a joint flight, there has been no agreement about cost allocation or whether any payment to returnees is appropriate. Any details about costs or breakdown of costs to an airline contracted for the purpose of a joint flight would be regarded as commercially confidential.

Jersey

Mr. Austin Mitchell: To ask the Secretary of State for the Home Department whether *(a)* his Department and *(b)* police forces in England and Wales have received any requests from Jersey police to provide information about elected members of the state of Jersey. [286137]

Mr. Hanson: The Home Office has received no such reports. Neither are we aware of any such reports being received by police forces in England and Wales.

National Security Strategy: Electromagnetic Pulses

Mr. Arbuthnot: To ask the Secretary of State for the Home Department what recent discussions he has had on electromagnetic pulses in the context of the National Security Strategy; and if he will make a statement. [286183]

Mr. Hanson: The Government's updated National Security Strategy takes into account the threat posed to UK interests by the full range of 'threat actors'; a definition which includes natural hazards, as well as individuals or organisations with malign intent.

The associated Cyber Security Strategy of the United Kingdom, published alongside and reflected in the National Security Strategy update, considers a number of methods of cyber attack, including those that generate high levels of power that can damage or disrupt unprotected electronics.

Both strategies were produced in consultation with experts within and outside Government.

Offensive Weapons

Mr. Hepburn: To ask the Secretary of State for the Home Department what recent steps he has taken to tackle knife crime; and if he will make a statement. [283215]

Mr. Hanson: In March my predecessor announced an extra £5 million to tackle knife crime and increase targeted police action to tackle a minority of young people who commit serious violence, regardless of the weapon involved. In June I committed more than £2 million to support over 150 organisations who work with young people to tackle knife crime and support victims.

Andrew Rosindell: To ask the Secretary of State for the Home Department how much his Department has spent on promoting anti-knife initiatives in the last 12 months. [284114]

Mr. Hanson: The Home Office spent a total of £1,918,979 on promoting anti-knife initiatives in the last complete financial year 2008-09 (this figure is composed of advertising media, PR and print costs but excludes supplier fees, production and VAT).

Offensive Weapons: Amnesties

Mr. Watson: To ask the Secretary of State for the Home Department what assessment he has made of the effectiveness of knife amnesty programmes; and if he will make a statement. [282087]

Mr. Hanson: On 26 June 2007, following the national knife amnesty in 2006, the Government published a best practice guide for local police forces and practitioners providing a tactical menu of options to tackle knife-enabled crime at a local level. This was developed closely with ACPO and was developed drawing on the local lessons learned from the national amnesty.

The 2006 knife amnesty was held from 24 May to the end of June 2006. Over that period, almost 90,000 items were handed in to police in England and Wales. This constitutes a substantial quantity of potentially lethal items taken off the streets. The amnesty was just one facet of our knife crime strategy, which focuses on tough enforcement, education programmes and support for wider prevention work. We are continuing our support to local initiatives and projects through the Community Fund, which was established in December 2008 and will provide financial assistance to 144 groups over three years.

Personation

Mr. Spring: To ask the Secretary of State for the Home Department how many people in *(a)* the East of England and *(b)* Suffolk reported being a victim of offences related to identity fraud in each of the last five years. [286268]

Mr. Alan Campbell: The information requested is not available centrally. The use of another person's identification details (or the use of false identification details), often referred to as identity fraud, is not in itself an offence in law. It is the action that is undertaken using those identification details that needs to be considered in respect of whether an offence has occurred and should be recorded.

Police Community Support Officers: Clothing

Mr. Watson: To ask the Secretary of State for the Home Department when he next expects to meet the *(a)* Head of the Home Office Scientific Development Branch and *(b)* President of the Association of Chief Police Officers to discuss stab-proof vests for police community support officers. [286907]

Mr. Hanson *[holding answer 14 July 2009]:* The provision of stab-proof vests for police community support officers is not a matter for the Home Office Scientific Development Branch. However, I will discuss the issue of stab-proof vests for police community support officers in wider discussions on police equipment with the President of the Association of Chief Police Officers shortly.

Mr. Watson: To ask the Secretary of State for the Home Department what assessment he has made of the average cost of equipping a police community support officer with a stab-proof vest. [286910]

Mr. Hanson *[holding answer 14 July 2009]:* I have made no assessment of the cost of equipping a police community support officer with protective body armour. The equipping of police community support officers is an operational matter for chief officers of police.

Police Community Support Officers: Staffordshire

Mr. Jenkins: To ask the Secretary of State for the Home Department how many police community support officers became full members of the police force in the Staffordshire Police Authority area in the most recent period for which figures are available. [285920]

Mr. Hanson: Eight PCSOs left their post in Staffordshire to become police officers in the financial year 2007-08.

Police: Stun Guns

Lembit Öpik: To ask the Secretary of State for the Home Department what analysis his Department has undertaken of the use of tasers by police officers in the last 12 months; and if he will make a statement. [285340]

Mr. Hanson: Every use of taser by police officers in England and Wales is recorded and a report sent through to the Home Office Scientific Development Branch (HOSDB) for collection. This data is summarised and published on a quarterly basis and has been used to inform taser's operational effectiveness and its medical implications. The latest data can be found at:

http://scienceandresearch.homeoffice.gov.uk/images/106966/Taserfigs_Sep-ec_08_.pdf

HOSDB also published an evacuation of the 12 month trial of taser by specially trained units in November 2008.

UK Border Agency: Office of the Chief Inspector

Keith Vaz: To ask the Secretary of State for the Home Department (1) what the budget is of the Office of the Chief Inspector of the UK Border Agency; and how many staff are employed in that office; [285927]

(2) how many staff employed in the Office of the Chief Inspector of the UK Border Agency worked for his Department prior to their appointment at the Agency; [285934]

(3) what the salary is of the Chief Inspector of the UK Border Agency; at what pay grades staff in his office are employed; and how many such staff are employed at each grade; [285935]

(4) what the cost of the premises occupied by the Office of the Chief Inspector of the UK Border Agency is in 2009-10. [285936]

Mr. Woolas: The independent Chief Inspector UK Border Agency has a budget of £3 million for 2009 -10. As of 1 July 2009, 24.9 full-time equivalent staff work in the Office of the Chief Inspector (excluding the Chief Inspector). An additional five staff have been appointed and are expected to take up posts shortly.

Of the 24.9 full-time equivalent staff in post on 1 July 2009, 15.9 staff worked for the Home Office prior to their employment.

The Chief Inspector's current salary is £159,108. The following table sets out the position on the current number and grades of staff (excluding the Chief Inspector).

The annual costs for 2009-10 for the premises occupied by the Office of the Chief Inspector UK Border Agency are still to be confirmed.

Office of Chief Inspector UKBA staff as at 1 July 2009

	Number
Senior Civil Service (Pay Band 1)	1
Grade 6	4
Grade 7	7.9
SEO or equivalent	7
HEO or equivalent	1
EO or equivalent	4
AA/AO or equivalent	0

Note:
In addition: 3 x SEO; 1 x EO and 1 x AO have been appointed and will take up posts shortly.

Keith Vaz: To ask the Secretary of State for the Home Department how many overseas visits to each country have been made by the Chief Inspector of the UK Border Agency; and what the cost to the public purse was of such visits. [285928]

Mr. Woolas: I have asked the independent chief inspector to respond in writing to my right hon. Friend.

Vetting

Jenny Willott: To ask the Secretary of State for the Home Department with reference to the answer to the hon. Member for Surrey Heath (Michael Gove) of 16 October 2008, *Official Report*, column 1436W, on vetting, how many *(a)* standard and *(b)* enhanced Criminal Records Bureau checks were undertaken in each police force area in each of the last five years; and if he will make a statement. [285996]

Mr. Hanson: The total number of standard and enhanced disclosures processed in each financial year since 2002 until March 2009 is shown in the following table.

CRB checks processed

Financial year	*Standard disclosures*	*Enhanced disclosures*	*Total*
2002-03	178,375	1,258,719	1,437,094
2003-04	285,130	1,999,558	2,284,688
2004-05	275,197	2,155,740	2,430,937
2005-06	313,368	2,456,897	2,770,265
2006-07	329,223	2,948,734	3,277,957
2007-08	294,592	3,028,659	3,323,251
2008-09	396,274	3,457,410	3,853,684
Grand total	2,072,159	17,305,717	19,377,876

The CRB cannot provide figures broken down by police force area. This is because standard disclosures are processed without any requirement for the police forces to conduct checks and several different police forces may be required to conduct checks in order to produce one enhanced disclosure.

The CRB has now issued over 20 million disclosures since inception and operates to a set of published service standards (PSS) which are to issue 95 per cent. of standard disclosures within 10 days and 90 per cent. of enhanced disclosures within 28 days. While the CRB has consistently exceeded their targets for standard disclosures, there have been problems in meeting the target set for enhanced disclosures.

To address these problems associated with delays, the CRB has set up an improvement plan with their delivery partners, including the police forces. This is aimed at maintaining a balanced output of applications on the system while also reducing the number of aged cases. This work has started to show an improvement in turnaround times but the CRB will continue to monitor forces performance in line with its own performance.

ENERGY AND CLIMATE CHANGE

Berkeley Power Station

Mr. Drew: To ask the Secretary of State for Energy and Climate Change what plans he has for the future use of the former nuclear laboratories site at Berkeley; and when he expects the Nuclear Decommissioning Authority to present proposals for that future use. [281350]

Mr. Kidney: The Nuclear Decommissioning Authority (NDA) is responsible for the clean up and decommissioning of the Berkeley site in line with its published strategy. I understand that the NDA's objective is to separate Berkeley Centre from the licensed site to facilitate reuse and that detailed planning for this is well underway.

Departmental Electronic Equipment

Jenny Willott: To ask the Secretary of State for Energy and Climate Change how many *(a)* photocopiers, *(b)* scanning devices and *(c)* fax machines, excluding multi-function devices, there are in his Department; and if he will make a statement. [286175]

Joan Ruddock: As of 9 July 2009, in the Department there are:

(a) 17 photocopiers;

(b) 11 faxes, and

(c) 0 scanners.

Departmental Public Expenditure

Tony Baldry: To ask the Secretary of State for Energy and Climate Change what estimate he has made of his Department's capital underspend in 2009-10; and how much of that sum he proposes to return to the Exchequer. [284327]

Joan Ruddock: DECC does not expect to underspend against its capital budget in 2009-10.

Energy: Conservation

Simon Hughes: To ask the Secretary of State for Energy and Climate Change what recent steps he has taken to implement the undertakings made by the Prime Minister on 11 September 2008 in relation to the home energy saving programme; and if he will make a statement. [265834]

Mr. Kidney *[holding answer 23 March 2009]:* The Prime Minister's announcement saw a £74 million increase in funding for the Warm Front Scheme, offering grants for central heating and energy efficiency measures for the fuel poor. Over 37,000 households have been assisted to date with this additional funding.

Also the weekly rate for cold weather payments was increased from £8.50 to £25. Over 8 million payments were made during winter 2008-09—at a value of £209 million.

Following full public consultation, the Government have laid the statutory instruments giving effect to the proposals for the Community Energy Saving Programme (CESP) and the increase in the Carbon Emissions Reductions Target (CERT), subject to parliamentary approval.

Charles Hendry: To ask the Secretary of State for Energy and Climate Change how much new funding for low-carbon community heating schemes announced in Budget 2009 will be provided in *(a)* 2009-10, *(b)* 2010-11 and *(c)* subsequent years. [285101]

Mr. Kidney: Of the £25 million made available in Budget 2009 to fund low-carbon community heating schemes, £20.96 million is being administered by the

Homes and Communities Agency to fund at least 10 exemplar schemes in England. It is anticipated that all of the funding will be provided to successful schemes in 2009-10. The remainder of the funding was made available to the devolved Administrations in line with the Barnett formula and is a matter for them.

Charles Hendry: To ask the Secretary of State for Energy and Climate Change when the first payments of money from the new funding for low-carbon community heating schemes announced in Budget 2009 will be made. [285102]

Mr. Kidney: The first payments of money from the new funding for low carbon community heating schemes will be made before the end of July. A formal and more detailed announcement will be made as soon as is possible.

Charles Hendry: To ask the Secretary of State for Energy and Climate Change what criteria will be used to select recipients of the new funding for low-carbon community heating schemes announced in Budget 2009. [285103]

Mr. Kidney: The criteria used to select recipients of the new funding for low carbon community heating schemes include:

Novelty, innovation or exemplar quality;

Support for new housing development or refurbishment of existing buildings;

Value for money;

Carbon savings;

Progress of the scheme and ability to deliver quickly, and to timescales;

Help for people affected by fuel poverty; and,

Ability to leverage additional public or private funding.

Energy: Meters

Mr. Jenkins: To ask the Secretary of State for Energy and Climate Change what recent estimate he has made of the number of domestic dwellings in Tamworth constituency which have a smart meter. [285367]

Mr. Kidney: The Department has no estimate of this.

European Energy Market

Mr. Crabb: To ask the Secretary of State for Energy and Climate Change what recent assessment he has made of levels of likely voluntary implementation by EU member states of the most recent EU liberalisation package in respect of the European energy market in advance of legislation coming into force in 2011. [284773]

Mr. Kidney: We expect the latest EU energy liberalisation package to come into force shortly, with implementation of most aspects of it then to be completed within 18 months. Well functioning EU energy markets will make an important contribution to energy security and investment to support low carbon energy supplies. This is why we are encouraging other member states to implement early as much of the package as possible.

There has already been considerable progress on transparency and on setting up the new bodies for cooperation between regulators and system operators. Work is also under way on the technical and regulatory frameworks needed to underpin greater market integration.

Mr. Crabb: To ask the Secretary of State for Energy and Climate Change what recent discussions he has had with his EU counterparts on the early voluntary implementation of the most recent EU liberalisation package in respect of the European energy market. [284774]

Mr. Kidney: The EU liberalisation package was adopted on 25 June. Department officials are encouraging other member states to implement early as much of the package as possible, and I will reinforce this when I meet other EU energy Ministers in the course of business.

Evian

Mr. Dai Davies: To ask the Secretary of State for Energy and Climate Change what the outcomes were of his visit to Evian on 6 July; and if he will publish on his Department's website the papers discussed with his French counterpart during that visit. [286719]

Joan Ruddock: The meeting showed how close the thinking of the UK and France is on climate change and energy policy. Much of the discussion between my right hon. Friend the Secretary of State and French Ministers concentrated on how to secure an ambitious agreement at COP 15 in Copenhagen. Most notably we agreed to seek international adoption of new, tougher reductions in greenhouse gas emissions.

The results are summarised in joint declarations on international climate change negotiations and on nuclear energy. These appear on the No. 10 website.

Fuel Poverty

Charles Hendry: To ask the Secretary of State for Energy and Climate Change which schemes sponsored by the Government have as an objective the reduction of fuel poverty; which such schemes are planned; and how much has been spent on each scheme in the latest period for which figures are available. [285901]

Mr. Kidney: Warm Front is the main Government funded scheme for tackling fuel poverty in England. Over 1.9 million households have received assistance with heating, insulation and other energy efficient measures since the scheme's inception in June 2000.

Funding for the scheme has been increased to more than £950 million in the current spending round. In the previous spending round period, 2005-08, Warm Front total spend was £862 million.

The Government are currently undertaking a wide-ranging review of our fuel poverty policies. The review is examining whether existing measures to tackle fuel poverty could be made more effective and whether new policies should be introduced to help us make further progress towards our goals.

Charles Hendry: To ask the Secretary of State for Energy and Climate Change what initiatives to tackle fuel poverty are being provided by private companies under his Department's direction; how much has been spent on each in the latest period for which figures are available; and whether any other such schemes are planned. [285902]

Mr. Kidney: Warm Front is the main Government scheme for tackling fuel poverty in the private sector in England and is managed by eaga plc. Over 1.9 million households have received assistance with heating, insulation and other energy efficient measures since the scheme's inception in June 2000. Funding for the scheme has been increased to more than £950 million in the current spending round. The scheme is managed for the Government by eaga plc.

The carbon emissions reduction target (CERT) is an obligation placed on energy supply companies that have more than 50,000 customers to achieve CO_2 savings in the homes of domestic consumers—40 per cent. of which must be met by installing measures in the homes of a priority group of low-income consumers in receipt of qualifying benefits or are aged 70 and over.

Energy suppliers do not disclose the amount of money that they spend on promoting CERT measures, as they regard this as being commercial-in-confidence. However, we understand that under the previous two phases of the energy efficiency commitment (EEC), which ran from April 2002 to March 2008, suppliers invested £1.325 billion promoting measures. The Government's estimate of likely spend for the current CERT is £3.2 billion. With 60 per cent. of this investment expected to be directed at the Priority Group, the total investment over nine years would total £2.7 billion.

DECC has provided funding of £3 million between 2008-09 to 2010-11 under the Low Carbon Buildings programme—together with revenue funding from partners—to deliver pilot microgeneration projects for deprived communities in the north-east, Yorkshire and Humberside, East of England and, possibly, Wales.

The new Community Energy Saving programme (CESP) will see the main energy companies deliver energy efficiency measures worth around £350 million to homes in low income areas around the country. The scheme will deliver both carbon savings and fuel bill savings to assisted households, and subject to parliamentary approval is expected to come into force in September this year.

The Government are currently undertaking a wide-ranging review of our fuel poverty policies. The review is examining whether existing measures to tackle fuel poverty could be made more effective and whether new policies should be introduced to help us make further progress towards our goals.

Future Energy Networks Team

Charles Hendry: To ask the Secretary of State for Energy and Climate Change how many staff in his Department are working in the future energy networks team. [285096]

Mr. Kidney: The Future Electricity Networks (FEN) team is part of the Renewables Directorate and is made up of 12 people.

Insulation: Housing

Andrew Stunell: To ask the Secretary of State for Energy and Climate Change how much has been spent from the public purse on insulating the homes of pensioners in each local authority area in Greater Manchester in each of the last five years. [285381]

Mr. Kidney: The following table details the Warm Front funding spent on insulating the homes of over 60's in each local authority area in Greater Manchester in each of the last five years.

£

Local authority	*2005-06*	*2006-07*	*2007-08*	*2008-09*	*2009-10*[1]	*Total*
Bolton	132,374.20	237,704.61	248,163.23	182,662.34	45,817.05	846,721.43
Bury	75,986.77	162,115.45	115,095.72	97,909.33	41,201.97	492,309.24
Manchester	80,305.86	174,675.11	123,719.35	97,067.10	34,664.02	510,431.44
Oldham	74,876.18	152,595.20	118,227.46	93,377.32	30,278.27	469,354.43
Rochdale	85,797.64	180,263.33	103,292.97	117,583.31	36,847.64	523,784.89
Salford	95,302.55	186,267.34	95,899.60	131,508.95	31,440.38	540,418.82
Stockport	90,460.84	221,788.91	124,709.77	193,585.93	63,698.40	694,243.85
Tameside	71,009.40	153,265.42	104,586.24	147,911.29	29,391.33	506,163.68
Trafford	64,147.31	122,690.78	125,323.81	129,179.62	55,439.88	496,781.40
Wigan	163,826.48	289,096.05	236,302.84	288,649.36	76,426.73	1,054,301.46

[1] From 1 March 2009 to 30 June 2009.

Low Carbon Buildings Programme

Charles Hendry: To ask the Secretary of State for Energy and Climate Change how much new funding for the Low-carbon Buildings Programme announced in Budget 2009 there will be in *(a)* 2009-10, *(b)* 2010-11 and *(c)* subsequent years. [285098]

Mr. Kidney: The new £45 million funding for the Low Carbon Buildings Programme announced in Budget 2009 will be allotted over *(a)* 2009-10, *(b)* 2010-11 and *(c)* subsequent years as follows:

	2009-10	*2010-11*	*Total*
Phase I Ext (Householders)	5	5	10
Phase II Ext (Others)	25	10	35
Total			45

There is no planned expenditure after 2011. The Low Carbon Buildings Programme will be superseded by Feed in Tariffs in 2010 and Renewable Heat Incentives in 2011.

Charles Hendry: To ask the Secretary of State for Energy and Climate Change when the first payments of money from the new funding for the Low-carbon Buildings Programme announced in Budget 2009 will be made. [285099]

Mr. Kidney: The new grant funding under the Low Carbon Buildings Programme became available from 1 July 2009 when new applications were welcomed. With a lead in period of approximately three months between grant offer letter and payment upon completion of project—the first payment of grant money allocated is expected to be in October 2009.

Charles Hendry: To ask the Secretary of State for Energy and Climate Change what proportion of the new funding for the Low-carbon Buildings Programme announced in Budget 2009 will be made available for solar photovoltaic installations in *(a)* 2009-10, *(b)* 2010-11 and *(c)* subsequent years. [285100]

Mr. Kidney: The proportion of the new £45 million funding for Low Carbon Buildings programme (LCBP) announced in Budget 2009 which will be made available for solar photovoltaic applications under LCBP Phase 2 in *(a)* 2009-10, *(b)* 2010-11 and *(c)* subsequent years is as follows:

		2009-10	*2010-11*	*Total*
Phase II Ext Addition for PV	New	14	0	14

There is no planned expenditure after 2011. The Low Carbon Buildings programme will be superseded by feed in tariffs in 2010 and renewable heat incentives in 2011.

Members: Correspondence

Sir Michael Spicer: To ask the Secretary of State for Energy and Climate Change when the Parliamentary Under-Secretary in his Department plans to reply to the e-mail of 31 March from the hon. Member for West Worcestershire on a replacement low carbon buildings programme. [274636]

Joan Ruddock *[holding answer 12 May 2009]:* I apologise for the unacceptable delay in replying to the hon. Member, which was due to administrative error in my Department.

The e-mail the hon. Member refers to forwarded correspondence from Councillor Anne Mackison regarding the Low Carbon Buildings Programme. My colleague, the previous Minister of State in this Department, replied directly to Councillor Mackison on 20 April 2009. I apologise that the hon. Member was not copied in to that letter, and I have therefore sent a copy of that letter to him today.

Nuclear Decommissioning Authority

Charles Hendry: To ask the Secretary of State for Energy and Climate Change what estimate he has made of the amount of commercial income that will be earned by the Nuclear Decommissioning Authority in *(a)* 2009-10, *(b)* 2010-11, *(c)* 2011-12 and *(d)* 2012-13. [285087]

Mr. Kidney: The budget of the Nuclear Decommissioning Authority (NDA) for 2009-10 and 2010-11 was considered within the context of the 2007 comprehensive spending review (CSR07). The settlement assumed that the NDA's commercial income would be £2.2 billion for 2009-10 and 2010-11. The commercial income budget for 2011-12 and 2012-13 has yet to be determined, and will take into account the end of life of existing Magnox electricity generating stations and the evaporative capacity at Sellafield.

Charles Hendry: To ask the Secretary of State for Energy and Climate Change how much commercial income was earned by the Nuclear Decommissioning Authority in *(a)* 2007-08 and *(b)* 2008-09. [285088]

Mr. Kidney: The NDA publishes commercial income in their annual report and accounts. Their commercial income for 2007-08 was £1,458 million. The accounts for 2008-09 will be laid before Parliament later this month.

Charles Hendry: To ask the Secretary of State for Energy and Climate Change what the Nuclear Decommissioning Authority's budget is for *(a)* 2009-10, *(b)* 2010-11, *(c)* 2011-12 and *(d)* 2012-13, broken down by budget heading. [285089]

Mr. Kidney: The budget of the Nuclear Decommissioning Authority (NDA) for 2009-10 and 2010-11 was considered within the context of the 2007 comprehensive spending review (CSR07). The settlement provides the NDA with £3.3 billion direct Government funding over the last two years of CSR07 (£1.6 billion in 2009-10 and £1.7 billion in 2010-11) of which £0.9 billion is resource and £2.4 billion is capital. Together with its commercial income the total funding available over the last two years of CSR07 is projected to be £5.5 billion. The budget for 2011-12 and 2012-13 has yet to be determined.

Nuclear Power

Gregory Barker: To ask the Secretary of State for Energy and Climate Change when the Nuclear National Policy Statement will be launched. [280360]

Mr. Kidney: The Government will publish a draft Nuclear National Policy Statement (NPS) in autumn 2009 for public consultation and parliamentary scrutiny. We aim to designate the NPS in spring 2010.

Nuclear Power Stations: Construction

Charles Hendry: To ask the Secretary of State for Energy and Climate Change what progress has been made on the generic design assessment for nuclear new build against the Office for Nuclear Development's draft timeline. [285042]

Mr. Kidney *[holding answer 8 July 2009]:* The UK nuclear regulators are currently assessing two designs under the Generic Design Assessment (GDA) process—EdF/Areva's UK-EPR and Westinghouse's API 000.

This process is being undertaken by the Nuclear Installations Inspectorate (NII) and the Office for Civil Nuclear Security (OCNS) (both part of the Health and Safety Executive's Nuclear Directorate) and the Environment Agency.

GDA began in July 2007 on a contingent basis, pending the outcome of the Government's consultation on nuclear power in January 2008. Regulators completed their initial stage of the assessment in March 2008. The more detailed assessment stages of GDA commenced in June 2008.

Regulators have stated that they remain on track to complete GDA by June 2011. The NII will produce interim reports in November 2009 and the Environment Agency aim to undertake a public consultation on their findings in spring 2010. This is consistent with the Government's indicative timeline for the first new nuclear power stations coming online from around 2018.

Regular updates on the progress of GDA, including quarterly reports, are published on the regulator's joint website:

http://www.hse.gov.uk/newreactors/index.htm

Plutonium

Joan Walley: To ask the Secretary of State for Energy and Climate Change pursuant to the answer of 8 June 2009, *Official Report*, column 725W, on plutonium, for what reason his Department declined to fund the travel and accommodation expenses of stakeholders attending the plutonium policy meeting on 21 May 2009; and if he will make a statement. [282004]

Mr. Kidney: Normal practice is for organisations to fund the expenses of those attending meetings on their behalf.

DECC in common with all Departments has to manage its limited funding and used normal practice with respect to the expenses of those invited to the meeting.

Power Stations: Influenza

Charles Hendry: To ask the Secretary of State for Energy and Climate Change what arrangements his Department has made regarding the continuity of fuel supplies to power stations in the event of an influenza pandemic. [283254]

Mr. Kidney: DECC has been working closely with the energy sector through the Energy Emergencies Executive Committee (E3C) for over two years in order to identify and mitigate energy supply risks specific to an influenza pandemic.

Within the power generation industry, work has focused on a number of risks to the continuity of generation including: a severe shortage of manpower, unavailability of primary fuels for generation and disruption of the supply chain for essential chemicals and other goods.

On the particular question of fuel supplies, these are mainly coal, gas and nuclear.

In the case of coal, fuel stocks currently stand at about three months supply, and this figure would usually rise as we approach the winter. These stock levels are thought to be sufficient to cope with any disruptions caused by a flu pandemic, where the peak impact might be intense but would be of a relatively short duration.

For gas fired power stations the supply route is robust, with gas being transported by pipeline via the main national gas transmission network. We are working with gas network owners via E3C to ensure appropriate business continuity plans are in place to minimise the likelihood of disruption to gas supplies.

The UK's nuclear power station need to replenish their nuclear reactor fuel on a regular basis, however the impact of a delay in the replenishment programmes would be a gradual reduction in output rather than complete loss. The risk of a disruption to supply arrangements is deemed to be very low, however British Energy and Magnox are working with the Nuclear Installations Inspectorate to understand what flexibility exists within current regulations to help extend the life of fuel cells and thus reduce the frequency of the refuelling process if necessary.

Radioactive Waste: Waste Management

Mr. Watson: To ask the Secretary of State for Energy and Climate Change what the baseline planning assumptions are for the proposed national deep-level geological repository for radioactive waste. [285519]

Mr. Kidney: *[holding answer 9 July 2009]:* The "Managing Radioactive Waste Safely White Paper: A Framework for Implementing Geological Disposal", published in June 2008, outlined the role of the Nuclear Decommissioning Authority (NDA) as the body responsible for planning and implementing geological disposal of higher activity radioactive waste.

The White Paper sets out a staged decision-making process to site a geological disposal facility and the NDA are proceeding with early planning. The process is driven by discussions with potential host communities but early assumptions will need to be made for planning purposes on a wide range of technical issues that will not become clear for some time, such as the potential geological characteristics of a site and the amount of waste to be disposed of. The NDA plans to publish a document outlining and explaining its early planning work on this subject later this year.

Mr. Watson: To ask the Secretary of State for Energy and Climate Change what discussions *(a)* Ministers and *(b)* officials in his Department have had with the Nuclear Decommissioning Authority on (i) the earliest and (ii) latest dates for the proposed national deep-level geological repository for radioactive waste to open to receive waste deposits; and what discussions have been held on the operational opening dates. [285520]

Mr. Kidney *[holding answer 9 July 2009]:* Ministers and Officials meet the Nuclear Decommissioning Authority (NDA) regularly to discuss its responsibilities for decommissioning and clean-up of the UK's public civil nuclear sites including the geological disposal of higher activity radioactive waste.

The process to site a geological disposal facility is driven by discussions with potential host communities. The programme is flexible and able to incorporate both robust technical site investigations and ongoing interactions between the project and potential host communities. The Government have therefore not set a fixed delivery timetable, but the NDA, as part of its baseline delivery

strategy, has a current planning assumption that the disposal facility could be available to receive the first waste in 2040. In the event that geological disposal facilities are not available until after this date, interim stores will have their lives extended as required, in order to provide safe and secure interim storage throughout the geological disposal facility development programme.

Renewable Energy

Ms Keeble: To ask the Secretary of State for Energy and Climate Change when he plans to announce his decision on the future of *(a)* the Severn Tidal Barrier and *(b)* each other proposed renewable energy project under consideration by his Department. [284315]

Mr. Kidney: The Government response to public consultation on Severn tidal power is published today. A decision on whether to support a Severn Estuary power scheme will be made after further assessment of the costs, benefits and impacts and following a second public consultation, likely to be during 2010.

The Government's Renewable Energy Strategy, which contains a range of measures to meet the UK's renewable energy target, will also be published shortly.

Sandra Osborne: To ask the Secretary of State for Energy and Climate Change what estimate his Department has made of the heat generated from woody biomass in each year since 2005; and on what data he bases such estimates. [286793]

Joan Ruddock: Information on all forms of renewable energy used for heat generation is contained in table 7.6 of the annual Digest of UK Energy Statistics. The current edition, published in July 2008, contains information up to and including 2007; the data for 2005-07 are shown in the table. The next edition of the digest, which will contain 2008 data, is being published on 30 July 2009.

	Thousand tonnes of oil equivalent	
	Domestic wood use	*Industrial wood use*
2005	286.6	80.9
2006	322.4	80.9
2007	358.3	80.9

The data are based on information from the Forestry Commission, the Heating Equipment Testing and Approval Scheme (HETAS), the bio-energy capital grants scheme, and AEA, acting on behalf of DECC.

Warm Front Scheme

Charles Hendry: To ask the Secretary of State for Energy and Climate Change how many boilers running on *(a)* wood chips and *(b)* other biomass fuels have been installed under the Warm Front scheme in each of the last five years. [283246]

Mr. Kidney: The Warm Front scheme does not provide for wood-chip and other biomass fuelled measures, therefore no such measures have been installed.

Justine Greening: To ask the Secretary of State for Energy and Climate Change what procedures are in place to ensure that work is carried out by Warm Front contractors before they are paid for it. [285190]

Mr. Kidney: All Warm Front installations must be signed for by the householder, who will sign a Works Completion Certificate confirming they are satisfied with the installation that has been carried out. Installers then submit their request for payment to eaga.

Inspections of the installations (100 per cent. of gas, 5 per cent. of oil, 5 per cent. of electric heating installations, and a 5 per cent. sample of insulation installations) are also performed, eaga reserves the right to withhold payment to installers should the installation not meet Warm Front required standards.

In those cases where the work quoted exceeds the grant limit the customer will need to pay the excess paid direct to the installer before work can commence.

Justine Greening: To ask the Secretary of State for Energy and Climate Change how many households had work undertaken for them by Warm Front contractors *(a)* in the UK and *(b)* in Wandsworth in (i) 2006, (ii) 2007, (iii) 2008 and (iv) 2009. [285192]

Mr. Kidney: The following table details the number of households assisted by Warm Front in *(a)* England and *(b)* Wandsworth borough in years 2005-06 to 2008-09 and from 1 March to 19 June in 2009-10, (the latest period for which figures are available).

Assisted households	*2005-06*	*2006-07*	*2007-08*	*2008-09*	*2009-10[1]*	*Total*
England	114,591	253,079	268,900	233,594	45,168	915,332
Wandsworth	109	237	289	325	62	1,022

[1] Up to 19 June 2009

Justine Greening: To ask the Secretary of State for Energy and Climate Change what his estimate is of the average waiting time for insulation work to be carried out under the Warm Front scheme in *(a)* 2006, *(b)* 2007, *(c)* 2008 and *(d)* 2009. [285193]

Joan Ruddock: The following table details the average waiting times for insulation measures delivered by Warm Front in years 2006-07 to 2008-09 and from 1 March to 9 May in 2009-10.(the latest period for which figures are available).

	Average days to install
2006-07	33
2007-08	28
2008-09	33
2009-10[1]	24

[1] To 9 May 2009

Jenny Willott: To ask the Secretary of State for Energy and Climate Change how many households in each region *(a)* were eligible for and *(b)* received grants under the Warm Front Scheme in each of the last five years; and if he will make a statement. [286485]

Mr. Kidney: The Department does not record how many households are eligible for a Warm Front grant in each region.

The following table details how many households in each Government office region received grants under the Warm Front scheme in each of the last five years.

	Government office region								
Scheme year	*East Midlands*	*East of England*	*Greater London*	*North East England*	*North West England*	*South East England*	*South West England*	*West Midlands*	*Yorkshire and Humber*
2004-05	20,505	14,520	13,623	15,420	47,246	19,000	16,978	27,457	33,335
2005-06	15,038	14,458	12,080	11,418	41,410	17,183	17,949	19,808	23,840
2006-08	24,110	19,901	12,766	20,683	61,536	22,046	19,424	36,453	36,160
2007-08	25,136	24,421	19,481	18,865	60,089	22,941	22,034	36,530	39,403
2008-09	22,613	25,503	16,888	13,721	51,079	22,959	21,365	30,745	28,721

WORK AND PENSIONS

Action for Employment

David T.C. Davies: To ask the Secretary of State for Work and Pensions how many training and skills contracts her Department has with A4e; what percentage of people who have attended such A4e training and skills courses have been placed into permanent employment; who supervises and inspects sites where A4e are giving such courses; and if she will make a statement. [283289]

Jim Knight: The Department currently has 47 contracts with A4e for the delivery of a range of welfare to work provision.

On those contracts where we count job outcomes, during the period 2008-09, 20 per cent. of people starting provision delivered by A4e have started work. Some customers, however, will still be on provision.

The delivery of provision is monitored by the Department and is also subject to external inspection by Ofsted in England, and Estyn in Wales. Areas for improvement identified at inspection are addressed through the Department's contract management process.

Children: Maintenance

Mr. Sanders: To ask the Secretary of State for Work and Pensions if she will estimate the number of non-resident parents paying child maintenance who are in receipt of tax credits. [281765]

Helen Goodman: I have consulted with the Child Maintenance and Enforcement Commission who have confirmed that the information requested is not available.

Departmental Data Protection

Jenny Willott: To ask the Secretary of State for Work and Pensions how many *(a)* attempts and *(b)* successful attempts were made to gain unauthorised access to each (i) database and (ii) ICT system run by her Department in each of the last five years; and if she will make a statement. [286537]

Jim Knight: It is not in the interests of the UK's national security for Departments to confirm whether they hold information about attacks against their IT systems. This would enable individuals to deduce how successful the UK is in detecting these attacks, and so assist such persons in testing the effectiveness of the UK's IT defences. This is not in the public interest.

Departmental Databases

Jenny Willott: To ask the Secretary of State for Work and Pensions (1) what categories of personal information on members of the public are contained on each database which contains such data managed by her Department and its agencies; when each category of information was first collected; and if she will make a statement; [284900]

(2) what databases managed by her Department and its agencies hold personal information on members of the public; on what date each such database became operational; and if she will make a statement. [285970]

Jim Knight: The categories of personal data relating to members of the public contained on databases administered by the Department and its agencies are set out in the Department's formal registration under the Data Protection Act, which is available for examination on the Information Commissioner's public website. Details of when these categories of information were collected, the databases which hold personal information, and the dates on which each database became operational are not available centrally, and could be obtained only at disproportionate cost.

Departmental Equal Opportunities

Mr. Sanders: To ask the Secretary of State for Work and Pensions what her Department's definition is of equality of opportunity in relation to her Department's policies; and if she will make an assessment of the impact on equality of opportunity of her Department's policies. [285206]

Jim Knight: The Department for Work and Pensions' statement of equality of opportunity is:

"The Department is committed to providing services which embrace diversity and which promote equality of opportunity. As an employer we are also committed to equality and valuing diversity within our workforce. Our goal is to ensure that these commitments, reinforced by our Values, are embedded in our day to day working practices with all our customers, colleagues and partners."

This means that our internal policies are designed to ensure equality of opportunity for our existing and prospective employees. For example, we carry out all

our permanent recruitment exercises under fair and open competition and we monitor the procedures carefully to make sure that they do not unfairly discriminate against anyone. We are a Disability Symbol user and operate the Guaranteed Interview Scheme for disabled candidates. We are a Local Employment Partnership employer.

Our statement of equality of opportunity applies to our policies and to the services we offer. We carry out equality impact assessments on new policies and services and when we make changes to existing ones. This ensures that equality of opportunity is taken into account at the earliest stage of policy and service development and that:

the Department's strategies, policies and services are free from discrimination;

due regard is given to equality (specifically disability, gender and race) in decision making and subsequent processes; and

opportunities for promoting equality are identified.

In order to consider the impact of equality of opportunity on our policies and services and to ensure the Department's diversity and equality work is showing real results and comparing well to comparative work carried by external organisations, we have also participated in external benchmarking exercises. External benchmarking also gives us the opportunity to share best diversity practise with other organisations.

Our approach to equality is set out in a variety of publications, including:

the Department for Work and Pensions: Race, Disability and Gender Equality Schemes 2008-2011

www.dwp.gov.uk/about-dwp/diversity-and-equality/dwp-equality-schemes/equality-schemes-2008-2011

the Department for Work and Pensions: Secretary of State Report on Disability Equality

www.dwp.gov.uk/resourcecentre/policy-publications.asp#social

and

the Department for Work and Pensions: Race, Disability and Gender Equality Schemes Annual Progress Report 2008-2011

www.dwp.gov.uk/about%2Ddwp/diversity%2Dand%2Dequality/dwp%2Dequality%2Dschemes/equality%2Dschemes%2D2008%2D2011/progress%2Dreports%2D2009/

Employment Schemes: Public Sector

Mr. Harper: To ask the Secretary of State for Work and Pensions if she will assess the merits of making access to work funding available to individuals working or aiming to work in the public sector; and if she will make a statement. [285902]

Jonathan Shaw *[holding answer 13 July 2009]:* It is important that individuals aiming to, or who are already working within the public sector have access to funding, such as Access to Work, in relation to their support needs. Individuals working, or about to work in the public sector have been eligible for Access to Work support since the inception of the programme in 1994.

We believe, however, it is right for public sector employers to set an example to other employers by recognising the value to them of taking responsibility for managing workplace disability adjustments. The Strategy Unit Report "Improving the Life Chances of Disabled People" published in January 2005, stated that there are strong grounds for asking employers in the wider public sector to fund workplace disability adjustments.

As a result of this, from 1 October 2006, ministerial Government Departments have funded the workplace disability adjustments required by their disabled staff out of their running costs, instead of using the Access to Work programme. Ministerial Government Departments are required to provide the same level of support for their employees that would be expected under the Access to Work programme.

Jobcentre Plus continues to provide and fund assessments, and continues to provide information and advice to disabled staff and their managers. There are no plans to remove Access to Work funding from people working in other parts of the public sector, and individuals working in these public sector organisations can still apply for Access to Work funding.

Future Jobs Fund

Tony Baldry: To ask the Secretary of State for Work and Pensions by what mechanism the Future Jobs Fund will provide jobs for young people. [284966]

Jim Knight: The Future Jobs Fund is a challenge fund into which anyone can bid. We expect most bids to be made in partnership.

Tony Baldry: To ask the Secretary of State for Work and Pensions what estimate she has made of the average level of subsidy per person funded by the Future Jobs Fund in the latest period for which figures are available. [285593]

Jim Knight: This is still an open bidding process and organisations are able to bid for up to £6,500 for every job they create. It is a rolling assessment process with more organisations bidding to the fund every day. It is up to those bidders to decide what level of funding they require to create a Future Jobs Fund job.

Future Jobs Fund: Oxfordshire

Tony Baldry: To ask the Secretary of State for Work and Pensions who in Oxfordshire will be responsible for administering and managing the Future Jobs Fund; and what estimate she has made of the proposed budget for the fund in Oxfordshire. [284965]

Jim Knight: The Future Jobs Fund will be managed centrally by the Department for Work and Pensions and every Government office in England will be able to help potential bidders to develop their bids.

As it is a competitive bidding process, we are not ring-fencing funding for any particular region or area, however greater emphasis will be given to bids from areas of high worklessness and with high populations of eligible young people.

Health and Safety Executive: Freedom of Information

Dan Rogerson: To ask the Secretary of State for Work and Pensions which requests for information received by the Health and Safety Executive under the provisions of the Freedom of Information Act 2000 in 2008 were *(a)* classified as not resolvable and *(b)* refused in full. [286131]

Jonathan Shaw: In 2008 HSE received a total of 6,516 requests for information under the provisions of the Freedom of Information Act 2000 (FOI).

1,882 of these requests were classed as 'information not held', and therefore were not resolvable by HSE. The main reasons for this are that information was held by another public authority; or the requests relate to an incident that had not been reported to HSE.

A further 966 requests for information were withheld in full. Many of these requests were in relation to ongoing investigations, where the release of such information could affect the outcome of HSE's investigation. In these cases the exemption in Section 30 of FOI is applied.

HSE does not have a mechanism to easily identify all of the specific reasons why requests were not resolved or withheld in full, except by reviewing each individual case, which could be provided only at disproportionate cost/effort.

Housing Benefit

Andrew Selous: To ask the Secretary of State for Work and Pensions what the average length of time was for a new single claim for housing benefit/local housing allowance to be processed following the cancellation of a joint claim in the latest period for which figures are available; and in how many cases it took 30 days or more to process a claim in the latest period for which figures are available. [283625]

Helen Goodman *[holding answer 2 July 2009]:* The information requested is not available.

Mr. Heald: To ask the Secretary of State for Work and Pensions how many people receive *(a)* more and *(b)* less housing benefit as a consequence of the most recent review of housing benefit localities carried out by the Rent Service. [285355]

Helen Goodman: A review of all Broad Rental Market Areas (formerly localities) was started in England by rent officers following amendments to the Rent Officers Order in January 2009. The first eight reviews were implemented on 1 July 2009 and a further two will be implemented on 1 August 2009. Other reviews, where changes are necessary for the BRMA to comply with the order, will be implemented after consultation with the appropriate local authorities. We do not yet know how many people will receive more or less housing benefit as a consequence of these reviews.

Jobcentre Plus: Manpower

Bob Spink: To ask the Secretary of State for Work and Pensions how many *(a)* directors, *(b)* senior managers, *(c)* specialist and delivery managers and *(d)* executive support and administration staff there were in each Jobcentre Plus office in each of the last five years. [280619]

Jim Knight: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your question asking how many (a) directors, (b) senior managers, (c) specialist and delivery managers and (d) executive support and administration staff there were in each Jobcentre Plus office in each of the last five years. This is something which falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

The information you have requested is not available in the form you have sought. Detailed statistics are not routinely held on staff by the descriptions you have provided; nor are staff necessarily allocated to a specific Jobcentre Plus office. Jobcentre Plus is a national organisation and delivers its services from around 850 locations around Britain. Those include Jobcentres, Contact Centres and Benefit Delivery Centres. We also operate from a small number of head office and regional office sites in different parts of the country where co-location arrangements apply.

However, the enclosed table provides a breakdown of staff, by grade, over each of the last five years. That provides an illustration of senior management, middle management and administrative posts in Jobcentre Plus. The information reflects the position at the end of March in each of the last five years.

Jobcentre Plus grade breakdown: March 2005 to March 2009

Grade	*March 2005*	*March 2006*	*March 2007*	*March 2008*	*March 2009*
SCS[1]	52	41	58	51	45
Band G	152	143	143	144	133
Band F	383	339	359	345	335
Band E	1,353	1,185	1,129	1,070	1,065
Band D	4,239	3,742	3,842	3,760	3,913
Band C	28,106	26,730	25,595	25,450	26,638
Band B	35,860	35,151	33,762	33,069	35,239
Band A	4,330	3,891	3,058	2,527	2,110
Total	74,475	71,222	67,946	66,416	69,478

[1] SCS = Senior Civil Service

Notes:

Senior Civil Service will include Directors and some senior managers; Bands G-E will include some senior managers, specialists and a number of delivery managers as well as some executive support functions; Bands D-C will also include delivery managers and executive support functions; Bands B-A comprise administrative staff.

Jobcentre Plus: Offices

Mr. Harper: To ask the Secretary of State for Work and Pensions how much Jobcentre Plus has spent on *(a)* increasing the physical capacity of jobcentres, *(b)* acquiring new office space, *(c)* extending existing office space and *(d)* converting existing office space to accommodate higher demand for Jobcentre Plus services in the last 12 months. [285150]

Jim Knight *[holding answer 8 July 2009]:* The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to respond to your question asking how much Jobcentre Plus has spent on (a) increasing the physical capacity of jobcentres, (b) acquiring new office space, (c) extending existing office space and (d) converting existing office space to accommodate higher demand for Jobcentre Plus services. This is something which falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

Jobcentre Plus are continuously reviewing existing service delivery arrangements in order to meet the challenge of the current economic climate and the planned welfare reform changes for the next two to three years. The latest reviews have taken account of the latest known information on the expected increases in business and customer volumes.

The latest review has identified that around 50% of Jobcentre Plus offices currently face a capacity challenge. This challenge will be met through a range of solutions and we are unable to provide the data to fully respond to your questions (a, b, c and d) until all of these solutions have been implemented.

In the light of the unprecedented customer demand we have secured the required funding to convert or extend our existing buildings where necessary. In addition we aim to make our services accessible to customers by providing a range of support through outreach facilities, often delivering advisory and other support on Partner's premises. We are supplementing these measures by operating extended opening hours in some locations where the need for this is identified locally. This includes some offices opening to the public on Saturday. We will only acquire new space where all other measures are insufficient.

To date estates work has been undertaken and completed on 18 of our buildings at a cost of £1m, increasing our capacity to deliver additional customer service to the public. Estates work is planned for a further 151 buildings. This work is currently at an early stage and therefore the costs are not fully known.

Jobcentre Plus: Pay

Bob Spink: To ask the Secretary of State for Work and Pensions how much was paid in bonuses to *(a)* directors, *(b)* senior managers, *(c)* specialist and delivery managers and *(d)* executive support and administration staff in Jobcentre Plus in each of the last five years. [280325]

Jim Knight: Information is only available for the most recent two years requested and is shown in the following table.

Bonuses paid in 2007-08 and 2008-09 for Jobcentre Plus

	Staff grade range	*2007-08*	*£000 2008-09*
Directors	—	81	87
Senior managers	Band F to below Director level	721	582
Specialist and Delivery Managers	Band D to E	2,802	1,977
Executive Support and Administration staff	Band A to C	19,505	12,042
Total		23,109	14,688

DWP Payroll reports and Jobcentre Plus Accounts

Local Housing Allowance

Bob Russell: To ask the Secretary of State for Work and Pensions what assessment she has made of the effectiveness of implementation of local housing allowance; what estimate she has made of the number of tenants who have not passed rent to their landlord since the new scheme was introduced; and what estimate she has made of the monetary value of that rent. [285599]

Helen Goodman: The Department has committed to completing a review of the LHA scheme over a two-year period from the commencement of its roll-out in April 2008. The aim of the review is to monitor the impact of the LHA at a national level, against the original LHA policy objectives.

The review will include an in-depth focus group study of landlords, concerning their attitudes and experiences of the LHA, including any problems with rent arrears. Further information is not available at this stage.

Members: Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for Work and Pensions (1) when she plans to reply to the letter to her predecessor of 19 May 2009 from the right hon. Member for Manchester, Gorton with regard to Mr J Woolley; [284725]

(2) when she plans to reply to the letter to her predecessor of 19 May 2009 from the right hon. Member for Manchester, Gorton with regard to Miss S See and Mr T Gordon. [284727]

Jim Knight: Replies were sent to my right hon. Friend on 13 July 2009.

Mesothelioma

Mr. Gibb: To ask the Secretary of State for Work and Pensions how many deaths in each age category were attributable to mesothelioma in each year since 1979. [285969]

Jonathan Shaw: The number of mesothelioma deaths in Great Britain in each five-year age category in each year from 1979 to 2006 (the latest year for which statistics are available) is shown in the following table.

Mesothelioma deaths by five-year age group, 1979 to 2006

	10-14	*15-19*	*20-24*	*25-29*	*30-34*	*35-39*	*40-44*	*45-49*	*50-54*	*55-59*	*60-64*	*65-69*	*70-74*	*75-79*	*80-84*	*85+*	*Total*

Health and Safety Executive British Mesothelioma Register.

New Deal Schemes

Mr. Prisk: To ask the Secretary of State for Work and Pensions how many people completed a new deal programme in each of the last three years; and what the cost of new deal programmes was in each of those years. [280241]

Jim Knight: The following table gives the available data on the number of people who left the New Deal programmes in the last three years. The figures cover only New Deal for Young People, New Deal 25-Plus and New Deal for Partners. They include people leaving from the Jobcentre Plus and the provider-delivered elements of the programme.

	Total leavers from the above stated programmes
2006	264,710
2007	314,990
2008	262,190

Notes:
Time Series—year of leaving. The calendar year of leaving New Deal. Latest data are to November 2008.
1. The totals for each year exclude those customers on New Deal for Lone Parents, Disabled People and New Deal 50 Plus due to the unavailability of the data.
2. The measure used for New Deal for Partners is Leavers (individuals) as spells are not available for this New Deal. They may or may not have completed. For all other programmes the figures shown are for those who have completed.
3. Since June 2008, New Deal for Disabled People has ceased to operate as a national programme.

Source:
Department for Work and Pensions, Information Directorate. Figures are rounded to the nearest 10.

The following table shows the costs of the contracted out element only for the three years 200-07 to 2008-09. It is not possible to split out the costs for the Jobcentre Plus element from normal Jobcentre Plus running costs.

Programme	2006-07	2007-08	£ million 2008-09
New Deals for Young People and 25 Plus	306.5	398.3	424.8
New Deal for Lone Parents	41.5	60.4	29.5
New Deal 50 Plus	0.2	0.2	0.2
New Deal for Disabled People	73	78.4	34.1
New Deal for Partners	0.6	0.4	0.3

Notes:
1. New Deal for Disabled People reductions in 2008-09 are due to the introduction of provider-led pathways in 60 per cent. of the country.
2. New Deal for Lone Parents reduction in 2008-09 are due to costs for In Work Credit being transferred from the DEL (Programme) account to Annually Managed Expenditure (AME).
3. Expenditure figures exclude administration costs as they cannot be identified since 2002-03, when ring fences were removed with agreement from HM Treasury.
4. The figures for 2008-09 are indicative pending scrutiny and sign-off by NAO.
5. The source of the above data is the DWP financial systems. Figures agree with those published in the departmental report.

Poverty

Mr. Hayes: To ask the Secretary of State for Work and Pensions how many and what proportion of people were *(a)* classified as living in poverty, *(b)* claiming jobseeker's allowance and *(c)* claiming employment and support allowance in each local authority area in each year since 2000. [285861]

Jim Knight *[holding answer 13 July 2009]:* Poverty statistics, published in the Households Below Average Income series, only allow a breakdown of the overall number and proportion of people in relative poverty at Country and Government Office Region levels or for Inner or Outer London. This means information for each local authority area is not available.

The number of JSA claimants in each local authority since 2000 is given in the document that has been placed in the Library.

Employment and Support Allowance (ESA) replaced incapacity benefit for new claims from 27 October 2008. The latest quarterly data available is November 2008, which means that a full quarter's data are not available at present. Provisional headline figures are shown in the following table. Information for each local authority area is not yet available.

Provisional working age claimants of ESA November 2008

	ESA (Thousand)
November 2008	51,000

Notes:
1. Figure relating to ESA has been thoroughly quality assured to National Statistics Standard, however it should be noted that this is a new benefit using a new data source which may not have reached steady state in terms of operational processing and retrospection. Hence ESA figures for November 2008 are provisional.
2. Figures have been rounded to the nearest hundred.

DWP Work and Pensions Longitudinal Study.

Social Security Benefits: Overpayments

Mr. Waterson: To ask the Secretary of State for Work and Pensions how many overpayments of each type of benefit were made to claimants in each year since 1997. [267319]

Helen Goodman: The Department's strategy for measuring fraud and error focuses on providing estimates of the monetary value of fraud and error and does not provide estimates of the number of payments over or underpaid over a particular time period so this is not available.

Mr. Waterson: To ask the Secretary of State for Work and Pensions what the amount of overpayments of each type of benefit was in each year since 1997. [267438]

Helen Goodman: The Department's strategy for measuring fraud and error focuses on providing estimates of the monetary value of fraud and error. Estimates of the value and the percentage of expenditure for benefits that have been measured since 1997 have been placed in the Library. I refer the hon. Member to the answer given on 11 May 2009, *Official Report*, columns 571-73W.

Unemployment

Tony Baldry: To ask the Secretary of State for Work and Pensions with reference to page 37 of Building Britain's Future (1) what criteria will be used to designate the areas of high unemployment in which 50,000 new jobs will be provided; [284957]

(2) what level of recruitment subsidies will be provided to support access to jobs by adults who have been unemployed for six months; who will administer such subsidies; and for how long such subsidies will be paid. [284958]

Jim Knight: Those areas we have defined as areas of high unemployment are those where the rate of claimant unemployment is at least 1.5 percentage points above the national average.

The recruitment subsidy is worth £1,000. Subsidised jobs have to be for a minimum of 16 hours a week and expected to last for at least six months. In England, the recruitment subsidy could also be combined with access to Train to Gain support, which is typically worth £1,500.

The recruitment subsidy is administered by Jobcentre Plus.

Unemployment: Oxfordshire

Tony Baldry: To ask the Secretary of State for Work and Pensions who in Oxfordshire will be responsible for ensuring that from 2010 every person under 25 years who has been unemployed for a year will be able to take up a guaranteed job, work experience or a training place. [284962]

Jim Knight: We expect that local authorities, partnerships and organisations will work together to create job opportunities for the young people in their area. Jobcentre Plus advisers will be responsible for ensuring that customers are given access to the full range of offers.

Unemployment: Young People

Tony Baldry: To ask the Secretary of State for Work and Pensions pursuant to the Draft Legislative Programme 2009, Cm 7564, page 37, what steps will be taken from 2010 against a person aged under 25 years who has been unemployed for a year and who fails to take up a job, work experience or a training place. [284960]

Jim Knight: From April 2010, we will require all young people aged 18 to 25 approaching the 12-month point of their claim to jobseeker's allowance to take up one of the offers included in the Young Person's Guarantee: a subsidised job, training or a place on the Community Task Force.

We know that most jobseeker's allowance customers want to get back to work, and we expect the Young Person's Guarantee to help thousands of young people into jobs. Where a customer refuses to take up the job or provision they are referred to without good reason, the existing jobseeker's allowance conditionality rules will apply and they may be subject to a benefit sanction.

Tony Baldry: To ask the Secretary of State for Work and Pensions pursuant to the Draft Legislative Programme 2009, Cm 7564, page 37, what her definition is of a guaranteed job which a person aged under 25 who has been unemployed for a year will be required to take up. [284963]

Jim Knight: The Budget spoke of a guaranteed offer, one element of which is a job. The jobs consist of 150,000 new jobs created through the Future Jobs Fund and additionally up to 100,000 existing jobs in key employment sectors. These will be offered alongside work-focused training or meaningful activity via a community task force.

Young Persons' Guarantee

Mr. Harper: To ask the Secretary of State for Work and Pensions what estimate she has made of the cost to her Department of implementing the change in the Young Persons' Guarantee from a voluntary to a mandatory programme. [285143]

Jim Knight: In his 2009 Budget statement, the Chancellor of the Exchequer announced £1.1 billion for the delivery of the young persons guarantee and future jobs fund. Work is ongoing to determine the specific costs of each initiative under mandation, but we are confident they will be delivered from within the funding.

Mr. Harper: To ask the Secretary of State for Work and Pensions what estimate her Department has made of *(a)* the number of young people aged 18 to 24 years who will reach 12 months claiming jobseeker's allowance, *(b)* the number of young people aged 18 to 24 years who will receive assistance from the Young Persons' Guarantee and *(c)* how much the Young Persons' Guarantee will cost to deliver in (i) 2009-10, (ii) 2010-11 and (iii) 2011-12. [285146]

Jim Knight: We do not forecast unemployment figures; however we will guarantee an offer for all 18 to 24-year-olds approaching 12 months on jobseeker's allowance.

The young person's guarantee is funded until 2010-11. £250 million has been allocated for 2009-10 and £843 million for 2010-11.

JUSTICE

Debt Collection

Mrs. Spelman: To ask the Secretary of State for Justice pursuant to the answer of 24 April 2009, *Official Report*, column 958W, on debt collection, what assessment HM Courts Service made of the risk of persons in debt incurring further debts by charging bailiff payments to credit cards. [286075]

Bridget Prentice: The inclusion of credit card facilities extends the range of options available for payment. Payment routes available elsewhere were considered—there is precedent for the acceptance of credit and debit cards in other areas of public services. In addition, payment by credit card is already well established in many magistrates courts and all fixed penalty offices. Bailiffs operate under well-defined behaviour standards and there are no incentives to favour credit cards over the other current methods of repayment. There are a range of routes available to any debtor who genuinely cannot afford to pay. HM Courts Service is currently evaluating the scheme of taking payments by credit and debit cards. I am awaiting the results of the evaluation.

Departmental Electronic Equipment

Jenny Willott: To ask the Secretary of State for Justice how many *(a)* photocopiers, *(b)* scanning devices and *(c)* fax machines, excluding multi-function devices, there are in his Department; how many there were in his Department and its predecessor in each of the last three years; and if he will make a statement. [286169]

Mr. Wills: As part of the Department's efforts to reduce its impact on the environment and comply with the Greening Government ICT strategy published in July 2008, a programme is underway across the MOJ headquarters to replace photocopiers and printers with multi-functional devices, which optimise the green benefits for printing and photocopying services.

The following information has been obtained from central records covering MOJ headquarters, Her Majesty's Courts Service, Tribunals Service and Office of the Public Guardian:

April 2008

193 document scanners

373 barcode scanners

April 2009

202 document scanners

378 barcode scanners.

For the National Offender Management Service (NOMS), information is as follows:

April 2007

2,309 fax machines; 476 scanners;

April 2008

2,404 fax machines; 447 scanners;

April 2009[1]

439 scanners.

[1] Fax machines purchased in April 2009 have been removed from the contract and the figure is therefore unavailable. This information could be provided only at disproportionate cost.

The other detailed information requested is not collected centrally and could only be obtained through a separate data gathering exercise which would incur disproportionate costs.

Driving under Influence: Convictions

Chris Huhne: To ask the Secretary of State for Justice (1) how many *(a)* men and *(b)* women under the age of 18 were (i) proceeded against, (ii) found guilty and (iii) sentenced to immediate custody for offences of drink driving in each year since 1997; [285786]

(2) how many *(a)* men and *(b)* women have been (i) proceeded against, (ii) found guilty of and (iii) sentenced to immediate custody for a drink-driving offence in each year since 1997. [285999]

Claire Ward: Available information held on prosecutions and resultant convictions for driving under the influence of alcohol or taking drugs in England and Wales from 1997 to 2007 (latest available) are shown in the tables.

The data provided covers both drink and drugs offences combined, as they cannot reliably be distinguished separately.

Data for 2008 will be available in the autumn of 2009.

Table 1: Proceedings at magistrates courts, findings of guilt at all courts, sentenced to immediate custody, by gender, for persons under the age of 18 years for 'driving after consuming alcohol or taking drugs', England and Wales 1997 to 2007[1,2]

Number of offences

Offence type: driving etc. after consuming alcohol or taking drugs

Under 18 years

	Male			*Female*		
	Proceeded against	*Findings of guilt*	*Immediate custody*	*Proceeded against*	*Findings of guilt*	*Immediate custody*
1997	1,729	1,571	126	99	92	0
1998	1,637	1,494	112	107	95	2

[1] It is known that for some police force areas the reporting of court proceedings, in particular those relating to summary motoring offences, may be less than complete.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Drugs: Convictions

Chris Huhne: To ask the Secretary of State for Justice how many people have been convicted of offences relating to the *(a)* possession and *(b)* supply of (i) cannabis and (ii) ecstasy in each year since 1997; and how many such people received (A) a custodial sentence and (B) the maximum sentence in each such year. [286044]

Claire Ward: The number of defendants found guilty at all courts for the possession and supply of cannabis and ecstasy (methylenedioxymethamphetamine—MDMA), those sentenced to a custodial sentence and those receiving the maximum sentence, in England and Wales, from 1997 to 2007 (latest available) is shown in the following tables.

The statistics given relate to persons for whom these offences were the principal offences for which they were dealt with. For example, when a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

Data for 2008 will be available in the autumn 2009.

[1] These data are on the principal offence basis.
[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that this data has been extracted from large administrative data systems generated by the courts and police forces As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.
[3] Staffordshire Police Force were only able to submit sample data for parsons proceeded against and convicted in the magistrates' courts for the year 2000. Although sufficient to estimate higher orders of data, these data are not robust enough at a detailed level and have been excluded from the table.
[4] Cannabis was reclassified in January 2004 to a class C drug. Guidelines advised that offenders over the age of 18 could be given, for possession only, a "cannabis warning" which does not constitute a criminal record.
[5] Following reclassification in January 2004 to a class C drug, statutory maximum penalty for possession of cannabis was downgraded from five to two years. The offenders shown here were sentenced to two years imprisonment although it is not known what maximum would have applied to these offenders on the day their offences took place.

Freedom of Information

Dan Rogerson: To ask the Secretary of State for Justice (1) which requests for information received by his Department under the provisions of the Freedom of Information Act 2000 in 2008 were *(a)* classified as not resolvable and *(b)* refused in full; [286130]

(2) in respect of which requests for information received by his Department in 2008 under the provisions of the Freedom of Information Act 2000 it has received permission to extend the deadline for a response by more than 40 days; and what the reason for the request for an extension was in each case. [286160]

Mr. Wills: The Ministry of Justice publishes quarterly and annual statistics on the performance of central Government in dealing with requests made under the Freedom of Information Act.

In 2008, the Ministry of Justice received 2,492 requests under the Act. Of these, 529 sought information which was not held by the Department, and in respect of a further 426, the requester was provided with advice and assistance because further information was needed in order to identify the information being sought. The remaining 1,537 requests were "resolvable", in that it was possible for the Department to make a substantive decision on whether to release the information being requested, 393 of these were refused in full.

Where a qualified exemption applies to information sought, the Freedom of Information Act allows public bodies additional time to consider whether the balance of the public interest falls in favour of releasing or withholding that information. Of those requests initially received by the Ministry of Justice during 2008 which were answered by the time the annual statistics were collected, the deadline for response was extended for more than 40 working days on 45 occasions.

The 2008 statistics can be found at the following address:

http://www.justice.gov.uk/publications/docs/foi-statistics-report-2008.pdf

HM Prison Service: Secondment

Mr. Drew: To ask the Secretary of State for Justice how many staff of his Department have been seconded to HM Prison Service for the purposes of its bid for the next round of market testing. [286583]

Maria Eagle: 21 staff have been redeployed within the National Offender Management Service (NOMS) in response to the announcement made by my right hon. Friend the Secretary of State for Justice and Lord Chancellor on 27 April 2009.

Interim Possession Order

Mrs. Spelman: To ask the Secretary of State for Justice how long on average elapsed between an application for and a ruling on an Interim Possession Order in the latest period for which figures are available. [285776]

Bridget Prentice: The main administrative system in the county courts of England and Wales (CaseMan) recorded that in 2008 there were 299 applications for an Interim Possession Order. CaseMan does not identify which orders following these applications were made for interim possession, were rulings on these, or were other types of orders. However, the first order will often be for interim possession and the second a ruling on this. Of the 128 cases that involved a second order being made, the average (mean) time from application to the second possession order was 45 days, while the median time was 29 days.

Local Government Association

Mrs. Spelman: To ask the Secretary of State for Justice if he will use his powers under the Freedom of Information Act 2000 to designate the Local Government Association as a public authority for the purposes of the Act. [285775]

Mr. Wills: In the Prime Minister's statement on Constitutional Renewal on 10 June 2009, he noted our plans to look at broadening the application of the Freedom of Information Act.

We have considered carefully the responses to the public consultation on designating additional public authorities under the Act through a section 5 order and will publish our full response to the consultation by the summer.

Prisoners

Chris Huhne: To ask the Secretary of State for Justice how many *(a)* male and *(b)* female prisoners aged (i) between 60 and 65 years, (ii) between 66 and 70 years, (iii) between 71 and 75 years, (iv) between 76 and 80 years and (v) over 80 years there were in April of each year since 1997. [285789]

Maria Eagle: The following table shows the information requested for prison population in England and Wales as at 30 June in each year from 2002 to 2008. The data to provide figures for earlier years are not available centrally.

	Age bands				
	60-65	*66-70*	*71-75*	*76-80*	*over 80*
Female					
2002	17	4	2	0	0
2003	22	7	4	0	1
2004	13	6	3	1	3
2005	21	4	1	1	1
2006	38	7	2	2	0
2007	44	9	4	1	0
2008	48	11	4	1	1
Male					
2002	910	370	151	40	17
2003	922	373	170	46	19
2004	934	431	184	62	19
2005	1,030	435	204	62	17
2006	1,090	478	241	77	19
2007	1,269	549	236	78	23
2008	1,341	607	254	102	25

These figures have been drawn from administrative IT systems which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Prisons: Drugs

Mr. Pelling: To ask the Secretary of State for Justice (1) how many prisons operated a policy of five per cent. random mandatory drug testing in each financial year from 2002-03 to 2008-09; how many *(a)* random and *(b)* non-random tests were performed in such prisons in each such year; how many such tests were positive for (i) cannabis, (ii) opiates (excluding methadone), (iii) non-prescribed methadone and (iv) prescribed methadone; [285886]

(2) how many *(a)* random and *(b)* non-random mandatory drug tests were performed in each prison in each financial year from 2002-03 to 2008-09; and how many such tests were positive for (i) cannabis, (ii) opiates (excluding methadone), (iii) non-prescribed methadone and (iv) prescribed methadone in each prison in each such year. [285887]

Maria Eagle: The data requested are not readily available. I will write to the hon. Member once the information is available and place a copy in the Library of the House.

Probation

Mr. Lancaster: To ask the Secretary of State for Justice what the average ratio of offenders to Probation Service staff in the *(a)* Thames Valley and *(b)* Milton Keynes probation area was in each of the last five years. [283830]

Maria Eagle: The information requested is shown in the following tables.

	Staff: Offenders	
	(a) All Thames Valley probation area staff	*(b) All Milton Keynes probation office staff*
2005	1:8	1:11

	Staff: Offenders	
	(a) All Thames Valley probation area staff	(b) All Milton Keynes probation office staff
2006	1:9	1:10
2007	1:10	1:11
2008	1:9	1:14
2009	1:8	1:12

	Offender Managers: Offenders	
	(a) All Thames Valley probation area offender managers	(b) All Milton Keynes probation office offender managers
2005	1:14	1:17
2006	1:17	1:15
2007	1:21	1:17
2008	1:23	1:19
2009	1:22	1:17

This information has been provided by Thames Valley Probation Area. The number of offenders includes some in custody who would be subject to probation supervision on release.

Chris Huhne: To ask the Secretary of State for Justice what the *(a)* community and *(b)* custody caseload of the Probation Service has been in each year since 1997. [285821]

Maria Eagle: The total community and pre-release custodial offender caseload for England and Wales as at 31 December since 2002 was as follows:

	2002	2003	2004	2005	2006	2007	2008
Supervised in community							
All court orders	116,125	120,734	128,217	137,377	146,532	150,179	146,725
Post-release supervision	22,000	21,106	22,739	25,603	26,096	28,721	32,220
Supervised in custody	55,732	59,791	61,328	64,682	65,378	66,381	66,864

Note:
A new system for collecting probation workload data was introduced from 1 January 2002, making comparisons with earlier years unreliable (and so data prior to 2002 are not provided here).

The 2008 figures are provisional and were published on 30 April in the Ministry of Justice statistics bulletin Probation statistics quarterly brief October to December 2008, England and Wales. Copies can be found in the Libraries of the House. The final 2008 data will be published in Offender Management Caseload Statistics 2008 on 31 July.

These figures have been drawn from administrative IT systems which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Probation: Essex

Bob Spink: To ask the Secretary of State for Justice what funding his Department allocated to the Essex Probation Service in each of the last five years. [285729]

Maria Eagle: The grant allocation to Essex probation area for the last five years is as follows:

	£
2008-09	20,147,200
2007-08	19,091,300
2006-07	18,322,200
2005-06	16,923,000
2004-05	15,494,300

Probation: Reoffenders

Mr. Spring: To ask the Secretary of State for Justice how many high-risk offenders committed further serious crimes in *(a)* the East of England and *(b)* Suffolk while under the supervision of the Probation Service in each of the last three years. [286401]

Maria Eagle: The number of further serious crimes committed by high risk offenders in the East of England and more specifically in Suffolk, by offenders under the supervision of Probation areas in the region are as follows:

	2006-07	2007-08	2008-09
East of England	10	3	3
Suffolk	0	0	0

These figures relate to those offenders who were assessed as at high or very high risk of causing serious harm through the Offender Assessment System who were subsequently convicted of a serious further offence, committed while the offender was under probation supervision in the community. These figures include offences of wounding with intent to cause grievous bodily harm (section 18), although this offence was removed from the criteria of a serious further offence on 1 December 2008.

Probation: Staffordshire

Mr. Cash: To ask the Secretary of State for Justice (1) what assessment he has made of the likely effects on levels of co-operation between the Probation Service and *(a)* the police, *(b)* HM Courts Service and *(c)* the Crown Prosecution Service in the Staffordshire Probation Area of the proposed merger between Staffordshire Probation Service and West Midlands Probation Service; [285657]

(2) what assessment he has made of the likely effects on the level of management at which decisions relating to the operation of the Probation Service in Staffordshire are taken of the proposed merger between Staffordshire Probation Service and West Midlands Probation Service; [285658]

(3) what estimate he has made of the likely change in *(a)* administrative and *(b)* staffing costs of the probation service in Staffordshire consequent on the proposed merger between Staffordshire Probation Service and West Midlands Probation Service. [285659]

Maria Eagle: My right hon. Friend the Secretary of State for Justice is aware of the proposed merger of the Staffordshire and West Midlands probation areas. A joint application is anticipated in July for trust status, although this may be delayed to later in the year.

Any merger will require the continuation of very strong links with other criminal justice agencies, including the police, HM Courts Service and the Crown Prosecution Service. This will include continued active participation in the Staffordshire Local Criminal Justice Board public protection arrangements. The present chief probation officer for Staffordshire has met all the relevant agencies and explained the importance of local delivery and co-working in any trust arrangement. The proposed merger was discussed at the Staffordshire Criminal Justice Board meeting on the 28 April 2009 chaired by the then chief constable of Staffordshire Chris Sims. In a subsequent letter he said that members understood the merger and indicated strong support for the proposal based on local delivery units with devolved responsibilities. The Secretary of State will continue to require coterminus arrangements to be maintained with Staffordshire criminal justice agencies, should a merger of Staffordshire and West Midlands probation areas be approved.

The Secretary of State in approving any trust application needs to be assured that management is properly devolved to the level of local delivery units. In the case of Staffordshire these units will be aligned will Staffordshire county and Stoke on Trent. The Secretary of State would expect to see a trust appoint to such management units staff at assistant chief officer level who are both experienced and competent to oversee performance and partnership working. In addition there will be a single chief executive and chair of joint Staffordshire and West Midlands Board who will be responsible for ensuring performance across the trust and effective local partnership in all the local delivery units and to ensure the efficient and effective stewardship of public funds, working under a contract to the director of offender management for the West Midlands region.

The Secretary of State has made it clear in statements and answers to previous questions that any proposals on probation trust arrangements should come from local areas and not be provided either regionally or nationally. Individual probation boards, including Staffordshire, would have to consider the merits of merger based on business cases that would address both administrative and staffing costs.

As the Secretary of State has yet to receive an application for the trust status by the combined area it is not possible to make a detailed estimate of changes to both administrative and staffing costs. However, any such proposal would have to demonstrate that front line delivery of probation service duties and responsibilities to protect the public and reduce re-offending will be maintained whilst overheads, administration and management costs would be reviewed. No budgets have been allocated to Staffordshire or West Midlands probation areas for the period beyond March 2010.

Remand in Custody: Ethnic Groups

Mr. Mullin: To ask the Secretary of State for Justice what steps he is taking to reduce the proportion of those receiving a custodial remand who are black boys; and if he will make a statement. [285660]

Maria Eagle: In addition to conducting two studies of its own to map the level of young people from an ethnic minority background within the youth justice system and their particular needs, the Youth Justice Board is supporting a study funded by the Economic and Social Research Council and the Equality and Human Rights Commission to consider evidence relating to the representation of young people from an ethnic minority background within the youth justice system. This research will inform the work the Youth Justice Board and partner organisations are engaged in to address the needs of black and other ethnic minority young people.

Remand in Custody: Young People

Mr. Mullin: To ask the Secretary of State for Justice (1) what steps his Department is taking to reduce the number of people under the age of 18 years who are remanded in custody; and if he will make a statement; [285661]

(2) if he will commission research into the reasons for the increase in the number of people under the age of 18 years of age remanded in custody since 2000; and if he will make a statement. [285662]

Maria Eagle: Figures provided by the Youth Justice Board indicate that the number of young people under 18 remanded in custody or to local authority secure care has fallen significantly over the last few years. Since the peak year of 2003-04, court-ordered secure remands have fallen by 40 per cent. and remands in custody by 21 per cent.

In each particular case it is for the court to decide, in the light of all the circumstances, whether to grant bail, to remand the young person to the care of a local authority or, if the young person is aged 17, to remand him or her in custody. (Some boys aged 15 and 16 may also be remanded in custody.)

In the Youth Crime Action Plan, we indicated our intention to strengthen the response to youth crime at a local level, by supporting local authorities to provide earlier interventions and so reduce the need for custodial places. Youth Offending Teams have a range of non-secure remand options. These include remand fostering; bail support and curfew schemes; and the Intensive Supervision and Surveillance Programme, which includes electronic monitoring.

Mr. Mullin: To ask the Secretary of State for Justice if he will commission research into the reasons for the reduction in the use of non-secure remand to local authority accommodation for those under the age of 18 years of age since 2000; and if he will make a statement. [285663]

Maria Eagle: Figures provided by the Youth Justice Board indicate that the peak year for remands of under-18s in the period in question was 2004-05. Between then

and 2007-08, the total figure for remands of all kinds—secure and non-secure—fell by 33 per cent. Non-secure remands to local authority care fell by 36 per cent. The Youth Justice Board is monitoring these trends and is exploring ways of further incentivising local authorities to provide alternatives to custody.

Reoffenders

Mr. Garnier: To ask the Secretary of State for Justice how many offences were committed by offenders recalled from release on licence but not yet returned to custody in each of the last 12 years; and what offences were committed in such circumstances in each such year. [286276]

Maria Eagle: The number of offences committed by offenders who have been recalled to prison and who have yet to be apprehended is not recorded centrally. To provide this information would require a manual interrogation of individual files and this would incur disproportionate cost.

Between 1 January 1999 and 30 June 2008, 81,743 offenders were recalled to custody.

Sentencing

Chris Huhne: To ask the Secretary of State for Justice how many and what percentage of people convicted of selling tobacco to a minor received *(a)* a fine, *(b)* a community sentence, *(c)* a custodial sentence and *(d)* an alternative punishment in each year since 1997; and what the (i) average, (ii) smallest and (iii) largest fine was in each such year. [285763]

Claire Ward: The available information is shown in the following table. Data for 2008 will not be available until "Sentencing Statistics 2008" is published later in the year.

Offenders sentenced and disposals for selling tobacco to a minor and the average maximum and minimum fine, 1997 to 2007

	1997	1998	1999	2000	2001	2002	2003	2004	2005	2006	2007
Fine (number)	90	115	90	113	74	67	82	50	56	51	49
Fine (percentage)	80.4	89.1	88.2	84.3	82.2	87.0	88.2	87.7	81.2	89.5	98.0

Average (£)	238	226	237	349	301	283	322	274	328	330	324

Notes:
1. These figures have been drawn from administrative data systems.
2. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system.

Source:
OMS Analytical Services, Ministry of Justice.

The table shows the total number of persons sentenced to a fine, community sentence, custodial sentence or an alternative punishment for each year since 1997. The data also show the average maximum and minimum fine imposed on those sentenced for selling tobacco to a minor in each year. These data are presented on the principal offence basis. Where an offender has been sentenced for more than one offence, the principal offence is the one for which the heaviest sentence was imposed. Where the same sentence has been imposed for two or more offences, the principal offence is the one for which the statutory maximum is most severe.

FOREIGN AND COMMONWEALTH OFFICE

Belarus: Human Rights

Mrs. Curtis-Thomas: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 23 March 2009, *Official Report*, columns 20-21W, on Belarus: human rights, what reports he has received of the death sentence passed in Belarus on 29 June 2009; and if he will make a statement. [285359]

Chris Bryant: The EU raised this case with the Belarusian authorities on 8 July 2009. We are disappointed that the death penalty was imposed following earlier efforts by

the Belarusian authorities to reduce its use. Belarus is the last country in Europe to use the death penalty; its abolition would be an important step in improving EU—Belarus relations. The Parliamentary Assembly of the Council of Europe passed a resolution on 23 June 2009 supporting the lifting of the suspension of Belarus' special guest status after a moratorium on the execution of death penalties.

Colombia: Overseas Aid

Mr. Watson: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the Written Ministerial Statement of 30 March 2009, *Official Report*, columns 40-41WS, on Colombia, on what projects the £250,000 which has been allocated to tackle impunity will be spent; and how much will be allocated to each such project. [286414]

Chris Bryant: Tackling impunity in Colombia is a priority for our embassy in Bogota, and over £250,000 will be spent over the next two years on the following projects:

- investigating forced disappearances (£13,000)
- identifying victims of forced disappearance (£39,000)
- strengthening access to justice for internally displaced persons (£21,000)
- Impunity in the Context of Conflict project (£60,000)
- a UN Tackling Impunity project (£210,000)
- adjustment proposals for the new Accusatorial Criminal Justice System (£29,000)

Convention for the Protection of All Persons from Enforced Disappearance

Tony Baldry: To ask the Secretary of State for Foreign and Commonwealth Affairs what progress the Government have made in their assessment of whether to ratify the International Convention for the Protection of All Persons from Enforced Disappearance. [283965]

Mr. Ivan Lewis: The work being undertaken within Government to examine the potential impact of the Convention against Enforced Disappearance on the law of the UK is ongoing.

This includes analysing the extent to which common law provisions may need to be replicated in statute law, the creation of one or more new criminal offences, and whether the UK required any reservations or declarations upon ratification. It is now clear that primary legislation would be necessary to permit ratification if the Government decide to pursue this course of action. This would be introduced when parliamentary time allowed.

Council of Ministers

Mr. Hayes: To ask the Secretary of State for Foreign and Commonwealth Affairs on how many occasions the Government have *(a)* voted against and *(b)* abstained on a proposal at the Council of Ministers for which a qualified majority has been obtained. [277097]

Chris Bryant: The Council of the European Union publicises these figures on their website. These can be found at:

http://www.consilium.europa.eu/showPage.aspx?id=551&lang=EN

The figures for 2008 are eight abstentions and zero votes against. The same report shows that 270 legislative acts were adopted in 2008.

Departmental Accountancy

Steve Webb: To ask the Secretary of State for Foreign and Commonwealth Affairs when he expects to publish his Department's resource accounts for 2008-09. [287334]

Chris Bryant: The Foreign and Commonwealth Office Resource Accounts 2008-09 were laid before Parliament and published as a combined document with the Departmental Report 2009 on 30 June 2009.

Diplomatic Service: Finance

Lynne Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs what the cost to the public purse of his Department's consular services was in each of the last 12 years. [286156]

Chris Bryant: Consular Services are funded from fees and not from general taxation. Our aim is to ensure that we cover our costs from fee income. The exception is capital funds which are funded from tax. However the yearly cost of capital, that is depreciation and interest, is covered by fee income.

Cost of assistance to UK citizens abroad is covered by a levy of approx. £15 on all passports sold in the UK by the Identity and Passport Service and overseas by the Foreign and Commonwealth Office (FCO). For around £1.50 a year, every British passport holder has at their disposal a global network of professionals who often provide the first line of support when things go wrong.

Each crisis response, as agreed by HM Treasury (HMT), which costs greater than £150,000, is funded from the Emergency Disaster Reserve (EDR). The EDR funds are made up of a small fee levied on the passport price of approximately £1. These funds are held by the Treasury. The FCO has to make a substantive case to HMT to access these funds.

For a fee we also issue passports overseas, as well as emergency and temporary passports.

We charge for legalisation services to business and the public in the UK and overseas.

There are another 60 notarial services that we provide overseas. Examples include birth and death registrations.

The cost of Consular Services for the last eight years is shown as follows. The cost of collecting data beyond this period would be prohibitive, as it is not available on our current systems.

This excludes the cost of crisis activity which is funded directly from the Treasury:

Period	*Cost (£ million)*
2008-09	126.4
2007-08	123.3
2006-07	104.1
2005-06	85.1
2004-05	93.3
2003-04	69.9

Period	Cost (£ million)
2002-03	60.6
2001-02	56.3

Consular is continually looking at ways to bring costs into closer alignment with income by delivering value-for money services, promoting efficiencies and reviewing its fees.

Eritrea: Prisoners

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to the Eritrean Government on arrests of UK nationals in Eritrea; and how many such people have been arrested there in the last five years. [286456]

Mr. Ivan Lewis: From our consular records we are aware of four British nationals who have been arrested or detained in Eritrea since 2004.

In one case we were informed of the detention only after the individual had been released. In the other three cases we contacted the authorities to clarify the situation and requested consular access.

Of those three cases, two were subsequently released. We have been unable to confirm the release of the other individual, as the Eritrean authorities do not acknowledge the UK's interest in the person concerned (a dual British-Eritrean national resident in Eritrea) as a British national, and will not discuss the case with consular staff, despite representations.

India

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will take steps to assist the Indian Government in implementing witness protection programmes for Christians in Orissa. [285353]

Mr. Ivan Lewis: We have no plans to discuss with the Indian Government the protection of Christians called as witnesses in trials relating to the recent violence in Orissa.

The EU maintains a constructive dialogue with the Indian authorities about human rights and minority rights issues, which includes the situation in Orissa and its neighbouring states following the violence in 2008. Officials from our high commission have an active part in these discussions.

India: Christianity

Lorely Burt: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations to the government of India to urge that Mr Manoj Pradhan, Member of the Legislative Assembly in Orissa, is brought to trial on the charges which have been made against him. [286914]

Mr. Ivan Lewis: Since this is a legal matter for the relevant Indian authorities we have no plans to raise this bilaterally with the Indian Government.

India: Females

Lembit Öpik: To ask the Secretary of State for Foreign and Commonwealth Affairs whether his Department has had discussions with the Indian government on sexual violence against Dalit women in the last 12 months; and if he will make a statement. [285343]

Mr. Ivan Lewis: The Foreign and Commonwealth Office have not discussed sexual violence against Dalit women directly with the Indian Government in the last 12 months. However, UK officials in New Delhi have actively participated in the ongoing EU dialogue with the Indian authorities on minority rights, including Dalit related issues.

International Trade

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the UK's business competitiveness in international markets in each of the last three years; and against which competitors each assessment was made. [284023]

Chris Bryant *[holding answer 3 July 2009]:* I refer the hon. Member to the answer given by my hon. Friend the Minister of State for Department for Business, Innovation and Skills, on 13 July 2009, *Official Report*, column 190-91W.

Israel: Egypt

Mr. Andrew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to the Government of *(a)* Israel and *(b)* Egypt on the transport of goods into Gaza through crossing points. [286842]

Mr. Ivan Lewis: The UK is extremely concerned with the current humanitarian situation in Gaza. It is vital that aid reaches the people in who need it. We will continue to press the Israeli Government into easing border restrictions and ensuring there is better humanitarian access into the area. My right hon. Friend the Foreign Secretary made this clear in his meeting with the Israeli Defence Minister—Ehud Barak on 6 July 2009 and also in his conversation with Israeli Foreign Minister—Avigdor Lieberman on 30 June 2009.

My predecessor, my hon. Friend the Member for Harlow (Bill Rammell), raised the issue of access through the Rafah crossing for humanitarian aid providers with the Egyptian Government when he was in Egypt on 21 May 2009. The Egyptian Government have told us that all aid to Gaza from Egypt should be channelled through the Egyptian Red Crescent.

Kenya

Dr. Cable: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will instigate a public inquiry into the conduct of the British colonial administration in Kenya during the 1950s emergency in that country; what recent representations his Department has received on the treatment of Kenyans by the British colonial administration in this period from *(a)* (i) Governments and (ii) citizens of Kenya and *(b)* others; and if he will make a statement. [286846]

Mr. Ivan Lewis: There is no public inquiry planned into the conduct of the British colonial administration in Kenya during the 1950s.

We are aware that a group of Mau Mau veterans, backed by the Kenya Human Rights Commission, plan to sue the Government for alleged human rights abuses carried out by the Kenyan colonial administration during the emergency period. Our high commissioner in Nairobi met their representatives before they travelled to London last month and noted their right to take their case to the courts. They have also written to my right hon. Friend the Prime Minister on this issue.

Nuclear Weapons

Mr. Dai Davies: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the implications for his Department's policies on nuclear non-proliferation of the recent agreement between Russian President Medvedev and US President Obama on nuclear arms reduction. [286718]

Mr. Ivan Lewis: We welcome the 'joint understanding' by Presidents Obama and Medvedev on 6 July 2009 to reduce the US and Russian nuclear arsenals to below 1,700 warheads each and their commitment to co-operate more closely on non-proliferation.

A reduction in the size of US and Russian arsenals is one of the conditions necessary for moving towards a world free from nuclear weapons. The UK will continue to work towards this long-term goal and the strengthening of all three pillars of the nuclear non-proliferation regime, while tackling the issue of nuclear security.

Sri Lanka: India

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs what his Department's policy is on anti-religious conversion laws in *(a)* Sri Lanka and *(b)* India. [285354]

Mr. Ivan Lewis: We continue to monitor religious freedom in India and Sri Lanka. A wide range of issues including religious freedom were raised at the last round of the EU-India Human Rights Dialogue which took place in New Delhi on 27 February 2009. In addition the Government work bilaterally with the Government of India in supporting efforts to tackle human rights issues. We regularly raise a wide range of human rights issues with the Sri Lankan Government including any legislation that reduces religious freedoms protected by international human rights law. We are aware that the draft "Forcible Conversions Bill", relating to religious freedoms Sri Lanka, is currently awaiting further discussion in the Sri Lankan Parliament. The EU expressed its concern at the draft Bill in a statement on 23 February 2009.

Sri Lanka: Politics and Government

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs what visits have been made to Tamil refugee camps in Sri Lanka by representatives of his Department in the last 12 months; and what recent representations he has made to the government of Sri Lanka on the operation of those camps. [286764]

Mr. Ivan Lewis *[holding answer 14 July 2009]:* Representatives from our high commission in Colombo regularly visit the camps for internally-displaced persons in northern Sri Lanka, most recently on 16 to 18 June 2009. We take every available opportunity to urge the Sri Lankan Government to ensure the camps meet international standards. We continue to urge the Government of Sri Lanka to work in partnership with the UN, the International Committee of the Red Cross and other humanitarian agencies to address the ongoing needs of internally displaced persons and to ensure they are able to return to their homes as soon as possible.

CABINET OFFICE

Eating Disorders: Death

Lembit Öpik: To ask the Minister for the Cabinet Office how many deaths resulting from an eating disorder were recorded in *(a)* 2004, *(b)* 2005, *(c)* 2006, *(d)* 2007 and *(e)* 2008; and if she will make a statement. [286696]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician, I have been asked to reply to your recent question asking how many deaths resulting from an eating disorder were recorded in (a) 2004, (b) 2005, (c) 2006, (d) 2007 and (e) 2008. (286696)

The table attached provides the number of deaths where an eating disorder was the underlying cause of death, in England and Wales, from 2004 to 2008.

It is likely that these figures underestimate the actual number of deaths where an eating disorder was involved. This is because deaths registered after a coroner's inquest usually state the immediate physical condition which caused death as the underlying cause, and not any mental or behavioural disorder which may have led to that condition.

Table 1: Number of deaths where an eating disorder was the underlying cause of death,[1] England and Wales,[2] 2004-08[3,4]

	Persons
	Deaths
2004	16
2005	16
2006	21
2007	17
2008	24

[1] Cause of death was defined using the International Classification of Diseases, Tenth Revision (ICD-10) code F50 (Eating disorders).
[2] Figures for England and Wales include deaths of non-residents.
[3] Figures are for deaths registered in each calendar year.
[4] Figures for deaths registered in 2008 are provisional.

Employment

Mr. Clappison: To ask the Minister for the Cabinet Office what proportion of the working age population in employment in the UK consisted of *(a)* UK nationals, *(b)* UK born people, *(c)* non-UK nationals, *(d)* non-UK EU nationals and *(e)* non-EU nationals in (i) each year since 1992 and (ii) the last four quarters for which figures are available. [286460]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician, I have been asked to reply to your Parliamentary Question asking what proportion of the working age population in employment in the UK consisted of (a) UK nationals, (b) UK born people, (c) non-UK nationals, (d) non-UK EU nationals and (e) non-EU nationals in (i) each year since 1992 and (ii) the last four quarters for which figures are available. (286460)

The available information requested is shown in the attached table. The estimates are derived from the Labour Force Survey (LFS). As with any sample survey, estimates from the LFS are subject to a margin of uncertainty.

The figures in the table are derived from the LFS microdata which are weighted using the official population estimates published in autumn 2007. They are not entirely consistent with the figures published in the monthly Labour Market Statistics Statistical Bulletin, or the migrant worker figures published every quarter, which are weighted using more up-to-date population estimates.

Proportion of working age[1] population in employment by nationality and country of birth. Three month periods ending March 1995 to 2008; three month periods ending June, September, December and March, 2008 to 2009. United Kingdom, not seasonally adjusted

Percentage

	UK nationals	UK born	Non-UK nationals	Non-UK EU nationals[2]	Non-EU nationals
1995 Q1	97	93	3	2	2
1996 Q1	97	93	3	2	2
1997 Q1	96	93	3	2	2
1998 Q1	96	92	4	2	2
1999 Q1	96	92	4	2	2
2000 Q1	96	92	4	2	2
2001 Q1	96	92	4	2	3
2002 Q1	95	91	5	2	3
2003 Q1	95	91	5	2	3
2004 Q1	95	91	5	2	3
2005 Q1	94	90	6	2	4
2006 Q1	94	89	6	3	4
2007 Q1	93	88	7	3	4
2008 Q1	92	87	8	4	4
2008 Q2	92	87	8	4	4
2008 Q3	92	87	8	4	4
2008 Q4	92	87	8	4	5
2009 Q1	92	87	8	4	4

[1] Men aged 16-94 and women aged 16-59.
[2] The EU comprises Austria, Belgium, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Luxembourg, Netherlands, Portugal, Spain and Sweden. The A8 (Czech Republic Estonia, Hungary, Latvia, Lithuania, Poland, Slovakia and Slovenia) joined the EU on 1 May 2004 and are included from 2005 Q1 onwards. Bulgaria and Romania joined the EU on 1 January 2007 and are included from 2007 Q1 onwards.

Note:
The above estimates exclude people in most types of communal establishment (eg hotels, boarding houses, hostels mobile home sites etc.).

Source:
Labour Force Survey

Employment: North East

Mr. Hepburn: To ask the Minister for the Cabinet Office (1) how many people in *(a)* Jarrow constituency, *(b)* South Tyneside and *(c)* the North East have claimed jobseeker's allowance in each year since 1997; [286607]

(2) how many people have been unemployed for *(a)* up to six months, *(b)* between six and 12 months and *(c)* 12 months and over in (i) Jarrow constituency, (ii) South Tyneside and (iii) the North East in each year since 1997; [286340]

(3) how many people were in *(a)* part-time and *(b)* temporary work in (i) Jarrow constituency, (ii) South Tyneside and (iii) the North East in each year since 1997; [286341]

(4) how many people were self-employed in *(a)* Jarrow constituency, *(b)* South Tyneside and *(c)* the North East in each year since 1997. [286342]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician, I have been asked to reply to your Parliamentary Questions asking how may people have claimed jobseeker's allowance in (a) Jarrow constituency (b) South Tyneside and (c) the North East in each year since 1997; how many people have been unemployed for (a) up to six months, (b) between six and 12 months and (c) 12 months and over in (i) Jarrow constituency, (ii) South Tyneside and (iii) the Norm East in each year since 1997; how many people have been in (a) part-time and (b) temporary work in (i) Jarrow constituency, (ii) South Tyneside and (iii) the North East in each year since 1997; and how many people have been self-employed in (a) Jarrow constituency, (b) South Tyneside and (c) the North East in each year since 1997.(286607,286340,286341,286342)

The Office for National Statistics (ONS) compiles labour market statistics for local areas from the Annual Population Survey (APS) and its predecessor the Annual Labour Force Survey (LFS). The number of people claiming Jobseeker's Allowance is compiled for Jobcentre Plus administrative data.

Table 1 shows the number of people claiming Jobseeker's Allowance resident in the requested geographies for June of each year since 1997. The latest data for May 2009 has also been provided.

Table 2 shows the number of people unemployed by the duration of unemployment resident in the North East. Estimates for Jarrow parliamentary constituency and South Tyneside are not available. Estimates are also not available for the 12 month period ending February 1998.

Table 3 shows the number of people in part-time and temporary work resident in the requested geographies. Estimates of temporary workers for the Jarrow parliamentary constituency are not available. Estimates of temporary workers are also not available for the 12 month period ending February 1998.

Table 4 shows the number of self-employed people resident in the requested geographies in each year.

National and local area estimates for many labour market statistics, including employment and unemployment are available from the NOMIS website at:

http://www.nomisweb.co.uk.

[1] Coefficients of Variation have been calculated for the latest period as an indication of the quality of the estimates. See Guide to Quality below.

Guide to Quality:
The Coefficient of Variation (CV) indicates the quality of an estimate, the smaller the CV value the higher the quality. The true value is likely to lie within +/- twice the CV—for example, for an estimate of 200 with a CV of 5% we would expect the population total to be within the range 180-220.

Key Coefficient of Variation (CV)(%) Statistical Robustness
* 0 = CV≤ 5 Estimates are considered precise
** 5 = CV≤ 10 Estimates are considered reasonably precise
*** 10 = CV≤ 20 Estimates are considered acceptable
**** CV 20 Estimates are considered too unreliable for practical purposes

It should be noted that the above estimates exclude people in most types of communal establishment (e.g. hotels, boarding houses, hostels, mobile home sites etc.)

[1] Coefficients of Variation have been calculated for the latest period as an indication of the quality of the estimates. See Guide to Quality below.

Guide to Quality:
The Coefficient of Variation (CV) indicates the quality of an estimate, the smaller the CV value the higher the quality. The true value is likely to lie within +/- twice the CV—for example, for an estimate of 200 with a CV of 5% we would expect the population total to be within the range 180-220.

Key Coefficient of Variation (CV)(%) Statistical Robustness
* 0 = CV≤ 5 Estimates are considered precise
** 5 = CV≤ 10 Estimates are considered reasonably precise
*** 10 = CV≤ 20 Estimates are considered acceptable
**** CV 20 Estimates are considered too unreliable for practical purposes

It should be noted that the above estimates exclude people in most types of communal establishment (e.g. hotels, boarding houses, hostels, mobile home sites etc.)

Government Departments: Recruitment

Lorely Burt: To ask the Minister for the Cabinet Office what recent steps her Department has taken to ensure that recruitment agencies which advertise vacancies on behalf of the Government do not require candidates to have obtained security clearance to obtain an interview. [285689]

Tessa Jowell: It is Government policy that an existing security clearance should not be specified as a pre-requisite for recruitment, except in certain defined circumstances. The Cabinet Office has regular contact with the Recruitment and Employers Confederation and the Association of Professional Staffing Companies to ensure that its membership, which includes recruitment agencies, is aware of the policy.

Statistical Indices

Chris Ruane: To ask the Minister for the Cabinet Office what statistical indices have been used to measure levels of happiness and well-being in the UK in the last 30 years. [286294]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician, I have been asked to reply to your Parliamentary Question asking what statistical indices have been used to measure levels of happiness and well being in the UK in the past 30 years. (286294)

The general approach to measuring happiness is to assess life satisfaction, both overall and for particular aspects of life, by survey. The question "How satisfied are you with your life overall these days?", with a response scale of 1-10, has been included in a number of studies over time, including the British Household Panel Survey, managed by the Institute for Economic and Social Research at Essex University. Summary results from these studies have been reported in the Office for National Statistics' Social Trends publication and elsewhere.

The Department for Food and Rural Affair's Sustainable Development Indicator set now includes wellbeing measures, including survey results on life satisfaction.

The new economics foundation (nef) has calculated a Happy Planet Index which combines environmental impact with wellbeing to measure the environmental efficiency with which people in the UK and in other countries live long and happy lives. The nef has also published National Accounts of Wellbeing, which use a variety of indicators to reflect aspects of how people experience their lives.

The ONS is currently reviewing these and other approaches to measuring the wellbeing of UK society, to complement the long-established measures of economic wellbeing published regularly in the economic National Accounts. We have placed a number of reports and links on the ONS website, at:

http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=15205&Pos=1&ColRank=1&Rank=240

Lord Ashcroft: Taxation

Mr. Gordon Prentice: To ask the Minister for the Cabinet Office whether her Department has received provisional recommendations from the Information Commissioner in relation to the request by the hon. Member for Pendle under the Freedom of Information Act 2000 for information on the assurances given by Lord Ashcroft on his tax status prior to his elevation to the peerage. [285679]

Tessa Jowell *[holding answer 13 July 2009]:* It is not Cabinet Office practice to comment on ongoing investigations by the Information Commissioner.

CHILDREN, SCHOOLS AND FAMILIES

Academies

Mr. Sanders: To ask the Secretary of State for Children, Schools and Families what assessment was made of the effectiveness of the City Technology College programme when developing Government policy on academies; and if he will make a statement. [285428]

Mr. Coaker: There was no formal assessment of City Technology Colleges used in the development of the Academies programme. However, the contribution of external sponsors, the use of greater freedoms and innovation in learning and ICT were all characteristics of CTCs that influenced the development of the Academies programme.

All but three of the original CTCs have converted to Academy status, and a number have sponsored new Academy projects.

Mr. Sanders: To ask the Secretary of State for Children, Schools and Families if he will assess the effect of policies on *(a)* diplomas and *(b)* academies on (i) local democratic accountability of the education system and (ii) levels of educational inequality. [285431]

Mr. Coaker: We are currently still in the first year of diploma teaching so it is too early to assess its impact on local accountability. Each diploma line of learning will be evaluated for the first three years after roll out and we will analyse the findings of the evaluation to ensure the implementation is having a positive impact on the education system.

One of the main aims of diplomas is to widen educational participation among young people. Data on the types of learners taking up diploma places will be available for analysis later this year, and this will help us to identify and address any areas of inequality.

With regards to academies and local accountability, all academies must have a local authority governor and a parent governor. Governing bodies are bound by law to act in the best interest of the academy, its pupils and the local community. They must set out their proposals for working with other schools and the wider community in their annual development plan. All academies are inspected by Ofsted on the same basis as other schools, and their results are published along with all maintained schools.

A major goal of the academies programme is to tackle educational inequality and there are a number of measures that guarantee this is achieved. To ensure a fair admissions process, academies, like maintained schools, are required to follow the School Admissions Code. The independent PricewaterhouseCoopers evaluation said that there was no evidence that academies have a negative impact on neighbouring schools in terms of pupil profile and therefore not created any inequalities.

The School Census shows that the proportion of pupils with special education needs (with and without statements) in academies is 29.5 per cent.—compared to an average of 19.2 per cent. for all schools. The proportion of pupils known to be eligible for free school meals in academies is 33.8 per cent.—compared to an average of 14.4 per cent. for maintained secondary

schools. Between 2007 and 2008 the rate of improvement for pupils gaining 5 A*-C grades (including English and maths) that attend academies and are eligible for free school meals has been double the national improvement rate, 5.3 percentage points compared to 2.4 percentage points.

Building Schools for the Future Programme

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families what criteria Partnerships for Schools use to assess the readiness of local authorities to join the reformed Building Schools for the Future programme. [286808]

Mr. Coaker: A Readiness to Deliver assessment covers: educational transformation; project deliverability; investment strategy; affordability and value for money; local resources and capability; and benefits realisation. In essence, local authorities have to prove that they are ready to deliver a clear education vision and estate strategy that will show how the investment through Building Schools for the Future will help improve education for every young person and deliver best value to the public purse.

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families with reference to paragraph 6.21, page 121, of Budget 2009, what his most recent assessment is of progress made by the Building Schools for the Future (BSF) programme in changing its procurement model so as to enable BSF projects with Partnership for Schools to join the programme on a gradual basis. [286892]

Mr. Coaker: In March this year, we announced the revised national programme for Building Schools for the Future (BSF), in line with the proposals of our consultation last year, based on the revised expressions of interest which authorities had proposed, including initial projects from authorities which have not yet started in BSF, and prioritised on the educational and social need of schools in the projects. Partnerships for Schools (PfS) then had meetings with prioritised authorities to discuss their readiness to deliver. A total of 23 authorities provided evidence of their readiness to deliver, and PfS is evaluating this evidence with a view to recommending to me the first projects which are fully ready to start in BSF. We aim shortly to give further details.

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families with reference to paragraph 14, page 8 of the National Audit Office report on Financial management in the Department for Children, Schools and Families, HC 267, Session 2008-09, for what reasons the Building Schools for the Future programme has an under spend of £2.4 billion. [286898]

Mr. Coaker: There are three key reasons for the delays in some of the early local authority Building Schools for the Future (BSF) projects which caused an underspend:

the original expectations of project completion dates were over-optimistic, given the scale of the programme and the aspiration of achieving a step-change in educational outcomes from the capital investment;

many local authorities in the early waves of BSF found identifying and resourcing the necessary project management skill sets to deliver the programme more challenging than expected;

many of the local authorities selected for the early waves of BSF also had the biggest challenges to manage, were pioneering the processes, and were at the forefront of resolving unexpected difficulties with innovative solutions.

Current plans indicate that all funds made available to the BSF programme since 2005 will have been allocated to projects by March 2011.

Child Minding

Annette Brooke: To ask the Secretary of State for Children, Schools and Families what changes have been made to the methods of recording the number of places provided by childminders since September 2008. [281480]

Dawn Primarolo *[holding answer 19 June 2009]:* These are matters for Ofsted. The Chief Inspector, Christine Gilbert, has written to the hon. Member and a copy of her reply has been placed in the House Libraries.

Letter from Christine Gilbert, dated 6 July 2009:

Your parliamentary question has been passed to me, as Her Majesty's Chief Inspector, for a response.

The method used by Ofsted to record numbers of childcare places changed with the introduction of the Early Years Foundation Stage (EYFS) in September 2008. Ofsted now holds two registers, the Early Years Register (for settings providing for children between birth and aged five) and the Childcare Register. The Childcare Register has two components, the compulsory register (for settings providing for children aged between five and seven) and the voluntary register (for settings providing for children older than aged eight). These registers replace the single register previously held for settings providing for children between birth and aged seven.

For providers only registered on the Early Years Register, or those registered on both the Early Years Register and the compulsory part of the Childcare Register, the only change is to the breakdown of age ranges recorded on the new registers.

For those providers only registered on the voluntary part of the Childcare Register, there is no maximum number of places stipulated. The maximum number of places a setting on the other registers can offer is set out in their conditions of registration.

A copy of this reply has been sent to Rt Hon Dawn Primarolo MP, Minister of State for Children, Young People and Families, and will be placed in the library of both Houses.

Children: Databases

Tim Loughton: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 24 June 2009, *Official Report*, column 989W, on children: databases, by what date he expects all local authority ContactPoint teams to have been given access to ContactPoint. [283239]

Dawn Primarolo: All local authorities have had access to ContactPoint for shielding records, however, full access to ContactPoint will not be given to all local authorities until the ContactPoint management teams have completed the necessary training.

All Early Adopter local authorities and Early Adopter national partners have completed such training. For local authorities and national partners that are not early adopters, we expect ContactPoint management teams to be trained between June and August, so that all local authority ContactPoint management teams should have access to ContactPoint by autumn.

Children: Disabled

Mark Hunter: To ask the Secretary of State for Children, Schools and Families what monitoring his Department plans to undertake to ensure that Aiming High for Disabled Children short break funding meets its objectives in respect of the provision of services to *(a)* disabled children and *(b)* disabled children with palliative care needs. [286975]

Ms Diana R. Johnson: The Department has contracted with Together for Disabled Children (TDC) to support local authority and PCT delivery of the short breaks programme. TDC tracks local area progress both in terms of the work undertaken to improve services and the growth in provision and number of additional disabled children in receipt of breaks. Local authorities are expected to collect information on short breaks provision to enable this tracking to take place. The information collected does not however distinguish as to whether breaks are received as part of a package of palliative care.

Mark Hunter: To ask the Secretary of State for Children, Schools and Families what steps he is taking to ensure access for local voluntary sector providers to the Aiming High for Disabled Children short breaks funding distributed to local authorities. [286976]

Ms Diana R. Johnson: The Department is advising local authorities on short break commissioning through two intermediary bodies: Together for Disabled Children and the Commissioning Support Programme. Advisors from both agencies support local authorities in securing appropriate providers, including local voluntary sector bodies.

The Department will also shortly launch a website for short break providers and local authority and primary care trust commissioners on which local providers can advertise their short break services.

Children: Protection

Tim Loughton: To ask the Secretary of State for Children, Schools and Families what steps his Department is taking to improve child protection services in Doncaster. [284447]

Dawn Primarolo: In response to the inadequate judgments in Doncaster Metropolitan borough council's 2008 annual performance assessment, the Department for Children, Schools and Families (DCSF) commissioned a comprehensive diagnostic review of the council's children's services. The diagnostic review confirmed the seriousness of inadequate performance in Doncaster and, in response, the Secretary of State issued a direction under section 497A of the Education Act 1996, to the effect that the council was directed to secure a new senior leadership team for children's services, to prepare an Improvement Plan, and to appoint an Improvement Board with an independent Chair, Tony Elson, to oversee improvements. On 1 April, the council appointed Gareth Williams, Director of Children's Services (DCS) for Leicestershire county council, as interim DCS for Doncaster on a six month secondment. The council has prepared an Improvement Plan, which is being implemented. DCSF is supporting the council to secure a new senior leadership team for children's services for the longer term.

Departmental Public Expenditure

Tony Baldry: To ask the Secretary of State for Children, Schools and Families what estimate he has made of his Department's capital underspend in 2009-10; and how much of that sum he proposes to return to the Exchequer. [284325]

Ms Diana R. Johnson: The Department for Children, Schools and Families is not anticipating a capital underspend at this stage of the current financial year (2009-10).

Education: Assessments

Michael Gove: To ask the Secretary of State for Children, Schools and Families (1) how many *(a)* maintained comprehensive and *(b)* independent schools have applied for funding to teach the pre-U qualification; [286385]

(2) how many pupils are studying for the Cambridge pre-U examination in *(a)* maintained comprehensive schools and *(b)* independent schools. [286390]

Mr. Coaker *[holding answer 13 July 2009]:* Post-16 funding allocations to maintained schools are made on the basis of overall learners' volumes and not by qualification type. It is not possible to provide information on the allocation of funding to maintained schools for the pre-U qualification. DCSF does not fund independent schools.

It is not possible to provide information on the numbers of pupils studying for the pre-U qualification. I refer the hon. Member to the reply given on 25 March 2009, *Official Report*, column 535W.

Further Education

Mr. Sanders: To ask the Secretary of State for Children, Schools and Families what recent assessment he has made of the relevance of diploma qualifications to the needs of employers; and what steps he is taking to take employers' views into account when revising the content and structure of diplomas. [285425]

Mr. Iain Wright: Diplomas were created through consultation with over 5,000 employers, and employers lead the Diploma Development Partnerships responsible for developing diploma content. We have a network of over 100 Diploma Employer Champions who support Diplomas and act as champions for them in their sectors. Many employers are actively engaging in the delivery of diplomas, working directly with schools and colleges in their local areas, reinforcing the principle that diplomas are applied learning in the workplace. The Employer Task Force, which will be launched in the autumn, will provide further opportunities for employers to become involved with diploma delivery.

We are still in the first year of teaching of the diploma and so have no plans to revise content and structure. We are evaluating the first three years of delivery for each of the four phases of diplomas and this will include an evaluation of employer involvement.

Head Teachers: Age

Michael Gove: To ask the Secretary of State for Children, Schools and Families what the average age of *(a)* primary and *(b)* secondary school head teachers was in each year since 1997. [286402]

Mr. Coaker: The following table provides the average age of full-time head teachers in local authority maintained nursery/primary and secondary schools in England, March 1997 to 2008, the latest information available.

Average age of full-time head teachers in local authority maintained schools. Coverage: England. Years: March 1997 to 2008

	Nursery/primary	*Secondary*
1997	48	49
1998	48	49
1999	48	50
2000	49	50
2001	49	50
2002	49	50
2003	50	51
2004	50	50
2005	50	51
2006[1]	50	51
2007[1]	50	51
2008[1]	49	51

[1] Provisional.

Note:
Figures are rounded to the nearest whole year.

Source:
Database of Teacher Records.

Higher Education: Finance

Hugh Bayley: To ask the Secretary of State for Children, Schools and Families how much mainstream grant funding was allocated by the Training and Development Agency for Schools to *(a)* the University of York and *(b)* York St. John University in (i) 1996-97 and (ii) the latest year for which figures are available. [285701]

Mr. Coaker: The recurrent mainstream funding amounts allocated by the Training and Development Agency for schools for academic years 1996/97 and 2009/10 are as follows:

	Funding (£)
University of York	
1996/97	471,263
2009/10	778,880
York St. John University	
1996/97	2,168,728
2009/10	3,773,560

These figures exclude grant allocated to cover student support costs and employment-based initial teacher training provision.

Members: Correspondence

Mr. Andrew Turner: To ask the Secretary of State for Children, Schools and Families when he plans to provide a substantive response to the letter from a constituent of the hon. Member for the Isle of Wight of 22 April 2009, ref ART 63589019765, on that constituent's daughter. [283206]

Mr. Lammy: I have been asked to reply.

The correspondence from the hon. Member's constituent was addressed to the Student Loans Company, and no direct contact was made with the Department.

National Curriculum Tests

Tim Farron: To ask the Secretary of State for Children, Schools and Families what meetings he has had in the last 12 months on the proposal to move Key Stage 2 standard assessment tests to June; and who was present at each meeting. [286082]

Mr. Coaker: The Expert Group on Assessment consulted widely before publishing its recommendations, including the proposal to move Key Stage National Curriculum tests to June. The Department has accepted the group's recommendations in full. Ministers have met regularly with officials to discuss the group's proposals, including the recommendation to move Key Stage 2 National Curriculum test dates to June.

Tim Farron: To ask the Secretary of State for Children, Schools and Families whom he consulted on proposals to change the announced dates for Key Stage 2 standard assessment tests. [286084]

Mr. Coaker: The Expert Group on Assessment consulted widely before publishing its recommendations, including the proposal to move key stage national curriculum tests to June. The Department has accepted the group's recommendations in full.

Having taken account of advice from the Qualification and Standards Authority (QCA) and the Office of the Qualifications and Examinations Regulator (Ofqual), tests in 2010 will take place as planned in the week commencing 10 May. We will seek to implement the expert group's recommendation on moving the test to mid June in 2011; this will help to strengthen transition arrangements for year 6 pupils; it will also help to embed our Assessment for Learning strategy and the role of teacher assessment.

National Curriculum Tests: Public Consultation

Mr. Sanders: To ask the Secretary of State for Children, Schools and Families (1) if he will hold a public consultation on *(a)* the proposals in the report recently produced by the Expert Group on Assessment and *(b)* the proposal to move Key Stage 2 standard assessment tests to June; [285909]

(2) whom he has consulted on his Department's proposal to hold Key Stage 2 standard assessment tests in June. [285911]

Mr. Coaker: The Expert Group on Assessment consulted widely before publishing its recommendations, including the proposal to move Key Stage National Curriculum tests to June. The Department has accepted the group's recommendations in full.

Having taken account of advice from the Qualification and Standards Authority (QCA) and the Office of the Qualifications and Examinations Regulator (Ofqual), tests in 2010 will take place as planned in the week commencing 10 May. We will seek to implement the Expert Group's recommendation on moving the test to mid June in 2011; this will help to strengthen transition arrangements for year 6 pupils; it will also help to embed our Assessment for Learning strategy and the role of teacher assessment.

Ofsted: Manpower

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many Ofsted inspectors of children's services have degrees in social work. [282646]

Dawn Primarolo *[holding answer 26 June 2009]:* This is a matter for Ofsted. HM Chief Inspector, Christine Gilbert, has written to the hon. Member and a copy of her reply has been placed in the House Libraries.

Letter from Christine Gilbert, dated 9 July 2009:

Your recent parliamentary question has been passed to me, as Her Majesty's Chief Inspector, for reply.

Information relating to the academic level of qualifications held by inspectors was not provided to Ofsted when social care inspectors transferred from the Commission for Social Care Inspection in April 2007. As of 26 June 2009, Ofsted employs 44 Her Majesty's Inspectors (HMI) with a social care background, who manage and undertake inspections of local authority children's services. Ofsted also employs 149 social care inspectors, who regulate and inspect a range of social care providers, such as residential homes, fostering and adoption agencies.

Of the 44 HMI, 42 hold a social work qualification recognised by the General Social Care Council, the qualification required for social work practice. These qualifications were awarded at different academic levels depending on the course attended (from the Certificate of Qualification in Social Work to a Masters degree) but all hold the same professional status. The requirement to hold a degree as the minimum level of social work qualification was only introduced in 2003. One HMI holds a residential work qualification which is not recognised as a social work qualification.

The 149 social care inspectors hold a variety of social work, social care and related qualifications and had considerable experience in providing children's social care services prior to joining Ofsted.

A copy of this reply has been sent to Rt Hon Dawn Primarolo MP, Minister of State for Children, Young People and Families, and will be placed in the library of both Houses.

Play: Finance

Andrew Stunell: To ask the Secretary of State for Children, Schools and Families how much funding each local authority in Greater Manchester awarded funding under the National Play Strategy in December 2008 has received to date; and how much on average each local authority in England was awarded under the National Play Strategy in December 2008. [285380]

Mr. Coaker: Following the commitments made in the Children's Plan in 2007 and the national Play Strategy in 2008, every top-tier local authority in England will receive either play pathfinder or playbuilder funding between 2008-11 through the play capital investment programme.

Of the 152 top-tier local authorities, 30 are play pathfinder authorities and the remaining 122 local authorities are all playbuilder authorities. On average, every play pathfinder authority will receive around £2 million capital funding and £500,000 revenue funding, while playbuilder authorities will receive around £1 million capital and £45,000 revenue funding, over the current spending period 2008-09 to 2010-11. Play pathfinder authorities will use their allocated funding to deliver a minimum of 28 play areas plus a new staffed adventure playground, while playbuilder authorities will deliver a minimum of 22 play areas by 2011. The play areas that are delivered can be either completely new areas or existing areas which are significantly refurbished.

Local authorities have joined the programme, and so started receiving their funding, in two phases: wave 1 started in April 2008 and wave 2 in April 2009. Bolton, Bury, Rochdale and Tameside are all wave 1 authorities, while the other six authorities in the Greater Manchester area (City of Manchester, Oldham, Salford, Stockport, Trafford and Wigan) joined the programme in April 2009. Of these, 10 local authorities, both Rochdale and Wigan are play pathfinders, while the others are all playbuilder authorities.

The following tables show the capital and revenue funding allocated to Greater Manchester authorities and the phase they each joined the capital play programme. Allocations for 2010-11 are indicative and will be confirmed in February 2010.

Decisions on where the capital funding is spent within local authority boundaries are taken locally, based on grant requirements around improved play spaces being provided where they are most needed and based on a robust consultation process with local children and young people, families and wider communities.

We are encouraging all Members of Parliament to proactively engage with their local play capital programmes as they roll out, and we are asking local authorities to ensure that their local Members of Parliament and council elected members are appropriately consulted, and briefed, about where the capital funding is spent.

Wave 1 authorities

£

	Capital funding			*Revenue funding*		
Local authority	*2008-09*	*2009-10*	*2010-11*	*2008-09*	*2009-10*	*2010-11*
Bolton	351,984	390,628	440,319	12,662	19,912	13,274

Local authority	Capital funding		Revenue funding	
	2009-10	2010-11	2009-10	2010-11
Trafford	526,656	593,650	26,985	17,990
Wigan	1,117,998	1,011,522	297,747	198,498

Playgrounds: Hertfordshire

Mike Penning: To ask the Secretary of State for Children, Schools and Families what funding his Department has provided for the enhancement of public play facilities in *(a)* Hemel Hempstead constituency, *(b)* Dacorum and *(c)* Hertfordshire in the last 12 months. [284738]

Dawn Primarolo: Following the commitments made in the Children's Plan in 2007 and the national Play strategy in 2008, every top tier local authority in England will receive either play pathfinder or playbuilder funding between 2008-11 through the play capital investment programme.

On average all play pathfinder authorities will receive around £2 million capital funding and £500,000 revenue funding, while playbuilder authorities will receive around £1 million capital and £45,000 revenue funding. Play pathfinder authorities will use their allocated funding to deliver a minimum of 28 play areas plus a new staffed adventure playground, while playbuilder authorities will deliver a minimum of 22 play areas by 2011. The play areas that are delivered can be either completely new areas or existing areas which are significantly refurbished.

Local authorities have joined the programme, and so started receiving their funding, in two phases: Wave 1 started in April 2008 and Wave 2 in April 2009. Hertfordshire is a Wave 2 playbuilder authority and will receive capital funding of £541,001 in 2009-10 and £609,820 in 2010-11 and revenue funding of £27,633 in 2009-10 and £18,422 in 2010-11. Allocations for 2010-11 are indicative and will be confirmed in February 2010.

Decisions on where the capital funding is spent within local authority boundaries are taken locally, based on grant requirements around improved play spaces being provided where they are most needed and based on a robust consultation process with local children and young people, families and wider communities.

We are encouraging all members of parliament to proactively engage with their local play capital programmes as they roll out, and we are asking local authorities to ensure that their local members of parliament and council elected members are appropriately consulted, and briefed, about where the capital funding is spent.

Primary Education: Finance

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families what funds have been allocated to the Primary Capital Programme for the financial year *(a)* 2009-10 and *(b)* 2010-11. [286799]

Mr. Coaker: Taking into account the adjustments made following requests by some local authorities to bring forward funding in support of the Government's fiscal stimulus measures, the breakdown of funding allocated to support delivery of the programme nationally is:

(a) 2009-10: £757 million;

(b) 2010-11: £893 million.

Qualification: Social Work

Tim Loughton: To ask the Secretary of State for Children, Schools and Families what the grade is of the most senior member of staff at Ofsted with a qualification in social work. [284448]

Dawn Primarolo: This is a matter for Ofsted. HM Chief Inspector, Christine Gilbert, has written to the hon. Member and a copy of her reply has been placed in the House Libraries.

Letter from Christine Gilbert, dated 9 July 2009:

Your recent parliamentary question has been passed to me, as Her Majesty's Chief Inspector, for a response.

The grade of the most senior members of staff at Ofsted to hold a qualification in social work is Deputy Director, equivalent to senior civil service (SCS) pay band 1. Two individuals hold posts at this grade.

As part of internal restructuring announced last September, Ofsted is currently recruiting a Director, Development (Social Care). She or he is required to hold a professional qualification in social work and to demonstrate 'relevant knowledge and experience as a senior manager of social work and child protection services'.

A copy of this reply has been sent to Rt Hon Dawn Primarolo MP, Minister of State for Children, Young People and Families, and will be placed in the library of both Houses.

Rehabilitation: Lincolnshire

Mr. Burrowes: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 12 June 2009, *Official Report*, columns 1069-70W, and 1434W, on rehabilitation: Lincolnshire, where the 35 residential places are located. [284146]

Dawn Primarolo: The available beds, along with details of the support offered, are set out in the following table. These places represent only a small part of residential provision that can be accessed for young people with complex needs, where substance misuse is one factor. Local authority commissioners also meet young people's needs through a combination of fostering or children's home placements and specialist substance misuse community based services. This will often allow young people to be supported in an environment closer to their own community.

Number of beds	Location	Provider	Description of support offered
5	Lincolnshire	Middlegate Lodge	Registered Children's Home. Offers residential placement with an emphasis on detox and rehabilitation. Additional education and other services are also provided.
11	Maidenhead	Huntercombe	Registered Children's Home. Combines mental health and substance misuse services. Offers detox and rehabilitation programmes.

Number of beds	Location	Provider	Description of support offered
3	Staffordshire	Companions	Registered Children's Home. Provides intensive, long-term care for young people whose complex needs are severe and include substance misuse.
16 (women only)	Peterborough	Clare Lodge	Secure Children's Home. Offers placements under Section 25 of the Children's Act 1989 for 10 to 17-year-olds with self-harm, substance misuse or other complex needs.

Religion: Education

Mr. Wallace: To ask the Secretary of State for Children, Schools and Families how the £1 million spent by his Department on strengthening the teaching of *(a)* religious education and *(b)* identity and diversity has been allocated. [286118]

Ms Diana R. Johnson: The £1 million announced in January 2008 was to be spent specifically on the Religious Education Action Plan and not on the identity and diversity strand which falls within Citizenship Education. The money has been allocated as follows:

Item	2008-11 (£)
1. RE Partnership support	120,000
2. Updating and disseminating the existing guidance on RE	60,000
3. National programme of recruitment and training for local Standing Advisory Councils on RE	100,000
4. Support to National Association of Teachers of RE	240,000
5. Continuing Professional Development Handbook for RE	100,000
6. Review of materials used in schools to teach world religions and their contribution to community cohesion	300,000
7. DCSF/REC Adviser	40,000
Total	960,000

Schools

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families (1) with reference to his Department's publication, Your child, your schools, our future, how many and what proportion of the case studies were assessed against a control group; [286883]

(2) if he will place in the Library a copy of the quantitative analysis of data used in each of the case studies. [286884]

Mr. Coaker: The case studies used in the recent White Paper—Your child, your schools, our future: building a 21st century schools system—are intended as individual examples of good practice from a range of partners and sources. They illustrate proposals within the document and support understanding through using real contexts. In using such cases, we did not consider it necessary to have a control group or to collect a full quantitative analysis of data.

Schools: Finance

Justine Greening: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the effect on *(a)* the renewal of the primary school estate and modernising school infrastructure, *(b)* the number of secondary school classrooms adapted to improve personalised learning, *(c)* the number of schools receiving energy-saving measures, *(d)* the number of kitchens built in primary schools and *(e)* the number of rooms in primary schools converted for mother-and-baby groups and other community uses of the £800 million funding for priority schools capital programmes, brought forward from 2010-11 to 2009-10 and 2008-09; and how much of the funding has been spent in each month since it was announced. [286655]

Mr. Coaker: The fiscal stimulus initiative allowed local authorities and schools to bring forward some of their capital allocations from 2010-11 into 2009-10. The programmes affected are: Modernisation for schools; the Locally Co-ordinated Voluntarily Aided Programme (LCVAP); Primary Capital Programme; the Targeted Capital Fund for 14-19, special educational needs and disabilities; devolved formula capital which is paid directly to schools; and children's play areas. The final overall amount brought forward was £969 million. Information on how much of the overall allocations have been invested to date, and the impact of the investment, is held locally. The Department will be carrying out a survey later this year to determine whether or not the funds are on track to be invested during the 2009-10 spending period.

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families with reference to paragraph 6.14, page 120, of Budget 2009, what information his Department holds on the priority schools capital programme; and what funding his Department has allocated to the programme in financial years *(a)* 2009-10 and *(b)* 2010-11. [286891]

Mr. Coaker: The fiscal stimulus initiative allowed local authorities and schools to bring forward some of their capital allocations from 2010-11 into 2009-10. This involved allocations in existing programmes announced in the comprehensive spending review 2007, but allowed for significant investment to be made earlier than had previously been anticipated. Priorities for investment on these programmes are decided and held locally. Overall, the final amount planned to be brought forward was £969 million. This can be broken down as follows:

Programme	£m
Modernisation for schools	240
Locally Co-ordinated Voluntarily Aided Programme (LCVAP)	51
Primary Capital Programme	107
Targeted Capital Fund for 14 to 19, special educational needs and disabilities	151
Devolved Formula Capital (paid directly to schools)	390
Children's play areas	30

Mark Hunter: To ask the Secretary of State for Children, Schools and Families how much funding has been allocated to each local authority through the dedicated schools grant in each year since its introduction. [286980]

Mr. Coaker: The following table shows the Dedicated Schools Grant allocations made to each local authority in each year since the grant began in 2006-07. Local

authorities with schools that have converted into academies may see a reduction in their allocation in the year of conversion. Academies receive their funding direct from the Department, not through local authorities.

[1] Authorities changed as a result of local government reorganisation.

Teachers: Rarely Cover Guidance

Mr. Sanders: To ask the Secretary of State for Children, Schools and Families (1) what additional support he plans to provide to teachers to help facilitate the continuation of educationally valuable visits or trips in light of the rarely cover guidelines; [285910]

(2) what assessment he has made of the effect on the conduct of school trips of his Department's rarely cover guidance; [285912]

(3) what recent discussions he has had on the application of his Department's rarely cover guidance; with whom such discussions were held; and on what dates these discussions took place; [285913]

Michael Gove: To ask the Secretary of State for Children, Schools and Families if he will place in the Library a copy of the guidance he has issued to schools on the requirement that teachers rarely cover for absent colleagues; what guidance he has issued to schools on the implementation of rarely cover guidelines for school trips; and what definition of rarely cover is used in the context of such guidance. [285722]

Tim Farron: To ask the Secretary of State for Children, Schools and Families (1) what estimate his Department has made of the number of school excursions which were cancelled owing to a failure to provide sufficient levels of staff cover in the last 12 months; [286079]

Tim Farron: (2) what steps his Department has taken to ensure that the requirement that teachers rarely cover for absent colleagues does not adversely affect learning activities outside the classroom. [286081]

Mr. Coaker: The Secretary of State and my predecessor, the right hon. Member for South Dorset (Jim Knight) have discussed the issues of rarely cover individually with our social partners on the Workforce Agreement Monitoring Group on a number of occasions over the last few months.

General guidance on the rarely cover provisions was issued at the end of April. A copy of this has been placed in the House Libraries. It makes clear that teachers should, from September 2009, be required to cover for absent colleagues only rarely, in circumstances that are not foreseeable.

Since April, the Department has been working hard with social partners to produce additional guidance on the rarely cover provisions. This will include guidance on learning outside the classroom which is designed to help schools plan effectively for these activities, which we all agree are an important part of the curriculum. The additional guidance, which will be subject to a period of consultation, will be issued shortly and a copy will be placed in the House Libraries.

No estimate has been made of the number of learning outside the classroom activities that have been cancelled because of a lack of cover over the last 12 months and where schools take note of the new guidance, we do not anticipate that the rarely cover provisions will result in reduced opportunities for learning outside the classroom in the future.

Truancy: Yorkshire and the Humber

Mr. Graham Stuart: To ask the Secretary of State for Children, Schools and Families how many parents in each local authority area in Yorkshire and the Humber appeared in court on charges related to the unauthorised absence of their child from school in each of the last five years; and if he will make a statement. [280689]

Mr. Coaker: The Ministry of Justice collects and publishes data for England and Wales on prosecutions brought against parents under the Education Act 1996 for the offence under s444(1) of failing to secure their child's regular attendance at school; and for prosecutions under s444(1A), the aggravated offence of knowing that their child is failing to attend school regularly. It is possible, because of the way courts record data, that some s444 data are also collected under the more general heading of various offences under the Education Act 1996.

The information on the number of parents prosecuted by local authorities in Yorkshire and the Humber for failing to secure their children's regular school attendance between 2003 to 2007 (latest available data) is detailed in the table. Data are collected on the basis of police

force regions and not local authority areas. Court proceedings data for 2008 will be available in the autumn of 2009.

Number of persons proceeded against at magistrates courts for offences under the Education Act 1996 S.444[1], Yorkshire and Humberside region, broken down by police force area, 2003 to 2007[2, 3]

	2003	2004	2005	2006	2007
Humberside	65	29	208	224	225
North Yorkshire	19	21	24	34	53
South Yorkshire	463	375	333	455	483
West Yorkshire	162	218	63	19	9
Yorkshire and Humberside	709	643	628	732	770

[1] Includes the following:
(a) Failure to secure regular attendance at school. (Education Act 1996 S.444 (1)(B)).
(b) Parent knows that their child is failing to attend school regularly and fails without reasonable justification to cause him or her to attend school. (Education Act 1996 S.444(B)(1a)(Ba) added by Criminal Justice and Court Services Act 2000 S.72).
[2] The statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.
[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when these data are used.

Youth Crime Priority Areas: Finance

James Brokenshire: To ask the Secretary of State for Children, Schools and Families how much additional funding has been allocated by his Department to the 69 local authority areas identified as Youth Crime Priority Areas; and over what period that funding will be provided. [285554]

Mr. Coaker: The Youth Crime Action Plan (YCAP), published in July 2008, sets out the Government's plans for tackling offending by young people. It is supported by close to £100 million over the three year period from 2008-09 to 2010-11, in addition to the existing investment in children's and youth services, to support local authorities in making inroads into youth crime locally.

69 local authority areas (and two in Wales) have been identified as "priority areas" under YCAP. In 2008-09, under YCAP, the 69 local authorities in England each received £65,000 to implement an intensive package of activity set out in YCAP.

Each of the 69 local authority areas in England will receive £350,000 this financial year (2009-10) and £350,000 in 2010-11 to deliver the intensive package of activity to help reduce youth crime. In addition, the two Welsh areas will receive £175,000 in each of the two years to fund those aspects of the intensive package that are not devolved.

This year, building on the success of the Home Office enforcement campaign in 2008/09 we will provide funding to the 69 areas to develop a co-ordinated plan of activity to tackle alcohol related youth crime. Areas will be provided with a grant of up to £20,000 (£1.4 million in total) to kick start activity to begin before the summer and last at least throughout the summer holidays.

TREASURY

Banks: Iceland

John Mann: To ask the Chancellor of the Exchequer what meetings his Department's officials have had on the recovery of local authority investments in Icelandic banks since 1 May 2009. [286391]

Sarah McCarthy-Fry: Treasury Ministers and officials have meetings and discussions with a wide variety of organisations in the public and private sectors as part of the process of policy development and delivery. As was the case with previous Administrations, the Government do not disclose the outcome or results of all such meetings and discussions.

Departmental Data Protection

Jenny Willott: To ask the Chancellor of the Exchequer (1) how many attempts were made to gain unauthorised access to each *(a)* database and *(b)* ICT system run by his Department in 2008-09; and if he will make a statement; [286558]

(2) how many successful attempts were made to gain unauthorised access to each *(a)* database and *(b)* ICT system run by his Department in 2008-09; and if he will make a statement. [286559]

Sarah McCarthy-Fry: It is not in the interests of the UK's national security for Departments to confirm information on the number of attempts, successful or otherwise, to gain unauthorised access to departmental systems or databases. Such disclosure could undermine the integrity and security of departmental systems and thereby expose them to potential threats.

HM Treasury is bound by the mandatory requirements of the Security Policy Framework in relation to information security, including managing the risk of unauthorised access to ICT systems.

Departmental Training

Mr. Philip Hammond: To ask the Chancellor of the Exchequer what training courses have been attended by special advisers in his Department in the last 12 months; and at what cost. [279398]

Sarah McCarthy-Fry: There is no central provision for training special advisers.

Financial Services: Regulation

Mr. Dai Davies: To ask the Chancellor of the Exchequer what assessment he has made of the implications for his Department's policies on the banking and financial services sector of the paper presented on 8 May 2009 to the Federal Reserve Bank of Chicago Conference on reforming financial regulation by the executive director for financial stability of the Bank of England. [286815]

Sarah McCarthy-Fry: The Government's approach to reforming regulation of financial services is set out in the Government's paper 'Reforming Financial Markets', published on 8 July 2009.

Hedge Funds

Harry Cohen: To ask the Chancellor of the Exchequer pursuant to the oral statement of 8 July 2009, *Official Report*, columns 969-87, on reforming of financial markets, what his definition is of systematically important hedge funds; and which hedge funds fall into this category. [286626]

Sarah McCarthy-Fry: A financial institution can be said to be of systemic importance when its failure could cause serious disruption to the financial system. In order to more closely monitor the systemic impact of hedge funds the Government are working with the Financial Services Authority to put in place a system of enhanced surveillance that can gather relevant and timely information on the funding, leverage, investment strategies and, in some cases, investment positions of individual funds managed from the UK.

Interpal

Jo Swinson: To ask the Chancellor of the Exchequer pursuant to the answer to the hon. Member for Milton Keynes South West, *Official Report*, column 677W, on Interpal, whether he has received evidence from the US Administration on the basis for the allegations made against Interpal in its press notice of 22 August 2003. [284409]

Sarah McCarthy-Fry: As set out in the Treasury's written answer of 12 May 2009, *Official Report*, column 677W, HM Treasury officials are in discussions with their US counterparts about how to facilitate legitimate charitable work, while protecting against the abuse of charities by those involved in terrorist finance. As part of this, HM Treasury continue to discuss the specific case of Interpal with the US authorities.

Members: Correspondence

Ann Winterton: To ask the Chancellor of the Exchequer when he plans to respond to the letter of 5 March 2009, ref 6/0017/8/2009, on the banking industry and pensions from the hon. Member for Congleton on behalf of her constituents Mr. and Mrs. Brian Evans. [280715]

Sarah McCarthy-Fry: A reply has been sent to the hon. Member.

Operational Efficiency Programme: Met Office

Julia Goldsworthy: To ask the Chancellor of the Exchequer with which other public sector bodies the Operational Efficiency Programme project team plans to work in its review of the Met Office. [284455]

Mr. Byrne *[holding answer 7 July 2009]:* As part of the joint work on the Trading Funds Review which preceded the Operational Efficiency Programme (OEP), the Met Office has had initial engagement with public sector bodies including the Department of Energy and Climate Change, the Department for Environment, Food and Rural Affairs, and the Natural Environment Research Council. The Met Office OEP review team is currently reviewing which further public sector bodies to consult with as part of the next phase of work.

Pay: North East

Mr. Heppell: To ask the Chancellor of the Exchequer what the rate of average earnings growth was in *(a)* Jarrow constituency, *(b)* South Tyneside and *(c)* the North East in each year since 1997. [286343]

Angela E. Smith: I have been asked to reply.

The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking what the rate of average earnings growth was in (a) Jarrow constituency, (b) South Tyneside and (c) the North East in each year since 1997. (286343)

ONS's primary indicator of average earnings growth is the Average Earnings Index. As this does not produce regional estimates, the Annual Survey of Hours and Earnings has been used (ASHE). The ASHE, carried out in April each year, is the most comprehensive source of information on the levels of earnings in the United Kingdom. It is a sample of all employees who are members of pay-as-you-earn (PAYE) schemes.

The sample sizes for more detailed geographies can be small and this affects the quality of the resulting estimates, which are subject to a margin of uncertainty.

ASHE results are available from 1997 and so annual growth rates are available from 1998. I attach a table showing the annual percentage change in median gross weekly earnings for the specified geographies for full-time employees in each year since 1998.

Annual percentage change of median gross weekly earnings for full-time employee jobs[1]

	Jarrow parliamentary constituency	*South Tyneside local authority*	*North East*
1998	8.2	8.7	1.0
1999	3.2	-0.4	3.8
2000	0.3	7.1	4.9
2001	7.8	4.5	1.3
2002	-3.5	-7.2	3.3
2003	-7.2	1.8	1.1
2004	6.6	14.5	7.0
2005	0.9	-2.8	3.7
2006	4.0	3.8	3.7
2007	-0.4	-0.6	2.4
2008	4.8	6.7	4.0

[1] Full-time employees on adult rates whose pay for the survey pay-period was not affected by absence.

Source:

Annual Survey of Hours and Earnings, Office for National Statistics. 1998 to 2008.

Public Expenditure

Mr. Willetts: To ask the Chancellor of the Exchequer what the components are of the other spending line in Table 4.1, Spending Projection, on page 36 of the Long-term Public Finance Report of March 2008, identifying the components of the totals for each of the years given in the columns. [282219]

Mr. Byrne: The Long-term Public Finance Report provides a comprehensive analysis of long-term demographic developments, and their likely impact on the public finances, based on long-term projections of public spending and revenues. The latest publication, as well as previous reports, can be found on HM Treasury's website at:

http://www.hm-treasury.gov.uk/bud_bud08_longterm.htm

Travel: Insurance

Mr. Laurence Robertson: To ask the Chancellor of the Exchequer what recent representations he has received from representatives of those with serious medical conditions and disabilities on the availability of travel insurance; and if he will make a statement. [286258]

Sarah McCarthy-Fry: Treasury Ministers and officials receive representations from a wide variety of organisations in the public and private sectors as part of the process of policy development and delivery. As was the case with previous administrations, it is not the Government's practice to provide details of all such representations.

Mr. Laurence Robertson: To ask the Chancellor of the Exchequer what estimate he has made of the average proportion of the cost of travel insurance to the consumer accounted for by premium insurance tax; and if he will make a statement. [286259]

Sarah McCarthy-Fry: Travel insurance premiums are subject to the higher rate of insurance premium tax at 17.5 per cent. Insurance premium tax therefore accounts for 14.9 per cent of the total price paid by a customer for travel insurance.

COMMUNITIES AND LOCAL GOVERNMENT

Allotments

Mr. Sanders: To ask the Secretary of State for Communities and Local Government what research his Department has assessed on the effect of allotments on the environment and local communities. [285423]

Mr. Malik: CLG and DEFRA officials have started discussions about jointly commissioning research to identify and collect evidence on how communities can be engaged and empowered to realise the benefits of urban green spaces (including allotments), which align with key Government priorities.

Mr. Sanders: To ask the Secretary of State for Communities and Local Government how many complaints have been submitted to the local government ombudsman on maladministration in the provision of allotments in the last five years. [285427]

Mr. Malik: The information requested is not held centrally. The Local Government Ombudsman do not record complaints regarding allotment provision separately, they fall within a wider leisure and culture category on their complaints database.

Allotments: Lancashire

Mr. Hoyle: To ask the Secretary of State for Communities and Local Government how many allotments are provided by each district authority in Lancashire. [286688]

Mr. Malik: Information on the number of allotments provided by each local authority is not held centrally.

Collective Worship

Chris Ruane: To ask the Secretary of State for Communities and Local Government how many people attended Church of England services in each of the last 30 years. [286291]

Mr. Malik: This information is not collected by Government.

Community Relations

Lembit Öpik: To ask the Secretary of State for Communities and Local Government what steps have been taken to tackle caste discrimination in the last 12 months; and if he will make a statement. [285341]

Mr. Malik: Officials have been considering the issue of caste based discrimination and Communities and Local Government are currently engaged in a series of meetings with interested parties on the subject within the context of the Equality Bill currently before Parliament.

Council Housing: Finance

Mr. Austin Mitchell: To ask the Secretary of State for Communities and Local Government pursuant to the written ministerial statement of 30 June 2009, *Official Report*, columns 7-10WS, on housing, for how long the consultation on council housing finance will last; and when he expects it to report. [287033]

Mr. Ian Austin: The consultation will be for a minimum of 12 weeks in accordance with the Government's code of practice on consultation. The Government response to the consultation will be published early next year.

Council Tax

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government by how much council tax *(a)* bills and *(b)* receipts increased in (i) absolute percentage terms and (ii) real terms in England between 1997-98 and 2009-10 according to figures held by the Office for National Statistics. [285249]

Ms Rosie Winterton: According to statistical returns made to Communities and Local Government, between 1997-98 and 2009-10, average council tax bills for a band-D property in England rose by 106 per cent. in absolute terms and by 52 per cent. in real terms. Decisions about the level of council tax are a matter for individual local authorities and will rightly reflect the priorities of their local communities.

Between 1997-98 and 2008-09 receipts of council tax in England increased by 125 per cent. in absolute terms and by 66 per cent. in real terms. Data for 2009-10 are not yet available.

The Office for National Statistics does not collect information about council tax.

Between 1997-98 and 2007-08 central Government grants, consisting of revenue support grant, redistributed national non-domestic rates, police grant, general GLA grant and special and specific grants, to local authorities in England increased by 96 per cent. in absolute terms and by 45 per cent. in real terms. Data for 2008-09 and 2009-10 are not yet available.

Departmental Accountancy

Steve Webb: To ask the Secretary of State for Communities and Local Government when he expects to publish his Department's resource accounts for 2008-09. [287339]

Mr. Malik: Communities and Local Government laid their resource accounts before Parliament on 14 July 2009.

Departmental Contracts

Bob Spink: To ask the Secretary of State for Communities and Local Government if he will make an assessment of the standard of service provided to his Department and its agencies by contractors appointed by reverse auction. [285220]

Mr. Malik: The Department and its agencies have not appointed any suppliers by reverse auction.

Departmental Internet

Mr. Watson: To ask the Secretary of State for Communities and Local Government when his Department plans to update its web browsers from Internet Explorer 6. [285020]

Mr. Malik: CLG currently has no plans to upgrade from Internet Explorer 6. CLG will consider upgrading when the benefits for doing so outweigh any disbenefit or cost. Reasons for upgrading might include withdrawal of support by Microsoft, or significant dependencies on other versions of internet explorer by other key CLG systems.

Departmental Ministerial Policy Advisers

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Brentwood and Ongar of 8 June 2009, *Official Report*, column 755W, on official hospitality, what the monetary value is above which special advisers in his Department are required to declare *(a)* hospitality and *(b)* gifts. [283979]

Mr. Malik: I refer the hon. Member to the answer given by my right hon. Friend the Member for Tooting (Mr. Khan) to the hon. Member for Bromley and Chislehurst (Robert Neill) on 8 June 2009, *Official Report*, columns 755-56W.

Departmental Publications

Sarah Teather: To ask the Secretary of State for Communities and Local Government what the *(a)* original budget for and *(b)* outturn cost of production of his Department's report Getting it right, and righting the wrongs was. [284694]

Mr. Malik: The information is as follows.

(a) £100,000 was allocated to the independent Review of Redress in each of 2008-09 and 2009-10. This covered the full costs of the review, including production of the final report.

(b) Costs for the design, printing and typesetting of the "Getting it right and righting the wrongs" report and the accompanying practitioners' toolkit were £23,046 excluding VAT.

Departmental Secondment

Sarah Teather: To ask the Secretary of State for Communities and Local Government how many employees of his Department and its predecessors have been posted to work in offices of hon. Members of each political party in each of the last five years. [284976]

Mr. Malik: Civil servants are required to act in accordance with the requirements of the Civil Service Code. Civil servants may shadow MPs as part of a programme run by the Industry and Parliament Trust. Details on numbers of civil servants from this Department who have had such an attachment are not held centrally.

Departmental Work Experience

Mr. Oaten: To ask the Secretary of State for Communities and Local Government how many *(a)* paid and *(b)* unpaid graduate internships his Department has awarded in each of the last six months. [281512]

Mr. Malik: The Department of Communities and Local Government has not awarded any paid or unpaid graduate internships in the last six months.

Mr. Willis: To ask the Secretary of State for Communities and Local Government how many interns work in his Department; what terms of reference apply to their appointment; what remuneration they receive; and how long on average an intern appointment lasts. [286826]

Mr. Malik: The Department for Communities and Local Government currently has 12 interns working in the Department. Details of the different terms of reference, remuneration and the length of the appointment on offer are set out as follows.

Cabinet Office interns

There are four interns from this programme. All are on a training contract, with remuneration of £24,951 per annum (pro rata). The placements last on average six weeks.

Government economics interns

There are two interns from this programme. All are on causal contracts, with remuneration of £22,540 per annum (pro rata). The placements last on average six weeks.

Government legal interns

There are six interns from this programme. All are on causal contracts, with remuneration of £180 per week. The placements last two weeks.

Deposit Protection Service

Grant Shapps: To ask the Secretary of State for Communities and Local Government (1) if he will place in the Library a copy of the Deposit Protection Service's most recent monthly performance report; [286955]

(2) which key performance indicators are used by his Department to measure the performance of the Deposit Protection Service; and if he will make a statement; [286969]

(3) what rating was reported by the Deposit Protection Service in relation to each of its key performance indicators in each of the last six months. [286971]

Mr. Ian Austin: The Deposit Protection Service (DPS) is required to submit monthly reports on 11 key performance indicators, listed as follows, under the terms of its contract with Communities and Local Government. The reports are commercially confidential and will not be placed in the Library. However, I can report that in each of the last six months, the DPS met or exceeded all of the performance targets.

Key performance indicator	*Target*
1. Call answer: All calls to the helpline to be answered by a customer service representative within a monthly average of 90 seconds within the defined hours of operation	90 seconds
2. System availability: Availability of web access to the system for end users; Provision of a web/online interface available, 24 hours a day, seven days a week, exclusive of scheduled downtime	99 per cent.
3. Time needed for a substantive response to written, e-mail and web-based inquiries and complaints (including to provide confirmation of deposit protection to tenants): Responses to written inquiries (including fax) dispatched within four business days (excluding the day of receipt)	4 business days
4. Confirmation of registration dispatched to landlord within three business days of receipt of a completed registration by phone, paper, or online (excluding the day of registration)	3 business days
5. Deposit funds that are given to service provider banked in a timely manner: (i.e. cheques or any other payment made to service provider) by banking close on the business day following the business day of receipt of deposit funds by the service provider	99 per cent.
6. Confirmation dispatched to landlord of deposit protection and provision of required tenancy information within two business days of funds being cleared by deposit holder (excluding business day on which funds are cleared)	2 business days
7. Deposit plus interest is returned to the appropriate recipient(s) within 10 days from the day that the service provider receives confirmation of its release (i.e. after agreement, ADR decision notification, court decision), (including day of receipt of notification).	100 per cent.
8. Deposit plus interest is returned to the appropriate recipient(s) within five days from the day that the service provider receives confirmation of its release (i.e. after agreement, ADR decision notification, court decision), (including day of receipt of notification)	98 per cent.
9. Resolution of disputes by the ADR service within 28 days from the notification of dispute (following agreement by both landlord and tenant to use the ADR service, (excluding the day of notification))	93 per cent.
10. Notification dispatched to landlord and tenant of a final ADR decision within one business day of the service provider receiving such notification from the ADR service (excluding the day of notification)	2 business days
11. All scheduled monthly reports and invoices, fully in accordance with the agreement, provided to the authority by the time specified in the Agreement	By the time specified

Grant Shapps: To ask the Secretary of State for Communities and Local Government what the budget of the Deposit Protection Service is for *(a)* 2009-10 and *(b)* 2010-11. [286970]

Mr. Ian Austin: The Deposit Protection Service is a Government authorised tenancy deposit protection scheme but is self-financing and does not receive a budget from Communities and Local Government.

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many *(a)* landlords and *(b)* lettings agents were registered with the Deposit Protection Service in each of the last three years. [286973]

Mr. Ian Austin: The total number of landlords and letting agents registered with the Deposit Protection Service at the end of each year since the scheme began in April 2007 is set out as follows.

	Letting agents registered (cumulative figure)	*Landlords registered (cumulative figure)*
As at 31 December 2007	7,825	66,084
As at 31 December 2008	11,920	130,550
As at 14 July 2009	14,399	163,193

Derelict Land

Martin Horwood: To ask the Secretary of State for Communities and Local Government what area of land designated as brown field in each county in 1997 has since been dedesignated; and what estimate he has made of the area of such land which has been built upon since 1997. [286575]

Mr. Ian Austin: No information is available on what land was designated as brownfield in 1997. Information on the stock of brownfield land by region from 1998 is available from the National Land Use Database of Previously-Developed Land and is given in the following table:

Hectares

Government office region	*1998*	*2001 on 1998 specification*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*
North East	4,120	4,850	4,930	4,780	4,360	4,540	4,230	3,970	4,030
North West	8,370	10,390	10,710	11,770	11,390	11,830	11,860	11,060	10,910

Information at county level for land which has been de-designated and the acreage of land which has been built on could be provided only at disproportionate cost.

Domestic Waste: Waste Disposal

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what representations he has received on provision for waste bins in the design of new residential developments. [286509]

Mr. Ian Austin: The Government receive a range of representations from groups and individuals on a wide range of topics including the provision of waste bins in residential developments. I refer the hon. Member to the answers given on 12 March 2009, *Official Report*, columns 741-42W and 29 October 2008, *Official Report*, columns 1144-45W as examples. The provision of and access to for solid waste, such as waste bins, is addressed by Part H6 of Schedule 1 to the Building Regulations, and in Category 5 (Was 1) of the Code for Sustainable Homes.

Empty Dwelling Management Orders

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what guidance his Department and its agencies have issued to local authorities in *(a)* each region and *(b)* each London borough in relation to the use of empty dwelling management orders. [286521]

Mr. Ian Austin: The Department supported the guidance on Empty Dwelling Management Orders which was launched by the independent Empty Homes Agency on 10 March. A foreword to the guidance was provided by the then Minister of State for Housing and Planning. Individual guidance is provided on demand to all local authorities by my officials.

Faith and Social Cohesion Unit

Mr. Wallace: To ask the Secretary of State for Communities and Local Government what support his Department is giving to the Charity Commission's Faith and Social Cohesion Unit. [286105]

Mr. Malik: The Department for Communities and Local Government is part-funding the Charity Commission's Faith and Social Cohesion Unit to a total of £1.3 million over financial years 2007-08, 2008-09, and 2009-10. The Charity Commission is also contributing £200,000 over each of these financial years through staff resources.

Fire Services

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government (1) what the latest timetable is for each of the regional fire control room to become fully operational; whether any control room is expected to go live before June 2010; and if he will make a statement; [283696]

(2) when he expects the new London fire control centre to be operational. [283833]

Mr. Malik: I refer the hon. Member to the written statement I made to the House today which sets out the latest position on the FiReControl project.

Fire Services: Manpower

Dr. Kumar: To ask the Secretary of State for Communities and Local Government how many fire fighters were employed at fire stations in *(a)* the North East, *(b)* Tees Valley and *(c)* Middlesbrough South and East Cleveland constituency in each year since 1997. [285328]

Mr. Malik: Available data on the number of firefighters are shown in the tables. These are for: *(a)* the north-east, and for *(b)* the Tees Valley areas of Cleveland and of Darlington.

Fire fighter strength data for Darlington, and both headcount and strength data for Middlesbrough South and East Cleveland constituency, are not held centrally and could be provided only at disproportionate cost.

(a) Number of firefighters, the north-east of England, 1999 to 2008

	Headcount		Strength	
At 31 March	Whole-time	Retained duty	Wholetime[1]	Retained duty[2]
1999	2,195	450	2,195	343

Durham and Darlington Fire and Rescue Service

Fires: Domestic Waste

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what steps fire authorities have taken to examine the causes of wheeled refuse container fires; and if he will make a statement. [286523]

Mr. Malik: All fires are investigated by fire and rescue services and a most likely cause is determined either by the incident commander or a fire investigation officer.

Local analysis of fire data is undertaken within fire and rescue services to determine trends, such as geographical locations or types of incident, and to inform the Integrated Risk Management Planning process. These data are used internally and are not shared with Communities and Local Government.

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government if he will estimate the number of wheeled refuse container fires in England in the last 12 months. [286567]

Mr. Malik: The number of wheeled refuse container fires is not yet held centrally and so could be provided only at a disproportionate cost.

Data on refuse fires are calculated from aggregate monthly returns. These are limited to the total number of refuse and refuse container fires attended by each fire and rescue service. These provide insufficient information to make an estimate on the number of wheeled refuse container fires.

The total number of refuse and refuse container fires is shown in the table for the latest year for which information is available.

The recently implemented electronic incident recording system (IRS) records both the number and location of all incidents attended by fire and rescue services. The number and location of wheeled refuse container fires attended by fire and rescue services will therefore be available, with the first data being for 2009-10.

Flats: Construction

Mr. Clapham: To ask the Secretary of State for Communities and Local Government if he will ensure that blocks of flats of a height of 30 metres or more completed or refurbished after April 2007 are fitted with sprinkler systems. [286346]

Mr. Ian Austin: The Building Regulations 2000 require that

"where reasonably necessary to inhibit the spread of fire within the building"

automatic fire suppression systems and/or fire resisting construction should be provided in new buildings.

In April 2007, the guidance given in Approved Document B (Fire safety), which shows one way in which this requirement can be met, was amended to provide that both a sprinkler system and fire resisting construction should be provided in new blocks of flats over 30 m in height.

The building regulations apply to building work. Therefore, where a building is being refurbished and building work is being undertaken, that work will need to comply with the relevant requirements of the regulations and the rest of the building should be made no worse as a result of the work being carried out.

Furthermore, the Regulatory Reform (Fire Safety) Order 2005 requires those with responsibility for the building (usually the employer, owner or occupier) to carry out a fire risk assessment based on the particular circumstances and use of the premises. Under the order, the responsible person must put in place whatever fire protection measures are adequate and appropriate to mitigate the risk to life in the event of a fire. The order is not prescriptive about what specific fire safety measures are required. This is a matter for the responsible person based on the outcome of their risk assessment.

Green Belt

Martin Horwood: To ask the Secretary of State for Communities and Local Government what area of land designated as green belt in each county in 1997 has since been dedesignated; and what area of land has been designated as green belt since 1997. [286473]

Mr. Ian Austin: The information requested is not held centrally. However, statistics on the area of green belt land are published in Local Planning Authority Green Belt Statistics: England 2008-09 which can be found at:

http://www.communities.gov.uk/publications/corporate/statistics/lagreenbelt2008

The table in Annex 4 provides estimates of the area of green belt by region for 1997 and 2008-09, and for selected intervening years.

Guidance for Local Authorities on Translation of Publications

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for the Wrekin of 4 February 2009, *Official Report*, column 1292W, on what date Guidance for Local Authorities on Translation of Publications was issued. [286568]

Mr. Malik: Guidance for Local Authorities on Translation of Publications was published on 7 December 2007. It is available from:

www.communities.gov.uk/publications/communities/translationguidance

Housing: Hertfordshire

Mike Penning: To ask the Secretary of State for Communities and Local Government (1) how many affordable homes have been built in *(a)* Hemel Hempstead constituency, *(b)* Dacorum and *(c)* Hertfordshire in each of the last five years; [285895]

(2) how many homes for social rent have been built in *(a)* Hemel Hempstead constituency, *(b)* Dacorum and *(c)* Hertfordshire in each of the last five years. [285896]

Mr. Ian Austin: Information on new homes built for social rent and affordable housing is not available by constituency.

The following table shows the number of new affordable homes built in Dacorum local authority and Hertfordshire in each of the last five years.

	2003-04	*2004-05*	*2005-06*	*2006-07*	*2007-08*
Dacorum	140	20	20	120	190
Hertfordshire	860	690	760	1,540	1,110

The following table shows the number of new social rented homes built in Dacorum local authority and Hertfordshire in each of the last five years.

	2003-04	*2004-05*	*2005-06*	*2006-07*	*2007-08*
Dacorum	110	0	10	50	100
Hertfordshire	760	550	530	890	620

Source:
Homes and Communities Agency investment Management System (IMS), and local authority returns to CLG. Figures have been rounded to nearest 10 units.

Not all social rented and affordable housing is provided by new build completions, as some supply can come from acquisitions. For example, in 2007-08, a total of 210 additional affordable homes were provided in Dacorum (new build and acquisitions), and 1,310 additional affordable homes were provided in Hertfordshire (new build and acquisitions).

Housing: Low Incomes

Grant Shapps: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 5 May 2009, *Official Report*, column 135W, on housing: low incomes, what the average amount of

grant paid for *(a)* intermediate affordable housing and *(b)* housing for social rent in each region was in each of the last five years. [282584]

Mr. Ian Austin: The average amount of grant per unit paid through the Homes and Communities Agency's Affordable Housing programme by region for social rent and intermediate affordable housing in each year 2005-06 to 2008-09 is as follows:

Social rent—average grant per unit

	2005-06	2006-07	2007-08	2008-09
East Midlands	37,879	38,792	38,736	39,939
East of England	41,623	35,108	29,376	42,328
London	80,979	83,821	94,957	97,715
North East	53,301	45,189	59,354	46,067
North West	58,916	51,159	50,277	53,179
South East	52,325	55,190	49,973	53,444

National	31,795	28,927	25,524	30,313

Source:
Homes and Communities Agency

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many of the 20,000 additional energy efficient affordable homes referred to on page 38 of the Building Britain's Future publication are planned to be for *(a)* social rent and *(b)* low cost home ownership. [283618]

Mr. Ian Austin: The Government estimate that around 13,250 of the 20,000 additional energy-efficient affordable homes will referred to in Building Britain's Future will be for social rent, and around 6,750 for low cost home ownership.

Bob Spink: To ask the Secretary of State for Communities and Local Government how many properties had been sold under the HomeBuy Direct Scheme in *(a)* Essex and *(b)* Castle Point at the latest date for which figures are available. [285478]

John Healey: Provisional figures for the end of June 2009 show there were over 20 HomeBuy Direct sales completed in the Eastern region. We do not currently have statistically valid data for Essex or Castle Point.

Housing: Overcrowding

Ms Keeble: To ask the Secretary of State for Communities and Local Government what estimate he has made of the number of families living in overcrowded conditions in the latest period for which figures are available; and if he will make a statement. [287387]

Mr. Ian Austin: The latest estimate of the number of overcrowded households in England was published in January 2009 as part of the Survey of English Housing Preliminary Report: 2007-08 and is 565,000. This is based on the average of three years of the Survey of English Housing from 2005-06 to 2007-08. Overcrowding is defined according to the bedroom standard.

Housing: Single People

Chris Ruane: To ask the Secretary of State for Communities and Local Government how many people were living in single person dwellings in each region in each of the last 30 years. [285691]

Mr. Ian Austin: The particular data requested have not previously been published, but data on household size by tenure are published in the annual Survey of English Housing reports. The most recent data can be found in table 3 of the Survey of English Housing Preliminary Report 2007-08, available at:

www.communities.gov.uk/documents/statistics/pdf/1133551.pdf

The following table provides estimates of the number of one-person households in each region for 1999 to 2008 inclusive. Estimates by region for the years previous to this could be provided only at disproportionate cost. The overall number of one-person households in England in 1981 was 3,823,000 and in 1991 it was 5,039,000. The estimates are based on data from the ONS Labour Force Survey.

Number of one person households, England

International Comparison of Geographical Trading Models

Mr. Watson: To ask the Secretary of State for Communities and Local Government what the terms of reference were for the Ordnance Survey report entitled "International Comparison of Geographical Trading Models"; who was responsible for commissioning the report; and if he will place in the Library a copy of the report. [284789]

Mr. Ian Austin: I refer my hon. Friend to the answer I gave to the hon. Member for Meriden (Mrs. Spelman) on 14 July 2009, *Official Report*, column 316W.

The report was commissioned in April 2009 by my hon. Friend the Member for Hartlepool (Mr. Wright).

The terms of reference were:

"To provide a broad comparison of various trading models used by a representative sample of National Mapping Agencies with the current model operated by Ordnance Survey, and to understand their impact on the range, quality, currency and provision of national mapping, and of its use."

Islam

Mr. Wallace: To ask the Secretary of State for Communities and Local Government pursuant to paragraph 9.21 of the UK Strategy for Countering International Terrorism, Cm 7547, what projects his Department is supporting with universities to work with Muslim scholars, leaders and academics on contextualising Islam in Britain; and which universities, scholars and academics are involved. [286109]

Mr. Malik: Cambridge university, in association with the universities of Exeter and Westminster, have hosted a series of seminars to explore how Islamic theology and Muslim communities might respond to the challenges of living in modern Britain.

The discussions and debates will be captured in a report and published by Cambridge university in autumn this year. The report will feedback the views of participants on the issues discussed.

This project is being independently led by Cambridge university who have included imams, scholars and leaders from a diverse range of backgrounds.

Islam: Faith Schools

Mr. Wallace: To ask the Secretary of State for Communities and Local Government what contribution his Department has made to support the development of citizenship education in mosque schools through the Islam Citizenship Education Project. [286110]

Mr. Malik: The Islam and Citizenship Education (ICE) Project is jointly funded by the Department for Children, Schools and Families (DCSF) and the Department for Communities and Local Government. The DCSF awarded a contract, worth £318,652, to the School Development Support Agency (SDSA) running from February 2008 to July 2009 to develop and pilot citizenship lessons for use in mosque schools. The SDSA, working in conjunction with Muslim communities, has successfully delivered this contract. We are currently in the process of tendering for the next stage of the ICE Project to roll out the lessons to mosque schools nationally. Apart from fulfilling their contractual obligations, the SDSA and community-based organisations have made no financial contribution towards the ICE Project.

Local Government: Data Protection

Jenny Willott: To ask the Secretary of State for Communities and Local Government how many *(a)* attempts and *(b)* successful attempts made to gain unauthorised access to (i) databases and (ii) ICT systems run by each local authority were reported to his Department in each of the last five years; and if he will make a statement. [286550]

Mr. Malik: This issue is a matter for individual local authorities who, like all public sector organisations are required to comply with data protection legislation.

The Local Government Association (LGA) have published "Data Handling Guidelines for Local Government" to complement the Central Government Data Handling Guidelines published by the Cabinet Office. We welcome the LGA guidelines which are available online at:

http://www.idea.gov.uk/idk/core/page.do?pageId=9040133

Local Government: Translation Services

John Mann: To ask the Secretary of State for Communities and Local Government what changes in levels of provision of translation and interpreting services have been made by local authorities in the last 12 months. [286724]

Mr. Malik: The Department does not collect data on this. We provided Guidance for Local Authorities on Translation of Publications and this was published on 7 December 2007. It is available at:

www.communities.gov.uk/publications/communities/translationguidance

Mortgages: Government Assistance

Grant Shapps: To ask the Secretary of State for Communities and Local Government pursuant to the Answer of 9 July 2009, *Official Report*, column 959W, on mortgages: Government assistance, on what date *(a)* the Bank of Ireland, *(b)* GMAC, *(c)* Kensington Mortgages, *(d)* GE Money and *(e)* the Post Office joined the Homeowners Mortgage Support Scheme. [286972]

John Healey: GE Money joined the Homeowners Mortgage Support Scheme on 15 July 2009. The Department has continued to maintain close contact with Bank of Ireland, GMAC, Kensington Mortgages, GE Money and the Post Office in regard to joining the Homeowners Mortgage Support. All lenders have restated their commitment to the scheme and continue to work with the Department to implement the operational and system requirements necessary to offer the scheme to their customers as soon as possible.

Non-domestic Rates: Ports

Mr. Austin Mitchell: To ask the Secretary of State for Communities and Local Government whether he plans to take legal action against port owners for non-payment of business rates owed as part of their cumulo rental agreements. [286121]

Ms Rosie Winterton: The collection and enforcement of rates for properties on the local rating lists is a matter for local authorities.

Public Lavatories: Disabled

Mr. Todd: To ask the Secretary of State for Communities and Local Government what his policy is on the provision of Changing Places public conveniences. [285732]

Mr. Ian Austin: We are keen to see increasing numbers of Changing Places toilets, and will be exploring in detail what role Building Regulations might play in supporting improvements in provision at a national level. In order to do this, we will shortly be commencing a review of part M (access to and use of buildings) of the Building Regulations, which includes consideration of sanitary provision for disabled people, and revised guidance would be scheduled to come into force in 2013.

In addition, this Department's Strategic Guide on 'Improving Public Access to Better Quality Toilets', published last year, highlighted what local authorities, who have powers to provide public conveniences, and their partners can do to improve public access to toilets in their area. This included a section that drew attention to the Changing Places campaign, and stressed the importance of these facilities to people with profound and multiple learning disabilities.

Social Rented Housing: Hertfordshire

Mike Penning: To ask the Secretary of State for Communities and Local Government what proportion of *(a)* local authority and *(b)* housing association homes in (i) Hemel Hempstead constituency, (ii) Dacorum and (iii) Hertfordshire met the Decent Homes standard in each of the last five years. [285897]

Mr. Ian Austin: The proportion of dwellings that met the Decent Homes standard in each of the last five years are listed in the following table. Data for Hemel Hempstead are not available as the constituency crosses several administrative boundaries.

Proportion of decent dwellings

Percentage

	Local authority					*Registered social landlord*				
	2004	*2005*	*2006*	*2007*	*2008*	*2004*	*2005*	*2006*	*2007*	*2008*
Dacorum	96.7	97.1	97.3	95.9	99.20	n/a	87.6	83.7	91	91.2
Hertfordshire	84.2	83.7	83.4	80.4	83.9	n/a	87.6	87.5	90.6	88.9

Source:
Annual returns, from all LAs that retain social housing stock, to Communities and Local Government and annual return from Registered social landlords.

Social Rented Housing: Immigrants

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government whether the proposals relating to council and other social housing waiting lists in the Draft Legislative Programme 2009, Cm 7654, will apply to *(a)* immigrants from other EU member states and *(b)* asylum seekers from outside the EU. [283770]

Mr. Ian Austin: Our proposals will give local authorities more flexibility to take into account local needs and priorities when determining their allocation policies. In different localities, this might mean giving relatively more priority to people who:

- Can bring necessary skills to the area, as part of efforts to promote a stronger economy
- Are living in overcrowded conditions—if this is a serious local concern
- Have local family connections—if housing markets make private rental or ownership unaffordable for many
- Are engaging with training opportunities—where there is a particular need to address skills shortages and worklessness
- Have waited longest—where this is seen as the fairest means of distinguishing between otherwise similar applicants.

Social Rented Housing: Standards

Sarah Teather: To ask the Secretary of State for Communities and Local Government how much has been spent on bringing homes up to the Decent Homes Standard in *(a)* 2007-08, *(b)* 2008-09 and *(c)* 2009-10 to date; and how much is expected to be so spent in 2010-11. [283971]

Mr. Ian Austin: Information from the Homes and Communities Agency and Tenant Services Authority using statistical returns submitted by local authorities and registered social landlords indicate what we expect to be spent on expenditure maintaining the condition of social housing stock, including up to the Decent Homes standard. This information is set out in the table.

£ billion

	Total investment	*LA*	*RSL*
2007-08 (outturn figures)	4.15	3.21	0.94
2008-09	4.48	3.49	0.99
2009-10	4.25	3.21	1.04
2010-11	3.75	2.85	[1]0.90

[1] Assumed figure

BUSINESS, INNOVATION AND SKILLS

Business: Government Assistance

Andrew George: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to the answer to the hon. Member for Hertford and Stortford of 2 April 2009, *Official Report*, column 1443W, on the

Enterprise Finance Guarantee Scheme, how many applications have been received for guarantees under the Enterprise Finance Guarantee Scheme to date; how many of those applications have been eligible for help under the scheme; what the monetary value of such guarantees applied for by eligible applicants to date is; how many eligible applications have been processed and approved to date; and what the monetary value of such guarantees processed and approved to date is. [270428]

Ms Rosie Winterton: I refer the hon. Member to the answer I gave to the hon. Member for Angus (Mr. Weir) on 13 July 2009, *Official Report*, column 186W.

Economic Challenge Investment Fund

Tony Baldry: To ask the Minister of State, Department for Business, Innovation and Skills what the procedure is for *(a)* individuals and *(b)* businesses to apply for funding from the Economic Challenge Investment Fund. [286630]

Mr. Lammy: The Economic Challenge Investment Fund (ECIF) is a Higher Education Funding Council for England (HEFCE) matched funding initiative available to higher education institutions with a total value of just over £58 million. The fund was set up to help the sector provide swift and responsive support to individuals and businesses affected by the economic downturn. Individuals and businesses can access support directly from those higher education institutions successful in securing additional funding through ECIF.

Higher Education: Admissions

Mr. Marsden: To ask the Minister of State, Department for Business, Innovation and Skills what estimate his Department has made of the change in numbers of Universities and Colleges Admissions Service applications from applicants in each *(a)* age group, *(b)* region and *(c)* socio-economic group between 2008-09 and 2009-10. [285716]

Mr. Lammy: The latest figures published by UCAS showing applicants as at 30 June are shown in the tables. UCAS has not released any data on socio-economic group for 2009 entry.

UK domiciled applicants to full-time undergraduate courses in the UK at 30 June by age

UK domiciled students	2008	2009	Percentage change
Under 21	357,986	381,916	6.7
21-24	48,993	57,443	17.2
25 and over	54,535	66,557	22.0
Total	461,514	505,916	9.6

UK domiciled applicants to full-time undergraduate courses in the UK at 30 June by home country

Country of domicile	2008	2009	Percentage change
England	390,358	429,734	10.1
Scotland	33,890	35,892	5.9
Wales	20,577	22,839	11.0
Northern Ireland	16,689	17,451	4.6
Total	461,514	505,916	9.6

Source:
UCAS

Mr. Marsden: To ask the Minister of State, Department for Business, Innovation and Skills what estimate his Department has made of the number of *(a)* places available for applicants in and *(b)* applications for entry to university in 2009. [286023]

Mr. Lammy *[holding answer 13 July 2009]:* As of 30 June, there had been 487,356 applicants to full-time undergraduate courses for entry in 2009. This is based on UCAS data, and covers UK and EU domiciled applicants to English institutions. UCAS data do not provide a complete picture. They do not cover all institutions, or applications for part-time or postgraduate study.

We do not have an estimate of the total number of places available in 2009. This will depend on a number of factors—including growth in non-funded places and part-time provision.

In terms of HEFCE funded growth, the 2009 Grant Letter provides teaching grant for 10,000 Additional Student Numbers (ASNs) in 2009-10. ASNs refer to full-time equivalent places, and do not purely relate to entrants. They are also used to accommodate second or subsequent cohorts related to entrant expansion in earlier years. HEFCE estimate that the allocation these ASNs funds an additional 10,000 part-time entrant places (in headcount terms) and 3,000 full-time entrant places in 2009. This is in addition to the number of entrants in 2008. Data on the number of entrants in 2008 will not be available until early 2010.

Stephen Williams: To ask the Minister of State, Department for Business, Innovation and Skills how many first degree undergraduates from *(a)* England and *(b)* other EU member states have been enrolled at a university in each year since 2005. [286835]

Mr. Lammy: The latest figures from the Higher Education Statistics Agency (HESA) are shown in the table. Figures for the 2008-09 academic year will be available in January 2010.

Domiciled first degree enrolments[1] UK higher education institutions

Academic year	English	Other EU
2005-06	933,690	48,040
2006-07	940,650	51,780
2007-08	954,700	56,820

[1] Cover enrolments to both full-time and part-time courses.

Note:
Figures are based on a HESA standard registration population and have been rounded to the nearest five.

Source:
Higher Education Statistics Agency (HESA).

Higher Education: York

Hugh Bayley: To ask the Minister of State, Department for Business, Innovation and Skills how much funding per *(a)* undergraduate and *(b)* postgraduate student his Department and its predecessors allocated to (i) the University of York and (ii) York St. John University in each year since 1998. [285700]

Mr. Lammy: This information is not held in the form requested. However, it is possible to provide notional figures for the amount of grant distributed by the Higher Education Funding Council for England (HEFCE) for teaching and research apportioned by the number of

learners (full time equivalent) in each year. It should be noted that there have been some significant changes in HEFCE's funding methodology over this period which means that the following table should not be read as a time series. In addition the data do not take account of other sources of public funding, for example from the NHS or the Research Councils. Crucially it should be borne in mind that institutions have a significant degree of freedom in terms of how their grants are distributed internally. It is for that reason that the figures given are notional and should not be read as the actual level of resource attached to any particular learner.

£ per academic year

	York St. John University			*University of York*		
Study level	*UG*	*PGT*	*PGR*	*UG*	*PGT*	*PGR*

Key:
UG: Undergraduate
PGT: Postgraduate taught
PGR: Postgraduate research

Islam: Higher Education

Mr. Wallace: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to paragraph 9.21 of the UK Strategy for Countering International Terrorism, Cm 7457, how much of the £1 million which the Higher Education Funding Council for England has committed for work on the gaps in Islamic studies teaching and research has been allocated; and to what projects. [286114]

Mr. Lammy: In June 2007, the Government designated Islamic Studies as a strategically important subject and asked HEFCE to earmark £1 million of its existing funding to develop a programme of work to support this.

To date, HEFCE has allocated:

£100,000 towards commissioning research into Islamic Studies in higher education, building on Dr. Siddiqui's report on Islam at universities in England, and holding consultation events with the Islamic Studies community at:

http://www.hefce.ac.uk/aboutus/sis/islamic

£850,000 towards the development and implementation of a UK Islamic Studies network to bring the community of UK Islamic Studies scholars closer together. The Higher Education Academy (HEA) and the Joint Information Systems Committee (JISC) are taking this forward at:

http://www.hefce.ac.uk/aboutus/sis/islamic/network

In the coming year, HEFCE is commissioning a symposium for Islamic Studies scholars across the UK and Europe. Hosted by the British Academy, the symposium will promote the UK as a centre of excellence in Europe for Islamic Studies.

LDV

Mr. Watson: To ask the Minister of State, Department for Business, Innovation and Skills what steps he is taking to ensure that employees of LDV receive employment advice and support; and if he will make a statement. [279358]

Jim Knight: I have been asked to reply.

This question has been passed to me as the Department for Work and Pensions and Jobcentre Plus are responsible for the action being taken to help people who are made redundant. The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the right hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your question asking, what steps we are taking to ensure that employees of LDV receive employment advice and support. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

In response to LDV entering administration, we formed a Task Force in partnership with Birmingham City Council, Advantage West Midlands, the Regional Development Agency, the Learning and Skills Council and Unity, its regional redundancy response contractor.

From 8 June, Washwood Heath Jobcentre Plus set up a telephone hotline to take new claims appointments for all those workers being made redundant. These redundant workers attended LDV's premises on 11 and 12 June to meet with representatives of PricewaterhouseCoopers together with Jobcentre Plus and partners to provide advice.

Claims for Jobseeker's Allowance from the LDV Workforce were taken at Washwood Heath Jobcentre Plus on 13 and 14 June. The Pension, Disability and Carers Service, HM Revenue and Customs and Birmingham City Council attended over the weekend at the Jobcentre to give advice on pensions, tax credits, Housing Benefit, financial management and debt issues.

The former LDV workers are being offered a tailored package of support to help them get back into work as quickly as possible. This includes help and advice with their jobsearch, CV writing, interview techniques, training and identified employment opportunities. This package of help and support will be available across the West Midlands region and will be delivered by a range of partner organisations including the union Unity. The support package for LDV workers is being co-ordinated from the Jobcentre Plus Office in Washwood Heath and all LDV workers will be offered access to this help.

London Metropolitan University

Jeremy Corbyn: To ask the Minister of State, Department for Business, Innovation and Skills on what date his Department was first informed of the Higher Education and Funding Council for England's audit of student numbers and course completion rates at London Metropolitan University. [283560]

Mr. Lammy *[holding answer 2 July 2009]:* Ministers and officials in the Department were first informed about HEFCE's audit findings in February 2008.

Jeremy Corbyn: To ask the Minister of State, Department for Business, Innovation and Skills what steps he is taking to protect *(a)* student places and *(b)* staff jobs at London Metropolitan University following the Higher Education and Funding Council for England's request for repayment of funds allocated to the university in previous years. [283561]

Mr. Lammy *[holding answer 2 July 2009]:* It is an important principle set out in legislation (sections 65(1) and 68(2b) of the Further and Higher Education Act 1992) that Ministers cannot intervene in the funding decisions for individual institutions made by the Higher Education Funding Council for England (HEFCE). As is the case with other universities, London Metropolitan University receives grant from HEFCE under a Financial Memorandum which sets out how it should properly account for its public funding. It is for the Funding Council to keep the financial health of the institutions it funds under review to protect the public interest, including ensuring that public funds are properly spent.

The University will wish to consider a bid to HEFCE's Strategic Development Fund to support its future plans. The final decision on restructuring and forward planning must rest with the University and I remain confident that Higher Education provision in general across London will be sufficient to meet the diversity of demand. No Government, however, can give a commitment to protect every course or department at any particular institution.

Jeremy Corbyn: To ask the Minister of State, Department for Business, Innovation and Skills if he will ensure publication of the KPMG report commissioned by the Higher Education and Funding Council for England (HEFCE) into the finances of London Metropolitan University on its receipt by HEFCE. [283562]

Mr. Lammy *[holding answer 2 July 2009]:* The Funding Council's Board and Chief Executive commissioned a report from KPMG of the lessons to be learned from its recent engagement with London Metropolitan University. It is for the Council to take decisions on publication. I have, however, been assured that it will be made available as soon as the Funding Council has had an opportunity to consider the findings of the report. This is expected to happen before the end of July.

Jeremy Corbyn: To ask the Minister of State, Department for Business, Innovation and Skills what discussions *(a)* Ministers and *(b)* officials have had with the Higher Education and Funding Council for England on the (i) finances of and (ii) student numbers at London Metropolitan University; and on what dates those discussions took place. [283563]

Mr. Lammy *[holding answer 10 July 2009]:* HEFCE discussed the current situation at London Metropolitan university with Ministers in February 2008, 24 March 2009, 6 May 2009, 10 June 2009 and 8 July 2009. In addition there were discussions at HEFCE's board meeting on 28 February 2008, 8 May 2008, 17 December 2008, 22 January 2009, 26 February 2009, 1 April 2009, and 7 May 2009. A senior official from the Department was present at each of these meetings. There have been regular discussions between HEFCE and other departmental officials throughout this period.

Ministers and officials have not sought to influence decisions on the finances of or the student numbers at London Metropolitan university, which under sections 65(1) and 68(2b) of the Further and Higher Education Act 1992 are a matter for the Funding Council.

Jeremy Corbyn: To ask the Minister of State, Department for Business, Innovation and Skills what steps his Department has taken to ensure an independent inquiry into the finances of London Metropolitan University following the Westminster Hall adjournment debate of 20 May 2009, *Official Report*, columns 435-57WH. [283745]

Mr. Lammy *[holding answer 2 July 2009]:* I fully supported the Funding Council's decision to commission an independent review of its own handling of the situation at London Metropolitan university. It has also always been my view that a similar review should be conducted into the actions of the university itself, and I have made that view clear in discussions with the Funding Council. I am therefore pleased that London Metropolitan has now commissioned Sir David Melville and Deloitte to conduct such a review. I believe that this must look at all aspects of what happened at London Metropolitan, including issues of governance.

Post Office Card Account

Mr. Frank Field: To ask the Minister of State, Department for Business, Innovation and Skills what progress has been made in the discussions between Xafinity Paymaster and the Post Office on the payment of armed forces pensions into the Post Office Card Account. [284813]

Mr. Kevan Jones: I have been asked to reply.

I will write to the right hon. Member with the information requested shortly.

Students: Fees and Charges

Stephen Williams: To ask the Minister of State, Department for Business, Innovation and Skills what estimate he has made of the total receipts from university tuition fees debt repayments in each year from 2009-10 to 2019-20. [286228]

Mr. Lammy: Provisional figures for income contingent student loan repayments, either notified to or received by the Student Loans Company, in the financial year 2008-09 were £788.3 million[1]. It is not possible to break down this figure to amounts repaid for tuition fee loans and maintenance loans, as they are consolidated in the borrower's loan account.

Estimates of income contingent student loan repayments will depend on a number of factors, including student numbers, graduate income levels and patterns of behaviour. Estimates for 2009-10 and 2010-11 are approximately £1.2 billion and £1.4 billion respectively. Estimates for later years are not available.

Figures for financial year 2009-10 are expected be published in a Statistical First Release in summer 2010.

[1] This figure covers direct repayments to SLC, and HMRC notifications of repayments collected through the tax system sent through to SLC in that year, less refunds by SLC to customers where borrowers have over paid their loans—English domiciled students studying in the UK and EU students studying in England.

Source:

SLC Statistical First Release 2002-09 published 25 June 2009.

Students: Radicalism

Mr. Wallace: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to paragraph 9.22 of the UK Strategy for Countering International Terrorism, Cm 7457, what the highest priority establishments are which his Department is targeting to reduce the risk of radicalisation on campus. [286115]

Mr. Lammy: This Department prioritises support to Higher Education Institutions in local authority areas which receive specific Prevent funding to ensure that these institutions are fully linked up to local police and Prevent partnerships that already exist in these areas. Further targeted support with individual institutions will begin in the new academic year.

Training: Logistics

Mrs. Gillan: To ask the Minister of State, Department for Business, Innovation and Skills how much the Government has spent on improving the skills of the workforce in the logistic transport industry in Wales in each of the last five years. [285562]

Mr. Hain: I have been asked to reply.

UK Government funding for Skills for Logistics, the Sector Skills Council for the logistic transport industry, is provided through the UK Commission for Employment and Skills. Over the last five financial years, they have provided the following funding for the UK as a whole:

	£ million
2004-05	1.519
2005-06	2.127
2006-07	2.352
2007-08	1.940
2008-09	2.438

As Skills for Logistics is allocated resources to provide training across the UK, spending in Wales could only be disaggregated at disproportionate cost.

Unemployment: Young People

Mr. Hayes: To ask the Minister of State, Department for Business, Innovation and Skills what percentage of people aged 24 years or under were classified as not in education, employment or training on the latest date for which figures are available are graduates. [286221]

Mr. Lammy *[holding answer 13 July 2009]:* The number of people aged[1] 16 to 24 not in education, employment or training in the first quarter (January to March) of 2009 was 935,000. Of these, 7.2 per cent. (67,000) held a degree level qualification (or a qualification equivalent to a degree, level 5) or higher.

These estimates are taken from the Labour Force Survey (LFS). This is a sample survey subject to variability so numbers are rounded to the nearest thousand and percentages to one decimal place.

[1] Age used is the respondents academic age, which is their age at the preceding 31 August.

Mr. Hayes: To ask the Minister of State, Department for Business, Innovation and Skills how many people aged between 16 and 24 years old who were classified as not in education, employment or training at the latest date for which figures are available have at least five GCSEs at grades A* to C. [286222]

Kevin Brennan *[holding answer 13 July 2009]:* The number of people aged[1] 16 to 24 not in education, employment or training in the first quarter (January to March) of 2009 was 935,000. Of these, 404,000 (43.2 per cent.) held an NQF level 2 qualification or higher. NQF level 2 is the equivalent to five GCSEs grade A*-C.

These estimates are taken from the Labour Force Survey (LFS). This is a sample survey subject to variability so numbers are rounded to the nearest thousand and percentages to one decimal place.

[1] Age used is the respondents academic age, which is their age at the preceding 31 August.

Mr. Hayes: To ask the Minister of State, Department for Business, Innovation and Skills what percentage of people aged between 16 and 24 years old classified as not in education, employment or training on the latest date for which figures are available do not have a level 3 qualification. [286223]

Kevin Brennan *[holding answer 13 July 2009]:* The number of people aged[1] 16 to 24 not in education, employment or training in the first quarter (January to March) of 2009 was 935,000. Of these, 79.6 per cent. (744,000) did not hold a level 3 qualification.

These estimates are taken from the Labour Force Survey (LFS). This is a sample survey subject to variability so numbers are rounded to the nearest thousand and percentages to one decimal place.

[1] Age used is the respondents academic age, which is their age at the preceding 31 August.

Written Questions: Government Responses

Mr. MacNeil: To ask the Minister of State, Department for Business, Innovation and Skills when he plans to answer question 273970, tabled on 5 May 2009, on the Cabinet meeting in Glasgow. [281292]

Mr. McFadden: I refer the hon. Member to the answer I gave on 3 July 2009, *Official Report*, column 432W.

INTERNATIONAL DEVELOPMENT

Afghanistan

Mr. Elwood: To ask the Secretary of State for International Development what expenditure his Department has incurred in *(a)* Helmand Province and *(b)* elsewhere in Afghanistan in 2009-10 to date.[1] [286922]

Mr. Douglas Alexander: The budget for Helmand province in 2009-10 is £18 million and the rest of Afghanistan is £109.5 million. We anticipate spending our full combined budget of £127.5 million by the end of 2009-10.

The Department for International Development (DFID) publishes expenditure in its annual report and the Statistics in International Development publication. These are available in the Library of the House and on the DFID website:

www.dfid.gov.uk

Afghanistan: Overseas Aid

Mr. Elwood: To ask the Secretary of State for International Development what funding his Department has allocated for reconstruction, development and stabilisation projects in Babaji, Helmand province following the completion of Operation Panchai Palang; and what steps his Department is taking to secure contributions

1. *[Official Report, 12 October 2009, Vol. 497, c. 1MC.]*

from international and development agencies for such projects. [286921]

Mr. Douglas Alexander: The Department for International Development (DFID) has set aside a total of £72 million over the next four years to promote stability and development in Helmand province as a whole, including for projects in Babaji.

DFID also works with the Ministry of Defence and the Foreign and Commonwealth Office to allocate additional funding to Helmand from the cross-departmental Stabilisation Aid Fund (SAF). The three Departments have agreed to set aside almost £15 million of SAF funding for district stabilisation projects across Helmand in 2009-10. In the Babaji area, funds will be used to respond to identified needs in the areas of health, education, policing, elections, justice and small-scale infrastructure. Our support will enable the Afghan Government to re-engage in Babaji.

Over the next few months, DFID will provide £5 million and the SAF will provide an additional £3 million for wheat seed, fertiliser, and agricultural assistance across Helmand province, including to farmers in Babaji. From September, USAID will provide agricultural vouchers, cash for work, and small business grants throughout Helmand, which will include Babaji.

DFID support includes two long-term infrastructure projects on which we are working with our international development partners. DFID has secured co-funding from the Asian Development Bank for the construction of a 48 km road through the Babaji area, connecting Lashkar Gah to Gereshk. DFID, the Asian Development Bank and the Danish Government will also co-fund the rehabilitation of a hydro-power plant in Gereshk. The project is expected to triple electrical generation capacity, benefiting 200,000 people.

Afghanistan: Prisoners

Dr. Evan Harris: To ask the Secretary of State for International Development what assessment he has made of the implications of the custodial sentence imposed on journalist Sayed Perwez Kambaksh for his Department's plans to provide assistance to the legal and judicial sector in Afghanistan. [285356]

Mr. Douglas Alexander: The Department for International Development (DFID) has no plans to provide funding to the formal legal and judicial sector in Afghanistan.

The Foreign and Commonwealth Office (FCO) leads on UK assistance to the rule of law in Afghanistan. FCO engagement in Afghanistan, like all UK support to legal and judicial systems worldwide, is aimed at improving human rights and the rule of law. The challenges faced in the Afghan legal and judicial system demonstrate why it is so important that the UK remains engaged in this sector.

Africa: Overseas Aid

Andrew Stunell: To ask the Secretary of State for International Development what recent assessment he has made of the Government's progress towards its 2005 G8 commitment to double aid for the eradication of poverty in Africa by 2010. [285368]

Mr. Thomas: The UK Government are on track to meet their commitments to Africa made at the Gleneagles G8 meeting in 2005. Our expenditure in Africa is projected to reach £3.4 billion in 2010-11, from a baseline of £1.26 billion in 2004-05. These spending levels were confirmed in the April 2009 Budget.

Armed Conflict

Tony Baldry: To ask the Secretary of State for International Development which states he considers to be fragile. [285399]

Mr. Michael Foster: The Department for International Development (DFID) is committed to increasing its efforts in fragile states, and so a list is needed to monitor our progress. DFID's current list combines a mix of the World Bank's Country Policy and Institutional Assessment (CPIA) index and the Fund for Peace's Failed States Index (FSI). We will update the list every two years with the next update due in October this year.

CDC

Tony Baldry: To ask the Secretary of State for International Development which countries in which CDC has investments do not meet the international tax standard. [285398]

Mr. Douglas Alexander: CDC has existing investments in six jurisdictions which, as of the progress report by the OECD Global Forum of 8 July 2009, have committed to but not yet met the international tax standard of 12 Tax Information Exchange Agreements (TIEAs). These are:

Cayman Islands
British Virgin Islands
Netherlands Antilles
Vanuatu
Singapore
Malaysia

CDC will in future only commit capital to new funds and direct investments in jurisdictions implementing the international tax standard and in the developing countries they are aiming to help.

Departmental Databases

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development pursuant to his Oral Statement of 6 July 2009, *Official Report*, columns 701-4, on Building Our Common Future, when he expects the searchable database of his Department's funded projects will be available online. [285915]

Mr. Michael Foster: The date when this database will be available has not yet been established.

Departmental Electronic Equipment

Mr. Hoban: To ask the Secretary of State for International Development how many *(a)* BlackBerry devices and *(b)* mobile telephones have been lost by (i) Ministers, (ii) special advisers and (iii) civil servants in his Department in each year since 2005. [274469]

Mr. Michael Foster: Our records show that in the last five years we have had no BlackBerry devices lost and the total number of mobile phones lost was 13. We cannot break this down further as this information is not readily available and cannot be provided without incurring a disproportionate cost.

The total number of mobile phones lost in each of the last five years is as follows:

	Numbers lost
2004-05	3
2005-06	5
2006-07	4
2007-08	1
2008-09	0

Jenny Willott: To ask the Secretary of State for International Development how many *(a)* photocopiers, *(b)* scanning devices and *(c)* fax machines, excluding multi-function devices, there are in his Department; how many there were in each of the last three years; and if he will make a statement. [286170]

Mr. Michael Foster: In the Department for International Development's two UK offices we have as follows:

	2007	*2008*	*2009*
Photocopiers	28	28	27
Scanners	7	7	8
Fax machines	72	66	63

Information on machines held in our overseas offices is not held centrally, and could not be obtained without incurring disproportionate cost.

The number of fax machines has declined in recent years, as we increasingly rely on e-mail. Scanners are mainly used in relation to our electronic document management system.

Departmental Information Officers

Paul Holmes: To ask the Secretary of State for International Development what the cost to his Department of *(a)* press officers and *(b)* other press office staff has been in each year since 1997. [283062]

Mr. Michael Foster: The cost of press office staff salaries in 2008-09 was £940,154 and for 2007-08 was £648,516; this includes permanent and agency staff. The other requested information was provided in the answer on 21 April 2008, *Official Report*, column 1426W.

Departmental Procurement

Bob Spink: To ask the Secretary of State for International Development what changes have been made to his Department's *(a)* office equipment and *(b)* stationery purchasing policy in the last six months. [285315]

Mr. Michael Foster: There have been no changes to the Department for International Development's office equipment or stationery purchasing policy in the last six months.

Developing Countries

Tony Baldry: To ask the Secretary of State for International Development what the terms of recruitment and retention for the cadre of 1,000 civilians that his Department is proposing to utilise in unstable environments will be. [285400]

Mr. Michael Foster: The cadre will comprise 200 civil servants, forming the Civil Service Stabilisation Cadre (CSSC), and 800 deployable civilian experts (DCEs) from outside the civil service.

The CSSC members will remain as part of their home departments when they are on the cadre. If they are selected for a deployment overseas they will seconded to the stabilisation unit for the duration of the deployment, after which they will return to their home department.

DCEs will be recruited and remain on the database on a voluntary basis. No financial retainers will be paid. Regular communication with them will establish their continued availability and willingness to deploy.

Tony Baldry: To ask the Secretary of State for International Development under what process individuals may volunteer to work for the Globalisation Unit which will undertake work in unstable environments. [285401]

Mr. Michael Foster: Individuals can apply to be part of the Stabilisation Unit's civilian capability by making an application via the Stabilisation Unit website at

www.stabilisationunit.gov.uk.

The cadre is made up of civil servants who can apply to the Civil Service Stabilisation Cadre (CSSC) and those from outside the civil service who can apply to be a deployable civilian expert (DCE). If accepted onto the roster, candidates will be considered for specific deployments.

Overseas Aid

Tony Baldry: To ask the Secretary of State for International Development pursuant to the oral statement of 6 June 2009, *Official Report*, columns 701-04, on his Department's White Paper, what percentage of his Department's budget will be allocated to *(a)* budget aid, *(b)* project aid and *(c)* funding multilateral institutions in each year covered by the White Paper. [285395]

Mr. Michael Foster: Details on the Department for International Development's (DFID) spending plans to 2010-11 will be included its annual report due to be published before the summer recess. This will be made available in the Library of the House and on the DFID website:

www.dfid.gov.uk

Palestinians: Overseas Aid

Mr. Andrew Smith: To ask the Secretary of State for International Development how much aid his Department has *(a)* committed to and *(b)* spent in Gaza in 2009-10. [286687]

Mr. Michael Foster: The total budget currently allocated for the Occupied Palestinian Territories for this financial year is £67 million.

In the first three months of 2009-10, the Department for International Development (DFID) has spent approximately £6 million in Gaza on support to the United Nations Relief and Works Agency (UNRWA) and other organisations providing humanitarian assistance.

A further £5.5 million is in the pipeline for Gaza, including a payment that we will soon make to the Palestinian Authority (PA) through the World Bank Trust Fund. This will help pay teachers, doctors and engineers, and keep basic services running. In addition, this financial year we expect to spend a further £7.6 million on early recovery assistance in Gaza.

We have earmarked the remaining £20 million for reconstruction when access restrictions are eased and it is possible for projects to start.

Since the political situation in Gaza remains fluid, we cannot give exact figures on how much will be spent this year. However, we aim to maintain flexibility so that we can respond at short notice if possible. The amount of further support to the PA for this financial year, which would also benefit Gaza, is still to be decided.

Remittances

Tony Baldry: To ask the Secretary of State for International Development what steps his Department is taking to help reduce the cost of foreign nationals sending home remittances; and if he will make a statement. [285396]

Mr. Michael Foster: The Department for International Development's (DFID) White Paper published on 6 July 2009 and available in the Library of the House and on the DFID website

www.dfid.gov.uk

outlines our new commitments on remittances.

DFID will work with the World Bank co-ordinated Global Remittances Working Group, set up by the G8 this year. We also have a number of country partnerships focused on reducing costs and developing new products for remittances.

Zimbabwe: Overseas Aid

Andrew Stunell: To ask the Secretary of State for International Development what steps his Department plans to take to monitor whether aid recently allocated by his Department to Zimbabwe reaches its intended recipients. [285369]

Mr. Thomas: All UK bilateral assistance to Zimbabwe is provided through trusted partners, mainly the United Nations and non-governmental organisations who have robust monitoring and financial accounting systems to ensure aid reaches its intended recipients. In addition, we review all our contributions regularly to ensure our funds meet the objectives for which they were intended. This is done through quarterly reporting and annual reviews in addition to field visits.

We do not pass funds directly to the Government of Zimbabwe or through the government financial management system, nor do we make payments to partners through the Reserve Bank of Zimbabwe.

HEALTH

Accident and Emergency Departments: Alcohol

Norman Lamb: To ask the Secretary of State for Health how many *(a)* people, *(b)* under 18 year olds, *(c)* under 16 year olds and *(d)* under 12 year olds (i) attended and (ii) were admitted via accident and emergency departments for excessive consumption of alcohol in each primary care trust area in England in each year since 1997-98. [285525]

Gillian Merron: The information for alcohol-related attendances at accident and emergency departments is not collected centrally. Information on alcohol-related hospital admissions is collected centrally. Tables which show the number of alcohol-related hospital admissions via accident and emergency departments has been placed in the Library. These relate to numbers of admissions rather than individuals.

A small proportion of alcohol-related hospital admissions relate to chronic conditions which, based on research evidence, are attributed to alcohol consumption within the Government's lower risk guidelines for regular consumption.

It should be noted that information on alcohol-related hospital admissions is only available for the years 2002-03 to 2007-08 and that because of patient confidentiality data for under 18s have not been broken down into the age groups requested. Additionally, primary care trust boundaries changed between 2005-06 and 2006-07, so separate tables have been provided for the two periods.

Alcoholic Drinks: Misuse

Sandra Gidley: To ask the Secretary of State for Health how many minors received treatment for alcohol addiction in each primary care trust area within the ceremonial county of Hampshire in each of the last five years; and what estimate his Department has made of the average cost per patient of treatment for alcohol addiction in each such year. [286279]

Gillian Merron: Information about the number of minors receiving treatment for alcohol addiction is not collected centrally. Therefore, the Department is unable to estimate the average cost per patient of treatment for alcohol addiction.

Carers

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the contribution of the Minister of State, Department of Health on 11 June 2009, *Official Report*, column 976, on carers, what the basis is of his Department's estimate of the number of carers in England. [285939]

Phil Hope: The main source of information that the Department uses for the number of carers is the 2001 Census.

Nomis, a web-based database, run by the university of Durham on behalf of the Office for National Statistics, shows that there were 4.85 million carers in England.

We recognise the importance of having up-to-date information on carers. That is why we have recommended to Parliament that a question on carers is included in the 2011 Census. This will provide a 10-year comparison with 2001 for the number of carers in each local area and the number of hours of care they provide.

Dental Services: Waiting Lists

Mr. David Anderson: To ask the Secretary of State for Health what the average waiting time for *(a)* initial orthodontic assessment and *(b)* subsequent orthodontic treatment was in the North East region in each of the last five years. [286247]

Ann Keen: The following tables show the median in-patient waiting time for elective admission in weeks for oral surgery, orthodontics between the time periods shown (table 1) and the median out-patient waiting time for a first out-patient appointment in weeks for the time periods shown (table 2).

Table 1: In-patient commissioner hospital-based waiting list statistics: specialties—oral surgery, orthodontics

Weeks

		Month ending					
Area	Specialty	March 2003	March 2004	March 2005	March 2006	March 2007	September 2007
North East	Oral surgery	8.4	8.4	6.6	6.6	6.5	7.1
North East	Orthodontics	8.0	8.2	n/a	n/a	n/a	n/a

n/a = No orthodontic waiters were declared for the time periods specified.

Notes:
1. Figures are shown for organisations that existed at the time.
2. In-patient waiting times are measured from decision to admit by the consultant to admission to hospital.
3. The last time this data was collected was for period ending September 2007.
4. Median waiting times are calculated from aggregate data, rather than patient level data, and therefore are only estimates of the position on average waits.
5. In particular, specialties with low numbers waiting are prone to fluctuations in the median. This should be taken into account when interpreting the data.

Source:
Department of Health Waiting List Collections QF01 and MMRCOM.

Table 2: Median out-patient waiting time for first out-patient appointment not seen, 2005-07 (commissioner-based), out-patient commissioner hospital-based waiting list statistics: specialties—oral surgery, orthodontics

Weeks

		Month ending			
Area	Specialty	March 2005	March 2006	March 2007	September 2007
North East	Oral surgery	4.5	4.7	4.1	3.8
North East	Orthodontics	5.4	5.6	4.4	4.5

n/a = No orthodontic waiters were declared for the time periods specified or there were very low numbers.

Notes:
1. Figures are shown for organisations that existed at the time.
2. Out-patient waiting times are measured from referral by the general practitioner (GP) to first out-patient appointment to the consultant.
3. From 2004-05 all timebands for out-patients not seen were first collected so only average waiting first out-patient times can be made from this point in time.
4. The last time this data was collected was for period ending September 2007.
5. Median waiting times are calculated from aggregate data, rather than patient level data, and therefore are only estimates of the position on average waits. In particular, specialties with low numbers waiting are prone to fluctuations in the median. This should be taken into account when interpreting the data.

Source:
Department of Health Waiting List Collections QM08R and MMRCOM.

From 1 January 2009, no one should wait more than 18 weeks from the time they are referred by their GP or dentist to start of their consultant-led treatment unless it is clinically appropriate to do so or they choose to wait longer. The 18-week commitment covers pathways that involve or might involve consultant-led care, including orthodontics, which is now recorded under the oral surgery speciality.

Latest data show that since January 2009, the national health service has been delivering the operating standards for 18 weeks to ensure that no one should wait more than 18 weeks from the time they are referred to the start of their consultant-led treatment, unless it is clinically appropriate to do so or they choose to wait longer.

Departmental Contracts

Bob Spink: To ask the Secretary of State for Health if he will make an assessment of the standard of service provided to his Department and its agencies by contractors appointed by reverse auction. [285219]

Phil Hope: The Department and its two executive agencies, the Medicines and Healthcare products Regulatory Agency and NHS Purchasing and Supply Agency, do not use reverse auctions as part of procurements within their own budgets.

Departmental Data Protection

Jenny Willott: To ask the Secretary of State for Health what databases which will be managed by his Department or one of its agencies and which will contain personal information are *(a)* under construction and *(b)* expected to go live in each of the next five years; and if he will make a statement. [286504]

Phil Hope: Planned application developments which will contain personal information on members of the public or departmental staff are summarised in the following table. Year relates to expected year of implementation.

Any personal data stored on the Department's databases are subject to the Data Protection Act and to our own, internal data protection policy.

Following the publication of the cross government data handling review in June 2008, new projects and programmes that hold significant amounts of personal data are obliged to conduct privacy impact assessments.

	Year	Database	Description
	2009-10	Hospitality Reporting	Staff hospitality details and declarations of interest
	2009-10	Public Bodies	Data on the membership of all the Department's sponsored public bodies
	2009-10	Third Sector Funding	Grant applications and award monitoring process
	2009-10	The National Pandemic Flu Service	Pandemic flu information management system
	2011-12	Electronic Exchange of Social Security Information (EESSI)	Details of medical treatment received while abroad and evidence of entitlement. System to be jointly managed with Department for Work and Pensions and Customs and Revenue

	Year	Database	Description
	n/k	e-Directory	Contact details for departmental staff and external contacts. Under consideration, but on hold; likely to be implemented sometime within the next five years
NHS Choices	n/k	Contact management system	Information on service providers who support the NHS Choices programme. Timing uncertain but likely to be in the next two years
Medicines and Healthcare products Regulatory Agency (MHRA)	MHRA are not developing, and have no plans to develop, any databases containing personal information in the next five years		
NHS Purchasing and Supply Agency (PASA)	PASA are not developing, and have no plans to develop, any databases containing personal information in the next five years		
NHS Connecting for Health	There are a number of programmes which are either in the planning or initiation phase. The datasets for these programmes will be developed as a consequence of the detailed analysis within each specific programme and it is, therefore, not possible to provide the requested detail at this stage. NHS Connecting for Health operate a comprehensive Information Governance programme with which all programmes must comply. The specific detail of future datasets will be submitted to the Information Standards Board for review and evaluation at the appropriate time within each programme		

Jenny Willott: To ask the Secretary of State for Health how many *(a)* attempts and *(b)* successful attempts were made to gain unauthorised access to each (i) database and (ii) ICT system run by his Department in each of the last five years; and if he will make a statement. [286545]

Phil Hope: We are aware of only one attempt to gain unauthorised access to departmental databases or information and communication (ICT) systems in each of the last five years. A web page defacement resulted in a website page being altered without permission. There was no data loss, nor were any sensitive files compromised.

Unauthorised access

	Attempts		Successful attempts	
	Databases	ICT Systems	Databases	ICT Systems
2004-05	0	0	0	0
2005-06	0	0	0	0
2006-07	0	1	0	1
2007-08	0	0	0	0
2008-09	0	0	0	0

Departmental Databases

Mr. Watson: To ask the Secretary of State for Health what information databases his Department *(a)* maintains and *(b)* uses which do not contain personal information. [284400]

Phil Hope: The Department maintains over 600 internal databases. Many of these are for local use and contain a limited amount of personal data. To provide an up-to-date and accurate list of all maintained databases would require analysis at disproportionate cost. The most significant are listed in the following table.

Databases managed by the Department of Health not holding personal information

Database	Information
Business Management System—(BMS) Financial	Departmental financial information
FIMS	NHS financial information
Refcosts	NHS financial information
UNIFY	NHS statistical data
VAXX	Public Health vaccines data

All databases maintained by the Department are managed in compliance with the Data Protection Act. The categories of data held, and the purposes for which they are used, are detailed in the Department's entry in the Information Commissioner's Data Protection Register. This can be viewed at:

www.ico.gov.uk/ESDWebPages/DoSearch.asp?reg=4295533

The following databases contain personal information. Where the title of the database does not on its own explain its content, a brief note of explanation has been added.

Databases managed by the Department of Health holding personal information

Database	Information
Abortion Notifications	Forms required by the Abortion Act 1967
Agenda for Change Prison Service Database	Job evaluation data
Briefing material (LINUS)	The Department's policy lines
Business Management System (BMS)—HR	The Department's Human Resources data
Business Management System (BMS)—Procurement	The Department's procurement data
Certificate of Free Sales	Medical technology company name and address details
Clinical Excellence Database	Medical consultants employed by the NHS in England and Wales, and NHS employers
Contact	Correspondence management system including ministerial correspondence, parliamentary questions, and freedom of information requests
Distribution of Business	Departmental Business Pages
Dignity Champion Database	Dignity in Care
Directors of Estates and Facilities	—
Directory (Internal)	The Department's staff lists
Electronic Staff Record	NHS employees
External Directory	Details of external contact
Extra Care Housing Fund	Bid and award information for Extra Care Housing Scheme grants
Healthy Start Issuing Unit Database	Individuals who may receive financial assistance
Healthy Start Reimbursement Unit	Retailer register for the Healthy Start Scheme
Honours Material	Personal and staffing information
MEDBEN	Medical benefits overseas health claims
Mental Health Service Users Personal Data	Individual casework data under mental health legislation
Modernising Medical Careers	Contacts from Doctors applying for speciality training posts in the NHS
National Child Measurement Programme	Primary school children weight assessment data
National Research Register	Research projects funded by or of interest to the NHS (archived from July 2009)
National Stakeholder Forum Membership and Contacts	—
Nursery Milk Redemption Unit	Day care provider details

Databases managed by the Department of Health holding personal information

Database	*Information*
Occupational Health Smart Card System	Pre-employment checks of doctors
Payroll	The Department's staff payroll
Personal Medical Services (PMS) Pilots Central Return	—
POPPI and PANSI Registered Users Database	POPPI (Projecting Older People Population Information), PANSI (Projecting Adult Needs and Servicing Information)
Prison Probation Ombudsman (PPO) Death in Custody Reports	—
Private Contact Data for Mental Health Stakeholders	—
PROTOBS	Private Office and Top of the Office Business System
Injury Cost Recovery (ICR) Schemes	Recovery of insurance payments in respect of treatment to accident victims provided by the NHS
Security Vetting Database	Staff clearance details
SHA Very Senior Managers (VSM) Salaries and Performance Markings	Data about managers in the NHS and arm's length bodies

Departmental Electronic Equipment

Jenny Willott: To ask the Secretary of State for Health how many *(a)* photocopiers, *(b)* scanning devices and *(c)* fax machines, excluding multi-function devices, there are in his Department; how many there were in each of the last three years; and if he will make a statement. [286172]

Phil Hope: A managed print service was introduced in 2007, which included the deployment of multi-functional devices, many of which have scanning and fax capabilities and which replaced most of our photocopiers. Prior to the introduction of this service, the Department had 93 photocopiers.

The Department also has local reprographic units on its London estate, which are used for bulk copying. These local reprographic units have a total of nine photocopiers for this purpose.

Historical information regarding the numbers of scanners and fax machines is not held. As at July 2009, there are 179 faxes and 98 scanners on the estate.

Since the managed print service has been introduced no new scanners and four fax machines have been purchased in the last three years.

Departmental Hospitality

Norman Lamb: To ask the Secretary of State for Health whether his Department maintains a record of gifts and hospitality declared by its staff. [286674]

Phil Hope: All staff in the Department are bound by the Civil Service Management Code to declare gifts and hospitality received. A record of these declarations are maintained on the Department's register of interests.

Departmental Manpower

Norman Lamb: To ask the Secretary of State for Health (1) how many persons his Department *(a)* employed directly and *(b)* engaged as external contractors to work on press and public relations matters in each of the last five years; and at what cost in each such year; [285465]

(2) how many persons his Department's non-departmental public bodies *(a)* employed directly and *(b)* engaged as external contractors to work on press and public relations matters in each of the last five years; and at what cost in each such year. [285466]

Phil Hope: The available information is shown in the following tables.

Number of press officers employed by the Department's Media Centre, 2003-04 to 2007-08

	Number of staff
2007-08	28
2006-07	26
2005-06	30
2004-05	30
2003-04	26

Costs for the Department's Media Centre Staff, 2003-04 to 2007-08

	Cost (£ million)
2007 - 08	1.369
2006 - 07	1.765
2005 - 06	1.772
2004 - 05	1.471
2003 - 04	1.284

Figures exclude social security and pension costs. We are unable to give figures for 2008-09 as they have not yet been audited.

These figures only relate to activity by the Communications directorate and not to other areas of the Department as this would incur disproportionate cost.

It is not possible to include figures for non departmental public bodies as these figures are not held centrally.

Norman Lamb: To ask the Secretary of State for Health if he will publish the rules on movements of his Department's staff to commercial companies under the business appointments procedures. [286636]

Phil Hope: Rules on civil servants taking up outside business appointments are published in the Civil Service Management Code (section 4.3) which can be found at:

www.civilservice.gov.uk/about/work/codes/csmc/index.aspx

Section 4.3 Annex A contains the full guidance on accepting outside business appointments. The Department complies fully with the requirements of the Civil Service Management Code in ensuring adherence to the business appointments procedure.

These rules are also referred to in the Directory of Civil Service guidance, available at:

www.cabinetoffice.gov.uk/propriety_and_ethics/civil_service/civil_service_guidance.aspx

Standard employment contracts for all senior civil servants refer to the rules on outside business appointments.

Departmental Policy

Mr. Stephen O'Brien: To ask the Secretary of State for Health with which third party organisations *(a)* he and his predecessors, *(b)* other Ministers in his Department and *(c)* senior officials in his Department have met in the last 12 months to discuss matters relevant to the formulation of his Department's policies. [285938]

Phil Hope: Ministers and officials meet a wide range of organisations throughout the year and the information requested could be obtained only at disproportionate cost.

Dietary Supplements: EC Law

Mike Penning: To ask the Secretary of State for Health if he will instruct the Food Standards Agency to issue briefing material to United Kingdom Members of the European Parliament on progress in establishing maximum permitted levels for nutrients in food supplements under the provisions of Article 5 of the Food Supplements Directive; and if he will make a statement. [285676]

Gillian Merron: No specific levels for vitamins and minerals in food supplements have yet been proposed by the European Commission or discussed in Commission-led working group meetings with member states.

At this stage there are no plans for the Food Standards Agency to provide briefing material to United Kingdom Members of the European Parliament on progress in establishing maximum permitted levels for nutrients in food supplements under the provisions of Article 5 of the Food Supplements Directive.

Doctors: Working Hours

Mr. Lansley: To ask the Secretary of State for Health with reference to his announcement of 25 June 2009 on the European Working Time Directive, what *(a)* the 200 rotas recommended for a derogation from the Directive for doctors in training and *(b)* the two rotas not recommended for such a derogation are; and what the reasons for the decision were in each case. [286600]

Ann Keen: All rotas recommended for derogation are listed in the Statutory Instrument that was laid before Parliament. The services were recommended for derogation, as they were unlikely to be able to provide working arrangements for junior doctors of the complaint with the requirements of the directive in time to meet the deadline of 1 August and would require further support to become compliant.

The two rotas not recommended for derogation were outside of the scope of directive as they did not refer to junior doctors in training posts.

Mr. Lansley: To ask the Secretary of State for Health with reference to his announcement of 25 June 2009 on the European Working Time Directive, which 62 trusts made applications for derogations from the Directive for doctors in training; what reasons were given in each application; and whether or not a derogation was granted in each case. [286601]

Ann Keen: 202 services applied for derogation. 200 were recommended for derogation as they were unlikely to be able to provide working arrangements for junior doctors of the complaint with the requirements of the directive in time to meet the deadline of 1 August and would require further support to become compliant. Two services were not recommended because they were outside of the scope of directive as they did not refer to junior doctors in training posts.

All services are listed within the Statutory Instrument, which was laid before Parliament and is in the public domain.

Drinking Water: Fluoride

Mr. McLoughlin: To ask the Secretary of State for Health what progress has been made on the fluoridation of water supplies in *(a)* England and *(b)* West Derbyshire. [286409]

Ann Keen: We consider that fluoridation of water is capable of reducing inequalities in oral health, but strategic health authorities (SHAs) are responsible for decisions on proposals for new schemes. The SHAs have to take account of assessments of oral health needs conducted by their primary care trusts (PCTs), the configuration of the water distribution system and the outcome of local, public consultations. We understand that PCTs across the East Midlands, including Derbyshire County PCT, are conducting a feasibility study to assess the costs, benefits and technical options of fluoridation.

Drugs

Mr. Sanders: To ask the Secretary of State for Health what estimate he has made of the cost to the NHS of obtaining out of stock medicines in the latest period for which figures are available; and if he will make a statement. [286532]

Mr. Mike O'Brien: While the Department has not specifically made an estimate of the costs to the national health service of obtaining out of stock medicines, the Department is in discussions with the Pharmaceutical Services Negotiating Committee regarding the difficulties pharmacies are facing in obtaining some medicines.

Drugs: Misuse

Mr. Spring: To ask the Secretary of State for Health how many and what percentage of patients treated by the NHS for drug addiction in *(a)* the East of England and *(b)* Suffolk were no longer addicted at the end of their treatment in each of the last three years. [286274]

Gillian Merron: The number and percentage of people treated by the national health service for drug addiction in the East of England and Suffolk is shown in the following table.

	2005-06		*2006-07*		*2007-08*	
	Number	*Percentage*	*Number*	*Percentage*	*Number*	*Percentage*
Eastern region						
Completed treatment	793	19	856	21	1,620	32
Total discharged	4,232	100	4,052	100	5,047	100

	2005-06		2006-07		2007-08	
	Number	Percentage	Number	Percentage	Number	Percentage
Suffolk						
Completed treatment	98	19	81	19	138	29
Total discharged	522	100	424	100	481	100

Notes:
The data covers adults-only as young people are not considered to be drug-dependent; adults are defined as over 18s; the data is for all those who completed treatment and are therefore assessed as being no longer dependent on drugs; and the data covers all specialist drug treatment, not just NHS.
Source:
National Treatment Agency for Substance Misuse.

Drugs: Risk Assessment

Sandra Gidley: To ask the Secretary of State for Health whether *(a)* his Department and *(b)* the National Patient Safety Agency has undertaken a risk assessment of proposals for generic drug substitution. [286848]

Mr. Mike O'Brien: No such formal assessment has been undertaken.

Patient safety will be paramount in taking forward the work on generic substitution. It has long been the Department's policy to encourage generic prescribing where possible, for reasons of good professional practice and because of the opportunities for more effective use of national health service resources. However, we have always recognised that there are circumstances in which it may be clinically appropriate to prescribe a particular brand of drug even where a generic is available if the prescriber considers it essential for the patient to receive that specific product. This position will need to be maintained under any new specific proposals made as part of the work on generic substitution.

Eating Disorders: Finance

Lembit Öpik: To ask the Secretary of State for Health how much the NHS spent on treating eating disorders in the period 2004 to 2008; and if he will make a statement. [286714]

Phil Hope: This information is not held centrally. Primary care trusts are responsible for providing local health services and together with their strategic health authorities are responsible for deciding which services to plan, commission and develop to meet the health needs of their local communities.

Since 2001-02, real terms investment in adult mental health services increased by 44 per cent., or £1.7 billion, putting in place the services and staff needed to transform mental health services. The national health service spent £5.53 billion on these services in 2007-08 compared to £3.844 billion in 2001-02.

Epilepsy: Medical Treatments

Fiona Mactaggart: To ask the Secretary of State for Health pursuant to the answer of 8 July 2009, *Official Report*, columns 886-7W, on epilepsy: medical treatments, if he will consider the merits of making specific exclusions to his policy of generic substitution. [286769]

Mr. Mike O'Brien: No decisions have yet been made on whether any medicines and, if so, which should be excluded from the arrangements for generic substitution.

Food: Chemical Analysis

Mike Penning: To ask the Secretary of State for Health what recent discussions he has had with local authorities on trends in their budgetary provision for the chemical analysis of food over the last five years. [285696]

Gillian Merron: My right hon. Friend the Secretary of State has not held such discussions with local authorities. The Food Standard Agency (FSA), however, as the central competent authority in the United Kingdom for controls on feed and food (safety and standards) uses statutory powers to monitor and audit local authority performance which include reporting on sampling activities by local authorities. Local authorities are measured against responsibilities set out in the Statutory Food Law Code of Practice (separate parallel codes of practice exist for each of the four UK countries). Local authority monitoring and audit information is available from 2000, and can be found at:

www.food.gov.uk/enforcement/auditandmonitoring/mondatabyyear/

Food: Safety

Mike Penning: To ask the Secretary of State for Health if he will establish a system of standard food sampling rates in consultation with food authorities. [285211]

Gillian Merron: The Food Standard Agency (FSA) as the Central Competent Authority in the United Kingdom for controls on feed and food (safety and standards), has no plans to set sampling rates for local authorities. Local authority food sampling responsibilities are set out in the statutory Food Law Code of Practice (Separate parallel Codes of Practice exist for each of the four UK countries). Local authorities are required to put together a sampling programme which details their intended food sampling priorities, taking into account the number, type and risk rating of premises in their area and any national or local consumer issues that may influence sampling rates. Also important are any responsibilities under the originating or home authority principle.

Local authorities may be audited against the Code of Practice requirements as part of the FSA's audit scheme (as part of the Framework Agreement on Local Authority Food Law Enforcement).

Mike Penning: To ask the Secretary of State for Health if he will make an evaluation of the cost effectiveness of food screening laboratories. [285212]

Gillian Merron: The Food Standard Agency has not carried out an evaluation of the cost effectiveness of food screening laboratories. However, the cost effectiveness of the analytical provision for local authorities is assured as a result of the current requirement for local authorities to appoint a public analyst through competitive tender. This allows local authorities to choose to send samples to laboratories that are competitive in terms of price and quality of service.

Mike Penning: To ask the Secretary of State for Health what guidance he has given to local authorities on levels of their budgets for chemical analysis of food. [285245]

Gillian Merron: Local authority food sampling responsibilities are set out in the Food Law Code of Practice (separate parallel Codes of Practice exist for each of the four United Kingdom countries). Local authorities are required to put together a sampling programme which details their intended food sampling priorities, taking into account the number, type and risk rating of premises in their area and any national or local consumer issues that may influence sampling rates. Also important are any responsibilities under the originating or home authority principle.

Local authorities must ensure the resources necessary to carry out the food sampling programme are made available.

General Practitioners: Finance

Justine Greening: To ask the Secretary of State for Health what estimate has been made of the likely effect on the number of GP surgeries upgraded to training practices of the £100 million in capital funding brought forward from 2010-11 to 2009-10 and 2008-09; and how much of the funding has been spent in each month since it was announced. [286650]

Mr. Mike O'Brien: Our initial indications are that over 700 general practitioner practices have made bids for funding to upgrade their practices. It is too early in the programme to indicate the amount of money spent.

Health Hazards: Mobile Phones

Mr. Andrew Mitchell: To ask the Secretary of State for Health (1) what recent representations he has received on *(a)* the adequacy of recommended safe levels of exposure to electromagnetic radiation and *(b)* the adequacy of guidelines for protection from such radiation established by the International Commission on Non-Ionizing Radiation Protection; [285235]

(2) what steps the Government has taken to implement the recommendations of the Independent Expert Group on Mobile Phones; and what measures are in place to protect children under the age of 12 years from exposure to potentially harmful radiation from mobile telephones; [285236]

(3) what discussions he has had in the Council of Ministers on the recommendations concerning EU member states contained in the European Parliament's Resolution of 2 April 2009 on health concerns associated with electromagnetic fields; and if he will make a statement; [285239]

(4) what steps he is taking to *(a)* identify and *(b)* protect against the effects of mobile telecommunications radiation emissions those categories of people who have particular susceptibilities to them. [285241]

Gillian Merron: Between 1 June 2009 and 8 July 2009 the Department received one letter and one e-mail, both from the same member of the public, that mention guidelines for exposure to electromagnetic radiation.

In 2004 the National Radiation Protection Board (NRPB) recommended adoption of the International Commission on Non-Ionizing Radiation Protection (ICNIRP) exposure guidelines for occupational and public exposure to electromagnetic fields between zero and 300 gigahertz (GHz). The NRPB's recommendations can be found in the document "Advice on Limiting Exposure to Electromagnetic Fields (0-300 GHz)" Documents of the NRPB volume 15 number 2, on the Health Protection Agency (HPA) website at:

www.hpa.org.uk/webw/HPAweb&HPAwebStandard/HPAweb_C/1195733817602?p=1219908766891

The NRPB's scientific review underpinning their recommendations is entitled "Review of the Scientific Evidence for Limiting Exposure to Electromagnetic Fields (0-300 GHz)". Documents of the NRPB volume 15 number 3 are on the HPA website at:

www.hpa.org.uk/webw/HPAweb&HPAwebStandard/HPAweb_C/1195733787839?p=1219908766891

The Government response to the Independent Expert Group on Mobile Phones (Stewart) report was reviewed in the report "Mobile Phones and Health 2004: Report by the Board of NRPB" Documents of the NRPB volume 15 number 5 which is on the Health Protection Agency (HPA) website at:

www.hpa.org.uk/webw/HPAweb&HPAwebStandard/HPAweb_C/1195733821582?p=1219908766891

A departmental leaflet on mobile phones and health, published following the Stewart report recommendation for further public information, includes advice concerning children's use of mobile phones and can be seen on the Department's web site at:

www.dh.gov.uk/en/Publicationsandstatistics/Publications/PublicationsPolicyAndGuidance/DH_4123979

A copy has been placed in the Library.

In response to the Stewart report, the Government have supported research on exposure to radio waves in the independently managed Mobile Telecommunications and Health Research Programme (MTHR). A copy of the MTHR report of 2007 has already been placed in the Library. Information on a further phase of research is available on the MTHR website at:

www.mthr.org.uk/research_projects/MTHR2_projects.htm

The HPA report on electrical sensitivity "HPA-RPD-010—Definition, Epidemiology and Management of Electrical Sensitivity. Report for the Radiation Protection Division of the Health Protection Agency" cab be found on the HPA website at:

www.hpa.org.uk/webw/HPAweb&HPAwebStandard/HPAweb_C/1195733810369?p==1197637096018

United Kingdom Health Ministers have not had any discussions in the Council of Ministers on the recommendations concerning European Union member states contained in the European Parliament's Resolution of 2 April 2009 on health concerns associated with electromagnetic fields.

Health Services: Reciprocal Arrangements

Norman Lamb: To ask the Secretary of State for Health how much money was *(a)* claimed and *(b)* recovered from each partner nation for medical claims under the provisions of (i) form E111 and (ii) the European Health Insurance Card in each of the last five years. [285456]

Gillian Merron: The following table shows the amounts actually claimed to date by the United Kingdom against other European economic area (EEA) member states and the actual amounts paid to date against those claims for each of the last five calendar claim years.

The amounts are combined claims for temporary visitors (via European Health Insurance Cards (EHIC), or form E111 prior to its replacement in 2005 by the EHIC), posted workers (via form E106) and referrals for treatment in other EEA countries (via form E112). Due to the nature of the claims system between member states, it is not possible to disaggregate these data consistently for all member states by either type of claim or type of treatment. The figures in the tables reflect the fact that EEA medical costs are typically submitted by member states (including the UK) one to three, and sometimes more, years in arrears.

EEA health care cost claims: Claims under Article 93 of Regulation (EC) 1408/71: UK claims against member states

		2004[1]	2005	2006	2007	2008

[7] Waiver, excepting Article 22.1c (patient referral) claims
[8] Totals for Ireland for 2008 and previous years are estimated and subject to negotiations.

Mr. Cox: To ask the Secretary of State for Health what assessment he has made of the net effect on the public purse of the termination of the reciprocal health agreement with the Isle of Man in the 12 months following termination; and if he will make a statement. [285960]

Gillian Merron: The Department has not yet given formal notice on the bilateral agreement between the United Kingdom and the Isle of Man but it has informed the Isle of Man of the intention to do so. Because of a perceived imbalance in the numbers of tourists being treated by both parties, under the bilateral agreement the UK has provided the Isle of Man with an annual allocation, to fund clinical referrals to the UK, of around £2.5 million in recent years. The UK will no longer provide this, once the agreement is terminated. Following the end of the agreement, UK residents will require travel insurance when visiting the Isle of Man, likewise Isle of Man residents visiting here.

Health Services: Waiting Lists

Mr. Jenkins: To ask the Secretary of State for Health how many patients diagnosed with *(a)* cancer and *(b)* heart disease waited for treatment for over six months in Tamworth constituency in each of the last five years. [286339]

Ann Keen: The information is not available in the format requested.

Cancer patients from the Tamworth constituency area would receive treatment from the Mid Staffordshire NHS Foundation Trust or Burton Hospitals NHS Foundation Trust. For quarter four 2008-09 for Mid Staffordshire NHS Foundation Trust, of the 235 cancer patients treated, 233 or 99.1 per cent. of them began their first definitive treatment within 31 days of receiving their diagnosis and agreeing a care plan. For quarter four 2008-09 for Burton Hospitals NHS Foundation Trust, of the 180 cancer patients treated, 179 or 99.4 per cent. of them began their first definitive treatment within 31 days of receiving their diagnosis and agreeing a care plan.

Tamworth constituency is within the South Staffordshire primary care trust (PCT) area. Information on the number and percentage of admitted and non-admitted patients with heart disease for 2008-09 is shown in the following tables.

Referral to treatment (RTT) waiting time figures for the number and percentage of patients who are admitted and not admitted to hospital for the treatment of heart disease at South Staffordshire PCT

		Admitted pathways		
			Of which:	
	Treatment function	*Total number of admitted pathways*	*>26 weeks*	*Percentage >26 weeks*
2007-08	Cardiothoracic surgery	231	20	9
2007-08	Cardiology	799	91	11
2008-09	Cardiothoracic surgery	400	13	3
2008-09	Cardiology	1,185	31	3

		Non-admitted pathways		
			Of which:	
	Treatment function	*Total number of non-admitted pathways*	*>26 weeks*	*Percentage >26 weeks*
2008-09	Cardiothoracic surgery	388	4	1
2008-09	Cardiology	4,412	97	2

Notes:
1. RTT waiting times figures are collected separately for patients who are admitted to hospital for treatment and for those for whom a decision not to admit is made.
2. Data on non-admitted patients has only been collected since August 2007, so the only full year for which figures are available is 2008-09.

Source:
Department of Health Monthly Referral to Treatment Statistics

Health Visitors: Crimes of Violence

Anne Milton: To ask the Secretary of State for Health how many physical assaults on health visitors were recorded in each of the last five years. [287375]

Ann Keen: The information is not available centrally and could be obtained only at disproportionate cost.

Since 2004-05, the NHS Security Management Service has collected information on the number of physical assaults reported against national health service staff in England. Tables showing the number of assaults reported by each health body have already been placed in the Library.

Health: Research

Dr. Kumar: To ask the Secretary of State for Health how much his Department spent in supporting scientific and medical research undertaken by charities in the last 12 months. [285195]

Gillian Merron: The Department's National Institute for Health Research Clinical Research Network (CRN) provides the health service infrastructure to support clinical trials and other studies funded by both commercial and non-commercial organisations. All eligible studies funded by research charities are automatically entitled to CRN support. The network is currently supporting 850 such studies. They comprise some 38 per cent. of the total CRN portfolio.

The cost of the CRN in 2008-09 was £158 million. It is not possible separately to identify what part of that expenditure was attributable to the support given to research charity funded studies.

Heart Diseases: Death

Mr. Jenkins: To ask the Secretary of State for Health what the mortality rate for heart disease in Tamworth constituency was in each of the last five years. [286337]

Angela E. Smith: I have been asked to reply.

The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, July 2009:

As National Statistician, I have been asked to reply to your recent question asking what the mortality rate for heart disease in Tamworth constituency was in each of the last five years. (286337)

The table attached provides the age-standardised mortality rate, where ischaemic heart disease was the underlying cause of death, for Tamworth parliamentary constituency, from 2003 to 2007 (the latest year available).

Table 1. Age-standardised mortality rates per 100,000 population,[1,2] where ischaemic heart disease was the underlying cause of death,[3] Tamworth parliamentary constituency,[4] 2003-07[5]

	Rate	Rate per 100,000 population 95 per cent. confidence interval
2003	134	(113-155)
2004	120	(100-139)
2005	95	(79-112)
2006	106	(88-124)
2007	107	(89-124)

[1] Age-standardised mortality rates per 100,000 population, standardised to the European Standard Population. Age-standardised rates are used to allow comparison between populations which may contain different proportions of people of different ages.
[2] Confidence intervals are a measure of the statistical precision of an estimate and show the range of uncertainty around the estimated figure. Calculations based on small numbers of events are often subject to random fluctuations. As a general rule, if the confidence interval around one figure overlaps with the interval around another, we cannot say with certainty that there is more than a chance difference between the two figures.
[3] Cause of death for ischaemic heart disease was defined using the International Classification of Diseases, Tenth Revision (ICD-10) codes I20-I25.
[4] Based on boundaries as of 2009.
[5] Figures are for deaths registered in each calendar year.

Hospital Beds

Mr. Spring: To ask the Secretary of State for Health how many bed spaces on average there were at *(a)* Addenbrooke's, *(b)* West Suffolk and *(c)* Ipswich hospital in (i) 1997, (ii) 2002 and (iii) the latest period for which figures are available. [286185]

Phil Hope: The average daily number of available and occupied beds by sector, national health service organisations in England, 1997-98, 2002-03, 2007-08, is shown in the following table.

	1997-98		2002-03		2007-08	
	Total (Available)	Total (Occupied)	Total (Available)	Total (Occupied)	Total (Available)	Total (Occupied)
Addenbrookes NHS Trust Cambridge University Hospitals NHS Foundation Trust (formerly known as Addenbrookes)	1,302	1,110	1,026	898	1,079	927
Ipswich Hospital NHS Trust	761	623	707	600	682	542
West Suffolk Hospitals NHS Trust	713	496	638	577	491	393

Source:
Department of Health form KH03

Mr. David Anderson: To ask the Secretary of State for Health how many hospital bed days there were for *(a)* chronic obstructive pulmonary disease and *(b)* all respiratory diseases in (i) England and (ii) each primary care trust area in the latest period for which figures are available. [286250]

Ann Keen: The hospital bed days data for 2007-08 for chronic obstructive pulmonary disease and all respiratory disease in England and each primary care trust (PCT) are given in the following table.

Primary care trust of responsibility code	Primary Care Trust Of Responsibility Description	Respiratory diseases	Chronic obstructive pulmonary disease[1]

Hospitals: Admissions

Mr. Spring: To ask the Secretary of State for Health how many patients were admitted to *(a)* West Suffolk, *(b)* Addenbrookes and *(c)* Ipswich hospital as a consequence of (i) alcoholic liver disease and (ii) cirrhosis in each of the last five years. [286262]

Gillian Merron: The following table shows the count of finished admission episodes with a primary diagnosis of alcohol liver disease or cirrhosis of the liver for Cambridge university hospitals NHS foundation trust (Addenbrook NHS trust pre 2004-05), Ipswich hospital trust and West Suffolk hospitals NHS trust.

	Alcoholic liver disease	Cirrhosis of the liver
2007-08		
Cambridge University Hospitals NHS Foundation Trust	399	404
Ipswich Hospital NHS Trust	83	68
West Suffolk Hospitals NHS Trust	30	27
2006-07		
Cambridge University Hospitals NHS Foundation Trust	490	447
Ipswich Hospital NHS Trust	98	80
West Suffolk Hospitals NHS Trust	36	29
2005-06		
Cambridge University Hospitals NHS Foundation Trust	449	310
Ipswich Hospital NHS Trust	47	24
West Suffolk Hospitals NHS Trust	26	18
2004-05		
Cambridge University Hospitals NHS Foundation Trust	302	232
Ipswich Hospital NHS Trust	43	35
West Suffolk Hospitals NHS Trust	27	46
2003-04		
Addenbrookes NHS Trust[1]	372	412
Ipswich Hospital NHS Trust	46	37
West Suffolk Hospitals NHS Trust	28	29

[1] Addenbrookes NHS trust becomes Cambridge university hospitals NHS foundation trust (post 2003-04).

Notes

Finished admission episodes

A finished admission episode is the first period of inpatient care under one consultant within one healthcare provider. Finished admission episodes are counted against the year in which the admission episode finishes. Admissions do not represent the number of inpatients, as a person may have more than one admission within the year.

Primary diagnosis

The primary diagnosis is the first of up to 20 (14 from 2002-03, to 2006-07 and 7 prior to 2002-03) diagnosis fields in the Hospital Episode Statistics (HES) data set and provides the main reason why the patient was admitted to hospital.

Secondary diagnoses

As well as the primary diagnosis, there are up to 19 (13 from 2002-03 to 2006-07 and 6 prior to 2002-03) secondary diagnosis fields in HES that show other diagnoses relevant to the episode of care.

Data quality

HES are compiled from data sent by more than 300 NHS trusts and primary care trusts (PCTs) in England. Data is also received from a number of independent sector organisations for activity commissioned by the English NHS. The NHS Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain.

PCT/Strategic health authority (SHA) data quality

PCT and SHA data was added to historic data years in the HES database using 2002-03 boundaries, as a one-off exercise in 2004. The quality of the data on PCT of treatment and SHA of treatment is poor in 1996-97, 1997-98 and 1998-99, with over a third of all finished episodes having missing values in these years. Data quality of PCT of general practitioner (GP) practice and SHA of GP practice in 1997-98 and 1998-99 is also poor, with a high proportion missing values where practices changed or ceased to exist. There is less change in completeness of the residence-based fields over time, where the majority of unknown values are due to missing postcodes on birth episodes. Users of time series analysis including these years need to be aware of these issues in their interpretation of the data.

Assessing growth through time

HES figures are available from 1989-90 onwards. The quality and coverage of the data have improved over time. These improvements in information submitted by the NHS have been particularly marked in the earlier years and need to be borne in mind when analysing time series. Some of the increase in figures for later years (particularly 2006-07 onwards) may be due to the improvement in the coverage of independent sector activity. Changes in NHS practice also need to be borne in mind when analysing time series. For example, a number of procedures may now be undertaken in outpatient settings and may no longer be accounted for in the HES data. This may account for any reductions in activity over time.

Unprocessed data

Figures have not been adjusted for shortfalls in the data, i.e. the data are unprocessed. Activity in English NHS Hospitals and English NHS commissioned activity in the independent sector.

Source

Hospital Episode Statistics (HES), The NHS Information Centre for health and social care.

Individualised Budget Programme

Sandra Gidley: To ask the Secretary of State for Health which schemes his Department has chosen for the pilot of the individualised budget programme; how many patients will participate in the pilot programme; and what methodology will be used in the assessment of individualised budgets. [285769]

Mr. Mike O'Brien: Following an application process earlier this year, we have provisionally selected 70 pilot sites, subject to a further progress check. A full list of provisional pilot sites is available from the Department's website at:

www.dh.gov.uk/en/Healthcare/Highqualitycareforall/DH_098018

and a copy has been placed in the Library.

Pilot sites will initially only offer models of personal health budget that do not involve direct payments to the patient. Subject to the passage of the Health Bill, direct payments would become an additional option for pilots during 2010.

We have not set any expectations about numbers of patients in each pilot site. This will be for local sites to decide as they develop their proposals.

We are currently in the process of selecting an evaluation team. We published an invitation to tender in April, describing what areas the evaluation should explore and inviting bidders to propose a suitable methodology.

Influenza

Mr. Pelling: To ask the Secretary of State for Health (1) how many of the cases of H1N1 flu reported to the Health Protection Agency (HPA) by 16 June 2009 were recorded by the HPA as *(a)* male, imported, *(b)* female, imported, *(c)* male, indigenous and *(d)* female, indigenous H1N1 cases; in how many such cases the patient was aged (i) under 10, (ii) 10 to 19, (iii) 20 to 29, (iv) 30 to 39, (v) 40 to 49, (vi) 50 to 59 and (vii) over 60 years; in how many such cases the HPA has recorded (A) the date of symptom onset, the date of obtaining the blood sample from which the H1N1 diagnosis was made and the date of the H1N1 case report and (B) the date of symptom onset, the date of obtaining the blood sample from which H1N1 diagnosis was made, the date of the H1N1 case report and the date on which the H1N1 antiviral prophylaxis or treatment was started; [285833]

(2) how many of the cases of H1N1 flu reported to the Health Protection Agency by 16 June 2009 were recorded as having been hospitalised by 30 June 2009; and how many such patients were aged *(a)* under 10, *(b)* 10 to 19, *(c)* 20 to 29, *(d)* 30 to 39, *(e)* 40 to 49, *(f)* 50 to 59 and *(g)* over 60 years; [285834]

(3) how many of the cases of H1N1 flu reported to the Health Protection Agency by 16 June 2009 were recorded as being *(a)* imported, *(b)* indigenous and *(c)* not assigned or not known. [285835]

Gillian Merron: The cases reported by the Health Protection Agency (HPA) are shown in the following tables.

Not all of the data requested are currently available. This is because:

testing for swine flu is based on swabs, not blood samples;

data for Scotland are not currently available for the period requested;

complete data on the commencement of antiviral treatment or prophylaxis is not available. This is because once detailed data on the first few hundred cases had been collected, the HPA stopped collecting that level of detailed information; and

verified data on hospitalisations is only available up to 16 June.

KPMG

Norman Lamb: To ask the Secretary of State for Health how much the NHS paid to KPMG in each of the last five years. [286709]

Mr. Mike O'Brien: The Department does not collect the specific information requested centrally.

Methadone

Mike Penning: To ask the Secretary of State for Health what percentage of people prescribed methadone were from socio-economic group *(a)* C, *(b)* D and *(c)* E in each year since 1997. [285695]

Gillian Merron: These data are not collected centrally.

National Dementia Strategy: Primary Care Trusts

Mr. McLoughlin: To ask the Secretary of State for Health what assessment he has made of the effectiveness of the implementation of the National Dementia Strategy by local primary care trusts. [286411]

Phil Hope: The Department has not assessed the effectiveness of the implementation of the National Dementia Strategy by local primary care trusts. However, improving services for people with dementia is a Government priority, and we have already identified it as a priority for the national health service in the operating framework. That will help to ensure that dementia is prioritised locally where further improvement may be needed.

The first National Dementia Strategy was published on 3 February this year, and will be implemented over a five-year period. A copy has already been placed in the Library.

NHS Purchasing and Supply Team: Pay

Mr. Watson: To ask the Secretary of State for Health how many people are employed by the NHS Purchasing and Supply Team; and what the annual salary bill is for *(a)* all its employees and *(b)* its senior management team. [286370]

Mr. Mike O'Brien: The number of people employed by NHS Purchasing and Supply Agency for 2008-09 was 257 (whole time equivalent). The annual salary bill for 2008-09 was as follows:

	£
Employees	13,640,000
Senior management team	874,318

NHS: Dental Services

Mr. Spring: To ask the Secretary of State for Health what estimate he has made of the number and percentage of the *(a)* child and *(b)* adult population in (i) the East of England region and (ii) Suffolk who attended an appointment with an NHS dentist in each of the last five years. [286261]

Ann Keen: Information is not available in the format requested.

The number of adults and children registered with a national health service dentist in England, as at 31 March, 1997 to 2006 is available in Annex A of the 'NHS Dental Activity and Workforce Report, England: 31 March 2006'. Information is provided by primary care trust (PCT) and by strategic health authority (SHA). Annex B contains this information expressed as a percentage of the population.

This information is based on the old contractual arrangements which were in place up to and including 31 March 2006. This report, published on 23 August 2006, has already been placed in the Library and is also available on the NHS Information Centre website at:

www.ic.nhs.uk/pubs/dwfactivity

Under the new dental contractual arrangements, introduced on 1 April 2006, patients do not have to be registered with an NHS dentist to receive NHS care. The closest equivalent measure to 'registration' is the number of patients receiving NHS dental services ('patients seen') over a 24-month period. However, this is not directly comparable to the registration data for earlier years.

Information on the number of patients seen in the previous 24 months, in England, is available in Table D1 of Annex 3 of the 'NHS Dental Statistics, Quarter 3: 31 December 2008' report. Information is available for both adults and children at quarterly intervals, from 31 March 2006 to 31 December 2008 and is provided by PCT and SHA. Table D2 contains this information expressed as a percentage of the population.

This report, published on 21 May 2009, has been placed in the Library and is also available on the NHS Information Centre website at:

www.ic.nhs.uk/pubs/dentalstats0809q3

NHS: Disclosure of Information

Dr. Richard Taylor: To ask the Secretary of State for Health whether the NHS whistle-blowing policy applies to foundation trusts. [286622]

Mr. Mike O'Brien: The Public Interest Disclosure Act 1998 applies to staff employed by national health service foundation trusts. The Act provides protection to employees raising concerns, where they do so in accordance with the provisions of the Act.

NHS: Information and Communications Technology

Mark Simmonds: To ask the Secretary of State for Health when he plans to implement the recommendations contained in his Department's document Coding for Success. [286624]

Ann Keen: The question relates to a specific recommendation of the Health Select Committee in its report which was published on 3 July. The Government will be considering carefully all of the Committee's recommendations and will respond in due course.

NHS: Manpower

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 1 July 2009, *Official Report*, columns 348-49W, on NHS: manpower, which employment agencies supply staff under each National Framework Agreement. [286309]

Ann Keen: The information requested is as follows.

NHS: Procurement

Norman Lamb: To ask the Secretary of State for Health what efficiency savings were *(a)* anticipated and *(b)* generated under the Framework for Procuring External Support for Commissioning programme in each year of the programme. [286633]

Mr. Mike O'Brien: Efficiency savings could not be anticipated in advance of national health service use of the framework. These will be determined on a case-by-case basis, dependent upon type of support required by each individual commissioning authority.

Some commissioning authorities stipulate a requirement for Framework for procuring External Support for Commissioners (FESC) suppliers to commit to the generation of a degree of savings. This differs from procurement to procurement, and will be dependent upon the type of commissioning service being procured. To date, in those contracts where this stipulation has been made, FESC suppliers have committed to guaranteed savings totalling £18 million. This figure does not include any additional incremental savings subsequently achieved during the course of a contract.

Norman Lamb: To ask the Secretary of State for Health what the net cost of the Framework for Procuring External Support for Commissioning programme has been to date. [286634]

Mr. Mike O'Brien: To date, the total net cost to the national health service for procurements through the Framework for procuring External Support for Commissioners (FESC) is £15 million. In some cases, dependent upon the type of services being procured, there are likely to be additional incremental savings, which will be shared between the commissioning authority and the FESC supplier.

Norman Lamb: To ask the Secretary of State for Health how much his Department has paid to KPMG as part of the Framework for Procuring External Support for Commissioning programme to date. [286635]

Mr. Mike O'Brien: To date, no contracts have been signed with KPMG by commissioning authorities through the Framework for procuring External Support for Commissioners (FESC). Therefore, to date, the amount paid to KPMG in relation to provision of services through FESC is £0.00. KPMG did provide the central FESC team with some assistance in developing some elements of the generic template documentation. This was a short-term consultancy arrangement to a total value of approximately £25,000.

NHS: Working Hours

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the answer of 6 June 2009, *Official Report*, column 590W, for what reasons he has not yet published the information requested; and if he will publish the information before the House rises for the summer adjournment. [286927]

Ann Keen: We will publish the information when we communicate to the European Commission on the provisions of the Working Time (Amendment) Regulations, (Statutory Instrument 2009 No 1567 Terms and Conditions of Employment) which is currently before Parliament.

Nutrition

Mr. Lansley: To ask the Secretary of State for Health what the criteria are for entitlement to access a nutritionist on the NHS. [283933]

Gillian Merron: There are no nationally prescribed criteria for entitlement to see a nutritionist on the national health service, rather it is a matter for each individual health practitioner to make a clinical decision to refer a patient if they think it advisable, in line with any locally determined guidelines that may apply.

The National Institute for Health and Clinical Excellence clinical guidelines on Nutrition Support in Adults covers the care of those patients with malnutrition or at risk of malnutrition at hospital and at home.

Patients: Discharges

Norman Lamb: To ask the Secretary of State for Health how many bed nights in each hospital trust were spent by patients who were ready for discharge but remained in hospital in the financial year *(a)* 2007-08 and *(b)* 2008-09; and what estimate he has made of the cost to the NHS of such delayed discharges in each such year. [286348]

Phil Hope: The requested information has been placed in the Library.

No estimate has been made of the costs to the national health service of delayed discharges.

Radon Gas: Houses

Mr. Gordon Prentice: To ask the Secretary of State for Health what recent estimate he has made of the number and location of households liable to be affected by high levels of radon gas; and if he will make a statement. [284406]

Gillian Merron: The Health Protection Agency (HPA) estimate that approximately 100,000 homes in the UK exceed the action level of 200 Bequerels/m^3 and the location of houses above the action level is shown in a map taken from the 2008 HPA Indicative Atlas of Radon in England and Wales (see following web link). The complete atlas has more detailed information if needed. Only 0.2 per cent. of houses are above the action level.

www.hpa.org.uk/webw/HPAweb&HPAwebStandard/HPAweb_C/1195733749409?p=1158934607718

The HPA is currently carrying out a public consultation exercise on whether the action level should be reduced, among other questions.

Householders and employers are able to find out the risk of a high radon gas level in a property from the radon probability maps of the United Kingdom published by the HPA and, for England and Wales, the British Geological Survey.

Safeguarding Patients and Trust Assurance and Safety

Mr. Willis: To ask the Secretary of State for Health what programmes his Department has initiated to deliver policies outlined in "Trust, Assurance, Safety and Safeguarding Patients" since 2007; and what further such programmes are planned for the period to 2012. [286731]

Ann Keen: The Government have established the Professional Standards Programme to take forward the recommendations contained in "Trust, Assurance, Safety and Safeguarding Patients".

Between now and 2012 the Government plan to continue with this programme of reform. Elements of the programme that are planned to be implemented in this period include establishing the Office of the Healthcare Professions Adjudicator and designing and introducing systems of revalidation for regulated health care professionals, starting with doctors.

Social Services

Andrew George: To ask the Secretary of State for Health how many people have received care packages part-funded by the NHS following an assessment by social services in each local authority in each of the last five years; and if he will make a statement. [286989]

Phil Hope: Information on the number of people receiving care packages part-funded by the national health service following a social services assessment is not collected.

Suffolk NHS Trust: Manpower

Mr. Spring: To ask the Secretary of State for Health how many *(a)* doctors, *(b)* nurses, *(c)* dentists and *(d)* non-medical staff Suffolk NHS Trust employed in each of the last five years. [286563]

Ann Keen: Information as to how many doctors, nurses, dentists and non-medical staff Suffolk NHS trust employed in each of the last five years is shown in the following table.

NHS hospital and community health services (HCHS): NHS staff in the West Suffolk hospitals NHS trust by specified staff group, as at 30 September each year

Headcount

	2004	*2005*	*2006*	*2007*	*2008*
West Suffolk NHS Trust	3,140	3,068	2,825	2,805	2,928
Medical and Dental staff	274	283	285	274	284
Medical staff	266	273	281	268	280
Dental staff	8	10	4	6	4
Professionally qualified clinical staff	1,296	1,307	1,228	1,237	1,305
Qualified nursing, midwifery and health visiting staff	1,013	986	919	932	984
Qualified scientific, therapeutic and technical staff	283	321	309	305	321
Qualified Allied Health Professions	143	141	130	122	125
Qualified Healthcare Scientists	62	67	70	74	72
Other Qualified Scientific, therapeutic and technical staff	78	113	109	109	124
Support to clinical staff	1,005	971	863	845	870
Support to doctors and nursing staff	839	835	745	731	754
Support to ST&T staff	166	136	118	114	116

NHS hospital and community health services (HCHS): NHS staff in the West Suffolk hospitals NHS trust by specified staff group, as at 30 September each year

Headcount

	2004	*2005*	*2006*	*2007*	*2008*
NHS infrastructure support	565	507	449	449	469
Central functions	111	99	100	109	116
Hotel, property and estates	381	332	297	285	291
Managers and senior managers	73	76	52	55	62

Notes:
Data Quality
Workforce statistics are compiled from data sent by more than 300 NHS trusts and primary care trusts (PCTs) in England. The NHS Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data. Processing methods and procedures are continually being updated to improve data quality. Where this happens any impact on figures already published will be assessed but unless this is significant at national level they will not be changed. Where there is impact only at detailed or local level this will be footnoted in relevant analyses.
Sources:
The NHS Information Centre for health and social care Medical and Dental Workforce Census and The NHS Information Centre for health and social care Non-Medical Workforce Census.

Swine Flu: Schools

Mr. Lansley: To ask the Secretary of State for Health how many *(a)* schools and *(b)* special schools have been closed as a result of an outbreak of swine influenza. [286316]

Gillian Merron: Information provided to the Department for Children, Schools and Families (DCSF), initially by the Health Protection Agency and subsequently by Government offices, shows that a total of 100 schools, including six special schools, had closed by 9 July 2009. Of those schools, 93 had reopened by 9 July, leaving seven schools closed, including five special schools.

There is no statutory duty on schools to report their closure to DCSF, so this data is not necessarily complete.

Swine Flu: Teesside

Dr. Kumar: To ask the Secretary of State for Health what steps the NHS is taking to *(a)* assist those resident in Teesside who have been diagnosed with swine influenza and *(b)* prevent to further spread of swine influenza in Teesside. [285332]

Gillian Merron: The North East Strategic Health Authority (SHA) has advised that so far the North East has not experienced the high number of cases seen in other areas of the country.

Now that the management of swine flu has moved to the treatment phase, testing for confirmation of individual cases is no longer taking place, the Health Protection Agency will not have statistics about number of cases and where they are occurring.

In line with national and regional plans, Teesside's public health team is continuing, through effective communications to ensure the public is kept fully informed about swine flu, what to do if a person believes they might have swine flu, and how to keep good hygiene to reduce the risk of further spread.

Tattooing: Plastic Surgery

Mr. Gordon Prentice: To ask the Secretary of State for Health how many *(a)* men and *(b)* women (i) over 25 years old and (ii) 25 years old and under have had tattoos removed by the NHS in each year since 2000; and how many and what proportion were aged 25 years and under. [284410]

Gillian Merron: Information on the numbers of tattoo removal procedures carried out by the national health service requested is not collected centrally, as hospital episode statistics do not contain specific or diagnosis codes for tattoo removal.

Tattoo removal may be available on the NHS, according to local primary care trust policies, if a clinician considers that an individual patient's health requires it.

Telemedicine

Mr. Stephen O'Brien: To ask the Secretary of State for Health what proportion of his Department's Preventative Technology Grant *(a)* was spent on telecare in 2006-07 and *(b)* he estimates will be spent on telecare in 2007-08; and if he will make a statement. [286968]

Phil Hope: The £80 million Preventative Technology Grant was granted to local authorities with social care responsibilities to provide telecare services, however this funding was not ring-fenced. Specific details of how this money was used by individual local authorities was not gathered, however it is known that the number of new telecare and telehealth users have increased by over 200,000. Any residual Preventative Technology Grant money was allowed to be carried over into 2008-09 to help sustain momentum. No money has been recovered by the Department and local authorities are expected to have used grant funding for telecare purposes.

During the period of the grant over £80 million worth of business has been procured through the PASA Telecare National Framework Agreement.

vCJD

Jenny Willott: To ask the Secretary of State for Health pursuant to the answer of 3 July 2009, *Official Report*, column 1021W, on vCJD, if he will publish the results of the evaluation of vCJD prototype assays; and if he will make a statement. [286480]

Gillian Merron: Evaluation of prototype variant Creutzfeldt-Jakob disease blood assays is ongoing, and interim results will not be issued at this stage. Results will eventually be published under the auspices of the CJD Resource Centre Oversight Committee.

Written Answers to Questions

Thursday 16 July 2009

WALES

Public Expenditure

Hywel Williams: To ask the Secretary of State for Wales whether the draw-down by the National Assembly for Wales of its allocation under EU structural funds on top of its Barnett-determined budget resulted in a reconciliation deduction in the overall block grant for Wales in each year since 2005. [287273]

Mr. Hain: Until 2005-06 departmental expenditure limits only included the expenditure element of EU structural funds and additions were made to the Wales departmental expenditure limit beyond the Barnett Formula. The receipts were paid separately to the National Assembly for Wales and were therefore identified separately in the calculation of the block grant.

From 2006-07 the budgeting arrangements for EU receipts changed and departmental expenditure limits were expressed net of EU receipts. Thus no deduction is now necessary. The receipts continue to be paid into the Welsh Consolidated Fund and are additional to the block grant.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what the average length of the growing season was in each county of England in *(a)* 1978, *(b)* 1988, *(c)* 1998 and *(d)* 2008. [286363]

Jim Fitzpatrick: The growing season is the period of time each year during which plants can grow. The thermal growing season length is defined as beginning when the temperature on five consecutive days exceeds 5° C and ending when the temperature on five consecutive days is below that threshold.

Meteorological Office information shows that the average length of growing season in central England was *(a)* 223 days in 1978 (249 days on average 1969 to 1978) *(b)* 258 days in 1988 (248 days on average 1979 to 1988) *(c)* 213 days in 1998 (270 days on average 1989 to 1998) and *(d)* 249 days in 2008 (279 days on average 1999 to 2008). It should be noted that there can be considerable variation from year to year. Data on the length of growing season at county level are not available.

Mr. Mullin: To ask the Secretary of State for Environment, Food and Rural Affairs what steps he is taking to *(a)* assess and *(b)* tackle the environmental and social effects of intensive meat and dairy industries; and if he will make a statement. [286770]

Jim Fitzpatrick: We constantly strive to maximise the positive and mitigate the negative effects of all agricultural production by working closely with industry to ensure our food is produced in a sustainable and affordable way. We are also keen to maintain a thriving farming and food sector which can improve its net impact on a healthy, resilient, productive and diverse natural environment.

For example, in addition to ensuring compliance with new environmental regulations, DEFRA is working with the agricultural industry to deliver improvements through the Milk Roadmap and the industry led Beef and Lamb Roadmap, as well as stimulating initiatives on enhancing environmental performance in the pig industry through the work of the Pigmeat Supply Chain Task Force. Each activity aims to target the reduction of environmental and climate change impacts and assess the positive benefits to the landscape and biodiversity of animal husbandry while also highlighting any areas for further research and improvement.

Batteries: Recycling

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what estimate he has made of the percentage of batteries were recycled in each year since 1997; [286351]

(2) how many *(a)* car batteries and *(b)* alkaline batteries were purchased in the latest period for which figures are available; and how many such batteries were (i) disposed of by (A) landfill, (B) incineration and (C) other means were (ii) recycled and (iii) reused in the last year for which figures are available; [286360]

(3) how many spent batteries other than vehicle batteries entered the waste stream in the last 12 months; what mass of each heavy metal was used in those batteries; and what percentage of such batteries were recycled. [286361]

Dan Norris: This information has not been collected centrally in the past. The new Waste Batteries and Accumulators Regulations (SI 890/2009) will provide such data in the future. Our best estimates for the quantity of batteries on the UK market and recycled are contained in the Impact Assessment published with the Batteries and Accumulators Regulations 2009:

http://www.opsi.gov.uk/si/si2009/em/uksiem_20090890_en.pdf

We estimate that the annual UK market for portable batteries is around 30,000 tonnes. Market reports suggest that more than 70 per cent. of retail sales are alkaline batteries. Only about 3 per cent. of waste portable batteries are thought to be recycled currently.

The most recent estimate of the car batteries market is that about 181,000 tonnes of car batteries were placed on the market in 2006. This is thought to be rising annually.

About 143,000 tonnes of waste arise from car batteries annually. About 60 per cent. of a lead-acid battery—the type typically used in cars—is lead. We estimate that about 99 per cent. of this is recycled annually.

The amount of industrial batteries sold in the UK in 2006 is estimated to be about 69,000 tonnes.

About 34,000 tonnes of waste arises from industrial batteries annually and it is estimated that about 32,000 tonnes are recycled. We do not have estimates of the amount of heavy metals in industrial or portable batteries.

Few if any batteries will be reused when they become waste because common practice is to dispose of batteries when they are spent.

Birds: Imports

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs how many birds were seized by HM Revenue and Customs under the Convention of International Trade in Endangered Species in each year since 2000. [284513]

Mr. Woolas: I have been asked to reply.

The following table provides data, from HM Revenue and Customs central records, for specimens seized for years 2005-06, 2006-07 and 2007-08.

Birds

	Number of specimens seized
2005-06	310
2006-07	3
2007-08	0

These birds were seized using customs enforcement powers in relation to live animals listed as endangered species under Council Regulation (EC) No 338/97 on the protection of species of wild fauna and flora.

For the years 2000 to 2004-05 information on all CITES specimens seized by the former HM Customs and Excise can be found on the DEFRA website at:

http://www.defra.gov.uk/wildlife-countryside/trade-crime/cites/action-uk.htm#enforcement

Further breakdown of the 2000 to 2004-05 figures can be achieved only at a disproportionate cost.

Coastal Areas: Flood Control

Martin Horwood: To ask the Secretary of State for Environment, Food and Rural Affairs what his Department's policy is on the procurement of timber for use in sea defence projects; and if he will make a statement. [286476]

Huw Irranca-Davies: Since 2000, UK Government Departments have sought to procure products made from timber that is legally harvested and grown in sustainably managed forests or plantations. From April 2009, UK Government departments will now only accept timber that has been verified as legal and sustainable, or licensed under Forest Law Enforcement, Governance and Trade (FLEGT) Voluntary Partnership Agreements.

Most of the work on sea defences is undertaken by the Environment Agency and they purchase all timber in accordance with the Government's timber procurement policy. In addition, timber is purchased whenever available, from one of the five Category A accredited certification scheme sources recognised by the Central Point of Expertise on Timber. Limited evidence prohibits this approach being used for tropical hardwood, here, in line with Government policy; the Environment Agency obtain evidence demonstrating legality, sustainability and traceability through the supply chain (Category B evidence).

Martin Horwood: To ask the Secretary of State for Environment, Food and Rural Affairs what sea defence projects involving the use of timber for construction his Department plans to fund in *(a)* 2009-10 and *(b)* 2011-12. [286479]

Huw Irranca-Davies: The following table shows coastal defence projects on which authorities are likely to incur expenditure in any of the years 2009-11, 2010-11 and 2011-12 and where timber is likely to form a significant part of the works. The table is based on forward planning project information, so should be regarded as indicative rather than definitive.

Project Title	*Lead authority*	*Estimated construction start*
East Clough	Environment Agency	2010-11
Brightlingsea Tidal Defences Phase 2	Environment Agency	2011-12
Broadland	Environment Agency	Ongoing
Broomhill Sands Coastal Defence Scheme	Environment Agency	2011-12
Denge	Environment Agency	2009-10
Denver Little Eyes Sluice	Environment Agency	2008-09
Donna Nook	Environment Agency	2010-11
Dymchurch	Environment Agency	2011-12
Folkestone To Cliff End Schemes Package	Environment Agency	2011-12
Great Yarmouth	Environment Agency	2010-11
Happisburgh/Winterton 3B Works	Environment Agency	2011-12
High Knocke to Dymchurch Sea Defence	Environment Agency	2009-10
Hunstanton/Heacham Beach Management	Environment Agency	2007-08
Lancing Brook Outfall Reconstruction	Environment Agency	2010-11
Lincshore 2005 to 2010	Environment Agency	2005-06
Lincshore 2010 to 2015	Environment Agency	2010-11
Med merry Managed Realignment	Environment Agency	2011-12
Pett Shingle Renourishment Phase 2-6	Environment Agency	2011-12
Pevensey Bay Outfalls	Environment Agency	2010-11
Pevensey Bay	Environment Agency	Ongoing
Redcar	Environment Agency	2010-11
Sandwich Bay Sea Defences (Deal) (Note start may be early 2012-13)	Environment Agency	2011-12
Seasalter	Environment Agency	2010-11
Shaldon and Ringmore	Environment Agency	2010-11
Stanah Sea Defences	Environment Agency	2008-09
Steart Managed Realignment	Environment Agency	2011-12
Swinefleet	Environment Agency	2009-10
Teignmouth Estuary (Back Beach)	Environment Agency	2011-12

Project Title	Lead authority	Estimated construction start
Thornton - Cleveleys (Local Authority led scheme with Environment Agency Contribution)	Environment Agency	2011-12
Walberswick to Dunwich Frontage	Environment Agency	2010-11
Ageing Groynes - Selsey – 9-10	Chichester Council	2009-10
Worthing	Worthing Council	2009-10

Departmental Billing

Mr. Philip Hammond: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the Answer of 3 June 2009, *Official Report*, column 484W, on departmental billing, how much his Department's non-departmental public bodies have paid in interest under the Late Payment of Commercial Debts (Interest) Act 1998 in the last three years. [282325]

Dan Norris: The Department does not hold information regarding payments made to suppliers under the Late Payment of Commercial Debts (Interest) Act 1988 by the Department's Non Departmental Public Bodies (NDPB). Each NDPB is required to publish such payments in their independent annual accounts.

Departmental Databases

Jenny Willott: To ask the Secretary of State for Environment, Food and Rural Affairs what categories of personal information on members of the public are contained on each database which contains such data managed by his Department and its agencies; when each category of information was first collected; and if he will make a statement. [284896]

Dan Norris: The Department for Environment, Food and Rural Affairs' (DEFRA) Information Asset register provides detail on many of the databases, including those containing personal data, managed by the Department. This register is available on the Department's website at:

http://www.defra.gov.uk/corporate/opengov/defra/available/iar/index.htm

The additional details requested about these assets, and full details of databases not included in the Information Asset Register, are not held centrally and can be provided only at disproportionate cost.

All databases containing personal data maintained by DEFRA are in accordance with the Data Protection Act. Following the publication of the cross Government data handling review in June 2008, staff establishing new projects and programmes in the Department that hold significant amounts of personal data are obliged to conduct privacy impact assessments.

Jenny Willott: To ask the Secretary of State for Environment, Food and Rural Affairs what databases managed by his Department and its agencies hold personal information on members of the public; on what date each such database became operational; and if he will make a statement. [285975]

Dan Norris: The Department for Environment, Food and Rural Affairs' (DEFRA's) information asset register provides detail on many of the databases, including those containing personal data, managed by the Department. This register is available on the Department's website at:

http://www.defra.gov.uk/corporate/opengov/defra/available/iar/index.htm

The additional details requested about these assets, and full details of databases not included in the information asset register, are not held centrally and can be provided only at disproportionate cost.

All databases containing personal data maintained by DEFRA are in accordance with the Data Protection Act. Following the publication of the cross-Government data handling review in June 2008, staff establishing new projects and programmes in the Department that hold significant amounts of personal data are obliged to conduct privacy impact assessments.

Jenny Willott: To ask the Secretary of State for Environment, Food and Rural Affairs which of the planned databases that will be managed by his Department or one of its agencies and which will hold personal information on members of the public are expected to become operational in each of the next five years; and if he will make a statement. [286145]

Dan Norris: Information about which of the planned databases that will be managed by the Department or any of its agencies and which will hold personal information on members of the public that are expected to become operational in each of the next five years can be provided only at disproportionate cost to the Department.

Routine assurance of database developments during the business planning cycle ensures that any planned databases containing personal information are identified before development commences and referred to the departmental data protection team to ensure that they adhere to the Data Protection Act.

Moreover, following the publication of the cross-Government data handling review in June 2008, staff establishing new projects and programmes that hold significant amounts of personal data are obliged to conduct privacy impact assessments.

Departmental Work Experience

Mr. Oaten: To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* paid and *(b)* unpaid graduate internships his Department has awarded in each of the last six months. [281516]

Dan Norris: In each of the last six months the Department of Environment, Food and Rural Affairs has awarded no graduate internships, on either a paid or unpaid basis.

Five graduate internships commenced placements with DEFRA on 6 July 2009, three via the Cabinet Office Summer Development Programme (ethnic minorities) and two from the Summer Placement Scheme (disability). All interns are engaged on a paid basis at executive officer level.

DEFRA is actively exploring ways of increasing its graduate internship numbers via HMG's Public Sector Jobs imperatives, and we are registered as an organisation with the Department for Business, Innovation and Skills Graduate Talent Pool online matching programme.

We anticipate recruiting graduate interns via the Cabinet Office schemes mentioned above in 2010.

EC Law

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the proportion of statutory obligations provided for by legislation on matters for which his Department is responsible which were introduced as a consequence of obligations arising from EU legislation in the latest period for which figures are available. [281865]

Dan Norris: It is very difficult to provide precise figures for the proportion of UK legislation that stems from the European Union.

The administrative burdens measurement exercise carried out by the Government in 2006 put the proportion of administrative burdens stemming from the EU at approximately one third of the total administrative burden.

The important thing is not the origins of a legislation, which could of course be a devolved administration or a local authority, as well as the Government or the EU, but the quality of the regulation. All regulations, irrespective of their origins, should comply with the principles of better regulation. Regulations should be risk based, proportionate and well designed, so as to achieve their objectives while also keeping costs to a minimum. The Government continue to work with European partners to ensure that EU regulations meet these standards.

Environment Protection: Public Opinion

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what publicly-funded research has been undertaken by his Department into *(a)* levels of public interest in and *(b)* public attitudes towards environmental issues in the last five years. [287125]

Dan Norris: The list details the research projects that the Department for Environment, Food and Rural Affairs has undertaken to assess levels of public interest in and public attitudes towards environmental issues in the last five years.

This list includes projects commissioned by DEFRA's Sustainable Behaviours Unit and also projects commissioned through the Central Office of Information.

Environment Protection: York

Hugh Bayley: To ask the Secretary of State for Environment, Food and Rural Affairs what the *(a)* specific purpose and *(b)* monetary value was of each special environmental grant awarded by his Department to City of York Council in each year since 2003. [285755]

Dan Norris: There are a number of environmental grants in existence and it is unclear which special environmental grants are being referred to.

The city of York council received £359,838.71 in 2008-09 and £361,122.65 for 2009-10 as part of a waste infrastructure capital grant. Waste infrastructure capital grants are paid to local authorities in recognition of the need to get front-end waste infrastructure, e.g. recycling and composting facilities, on the ground in time to help England meet landfill targets.

Agri-environment schemes are administered by Natural England on behalf of DEFRA. There have been no Countryside Stewardship Scheme or Higher Level Scheme agreements with the city of York council since 2003.

Flood Control: Expenditure

Hugh Bayley: To ask the Secretary of State for Environment, Food and Rural Affairs how much his Department has spent on flood protection measures in *(a)* England, *(b)* Yorkshire and the Humber and *(c)* the City of York in each year since 2003. [285756]

Huw Irranca-Davies: The table shows:

Total expenditure by DEFRA—including by DEFRA through the Environment Agency, local authorities and Internal Drainage Boards—on flood and coastal risk management in England from the 2004-05 financial year; and

Environment Agency investment of grant in aid (from DEFRA) through its regional flood defence committee for the Yorkshire region and expenditure in respect of the city of York.

£ million

	Total for England	Yorkshire and Humber region	City of York
2004-05	405.5	33.4	0.75
2005-06	506.4	40.7	0.95
2006-07	497.3	34.0	0.76
2007-08	499.8	35.2	0.69
2008-09	564.1	41.8	0.73

Notes:
1. The figures do not include Government funding to local authorities by means of revenue support grant nor funding DEFRA has retained for the implementation of the Pitt Review recommendations, adaptation, resistance and resilience measures. These data are published on the DEFRA website.
2. The totals for England include resource and capital funding to the Environment Agency and funding to the Environment Agency to grant aid local authority and Internal Drainage Board flood risk management capital improvement projects.
3. The resource budget funds maintenance and operational costs of the Environment Agency's flood and coastal erosion risk management activities, and the capital programme funds new and improved defences and projects.
4. The totals for England for 2004-05 to 2007-08 are based on outturns, data for 2008-09 on budgeted amounts.
5. The totals for England for 2004-05 and 2005-06 include capital grant and supported capital expenditure (resource) to local authorities and Internal Drainage Boards.

Flood Control: Finance

Martin Horwood: To ask the Secretary of State for Environment, Food and Rural Affairs how much his Department has allocated to the Environment Agency for flood defence grants in each year since 1997; and what expenditure his Department has incurred on flood defences in each such year. [286474]

Huw Irranca-Davies: The following table shows total funding from DEFRA (and its predecessors) to the Environment Agency for flood and coastal erosion risk management. This includes funding for grants to internal drainage boards and local authorities for capital improvement projects.

Until 2004-05 the flood risk management function of the Environment Agency was funded primarily through a combination of grants from DEFRA (and its predecessors) for specific projects and levies on local authorities. The data shows funding from DEFRA and does not include funding from other sources, such as local government investment using settlement funding and levies to the Environment Agency.

The figure for 2008-09 is based on budgeted amounts, subject to confirmation of final outturns.

	Funding (£ million)
1997-98	87.1
1998-99	78.3
1999-00	75.5
2000-01	71.4
2001-02	84.7
2002-03	128.4
2003-04	135.5
2004-05	405.5
2005-06	506.4
2006-07	497.3
2007-08	499.8
2008-09	564.1

Flood Control: Standards

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what assessment his Department has made of the effectiveness of BSI Kitemark-approved products in reducing flood risk; and what the cost to the Environment Agency was of sponsorship of the Kitemark; [285992]

(2) what assessment his Department has made of the merits of BSI Kitemark for products to promote flood defence and flood resilience; and if he will make a statement. [285993]

Huw Irranca-Davies: The kitemark scheme is a British Standards (BSi) accreditation scheme for products meeting specified standards. In the case of flood protection products, accreditation is given to those that comply with publicly available specification (PAS) 1188. To gain the BSi kitemark, products must undergo rigorous testing to demonstrate that they are able to provide effective property level flood protection.

A working group with representatives from the flood resilience product manufacturers, the flood protection association, the Association of British Insurers, insurance companies, DEFRA and HR Wallingford has recently assessed the current BSi kitemark scheme for flood protection products. It was agreed that the scheme is necessary to ensure product quality compliance, and as a result it was re-issued in April this year.

The cost to the Environment Agency of the working group assessment and revising and re-issuing a test scheme was £72,000.

Floods

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 25 June 2009, *Official Report*, column 1087W, on floods: Canvey Island, if he will make it his policy to estimate the number and proportion of buildings in flood risk areas which *(a)* are not flood-resistant and *(b)* are flood-resistant. [285534]

Huw Irranca-Davies: We have no plans to require assessments of whether properties have flood resistant products. These will typically only be made by householders for their own purposes or where it is relevant to the development of a flood management scheme.

Fluoride: Drinking Water

Mr. Crausby: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 17 June 2009, *Official Report*, column 380W, on fluoride: drinking water, what assessment the Drinking Water Inspectorate made of the adequacy of the remedial action taken by Severn Trent Water following the addition of excessive levels of fluoride to the water supply in 2000. [286594]

Huw Irranca-Davies: In January 2009, the Drinking Water Inspectorate sent Severn Trent Water its full assessment of the incident that occurred in 2008; it made 14 recommendations for improvement. In February 2009, the Inspectorate carried out an independent audit of Dimmingsdale Water Treatment Works and made eight recommendations and three comments about best practice. On 3 February 2009, Severn Trent Water wrote formally to the inspectorate confirming the action it had taken, and will be taking, to comply fully with the Inspectorate's findings. Scrutiny of company actions by the Inspectorate continues.

Forestry

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs when the last meeting of the UK Forestry Ministers' Group took place; and when the next meeting of the group is scheduled. [286181]

Huw Irranca-Davies: The last meeting of the UK Forestry Ministers' Group took place on 20 October 2005 to discuss forestry and climate change.

Forests

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of each county was covered by ancient woodland in *(a)* 1988, *(b)* 1998 and *(c)* 2008. [286364]

Huw Irranca-Davies: Figures for the years requested are not held.

The original ancient woodland inventory was carried out in the mid-1980s and was based on manual measurements of maps. The percentage by county recorded at that time is shown in the following table.

The original data was transferred to a digital map basis in the mid-1990s when it was updated and it has continued to be revised as new information becomes available. The current percentage by county is shown in the following table.

Although ancient woodland cannot be recreated, areas have been added and removed from the inventory to reflect new information on the status of the woodland. The vast majority of the changes in the inventory over this period are due to such corrections and adjustments to boundaries from the digitising process, and do not represent actual change on the ground.

Percentage of ancient woodland by county

	Original inventory	*Current inventory*
Avon	2.4	2.1
Bedfordshire	2.1	2.2
Berkshire	4.6	4.4
Buckinghamshire	4.5	4.7
Cambridgeshire	0.8	0.8
Cheshire	0.7	0.8
Cleveland	2.5	2.3
Cornwall and Isles of Scilly	1.9	2.0
Cumbria	2.3	2.5
Derbyshire	1.7	1.9
Devon	2.2	2.3
Dorset	2.9	2.8
Durham	1.7	1.5
East Sussex	10.4	11.4
Essex	2.4	2.4
Gloucestershire	6.7	6.8
Greater Manchester	0.6	0.7
Hampshire	6.8	7.6
Hereford and Worcester	4.7	4.8
Hertfordshire	3.3	3.5
Humberside	0.2	0.2
London	1.6	1.6
Isle of Wight	4.1	4.2
Kent	8.0	7.4
Lancashire	0.9	1.0
Leicestershire	1.0	1.0
Lincolnshire	1.0	1.1
Merseyside	0.2	0.0
Norfolk	0.5	0.5
North Yorkshire	1.7	1.8

Shropshire	2.7	2.7
Somerset	2.6	2.7
South Yorkshire	2.9	2.9
Staffordshire	2.1	2.1
Suffolk	1.1	1.2
Surrey	5.8	5.8
Tyne and Wear	2.0	2.2
Warwickshire	2.1	2.1
West Midlands	0.8	0.8
West Sussex	8.5	9.2
West Yorkshire	1.7	1.9
Wiltshire	3.7	3.7

Hazardous Substances: Waste Disposal

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs how many businesses in each region produced hazardous waste in each year since 1997. [286352]

Dan Norris: This data from the Environment Agency shows the number of premises in each region producing hazardous waste in 2006 and 2007. Data for 2008 is not yet available.

	Sites	
Region	*2007*	*2006*
Unclassified[1]	4,346	5,135
East Midlands	27,611	27,014
East of England	38,383	39,207
London	35,827	37,312
North East	13,850	12,915
North West	36,759	36,047
South East	56,485	57,096
South West	33,137	33,209
Wales	17,229	16,271
West Midlands	29,741	30,226
Yorkshire and the Humber	29,752	27,791
Total	323,120	322,223

[1] This information cannot be allocated to regions because of poor quality postcodes reported by operators in their quarterly returns.

These data are derived from the hazardous waste management system and database which was introduced in July 2005 to coincide with the introduction of the Hazardous Waste (England and Wales) Regulations 2005.

The Environment Agency is unable to provide information for the period 1997 to 2004. Information prior to this is held on an archived system which defined hazardous waste differently. Information is therefore not directly comparable with that held after 2005.

Landfill

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* complaints were made, *(b)* prosecutions were brought and *(c)* fines were levied against landfill site operators in each region for offences related to (i) odour, (ii) water pollution, (iii) air pollution and (iv) effect on human health in each year since 1997. [286362]

Dan Norris: Following is a table from the Environment Agency (EA) showing the number of *(a)* complaints made, *(b)* court cases brought, and *(c)* fines levied against landfill operators in each region for offences related to (i) odour, (ii) water pollution and (iii) air pollution in each year since 2001. The data provided show that from 2001 only as this is when the EA's National Incident Recording System came on line. Interrogating systems which hold information prior to 2001 would incur disproportionate cost.

The EA does not hold specific data relating to the effect of such offences on human health, but it is taken into account when determining the nature of the incident.

Number of incidents

	Total number related to landfills	*Air pollution—odour related*	*Air pollution—not odour related*	*Water pollution*	*Number of court cases*	*Total fines (£)*
2001

Local Government Finance

Justine Greening: To ask the Secretary of State for Environment, Food and Rural Affairs (1) which *(a)* specific and *(b)* area-based grants are distributed to local authorities by each division of his Department; [285047]

(2) what recent estimate has been made of the annual cost to *(a)* his Department of distributing each grant made by it to local authorities and *(b)* local authorities of administering each such grant; [285048]

(3) what *(a)* eligibility conditions and *(b)* compliance measures are in place in respect of the expenditure by local authorities of each grant distributed by his Department; and what recent estimate has been made of the annual cost to his Department of monitoring the compliance by local authorities with such measures in respect of each such grant. [285123]

Dan Norris: The Government believe in giving local authorities greater flexibility to take decisions on local priorities. The introduction of the area based grant has reduced ring-fencing, giving councils increased flexibility to manage their budgets. Alongside this, the new local performance framework has provided a simplified and more effective structure for priority setting and performance measurement.

The following specific revenue grants are being paid by this Department direct to local authorities in 2009-10:

Policy area	*Grant*
Waste Strategy	London Waste and Recycling Board Fund
Exotic Disease and Agency Relationship Portfolio	Animal Health and Welfare Enforcement
Atmospheric Quality and Industrial Pollution	Air Quality Monitoring Equipment
Soils	Contaminated Land

Policy area	Grant
Water	Flood and Coastal Erosion Risk Management

Area based grant is paid by Communities and Local Government on behalf of the Government as a whole, in monthly instalments. Funding streams from this Department which are being paid through area based grant in 2009-10 are:

Policy area	Grant
People and Landscapes	Aggregates Levy Sustainability Fund
Waste Strategy	Waste Infrastructure Capital Grant

The Department does not routinely estimate the costs of distributing grants each year, although it does consider the cost effectiveness of proposals as part of the policy development process. It also assesses whether there will be any new burdens on local authorities, and ensures that these are fully funded when a policy is implemented.

As area based grants are not ring-fenced, they come with no specific conditions or compliance requirements.

Eligibility conditions and compliance measures vary with each specific revenue grant.

Marine Management Organisation

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the oral answer of 23 June 2009, *Official Report*, column 700, what mechanisms exist for the independent Marine Management Organisation to report to Parliament. [287435]

Huw Irranca-Davies: The Marine Management Organisation (MMO) is required to prepare an annual report for each financial year detailing how it has discharged its functions. The MMO must send this report to the Secretary of State for the Department for Environment, Food and Rural Affairs who must lay a copy of it before Parliament.

The Secretary of State will be formally accountable to Parliament for the activities and performance of, and public money spent by, the MMO. He will be advised by a cross-government MMO sponsorship group which will allow UK Government Departments' interests to be represented without compromising the clear lines of responsibility and accountability.

Natural England: Manpower

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs how many qualified *(a)* lepidopterists, *(b)* botanists, *(c)* lichenologists, *(d)* bryologists and *(e)* mycologists are employed by Natural England. [287177]

Huw Irranca-Davies: With the exception of botany, there are no nationally-recognised qualifications in the fields covered by this question. Natural England employs the following numbers of nationally-recognised experts:

	Number
(a) Lepidopterists	1
(b) Botanists	3
(c) Lichenologists	1
(d) Bryologists	1
(e) Mycologists	2

Origin Marking: Israel

Dr. Starkey: To ask the Secretary of State for Environment, Food and Rural Affairs (1) with reference to the round table meeting on 31 March 2009 with representatives from food retailers and trading organisations on food labelling, what steps his Department is taking in the preparation of voluntary guidance to supermarkets on country of origin labelling of produce from Israeli settlements; [287173]

(2) pursuant to the answer from the Minister of State, Foreign and Commonwealth Office to the hon. Member for Birmingham, Selly Oak, of 8 July 2009, *Official Report*, column 856W, on Israel: imports, when he expects to announce the next step in public consultation on the labelling of goods imported into the UK from Israeli settlements in the Palestinian territories. [287174]

Jim Fitzpatrick: Following the meeting on 31 March, the Department for Environment, Food and Rural Affairs is currently working with other Departments including the Foreign and Commonwealth Office, HM Revenue and Customs, the Department for Business, Innovation and Skills and the Food Standards Agency with the intention of carrying out a public consultation on the labelling of produce from the Occupied Palestinian Territories shortly.

Rivers: Pollution

Martin Horwood: To ask the Secretary of State for Environment, Food and Rural Affairs at what locations *(a)* acid and *(b)* other discharge from (i) mines, (ii) landfill sites, (iii) radioactive waste storage sites and (iv) animal burial mounds have been identified as (A) exceeding permitted levels and (B) resulting in poor river quality in nearby river courses in each year since 1997; and what steps his Department takes when such sites are identified. [286465]

Huw Irranca-Davies: Details of locations where acid and other discharge from mines, landfill sites, radioactive waste storage sites and animal burial mounds have been identified as exceeding permitted levels and resulting in poor river quality are as follows:

(i) Working mines are subject to discharge controls under Water Resources Act consents or Environmental Permitting Regulations permits issued and enforced by the Environment Agency. Permits are set to ensure that, when complied with, relevant EU Directive standards are met. Where permits are not complied with it is for the Environment Agency to take appropriate action.

Since 1994, over 100 discharges from abandoned coal mines to rivers have been assessed and prioritised by the environment agencies in England and Wales and Scotland. The Coal Authority has built some 50 minewater treatment plants which have cleaned up or protected more than 400 km of rivers and protected drinking water supply

aquifers. A prioritised programme to deal with remaining pollution from abandoned coal mines is in place.

Research commissioned recently by my Department and the Environment Agency has addressed the impacts of abandoned non-coal mines on watercourses. It identifies those posing the greatest risk to achievement of the aims of the Water Framework Directive by assessment of impacts on water quality, ecology, fish and groundwater. It is estimated that, out of a total of some 8,000 water bodies, 221 are impacted by non-coal minewater pollution related primarily to high concentrations of metals in discharges. As a first step, my Department is currently commissioning research to identify the most cost-effective passive treatment options from which to develop appropriate remedial measures within future river basin management planning cycles. This research will be published in due course.

Relevant annual data since 1997 are not held centrally and I will ask the Environment Agency to provide such information as is readily available to be placed in the Library of the House.

(ii) The regulation of landfills has changed significantly since 1997 when landfills were regulated by a waste management licence. Discharges of site drainage and treated leachate were controlled through a separate authorisation. Since the introduction of the Pollution Prevention and Control Act in 1999, permits have controlled both the landfill and discharges to surface water at operational sites.

The Environment Agency records inspections carried out at landfill and breaches of licence conditions. Since 2004 the Environment Agency has recorded data on breaches of licence conditions on a national system. Information prior to this is not held centrally.

The following table summarises the number of landfill non-compliances related to discharges to surface water, for each Environment Agency region.

Region	*2004*	*2005*	*2006*	*2007*	*2008*	*2009*	*Total*
Anglian	230	401	73	15	13	6	738
Midlands	156	173	72	13	21	15	450
North East	286	362	147	53	19	1	868
North West	109	98	30	19	18	1	275
South West	62	33	29	13	19	—	156
Southern	266	253	106	8	26	1	660
Thames	49	121	108	6	5	9	298
Wales	26	31	24	14	29	7	131
Total	1,184	1,472	589	141	150	40	3,576

While the Environment Agency records details of the type of breach, it is unable to provide a summary of the breakdown of these incidents by substance.

(iii) Low level radioactive waste is disposed of at the Low Level Waste Repository near Drigg in Cumbria. The Environment Agency and the Food Standards Agency monitor the environment and food around this facility. Since 2002, the Environment Agency has published its environmental monitoring results annually in the Radioactivity in Food and Environment (RIFE) Report series; prior to that the results were published in the Agency's Radioactivity in the Environment series of reports. Based on these monitoring results the Environment Agency assesses the radiation doses received by members of the public. The radiation dose to members of the public living near the Low Level Waste Repository is much less than the annual 1 millisievert (mSv) legal dose limit. The results of these dose assessments are also published in the RIFE report series.

Small quantities of low level radioactive waste are disposed of to some landfill sites. The Environment Agency monitors groundwater and leachate from a number of landfill sites and its assessments of radiation doses based on the monitoring results show that doses to members of the public are much lower than the annual 1 mSv legal dose limit. These results are also published in the RIFE report series.

The disposals of radioactive waste did not exceed permitted levels at the low level radioactive waste repository near Drigg or at landfill sites. Radioactive waste disposals did not result in poor river water quality.

(iv) The Environment Agency is not aware of any significant impact from animal burial mounds. The only significant burial of animals occurred during the 2001 Foot and Mouth emergency where there were 992 on-farm disposals of carcases in England and Wales. Due to the precautions taken at the time to identify suitable sites and the removal of material in some cases, very few residual risks were identified in the comprehensive review that was subsequently undertaken by DEFRA. Monitoring was found to be necessary at approximately 3 per cent. of the original burial sites. No unacceptable impact on the environment has been found.

Following the outbreak, DEFRA, in consultation with the Environment Agency, commissioned an independent review of each site using a source>pathway>receptor staged approach. The consultants concluded that none of the 992 sites posed an unacceptable risk to the environment but recommended that 32 of the sites be subject to ongoing water quality monitoring. Monitoring of these sites commenced in 2003 and is ongoing. The results are made available to the Environment Agency on a quarterly basis. This ongoing monitoring has identified that although there have been occasional exceedences of the precautionary threshold levels at a number of sites, they are often one-off spikes and are not consistent. These exceedences are considered to reflect the fact that samples are obtained from natural bodies of water in agricultural settings and reflect agricultural practice in the vicinity rather than results from the carcase disposal.

Since 2001, DEFRA has retained and managed four animal burial sites. Of these sites, only one (Watchtree, Cumbria) releases processed water into the watercourse. This is treated water from the burial cells finished using reed-bed technologies which is subject to a managed discharge consent issued by the Environment Agency. While there have been isolated instances of permitted levels being breached, these have almost been exclusively due to unseasonal rainfall which increases the suspended solids content, and none have resulted in poor river quality being reported. The three remaining sites (Tow Law, Co Durham, Ridgeway Ground, Worcestershire and Birkshaw Forest, Dumfries and Galloway) are closed sites with water products been stored and tanked to an appropriate location for treatment. Ground water run-off surrounding the sites is also monitored with the results shared with the Environment Agency, no recurring breaches have been reported and any isolated breaches have been actively resolved in conjunction with the appropriate regulatory agencies.

Roads

Mr. Todd: To ask the Secretary of State for Environment, Food and Rural Affairs when he last reviewed the powers available for control of the use of the public highway for the sale of motor vehicles. [286953]

Dan Norris: In 2005, DEFRA introduced further provisions within The Clean Neighbourhoods and Environment Act to tackle nuisance parking. Specifically, section 3 of Act makes it an offence for a person to place two or more vehicles for sale (for the purposes of a business) on roads where they are within 500 metres of each other. The offence is not intended to target individual private sellers of single vehicles, rather the nuisance that is caused by the presence of numbers of vehicles being offered for sale by the same person or business. Any person found guilty of such an offence can be fined up to £2,500.

Rural Payments Agency: Freedom of Information

Dan Rogerson: To ask the Secretary of State for Environment, Food and Rural Affairs which requests for information received by the Rural Payments Agency under the provisions of the Freedom of Information Act 2000 in 2008 were *(a)* classified as not resolvable and *(b)* refused in full. [286134]

Jim Fitzpatrick: Most requests for information received by the Rural Payments Agency (RPA) are dealt with under the provisions of the environmental information regulations (EIR). Figures provided include requests dealt with in 2008 by RPA under the EIR and Freedom of Information Act (FOI). Requests classified as not resolvable by RPA are those where information is not held by RPA.

	FOI	*EIR*
Requests not resolvable	8	12
Information withheld in full	7	12

Squirrels

Mr. Atkinson: To ask the Secretary of State for Environment, Food and Rural Affairs how much Natural England has spent on red squirrel conservation in the last five years. [286689]

Huw Irranca-Davies: From 2004-5 to 2008-9, Natural England and its founding bodies spent £94,300 on red squirrel conservation. In addition, a three-year rural enterprise scheme grant of £148,000 was made by the Rural Development Service in July 2006. Responsibility for this scheme was transferred to the Regional Development Agencies on the establishment of Natural England.

Trees

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of trees in each region *(a)* had full crowns, *(b)* had slight defoliation, *(c)* had moderate defoliation, *(d)* had severe defoliation and *(e)* were dead in the latest survey conducted on behalf of his Department into tree health. [286358]

Huw Irranca-Davies: The last complete survey of forest condition was conducted by the Forestry Commission between June and September 2006. The total number of trees assessed was 8,184 and these included Sitka spruce, Norway spruce, Scots pine, oak and beech.

The data are not readily available by region but the total percentages are provided in the following table.

Class	*Percentage of trees*
Full crowns	26.1
Slight defoliation	48.0
Moderate defoliation	23.9
Severe defoliation	1.1
Dead	0.9

A limited survey of the condition of two forest tree species (Scots pine and oak) was undertaken between June and September of 2007. The total number of trees assessed was 3,744. The data are not readily available by region but the total percentages are provided in the following table.

Class	*Percentage of trees*
Full crowns	26.5
Slight defoliation	47.5
Moderate defoliation	23.8
Severe defoliation	1.1
Dead	1.1

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what steps *(a)* have been taken recently and *(b)* are planned to be taken to improve tree health. [286365]

Huw Irranca-Davies: The need to maintain, and improve where necessary, the health and vitality of trees remains integral to the Government's approach to sustainable forest management.

Forest Research, the Research Agency of the Forestry Commission that is responsible for carrying out investigations into and providing advice on tree health issues, has recently been restructured to give greater emphasis to the impact of climate change on tree health. Its new Centre for Forestry and Climate Change researches the effects of environmental and climate change on forestry, and how the sector can play its part in adaptation and mitigation of climate change. The centre also develops entomology, pathology and environmental sciences in order to deliver holistic understanding of climate change and forestry.

As well as investigating the potential impacts of climate change, research is ongoing into a number of pests and diseases of current concern. These include:

Red Band Needle Blight which can affect a wide range of pines and other conifers.

Acute Oak Decline which is widespread and of complex cause, often involving recurrent drought, attack by root disease fungi and episodes of insect defoliation or mildew attack.

The horse chestnut leaf miner moth which causes browning and an autumnal appearance during the summer months and the bacterium *Pseudomonas syringae* pv *aesculi* as the causal agent of a serious, sometimes lethal, bleeding canker of horse chestnuts.

Oak processionary moth (*Thaumetopoea processionea*) for which the Forestry Commission initiated a contingency plan and is working in partnership with officials from the affected London boroughs and the Health Protection Agency, in an effort to eradicate the pest before it gains a firm foothold.

Phytophthora ramorum and *Phytophthora kernoviae* for which we have already announced a £25 million package which will support a five-year programme to manage and contain the risks of these two plant diseases.

Looking to the future, the Forestry Commission has recently announced plans to develop a risk management strategy and action plan to respond to the increasing biotic threats to UK trees and forests. It is aiming to have this in place later this year.

Waste Disposal

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what estimate he has made of the number of sanitary products have been disposed of by *(a)* landfill, *(b)* incineration and *(c)* other means in the last year for which figures are available; [286433]

(2) what estimate he has made of the number of disposable nappies have been disposed of by *(a)* landfill, *(b)* incineration and *(c)* other means in the last year for which figures are available. [286434]

Dan Norris *[holding answer 13 July 2009]:* Data on individual waste streams such as nappies or sanitary products are not routinely collected. However, a report of an updated life cycle study on disposable and reusable nappies prepared for DEFRA by consultants ERM and published in 2008 contained an assumption that 86 per cent. of disposable nappies were landfilled in 2005-06, with the remainder going to energy from waste installations.

Water Charges

Ms Buck: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the average proportion of income spent on water charges by households in *(a)* the bottom decile, *(b)* the bottom 50 per cent. and *(c)* the highest decile for household income in (i) 1990, (ii) 2000 and (iii) 2008. [286302]

Huw Irranca-Davies: This information is held by the Office for National Statistics. The average percentage of income spent on water charges by households is provided in the following table.

Water bills as a percentage of household disposable income[1]—United Kingdom

	Percentage of income for group names		
	Bottom decile group[2]	*Bottom 50 per cent[2]*	*Top decile group[2]*
2000-01	3.5	1.8	0.5
2006-07	3.5	1.9	0.5

[1] Unequivalised household disposable income.
[2] Ranked by equivalised disposable income.

2006-07 is the latest period for which estimates are currently available. The next publication is scheduled for 29 July and will cover the period 2007-08.

Martin Horwood: To ask the Secretary of State for Environment, Food and Rural Affairs how many customers of each water supply company were on a vulnerable groups tariff in each of the last three year. [286472]

Huw Irranca-Davies: The number of customers on a vulnerable groups tariff in each of the last three years by water company is set out in the following table.

	2006-07	*2007-08*	*2008-09*
Anglian and Hartlepool Water	904	3,385	3,068
Dwr Cymru	580	899	1,070
United Utilities	1,565	2,286	2,551
Northumbrian and Essex and Suffolk	898	1,077	1,403
Severn Trent	1,508	2,385	3,399
South West	3,857	5,837	6,782
Southern	280	197	641
Thames	2,053	2,333	2,747
Wessex	751	837	972
Yorkshire and York	1,663	2,090	2,702

Dee Valley	36	73	83
Folkestone	106	176	270
Portsmouth	30	43	73
South East Water (incl. Mid Kent)	143	249	[1]156
South East Water (excl. Mid Kent Water)	102	97	—
Mid Kent Water	41	152	—
South Staffs	198	259	364
Sutton and East Surrey	91	110	113
Tendring Hundred	425	468	533
Three Valleys	316	504	788
Industry	16,212	24,121	28,723

[1] In 2008-09 Mid Kent merged with South East Water

Martin Horwood: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of average monthly cost to *(a)* metered and *(b)* unmetered consumers of (i) water supply and (ii) sewerage services in each (A) water supply area and (B) region in 2007-08. [286470]

Huw Irranca-Davies: Ofwat, the economic regulator of the water and sewerage sector in England and Wales, does not hold data for the average metered and unmetered water and sewerage bills broken down by month and region.

The following table sets out the average annual bills for 2007-08 in 2009-10 prices.

Information on 2009-10 water and sewerage bills is available from the Ofwat website at:

www.ofwat.gov.uk

The average annual unmetered and metered, water and sewerage bills for 2007-08 (in 2009-10 prices)

	Unmetered water	*Metered water*	*Unmetered sewerage*	*Metered sewerage*	*Combined unmeasured*	*Combined measured*	*Combined total water and total sewerage*

Note:
Figures may not total due to rounding

Water Supply

Mr. Watson: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 6 July 2009, *Official Report*, column 532W, on water meters, how many households receive water supplies from *(a)* Severn Trent Water and *(b)* South Staffordshire Water. [285878]

Huw Irranca-Davies: The following table shows the number of households that receive their water supplies from Severn Trent Water and South Staffordshire Water.

Company	*Connected properties*
Severn Trent Water	3,167,600
South Staffordshire Water	521,300

BUSINESS, INNOVATION AND SKILLS

Graduate Job Prospects

Ms Dari Taylor: To ask the Minister of State, Department for Business, Innovation and Skills what assessment he has made of job prospects for graduates in the current economic downturn. [287052]

Mr. Lammy: These are undoubtedly tough times for graduates but we should not forget that a degree remains a strong investment. Businesses are continuing to recruit through the downturn, and the Government are committed to helping graduates. Working with employers and universities, we are boosting the number of internships and offering more loans to support further study. So graduates should remain positive.

British National Space Centre

Linda Gilroy: To ask the Minister of State, Department for Business, Innovation and Skills what funding his Department has allocated to the British National Space Centre for 2010-11; and if he will make a statement. [287070]

Mr. Lammy: Provisional indicative planning assumptions are that in 2010-11 the Department for Business, Innovation and Skills will allocate to the British National Space Centre £1.5 million in programme budget, and £1.123 million in administration budget.

Construction Industry

21. **Tony Baldry:** To ask the Minister of State, Department for Business, Innovation and Skills what steps he is taking to assist the construction industry during the recession. [287072]

Ms Rosie Winterton: Government are offering the real help that construction companies and workers need now.

We are ensuring that companies struggling to obtain finance are supported through a package of support including the Enterprise Finance Guarantee and the Working Capital scheme.

We are helping the industry ensure it has the right skills, for example by agreeing a Train to Gain compact which will make available £133 million over three years to meet the identified priority skills needs of the industry.

And we are boosting demand by bringing forward £3 billion expenditure from 2010-11 to 2008-9 and 2009-10.

Bankruptcy

Mr. Spring: To ask the Minister of State, Department for Business, Innovation and Skills how many people in *(a)* England and *(b)* Suffolk aged 60 or more years have declared themselves bankrupt in each year since 1997. [286264]

Ian Lucas: The available information on the number of bankruptcies in England and in Suffolk, aged 60 or more years, may be seen in Table 1 as follows. Information prior to 2000 is not available on this basis.

Table 1: Bankrupts aged 60 and over[1, 2]

	Location	
	England	*Suffolk*
2000	802	12
2001	947	19
2002	1,154	26
2003	1,464	26
2004	1,915	23
2005	2,898	51
2006	4,394	61
2007	4,911	69
2008	5,189	89

[1] Where the bankrupt has provided a valid date of birth (between 90-93 per cent. of cases over the period covered).
[2] Where the bankrupt has provided a valid postcode (increasing from 88 per cent. of cases in 2000 to 97 per cent. in 2008).

Insolvency

Mr. Oaten: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to the answer of 29 June 2009, *Official Report*, column 97W, on insolvency, how many reports from insolvency practitioners alleging misconduct have been received by the Insolvency Service in each of the last three years; and how many such reports have been pursued to investigation stage. [285747]

Ian Lucas *[holding answer 13 July 2009]:* The information is as follows:

	2006-07	*2007-08*	*2008-09*
Unfitted returns received	4,120	3,991	4,752
Investigations	1,260	1,691	1,073

Mr. Oaten: To ask the Minister of State, Department for Business, Innovation and Skills how many company directors have been disqualified from the Insolvency Service following an investigation in each of the last three years; and what the average disqualification period was in each such year. [285774]

Ian Lucas *[holding answer 13 July 2009]:* The Insolvency Service obtains disqualifications under sections 6 and 8 of the Company Directors Disqualification Act 1986 (CDDA). Some disqualifications are obtained under section 2 of the CDDA following criminal proceedings that have resulted in directors being convicted of an indictable offence in connection with the promotion, formation, management, liquidation or striking off of a company.

Directors disqualified	*2006-07*	*2007-08*	*2008-09*
(a) Under section 6			
Directors disqualified	1,149	1,066	1,204
Average period in years	5.5	5.9	6.3
(b) Under section 8			
Directors disqualified	26	28	23
Average period in years	6.5	6.2	6.3
(c) Under section 2			
Directors disqualified	51	79	48
Average period in years	n/k	n/k	5.7

Mr. Oaten: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to the answer of 29 June 2009, *Official Report*, column 97W, on insolvency, what estimate he has made of the cost of regulating compliance with Statement of Insolvency Practice 16; and from which budget such costs will be met. [285850]

Ian Lucas *[holding answer 13 July 2009]:* The cost of the Insolvency Service's monitoring of Statement of Insolvency Practice (SIP) 16, relating to pre-packaged administrations, has been estimated at £100,000 for the current financial year. The monitoring is undertaken on a cost recovery basis, and will therefore be recovered from the recognised professional bodies that regulate insolvency practitioners by way of levy.

The cost of regulating insolvency practitioners' compliance with SIP 16 in terms of considering and implementing appropriate regulatory and disciplinary actions remains with the relevant recognised professional bodies.

Internet: Censorship

Daniel Kawczynski: To ask the Minister of State, Department for Business, Innovation and Skills if he will restrict or prohibit the supply to Zimbabwe by UK companies of technologies capable of use to monitor, inspect or filter internet content. [285279]

Ian Lucas: There are currently no plans to restrict further or prohibit the supply to Zimbabwe by UK companies of technologies capable of use to monitor, inspect or filter internet content. The export of these technologies would already be controlled if they employed cryptography or were specially designed for military use. European Union sanctions against Zimbabwe, outlined in Council Regulation (EC) No 314/2004, also allow Communications Intercept Devices to be controlled where they might be used for internal repression.

In such cases, all export licence applications are rigorously assessed on a case-by-case basis against the Consolidated EU and National Arms Export Licensing Criteria and a licence would not be issued if to do so was inconsistent with the criteria.

Jaguar Land Rover

Richard Burden: To ask the Minister of State, Department for Business, Innovation and Skills what progress has been made in discussions between his Department and Jaguar Land Rover in respect of loan guarantees; and when he expects the discussions to be completed. [284262]

Ian Lucas *[holding answer 8 July 2009]:* I refer my hon. Friend to the answer I gave to the hon. Member for Mid-Worcestershire (Peter Luff) on 24 June 2009, *Official Report*, column 980W.

London Metropolitan University

Mr. Rob Wilson: To ask the Minister of State, Department for Business, Innovation and Skills (1) when he was first informed of the inaccuracies relating to student data and funding at London Metropolitan University; [276990]

(2) on what date the Higher Education Funding Council for England first raised concerns with London Metropolitan University about its non-completion rates data for the 2005-06 academic year; [276991]

(3) what reasons representatives of the London Metropolitan University provided to the Higher Education Funding Council for England for its return of incorrect data on completion rates for the academic years *(a)* 2005-06, *(b)* 2006-07 and *(c)* 2007-08; [276992]

(4) what recent procedures he has put in place to ensure the accuracy of data on non-completion rates provided by universities to the Higher Education Funding Council for England; [276993]

(5) if he will commission an independent investigation into the recent submission of data on non-completion rates by London Metropolitan University to the Higher Education Funding Council for England. [276994]

Mr. Lammy: I will answer these questions on the current situation at London Metropolitan university (LMU) together. In doing so it should be borne in mind that responsibility for resolving these issues falls to the funding council and the university. Ministers are precluded in legislation from decisions on the funding of individual institutions. In answer to the specific questions:

First, Ministers were first informed about by the funding council about issues with audit of LMU's data in February 2008.

Second, the funding council first raised concerns with LMU about its 2005/06 data in April 2007.

Third, LMU reported non-completions for each of these years based on its own interpretation of the funding council rules.

Fourth, the funding council already has a number of processes in place to ensure the accuracy of the data institutions provide which inform their funding. It was these processes that identified the problems at LMU.

Fifth, it is for the funding council to account for the funds it distributes. It has itself decided to commission an independent report into its handling of the situation at LMU. It will report to its board in July and will be made public. In addition the National Audit Office will be undertaking a study of the financial health of the HE sector later this year. It is likely to include LMU in that study. As such I will not be commissioning a separate investigation.

Skilled Workers

Mr. Sanders: To ask the Minister of State, Department for Business, Innovation and Skills what recent assessment his Department has made of the level of skills shortage in each *(a)* industrial sector and *(b)* region. [284619]

Kevin Brennan: The National Employer Skills Survey 2007 report, published in May 2008, provides the most recent data available on the skills shortages in each sector and region.

(a) Table 1 shows the number and proportion of Skills Shortage Vacancies (SSVs) by Sector Skills Council sector (LSC, 2008: p.56):

Table 1

	Vacancies[1]	*SSVs*[1]	*Percentage of vacancies that are SSVs*	*SSVs per 1,000 employees*
Unweighted base	*52,867*	*10,399*

[1] Denote base sizes of 25 to 49 and should be treated with caution.
Base: All employment
Notes:
Vacancy and SSV figures rounded to the nearest 25.

Space Technology: Research

Adam Afriyie: To ask the Minister of State, Department for Business, Innovation and Skills what proportion of Government research and development (R and D) funding was allocated to civil space R and D in each year since 1986. [284881]

Mr. Lammy *[holding answer 13 July 2009]:* This information is published in SET statistics and can be found at

http://www.dius.gov.uk/science/science_funding/set_stats

The most recent figures available are set out in the following table. This shows the percentage share of Government funding of net research and development funding in each year from 1986-87 to 2005-06 which was allocated to civil space.

Percentage share of Government funding of net R and D allocated to civil space

	Percentage
1986-87	2.8
1987-88	2.9
1988-89	3.2
1989-90	3.0
1990-91	3.0
1991-92	2.5
1992-93	2.9
1993-94	3.5
1994-95	3.1
1995-96	2.7
1996-97	2.8
1997-98	2.8
1998-99	2.5
1999-2000	2.3
2000-01	2.3
2001-02	2.1
2002-03	1.9
2003-04	2.0
2004-05	2.0
2005-06	2.2

Students: Loans

David T.C. Davies: To ask the Minister of State, Department for Business, Innovation and Skills how many people have complained to the Student Loans Company (SLC) that money deducted by HM Revenue and Customs from their salaries for repayment of student loans has not been allocated to their accounts with the SLC in each of the last three years; how long on average it took the SLC to reply to such complaints in each of those years; and if he will make a statement. [284610]

Mr. Lammy *[holding answer 7 July 2009]:* I refer the hon. Member to the answer I gave on 13 July 2009, *Official Report*, column 201W.

Tax Havens

Mr. Austin Mitchell: To ask the Minister of State, Department for Business, Innovation and Skills if he will bring forward legislative proposals to prohibit directors of companies registered in the British Virgin Islands from becoming directors of UK companies. [284650]

Ian Lucas: I have no plans to do so.

Written Questions: Government Responses

Stewart Hosie: To ask the Minister of State, Department for Business, Innovation and Skills when he plans to answer question 280005, tabled on 10 June 2009, on the Capital for Enterprise Fund. [281285]

Ms Rosie Winterton: I refer the hon. Member to the answer I gave on 13 July 2009, *Official Report*, column 186W.

CULTURE, MEDIA AND SPORT

Departmental Contracts

Lorely Burt: To ask the Secretary of State for Culture, Media and Sport how many contracts let by his Department were awarded to businesses with fewer than 50 employees in each of the last five years; and what the monetary value of such contracts was in each such year. [287797]

Mr. Sutcliffe: The Department for Culture Media and Sport awarded the following number of contracts to businesses with fewer than 50 members of staff with the following total monetary values:

April to March each year	*Number of contracts*	*Total spend (£)*
2006-07	120	3,589,211.10
2007-08	93	1,999,166.68

Notes:
1. Data for April 2004-March 2005 and April 2005-March 2006 are not held.
2. Data for April 2008-March 2009 will be available within the next two months.

Departmental Databases

Jenny Willott: To ask the Secretary of State for Culture, Media and Sport what categories of personal information about members of the public are contained on each relevant database managed by his Department and its agencies; on what date each category of information began to be collected; and if he will make a statement. [283984]

Mr. Sutcliffe: Personal information about members of the public held in databases managed by my Department began to be collected when each one became operational. I refer the hon. Member to the answer I gave her on 14 July 2009, *Official Report*, columns 245-46W.

Detailed explanation of all the fields in these databases could be provided only at disproportionate cost.

Departmental Electronic Equipment

Jenny Willott: To ask the Secretary of State for Culture, Media and Sport how many *(a)* photocopiers, *(b)* scanning devices and *(c)* fax machines, excluding multi-function devices, there are in his Department; how many there were in each of the last three years; and if he will make a statement. [286177]

Mr. Sutcliffe: In each of the last three years the Department has had the following equipment, excluding multi-function devices.

	Photocopiers	*Scanning devices*	*Fax machines*
2007	*11	4	17
2008	2	4	17
2009	2	4	17

Departmental Information Officers

Paul Holmes: To ask the Secretary of State for Culture, Media and Sport what the cost to his Department of (a) press officers and (b) other press office staff has been in each year since 1997. [283063]

Mr. Sutcliffe: The cost of press officers is available only from 2002-03 and the cost of other press office staff is available only from 2003-04. The information for earlier years could be provided only at disproportionate cost.

The costs were:

£

	Press officers	*Other press office staff*
2002-03	459,932	—
2003-04	552,677	174,576
2004-05	466,206	157,245
2005-06	[1]550,124	110,864
2006-07	[1]733,412	165,170
2007-08	[1]682,858	187,576
2008-09	[1]706,643	185,715

[1] This includes press officers working on the Olympics

Digital Broadcasting

Miss McIntosh: To ask the Secretary of State for Culture, Media and Sport what recent estimate he has made of the likely cost to the public purse of digital switchover in *(a)* the Vale of York, *(b)* North Yorkshire and *(c)* England. [286061]

Mr. Simon: A total of £603 million for the Digital Switchover help scheme and £200 million for Digital UK's marketing and communications were ring-fenced in the current TV licence fee agreement, which runs to March 2013. These figures cover the UK as a whole and have not been divided between nations, regions or individual constituencies.

Miss McIntosh: To ask the Secretary of State for Culture, Media and Sport what the cost to the public purse of digital switchover has been in *(a)* the Vale of York, *(b)* North Yorkshire and *(c)* England to date. [286063]

Mr. Simon: As detailed in the Help Scheme Agreement, the £603 million estimated cost of the help scheme will be divided into annual amounts for the purpose of funding the scheme. The ITV Yorkshire region (covering the Vale of York and North Yorkshire) does not switch until 2011, therefore to date there has been no spend in this region. It is not possible to estimate the total cost of running the scheme to date in England since a large proportion of the costs are fixed costs that are associated with developing and running the scheme across the UK as a whole.

There has been no regional cost incurred by Digital UK activity in Yorkshire as this will commence in spring 2010. In England the cost to date of all Digital UK switchover communications and operations, which excludes Wales, Northern Ireland, STV Central and STV North is £57 million.

Digital Broadcasting: Northern Ireland

Mr. Gregory Campbell: To ask the Secretary of State for Culture, Media and Sport if he will take steps to bring the level of take-up of digital broadcasting in Northern Ireland up to average levels in the rest of the UK. [284161]

Mr. Simon *[holding answer 3 July 2009]:* As digital switchover in Northern Ireland in 2012 draws closer, Digital UK will run a communication programme in the area covered by the Ulster TV region about switchover and what people need to do to ensure that they can receive digital television services.

There are no steps envisaged to increase digital radio take-up specifically in Northern Ireland, or in any other part of the UK. However, as set out in the recently published Digital Britain White Paper, the Government recognise that building out a Digital Audio Broadcasting (DAB) infrastructure across the UK which meets the needs of broadcasters, multiplex operators and listeners, including improving the quality of the signal, will require additional investment. We will work closely with the BBC, transmission providers and Ofcom to agree a plan for the extension and improvement for local DAB coverage, and where the cost would most appropriately fall.

Digital Broadcasting: Radio

Mr. Roger Williams: To ask the Secretary of State for Culture, Media and Sport (1) what the extent of coverage of digital radio in *(a)* Powys, *(b)* Wales and *(c)* each region will be after the analogue radio switch-off; [286371]

(2) when the analogue radio signal will be switched off in *(a)* Powys, *(b)* Wales and *(c)* each region. [286372]

Mr. Simon *[holding answer 13 July 2009]:* Details of the extent of digital radio coverage and when the Digital Radio Upgrade will be implemented in *(a)* Powys, *(b)* Wales and *(c)* each other UK region following the Digital Radio Upgrade programme are not currently available.

In the coming months we will be working with broadcasters and transmission providers to consider how and when the coverage of DAB will be extended and improved. The intention is to give a clearer indication of future coverage in the spring 2010 review which was proposed in the Digital Britain White Paper.

However, we have been clear from the outset that coverage of DAB needs to be at least comparable to current FM coverage before the Upgrade can begin. We are also aware that in Wales specific regard needs to be made to those listeners that only have access to radio via MW.

No date has been set for the Digital Radio Upgrade programme. The top-level principle of the upgrade programme is that it should not result in reduced access to radio services. The Digital Britain White Paper set out our intention to deliver a Digital Radio Upgrade programme across the UK by the end of 2015, when we would expect all analogue services also carried on the national and local DAB multiplexes to cease broadcasting on analogue. The Digital Radio Upgrade will be implemented on a single date, which will be announced at least two years in advance.

Mr. Roger Williams: To ask the Secretary of State for Culture, Media and Sport what provision will be made for radio reception by residential properties where digital radio signals cannot be received after the discontinuance of analogue radio signals in *(a)* Powys, *(b)* Wales, *(c)* each region of England, (d) Scotland and (e) Northern Ireland. [287169]

Mr. Simon: The Digital Britain White Paper made clear our intention that the Digital Radio Upgrade programme should not result in listeners losing access to radio. We have also been clear that before the upgrade can begin DAB coverage must be comparable to the existing FM coverage, particularly for the BBC's services. In the case of Wales, we are also examining closely the impact of ceasing radio broadcasts on MW, which many listeners in Wales rely upon.

Therefore we are not, at this time, planning specific provisions to address residential properties in *(a)* Powys; *(b)* Wales; *(c)* each region of England; *(d)* Scotland; and *(e)* Northern Ireland which are not able to receive digital radio signals once services migrate to digital. However, we will keep this under review.

Digital Switchover Help Scheme

Miss McIntosh: To ask the Secretary of State for Culture, Media and Sport what recent estimate he has made of the number of people eligible for assistance under the Digital Switchover Help Scheme in *(a)* the Vale of York, *(b)* North Yorkshire and *(c)* England; and if he will make a statement. [285757]

Mr. Simon: Those eligible for the help scheme can only be broken down by ITV regions. The Help Scheme estimates around 640,000 people in the ITV Yorkshire region will be eligible to receive help, although this number is likely to change between now and when the region switches in 2011. It is estimated that around seven million people in the UK will be eligible to receive help from the Switchover Help Scheme.

Television: Licensing

Mr. Clifton-Brown: To ask the Secretary of State for Culture, Media and Sport when it became a requirement to have a television licence to receive television signals on mobile telephones in the home; how many prosecutions there have been of people who have received signals on mobile telephones without a licence; and if he will make a statement. [286187]

Mr. Simon: The legislation on TV licensing refers to television receivers and does not refer specifically to mobile phones.

Government do not hold figures on what particular type of television receiver was being used in any particular breach of the television licensing regulations.

The interpretation of the TV licensing legislation, including an assessment of whether a mobile phone meets the definition of a television receiver under the legislation, is a matter for the BBC.

DEFENCE

Afghanistan: Peacekeeping Operations

Nick Harvey: To ask the Secretary of State for Defence when the armed forces rules of engagement in Afghanistan were last reviewed. [284852]

Mr. Bob Ainsworth: The UK's Rules of Engagement are reviewed regularly to ensure that they remain effective and compliant with international law.

Mr. Gregory Campbell: To ask the Secretary of State for Defence whether he plans to deploy in Afghanistan helicopters which are out of service for repair or maintenance work on completion of that work. [287186]

Mr. Bob Ainsworth: On completion of repair or maintenance work, helicopters are returned to the Forward Fleet where they are used for operational or training purposes.

Those aircraft which are equipped to Theatre Entry Standard are likely to be deployed to Operational Theatres to allow other airframes to return to the UK to undergo regular, programmed servicing and maintenance.

The remaining aircraft in the Forward Fleet are with Front Line Squadrons, primarily for training purposes.

Armed Forces

Mr. Hancock: To ask the Secretary of State for Defence how many serving officers there are in each of the three services. [287198]

Bill Rammell: As at 1 May 2009 the trained strength of UK Regular Forces[1] included 6,480 officers in the Naval Service, 13,800 in the Army and 8,420 in the Royal Air Force.

A full breakdown of the strength of UK Regular Forces by officer/other rank, training indicator and service can be found in Tri-Service Publication 1, which is published on a monthly basis at the following link:

http://www.dasa.mod.uk/applications/newWeb/www/apps/publications/pubViewFile.php?content=32&date=2009-06-23&type=html&PublishTime=09:30:00

Due to ongoing validation of data from the Joint Personnel Administration System, all strength statistics are provisional and subject to review.

[1] UK Regular Forces excludes Gurkhas, Full Time Reserve personnel and mobilised reservists.

Armed Forces: Health Services

Willie Rennie: To ask the Secretary of State for Defence on how many occasions officials of his Department have met Scottish Executive health officials in each year since 2007; and at how many such meetings *(a)* the care of soldiers and veterans and *(b)* the sharing of best practice between the Defence Medical Services and NHS Scotland have been discussed. [282937]

Mr. Kevan Jones: The main forum for discussions between the Ministry of Defence and Scottish Executive health officials is the MOD/UK Health Departments Partnership Board, at which a range of issues of mutual interest are discussed. The board meets three times a year, with a core remit to ensure that the MOD and UK Health Departments share best practice and work together to improve the health and healthcare of the UK armed forces, plus dependents and veterans, and such issues form the basis of its discussions. The Senior Medical Officer at the Scottish Executive is a standing member of the board and attends, or is represented at, its meetings.

In addition, there are three official level working groups that take forward specific works strands identified by the Partnership Board, and which meet on average four times a year. Scottish Executive officials are members of each of these Working groups, and attend meetings either in person or by video link.

Finally, numerous other official level discussions, both formal and informal, take place as required at both national and local level, to address the health needs of service personnel and their dependants across the entire patient care pathway.

Departmental Lost Property

Mr. Blunt: To ask the Secretary of State for Defence how many laptop computers belonging to *(a)* his Department and *(b)* its agencies have been lost or stolen in the last five years. [281076]

Mr. Kevan Jones: I refer the hon. Member to the answer given on 22 January 2009, *Official Report*, column 1669W, by my right hon. Friend the previous Minister of State for the Armed Forces (Mr. Ainsworth) to the hon. Member for Newark (Patrick Mercer).

Departmental Procurement

Lorely Burt: To ask the Secretary of State for Defence what progress his Department has made in implementing the recommendations of the Glover Report in its procurement processes. [287136]

Mr. Quentin Davies: The MOD is working with other Government Departments toward the implementation of all 12 key recommendations of the Glover Report. The MOD is participating fully in the Business Innovation and Skills (BIS) and Office of Government Commerce (OGC) led Glover Programme Board which oversees the implementation of the recommendations across Government.

Departmental Property

Mr. Neil Turner: To ask the Secretary of State for Defence how many *(a)* one, *(b)* two and *(c)* three or more bedroom properties are owned by or managed for his Department in inner London boroughs; and what his most recent estimate is of the average annual net cost of managing properties in each category. [287190]

Mr. Kevan Jones: For accommodating single Service personnel, this Department owns some 1,586 Single Living Accommodation (SLA) units in the inner London boroughs.

For accommodating entitled Service families in the same area, the Department currently holds the following number of Service Family Accommodation (SFA) properties, the majority of which are leased from Annington Homes Ltd:

Property Type	Number of Bedrooms	Number of Properties
Officers		
I	4/5	6
II	4/5	3
III	4	1
IV	4	86
V	3	46
Other Ranks		
D	4	103
C	3	252
B	2	285
A	1	6

No separate estimate is made of the costs of living accommodation broken down by location and type.

In, cases where SFA or SLA is required but not available, substitute accommodation might be sourced from the commercial rental markets. The Department currently rents 1,245 Substitute Single Service Accommodation and 41 Substitute SFA properties in the inner London boroughs at an approximate monthly cost of £1.47 million.

Military Aircraft

Dr. Fox: To ask the Secretary of State for Defence what estimate he has made of the cost of the future aircraft carrier programme in each of the next five years. [284532]

Mr. Quentin Davies: I refer the hon. Member to the answer I gave him on 20 November 2008, *Official Report*, column 667W.

Following the equipment examination (EE) we decided to delay the carriers by one to two years, recognising that this would add cost. The new cost will be at least £4.6 billion but we are not yet able to provide a final estimate.

We do not release annual funding profiles as these are planning assumptions that are inevitably subject to a significant amount of variation, and their availability could also prejudice commercial interests.

Dr. Fox: To ask the Secretary of State for Defence what the *(a)* required and *(b)* actual crew number for each helicopter type was in each of the last five years. [284543]

Bill Rammell: Historical figures for helicopter crew numbers are not held in the format requested. The numbers of aircrew personnel for each helicopter type are provided in the following tables.

Royal Navy

As at 1 July 2009	Required strength	Actual strength
Lynx Mk3/8	133	124
Lynx Mk7/9	20	20
Merlin Mk1	189	174
Sea King Mk4/6	139	139
Sea King Mk5	68	65
Sea King Mk7	46	43

Army Air Corps

As at 6 July 2009	Required strength	Actual strength
Apache AH Mk1	100	80
Lynx Mk7/9	100	106
Gazelle Mk1	34	34
Dauphin N3 AH Mk1	7	6
Bell 212	24	24
SAAVN[1]	46	41

[1] SAAVN figures cannot be split by aircraft type (AH/Squirrel/Lynx/Gazelle).

Royal Air Force

As at 6 July 2009	Required strength	Actual strength
Chinook	262	222
Merlin Mk3/3a	159	130
Puma	127	129
Sea King Mk3/3a	140	132

Defence Helicopter Flying School

As at 6 July 2009	Required strength	Actual strength
Squirrel	20	18
Griffin	62	61

Required and actual strengths will both vary with time due to many factors including operational requirements, the introduction of newly trained crew on completion of training courses at set times during the year, the number of trained personnel assigned to non-flying duties (as part of the necessary broader career development), injuries, and service leavers.

In addition, the RAF is going through a high level of change with aircrafts drawing down, going through structure change, forming new squadrons or bringing new aircraft into service. Therefore, crew figures are fluctuating on a daily basis.

The helicopter fleet is managed to ensure that our operational and other commitments are met, including an 84 per cent. increase in flying hours in Afghanistan between November 2006 and April 2009.

Angus Robertson: To ask the Secretary of State for Defence what the *(a)* required and *(b)* actual number of pilots in the armed forces is for the Sea King HAR3/3A helicopters. [284780]

Bill Rammell: The required and actual number of pilots in the armed forces for the Sea King HAR3/3A helicopters is given in the following table:

Aircraft type: Sea King HAR3/3A

	Number
Required pilots	66
Actual pilots	64

A difference between the 'required' and 'actual' number of pilots is to be expected. The variation is due to a number of factors such as promotion, assignment to other aircraft or ground posts, medical downgrading and leaving the service.

Ann Winterton: To ask the Secretary of State for Defence what assessment has been made of the merits of deploying single propeller-driven aircraft in theatre for ground attack and surveillance. [286440]

Bill Rammell: Commanders on the ground already have access to a broad range of surveillance and ground attack capabilities and, while we keep our requirements under constant review, there are currently no plans to deploy manned, single propeller-driven aircraft for ground attack or surveillance. We have though deployed the unmanned single propeller aircraft, UK Reaper and Hermes 450, in surveillance roles, with UK Reaper also providing a ground attack capability.

ENERGY AND CLIMATE CHANGE

Board of the Gas and Electricity Markets Authority

Mr. Baron: To ask the Secretary of State for Energy and Climate Change how the performance of the Board of the Gas and Electricity Markets Authority in meeting its first priority to consumers is measured. [286256]

Mr. Kidney: The Gas and Electricity Markets Authority (the authority) and its executive arm, Ofgem, have a primary duty to protect the interests of existing and future consumers.

The authority is an independent economic regulator and is accountable to Parliament rather than to the Government. The Government nonetheless works closely with the authority and Ofgem in order to assess the operation of the market and outcomes for consumers, while respecting the regulator's independence.

Carbon Sequestration

Charles Hendry: To ask the Secretary of State for Energy and Climate Change pursuant to the statement on 23 April 2009, *Official Report*, columns 382-84, on coal carbon capture and storage, whether any recent changes have been made to his Department's policy for the phased scaling of carbon capture and storage demonstration plants. [283180]

Mr. Kidney: The detailed terms of the competition are not yet finalised. The overarching objectives of the CCS demonstration competition remain as stated in the Project Information Memorandum. A copy can be found at

http://www.decc.gov.uk/en/content/cms/what_we_do/uk_supply/energymix/ccs/CCS_demonstrat/CCS_demonstrat.aspx

Carbon Sequestration: Scotland

Mr. Carmichael: To ask the Secretary of State for Energy and Climate Change what discussions his Department has had with Scottish energy companies on carbon capture and storage at power stations in Scotland. [285957]

Mr. Kidney Energy companies are key stakeholders of the Department of Energy and Climate Change and have an active interest in almost every aspect of the Department's work. The Department has regular and wide-ranging discussions with organisations and power companies about carbon capture and storage, including those with power stations based in Scotland.

Coal Investment Aid

Charles Hendry: To ask the Secretary of State for Energy and Climate Change how much Coal Investment Aid has been paid out in each parliamentary constituency. [285090]

Mr. Kidney: A total of £52.8 million of Coal Investment Aid was paid to 12 mines during 2003-04 to 2008-09. Payments by constituency were as follows:

Constituency	*Mine*	*Operator*	*CIA paid (£)*
Bassetlaw	Harworth[1]	UK Coal plc	4,201,556
	Welbeck	UK Coal plc	7,785,898
Berwick upon Tweed	Ellington[1]	UK Coal plc	849,620
Cynon Valley	Tower[2]	Goitre Tower Anthracite Ltd	2,991,764
NE Derbyshire	Eckington	Eckington Colliery Partnership	176,171
Don Valley	Rossington[1]	UK Coal plc	2,687,075
Neath	Aberpergwm	Energybuild Mining Ltd	3,501,977
Pontefract	Kellingley	UK Coal plc	9,500,653
Rother Valley	Maltby[3]	UK Coal plc	5,148,254
Sherwood	Thoresby	UK Coal plc	4,973,282
Wakefield	Hay Royds	Hay Royds Colliery LLP	137,300
Warwickshire North	Daw Mill	UK Coal plc	10,863,398

[1] Mine closed or mothballed before total awarded was drawn down in full.
[2] Mine closed owing to exhaustion of viable reserves in 2008.
[3] Mine sold to present operator after CIA drawn down in full under UKC.

Committee on Climate Change

Mr. Malins: To ask the Secretary of State for Energy and Climate Change what remuneration his Department provides for the *(a)* Chair and *(b)* Chief Executive of the Committee on Climate Change; what the contracted hours of work of the Chairman are; and if he will make a statement. [284494]

Joan Ruddock *[holding answer 6 July 2009]:* The chair of the Committee on Climate Change involves an average time commitment of approximately four days per month with a payment of £1,000 a day.

The chief executive's current salary is £85,000 plus a bonus of between 10-20 per cent. of salary subject to performance targets being exceeded.

Departmental Accountancy

Steve Webb: To ask the Secretary of State for Energy and Climate Change when he expects to publish his Department's resource accounts for 2008-09. [287336]

Joan Ruddock: DECC expects to publish the 2008-09 resource accounts on 20 July 2009.

Departmental Data Protection

Jenny Willott: To ask the Secretary of State for Energy and Climate Change what databases which will be managed by his Department or its agency and which will contain personal information are *(a)* under construction and *(b)* expected to become operational in each of the next five years; and if he will make a statement. [286501]

Joan Ruddock: No such databases are under construction or expected to become operational within the next five years.

Departmental Databases

Mr. Watson: To ask the Secretary of State for Energy and Climate Change what information databases his Department *(a)* maintain and *(b)* uses which contain personal information. [284397]

Joan Ruddock: The Department holds a large number of databases ranging in size. These include corporate databases, access databases held by units within the Department and a large number of spreadsheets of data of which certainly the larger and more sophisticated could be described as fulfilling a database function. The vast majority of these databases and systems can be expected to a greater or lesser extent to contain personal data. It is not possible due to disproportionate costs to identify those databases which do not contain personal data.

Jenny Willott: To ask the Secretary of State for Energy and Climate Change what categories of personal information about members of the public are contained on each relevant database managed by his Department and its agencies; on what date each category of information began to be collected; and if he will make a statement. [285985]

Joan Ruddock: The Department for Energy and Climate Change has registered all the purposes for which it processes personal data in form of a notification which is held by the Information Commissioner's Office, and is publicly available on the Data Protection Registry. The notification contains categories of data subject for each registered purpose; recipients to whom DECC intends to disclose the data and name or a description of any countries or territories outside the European economic area to which DECC transfers or intends to transfer the data.

Jenny Willott: To ask the Secretary of State for Energy and Climate Change what categories of personal information on members of the public will be held on each database expected to become operational in the next five years and which will be managed by his Department; what estimate he has made of the likely number of individuals' details each such database will hold when fully operational; and if he will make a statement. [286138]

Joan Ruddock: DECC has no such databases under construction or expected to become operational within the next five years.

Departmental Press

Mr. Philip Hammond: To ask the Secretary of State for Energy and Climate Change what *(a)* newspapers and *(b)* periodicals are delivered to the private office of each Minister in his Department; and at what cost in the latest period for which figures are available. [279417]

Joan Ruddock: The private office group within the Department receives copies of *The Financial Times, Observer, Guardian, Independent, Daily Mail, Daily Mirror, The Sun, The Times, Daily Telegraph, Evening Standard, Economist, Spectator* and *New Statesman*. The costs of the newspapers are met by the communications group as part of a central contract.

EC Law

Bob Spink: To ask the Secretary of State for Energy and Climate Change what estimate he has made of the proportion of statutory obligations provided for by legislation on matters for which his Department is responsible which were introduced as a consequence of obligations arising from EU legislation in the latest period for which figures are available. [281866]

Mr. Kidney: It is very difficult to provide precise figures for the proportion of UK legislation that stems from the European Union.

The administrative burdens measurement exercise carried out by the Government in 2006 put the proportion of administrative burdens stemming from the EU at approximately one-third of the total administrative burden.

The important issue is not the origins of legislation, which could of course be a devolved Administration or a local authority, as well as the Government or the EU, but the quality of the regulation. All regulations, irrespective of their origins, should comply with the principles of better regulation. Regulations should be risk based, proportionate and well designed, so as to achieve their objectives while also keeping costs to a minimum. The Government continue to work with European partners to ensure that EU regulations meet these standards.

Energy

Mr. Waterson: To ask the Secretary of State for Energy and Climate Change what steps his Department is taking to encourage the development of products and services designed to meet the energy needs of older people. [284644]

Mr. Kidney: The Department has negotiated a voluntary agreement with energy companies under which they will contribute £125 million this year and £150 million in 2010-11 to measures designed to address the energy needs of vulnerable consumers including the elderly.

Energy companies must meet at least 40 per cent. of their carbon emissions reduction target obligations in a priority group of low-income consumers who are in receipt of benefits or are aged 70 and over. The DECC funded warm front scheme offers energy efficiency measures to householders, including those over 60, in receipt of qualifying benefits. In addition, the Department is developing its approach to the roll-out of smart metering, which will take into account its impact on the elderly.

Energy Supply

Mr. Baron: To ask the Secretary of State for Energy and Climate Change pursuant to the answer of 30 June 2009, *Official Report*, column 122W, on energy supply, on what dates since October 2008 Ministers in his Department have met representatives of *(a)* Ofgem, *(b)* energy suppliers and *(c)* energy consumer groups. [286186]

Mr. Kidney: Ministers and civil servants meet many people as part of the process of policy development and advice. It is not the normal practice of Government to make public details of such meetings.

Energy: Conservation

Lembit Öpik: To ask the Secretary of State for Energy and Climate Change what steps his Department plans to take to encourage use of energy-efficient circulator pumps in *(a)* domestic and *(b)* non-domestic properties. [285064]

Joan Ruddock: Two energy-efficient circulator models are supported through the Government's flagship household energy efficiency policy, the Carbon Emissions Reduction Target.

Energy efficiency measures for households are also supported by a reduced rate of VAT for the professional installation of certain energy saving products, including "hot water system controls" and "central heating system controls". Where circulator pumps fall within this description they will be eligible for the reduced rate.

Energy: Meters

Mr. Fallon: To ask the Secretary of State for Energy and Climate Change what further steps he plans to take to ensure that households with pre-payment meters are not charged more for energy than households without such meters. [286757]

Mr. Kidney *[holding answer 14 July 2009]:* The Government believe that differences in charges relating to the method of payment should reflect the costs of servicing that method, and should not discriminate unfairly against any group of customers. Therefore, we strongly support the regulator Ofgem's work putting in place rules to ensure that prices paid by consumers are cost reflective.

Charles Hendry: To ask the Secretary of State for Energy and Climate Change what recent discussions he has had with Ofcom on the communication data from smart meters. [286861]

Mr. Kidney: My officials have had discussions with Ofcom officials about the roll out of smart meters in Great Britain and will continue to do so during the preparation for roll out.

Energy: Prices

Mr. Baron: To ask the Secretary of State for Energy and Climate Change how many representations he has received on the clarity of information on energy bills and tariffs since the Ofgem Energy Supply Probe was launched in February 2008. [283276]

Mr. Kidney: To provide an exact count of all items of correspondence or other communications received by Ministers in the last 17 months referring to information for energy consumers and/or tariffs could be provided only at disproportionate cost, since that information is not held centrally.

DECC believes that it is vital that consumers have access to the best possible information on bills and tariffs. The detailed provisions relating to energy bills and tariffs are a matter for the independent regulator Ofgem who has consulted widely on new measures to improve the clarity and nature of billing and tariff information available to consumers. Ofgem is currently considering consultation responses and working with consumer bodies including *Which* and Consumer Focus and with other organisations to develop new rules.

Mr. Waterson: To ask the Secretary of State for Energy and Climate Change if he will discuss with energy supply companies the development of green energy tariffs designed to meet the needs of older people. [284125]

Mr. Kidney: Ministers discuss with energy suppliers various measures to support renewable energy and energy efficiency. Ministers are open to representations about how best to meet the needs of different groups of consumers.

Mr. Bone: To ask the Secretary of State for Energy and Climate Change what recent assessment he has made of trends in domestic energy prices; and if he will make a statement. [285570]

Mr. Kidney: Global energy demand and wholesale prices have fallen since peaks last year. It is essential that falls in wholesale costs reach consumers. This is why we asked Ofgem to provide quarterly reports on price movements.

Ofgem's most recent report found that margins are around historic levels, and falls in costs appear to be being passed on to consumers. We expect suppliers to continue to pass on any sustained falls in wholesale costs.

EU Laws

Bob Spink: To ask the Secretary of State for Energy and Climate Change what estimate he has made of the cost to his Department of the statutory obligations upon it provided for in legislation introduced as a consequence of obligations arising from EU legislation in the most recent 12 months for which figures are available. [283477]

Mr. Kidney: It is very difficult to provide precise figures for the proportion of UK legislation that stems from the European Union.

The administrative burdens measurement exercise carried out by the Government in 2006 put the proportion of administrative burdens stemming from the EU at approximately one-third of the total administrative burden.

The important issue is not the origins of legislation, which could of course be a devolved Administration or a local authority, as well as the Government or the EU, but the quality of the regulation. All regulations, irrespective

of their origins, should comply with the principles of better regulation. Regulations should be risk based, proportionate and well designed, so as to achieve their objectives while also keeping costs to a minimum. The Government continue to work with European partners to ensure that EU regulations meet these standards.

Garages and Petrol Stations

Mr. Binley: To ask the Secretary of State for Energy and Climate Change (1) how many petrol stations in each parliamentary constituency in England have closed down in each of the last five years; [286571]

(2) how many petrol stations there are in each parliamentary constituency in England. [286572]

Mr. Kidney: The Department does not hold statistics on petrol stations by parliamentary constituency.

Industrial Diseases

John Mann: To ask the Secretary of State for Energy and Climate Change how many legal actions have been initiated against his Department in respect of claims for *(a)* vibration white finger and *(b)* chronic obstructive pulmonary disease in each of the last two years. [286845]

Mr. Kidney: There have been 20 vibration white finger and three chronic obstructive pulmonary disease claims litigated against the Department in the last two years.

Industrial Diseases: Compensation

John Mann: To ask the Secretary of State for Energy and Climate Change how many payments in respect of claims for industrial deafness benefits were made to former mineworkers by his Department in *(a)* 2008 and *(b)* 2009. [286876]

Mr. Kidney: The Department does not manage any industrial deafness benefits.

However, the following table shows the total number of personal injury claims settled by payment and the total damages awarded for Noise Induced Hearing Loss scheme (NIHL) during 2008 and 2009 as at 30 June 2009.

	Total claims settled	*Total damages paid (£)*
2008	752	248,459
2009	395	225,814

John Mann: To ask the Secretary of State for Energy and Climate Change how many claims made by UDM-Vendside for compensation for *(a)* vibration white finger, *(b)* chronic obstructive pulmonary disease and *(c)* hearing loss have not been settled (i) in full and (ii) in part. [286902]

Mr. Kidney *[holding answer 14 July 2009]:* The number of claims made by UDM-Vendside under the vibration white finger (VWF), chronic obstructive pulmonary disease (COPD) schemes and noise induced hearing loss (NIHL) that have not been settled in full and final payment and those where no interim payment has been made as at 5 July 2009 is shown in the following table.

Scheme	*Total claims outstanding*	*Total claims—number of interim payment made*
VWF	117	68
COPD	423	242
NIHL	851	852

Influenza: Contingency Planning

Charles Hendry: To ask the Secretary of State for Energy and Climate Change how many officials in his Department at each payband are working on contingency arrangements in the energy industry for pandemic flu. [286863]

Mr. Kidney: Currently there are 14 officials working in part on contingency arrangements for pandemic flu broken down as follows:

1 x SCS
1 x Grade 6
4 x Grade 7s
4 x SEOs
1 x HEO
3 x EOs.

Our response arrangements are kept under review.

Charles Hendry: To ask the Secretary of State for Energy and Climate Change what discussions Ministers in his Department have had with *(a)* National Grid, *(b)* energy supply companies and *(c)* electricity generators on contingency planning for pandemic flu since 1 January 2009. [286864]

Mr. Kidney: DECC officials have been working closely with National Grid, energy companies and electricity generators through the Energy Emergencies Executive Committee (E3C) on contingency arrangements for a pandemic influenza. Ministers are updated regularly and work is continuing to ensure the energy sector is well prepared should there be any impact on energy supplies. DECC Ministers have been advised by National Grid that robust contingency arrangements are in place to maintain energy supplies during a flu pandemic.

Currently, energy supplies are being delivered normally.

Along with other Government Departments, DECC Ministers and officials have also been in attendance at the weekly meetings of the Civil Contingencies Committee, held at COBR, which decides the overall Government response strategy to the pandemic.

Charles Hendry: To ask the Secretary of State for Energy and Climate Change whether Ministers in his Department plan to meet *(a)* the National Grid, *(b)* energy supply companies and *(c)* electricity generators to discuss contingency arrangements for pandemic influenza in the next three months. [286865]

Mr. Kidney: Ministers meet regularly with National Grid, energy companies, and electricity generators to discuss a wide range of factors that could impact on energy supplies, including the risks to energy supplies of

pandemic flu. I plan to meet shortly with National Grid and one of the issues for discussion will be contingency arrangements for pandemic flu. Regular updates on the pandemic flu outbreak are provided to the energy sector by DECC officials, and through Business Link, Directgov, Department of Health and NHS websites.

Charles Hendry: To ask the Secretary of State for Energy and Climate Change what steps his Department has taken to acquire stocks of *(a)* influenza vaccine and *(b)* anti-viral medicine; and if he will make a statement. [286866]

Joan Ruddock: The Department has taken no steps to acquire stocks of anti-viral medicine or influenza vaccines.

International Renewable Energy Agency: Location

Mr. Dai Davies: To ask the Secretary of State for Energy and Climate Change whether a decision has been made on the location of the headquarters of the International Renewable Energy Agency (IRENA); for which location the UK voted in the Preparatory Commission for IRENA; and how much funding his Department has allocated for UK participation in IRENA. [286849]

Mr. Kidney: The Second Preparatory Commission meeting in Egypt on 29-30 June decided by consensus, rather than a vote, that the interim headquarters for the International Renewable Energy Agency (IRENA) would be based in Abu Dhabi in the United Arab Emirates (UAE). This was fully supported by the UK. The final budget for IRENA remains to be decided but the indicative allocation for the UK for 2010 is $1.39 million.

Lighting

Mr. Jim Cunningham: To ask the Secretary of State for Energy and Climate Change what his most recent estimate is of the number of *(a)* households, *(b)* businesses and *(c)* hospitals which use energy-efficient light bulbs. [285385]

Joan Ruddock *[holding answer 9 July 2009]:* The information is as follows:

(a) Under the Government's household carbon saving obligation on energy suppliers since 2002, currently known as the carbon emissions reduction target, energy suppliers have distributed or sold with subsidy via retail outlets some 290 million high efficiency bulbs to GB households. In principle this would allow all GB households to benefit.

(b) The Department does not hold information on the number of businesses using energy-efficient light bulbs.

(c) Neither my Department nor the Department of Health holds information on the number of hospitals using energy-efficient light bulbs.

Low Carbon Buildings Programme: Finance

Alan Simpson: To ask the Secretary of State for Energy and Climate Change what recent assessment he has made of the adequacy of the funding provided for phases one and two of the low carbon buildings programme in advance of receipts from *(a)* feed-in tariffs and *(b)* a renewable heat incentive under the provisions of the Energy Act 2008. [286729]

Mr. Kidney: To ensure adequacy of funding for the Low Carbon Buildings Programme in advance of the introduction of feed-in tariffs and a renewable heat incentive, the Government recently committed a further £45 million bringing total support to over £130 million. Of the £45 million additional funding £10 million has been allocated to Phase 1 and £35 million to Phase 2.

To date, Phase 1 has committed £9.2 million. Phase 2 has committed £49.8 million. The Low Carbon Buildings Programme will be superseded by feed-in tariffs in 2010 and renewable heat incentives in 2011.

Low Carbon Loans

Charles Hendry: To ask the Secretary of State for Energy and Climate Change how much new funding for low-carbon loans announced in Budget 2009 will be provided through the Carbon Trust in *(a)* 2009-10, *(b)* 2010-11 and *(c)* subsequent years. [285097]

Mr. Kidney: Budget 2009 announced £100 million for loans to help small and medium sized businesses install energy saving measure. Of this, up to £83.9 million is available in England through the Carbon Trust. This comprises up to £67.1 million in 2009-10 and up to £16.8 million in 2010-11. This funding operates for two financial years only. The trust's existing loan scheme will continue to provide funding for loans in future years.

Budget 2009 also provided £65 million for loans to install energy efficiency measures in public sector organisations. Of this, up to £54.5 million is available in England in 2009-10 through Salix Finance, a subsidiary of the Carbon Trust.

For both schemes the remainder of the funds announced goes to the devolved Administrations.

Members: Correspondence

Mr. Salmond: To ask the Secretary of State for Energy and Climate Change when he plans to reply to the letter of 10 June 2009 from the right hon. Member for Banff and Buchan on his constituent Mr. Thomson. [287385]

Joan Ruddock: My noble Friend the Minister of State for Energy and Climate Change responded to the right hon. Member on 13 July, 2009.

Miners: Compensation

John Mann: To ask the Secretary of State for Energy and Climate Change how many personal addresses of former mineworkers his Department and its predecessors have supplied to the Legal Complaints Service to assist them in reclaiming fees wrongly charged by solicitors and claims handlers. [286882]

Mr. Kidney: The Department provided 3,651 living claimant addresses from the Rother Valley constituency to the Legal Complaints Service (LCS) in July 2007, following which each individual claimant was written to and invited to attend an information session headed by my right hon. Friend the Member for Rother Valley (Mr. Barron).

There have been no further requests to date.

Nuclear Power Stations: Construction

Mark Pritchard: To ask the Secretary of State for Energy and Climate Change when he expects the first of the new nuclear power stations to be producing energy for the National Grid. [287010]

Mr. Kidney: Government remain committed to enabling new nuclear build as soon as possible. The indicative timeline we published in January 2009, set out that we expect the first new nuclear power station to become operational in 2018, or sooner if possible.

Nuclear Power Stations: Security

Mr. Dai Davies: To ask the Secretary of State for Energy and Climate Change how many reports of breaches of exclusion zones around nuclear facilities by airborne craft have been filed by operators of civil nuclear installations in each year since 2003; and if he will place in the Library a copy of each such report. [281297]

Paul Clark: I have been asked to reply.

Since 2003, the Civil Aviation Authority's (CAA) aviation regulation enforcement department have investigated 12 reports of alleged breaches of the Air Navigation (Restriction of Flying)(Nuclear Installations) Regulations 2002. These reports are summarised in the following table:

Offence	*Location*	*Legislation reference*	*Description*	*Outcome*	*Closed*
23 April 2004	AWE Aldermaston	AN (Restriction of Flying) (Nuclear Installations), Regulations 2002	Hot air balloon flying in the restricted area of AWE Aldermaston nuclear installation	No further action. no evidence of any offence	11 June 2004
23 April 2004	AWE Aldermaston	AN (Restriction of Flying) (Nuclear Installations), Regulations 2002	Hot air balloon flying in the restricted area of AWE Aldermaston nuclear installation	The pilot has been given a formal caution	5 August 2004
25 April 2004	Berkeley power station	AN (Restriction of Flying) (Nuclear Installations), Regulation 2002	Hot air balloon passed over nuclear licensed site approximately 1500 ft. within the two mile exclusion zone	No further action. no evidence	25 May 2004
7 May 2004	Bradwell power station	AN (Restriction of Flying) (Nuclear Installations), Regulation 2002	Aircraft allegedly flew approximately 500 ft. of a nuclear installation and well within the two mile exclusion zone performing aerobatics	The pilot has been sent a warning letter	14 July 2004
31 July 2004	Heysham nuclear power station	Article 85, ANO 2000	Helicopter landed in the restricted zone of Heysham nuclear power station	Lancaster magistrates court 8 April 2005. Pilot pleaded guilty to a breach of Article 85, ANO 2000. He was fined £750 and ordered to pay costs of £500	8 April 2005
13 October 2004	Berkeley and Oldbury power stations	AN (Restriction of Flying) Regulations 2002	Infringement of a restricted area over a nuclear installation	The pilot has been sent an advisory letter	21 January 2005
1 October 2004	Bradwell power station	AN (Restriction of Flying) Regulations 2002	Infringement of a restricted area over a nuclear installation	Insufficient evidence to proceed	25 November 2004
21 November 2004	Chapel Cross nuclear power station	AN (Restriction of Flying) (Nuclear Installations) Regulations 2002	Infringement of nuclear site	The pilot has been sent a warning letter	26 April 2005
29 January 2006	AWE Aldermaston	AN (Restriction of Flying) (Nuclear Installations) Regulations 2002	Low flying over a nuclear establishment	No further action. no witnesses came forward.	14 March 2006
17 July 2006	AWE Burghfield	AN (Restrictions of Flying) (Nuclear Installations) Regulations 2002	Low flying over a nuclear establishment	Insufficient evidence to proceed	6 October 2006

Offence	Location	Legislation reference	Description	Outcome	Closed
21 September 2007	Springfields, nr. Preston	AN (Restriction of Flying) (Nuclear Installations) Regs. 2002	Low flying over a nuclear establishment	Insufficient evidence to proceed	11 March 2008
5 October 2007	Dungeness power station, Kent	AN (Restriction of Flying) (Nuclear Installations) Regs. 2002	Infringement and low flying over a nuclear establishment	The pilot has been sent a warning letter	31 October 2007

Nuclear Power: Job Creation

John Robertson: To ask the Secretary of State for Energy and Climate Change if he will discuss with the energy industry the employment opportunities for British workers arising from any programme to build new nuclear power stations; and if he will make a statement. [287065]

Mr. Kidney: There are already 44,000 workers employed in the civil nuclear industry in the UK. New nuclear build in the UK has the potential to require thousands of workers and Government are working to ensure that the contribution of UK workers to nuclear new build projects is maximised. The UK Low Carbon Transition Plan and Low Carbon Industrial Strategy published yesterday (15 July) explains this in more detail.

We are already taking action to make sure that Britain will have the skills base to make the most of these opportunities. Specifically we are improving science provision in schools, have charged the Sector Skills Council with taking forward a training strategy, and have helped set up the National Skills Academy for Nuclear to improve the supply of specialist skills at all levels. In addition, the Department for Business Innovation and Skills (BIS) is conducting a review of productivity and skills in the engineering construction sector which will establish whether there is anything more Government or industry can do to ensure British firms and workers are fully equipped to fill vital jobs in nuclear new build and other large scale engineering construction.

DECC Ministers have regular discussions with the energy industry about skills development issues relating to new nuclear build. In addition the Office for Nuclear Development (OND) in DECC has fostered links with all of the various skills bodies, other Government Departments, academia and industry involved in the nuclear sector to ensure that all are working towards the same goals of ensuring enough skilled people to build a new generation of nuclear power stations.

There is close working between DECC and BIS on these issues.

Nuclear Trust: Finance

Charles Hendry: To ask the Secretary of State for Energy and Climate Change what assets are held by the Nuclear Trust; and what his most recent estimate is of their monetary value. [285091]

Mr. Kidney: The Nuclear Trust owns the Nuclear Liabilities Fund which is responsible for meeting the decommissioning cost of British Energy's existing nuclear power stations, together with defuelling costs and certain British Energy uncontracted liabilities. Some 90 per cent. of the fund's assets are invested in deposits in public sector accounts but there is also a portfolio of equities and property. The most recent estimate of the value of the fund's assets, as at 31 March 2009, is £8.276 million.

Public Expenditure

Justine Greening: To ask the Secretary of State for Energy and Climate Change what assessment he has made of the likely effect of the *(a)* £100 million in capital funding brought forward to 2009-10 and *(b)* £50 million of capital spending brought forward from 2010-11 to 2008-09 on the number of homes in which energy efficient and heating measures will be installed under the Warm Front programme; and how much of the funding has been spent in each month since it was announced. [286649]

Mr. Kidney: On 11 September 2008, the Government announced an increase to Warm Front funding of £74 million (2008-09: £50 million and 2009-10: £24 million). Funding for the scheme increased further on 24 November 2008 through the pre-Budget report process with an additional £50 million for years 2008-09 and 2009-10. As part of the pre-Budget report, Warm Front spend was re-profiled to bring forward £50 million from 2010-11 to 2009-10.

The following table details a breakdown of the monthly spend for this additional funding and the number of households assisted.

	Spend (£000)	Number of households assisted
Pre-Budget report 2008-09 (£50 million)		
December 2008	10,119	3,362
January 2009	9,847	4,850
February 2009	14,234	4,804
March 2009	15,800	21,674
Total	50,000	34,690
Pre-Budget Report 2009-10 (£50 million) + £50 million brought forward from 2010-11		
April 2009	43,273	17,690
May 2009	56,044	19,982
June 2009	—	—
Total	99,317	37,672
Home Energy Savings Programme 2008-09 (£50 million)		
October 2008	9,806	8,138

	Spend (£000)	Number of households assisted
November 2008	9,514	8,138
December 2008	14,584	8,153
January 2009	10,855	7,893
February 2009	4,953	—
March 2009	288	—
Total	50,000	32,322
Home Energy Savings Programme 2009-10 (£24 million)		
April 2009	—	—
May 2009	10,286	1,022
June 2009	2,997	3,878
Total	13,283	4,900

Radioactive Waste: Exports

Mr. Whittingdale: To ask the Secretary of State for Energy and Climate Change if he will bring forward legislative proposals to permit the export of graphite nuclear waste to the United States; and if he will make a statement. [283860]

Mr. Kidney: There are currently no proposals to bring forward legislation to permit the export of graphite nuclear waste to the United States of America.

The Government's policy, as set out in the Command Paper 2919, is that radioactive waste should not be exported from the UK except in circumstances where it is to be treated so that its storage and/or disposal is more manageable; where other countries have the ability to deal with it appropriately; and where it will not add materially to their existing radioactive waste legacy.

UDM-Vendside

John Mann: To ask the Secretary of State for Energy and Climate Change how many Ministers of his Department and its predecessors have met representatives of UDM-Vendside in each year since 1997. [286868]

Mr. Kidney: There is no record of any Minister having met the UDM or Vendside.

FOREIGN AND COMMONWEALTH OFFICE

British Indian Ocean Territory

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs what response he has made to the European Court of Human Rights on the application made by the Chagos Islanders. [286768]

Chris Bryant: The Government have been invited by the Court to submit written observations on the admissibility and merits of the application by the Chagos Islanders and to inform the Registry of the Government's position concerning a friendly settlement. Due to the very recent receipt of submissions on behalf of Interveners, the Government are now seeking a short extension to the deadline of 17 July 2009 set by the Court. As my hon. Friend will be aware, we do not discuss the details of legal pleadings in cases to which we are a party while they are in the process of formulation. It would be inappropriate, therefore, to discuss the Government's response in advance.

Departmental Data Protection

Jenny Willott: To ask the Secretary of State for Foreign and Commonwealth Affairs what databases which will be managed by his Department or one of its agencies and which will contain personal information are *(a)* under construction and *(b)* expected to become operational in each of the next five years; and if he will make a statement. [286503]

Chris Bryant: There are no major databases under construction or expected to go live in the next five years in the Foreign and Commonwealth Office.

Departmental Databases

Jenny Willott: To ask the Secretary of State for Foreign and Commonwealth Affairs what categories of personal information about members of the public are contained on each relevant database managed by his Department and its agencies; on what date each category of information began to be collected; and if he will make a statement. [285980]

Chris Bryant: The Foreign and Commonwealth Office (FCO)'s Data Protection Register entry with the Information Commissioner's Office details the general categories for which the Department processes personal data for its work. They are staff administration; advertising, marketing and public relations; accounts and records; and to work for the UK's interests in a safe, just and prosperous world. The register entry is to be renewed in September this year. Establishing the date on which each category of information began to be collected by the FCO and its agencies could be done only at disproportionate cost.

Departmental Electronic Equipment

Jenny Willott: To ask the Secretary of State for Foreign and Commonwealth Affairs how many *(a)* photocopiers, *(b)* scanning devices and *(c)* fax machines, excluding multi-function devices, there are in his Department; how many there were in each of the last three years; and if he will make a statement. [286173]

Chris Bryant: Responsibility for the purchase of photocopiers, scanning devices and fax machines, excluding multi-function devices, is devolved to individual budget holders worldwide. This information is not held centrally and the question could be answered only at disproportionate cost.

The Foreign and Commonwealth Office (FCO) has taken an active role in the Greening Government ICT strategy by providing a detailed plan for the FCO. Part of this includes examining its print policy with a view to reducing the FCO's overall printer count.

Departmental Furniture

Grant Shapps: To ask the Secretary of State for Foreign and Commonwealth Affairs how much his Department's agencies spent on furniture in each of the last five years. [273736]

Chris Bryant: This information is not held centrally and to provide it would incur disproportionate cost.

Departmental Manpower

Nick Harvey: To ask the Secretary of State for Foreign and Commonwealth Affairs how many members of his Department's staff deployed in each region of Afghanistan *(a)* have been trained in each year since 2001 and *(b)* are being trained in each local Afghan language. [283551]

Mr. Ivan Lewis: Since 2004, five Foreign and Commonwealth Office (FCO) staff have studied Pashto before being deployed in Afghanistan. 21 staff have also been trained in Dari—often building on an existing language base of Farsi—before working in Afghanistan. Currently there are nine studying Dari, who are due to be deployed to Afghanistan later this year.

We only started to hold management information about language skills centrally in 2004. Our system records those who have passed exams on completion of language courses funded by the FCO, so may not include those who did not take an examination, those whose acquisition of the language was not the result of class-based instruction, or whose studies were not funded by the FCO.

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs how many reception staff his Department employs at *(a)* its offices in King Charles Street, *(b)* other locations in the UK and *(c)* overseas posts. [286122]

Chris Bryant: Across the UK estate the Foreign and Commonwealth Office (FCO) has nine full time reception positions. The staff members who fill these positions are provided as part of the UK Reception Services Contract.

Responsibility for procuring reception services overseas has been devolved to posts within the FCO overseas estate. Each post would need to be contacted to obtain the details of their reception employees. As the information relating to reception staff overseas is not held centrally, it could be provided only at a disproportionate cost.

EU Law

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what estimate he has made of the cost to his Department of the statutory obligations upon it provided for in legislation introduced as a consequence of obligations arising from EU legislation in the most recent 12 months for which figures are available; [283473]

(2) what estimate he has made of the proportion of statutory obligations provided for by legislation on matters for which his Department is responsible which were introduced as a consequence of obligations arising from EU legislation in the latest period for which figures are available. [281864]

Chris Bryant: It is very difficult to provide precise figures for the proportion of UK legislation that stems from the European Union.

The administrative burdens measurement exercise carried out by the Government in 2006 put the proportion of administrative burdens stemming from the EU at approximately one-third of the total administrative burden. However, this applies across Government and is not specific to the Foreign and Commonwealth Office, which is directly responsible for less EU legislation than some other Departments.

The important thing is not the origins of a legislation, which could be a devolved Administration or a local authority as well as the Government or the EU, but the quality of the regulation. All regulations, irrespective of their origins, should comply with the principles of better regulation. Regulations should be risk based, proportionate and well designed, so as to achieve their objectives while also keeping costs to a minimum. The Government continue to work with European partners to ensure that EU regulations meet these standards.

Forced Marriages: Victim Support Schemes

Mrs. Curtis-Thomas: To ask the Secretary of State for Foreign and Commonwealth Affairs what his most recent assessment is of the Forced Marriage Unit's effectiveness in reducing the number of forced marriages; and how many forced marriages reported to the unit involved people under 16 years old in the last 12 months. [284797]

Chris Bryant: The Forced Marriage Unit has been a great success in encouraging people to report potential instances of forced marriage, in intervening in specific cases and in getting across the message that forced marriage is not acceptable in any culture or any religion.

The very nature of forced marriage means that it is likely that a number of cases go unreported. In recent years Government action to address forced marriage has focused on encouraging victims and potential victims to come forward and seek help.

Partly as result of growing awareness of the support available, the number of cases coming to our attention is rising. Last year the Forced Marriage Unit, a joint Foreign and Commonwealth Office and Home Office Unit, received over 1,600 reports of suspected incidences of forced marriage to its helpline. Of these the unit directly intervened to help victims in 420 cases, which included overseas assistance and support to reluctant sponsors in immigration cases. 14 per cent. of overseas assistance cases involved people under 16 years old.

So far this year, figures for January to June show that the unit received 770 calls to its helpline in relation to incidence of forced marriage, which represents an increase in those seeking help of 16 per cent. over the same period last year.

Foreign Policy

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the effect of the Government's foreign policy on levels of violent extremism in the UK; and if he will make a statement. [287036]

Mr. Ivan Lewis: We recognise that individual reactions to UK foreign policies can be a factor in radicalisation, and that violent extremists exploit this when recruiting others to their cause. But we also know that radicalisation occurs for a wide range of complex and personal reasons.

We work to explain our foreign policy, dealing with misperceptions that exist. Overseas we do this through media and public diplomacy work. To encourage debate and engagement in the UK we have a programme of outreach to communities by Ministers and senior officials on important foreign policy issues.

Freedom of Information

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to volume 2, page 41 of his Department's Annual Report for 2008-09, what proportion of the requests for information under the Freedom of Information Act 2000 received in 2008 were from foreign embassies, high commissions or governments; what proportion of such requests resulted in full or partial disclosures of information; and if he will make a statement. [286244]

Chris Bryant: Freedom of Information requests received at the Foreign and Commonwealth Office are recorded and logged on a database by the date received and by the name of the requestor.

Information about the company or organisation the requestor may represent is not recorded. Requests from foreign embassies, high commissions or governments cannot therefore be identified without incurring disproportionate cost.

Honduras: Politics and Government

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the authorities in Honduras on the principle of democracy and the restoration of the government and President Zelaya. [286830]

Chris Bryant *[holding answer 14 July 2009]:* As Foreign and Commonwealth Office Minister responsible for our relations with central America, I issued an immediate public statement on 28 June 2009 following President Zelaya's forcible removal from Honduras. In this statement the UK condemned the expulsion and called for the restoration of democratic, constitutional government in Honduras. The UK supported the UN General Assembly Resolution, adopted unanimously on 30 June 2009, which called for the restoration of the government in Honduras. We have also supported a series of EU declarations, issued on 29 June 2009, 2 July 2009 and 7 July 2009. The most recent of these declarations supported efforts to seek a peaceful negotiated solution to the crisis, and welcomed the mediation role played by President of Costa Rica, Oscar Arias.

Iran: Asylum

David Howarth: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with Ministerial colleagues on the effect on policy on Iranian asylum seekers of the recent unrest in Iran. [286307]

Mr. Ivan Lewis: None. However, Foreign and Commonwealth Office and Home Office officials regularly review the country guidance on which asylum decisions are based. We continue to monitor closely the political and human rights situation in Iran through key governmental, non-governmental and other human rights organisations.

All Iranian asylum and human rights applications are considered by the Home Office on their individual merits, in accordance with obligations under the 1951 UN Refugee Convention and the European Convention on Human Rights. Each application is assessed against the latest available information about the situation in Iran. Specially trained case owners consult these sources via the Iran Country of Origin Information Report produced by the UK Border Agency's Country of Origin Information Service published at

http://www.homeoffice.gov.uk/rds/country_reports.html#countries

and the Iran Operational Guidance Note which gives guidance on the most common types of asylum claims received and the circumstances in which they are likely to prove founded or unfounded.

Israel

Mr. Letwin: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to the government of Israel on the reported boarding of, and removal of persons from, a Free Gaza boat in international waters by Israeli troops; and if he will make a statement. [284127]

Mr. Ivan Lewis: My right hon. Friend the Foreign Secretary spoke to his Israeli counterpart, Avigdor Lieberman, on 1 July 2009 and raised the issue with him. The Foreign Secretary asked whether or not the Spirit of Humanity was intercepted in international waters. We will continue to press the Israeli Government for clarification.

Northern Ireland

Sammy Wilson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many residents of Northern Ireland received consular assistance from his Department in the last year for which figures are available. [287020]

Chris Bryant: The configuration of our consular database does not make it possible to break down assistance statistics by place of residence. Figures for the number of Northern Ireland residents assisted are therefore not available.

Palestinians: Israel

Dr. Starkey: To ask the Secretary of State for Foreign and Commonwealth Affairs whether officials of his Department have held recent meetings with

representatives of labour rights groups in Israeli settlements in the occupied Palestinian territory to discuss labour conditions in that territory. [287157]

Mr. Ivan Lewis: There have been no recent meetings.

Dr. Starkey: To ask the Secretary of State for Foreign and Commonwealth Affairs whether his Department has received requests from UK companies for advice on obligations under international law in respect of trade with Israeli settlements in the occupied Palestinian territory in the last 12 months. [287160]

Mr. Ivan Lewis: We consider all settlements in the Occupied Palestinian Territories to be illegal under international law, and a serious obstacle to peace, and have made this position clear.

The import of goods from settlements was discussed at a roundtable meeting hosted by Cabinet Office officials regarding proposed voluntary guidance on the labelling of settlement produce in March. That meeting was attended by representatives of Government, retailers and some UK companies.

We have not provided legal advice on UK companies' obligations in relation to trade with Israeli settlements, on which UK companies should of course take their own independent advice.

Travel Information: Finance

Mr. Watson: To ask the Secretary of State for Foreign and Commonwealth Affairs how much his Department has spent on its Know Before You Go initiative in each year since 2001; and if he will make a statement. [287022]

Chris Bryant: The Foreign and Commonwealth Office (FCO)'s Know Before You Go campaign encourages travellers to be better prepared before going overseas so they can stay safe and healthy. Our key messages encourage travellers to take out comprehensive travel insurance, find out about the country they are intending to visit, and read our travel advice. Publicity initiatives include, for example, maintaining a dedicated section of the FCO web site, producing bespoke media campaigns to reach our key target audiences, working with over 300 campaign partners to deliver travel safety messages directly to travellers and producing television fillers shown in free-to-air airtime.

Spending on the Know Before You Go initiative since 2001 is as follows:

	£
2001-02	754,939.00
2002-03	616,447.00
2003-04	611,819.00
2004-05	[1]
2005-06	[1]
2006-07	924,000
2007-08	1,132,768
2008-09	1,494,126

[1] Figures unavailable

Turkey: EU Accession

Mrs. Curtis-Thomas: To ask the Secretary of State for Foreign and Commonwealth Affairs what his policy is on Turkey's accession to the EU; and what recent discussions he had with his *(a)* French and *(b)* German counterparts on Turkish accession. [285242]

Chris Bryant: The Government remain a strong advocate and supporter of Turkish accession to the EU, and reaffirm this at each possible opportunity. The UK works closely with other EU member states to take forward the accession negotiations and supports Turkey's reform process to ensure that EU negotiations remain on track.

My right hon. Friend the Foreign Secretary regularly meets his French and German counterparts. He met France's Foreign Affairs Minister, Bernard Kouchner, most recently at the France summit in July where they discussed political and technical issues in relation to the EU accession negotiations.

Baroness Kinnock of Holyhead, the Minister for Europe, recently met her French counterpart, Pierre Lellouche, to whom she emphasised that the EU accession process was key to reforms in Turkey. Baroness Kinnock spoke in early July to her German counterpart, Gunther Gloser, about EU issues, including enlargement.

NORTHERN IRELAND

Crime Prevention

Sammy Wilson: To ask the Secretary of State for Northern Ireland how many Serious Crime Prevention Orders have been issued in Northern Ireland to date. [286873]

Paul Goggins: There have been four serious crime prevention orders issued in Northern Ireland to date.

Damian McBride

Mr. Maude: To ask the Secretary of State for Northern Ireland on what date he last met Mr. Damian McBride in the course of his official duties. [287421]

Mr. Woodward: I have not met with Mr. Damian McBride in the course of my official duties.

Departmental Data Protection

Jenny Willott: To ask the Secretary of State for Northern Ireland how many *(a)* attempts and *(b)* successful attempts were made to gain unauthorised access to each (i) database and (ii) ICT system run by his Department in each of the last five years; and if he will make a statement. [286542]

Paul Goggins: The Northern Ireland Office does not maintain a record of unsuccessful attempts to gain unauthorised access to its databases or ICT systems. There have been no successful attempts to gain access to any departmental databases or ICT systems in the last five years.

Kidnapping

Mr. Paterson: To ask the Secretary of State for Northern Ireland how many so-called tiger kidnappings have been carried out in Northern Ireland in the last 12 months. [287570]

Paul Goggins: The figures are recorded per financial year. In the last year (April 2008 to March 2009), there have been six tiger kidnaps carried out in Northern Ireland.

Mr. Paterson: To ask the Secretary of State for Northern Ireland how many people were arrested for offences connected with so-called tiger kidnappings in Northern Ireland in the last 12 months. [287571]

Paul Goggins: That is an operational matter for the chief constable. I have asked him to reply directly to the hon. Member, and a copy of his letter will be placed in the Library of the House.

Northern Ireland Forensic Science Agency

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what the cost to the public purse of Forensic Science Northern Ireland was in the 12 months *(a)* before and *(b)* after the changes made to its Operations Directorate in January 2008. [286315]

Paul Goggins: The information requested is as follows:

(a) For the year 1 January 2007 to 31 December 2008 the costs were £9,982,252.

(b) For the year 1 January 2008 to 31 December 2009 the costs were £10,488,500.

The figures provided reflect the sum total of all the changes in FSNI and do not relate solely to changes made to the Operations Directorate.

Proceeds of Crime

Sammy Wilson: To ask the Secretary of State for Northern Ireland what proportion of assets recovered from organised crime in Northern Ireland the Community Fund will allocate to communities in Northern Ireland. [286674]

Paul Goggins: In June I announced the establishment of a dedicated Community Fund for Northern Ireland which this year will give £175,000 to the Departments of Social Development and Culture, Arts and Leisure for distribution to NI communities most affected by crime.

Terrorism

Mr. Paterson: To ask the Secretary of State for Northern Ireland how many armed robberies are known to have been carried out by *(a)* dissident republicans and *(b)* loyalist paramilitaries in Northern Ireland in each of the last 12 months. [287581]

Paul Goggins: That is an operational matter for the Chief Constable. I have asked him to reply directly to the hon. Member, and a copy of his letter will be placed in the Library of the House.

OLYMPICS

Departmental Data Protection

Mr. Blunt: To ask the Minister for the Olympics how many breaches of information security there have been at her Office in the last five years. [281075]

Tessa Jowell: My ministerial portfolio requires my Office to operate across the estates of the Cabinet Office and Department for Culture, Media and Sport. I therefore refer the hon. Member to the answers to be provided by the Minister of State, Cabinet Office (Angela E. Smith) and the Secretary of State for Culture, Media and Sport.

Olympic Games 2012: Employment

Alistair Burt: To ask the Minister for the Olympics what percentage of construction workers employed at the Olympic Park are *(a)* UK, *(b)* other EU and *(c)* non-EU nationals. [285109]

Tessa Jowell: The latest available nationality data provide a snap shot of the contracted work force at the end of October 2008, and were published by the Olympic Delivery Authority (ODA) in December 2008. These data showed that of the 3,046 people employed on the Olympic Park at that time:

(a) 63 per cent. were British

(b) 86 per cent. were EU nationals and

(c) 14 per cent. non-EU nationals.

The ODA works closely with the UK Border Agency to ensure that all workers on the site are legally entitled to work in the UK.

The work force reflects both the diversity of London and the five host boroughs. The GLA 2006 annual population survey (published 2008) found that the percentages of five host borough residents born outside of the UK were: Newham 44 per cent; Tower Hamlet 39 per cent; Hackney 37 per cent; Waltham Forest 29 per cent; Greenwich 22 per cent. A whole range of measures has been put in place by the ODA and its partners to ensure local people are well placed to benefit from employment and training on the Olympic site including 48 hours exclusive access to vacancies through local job brokerage services.

Olympic Games 2012: Lancashire

Mr. Evans: To ask the Minister for the Olympics what recent assessment she has made of the economic effects of the London 2012 Olympics on *(a)* Ribble Valley constituency and *(b)* Lancashire. [282260]

Tessa Jowell *[holding answer 29 June 2009]:* This Government are fully committed to maximising the economic benefits of the Games to the UK, particularly in these challenging economic times. Although no specific assessment has been made of the economic effects to the Ribble Valley constituency and Lancashire, the region stands to gain from a range of opportunities created by the Games. These include businesses winning Games-related work, increased tourism, as well as training and employment opportunities. The pre-Games training camps will enable regions to showcase themselves on an

international stage and attract inward investment, and UKTI is helping businesses to use the Games as a springboard for export.

We are already seeing progress in these areas. For example, 37 of the Olympic Delivery Authority's direct suppliers are businesses registered in the north-west; of these nine are in Lancashire, and two of these are registered in the Ribble Valley constituency. As well as these direct contracts, companies in the north-west are also winning businesses in the supply chains for the Games—for example, a Bolton-based company is providing steel for the Olympic Stadium. LOCOG's procurement will begin in earnest towards the end of the year, bringing further opportunities to businesses across the UK, including the north-west.

The London 2012 Business Network is providing businesses across the UK access to Games-related contracts, and any support they need to compete for them. CompeteFor, the electronic brokerage service for buyers and suppliers, a key component of the network, is opening up supply chains further than any Games previously.

A total of 68 facilities in the region are included in the official London 2012 Pre-Games Training Camp Guide. A Memorandum of Understanding has been signed between the North West Development Agency and the Oceania National Olympic Committees (representing 17 National Olympic Committees but excluding Australia and New Zealand). These 15 Pacific Island countries including Fiji and Papua New Guinea will use facilities in the region ahead of the Games in 2012.

Olympic Games 2012: Transport

Mr. Greg Knight: To ask the Minister for the Olympics pursuant to the answer of 10 February 2009, *Official Report*, columns 1889-90W, on Olympic Games 2012: transport, what further steps she has taken to ensure than hon. and right hon. Members will not be delayed in travelling to the House during the period of the London 2012 Olympics; and if she will make a statement. [284791]

Tessa Jowell *[holding answer 8 July 2009]*: Further to my response to the hon. Member on 10 February 2009, *Official Report*, column 1890W, I can confirm that the ODA continues to progress and develop its planning of the transport operations that will keep London moving during the Games. As the London Olympic Games and Paralympic Games Act requires the ODA to keep its Olympic Transport Plan under review, the ODA intends to publish a revised plan in 2010 to update on the latest progress in ensuring safe, reliable and accessible transport for all London's visitors, residents and commuters—including Members of Parliament—over the duration of both the Olympic Games and Paralympic Games.

TRANSPORT

Aviation: Lasers

Mr. Grieve: To ask the Minister of State, Department for Transport how many reported instances there were of aircraft safety being impaired by misuse of laser pointers in each of the last three years. [286778]

Paul Clark: The information requested is provided in the following table:

	Number of laser incidents reported
2006	8
2007	30
2008	206

The chart is from the Safety Data Department in the Civil Aviation Authority. It includes incidents reported in the UK and incidents overseas involving UK registered aircraft.

Under Article 142 of the Air Navigation Order (ANO) pilots experiencing lasers directed at them are asked to report the event using the Mandatory Occurrence Reporting Scheme. The CAA follows up each report and, where appropriate, prosecutes the offender.

The Department for Transport is working on an amendment to Article 135 of the ANO to make it a specific offence to direct or shine light intentionally at an aircraft. The amendment will be published in the consolidated version of the ANO which will come into force in the autumn.

Cycling: Hampshire

Sandra Gidley: To ask the Minister of State, Department for Transport how many *(a)* fatal and *(b)* non-fatal accidents involving cyclists were recorded on the roads in (i) Test Valley Borough and (ii) Southampton in each of the last five years. [287762]

Paul Clark: The number of *(a)* fatal and *(b)* non-fatal reported personal injury road accidents involving cyclists in (i) Test Valley borough and (ii) Southampton in each of the last five years are given in the table:

					Number of accidents
	2004	*2005*	*2006*	*2007*	*2008*
Test Valley					
Fatal	0	1	1	0	1
Non-fatal	21	16	31	30	26
Southampton					
Fatal	0	0	1	1	2
Non-fatal	102	92	115	120	116

Departmental Accountancy

Steve Webb: To ask the Minister of State, Department for Transport, when he expects to publish his Department's resource accounts for 2008-09. [287343]

Chris Mole: The Department for Transport has laid a combined annual report and accounts for 2008-09 in Parliament today. The resource accounts were certified by the Comptroller and Auditor General on 13 July.

Departmental Conditions of Employment

John McDonnell: To ask the Minister of State, Department for Transport what his Department's equality impact assessment is of its new probation

policy in relation to disability; and if he will make a statement. [287207]

Chris Mole: The Central Department completed an equality impact assessment of its new probation policy and assessed it as having low negative impact. We are under a legal duty to make reasonable adjustments to ensure disabled persons are not placed at a substantial disadvantage in comparison to those persons who are not disabled. This applies to our new probation policy and HR will monitor and review the process to ensure this is given full effect.

John McDonnell: To ask the Minister of State, Department for Transport for what reasons his Department's new probation policy does not give probationers the right to bring a grievance concerning the extension of probation. [287208]

Chris Mole: The Department's new probation policy complies with the ACAS Code of Practice on discipline and grievance. Moreover, it is essential for ensuring good administration that the Department manages performance effectively and requires that all new employees demonstrate their suitability for the role for which they have been employed. While a specific grievance procedure is not available in respect of decisions to extend, a probationary employee has a right to appeal against a decision to terminate their employment.

Departmental Pay

John McDonnell: To ask the Minister of State, Department for Transport who is responsible for the pay remit for each of his Department's agencies. [287205]

Chris Mole: Pay remits are prepared by or on behalf of each Agency's Chief Executive. Each Chief Executive is responsible for the pay remit of their Agency.

Departmental Performance Appraisal

John McDonnell: To ask the Minister of State, Department for Transport what proportion of *(a)* male and *(b)* female staff of his central Department have received the highest appraisal marking in each reporting year since the formation of the central Department. [287206]

Chris Mole: The proportions and numbers of staff, by gender, who have been appraised as "exceeded" (the highest appraisal mark) since the formation of the central Department for Transport in 2002 are set out in the following table.

	Female	*Total*	*Percentage*	*Male*	*Total*	*Percentage*
2002-2003	140	446	31.39	168	732	22.95
2003-2004	169	555	30.45	237	965	24.56
2004-2005	182	640	28.44	238	1039	22.91
2005-2006	191	697	27.40	274	1148	23.87
2006-2007	190	665	28.57	304	1105	27.51
2007-2008	204	649	31.43	287	1084	26.48

Driving Standards Agency: Pay

Bob Spink: To ask the Minister of State, Department for Transport how much was paid in bonuses to *(a)* directors, *(b)* senior managers, *(c)* specialist and delivery managers and *(d)* executive support and administration staff in the Driving Standards Agency in each of the last five years. [280617]

Paul Clark: Bonus payments to *(a)* directors are managed by the Department for Transport (Central Department). I refer the hon. Member to our answer of 26 November 2008, *Official Report*, columns 1567-68W.

A comprehensive breakdown of *(b)* senior managers, *(c)* specialist and delivery managers and *(d)* executive support and administration staff in the Driving Standards Agency can be provided only at disproportionate cost. However, total figures for each of the last five financial years are as following:

Financial year	*Pay bands 1-7 (£)*
2003-04	1,138,579
2004-05	320,809
2005-06	692,107
2006-07	1,180,160
2007-08	672,714

Driving: Working Hours

Norman Baker: To ask the Minister of State, Department for Transport what assessment he has made of the merits of seeking an exemption from the EU drivers' hours directive for those who drive horseboxes over 7.5 tonnes for recreational purposes; and if he will make a statement. [286330]

Paul Clark: Given the flexibilities which already exist within the EU drivers' hours rules (Regulation (EC) No. 561/2006), we see little prospect of the European Commission agreeing to a UK request to exempt recreational drivers of horseboxes over 7.5 tonnes.

It should still be possible for those in full-time employment who drive large horseboxes recreationally to schedule a reduced weekly rest period of 24 hours immediately before the equestrian event in question, or in between driving to and from the event (i.e. at the event itself) without the need for a derogation.

East Coast Railway Line

Mr. Gordon Prentice: To ask the Minister of State, Department for Transport what the administrative and legal costs to the public purse of the franchising process were on each occasion when the East Coast Main Line franchise was let. [286722]

Chris Mole *[holding answer 14 July 2009]:* The costs to the Department for Transport for undertaking the re-franchising of the Inter City East Coast (ICEC) franchise in 2007 were £1,260,000 of which legal costs were £168,000. These costs were recovered from Sea Containers, Great North Eastern Railway's (GNER) parent company, under an agreement made between the Department and Sea Containers prior to GNER handing back the East Coast franchise.

The previous re-franchising in 2005 was undertaken by the Strategic Rail Authority, in the normal course of business, at the end of GNER's franchise term at an additional cost of £2,362,000 of which legal costs were £408,000.

The costs incurred by the Office of Passenger Rail Franchising in the original letting of the franchise in 1996 and the extension of the franchise in 2003 by the Strategic Rail Authority could be provided only at disproportionate cost.

The costs of any re-franchising prior to the end of the full term of the current franchise are recoverable from a performance bond that will fall due under the current franchise agreement.

EU Laws

Bob Spink: To ask the Minister of State, Department for Transport (1) what estimate he has made of the proportion of statutory obligations provided for by legislation on matters for which his Department is responsible which were introduced as a consequence of obligations arising from EU legislation in the latest period for which figures are available; [281860]

(2) what estimate he has made of the cost to his Department of the statutory obligations upon it provided for in legislation on matters for which it is responsible which were introduced as a consequence of obligations arising from EU legislation in the most recent 12 months for which figures are available. [283471]

Mr. Khan: The information requested could be provided only at disproportionate cost. It is very difficult to provide precise figures for the proportion of UK legislation that stems from the European Union (EU).

The administrative burdens measurement exercise carried out by the Government in 2006 put the proportion of administrative burdens stemming from the EU at approximately one third of the total administrative burden.

The important thing is not the origins of a legislation, which could of course be a devolved Administration or a local authority, as well as the Government or the EU, but the quality of the regulation. All regulations, irrespective of their origins, should comply with the principles of better regulation. Regulations should be risk based, proportionate and well designed, so as to achieve their objectives while also keeping costs to a minimum. The Government continue to work with European partners to ensure that EU regulations meet these standards.

Members: Correspondence

Mr. Paul Goodman: To ask the Minister of State, Department for Transport when he plans to respond to the letter from the hon. Member for Wycombe of 13 May 2009 on Wycombe Air Park. [287178]

Paul Clark: The Department for Transport has no record of receiving a letter dated 13 May 2009 from the hon. Member for Wycombe regarding Wycombe Air Park.

Motorcycles: Driving Instruction

Lembit Öpik: To ask the Minister of State, Department for Transport if he will publish the findings of the research commissioned by his Department, entitled In Depth Study of Motorcycle Training, due to have been completed in October 2007. [286963]

Paul Clark: We plan to publish the findings of the in depth study of motorcycle training by October 2009. The study was largely complete by early 2008 and provisional results were taken into account by the Driving Standards Agency in the design of the new motorcycle test that was introduced in April 2009. The report is currently being finalised by the research contractor, mainly to ensure it reflects changes to the testing regime.

Railways: Electrification

Mr. Sanders: To ask the Minister of State, Department for Transport how his Department co-ordinates its policy on electrification of rail routes with its procurement of rolling stock. [287149]

Chris Mole: The case for electrifying more of the rail network depends heavily on having suitable new or cascaded rolling stock to run on newly electrified lines. Consequently, the Department for Transport is incorporating rolling stock procurement and cascade issues into its analysis of electrification proposals.

Railways: Franchises

Mark Lazarowicz: To ask the Minister of State, Department for Transport if he will estimate the cost to the public purse of returning all rail franchises to public ownership. [286592]

Chris Mole: It is not the policy of the Government to operate rail franchises permanently in the public sector. In situations where the Government is obliged to do so on a temporary basis in order to fulfil its Operator of Last Resort duties under section 30 of the Railways Act 1993 the costs are usually met from the franchise's performance bond.

John McDonnell: To ask the Minister of State, Department for Transport how much revenue support *(a)* First Great Western, *(b)* First Capital Connect, *(c)* National Express East Anglia, *(d)* Northern Rail and *(e)* Virgin West Coast have received from his Department under the terms in their respective franchise agreements to date. [286899]

Chris Mole *[holding answer 14 July 2009]:* Details of the money received and paid out under the revenue support and share arrangements between 2006-07 and 2008-09 are set out in the following table. No revenue support payments were made to these franchises under their franchise agreements prior to this:

£ million

Train operating company (TOC)	2008-09	2007-08	2006-07
Revenue support paid			
First Great Western	47.8	0.0	0.0
First Capital Connect	0.0	0.0	0.0
National Express East Anglia	14.0	0.0	3.3
Northern rail	0.0	0.0	0.0
Virgin West Coast	0.0	0.0	0.0
Total revenue support paid	61.8	0.0	3.3
Revenue share received			
Northern Rail	7.8	6.3	2.3
Virgin West Coast	33.0	0.0	0.0
Total revenue share received	40.8	6.3	2.3

Mr. Sanders: To ask the Minister of State, Department for Transport what his policy is on competition on the rail network; and if he will assess the level of competition between the train operating companies serving Torquay and Paignton stations. [287150]

Chris Mole: The Department for Transport does not have a policy to achieve a defined level of competitive pressure between train operators offering the same journey, and in many parts of the rail network there is a single operator.

The Office of the Rail Regulator has concurrent jurisdiction with the Office of Fair Trading to investigate potential breaches of the Competition Act 1998 in relation to the railways, and is also responsible for determining access rights for any open access train operators who may apply to operate a complementary and competitive rail service.

Roads: Construction

Harry Cohen: To ask the Minister of State, Department for Transport how much capital expenditure his Department has incurred on constructing new roads in each of the last 20 years. [285598]

Mr. Khan: The following table provides information on net spend on Highways Agency major improvements since 1998-99. Information before this is not readily available due to systems and accounting changes and could be provided only at a disproportionate cost.

	Funding (£ million)
1998-99	452
1999-2000	318
2000-01	299
2001-02	424
2002-03	483
2003-04	235
2004-05	317
2005-06	483
2006-07	814
2007-08	759
2008-09	725

Note:
1998-99 to 2000-01 are outturns on a cash accounting basis; figures from 2001-02 onwards are on a resource accounting basis.
